Dear Senator Carson, Representative Tucker and members of the ENR committee

Please support the bill LD 401 to Preserve State Landfill Capacity and Promote Recycling.

It is so important for us to our utmost to keep our state as free as possible from unnecessary waste so that future generations can enjoy the benefits of living in such a beautiful state that cares for its people and for its physical environment.

I am an avid recycler and pick up trash I find in the road. Please continue to make sure that our waste is disposed of in the best way possible to preserve our environment.

Yours sincerely

Margie Spencer-Smith
