including but not limited to cellular phones, unless the marketing is a mobile
device application installed on the device by the owner of the device who is
21 years of age or older and includes a permanent and easy opt-out feature.

(3) A magazine whose primary focus is marijuana or marijuana businesses may
be sold only in a retail marijuana store or behind the counter in an establishment

The maximum plant canopy size for a retail marijuana cultivation facility license is 15,000 square feet. For the lowest retail marijuana cultivation facility license tier, an application fee may not exceed $100 and the license fee may not exceed $500. For the highest retail marijuana cultivation facility license tier, the application fee may not exceed $500 and the license fee may not exceed $15,000. The licensure class system must also provide for licenses authorizing the operation of small cultivator cooperatives, and the state licensing authority shall also consider any recommendations made as part of the report described under section 2458. For the first year of implementation of the licensure class system, no more than 40% of the marijuana cultivation facility licenses issued may authorize more than 3,000 square feet of plant canopy. The state licensing authority may not license multiple retail marijuana cultivation facilities on a single parcel or tract of land that would allow more than a total of 15,000 square feet of plant canopy among all licensees operating on that single parcel or tract of land. Agriculture, Conservation and Forestry state licensing authority may not make
rules that are unreasonably impracticable concerning the tracking of marijuana

marijuana products manufacturing facility from a licensed retail marijuana
cultivation facility to the point of transfer to a licensed retail marijuana store,
retail marijuana social club or retail marijuana testing facility.

B. A retail marijuana products manufacturing facility licensee may not:

(1) Add any marijuana to a food product if the manufacturer of the food product
holds a trademark to the food product's name, except that a retail marijuana

the licensee uses the product as a component or as part of a recipe and if the
licensee does not state or advertise to the consumer that the final retail marijuana
product contains a trademarked food product;

(2) Intentionally or knowingly label or package a retail marijuana product in a
manner that would cause a reasonable consumer confusion as to whether the
retail marijuana product was a trademarked food product;

law or regulation; or

kitchens by the Department of Health and Human Services.

(3) Retail marijuana products must be packaged, sealed and conspicuously
labeled in compliance with this chapter and any rules adopted pursuant to this
chapter.

(4) A retail marijuana products manufacturing facility licensee may provide a
sample of the licensee's products to a licensed retail marijuana testing facility
pursuant to subsection 6 for testing and research purposes. A retail marijuana
products manufacturing facility licensee shall maintain a record of what was
provided to the retail marijuana testing facility, the identity of the testing facility
and the results of the testing.

(5) A retail marijuana products manufacturing facility licensee may list
ingredients and compatibility with dietary practices on an edible retail marijuana
product.

(6) All retail marijuana products that require refrigeration to prevent spoilage
must be stored and transported in a refrigerated environment.

D. Nothing in this chapter may be construed to limit a law enforcement agency's
ability to investigate unlawful suspected criminal activity in relation to a retail
marijuana establishment. A law enforcement agency may run a Maine criminal
history record check of a licensee, or employee of a licensee, during an investigation
of unlawful suspected criminal activity related to retail marijuana and retail marijuana
products.
E. Retail marijuana products may be transported between a licensed retail marijuana products manufacturing facility and retail marijuana stores, other retail marijuana products manufacturing facilities, retail marijuana social clubs and retail marijuana testing facilities. Upon encountering the representative of a retail marijuana products manufacturing facility licensee who is transporting marijuana and marijuana products on behalf of the licensee, a law enforcement officer shall presume that the transportation of marijuana and marijuana products by the representative is legal and in compliance with this chapter.

A person who is a registered caregiver or who has an interest in a registered dispensary or in a retail marijuana store, a retail marijuana social club, a retail marijuana cultivation facility or a retail marijuana products manufacturing facility licensed under this chapter may not have an interest in a retail marijuana testing facility licensed under this chapter. For purposes of this paragraph, "interest" means an ownership interest or partial ownership interest or any other type of financial interest, including, but not limited to, being an investor or serving in a management position.

B. Retail marijuana and retail marijuana products may be transported between a retail marijuana testing facility and a retail marijuana cultivation facility, a retail marijuana products manufacturing facility, a retail marijuana store and a retail marijuana social club. 11. License terms. All licenses under this chapter are effective for one year from the date of issuance.

12. License renewal. The following provisions govern license renewals.

A. Ninety days prior to the expiration date of an existing license, the state licensing authority shall notify the licensee of the expiration date by first class mail at the licensee's address of record with the state licensing authority. A licensee may apply for the renewal of an existing license to the state licensing authority not less than 30 days prior to the date of expiration. Upon receipt of an application for renewal of an existing license and any applicable fees, the state licensing authority shall, within 7 days, submit a copy of the application to the appropriate municipality to determine whether the application complies with all local restrictions on renewal of licenses.

B. The state licensing authority may not accept an application for renewal of a license after the date of expiration, except that the state licensing authority may extend the expiration date of the license and accept a late application for renewal of a license as long as the applicant has filed a timely renewal application with the municipality. The state licensing authority or the municipality, in its discretion, subject to the requirements of section 2447 and based upon reasonable grounds, may waive the 30-day time requirements set forth in this subsection.

C. 16. Disciplinary actions. In addition to any other sanctions prescribed by this chapter, or rules adopted pursuant to this chapter, the state licensing authority has the power, on its own motion or on complaint, after investigation and opportunity for a public hearing at which the licensee must be afforded an opportunity to be heard, to fine a licensee or to suspend or revoke a license issued by the state licensing authority for a violation by the licensee, or by any of the agents or employees of the licensee, of the provisions of this chapter or of any of the rules adopted pursuant to this chapter or of any of the terms, conditions or provisions of the license issued by the state licensing authority. The state licensing authority has the power to administer oaths and issue subpoenas to require the presence of persons and the production of papers, books and records necessary for a hearing that the state licensing authority is authorized to conduct.

Except in the case of a summary suspension, a suspension may not be for a period longer than 6 months. If a license is suspended or revoked, a part of the fees paid must be retained by the state licensing authority.

Whenever a decision of the state licensing authority suspending a license for 14 days or less becomes final, the licensee may, before the operative date of the suspension, petition for permission to pay a fine in lieu of having the license suspended for all or part of the suspension period. Upon the receipt of the petition, the state licensing authority may, in its sole discretion, stay the proposed suspension and cause any investigation to be made that it considers desirable and may, in its sole discretion, grant the petition if the state licensing authority is satisfied that:

A. The public welfare would not be impaired by permitting the licensee to operate during the period set for suspension and that the payment of the fine will achieve the desired disciplinary purposes; and

B. The books and records of the licensee are kept in such a manner that the loss of sales that the licensee would have suffered had the suspension gone into effect can be determined with reasonable accuracy.

The fine imposed may not be less than $500 nor more than $10,000. Payment of a fine pursuant to the provisions of this subsection must be in the form of cash or in the form of a certified check or cashier's check made payable to the state licensing authority.

Upon payment of the fine pursuant to this subsection, the state licensing authority shall enter its order permanently staying the imposition of the suspension. Fines paid to the
state licensing authority pursuant to this subsection must be transmitted to the Treasurer of State.

In connection with a petition pursuant to this subsection, the authority of the state licensing authority is limited to the granting of such stays as are necessary for the state licensing authority to complete its investigation and make its findings and, if the state licensing authority makes such findings, to the granting of an order permanently staying the imposition of the entire suspension or that portion of the suspension not otherwise conditionally stayed.

If the state licensing authority does not make the findings required in this subsection and does not order the suspension permanently stayed, the suspension goes into effect on the operative date finally set by the state licensing authority.

No later than January 15th of each year, the state licensing authority shall compile a report of the preceding year's actions in which fines, suspensions or revocations were imposed by the state licensing authority. The state licensing authority shall include this information in its annual report to the Legislature.

Every licensee is deemed, by virtue of applying for, holding or renewing that licensee's license, to have expressly consented to the procedures set forth in this subsection.

B. If the state licensing authority issues a final agency order imposing a disciplinary action against a licensee pursuant to subsection 16, then, in addition to any other remedies, the state licensing authority's final agency order may specify that some or all of the licensee's marijuana or marijuana products is not retail marijuana or a retail marijuana product and is an illegal controlled substance. The order may further specify that the licensee loses any ownership interest in any of the marijuana or marijuana products even if the marijuana or marijuana products previously qualified as retail marijuana or a retail marijuana product. The final agency order may direct the destruction of any such marijuana and marijuana products. The authorized destruction may include the incidental destruction of any containers, equipment, supplies and other property associated with the marijuana or marijuana products.

C. A district attorney, or an assistant attorney general, shall notify the state licensing authority if an investigation of a retail marijuana establishment or retail marijuana social club is commenced. COMMITTEE AMENDMENT “...” to H.P. 1199, L.D. 1719

SUMMARY

This amendment replaces the bill and is the minority report of the committee. Under this amendment, as directed by a revision clause, the term "marijuana" will be replaced with the term "cannabis" in the Maine Revised Statutes. This amendment makes the following changes to the Marijuana Legalization Act, referred to in this summary as "the Act."

1. It changes provisions in the Act that authorize the state licensing authority, which is the Department of Administrative and Financial Services, to delegate rulemaking to other state agencies as cited under the Act to say that the state licensing authority may, or in some instances must, consult with those agencies regarding rulemaking.

2. It expands the type of retail marijuana licenses that may be established under the Act to include transportation licenses, delivery services licenses, storage service licenses, research licenses and special event licenses for on-premises consumption of marijuana.

3. It directs the state licensing authority to ensure that the license privileges encourage competition with the unregulated marijuana market and allow for small-scale cultivators and products manufacturers to have a streamlined application process for licenses that authorize retail sales directly to consumers.

4. It provides that law enforcement, upon encountering a representative of a retail marijuana licensee transporting marijuana, must presume that the possession, cultivation and transportation of the marijuana is legal and in compliance with the Act. This presumption of lawful possession, cultivation and transportation of marijuana is also applied to a person 21 years of age or older.

5. It amends the several provisions in the Act that state the Act is not intended to limit law enforcement authority to investigate unlawful activity related to a retail marijuana establishment to clarify that law enforcement's role is to investigate only suspected criminal activity as the Act authorizes the state licensing authority to regulate retail marijuana licensees for other violations related to the operation of a licensed establishment.

6. It amends the definition of "plant canopy" to include in the calculation of plant canopy only those areas in which mature marijuana plants are to be cultivated.

7. It repeals the statewide cultivation cap under the Act and establishes a new structure for retail marijuana cultivation facility licenses that allows for, among other cultivation license types, nursery cultivation facilities and small cultivator cooperatives.

8. It requires licenses for licensed retail marijuana establishments and social clubs to prohibit the licensees from transferring information to an official with the Federal
Government regarding any person who transacts business with the licensees unless presented with a court order or search warrant.

9. It allows for the consumption of marijuana on the premises of a retail marijuana store licensee that is not licensed as a social club under a temporary license issued by the state licensing authority or under a permanent license issued by the state licensing authority as part of a licensing pilot project.

10. It permits a municipality to impose a licensing fee and a public health and safety impact fee on marijuana licensees within the municipality and also allows for a local option sales tax.

11. It specifies that the Act, or rules adopted pursuant to the Act, may not be construed as altering existing penalties, including those relating to actions such as operating vehicles while impaired by marijuana, or laws prohibiting furnishing marijuana to persons under 21 years of age or the possession of marijuana on the grounds of a public or private school where children attend classes or as altering other similar laws governing marijuana.

12. It provides protections of parental rights similar to those under the Maine Medical Use of Marijuana Act pertaining to the lawful possession or consumption of marijuana.

13. It prohibits a law enforcement officer from engaging in profiling or taking action resulting from profiling to enforce provisions of the Act. The amendment provides a definition of profiling.

14. It provides that the Retail Marijuana Regulatory Coordination Fund must be used to support public and behavioral health programs and services, including evidence-based substance abuse prevention and treatment programs, and for training municipal police in restorative justice and other programs mitigating negative social impacts.

15. It establishes a working group on retail marijuana energy and environmental standards, the Special Commission on Impaired Driving and the Marijuana Advisory Commission. It also directs the development of a marijuana research agenda and a craft marijuana report regarding marijuana industry participation of farmers and businesses of all sizes.

16. It establishes a retail sales tax rate of 17.5% on marijuana sold by licensees under the Act.

17. It requires that rules required under the Act must be provisionally adopted by December 1, 2018. In adopting such rules, the state licensing authority must consider proposals considered by the Joint Select Committee on Marijuana Legalization Implementation as amendments to the Marijuana Legalization Act.

18. It directs the Department of Public Safety, Bureau of State Police, State Bureau of Identification to make confidential all records of criminal convictions in the State that relate to convictions for activities that are now authorized under the Act.
19. It adds an appropriations and allocations section.
