**Subject:** Support of LD 620

Dear Mr. Dylan Sinclair,

I am writing to express my support for LD 620. I am concerned about the pollution and water use from the proposed Nordic Aquafarm plant in Belfast and I believe we need common sense laws to protect Maine from the damage of land-based aquafarms. With weaker laws than other states, Maine could be targeted.

As a Unity College instructor and a resident of Belfast, I'm concerned about the pollution in our waterways. I believe this pollution needs to be considered collectively, as this proposed bill states.

Best,  
Sarah
