**STATE OF MAINE  
OFFICE OF THE GOVERNOR  
1 STATE HOUSE STATION  
AUGUSTA, MAINE 04333-0001**

April 10, 2018

The 128th Legislature of the State of Maine

State House

Augusta, Maine

Dear Honorable Members of the 128th Legislature:

Under the authority vested in me by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing LD 630, "An Act To Prohibit Third Parties From Facilitating Transfers of Moose Permits for Consideration."

I am opposed not only to allowing moose permits to be exchanged for different zones but also to asking the department to assist in facilitating such an exchange or having the department adopt rules to implement an exchange of permits.

Moose permits are granted in the State by virtue of a lottery system. The Oxford Dictionary defines a lottery as "a situation whose success or outcome is governed by chance." These elements of chance include the location and timing of when and where the hunt will take place.

Both the number of permits and the types of permits are determined each year by the Department of Inland Fisheries and Wildlife to help the department achieve its herd size goals, namely, to ensure the long-term health and vitality of Maine's moose population across the state.

Those who apply for a permit do so with the anticipation of being able to hunt moose somewhere in Maine during the season. They do so with the full knowledge and understanding that they may need to travel to take advantage of the opportunity should they be successful in winning a permit in the lottery.

For these reasons, I return LD 630 unsigned and vetoed. I strongly urge the Legislature to sustain it.

Sincerely,

S/ Paul R. LePage

Governor

**READ and ORDERED PLACED ON FILE.** Sent for concurrence.

The accompanying item An Act To Prohibit Third Parties from Facilitating Transfers of Moose Permits for Consideration (H.P. 446) (L.D. 630) (C. "C" H-660)

The SPEAKER: The Chair recognizes the Representative from Hudson, Representative Duchesne.

Representative **DUCHESNE**: Thank you, Madam Speaker, Men and Women of the House. This is the third time I've gotten to explain a bill, and I appreciate the opportunity. I'm trying to line up the Chief Executive's veto letter with the facts, and it's not going well.

The SPEAKER: The House will be in order. The Representative may proceed.

Representative **DUCHESNE**: I guess we can just review the letter. The Chief Executive is opposed to allowing moose permits to be exchanged for different zones. You can do that now. You've always been able to do it, and whether this veto is sustained or not, you can still do it, so this veto doesn't actually change anything.

The Chief Executive is opposed to asking the Department to assist in facilitating exchanges. They do that now, and there's nothing in this amended bill that asks the Department to adopt rules or do anything differently. The Chief Executive believes permits should be granted by a lottery system. We do that now. The Chief Executive believes you should only hunt in the zone that you win by lottery. You can already exchange with another permit holder. The Chief Executive appears to be complaining about current law, which the veto would keep in place. The Chief Executive observes that the number and location of permits are set by the Department for proper management of the moose herd. This bill doesn't change that. In fact, it doesn't even mention it.

I honestly don't know what bill the Chief Executive was reading, but it doesn't seem to be this one. So, let me explain what this bill does. You've always been able to exchange permits. Some permits are better than others, and you've always been able to sweeten that deal a little bit in exchange to balance out any differences. But then people started abusing that, and we started to see brokers be a third party and make money off these exchanges, and that violates a fundamental principle of Maine law, that we don't commercialize game.

About three years ago, the Committee tried to fix that. We banned exchanges for a consideration -- not exchanges, but exchanges where consideration is thrown in, but that just punished the hunters when the brokers were the actual problem; so this bill was intended to correct that mistake, and now it bans brokering and holds the brokers accountable. So, if you decide to sustain this veto, here's what happens: if you exchange moose permits and throw in a case of Bud Light, you've committed a Class E offense punishable by a fine of up to \$2,000 and a year of jail; and the broker who's making the money off this walks away. So, I would urge you to override this veto. Thank you, Madam Speaker.

The SPEAKER: The Chair recognizes the Representative from Sinclair, Representative Martin.

Representative **MARTIN**: Thank you, Madam Speaker. Madam Speaker and Ladies and Gentlemen of the House, it's always a tough act to follow my good friend from Hudson, but I will try.

As Representative Duchesne mentioned, I also truly believe that the Chief Executive is confusing LD 630, this legislation, with another piece of legislation that was before us earlier in this session. Having worked at IF&W for several years, and having resided in Aroostook County all of my life, I know a little something about moose, their habitats, and how the Department manages the moose population. The Chief Executive's veto message states that he is opposed to allowing moose permits to be exchanged for different zones. However, the Department already allows swaps for zones and sex for

moose, and the Department already facilitates swaps on permits. This legislation does not, I repeat, it does not change what the Department has historically been doing.

The veto letter also states that both the number of permits and types of permits are determined each year by the Department to help the Department achieve its herd size goals, namely to ensure long-term health of the Maine moose population. I agree. However, LD 630 will have no effect on goals set by the Department, because the number of permits per zone or sex harvest goals do not change; again, do not change. In other words, this bill will not increase the number of permits established by the Department. The bill actually helps the Department to ensure long-term health on moose population by allowing hunters in the zones desired and for sex desired. This bill is just about accommodating hunters' travel desires. Why not accommodate to taxpayers and hunters if everyone benefits? In closing, Madam Speaker, unlike what the Chief Executive's veto suggests, moose do not herd. Again, I would ask you to vote yes, vote green, and follow my light. Thank you, Madam Speaker.

After reconsideration, the House proceeded to vote on the question, 'Shall this Bill become a law notwithstanding the objections of the Governor?' A roll call was taken.

The SPEAKER: The pending question before the House is 'Shall this Bill become a law notwithstanding the objections of the Governor?' All those in favor will vote yes, those opposed will vote no.

Resolve, To Establish a Task Force To Examine Agricultural Issues (EMERGENCY)

(S.P. 646) (L.D. 1747)

(H. "A" H-690 to C. "A" S-388)

TABLED - April 9, 2018 (Till Later Today) by Representative HERBIG of Belfast.

PENDING - **FINAL PASSAGE.**

The SPEAKER: The Chair recognizes the Representative from Newport, Representative Fredette.

Representative FREDETTE: Thank you, Madam Speaker, Ladies and Gentlemen of the House. This particular task force, my understanding is, is a task force that does not require any state funds. There are no legislators on it. It has a very broad latitude in terms of areas that it wants to look at, and certainly agricultural issues in rural Maine are critical to our economy and to our family structures and our culture. So, to the extent that this particular task force can look at the farming -- issues regarding milk today, which I think are critically important, blueberries, potatoes, that very broad array, I think is something that's positive and I will look forward to supporting this, and ask that you follow my light.

This being an emergency measure, a two-thirds vote of all the members elected to the House being necessary, a total was taken. 115 voted in favor of the same and 7 against, and accordingly the Resolve was **FINALLY PASSED**, signed by the Speaker and sent to the Senate.

Resolve, To Establish a Pilot Project To Save Lives and Support People with Substance Use Disorder in Washington County

(S.P. 257) (L.D. 812)

(C. "A" S-444)

Was reported by the Committee on **Engrossed Bills** as truly and strictly engrossed.

The SPEAKER: The Chair recognizes the Representative from Calais, Representative Perry.

Representative PERRY: Thank you, Madam Speaker and Members of the House. I really get up to talk about this bill. This is a bill that has been worked at by the communities in Washington County to come up with what we might find a solution that'll bring us some help with the opioid addiction that we have, not only in the county but in the state. Washington County has the highest --

The SPEAKER: The Representative will defer. Once again today, Wednesday, a reminder to Members of the House to please take your conversations outside the chamber while another member is speaking. The Representative may proceed.

Representative **PERRY**: Thank you. Washington County has the highest death rate from opiate overdoses in the state. What this bill does is it works at setting up a system that can well work for rural counties. The hub and spoke model, because we don't have a hub in rural counties, does not necessarily work. This is a pilot project. We're looking at getting -- at applying for federal funding to do this. If this works, it is my hope that we will have something that will work for our rural counties to bring people to recovery and treatment and help with this significant problem that we're dealing with. So, I ask you to vote for this emergency. Thank you.

The **SPEAKER**: The Chair recognizes the Representative from East Machias, Representative Tuell.

Representative **TUELL**: Thank you, Madam Speaker. I also rise in favor of the pending motion and the bill before us. When this bill was brought forward last year, it had a lot more in it than what it does now, but it's a credit to those who worked on it, I know I was privileged to co-sign it along with many others in our delegation. I confess I don't know everything about the opiate crisis, or even a lot, but I know this brought some folks together in the nonprofit world, at the state, who truly do, and who tried to reduce duplicative -- say that word ten times -- duplicative services, and tried to bring forward a solution that might have some impact on Washington County. You know, one of the things we hear down home every day is that when is so-and-so going to do such-and-such about the opiate crisis. And I sometimes bristle when I hear that, because we are honestly trying to find solutions to the opiate crisis. I know there's no one magic bullet, but this might -- this might be part of the solution. I know we've done others, but this might also be part of the solution, so I would encourage you to support the motion before us. Thank you, Madam Speaker.

This being an emergency measure, a two-thirds vote of all the members elected to the House being necessary, a total was taken. 105 voted in favor of the same and 18 against, and accordingly the Resolve was **FINALLY PASSED**, signed by the Speaker and sent to the Senate.

The SPEAKER: The Chair recognizes the Representative from Durham, Representative Chace.

Representative **CHACE**: Thank you, Madam Speaker. I wasn't planning to stand to plan to say I wasn't going to speak, so, here I am. With all due respect to everyone here, this is, you know, we need to move forward with this bill. This is a good piece of legislation. We need to give the Board of Pharmacy a chance to finally finish with their rulemaking. This is going to facilitate their process by removing an age restriction that really just shouldn't be there. I need to correct the press. I'm not saying that it's a false representation, but naloxone will not be over-the-counter. It is not over-the-counter. It is still a prescription drug, and it will require somebody to go through a pharmacist or other licensed medical provider to get it, and within the rules of the Board of Pharmacy they are going to be explaining to these recipients exactly what this drug will and won't do. It is not a fun drug. If you're looking to try to carve a fine edge on your opiate use, it doesn't help. If you don't have somebody there to administer it, it doesn't help. This bill is really important for us to increase access. As the CDC stated last week, it is time for us to act. There is no reason for us to withhold the availability of this product to our needy folks out there who really need to get this drug. So, I stand for life today, I've always stood for life, and I hope you follow my light.

The SPEAKER: The Chair recognizes the Representative from Burlington, Representative Turner.

Representative **TURNER**: Thank you, Madam Speaker, Men and Women of the House. I'll be very brief. I wasn't going to speak on this, but I am adamantly opposed to lifting the age restriction. I think that this definitely needs to keep the 21 and above. I do not think that we should be allowing those under 21 to purchase this. Thank you.

The SPEAKER: The Chair recognizes the Representative from Scarborough, Representative Vachon.

Representative **VACHON**: Thank you, Madam Speaker. Madam Speaker, Ladies and Gentlemen of the House, who in this body, if faced with a person who was dying of anything, would not want to do anything in their power to save a life? Most of us are keenly aware that if a person is suffering from a heart attack, immediately giving them an aspirin could save their life. It would be horrific to think that if this were happening to -- somebody would judge this person unworthy because he was overweight, didn't take care of himself and was a regular

at Burger King, chowing down on Whoppers. Would anyone say, "Not going to give him aspirin because I know he's going to go right back to Burger King?" No, we wouldn't; and, who are we to judge? Are any of us perfect? Would any one of us want an opportunity to have a second, third, fourth, or even a fifth chance to get our life on a better track? It's kind of hard to experience the power of redemption when you are dead. Madam Speaker, naloxone is a safe drug. It is safer than aspirin. There aren't age -- stringent age restrictions on purchasing aspirin, and there shouldn't be age restrictions on purchasing naloxone, either. Madam Speaker, just six days ago, Surgeon General Jerome Adams released a public health advisory urging more Americans to carry the life-saving drug naloxone, that can reverse the effects of an overdose. We must protect the sanctity of human life. Please follow my light. Thank you, Madam Speaker.

The SPEAKER: The Chair recognizes the Representative from Biddeford, Representative Fecteau.

Representative **FECTEAU**: Thank you, Madam Speaker, Ladies and Gentlemen of the House. I just wanted to provide some information for folks who might be concerned that, by passing this legislation, we are usurping the work of the Pharmacy Board. It's really important that, at the public hearing, we asked whether or not, if this bill passed, the rulemaking process would have to be started -- would have to restart and begin again. That is not the case. This bill, if this bill passes and is enacted into law, it will just give the Pharmacy Board direction on the age, the age part of the rulemaking, not anything else. So, the rulemaking will continue as it relates to training pharmacists to prescribe and dispense, and all the other rules that are currently before the Pharmacy Board, and that are being dealt with through public hearing and the commenting period. So, this bill will not affect anything else except for the age requirement. That's all.

The SPEAKER: The Chair recognizes the Representative from Newport, Representative Fredette.

Representative **FREDETTE**: Thank you, Madam Speaker, Ladies and Gentlemen of the House. This is an issue, over my time in the Legislature, which has, I probably would have to use the word evolved. I think early on I was a skeptic, quite frankly, of having this being available, encouraging folks to continue to use and whatnot. And I think once you have the opportunity to go out and visit some of these facilities, recently in Washington County, talking to some folks up there, there is a point in time when people that are in crisis decide that it's time to get better, and nobody knows when that time is going to be, and maybe it never happens. But the reality is, is that for some folks, they are going to make that decision and they are going to come back into society, they're going to come into people's lives and they can become productive. Now, it's a tragedy in our society today that we have to have this conversation, but it's a reality that this country is losing more people today on an annual basis than died in the entire Vietnam War. We are in a crisis. We're in a crisis in Maine, and we're in a crisis in this country, dealing with addiction.

I don't believe that this is the best answer, but it's the answer that we have today. And if it's an issue of age and whether or not we're going to provide something for someone who's at a certain age level, and we're going to give someone a second chance, maybe even it's a third chance; but that's a human life, and if you believe in the sanctity of life, we have an opportunity to help preserve that life. It may be for someone who has a very tough time in their life, has had a crisis as a child. Maybe it's someone who's very young and has got some PTSD and they turn to addiction. Or maybe it wasn't even that,

maybe it was just someone who had a simple operation. It's recognition of where we are today, and I think my position on this has evolved as I continued to learn about it, and I'm going to be voting in favor of this; and I hope that we don't have to have these kinds of continuing conversations, that we can actually fix this problem in Maine. But we're not there yet, and this is a bridge to get us there, and so I'm going to be voting in favor of this, and I'm going to ask that you follow my light.

The SPEAKER: The Chair recognizes the Representative from Presque Isle, Representative Stewart.

Representative STEWART: Thank you very much, Madam Speaker, Ladies and Gentlemen of the House. As one of the members of the House that served on the task force to address the opioid crisis in Maine, where part of this bill's recommendation came from, I feel compelled to at least bring up this scenario, particularly as it relates to the ages of folks who might require access to this particular drug, given the fact that over 70% of heroin addictions actually start at the doctor's office. And so the scenario is not only probable, but it's happening frequently in Maine, where you get a young person who is either an athlete that gets hurt in a game and is requiring surgery, or is having their wisdom teeth removed in their teenage years, and they are prescribed a drug legally that then leads to an addiction shortly after that. And, so, to that end, Madam Speaker, I think it makes a lot of sense to have this substance available for those folks for that reason, that we do have a lot of young people that need, desperately, access to this lifesaving medication. Thank you very much.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of the Majority Ought to Pass as Amended Report. All those in favor will vote yes, those opposed will vote no.
