Fiscal Detail and Notes

Maine Revenue Services estimates that the elimination of income tax checkoffs would reduce their annual operating expenses by \$50,800, beginning with FY 2013-14. The retention of a small proportion of the revenue from the checkoff funds has historically served to partially offset the costs of administering the funds by generating estimated annual General Fund revenues of \$21,926 and \$1,154 in annual revenue sharing funds; these amounts will not be available after the tax checkoffs are eliminated. The combined effect on the General Fund would be an annual savings of \$28,874 beginning with FY 2013-14. Contributions collected via the income tax checkoff mechanism totalled \$141,876 in FY 2010-11.
