## Fiscal Note

Increased impact on Grant Funding - University of Maine System

### Fiscal Detail and Notes

Increasing the percentage that the University of Maine System must reallocate from a minimum of 3% to a minimum of 10% of the annual General Fund appropriation it receives for research and development (R&D) from existing programs at the University of Maine and the University of Southern Maine to support R&D efforts at its other campuses, as well as to Maine Maritime Academy, may further impact the amount of grant funds that it is able to leverage. The University of Maine System reports a leverage rate of 4.5 to 1 for its existing programs. The total impact will depend on the actual leverage rate achieved at the other University of Maine campuses for the R&D funding.
