Aroostook Band of Micmacs or Houlton Band of Maliseet Indians who is a resident of
the State may at any time take, possess, transport and distribute:

A. Any marine organism, except lobster, for sustenance use if the tribal member
holds a valid sustenance fishing license issued by the tribe, nation or band or the
agent of the band. A sustenance fishing license holder who fishes for sea urchins
may not harvest sea urchins out of season;

B. Lobsters for sustenance use, if the tribal member holds a valid sustenance lobster
license issued by the tribe, nation or band or the agent of the band. The sustenance
license holder's traps must be tagged with sustenance use trap tags issued by

subsection 2-A, or at any location within the State by a tribal member, by a tribal
member's immediate family or within a tribal member's household. The term "sustenance
use" does not include the sale of marine organisms.

A member of the Passamaquoddy Tribe, Penobscot Nation, Aroostook Band of Micmacs
or Houlton Band of Maliseet Indians who takes a marine organism under a license or
permit issued pursuant to this subsection must comply with all laws and rules applicable
to a person who holds a state license or permit that authorizes the taking of that organism,
except that a state law or rule that sets a season for the harvesting of a marine organism
does not apply to a member of the Passamaquoddy Tribe, Penobscot Nation, Aroostook
Band of Micmacs or Houlton Band of Maliseet Indians who takes a marine organism for
sustenance use or for noncommercial use in a tribal ceremony. A member of the

The holder may also sell shellstock the holder has taken from that license holder's home in the retail trade. This license does not authorize the holder to fish for or take shellfish in violation of a municipal ordinance adopted pursuant to section 6671.

Sec. 8. 12 MRSA §6621, sub-§3, ¶C, as amended by PL 1995, c. 323, §1, is repealed.

MUNICIPAL SHELLFISH MANAGEMENT

§6677. Municipal shellfish ordinances

A municipality may not adopt or enforce an ordinance that regulates the taking or possession of shellfish, provides protection from shellfish predators or authorizes municipal officials to open and close flats.

§6678. Shellfish reseeding program

The department shall carry out a program of shellfish reseeding. The program must include such activities as the transplanting of soft-shelled clams from areas of large concentrations to potentially productive areas and relaying shellfish otherwise inhibited from attaining optimum market size. The department may close areas to protect reseeded flats.

Sec. 11. 12 MRSA §6746, sub-§2, as amended by PL 2011, c. 598, §35, is further amended to read:

2. Licensed activity. A boat license under this section may be used for dragging for mussels. The holder of a mussel boat license may also possess or transport mussels.
within the state limits or sell mussels the holder has taken to a wholesale seafood license holder certified under section 6856 or an enhanced retail certificate holder under section 6852, subsection 2-A. The license also authorizes the captain and crew members aboard the licensed boat when engaged in dragging for mussels to undertake these activities. A mussel boat license does not authorize the holder to fish for or take mussels in violation of a municipal ordinance adopted pursuant to section 6671.

Sec. 12. 12 MRSA §6856, sub-§3-D, as amended by PL 2015, c. 68, §11, is repealed.

Sec. 13. 25 MRSA §2801-B, sub-§1, ¶F, as repealed and replaced by PL 2001, c. 710, §11 and affected by §12, is repealed.

Sec. 14. 25 MRSA §2804-I, as enacted by PL 1999, c. 682, §5, is amended to read:

§2804-I. Law enforcement training for harbor masters

Harbor masters and municipal shellfish conservation wardens must successfully complete the preservice law enforcement training requirements in section 2804-B and the in-service law enforcement training requirements in section 2804-E in order to have the power to make arrests or to carry a firearm. Harbor masters and municipal shellfish conservation wardens are exempt from section 2804-C.

Sec. 15. 38 MRSA §410-I, sub-§3, as enacted by PL 2009, c. 213, Pt. FFFF, §4, is amended to read:

3. Annual coastal water quality monitoring and remediation planning. The department shall in coordination with the public health division of the Department of Marine Resources create an annual work plan outlining priorities for the monitoring and classification of shellfish growing areas and for hydrographic studies in shellfish growing areas. The work plan must also prioritize remediation projects that will improve water quality within shellfish growing areas. Staff from both agencies must be assigned in determining responsibilities of the work plan. The Department of Marine Resources shall solicit priorities from the Shellfish Advisory Council established under Title 12, section 6038 and from municipalities with approved municipal shellfish programs for work within shellfish growing areas in those communities. In order for municipal recommendations to be considered for inclusion in a work plan, the municipality must commit to assist in the identification and remediation of nonpoint source pollution, including failing subsurface wastewater disposal systems, in areas affecting the water quality of shellfish growing areas.

The agencies shall prepare a draft work plan by February 1st of each year and make it available for review at a regularly scheduled meeting of the Shellfish Advisory Council, set out under Title 12, section 6038.

The agencies shall begin implementing the work plan by March 1st annually.
SUMMARY

This bill eliminates the authority of a municipality to adopt a shellfish conservation program and ordinance and prohibits a municipality from adopting or enforcing an ordinance that regulates shellfish, provides protection from shellfish predators or authorizes municipal officials to open and close flats.
