4 SUMMARY

This amendment is a minority report of the committee and replaces the bill and changes the title. The amendment requires the Department of Agriculture, Conservation and Forestry, Board of Pesticides Control to review any proposed municipal ordinance to regulate pesticide storage, distribution or use. Specifically, it requires municipalities to submit a proposed pesticide ordinance to the board at least 90 days prior to adoption, rather than 7 days in current law. It requires the board to review the proposed ordinance and, within 60 days of receiving the proposed ordinance, to provide advice and comments on the proposed ordinance, including recommended revisions to ensure the safe and consistent regulation of pesticides. It requires the municipality to review and consider the board's advice and recommendations prior to adoption of the ordinance.

The amendment also requires the board to review existing municipal pesticide ordinances in place as of the effective date of this Act and, no later than December 31, 2018, provide advice and comments, including any recommended revisions to ensure the safe and consistent regulation of pesticides, to each municipality that has an existing ordinance. It requires the municipal officers to review and take under consideration the board's comments and recommended revisions to the existing ordinance.
