Subject: L.D. 1287

Mr. Caleb Roebuck

Please submit this testimony to:

JOINT STANDING COMMITTEE ON ENVIRONMENT AND NATURAL RESOURCES Sen. Brownie Carson, Senate Chair Rep. Ralph Tucker, House Chair

Regarding L.D. 1287 Bill "An Act To Protect the Penobscot River and Penobscot Bay from Mercury Contamination"

This bill is crucial to protecting the Penobscot Bay and the lobster industry that provides jobs and income to so many in our state. We can not let the mercury be disturbed, there is no safe way to drill, dredge or dig that would not expose shellfish and people to toxic levels of mercury. Please support L.D. 1287.
