The commissioner shall administer the laws relating to aeronautics and adopt and administer such rules concerning aeronautical activities not inconsistent with federal regulations covering aeronautics as may be necessary to promote public safety and the best interests of aviation in the State. The commissioner shall advance the interest of aeronautics within the State by studying aviation needs, assisting and advising authorized representatives of political subdivisions within the State in the development of aeronautics and by cooperating and coordinating with such other agencies whether local, state, regional or federal, as may be working toward the development of aeronautics within the State. The commissioner shall charge these departments and agencies requisitioning aircraft amounts sufficient to reimburse the department of the full operating cost of these aircraft. All fees collected must be credited to the General Fund. Aircraft owned by the Department of Inland Fisheries and Wildlife, the Department of Marine Resources, the Department of Agriculture, Conservation and Forestry and the Department of Public Safety are exempt and excluded from this paragraph.
