My partners and I at 55 Weston Ave and Maine Cooperative Development Partners are currently working on MaineHousing financed projects to create over 100 new homes in collaboration with the Town of Madison and City of Portland. These projects would not have been possible without MaineHousing's financial support.

My partners and I own or have site control over properties in Madison, Skowhegan, Rumford, Sanford, Biddeford and Portland where we could create hundreds of more desperately needed homes with MaineHousing's ongoing partnership.

MaineHousing is a top-notch partner and steward of capital. Please give them the tools they need to work in this incredibly expensive development environment.
