40 **SUMMARY**

41 This bill makes technical changes to the laws governing preparation of livestock and
42 poultry products for human consumption. It defines "amenable species" as a species of

1 exotic animal, as defined by federal law, the anatomy and biology of which are substantially
2 the same as an animal that is currently inspected, and it includes amenable species under
3 the laws governing voluntary inspections. It removes the requirement that funds
4 reimbursed under the laws governing preparation of livestock and poultry products for
5 human consumption be deposited in the General Fund as undedicated revenue. It also
6 prohibits a person from selling, transporting, offering for sale or transportation or receiving
7 for transportation any carcasses of horses, mules or other equines or parts of these carcasses
8 or the meat or meat food products of these carcasses.
