29 facilitating the allocation of licenses and identifying the need for additional licenses to be  
30 issued as incentives to attract year-round residents.

34 who is a resident of each community. The bill prohibits a license issued to a resident of an  
35 island community from being transferred to a resident of a community other than the  
36 community to which the commissioner allocated the license. The bill also allows the  
37 commissioner to reallocate a license that goes unissued for 3 consecutive years to another  
38 island community and directs the commissioner to work with the municipal officers of the

1 island communities and relevant organizations within the communities to implement and
