21 SUMMARY

22 This amendment clarifies that the Department of Health and Human Services
23 investigation team may investigate an individual who is certified by the Department of
24 Education, who has applied for licensure or certification or who is subject to licensure or
25 certification. The amendment removes from the bill language that allows an investigation
26 team to notify the superintendent of a school administrative unit, chief administrator of a
27 public school not in a school administrative unit or chief administrator of a private school
28 when there is a finding of out-of-home abuse or neglect against a student. It also clarifies
29 that the Department of Education can disseminate reports of suspected child abuse or
30 neglect occurring within a school to superintendents of school administrative units, chief
31 administrators of public schools not in a school administrative unit or chief administrators
32 of private schools when neither the Department of Health and Human Services nor the
33 Department of Education is investigating or it is determined that the school is unaware of
34 the information.
