20 **SUMMARY**

21 This amendment is the minority report of the committee and replaces the bill. The
22 amendment requires that compensation remitted by or on behalf of a pharmaceutical
23 manufacturer, developer or labeler to a pharmacy benefits manager be remitted first to the
24 covered person at the point of sale up to the amount of any cost sharing associated with a
25 prescription drug and then any remaining amount must be remitted to and retained by a
26 carrier to offset health insurance premium costs.

27 The amendment requires that the information reported by carriers in their annual report
28 related to compensation include information about the number of covered persons that have
29 received compensation from the carrier for their out-of-pocket costs and the amount of that
30 compensation.

31 The amendment also adds an appropriations and allocations section to provide funding
32 for the requirement that any compensation be remitted first to the covered person at the
