4 **SUMMARY**

5 This amendment amends the electronic smoking device stewardship program law  
6 proposed in the bill as follows.

7 1. It adds definitions for "collection location," "municipality" and "retailer." "Retailer"  
8 is defined to mean any of the following persons that sell or offer for sale electronic smoking  
9 devices: tobacco retailers; caregiver retail stores and registered dispensaries under the  
10 Maine Medical Use of Cannabis Act; and cannabis stores under the Cannabis Legalization  
11 Act.

12 2. It clarifies requirements for the collection system to be implemented under an  
13 electronic smoking device stewardship program, including by requiring that, within 3 years  
14 following the date on which the stewardship plan for a program is approved by the  
15 Department of Environmental Protection, all retailers in the State must participate in the  
16 program as collection locations.

17 3. It requires an electronic smoking device stewardship program to provide a financial  
18 incentive with a minimum value of \$2 to a person for each unwanted electronic smoking  
19 device returned by the person to a collection location, except that a person may not receive  
20 a financial incentive for more than 2 devices returned to a collection location in a single  
21 day.

22 4. It clarifies that a producer or stewardship organization that submitted an electronic  
23 smoking device stewardship plan that was approved by the department must implement  
24 that plan no later than 180 days after the date the plan was approved.

25 The amendment also amends the waste management laws to provide that, beginning  
26 on the date that an approved electronic smoking device stewardship plan is first  
27 implemented by a producer or electronic smoking device stewardship organization, a  
28 person may not dispose of an electronic smoking device except in accordance with an  
29 electronic smoking device stewardship program or by delivery to a licensed hazardous  
30 waste transporter.
