ENVIRONMENT AND NATURAL RESOURCES

Reproduced and distributed under the direction of the Clerk of the House.

**STATE OF MAINE
HOUSE OF REPRESENTATIVES
132ND LEGISLATURE
FIRST SPECIAL SESSION**

COMMITTEE AMENDMENT “ ” to H.P. 1197, L.D. 1786, “An Act to Require the Department of Environmental Protection to Provide Certain Information Regarding Perfluoroalkyl and Polyfluoroalkyl Substances to the Public and Private Drinking Water Well Owners”

Amend the bill by striking out everything after the enacting clause and inserting the following:

'Sec. 1. 22 MRSA §2660-Z is enacted to read:

§2660-Z. Information regarding PFAS; private drinking water wells

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

- A. "Department" means the Department of Environmental Protection.
- B. "Perfluoroalkyl and polyfluoroalkyl substances" or "PFAS" means a perfluoroalkyl substance or polyfluoroalkyl substance that is detectable in drinking water using standard laboratory methods established by the United States Environmental Protection Agency, including regulated PFAS contaminants.
- C. "Regulated PFAS contaminants" means:
 - (1) The specific PFAS compounds regulated pursuant to the drinking water standards adopted by the Department of Health and Human Services in accordance with Resolve 2021, chapter 82; or
 - (2) If maximum contaminant levels for PFAS are adopted by the Department of Health and Human Services subsequent to the adoption of the drinking water standards described in subparagraph (1), the specific PFAS compounds regulated pursuant to those maximum contaminant levels.

2. Posting of information regarding maximum contaminant levels for PFAS. The department shall post on its publicly accessible website information regarding the most stringent maximum contaminant levels adopted by a federal agency or the State for

COMMITTEE AMENDMENT

1 regulated PFAS contaminants, measured in parts per trillion, that are in effect at the time
2 the information is posted and update the information whenever a maximum contaminant
3 level is changed.

4 **3. Provision of information to owner of private drinking water well tested for**
5 **PFAS contamination.** If the department conducts or facilitates the testing of a private
6 drinking water well for potential PFAS contamination, it shall provide to the owner of the
7 well, by mail and, if possible, by e-mail, the following information at the time that it
8 provides the owner with the results of that testing:

9 A. Information regarding the most stringent maximum contaminant levels adopted by
10 a federal agency or the State for regulated PFAS contaminants, measured in parts per
11 trillion, that are in effect at the time of the testing;

12 B. A comparison of the testing results to the most stringent maximum contaminant
13 levels adopted by a federal agency or the State for regulated PFAS contaminants,
14 measured in parts per trillion, that are in effect at the time of the testing; and

15 C. Information regarding resources available to owners of private drinking water wells
16 affected by PFAS contamination, including information regarding available mitigation
17 strategies for PFAS in private drinking water wells, information regarding entities that
18 test for PFAS in private drinking water wells and information regarding financial
19 assistance, if available, from state, federal and local governments and other sources to
20 support testing and mitigation of PFAS in private drinking water wells.

21 **4. Provision of information to other private drinking water well owners.** If the
22 department has not conducted or facilitated the testing of a private drinking water well for
23 potential PFAS contamination, the department shall provide to the owner of the private
24 drinking water well, by mail and, if possible, by e-mail, the information under subsection
25 3, paragraphs A and C if the department has knowledge that the well may be contaminated
26 by PFAS or if the owner requests such information by telephone, in writing or by e-mail.'

27 Amend the bill by relettering or renumbering any nonconsecutive Part letter or section
28 number to read consecutively.

29 SUMMARY

30 This amendment replaces the bill. The amendment requires the Department of
31 Environmental Protection to post on its publicly accessible website information regarding
32 the current most stringent maximum contaminant levels adopted by a federal agency or the
33 State for regulated PFAS contaminants, measured in parts per trillion. The amendment
34 also requires that, if the department conducts or facilitates the testing of a private drinking
35 water well for potential PFAS contamination, it must provide to the owner of the well, by
36 mail and, if possible, by e-mail, at the time that it provides the owner with the results of
37 that testing, information regarding maximum contaminant levels for regulated PFAS
38 contaminants, a comparison of the testing results to those levels and information regarding
39 resources available to owners of private drinking water wells affected by PFAS. The
40 department is directed to provide similar information to other owners of private drinking

COMMITTEE AMENDMENT “ ” to H.P. 1197, L.D. 1786

1 water wells not tested by the department at the request of an owner or if the department has
2 knowledge that the well may be contaminated by PFAS.
