33 or a cannabis pre-roll infused with cannabis concentrate.

34 The office may temporarily waive mandatory testing requirements under this section
35 for any contaminant or factor for which the office has determined that there exists no
36 cannabis testing facility in the State capable of and authorized to perform such testing.

37 **1. Scope of mandatory testing generally.** Mandatory testing of harvested cannabis
38 under this section must include, but is not limited to, testing for:

39 A. Residual solvents, poisons and toxins;

40 B. Metals;

41 C. Dangerous molds and mildew, including, but not limited to, Aspergillus spp. and
42 mycotoxins, as applicable;

43 D. Harmful microbes, including, but not limited to, Escherichia coli and Salmonella;

1 E. Pesticides, fungicides and insecticides;

2 F. Water activity, for harvested cannabis except cannabis concentrate; and

3 G. THC potency, homogeneity and cannabinoid profiles.

4 **2. Scope of mandatory testing for cannabis flower and cannabis trim.** Cannabis
5 flower and cannabis trim, including cannabis pre-rolls and cannabis flower or cannabis trim
6 that has been mixed with cannabis concentrate, must be tested for:

7 A. Metals;

8 B. Dangerous molds and mildew, including, but not limited to, Aspergillus spp. and
9 mycotoxins, as applicable. Testing for mycotoxins is mandatory if the batch fails
10 mandatory testing for dangerous molds and mildew and is subsequently retested;

11 C. Harmful microbes;

12 D. Pesticides, fungicides and insecticides;

13 E. Water activity; and

14 F. THC potency and cannabinoid profiles.

15 **3. Scope of mandatory testing for cannabis concentrate extracted using solvents**
16 **other than water.** Cannabis concentrate that has been extracted using solvents other than
17 water must be tested for:

18 A. Residual solvents, poisons and toxins;

19 B. Metals;

20 C. Pesticides, fungicides and insecticides;

21 D. Mycotoxins; and

22 E. THC potency, homogeneity and cannabinoid profiles.

23 **4. Scope of mandatory testing for cannabis concentrate extracted without use of**
24 **solvents other than water.** Cannabis concentrate that has been extracted without the use
25 of solvents other than water must be tested for:

26 A. Metals;

27 B. Dangerous molds and mildew, including, but not limited to, Aspergillus spp. and
28 mycotoxins, as applicable. Testing for mycotoxins is mandatory if the batch fails
29 mandatory testing for dangerous molds and mildew and is subsequently retested;

30 C. Harmful microbes;

31 D. Pesticides, fungicides and insecticides; and

32 E. THC potency, homogeneity and cannabinoid profiles.

33 **5. Scope of mandatory testing for cannabis products.** Cannabis products, including
34 edible cannabis products, must be tested for:

35 A. Dangerous molds and mildew, including, but not limited to, Aspergillus spp. and
36 mycotoxins, as applicable. Testing for mycotoxins is mandatory if the batch fails
37 mandatory testing for dangerous molds and mildew and is subsequently retested;

38 B. Harmful microbes;

1 C. Water activity, except that edible cannabis products that are preserved by
2 refrigeration are not required to be tested for water activity; and

3 D. THC potency, homogeneity and cannabinoid profiles.

4 **6. Record keeping.** A large registered dispensary shall maintain a record of all
5 mandatory testing that includes a description of the harvested cannabis provided to the
6 cannabis testing facility, the identity of the cannabis testing facility and the results of the
7 mandatory test. The results of all mandatory tests conducted by a cannabis testing facility
8 must be recorded in accordance with the record-keeping and inventory tracking
9 requirements of section 2430-J.

10 **7. Sample collection, testing processes, protocols and standards.** The office may
11 establish by rule processes, protocols and standards for the collection of samples for
12 mandatory testing and for the mandatory and other testing of harvested cannabis that
13 conform with the best practices generally used to sample the applicable matrices and test
14 for the presence or absence of the contaminants identified in this section based upon the
15 matrix of the harvested cannabis tested. The rules may include an allowable variance rate
16 for determining the amount or potency of THC or other cannabinoids in edible cannabis
17 products. The office shall, to the extent practicable, establish pass and fail requirements for
18 cannabis testing in accordance with applicable national and international quality standards
19 established for botanical ingredients by the American Herbal Pharmacopoeia, the United
20 States Pharmacopoeia, the European Pharmacopoeia and the British Pharmacopoeia or
21 successor organizations. Rules adopted pursuant to this subsection are routine technical
22 rules as defined in Title 5, chapter 375, subchapter 2-A. The office may, alternatively,
23 require registrants to comply with any rules and standards established for testing cannabis
24 under Title 28-B, chapter 1.

25 **8. Maximum batch size for mandatory testing.** For the purpose of sampling and
26 mandatory testing under this section, a batch may not exceed 44 pounds by net weight,
27 regardless of matrix.

28 A. For cannabis flower and cannabis trim, including cannabis pre-rolls, the 44-pound
29 limit applies to the combined net weight of cannabis flower or cannabis trim harvested
30 or manufactured at the same time under the same conditions using the same process or
31 procedure.

32 B. For cannabis concentrate and cannabis products, the 44-pound limit applies to the
33 combined net weight of the finished material in that matrix that is manufactured at the
34 same time under the same conditions using the same process or procedure.

35 The office may adopt rules for sample collection that ensure representative sampling within
36 the 44-pound maximum batch size in accordance with subsection 7. Rules adopted pursuant
37 to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter
38 2-A.

39 **Sec. A-29. 22 MRSA §2430-P** is enacted to read:

40 **§2430-P. Notification requirements**

41 **1. Notification of testing results required.** If the results of a mandatory test
42 conducted pursuant to section 2430-O indicate that the harvested cannabis exceeds the
43 maximum level of allowable contamination for any contaminant that is injurious to health
44 and for which testing is required, the cannabis testing facility shall immediately notify the

1 office and the large registered dispensary that submitted the samples for mandatory testing
2 of the failed test. If a large registered dispensary successfully undertakes remediation and
3 retesting of harvested cannabis, the cannabis testing facility shall notify the office of the
4 subsequent passed mandatory testing.

5 **2. Notification of testing results not required.** A cannabis testing facility is not
6 required to notify the office of the results of any test conducted on:

7 A. Harvested cannabis at the direction of a large registered dispensary pursuant to
8 section 2430-O that demonstrates that the harvested cannabis does not exceed the
9 maximum level of allowable contamination for any contaminant that is injurious to
10 health and for which testing is required;

11 B. Harvested cannabis at the direction of a registered caregiver, dispensary or
12 manufacturing facility for research and development purposes only, as long as the
13 registered caregiver, dispensary or manufacturing facility notifies the cannabis testing
14 facility prior to the performance of the test that the testing is for research and
15 development purposes only;

16 C. Harvested cannabis at the direction of a person who is not a registered caregiver,
17 dispensary or manufacturing facility; or

18 D. A substance that is not harvested cannabis.

19 **Sec. A-30. 22 MRSA §2430-Q** is enacted to read:

20 **§2430-Q. Sample collection for testing**

21 **1. Sample collecting rules.** A large registered dispensary, a sample collector licensed
22 pursuant to Title 28-B, chapter 1 or an employee of a sample collector or cannabis testing
23 facility may collect samples of harvested cannabis for mandatory testing. The office may
24 adopt rules regarding the collection of samples of harvested cannabis for mandatory testing
25 by a large registered dispensary, a sample collector licensed pursuant to Title 28-B, chapter
26 1 or an employee of a sample collector or cannabis testing facility, which may include, but
27 are not limited to:

28 A. Establishment of sample collecting processes, protocols and standards, which must
29 be complied with by any person collecting samples of harvested cannabis for
30 mandatory testing purposes;

31 B. Requirements for a large registered dispensary to demonstrate that the sample
32 collector's sample collecting practices comply with paragraph A;

33 C. Provisions authorizing the office to conduct audits of harvested cannabis that was
34 tested using samples collected by a large registered dispensary pursuant to this section,
35 with all costs of the audits to be paid for by the large registered dispensary subject to
36 an audit of that sample collector's sample collecting practices;

37 D. Provisions authorizing the office to take samples of harvested cannabis from a large
38 registered dispensary, including from a retail location maintained by the large
39 registered dispensary, for testing by a cannabis testing facility to audit or verify
40 mandatory test results issued by the cannabis testing facility, with all costs of the testing
41 to be paid for by the large registered dispensary;

1 E. Provisions authorizing the office to conduct interlaboratory proficiency testing to
2 ensure cannabis testing facility compliance with testing program requirements and to
3 ensure the quality, consistency and reliability of mandatory testing conducted by
4 cannabis testing facilities authorized pursuant to this chapter;

5 F. Requirements for the transportation, delivery and transfer of samples of harvested
6 cannabis collected by a large registered dispensary to a cannabis testing facility, which
7 must require the in-person transfer of the samples by the large registered dispensary to
8 a cannabis testing facility; and

9 G. A prohibition on the intentional tampering with or interference in the mandatory
10 testing process or auditing process, including failure of any audit conducted in
11 accordance with paragraph C, by a large registered dispensary, which, notwithstanding
12 any provision of this chapter to the contrary, may be treated by the office as constituting
13 a violation of program requirements and as a basis for imposition of a penalty pursuant
14 to section 2430-I, subsection 2, as applicable.

15 **2. Samples for investigation.** This section may not be construed to limit the authority
16 of the office to take samples of harvested cannabis pursuant to an investigation by the office
17 into the conduct of a registrant or a registrant agent.

18 **3. Rules.** Rules adopted pursuant to this section are routine technical rules as defined
19 in Title 5, chapter 375, subchapter 2-A.

20 **Sec. A-31. 22 MRSA §2430-R** is enacted to read:

21 **§2430-R. Additional testing not required**

22 Notwithstanding section 2430-O, a large registered dispensary may sell, transfer or
23 otherwise furnish to a qualifying patient or caregiver or to another registered caregiver,
24 assistant of a registered caregiver, dispensary or manufacturing facility harvested cannabis
25 that the large registered dispensary has not submitted for testing in accordance with this
26 chapter if:

27 **1. Prior testing.** The harvested cannabis has previously undergone all required testing
28 in accordance with this chapter at the direction of another large registered dispensary and
29 that testing demonstrated that the harvested cannabis does not exceed the maximum level
30 of allowable contamination for any contaminant that is injurious to health and for which
31 testing is required;

32 **2. Proper documentation.** The mandatory testing process and the test results for the
33 harvested cannabis are documented in accordance with the requirements of this chapter;

34 **3. Tracking maintained.** Tracking from immature cannabis plant to the point of sale
35 or transfer to a qualifying patient, or another individual on behalf of a qualifying patient,
36 has been maintained for the harvested cannabis and transfers of the harvested cannabis to
37 another registered caregiver, assistant of a registered caregiver, dispensary or
38 manufacturing facility or to a qualifying patient or caregiver on behalf of a qualifying
39 patient can be readily identified; and

40 **4. No further processing, manufacturing or alteration.** Since the performance of
41 the prior testing under subsection 1, the harvested cannabis has not undergone any further
42 processing, manufacturing or alteration other than the packaging and labeling of the
43 harvested cannabis in accordance with this chapter. For the purposes of this subsection,

1 "further processing, manufacturing or alteration" does not include the use of cannabis
2 concentrate in the creation of an edible cannabis product, except for testing under section
3 2430-O, subsection 5, paragraph D.

4 **Sec. A-32. 22 MRSA §2430-S** is enacted to read:

5 **§2430-S. Annual inspections; mandatory sample testing**

6 The office shall conduct testing of samples collected during the annual inspection
7 required under section 2430-K for registered caregivers, registered dispensaries, other than
8 large registered dispensaries, and manufacturing facilities in accordance with this section.
9 This section may not be construed to limit the authority of the office to take samples of
10 harvested cannabis pursuant to an investigation by the office into the conduct of a registrant
11 or a registrant agent.

12 **1. Mandatory testing; costs.** The office shall test a sample of harvested cannabis
13 collected under this section for:

14 A. Residual solvents;

15 B. Metals;

16 C. Molds and mildew; and

17 D. Pesticides.

18 The costs associated with conducting tests under this subsection must be paid for by the
19 registered caregiver, registered dispensary, other than a large registered dispensary, and
20 manufacturing facility from which the sample was collected.

21 **2. Other testing; costs.** The office may conduct other tests on a sample of harvested
22 cannabis collected under this section for the purpose of research and data collection. Any
23 test conducted under this subsection must be paid for by the office.

24 **3. Notification of results; records.** The office shall notify a registered caregiver,
25 registered dispensary, other than a large registered dispensary, and manufacturing facility
26 within one business day of the office receiving the results of any test conducted under this
27 section. The office shall provide a written copy of any test results with the notification. A
28 registered caregiver, registered dispensary, other than a large registered dispensary, and
29 manufacturing facility shall keep a record of all test results under this section for a period
30 of 4 years in the same manner as other records required to be kept under this chapter.

31 **4. Results exceed maximum allowable contamination level; additional testing.** If
32 a test conducted under this section for residual solvents or pesticides indicates that the
33 sample of harvested cannabis exceeds the maximum level of allowable contamination for
34 residual solvents or pesticides, as determined by the office pursuant to section 2423-G and
35 rules adopted pursuant to that section, the office shall:

36 A. Provide notification as required under subsection 3 and, if applicable, provide notice
37 to any registered caregiver, registered dispensary or manufacturing facility from which
38 the harvested cannabis sample originated;

39 B. Collect up to 3 additional samples of harvested cannabis from the registrant whose
40 sample exceeded the maximum level of allowable contamination for residual solvents
41 or pesticides and from any registrant from which the harvested cannabis sample

1 originated from any location where a registered caregiver, registered dispensary or
2 manufacturing facility conducts activity authorized under this chapter;

3 C. Restrict the transfer or sale of the batch of harvested cannabis that exceeded the
4 maximum level of allowable contamination for residual solvents or pesticides under
5 this subsection and may initiate a recall of any harvested cannabis from the batch that
6 may have already been sold or transferred; and

7 D. Conduct testing for residual solvents and pesticides on the additional samples
8 collected under paragraph B at the expense of the registrant.

9 If additional testing conducted under paragraph D indicates that any of the samples
10 collected under paragraph B exceed the maximum level of allowable contamination for
11 residual solvents or pesticides the office shall restrict the transfer or sale of all batches of
12 harvested cannabis in the possession of the registrant, initiate a recall of any harvested
13 cannabis sold or transferred by the registrant from the batch or batches of harvested
14 cannabis tested and shall open an investigation into the conduct of the registrant.

15 **5. Results exceed maximum allowable contamination level; administrative**
16 **penalty; violation types.** The following administrative penalties may apply:

17 A. Except for a large registered dispensary, a registered caregiver, registered
18 dispensary or manufacturing facility whose initial test under this section indicates that
19 the sample of harvested cannabis exceeds the maximum level of allowable
20 contamination for residual solvents or pesticides may be subject to an administrative
21 penalty for a minor registration violation under section 2430-I, subsection 1-A,
22 paragraph C; and

23 B. A registered caregiver, registered dispensary or manufacturing facility that has a
24 sample collected under subsection 4, paragraph B that exceeds the maximum level of
25 allowable contamination for residual solvents or pesticides may be subject to an
26 administrative penalty for a major registration violation under section 2430-I,
27 subsection 1-A, paragraph B.

28 If the office opens an investigation into the conduct of a registered caregiver, registered
29 dispensary or manufacturing facility under this section, evidence of a violation of this
30 chapter or rules adopted pursuant to this chapter must be handled pursuant to section
31 2430-I.

32 **PART B**

33 **Sec. B-1. 28-B MRSA §102-A, sub-§14-A** is enacted to read:

34 **14-A. Cannabis pre-roll.** "Cannabis pre-roll" means cannabis flower, cannabis trim
35 or a combination of cannabis flower and cannabis trim that is rolled in rolling papers,
36 cigarette papers or wraps, with or without a cardboard filter, and intended for smoking. A
37 cannabis pre-roll may be infused with cannabis concentrate.

38 **Sec. B-2. 28-B MRSA §102-A, sub-§64,** as enacted by PL 2023, c. 679, Pt. B, §3,
39 is amended to read:

40 **64. Testing facility.** "Testing facility" means a facility licensed under this chapter to
41 develop, research and test cannabis, and cannabis products and other substances or a facility
42 registered in accordance with Title 22, chapter 558-C.

1 3. It replaces previous authorization for cannabis testing facilities with a provision
2 establishing a cannabis testing facility registration and establishes additional requirements
3 necessary to obtain a registration certificate to operate a cannabis testing facility.

4 4. It includes cannabis testing facilities in the standard application process for a
5 registration certificate.

6 5. It adds certain requirements related to packaging for large registered dispensaries
7 who are required to conduct mandatory testing.

8 6. It provides that intentionally or knowingly failing to conduct a recall of harvested
9 cannabis or cannabis products when ordered to do so by the Department of Administrative
10 and Financial Services, Office of Cannabis Policy is a major registration violation affecting
11 public safety.

12 7. It establishes registration violations for exceeding the maximum level of allowable
13 contamination for residual solvents and pesticides in a sample of harvested cannabis tested
14 by the office as a part of an annual inspection for registered caregivers, registered
15 dispensaries who are not large registered dispensaries and manufacturing facilities.

16 8. It revises reporting and record-keeping requirements for large registered dispensaries
17 to require records retention for 6 years and to mandate that all large registered dispensaries
18 report all required inventory information in the statewide inventory tracking system
19 implemented and administered by the office. It also requires all other registrants to maintain
20 certain records related to the authorized conduct of the registrant and to keep those records
21 for a period of 4 years and to make those records available for inspection by the office upon
22 request.

23 9. It requires mandatory testing of all harvested cannabis from large registered
24 dispensaries for the presence of harmful contaminants and cannabinoid profiles and
25 specifies that the maximum size of a batch for mandatory testing by a large registered
26 dispensary is 44 pounds.

27 10. It requires reporting of mandatory test results of failed tests to the office and to the
28 large registered dispensary that submitted samples to a cannabis testing facility for testing.

29 11. It establishes sampling requirements and permits the office to take samples for audit
30 testing to verify mandatory test results and to ensure the quality, consistency and reliability
31 of the testing program.

32 12. It identifies the circumstances in which additional mandatory testing by the large
33 registered dispensary is not required before harvested cannabis is provided to a qualifying
34 patient.

35 13. It requires the office to conduct annual inspections for registered caregivers,
36 registered dispensaries, other than large registered dispensaries, and manufacturing
37 facilities, which must include the collection of a sample of harvested cannabis and requires
38 the office to test that sample for certain contaminants, including residual solvents and
39 pesticides.

40 Part B of the amendment makes the following changes to the Cannabis Legalization
41 Act.

42 1. It adds a definition of "cannabis pre-roll."
