 22 takes effect when approved, except as otherwise indicated.'

23 Amend the amendment by relettering or renumbering any nonconsecutive Part letter or
 24 section number to read consecutively.

25 **SUMMARY**

26 This amendment amends Committee Amendment "A" to change the title and retain the

 30 remainder of the funds to be used for noncoastal municipal, state or regionally significant
 31 infrastructure adaptation, repair and improvements that support public safety, protection of
 32 essential community assets, regional economic needs and long-term infrastructure
 33 resiliency.

34 Additionally, this amendment does the following.

35 Part C directs the Department of Health and Human Services to amend its rule Chapter

2 for this purpose.

3 Part E, beginning January 1, 2025, provides reimbursement for the treatment of
4 personality disorder and other disorders associated with primary emotional dysregulation
5 and specifies that required reimbursement for emotional dysregulation is for disorders
6 associated with primary emotional dysregulation. This Part specifies that the
7 reimbursement must be in accordance with the statutory language describing the
8 MaineCare rate-setting system for development and maintenance of sustainable, efficient
9 and value-oriented MaineCare payment models and rates and requires that reimbursed
10 treatments are evidence-based.

11 Part F requires the Department of Health and Human Services to establish a
12 contingency fund to provide supplemental assistance for children and adults with severe
13 behavioral health diagnoses when those needs are not otherwise met by existing state or
14 federal programs. The fund is a nonlapsing fund, and expenditures are capped at \$100,000
15 per fiscal year. The funds may be used to support additional staffing, enhanced
16 reimbursement rates, physical accommodations or other identified needs. Expenditures
17 from the fund must be used to supplement, not supplant, other departmental expenditures.

18 Part G provides funding to bridge the gap from federal grants to state funding for
19 mental health organizations participating in certified community behavioral health clinic
20 projects.

21 Part H directs the Department of Health and Human Services to design and implement
22 a community-based model of care that addresses the acute mental health needs of
23 adolescents with co-occurring disorders. It appropriates one-time funds of \$965,000 for

41 providing a supplemental allowance per patient per day.

42 Part I also requires the department to direct any funds appropriated for one-time
43 supplements or extraordinary circumstance allowances for nursing facilities or private
44 nonmedical institutions within the scope of the department's rules for increased costs and

1 lost revenue due to the COVID-19 pandemic that have remained unspent to be used to
2 create additional financial assistance opportunities for private nonmedical institutions
3 within the scope of the department's rules.

10 high school diploma or equivalent with training and oversight as determined by the
11 Department of Health and Human Services in addition to the training provided for
12 certification as a behavioral health professional. It requires the department to amend or
13 establish contracts for training behavioral health professionals to train any number of
14 additional individuals within existing resources and authorizes the department to opt to
15 charge individuals or their employers fees for training.

28 response services, including necessary travel and telephone conferences with clients. Part
29 M also requires the Department of Health and Human Services, by January 30, 2025, in
30 coordination with the Public Utilities Commission, Emergency Services Communication
31 Bureau and the Department of Public Safety, to ensure the coordination of services under
32 the State's E-9-1-1 system and the State's 9-8-8 mobile crisis services system. By January
33 30, 2026, the Department of Health and Human Services must submit a status report related
34 to the coordination of services, including suggested legislation, to the joint standing
35 committees of the Legislature having jurisdiction over health and human services matters
36 and utilities matters, and authorizes each of those joint standing committees to submit a bill
37 relating to the report to the Second Regular Session of the 132nd Legislature.

38 Part N directs the Department of Health and Human Services to establish 2 crisis
39 receiving centers, one in Aroostook County and one in Penobscot County, to support
40 individuals dealing with behavioral health, mental health or substance use issues. Crisis
41 receiving centers must provide culturally sensitive trauma-informed care. Part N also
42 provides funding to establish the crisis receiving centers. The department is required to
43 develop a plan to expand crisis receiving centers statewide, with at least one center located
44 in each county.

1 Part O establishes the Office of Violence Prevention within the Maine Center for
2 Disease Control and Prevention to coordinate and promote effective efforts to reduce
3 violence in the State, including gun violence, and related trauma and promote research
4 regarding causes of and evidence-based responses to violence. The office is directed to
5 increase the awareness of and educate the general public about laws and resources relating
6 to violence prevention and conduct awareness and education campaigns. The office may
7 establish and administer a grant program to award grants to organizations to conduct
8 community-based violence intervention initiatives that are primarily focused on
9 interrupting cycles of violence, trauma and retaliation by providing culturally competent
10 intervention services. The grant program ends June 30, 2027. The office is required to
11 create and maintain a data hub of regularly updated and accurate materials and resources
12 as a repository for data, research and statistical information regarding violence in the State.
13 Part O also provides funding for those purposes.

14 Part P provides ongoing funding to the Department of Health and Human Services for
15 employee recruitment and retention incentives to the staff who provide medication
16 management services provided by the Office of Behavioral Health within the department.

17 Part Q requires the Department of Public Safety to contract with a statewide
18 organization with expertise in mental health for the establishment of a gun shop project for
19 the development and dissemination of written and online suicide prevention educational
20 materials. The department is required to submit a report by December 1, 2026 regarding
21 the activities during the prior calendar year related to the establishment and administration
22 of the gun shop project to the joint standing committee of the Legislature having
23 jurisdiction over public safety matters.

24 Part R requires the Commissioner of Public Safety to develop and implement
25 procedures to notify the public, including the deaf and hard-of-hearing community, of
26 active shooter situations and provides funding for that purpose.

27 Part S amends Public Law 2023, chapter 406, which funded collective bargaining
28 agreements with executive branch employees for the fiscal years 2023-24 and 2024-25, by
29 removing the cap on the amount that may be used to fund the Salary Plan program and
30 instead allowing the funds to be provided pursuant to agreements with collective bargaining
31 agents for executive branch bargaining units instead of pursuant to a collective bargaining
32 agreement.

33 Part T prohibits, until July 1, 2029, the Department of Health and Human Services from
34 altering the reimbursement method for a hospital that receives reimbursement from the
35 federal Medicare program as a prospective payment system hospital if that hospital was
36 reimbursed by the MaineCare program as a critical access hospital for outpatient services
37 on or before January 1, 2024. This Part also requires the department to work with any such
38 hospital to determine a plan for transitioning to reimbursement by the MaineCare program
39 as a critical access hospital while maintaining financial solvency.

40 Part U provides that, beginning in the school year starting after June 30, 2025, the
41 minimum hourly wage for educational technicians is 125% of the state minimum hourly
42 wage and the minimum hourly wage for other school support staff who are paid hourly is
43 112.5% of the state minimum hourly wage. If the state minimum hourly wage is increased
44 on January 1st of any year, the minimum hourly wage for educational technicians and other
45 school support staff is increased beginning July 1st of the same year.

1 Part U provides that, beginning in fiscal year 2025-26 and for each subsequent fiscal
2 year, the Commissioner of Education is required to update the salary matrix to reflect any
3 increase in the minimum hourly wage of educational technicians and clerical staff. The
4 Department of Education is directed to incorporate the minimum hourly wage into the
5 essential programs and services funding model.

6 Part U also provides that, for the 2025-2026 school year only, the State must pay 100%
7 of the additional funding necessary to achieve the minimum hourly wage.

8 Part V establishes a grant program within the Department of Education to provide
9 grants to school administrative units that contract for behavioral and mental health services
10 provided by licensed behavioral and mental health service providers. This Part limits the
11 use of funds provided through the grant program to behavioral and mental health services
12 that are not otherwise covered or reimbursable through the MaineCare program and
13 provides that funds must be used in a manner that does not supplant qualified and available
14 school administrative unit behavioral and mental health staff. Part V provides that the
15 amounts of the grants must be based on a school administrative unit's population and
16 provides ongoing funding for the grants starting in the 2nd year of the biennium.

17 Part W amends the recruitment and retention adjustment process for state civil service
18 employees by:

19 1. Reducing from 4 to at least 2 the number of specified conditions that must be met to
20 authorize payment of a recruitment and retention adjustment; and

21 2. Requiring, in the event the committee formed to determine the appropriate
22 recruitment and retention adjustments cannot agree on the appropriate adjustment, the use
23 of a neutral 3rd party to make a final decision.
