44 partners to monitor the capacity and reach of dental services in the State, ensure that the

1 State's oral health program under the Maine Revised Statutes, Title 22, section 2127 is data
2 driven, assess oral health disparities and track results of oral health studies and programs.

3 **SUMMARY**

4 This bill concerns the Department of Health and Human Services' provision of oral
5 health services as follows:

6 1. It clarifies the requirement of the department to expand availability of school-based
7 preventive oral health services to public schools;

8 2. It allows the Legislature to report out legislation based on the annual report of the
9 department on the goal that children enrolled in the MaineCare program in all regions of
10 the State receive at least one preventive dental visit annually; and

11 3. It requires the department to work with the MaineCare Advisory Committee, dental
12 subcommittee to plan a pilot project for an oral health value-based payment model within
13 the MaineCare program that includes prevention, early intervention, disease management
14 and care coordination services for oral health services delivered in schools and early child
15 care settings and to report the plan to the Legislature.

16 The bill also makes permanent within the Maine Center for Disease Control and
17 Prevention's office of rural health and primary care the positions of oral health educator
18 and data and research analyst.
