This report must include a description of access to land and interest in land acquired during the report period. If an acquisition has been made that does not include guaranteed public vehicular access to the land acquired, the board must provide justification for that acquisition and a plan for continuing efforts to acquire guaranteed public access to the land. This report must include a summary of the board's experience during the reporting period with projects funded pursuant to section ~~6203~~ or 6203-A, ~~6203-D~~ or ~~6203-E~~ and in which the land or interest in land is acquired by a cooperating entity. This report must also include on a county-by-county basis a summary of the expenditures made by the board and acreage conserved through acquisition of fee or less-than-fee interest by the board during the report period. Each report must include cumulative totals by county of acreage conserved through acquisition of fee or less-than-fee interest through action by the board.

The report must include maps based on available information and at a statewide level that show federal, state and other public lands and permanent interests in lands held for conservation purposes. The maps must also provide a representation of the amount of land affected by conservation easements under Title 33, chapter 7, subchapter 8-A. Other state agencies holding conservation lands and interests in lands held for conservation purposes shall assist in the preparation of the maps.

**Sec. 15. 5 MRSA §6207**, as amended by PL 2021, c. 676, Pt. A, §4, is further amended to read:

**§6207. Acquisition criteria**

**1. Distribution of funds.** The board shall authorize the distribution of funds from the Land for Maine's Future Trust Fund, the Conservation and Recreation

Fund and the Public Access to Maine Waters Fund to state agencies and cooperating entities for the acquisition of natural lands that meet the criteria set forth in this chapter.

**2. Determination of statewide significance.** In determining whether a proposed acquisition must be funded, in full or in part, by the Land for Maine's Future Trust Fund, the Conservation and Recreation Fund or the Public Access to Maine Waters Fund, the board shall consider whether the site is of statewide significance and:

- A. Contains recreation lands, prime physical features of the Maine landscape, areas of special scenic beauty, farmland or open space, undeveloped shorelines, significant undeveloped archeological sites, wetlands, fragile mountain areas or lands with other conservation, wilderness or recreation values;
- B. Is habitat for plant or animal species or natural communities considered rare, threatened or endangered in the State;
- C. Provides nonmotorized or motorized public access to recreation opportunities or those natural resources identified in this section;
- D. Provides public water supply protection when that purpose is consistent and does not conflict with the natural resource conservation and recreation purposes of this chapter; or
- E. Contains deer wintering areas and satisfies all the requirements of subsection 3, paragraph A.

**3. Priorities.** Whenever possible, the Land for Maine's Future Trust Fund, the Conservation and Recreation Fund and the Public Access to Maine Waters Fund must be used for land acquisition projects when matching funds are available from cooperating entities, as long as the proposed acquisition meets all other criteria set forth in this chapter. For acquisitions funded by the Land for Maine's Future Trust Fund and the Conservation and Recreation Fund, the board shall give priority to projects that conserve lands with multiple outstanding resource or recreation values or a single exceptional value, that help the State's natural ecosystems, wildlife and natural resource-based economies adapt to a changing climate, that provide geographic representation and that build upon or connect existing holdings.

- A. When evaluating projects to be funded, the board shall give a preferential consideration to projects that conserve lands that have been determined by the Department of Inland Fisheries and Wildlife to be important for conserving deer in northern, eastern and western Maine. To be given preferential consideration under this paragraph, a project must result in the acquisition of a fee interest or an easement interest in the land, the depart-

ment's holding the interest in the land and the department's managing the land area as a wildlife management area, as defined in Title 12, section 10001, subsection 74, with deer conservation as the highest management priority. Only projects that satisfy the requirements of this paragraph may be given preferential consideration. Nothing in this paragraph limits the ability of the board to use the Land for Maine's Future Trust Fund or the Conservation and Recreation Fund to fund other projects that may also help conserve deer or deer habitat but that do not receive preferential consideration under this paragraph.

When acquiring land or interest in land, the board shall examine public vehicular access rights to the land and, whenever possible and appropriate, acquire guaranteed public vehicular access as part of the acquisition.

**4. Nonqualifying expenditures.** The board may not fund:

A. Facilities for organized recreational activities, including, but not limited to, ballparks, tennis courts or playgrounds;

B. Except as provided in ~~section 6203, subsection 3, paragraph B and section 6203-A, subsection 3, paragraph B, section 6203-D, subsection 2 and section 6203-E, subsection 3, paragraph B~~, capital improvements on any publicly owned facilities; and

C. The acquisition of land of which the primary use value has been and will be as commercially harvested or harvestable forest land.

**5. Estimation of monitoring and management costs.** Prior to final approval of a project under this chapter, a person submitting a proposal to acquire property or an interest in property with funding from the Land for Maine's Future Trust Fund, the Conservation and Recreation Fund or the Public Access to Maine Waters Fund shall provide:

A. A description of the management envisioned for the property for the first 10 years following acquisition. When the application proposes acquiring an interest in property, the application must provide a description of the anticipated management responsibilities retained by the landowner and those to be assumed by the State or a cooperating entity;

B. Preliminary estimates of the costs to the State or a cooperating entity of managing the land for the uses proposed in the application; and

C. Preliminary estimates of the costs associated with monitoring compliance with an easement when an interest in land is acquired.

**6. Public uses.** Hunting, fishing, trapping and public access may not be prohibited on land acquired with proceeds from the Land for Maine's Future Trust Fund or the Conservation and Recreation Fund, except

to the extent prohibited by applicable state, local or federal laws, rules and regulations and except for working waterfront projects and working farmland preservation projects.

**Sec. 16. 5 MRSA §6209, sub-§1**, as amended by PL 1993, c. 728, §13, is further amended to read:

**1. Uses of funds.** The board may use the Land for Maine's Future Trust Fund, the Conservation and Recreation Fund and the Public Access to Maine Waters Fund to acquire real property in both fee and less-than-fee simple interest, including, but not limited to, conservation easements, access easements, scenic easements, other permanent interests in land and long-term leases of at least 99 years, ~~provided that as long as~~ those acquisitions are primarily natural lands meeting the criteria set forth in this chapter.

**Sec. 17. 5 MRSA §6209, sub-§5**, as amended by PL 1993, c. 728, §13, is further amended to read:

**5. Land evaluated.** All lands acquired with money from the Land for Maine's Future Trust Fund, the Conservation and Recreation Fund or the Public Access to Maine Waters Fund must be evaluated for rare, threatened or endangered species of plants and animals, exemplary natural communities, features of historic significance and other high priority natural features and ecologic functions as determined by the board, with reference to the best inventory data available to the State. Subsequent management by state agencies holding properties found to have such important features and functions must reflect the objective of maintaining and protecting those features and functions.

**Sec. 18. 5 MRSA §6211, sub-§3**, as amended by PL 1999, c. 731, Pt. H, §1, is further amended to read:

**3. Distribution of proceeds.** Funds received by the Land for Maine's Future Board under the agreement with the financial institution, credit union or other credit card issuer must be deposited in a separate, interest-bearing account within the Land for Maine's Future Trust Fund. The account must be held separate and apart from all other money, funds and accounts. Eligible investment earnings credited to the assets of the account become part of the assets of the account. Any balance remaining in the account at the end of any fiscal year must be carried forward to the next fiscal year. Notwithstanding section ~~6203~~ 6203-D, subsection ~~3~~ 2, the board may expend funds deposited in the account pursuant to this section to cover administrative costs and for staff support and consulting services, as determined necessary by the board to carry out its duties under this chapter.

The commissioner shall consult with other agencies administering programs affected by the proposed benefits.

These lands must be designated as wildlife management areas and managed with deer conservation as the highest management priority, and the commissioner shall ensure that appropriate deed restrictions are placed on the land that reflect these priorities. The commissioner shall also develop appropriate purchase and sale agreements that ensure that deer wintering areas on land to be acquired pursuant to this subsection are preserved as deer wintering areas prior to purchase. Beginning January 15, 2023 and annually thereafter, the department shall report to the joint standing committee of the Legislature having jurisdiction over inland fisheries and wildlife matters on the acquisition and management of deer wintering areas.

The receiver shall ask the court for direction in the treatment of debts incurred prior to appointment ~~where such~~ when the debts appear extraordinary, of questionable validity, or unrelated to the normal and expected maintenance and operation of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit, or ~~where~~ when payment of the debts will interfere with the purposes of the receivership. Priority must be given by the receiver to expenditures for current direct resident or client care. Revenues held by or owing to the receiver in connection with the operation of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit are exempt from attachment and trustee process, including process served prior to the institution of receivership proceedings.

B. The receiver may correct or eliminate any deficiency of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit that endangers the safety or health of the resident or client, if the total cost of the correction does not exceed \$3,000. On application by the receiver, the court may order expenditures for this purpose in excess of \$3,000. The licensee or owner may apply to the court to determine the reasonableness of any expenditure over \$3,000 by the receiver.

C. In the event that the receiver does not have sufficient funds to cover expenses needed to prevent or remove jeopardy to the residents or clients, the receiver may petition the court for permission to borrow for these purposes. Notice of the receiver's petition to the court for permission to borrow must be given to the owner, the licensee and the department. The court may, after hearing, authorize the receiver to borrow money upon specified terms of repayment and to pledge security, if necessary, if the court determines that the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit should not be closed and that the loan is reasonably necessary to prevent or remove jeopardy or if it determines that the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit should be closed and that

the expenditure is necessary to prevent or remove jeopardy to residents or clients for the limited period of time that they are awaiting transfer. The purpose of this provision is to protect residents or clients and to prevent the closure of long-term care facilities, home health care providers, personal care agencies, general hospitals, specialty hospitals, critical access hospitals, ambulatory surgical centers, hospice agencies or end-stage renal disease units that, under proper management, are likely to be viable operations. This section may not be construed as a method of financing major repair or capital improvements to facilities that have been allowed to deteriorate because the owner or licensee has been unable or unwilling to secure financing by conventional means.

**3. Avoidance of preexisting leases, mortgages and contracts.** A receiver may not be required to honor a lease, mortgage, secured transaction or other contract entered into by the owner or licensee of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit if the court finds that:

- A. The person seeking payment under the agreement has an ownership interest in the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit or was related to the licensee, the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit by a significant degree of common ownership or control at the time the agreement was made; or
- B. The rental, price or rate of interest required to be paid under the agreement is in excess of a reasonable rental, price or rate of interest.

If the receiver is in possession of real estate or goods subject to a lease, mortgage or security interest that the receiver is permitted to avoid and if the real estate or goods are necessary for the continued operation of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit, the receiver may apply to the court to set a reasonable rental, price or rate of interest to be paid by the receiver during the term of the receivership. The court shall hold a hearing on the application within 15 days, and the receiver shall send notice of the application to any known owners and mortgagees of the property at least 10 days before the hearing. Payment by the receiver of the amount determined by the court to be reasonable is a defense to an

action against the receiver for payment or for the possession of the subject goods or real estate by a person who received such notice.

Notwithstanding this subsection, there may not be a foreclosure or eviction during the receivership by any person if the foreclosure or eviction would, in view of the court, serve to defeat the purpose of the receivership.

**4. Closing of long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit.** The receiver may not close the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit without leave of the court. In ruling on the issue of closure, the court shall consider:

- A. The rights and best interests of the residents or clients;
- B. The availability of suitable alternative placements;
- C. The rights, interest and obligations of the owner and licensee;
- D. The licensure status of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit; and
- E. Any other factors that the court considers relevant.

When a long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit is closed, the receiver shall provide for the orderly transfer of residents or clients to mitigate transfer trauma.

**Sec. 40. 22 MRSA §7937**, as amended by PL 1999, c. 384, §16, is further amended to read:

**§7937. Court order to have effect of license**

An order appointing a receiver under section 7933 has the effect of a license for the duration of the receivership. The receiver is responsible to the court for the conduct of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or end-stage renal disease unit during the receivership, and a violation of regulations governing the conduct of the long-term care facility, home health care provider, personal care agency, general hospital, specialty hospital, critical access hospital, ambulatory surgical center, hospice agency or

end-stage renal disease unit, if not promptly corrected, must be reported by the department to the court.

The changes to the compact are technical in nature, and this Act must be interpreted as substantively the same as the compact that is enacted by other compact states.

**3. Declaration of purpose.** The purpose of this compact is to facilitate interstate practice of audiology and speech-language pathology with the goal of improving public access to audiology and speech-language pathology services. The practice of audiology and speech-language pathology must include all audiology and speech-language pathology practice as defined by the state practice laws of the member state in

which the client is located. **9. Nonresidents.** An individual not residing in a member state is able to apply for a member state's single-state license as provided under the laws of that member state. However, the single-state license granted to these individuals may not be recognized as granting the compact privilege in any other member state.

regulatory authority. The licensee may be ineligible for a compact privilege in any state until the specific time for removal has passed and all fines are paid.

**5. Loss of compact privilege.** If a home state license is encumbered, the licensee loses the compact privilege in any remote state until the following occur:

A. The home state license is no longer encumbered; and

A. Take adverse action against an audiologist's or speech-language pathologist's compact privilege within that member state; and

B. Issue subpoenas for both hearings and investigations that require the attendance and testimony of

witnesses as well as the production of evidence. A subpoena issued by a licensing board in a member state for the attendance and testimony of witnesses or the production of evidence from another member state may be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state in which the witnesses or evidence are located.

**3. Application of law in home state.** For the purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state and shall apply its own state laws to determine appropriate action.

**4. Investigations.** The home state shall complete any pending investigations of an audiologist or speech-language pathologist who changes the audiologist's or speech-language pathologist's primary state of residence during the course of the investigations. The home state where the investigations were initiated also has the authority to take appropriate action and shall promptly report the conclusions of the investigations to the administrator of the data system. The data system administrator shall promptly notify the new home state of any adverse action.

**5. Recovery of costs of investigations.** A member state, if otherwise permitted by state law, may recover from the affected audiologist or speech-language pathologist the costs of investigations and disposition of cases resulting from any adverse action taken against that audiologist or speech-language pathologist.

**6. Factual findings.** A member state may take adverse action based on the factual findings of a remote state, as long as the member state follows its own procedures for taking the adverse action.

**7. Joint investigations.** The following requirements apply to joint investigations.

A. In addition to the authority granted to a member state by its respective state audiology or speech-language pathology laws and regulations or other applicable state law, any member state may participate with other member states in joint investigations of licensees.

B. Member states shall share any investigative, litigation or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

**8. Deactivation of compact privilege.** If an adverse action is taken by the home state against an audiologist's or speech-language pathologist's license, the audiologist's or speech-language pathologist's compact

privilege in all other member states must be deactivated until all encumbrances have been removed from the state license. All home state disciplinary orders that impose adverse action against an audiologist's or speech-language pathologist's license must include a statement that the audiologist's or speech-language pathologist's compact privilege is deactivated in all member states during the pendency of the order.

**9. Notice of adverse action.** If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the home state of any adverse actions by remote states.

**10. Alternative program.** This compact does not override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

**§17508. Establishment of Audiology and Speech-Language Pathology Compact Commission**

**1. Commission established.** The member states hereby create a joint public agency known as the Audiology and Speech-Language Pathology Compact Commission as follows.

A. The commission is an instrumentality of the compact states.

**6. Expungement of information.** Any information submitted to the data system that is subsequently required to be expunged by the laws of the member state contributing the information must be removed from the data system.

### **§17510. Rulemaking**

**1. Rule-making authority.** The commission shall exercise its rule-making powers pursuant to the criteria set forth in this section and the rules adopted pursuant to this section. Rules and amendments become binding as of the date specified in each rule or amendment.

**2. Rejection of rules.** If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within 4 years of the date of adoption of the rule, the rule has no further force and effect in any member state.

**3. Adoption at meeting.** Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

**4. Notice.** Prior to promulgation and adoption of a final rule or rules by the commission, and at least 30 days in advance of the meeting at which the rule will be

B. A hearing must be conducted in a manner that provides each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

C. All hearings must be recorded. A copy of the recording must be made available on request.

D. Nothing in this subsection may be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

**9. Consideration of comments.** Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

**10. No public hearing.** If no written notice of intent to attend the public hearing by interested persons is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

**11. Final action.** The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rule-making record and the full text of the rule.

**12. Emergency rules.** Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing, as long as the usual rule-making procedures provided in the compact and in this section are retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this subsection, an emergency rule is a rule that must be adopted immediately in order to:

A. Meet an imminent threat to public health, safety or welfare;

B. Prevent a loss of commission or member state funds; or

C. Meet a deadline for the promulgation of an administrative rule that is established by federal law or regulation.

**13. Revisions.** The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of any revisions must be posted on the publicly accessible website of the commission. The revision is subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

**§17511. Oversight, dispute resolution and enforcement**

The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the prevailing member must be awarded all costs of such litigation, including reasonable attorney's fees.

C. The remedies in this chapter are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

**§17512. Date of implementation of Audiology and Speech-Language Pathology Interstate Compact and associated rules, withdrawal and amendment**

**1. Effective date.** This compact becomes effective on the date on which the compact statute is enacted into law in the 10th member state. The provisions, which become effective at that time, are limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rule-making powers necessary to the implementation and administration of the compact.

**2. Effect of rules adopted by compact on member states.** A state that joins the compact subsequent to the commission's initial adoption of the rules is subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission has the full force and effect of law on the date the compact becomes law in that state.

**3. Withdrawal.** A member state may withdraw from this compact by enacting a statute repealing the compact.

A. A member state's withdrawal does not take effect until 6 months after enactment of the repealing statute.

B. Withdrawal does not affect the continuing requirement of the state's audiology or speech-language pathology licensing board to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

**4. Construction.** Nothing in this compact may be construed to invalidate or prevent any audiology or speech-language pathology licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

**5. Amendments.** This compact may be amended by the member states. An amendment to this compact does not become effective and binding upon any member state until it is enacted into the statutes of all member states.

**§17513. Construction and severability**

This compact must be liberally construed so as to effectuate its purposes. The provisions of this compact are severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any member state or of the United States or the applicability of this compact to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability of this compact to any government, agency, person or circumstance are not affected. If this compact is held to be contrary to the constitution of any member state, the compact remains in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

**§17514. Binding effect of compact and other laws**

Nothing in this compact prevents the enforcement of any other law of a member state that is not inconsistent with the compact. Any laws in a member state in conflict with the compact are superseded to the extent of the conflict. Any lawful actions of the commission, including all rules and bylaws promulgated by the commission, are binding upon the member states. All agreements between the commission and the member states are binding in accordance with their terms. If any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state, the provision is ineffective to the extent of the conflict with the constitutional provision in question in that member state.

The commission shall determine whether a statement substantially conforms to the requirements of this subchapter.

B. The intentional filing of a false statement is a Class E crime. If the commission concludes that it appears that a Legislator has willfully filed a false statement, it shall refer its findings of fact to the Attorney General. If the commission determines that a Legislator has willfully failed to file a statement required by this subchapter or has willfully

Within 3 business days of a filing deadline, the commission shall mail a notice to a Legislator or candidate who has failed to file a statement required under this subchapter. If the Legislator or candidate requests a waiver, the commission shall consider the request at its next meeting for a determination of the final penalty, if any. The commission staff shall confirm a final penalty in a written determination to the Legislator or candidate who did not file the statement on time. If a lobbyist files a report required pursuant to section 317 within 24 hours after the deadline, the amount of the preliminary penalty is \$50. The preliminary penalty is increased by \$50 for each successive violation during a lobbying year. The commission may waive the ~~fine~~ or penalty in whole or in part if the commission determines the failure to register or report was due to mitigating circumstances or the ~~fine~~ or penalty is disproportionate to the level of experience of the lobbyist or the harm suffered by the public from the late registration or report. For purposes of this subsection, "mitigating circumstances" means:

- B. An error by the commission; or

that a bona fide effort was made to file the report in accordance with this chapter, including, but not limited to, unexplained delays in Internet service.

B. The commission shall defend any member, officer, executive director, employee or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, except that nothing in this paragraph may be construed to prohibit that person from retaining that person's own counsel, as long as the actual or alleged act, error or omission did not result from that person's intentional or willful or wanton misconduct.

C. The commission shall indemnify and hold harmless any member, officer, executive director, employee or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from the intentional or willful or wanton misconduct of that person.

#### **§18710. Rulemaking**

**1. Powers.** The commission shall exercise its rule-making powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules and amendments become binding as of the date specified in each rule or amendment.

**2. Rule rejection.** If a majority of the legislatures of the member states rejects a rule, by enactment of a law or resolution in the same manner used to adopt the compact within 4 years of the date of adoption of the rule, then that rule has no further force and effect in any member state.

**3. Rule adoption procedure.** Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

**4. Notice.** Prior to promulgation and adoption of a final rule or rules by the commission, and at least 30 days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

A. On the website of the commission or other publicly accessible platform; and

**8. Hearing notice.** If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time and date of the scheduled public hearing. If the hearing is held via electronic means, the commission shall publish the mechanism for access to the electronic hearing.

A. All persons wishing to be heard at the hearing must notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than 5 business days before the scheduled date of the hearing.

B. Hearings must be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

C. All hearings must be recorded. A copy of the recording must be made available on request.

D. Nothing in this section may be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

**9. Consideration.** Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

**10. Proceeding without public hearing.** If no written notice of intent to attend the public hearing by

interested parties is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

- D. Protect public health and safety.

**13. Rule revisions.** The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of any revisions must be posted on the website of the commission. The revision is subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

#### **§18711. Oversight; dispute resolution; enforcement**

**1. Oversight.** Oversight of the compact is governed by this subsection.

A. The executive, legislative and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder have standing as statutory law.

B. All courts shall take judicial notice of the compact and the rules in any judicial or administrative

proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities or actions of the commission.

C. The commission is entitled to receive service of process in any proceeding under paragraph B and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or order void as to the commission, this compact or promulgated rules.

**2. Default; technical assistance; termination.** Default, technical assistance and termination are governed by this subsection.

A. If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

- (1) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default and any other action to be taken by the commission; and
- (2) Provide remedial training and specific technical assistance regarding the default.

B. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

C. Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature and each of the member states.

D. A state that has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

E. The commission may not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** the enactment of the Maine Revised Statutes, Title 15, section 815, which prohibits most communication between prosecutors and unrepresented defendants, has contributed to a backlog of criminal cases in the judicial system; and

**Whereas,** this legislation authorizes prosecutors to send written plea offers to unrepresented defendants, to inform unrepresented defendants of diversion programs or steps they can take to avoid pursuit of pending criminal charges and, after unrepresented defendants have been informed of their rights by the court, to negotiate with unrepresented defendants when they appear for dispositional conferences and to communicate with unrepresented defendants who initiate such communications; and

**Whereas,** the intent of authorizing these forms of communication is to decrease delays in the judicial system while continuing to recognize the fundamental nature of criminal defendants' right to counsel; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

A defendant's failure to successfully complete a diversion program or to successfully undertake any other steps that the prosecutor informed the defendant of under this subsection may not form the basis for imposing any term of imprisonment, suspended or unsuspended, on that defendant if that defendant is later convicted of the charge or charges that were the subject of the discussion; ~~or~~

B. Notify the defendant that a pending criminal matter is being dismissed;

C. Notify the defendant in writing of a plea offer; or

**4-C. Nonwires alternative.** "Nonwires alternative" means ~~a nontransmission alternative or~~ an infrastructure, technology or application that either individually or collectively defers or reduces the need for capital investment in the transmission ~~and or~~ distribution system and addresses system reliability needs proposed to be met by the transmission or distribution system investment. "Nonwires alternative" includes but is not limited to energy efficiency and conservation measures, energy storage, load management, demand response and distributed generation.

**Sec. 3. 35-A MRSA §3132, sub-§2-D**, as amended by PL 2019, c. 298, §7, is further amended to read:

**2-D. ~~Nontransmission~~ Nonwires alternatives investigation; consideration.** In considering whether to approve or disapprove all or portions of a proposed transmission line and associated infrastructure pursuant to subsection 5, the commission shall, for a transmission line proposed by an investor-owned transmission and distribution utility, consider the results and recommendations of an investigation by the nonwires alternative coordinator conducted in accordance with section 3132-C.

**Sec. 4. 35-A MRSA §3132, sub-§5**, as amended by PL 2019, c. 298, §10, is further amended to read:

**5. Commission approval of a proposed transmission line; ~~nontransmission~~ nonwires alternatives.** The commission may approve or disapprove all or portions of a proposed transmission line and shall make such orders regarding its character, size, installation and maintenance and regarding ~~nontransmission~~ nonwires alternatives to the proposed transmission line as are necessary, having regard for any increased costs caused by the orders. In its review and consideration of ~~nontransmission~~ nonwires alternatives, as required by subsection 2-D, the commission shall give preference to the ~~nontransmission~~ nonwires alternatives that have been identified as able to address the identified need for the proposed transmission line most cost-effectively. When the cost-effectiveness of the identified ~~nontransmission~~ nonwires alternatives are reasonably equal, the commission shall give preference to the alternatives that produce the lowest amount of local air emissions, including greenhouse gas emissions.

**Sec. 5. 35-A MRSA §3132, sub-§6**, as amended by PL 2019, c. 298, §11, is further amended to read:

**6. Commission order; certificate of public convenience and necessity.** In its order, the commission shall make specific findings with regard to the public need for the proposed transmission line. The commission shall make specific findings with regard to the likelihood that ~~nontransmission~~ nonwires alternatives can sufficiently address the identified public need over the effective life of the transmission line more cost-effectively. If the commission finds that a public need exists, after considering whether the need can be reliably and more cost-effectively met using ~~nontransmission~~ nonwires alternatives, it shall issue a certificate of public convenience and necessity for the transmission line. In determining public need, the commission shall, at a minimum, take into account economics, reliability, public health and safety, scenic, historic and recreational values, state renewable energy generation goals, the proximity of the proposed transmission line to inhabited dwellings and ~~nontransmission~~ nonwires alternatives to construction of the transmission line, including energy conservation, distributed generation or load management. If the commission orders or allows the erection of the transmission line, the order is subject to all other provisions of law and the right of any other agency to approve the transmission line. The commission shall, as necessary and in accordance with subsections 7 and 8, consider the findings of the Department of Environmental Protection under Title 38, chapter 3, subchapter 1, article 6, with respect to the proposed transmission line and any modifications ordered by the Department of Environmental Protection to lessen the impact of the proposed transmission line on the environment. A person may submit a petition for and obtain approval of a proposed transmission line under this section before applying for approval under municipal ordinances adopted pursuant to Title 30-A, Part 2, Subpart

6-A; and Title 38, section 438-A and, except as provided in subsection 4, before identifying a specific route or route options for the proposed transmission line. Except as provided in subsection 4, the commission may not consider the petition insufficient for failure to provide identification of a route or route options for the proposed transmission line. The issuance of a certificate of public convenience and necessity establishes that, as of the date of issuance of the certificate, the decision by the person to erect or construct was prudent. At the time of its issuance of a certificate of public convenience and necessity, the commission shall send to each municipality through which a proposed corridor or corridors for a transmission line extends a separate notice that the issuance of the certificate does not override, supersede or otherwise affect municipal authority to regulate the siting of the proposed transmission line. The commission may deny a certificate of public convenience and necessity for a transmission line upon a finding that the transmission line is reasonably likely to adversely affect any transmission and distribution utility or its customers.

**CHAPTER 358**

**H.P. 69 - L.D. 101**

**An Act to Return to the Former Owner Any Excess Funds Remaining After the Sale of Foreclosed Property**

**Mandate preamble.** This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, 2/3 of all of the members elected to each House have determined it necessary to enact this measure.

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** the United States Supreme Court has ruled in *Tyler v. Hennepin County*, 598 U.S. \_\_\_\_ (2023) that a Minnesota local government sale of property that was acquired by the local government by foreclosure for failure of the owner to pay property taxes without returning to the former owner the surplus proceeds received by the government entity in excess of the amount owed by the former owner violated the takings clause of the Fifth Amendment to the United States Constitution stating that "private property [shall not] be taken for public use, without just compensation"; and

**Whereas,** statutes in this State governing the foreclosure and sale of property for failure to pay property taxes are substantially similar to the laws of Minnesota and are in jeopardy of being found unconstitutional by the United States Supreme Court; and

**Whereas,** the possibility of multiple legal challenges to the State's statutes regarding sale of property following foreclosure presents the possibility of significant disruption to municipal foreclosure sales, municipal expenditures resulting from challenges to foreclosure sale laws, uncertainty of title to properties sold for foreclosure pursuant to current laws, inconsistencies in municipal responses to the United States Supreme Court decision and general disruption of the foreclosure process; and

**Whereas,** amendment of the State's foreclosure statutes needs to take effect as soon as possible to avoid the significant negative effects of delay in ensuring that the state laws are within the bounds of the United States Constitution; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 36 MRSA §943-C,** as amended by PL 2019, c. 401, Pt. A, §10, is further amended to read:

**§943-C. Sale of homesteads formerly owned by persons 65 years of age or older foreclosed properties**

Notwithstanding any provision of law to the contrary, after the foreclosure process under sections 942 and 943 or sections 1281 and 1282 is completed and the right of redemption has expired, if a municipality chooses to sell to someone other than the immediate former owner or owners property that immediately prior to foreclosure received a property tax exemption as a homestead under subchapter 4-B, the municipal officers

or their designee shall notify the immediate former owner or owners of the right to require the municipality to use the sale process under subsection 3 as long as the immediate former owner or owners demonstrate that the property meets the requirements of subsection 1. For the purpose of this section, "former owner" means the owner or owners of record at the time of foreclosure or, if deceased, the former owner's heirs, devisees or personal representatives. The notice must be sent by United States Postal Service certified mail, return receipt requested, and first-class mail to the last known address of the immediate former owner or owners. If the municipality agrees to sell the property back to the immediate former owner or owners, the alternative sale process under this section does not apply. If the sale to the immediate former owner or owners is not completed, the requirements of this section are reinstated.

**1. Subject property.** Property is subject to the requirements of this section if:

A. Immediately prior to foreclosure the property was owned by at least one person who, on the date the tax lien certificate was recorded, was 65 years of age or older and occupied the property as a homestead as defined in section 681, subsection 2; and

B. The former owner or owners of the property demonstrate to the municipal officers or their designee that:

(1) The income, as defined in section 5219 KK, subsection 1, paragraph D, of the former owner or owners of the property was less than \$40,000, after medical expenses have been deducted, for the calendar year immediately preceding the calendar year in which the right of redemption expired; and

(2) The value of liquid assets of the former owner or owners of the property is less than \$50,000 in the case of a single individual or \$75,000 in the case of 2 or more individuals. For the purposes of this paragraph, "liquid assets" means something of value available to an individual that can be converted to cash in 3 months or less and includes bank accounts, certificates of deposit, money market or mutual funds, life insurance policies, stocks and bonds, lump sum payments and inheritances and funds from a home equity conversion mortgage that are in the individual's possession whether they are in cash or have been converted to another form.

The former owner or owners must provide documentation verifying the former owner's or owners' income and liquid assets.

All applications or information submitted in support of an application under this subsection, files and commu-

nications relating to the application and the determination on the application are confidential records. Hearings and proceedings held pursuant to this subsection must be held in executive session.

**2. Notification; appeal.** At least 90 days prior to listing property described in subsection 1 for sale, the municipal officers or their designee shall notify send a written notice to the last known address of the former owner or owners, by United States Postal Service certified mail, return receipt requested, and first-class mail, of the former owner's or owners' right to require the sale process described in subsection 3. The municipal officers or their designee shall include with the notice an application form with instructions concerning application procedures and submission of information necessary for the municipality to determine whether the former owner or owners meet the conditions required under subsection 1. The former owner or owners must be allowed at least 30 days from the date the notice is mailed to submit the required application form and information. The municipal officers or their designee, within 30 days after receiving the required form and information, shall notify the former owner or owners whether the former owner or owners have been determined to be eligible for the sale process described in subsection 3 and inform the former owner or owners of the right to appeal pursuant to the Maine Rules of Civil Procedure, Rule 80B. The State Tax Assessor shall prepare application forms, notices and instructions that must be used by municipalities to inform former owners of their right to apply for the sale process provided under subsection 3.

**3. Sale process requirements.** If a municipality determines that the former owner or owners meet the conditions specified under subsection 1 the former owner submits a written demand within 90 days after the notification in subsection 2 that the sale process of this subsection be used, the municipal officers or their designee shall:

A. List the property for sale with a real estate broker licensed under Title 32, chapter 114 who does not hold an elected or appointed office in the municipality and is not employed by the municipality;

B. Sell the property at fair market value via quit-claim deed to the successful buyer at the highest price at which the property is able to sell, or the price at which the property is anticipated by the real estate broker to sell within 6 months after listing; and

C. Pay to the former owner or owners any proceeds from the sale sale proceeds in excess of:

- (1) The sum of all taxes owed on the property;
- (2) Property taxes that would have been assessed on the property during the period following foreclosure when the property is owned by the municipality;

- (3) All accrued interest;
- (4) Fees, including property listing and real estate broker's fees; and
- (5) Any other expenses incurred by the municipality in selling or maintaining the property, including, but not limited to, an administrative fee equal to 10% of the property taxes owed and reasonable attorney's fees;
- (6) The cost to the municipality of the lien and foreclosure process, including, but not limited to, reasonable attorney's fees; and
- (7) Unpaid sewer, water or other utility charges and fees imposed by the municipality.

If the municipal officers are unable to list or sell the property under the requirements of paragraphs A and B, or if the property tax payer does not request that the property be sold according to the sale process in this subsection, the municipal officers may sell the property in any manner authorized by the municipality's legislative body, if the municipal officers pay the former owner any excess sale proceeds as calculated in paragraph C.

~~**4. Effect of inability to contract or sell property.** If, after attempting to contract with at least 3 real estate brokers who meet the requirements of subsection 3, paragraph A, a municipality is unable to contract with a real estate broker for the sale of the property as described in subsection 3 or the broker cannot sell the property within 6 months after listing, the municipality may retain, sell or dispose of the property in the same manner as other property acquired through the tax lien foreclosure process.~~

**5. Property in the unorganized territory.** With regard to the sale of property acquired by the State through tax lien foreclosure in the unorganized territory, the State Tax Assessor has the obligations of a municipality under this section.

**6. Quitclaim deed and waiver of former owner.** As a condition of disbursement of excess sale proceeds to the former owner under subsection 3, paragraph C, the municipal officers may require the former owner to execute a quitclaim deed without covenant conveying any interest of the former owner in the property to the municipality and to deliver that deed before conveyance by the municipality to the buyer. Receipt of such excess sale proceeds by the former owner is deemed to be a waiver of any right of the former owner to commence any action pursuant to section 946-B.

**§3944. Jurisdiction over Indian child custody proceedings**

**1. Exclusive jurisdiction.** An Indian tribe has jurisdiction exclusive as to the courts of the State over any Indian child custody proceeding or emergency proceeding held in this State involving an Indian child who resides or is domiciled within the reservation of that Indian tribe, except when the jurisdiction is otherwise vested in this State by federal law. When an Indian child is a ward of a tribal court, the Indian tribe retains exclusive jurisdiction, notwithstanding the residence or domicile of the child. Except as provided in section 3953, any Indian child custody proceeding or emergency proceeding in District Court or Probate Court that is within the exclusive jurisdiction of an Indian tribe must be dismissed. The court shall expeditiously notify the tribal court of the pending dismissal based on the tribe's exclusive jurisdiction and ensure that the tribal

court is sent all information regarding the proceeding, including but not limited to the pleadings and any court record.

**2. Transfer of proceedings; declination by tribal court.** In any proceeding for the foster care placement of, or termination of parental rights to, an Indian child who is not domiciled or residing within the reservation of the Indian child's tribe, the District Court or Probate Court shall, upon the petition of the Indian child's parent, Indian custodian or tribe, promptly notify the tribal court of the transfer petition and transfer the proceeding to the jurisdiction of the Indian child's tribe unless any of the following applies:

A. A parent of the Indian child objects to the transfer;

B. The Indian child's tribe does not have a tribal court, or the tribal court of the Indian child's tribe declines jurisdiction; or

C. The court determines that good cause exists to deny the transfer. The party opposing transfer has the burden to show good cause by clear and convincing evidence. The good cause determination must be based on which court is best positioned to adjudicate the proceeding, not on the potential outcome of the proceeding. In determining whether good cause exists, the court may not consider:

(1) Whether the foster care placement or termination of parental rights proceeding is at an advanced stage if the Indian child's parent, Indian custodian or tribe did not receive notice of the child custody proceeding until an advanced stage;

(2) Whether there have been prior proceedings involving the Indian child for which no petition to transfer was filed;

(3) Whether transfer could affect the placement of the Indian child;

(4) The Indian child's cultural connections with the tribe or its reservation; or

(5) Socioeconomic conditions or any negative perception of tribal or United States Department of the Interior, Bureau of Indian Affairs social services or judicial systems.

**3. Intervention.** An Indian child's Indian custodian or tribe may intervene in any proceeding for the foster care placement of, or termination of parental rights to, an Indian child at any point in the proceeding.

**4. Full faith and credit.** The State shall give full faith and credit to the public acts, records and judicial proceedings of any Indian tribe that are applicable to an Indian child custody proceeding to the same extent that the State gives full faith and credit to the public acts, records and judicial proceedings of any other governmental entity.

**§3945. Court proceedings**

**1. Determination of Indian child status.** In any proceeding that would qualify as an Indian child custody proceeding or emergency proceeding if the child were an Indian child, the District Court or Probate Court shall ask each participant whether the participant knows or has reason to know that the child is an Indian child. The court shall use the procedures in 25 Code of Federal Regulations, Section 23.107 to determine if a child may be an Indian child.

**2. Notice; time for commencement of proceedings; additional time for preparation.** In any involuntary Indian child custody proceeding in which the District Court or Probate Court or a party to the proceeding knows or has reason to know that an Indian child is involved, the party seeking the adoptive placement, foster care placement, preadoptive placement or termination of parental rights of or to an Indian child shall notify the parent or Indian custodian and the Indian child's tribe of the pending proceedings and of their right of intervention.

A. The notice in any involuntary Indian child custody proceeding involving an Indian child must be written in clear and understandable language and must conform with the requirements of 25 Code of Federal Regulations, Section 23.111(d). The District Court and Probate Court may create a form that complies with this paragraph.

B. The notice must be sent by certified mail, return receipt requested. The notice to the Indian child's tribe must be sent by certified mail, return receipt requested, and via e-mail, at the mailing address and e-mail address on file with the United States Department of the Interior, Bureau of Indian Affairs.

C. If the identity or location of the parent or Indian custodian and the Indian tribe cannot be determined, notice under this subsection must be given to the appropriate regional director of the United States Department of the Interior, Bureau of Indian Affairs in like manner.

D. An original or a copy of each notice sent under this subsection must be filed with the court together with any return receipts or other proof of service.

E. The first hearing in the proceeding may not be held until at least 10 days after receipt of the notice by the parent, Indian custodian and Indian tribe or the appropriate regional director of the United States Department of the Interior, Bureau of Indian Affairs.

F. On the request of a parent, Indian custodian or Indian tribe, the court shall grant a continuance of up to 20 additional days to enable the requester to prepare for the hearing.

**3. Appointment of counsel.** Parents and Indian custodians are entitled to legal counsel in any Indian child custody proceeding or emergency proceeding. A parent or Indian custodian may request the court to appoint legal counsel for them. The District Court or Probate Court, upon a finding that the parent or Indian custodian is indigent, shall appoint and pay the reasonable costs and expenses of their legal counsel. The court may, in its discretion, appoint counsel for the Indian child upon a finding that such appointment is in the best interest of the Indian child.

**4. Examination of reports or other documents.** Each party to a foster care placement or termination of parental rights proceeding under state law involving an Indian child has the right to examine all reports or other documents filed with the court upon which any decision with respect to the proceeding may be based.

**5. Remedial services, rehabilitative programs and preventive measures.** A party seeking to effect a foster care placement of, or termination of parental rights to, an Indian child under chapter 1071, Title 18-C, Article 5 or 9 or Title 19-A, section 1658 shall satisfy the court, in accordance with the standard of proof required by the governing statute, that active efforts have been made to provide remedial services and rehabilitative programs designed to prevent the breakup of the Indian family and that these efforts have proved unsuccessful.

**6. Involuntary foster care placement.** Involuntary foster care placement may not be ordered in the absence of a determination, supported by clear and convincing evidence, including testimony of qualified expert witnesses, that the continued custody of the Indian child by the parent or Indian custodian is likely to result in serious emotional or physical damage to the Indian child. The evidence must show a causal relationship between the particular conditions in the home and the likelihood that continued custody of the Indian child will result in serious emotional or physical damage to the particular Indian child who is the subject of the Indian child custody proceeding.

**7. Involuntary termination of parental rights.** Involuntary termination of parental rights may not be ordered in the absence of a determination, supported by evidence beyond a reasonable doubt, including testimony of qualified expert witnesses, that the continued custody of the Indian child by the parent or Indian custodian is likely to result in serious emotional or physical damage to the Indian child. The evidence must show a causal relationship between the particular conditions in the home and the likelihood that continued custody of the Indian child will result in serious emotional or physical damage to the particular Indian child who is the subject of the Indian child custody proceeding.

**§3946. Parental rights; voluntary termination**

**1. Consent; record; certification matters; invalid consents.** When a parent or Indian custodian voluntarily consents to a foster care placement or to termination of parental rights, this consent is not valid unless executed in writing and recorded before a judge of the District Court or Probate Court. The court shall certify in writing that the terms and consequences of the consent were fully explained in detail and were fully understood by the parent or Indian custodian. The court shall also certify that either the parent or Indian custodian fully understood the explanation in English or that it was interpreted into a language that the parent or Indian custodian understood. Consent given prior to, or within 10 days after, birth of an Indian child is not valid.

**2. Foster care placement; withdrawal of consent; return of custody.** Any parent or Indian custodian may withdraw consent to a voluntary foster care placement under the laws of this State at any time and, upon such withdrawal, the Indian child must be returned to the parent or Indian custodian.

**3. Voluntary termination of parental rights or adoptive placement; withdrawal of consent; return of custody.** In any voluntary proceeding for termination of parental rights to, or adoptive placement of, an Indian child, the consent of the parent or Indian custodian may be withdrawn for any reason at any time prior to the entry of a final decree of termination or adoption, as the case may be, and the Indian child must be returned to the parent or Indian custodian.

**4. Collateral attack; vacation of decree and return of custody; limitations.** After the entry of a final decree of adoption of an Indian child in the District Court or Probate Court in a voluntary proceeding, the parent or Indian custodian may withdraw consent to the adoption upon the grounds that consent was obtained through fraud or duress and may petition the court to vacate the decree. Upon a finding by clear and convincing evidence that the consent was obtained through fraud or duress, the court shall vacate the decree and return the Indian child to the parent or Indian custodian. An adoption that has been effective for 2 years or longer may not be invalidated under the provisions of this subsection.

**§3947. Petition to court of competent jurisdiction to invalidate action upon showing of certain violations**

An Indian child who is the subject of an action for foster care placement or termination of parental rights under the laws of this State, a parent or Indian custodian from whose custody the Indian child was removed under the laws of this State and the Indian child's tribe may petition the District Court to invalidate the action upon a showing by clear and convincing evidence that the action violated any provision of sections 3944 to 3946.

**§3948. Placement of Indian children**

**1. Adoptive placements; preferences.** In an adoptive placement of an Indian child under the laws of this State, placement preference must be given, in the absence of good cause to the contrary, in descending order, as listed below:

- A. An extended family member of the Indian child;
- B. Another member or citizen of the Indian child's tribe;
- C. A member or citizen of an Indian tribe in which the Indian child is eligible for membership or citizenship, but that is not the Indian child's tribe;
- D. Another Indian with whom the Indian child has a relationship; or
- E. Another Indian from a tribe that is culturally similar to or linguistically connected to the Indian child's tribe.

**2. Foster care or preadoptive placements; criteria; preferences.** An Indian child accepted for foster care placement or preadoptive placement must be placed in the least restrictive setting that most approximates a family and in which that Indian child's special needs, if any, may be met. The Indian child must also be placed within reasonable proximity to that Indian child's home, taking into account any special needs of the child. In any foster care placement or preadoptive placement, placement preference must be given, in the absence of good cause to the contrary, in descending order, as listed below:

- A. An extended family member of the Indian child;
- B. A foster home licensed, approved or specified by the Indian child's tribe;
- C. An Indian foster home licensed or approved by an authorized non-Indian licensing authority; or
- D. An institution for children approved by an Indian tribe or operated by an Indian organization that has a program suitable to meet the Indian child's needs.

**3. Good cause to deviate from placement preferences.** The party seeking departure from the placement preferences under this section bears the burden of proving by clear and convincing evidence that there is good cause to depart from the placement preferences. A court's determination of good cause to depart from the placement preferences must be made on the record or in writing and may be based on one or more of the following considerations:

- A. The request of one or both of the Indian child's parents, if they attest that they have reviewed the placement options, if any, that comply with the order of preference;
- B. The request of the Indian child, if the Indian child is of sufficient age and capacity to understand the decision that is being made;

C. The presence of a sibling attachment that can be maintained only through a particular placement;

D. The extraordinary physical, mental or emotional needs of the Indian child, such as specialized treatment services that may be unavailable in the community where families who meet the placement preferences live; or

E. The unavailability of a suitable placement after a determination by the court that a diligent search was conducted to find suitable placements meeting the preference criteria, but none has been located. For purposes of a determination under this paragraph, the standards for determining whether a placement is unavailable must conform to the prevailing social and cultural standards of the Indian community in which the Indian child's parent or extended family resides or with which the Indian child's parent or extended family members maintain social and cultural ties.

A placement may not depart from the preferences under this section based on the socioeconomic status of any placement relative to another placement. A placement may not depart from the preferences based solely on ordinary bonding or attachment that developed from time spent in a nonpreferred placement that was made in violation of this Act.

**4. Tribal resolution for different order of preference; personal preference considered; anonymity in application of preferences.** In the case of a placement under subsection 1 or 2, if the Indian child's tribe establishes a different order of preference by resolution, the agency or court effecting the placement shall follow that order as long as the placement is the least restrictive setting appropriate to the particular needs of the Indian child, as provided in subsection 2. When appropriate, the preference of the Indian child or parent must be considered. When a consenting parent evidences a desire for anonymity, the court or agency must give weight to such desire in applying the preferences.

**5. Social and cultural standards applicable.** The standards to be applied in meeting the preference requirements of this section must be the prevailing social and cultural standards of the Indian community in which the parent or extended family resides or with which the parent or extended family members maintain social and cultural ties.

**6. Record of placement; availability.** A record of each placement under this section of an Indian child must be maintained by the State, including evidence of the efforts made to comply with the order of preference specified in this section. The record must be made available at any time upon the request of the United States Secretary of the Interior or the Indian child's tribe.

#### **§3949. Return of custody**

**1. Petition; best interests of Indian child.** Notwithstanding any provision of law to the contrary, whenever a final decree of adoption of an Indian child has been vacated or set aside or the adoptive parents voluntarily consent to the termination of their parental rights to the Indian child, a biological parent or prior Indian custodian may petition for return of custody and the court shall grant the petition unless there is a showing, in a proceeding subject to the provisions of section 3945, that the return of custody is not in the best interests of the Indian child.

**2. Removal from foster care placement; procedure.** Whenever an Indian child is removed from a foster care home or institution for the purpose of further foster care placement or preadoptive or adoptive placement, the placement must be in accordance with the provisions of this chapter, except for a case in which an Indian child is being returned to the parent or Indian custodian from whose custody the Indian child was originally removed.

#### **§3950. Disclosure of tribal affiliation information**

Upon application by an individual who has reached 18 years of age and who was an Indian child and the subject of an adoptive placement, the District Court or Probate Court that entered the final decree shall inform the individual of the tribal affiliation, if any, of the individual's biological parents and provide any other information necessary to protect any rights of the individual arising from the individual's tribal relationship.

#### **§3951. Improper removal of Indian child from custody; declination of jurisdiction; forthwith return of Indian child; danger exception**

When a petitioner in an Indian child custody proceeding before a state court has improperly removed the Indian child from custody of the parent or Indian custodian or has improperly retained custody after a visit or other temporary relinquishment of custody, the court shall decline jurisdiction over the petition and shall forthwith return the Indian child to the child's parent or Indian custodian unless returning the Indian child to the child's parent or Indian custodian would subject the Indian child to a substantial and immediate danger or threat of such danger.

#### **§3952. Higher state or federal standard applicable to protect rights of parent or Indian custodian of Indian child; interpretive guidance**

In any case in which state or federal law applicable to an Indian child custody proceeding under state or federal law provides a higher standard of protection to the rights of the parent or Indian custodian of an Indian child than the rights provided under this chapter, the state or federal court shall apply the higher state or federal standard.

To the extent any procedure of an Indian child custody proceeding is not addressed in this Act, 25 Code of Federal Regulations, Part 23 must inform state practice.

**§3953. Emergency removal or placement of Indian child; termination; appropriate action**

This Act does not prevent the emergency removal of an Indian child who is a resident of or is domiciled on a reservation, but temporarily located off the reservation, from their parent or Indian custodian or the emergency placement of an Indian child in a foster home or institution, under the laws of this State, in order to prevent imminent physical damage or harm to the Indian child.

**1. Termination.** An emergency removal or placement of an Indian child in an emergency proceeding must terminate immediately when the removal or placement is no longer necessary to prevent imminent physical damage or harm to the Indian child. An emergency removal or placement of an Indian child may be terminated by, but is not necessarily terminated by, one of the following actions:

- A. Initiation of an Indian child custody proceeding subject to the provisions this Act;
- B. Transfer of the Indian child to the jurisdiction of the appropriate Indian tribe; or
- C. Restoration of the Indian child to the parent or Indian custodian.

**2. Procedure applicable to emergency proceedings.** In any emergency proceeding in District Court or Probate Court, the court shall:

- A. Make a finding on the record, supported by clear and convincing evidence, that the emergency removal or placement is necessary to prevent imminent physical damage or harm to the Indian child;
- B. Promptly hold a hearing on whether the emergency removal or placement continues to be necessary whenever new information indicates that the emergency situation has ended; and
- C. At any court hearing during the emergency proceeding, determine whether there is clear and convincing evidence demonstrating that the emergency removal or placement remains necessary to prevent imminent physical damage or harm to the Indian child and, if not, immediately terminate or ensure that the petitioning party immediately terminates the emergency proceeding.

**§3954. Qualified expert witness**

**1. Identification.** In any proceeding subject to this Act that requires the testimony of a qualified expert witness, the qualified expert witness must be provided by the petitioner and must meet the criteria of subsection 3 or 4. A qualified expert witness may be identified based

on information from the Indian child's tribe or with the assistance of the United States Department of the Interior, Bureau of Indian Affairs.

**2. Testimony provided.** In any proceeding subject to this Act that requires the testimony of a qualified expert witness, at least one qualified expert witness must testify regarding:

- A. The prevailing social and cultural standards and child-rearing practices of the Indian child's tribe; and
- B. Whether the Indian child's continued custody by the Indian child's parent or Indian custodian is likely to result in serious emotional or physical damage to the Indian child.

**3. Tribal qualification.** A person is a qualified expert witness under this section if the Indian child's tribe has designated the person as being qualified to testify to the prevailing social and cultural standards of the Indian tribe.

**4. Alternative qualification.** If the Indian child's tribe has not designated a qualified expert witness or the designated qualified expert witness is unavailable, the following individuals, in order of priority, may testify as a qualified expert witness:

- A. A member of the Indian child's tribe who is recognized by the tribal community as knowledgeable in tribal customs as they pertain to family organization and child-rearing practices;
- B. A member of another Indian tribe who is recognized to be a qualified expert witness by the Indian child's tribe based on the member's knowledge of the delivery of child and family services to Indians and the Indian child's tribe;
- C. A layperson who is recognized by the Indian child's tribe as having substantial experience in the delivery of child and family services to Indians, and knowledge of prevailing social and cultural standards and child-rearing practices within the Indian child's tribe; or
- D. A professional person having substantial education and experience in the area of the professional person's specialty who can demonstrate knowledge of the prevailing social and cultural standards and child-rearing practices within the Indian child's tribe.

**5. Disqualified persons.** A petitioning party, an employee of the petitioning party or an employee of the Department of Health and Human Services may not serve as a qualified expert witness or a professional under this section.

**§3955. Agreements between the State and Indian tribes**

The State may enter into agreements with Indian tribes with respect to the care and custody of Indian children and jurisdiction over Indian child custody proceedings, including agreements that provide for orderly transfer of jurisdiction on a case-by-case basis and agreements that provide for concurrent jurisdiction between the State and Indian tribes. A revocation of an agreement under this section does not affect any action or proceeding over which a court has already assumed jurisdiction, unless the agreement provides otherwise.

**H.P. 1045 - L.D. 1620**

**An Act to Amend the Laws Regarding the Mi'kmaq Nation and to Provide Parity to the Wabanaki Nations**

**Be it enacted by the People of the State of Maine as follows:**

**PART A**

**Sec. A-1. PL 1989, c. 148, §3** is repealed and the following enacted in its place:

**Sec. 3. 30 MRSA c. 603** is enacted to read:

**CHAPTER 603**

**MI'KMAQ NATION RESTORATION ACT**

**§7201. Short title**

This Act may be known and cited as "The Mi'kmaq Nation Restoration Act."

**§7202. Legislative findings and declaration of policy**

The Legislature finds and declares the following.

The Mi'kmaq Nation, previously known as the Aroostook Band of Micmacs, as represented as of the effective date of this chapter by the Mi'kmaq Nation Tribal Council, is the sole successor in interest, as to lands within the United States, to the aboriginal entity generally known as the Mi'kmaq Nation that years ago claimed aboriginal title to certain lands in the State.

The Mi'kmaq Nation was not referred to in the federal Maine Indian Claims Settlement Act of 1980, Public Law 96-420.

There exist aboriginal lands in the State jointly used by the Mi'kmaq Nation and other tribes to which the Mi'kmaq Nation could have asserted aboriginal title but for the extinguishment of all such claims by the federal Maine Indian Claims Settlement Act of 1980, Public Law 96-420.

In 1991, the United States formally recognized the Mi'kmaq Nation as a sovereign government to whom it owed a special trust relationship by enacting the federal Aroostook Band of Micmacs Settlement Act, Public Law 102-171.

Section 6(d) of the federal Aroostook Band of Micmacs Settlement Act, Public Law 102-171, authorized the State of Maine and the Mi'kmaq Nation to execute agreements regarding the State's jurisdiction over lands owned by or held in trust for the benefit of the Mi'kmaq Nation or any citizen of the nation and provided the advance consent of the United States to amendments of the state Micmac Settlement Act in Public Law 1989, chapter 148 for this purpose.

The State of Maine and the Mi'kmaq Nation agree and intend that this Act constitutes a jurisdictional agreement pursuant to Section 6(d) of the federal Aroostook Band of Micmacs Settlement Act, Public Law 102-171, that amends the state Micmac Settlement Act, originally enacted in Public Law 1989, chapter 148.

### **§7203. Definitions**

As used in this Act, unless the context otherwise indicates, the following terms have the following meanings.

**1. Aroostook Band of Micmacs Settlement Act.** "Aroostook Band of Micmacs Settlement Act" means the federal Aroostook Band of Micmacs Settlement Act, Public Law 102-171.

**2. Lands or other natural resources.** "Lands or other natural resources" means any real property or natural resources, or any interest in or right involving any real property or natural resources, including, but not limited to, minerals and mineral rights, timber and timber rights, water and water rights and hunting and fishing rights.

**3. Laws of the State.** "Laws of the State" means the Constitution of Maine and all statutes, rules or regulations and the common law of the State and its political subdivisions, and subsequent amendments thereto or judicial interpretations thereof.

**4. Mi'kmaq Nation.** "Mi'kmaq Nation" has the same meaning as "Band" in Section 3(1) of the Aroostook Band of Micmacs Settlement Act.

**5. Mi'kmaq Nation Jurisdiction Land.** "Mi'kmaq Nation Jurisdiction Land" means:

A. All Mi'kmaq Nation Trust Land that exists as of the effective date of this subsection; and

B. All Mi'kmaq Nation Trust Land acquired after the effective date of this subsection that is both within Aroostook County and within 50 miles of land described in paragraph A.

**6. Mi'kmaq Nation Trust Land.** "Mi'kmaq Nation Trust Land" has the same meaning as "Band Trust Land" in Section 3(3) of the Aroostook Band of Micmacs Settlement Act.

**7. Secretary.** "Secretary" means the United States Secretary of the Interior.

### **§7204. Laws of State to apply to Indian Lands**

Except as otherwise provided in this Act, the Mi'kmaq Nation and all members of the Mi'kmaq Nation in the State and any lands or other natural resources owned by them or held in trust for them by the United States or by any other person or entity are subject to the laws of the State and to the civil and criminal jurisdiction of the courts of the State to the same extent as any other person or lands or other natural resources in the State.

### **§7205. Powers and duties of Mi'kmaq Nation within Mi'kmaq Nation Jurisdiction Land**

**1. Sovereign status.** The State recognizes that the Mi'kmaq Nation predates the State of Maine and the United States and possesses the power and authority to self-govern as limited by the Aroostook Band of Micmacs Settlement Act and this Act.

**2. General powers.** Except as otherwise provided in this Act, the Mi'kmaq Nation, within Mi'kmaq Nation Jurisdiction Land, may, separate and distinct from the State, exercise exclusive jurisdiction, including by enacting ordinances, over internal tribal matters, including membership in the nation, the right to reside within Mi'kmaq Nation Jurisdiction Land, tribal organization, tribal government and tribal elections and the exercise of power pursuant to section 7206, subsection 8, section 7207 and section 7208, subsection 1, paragraph F and such matters are not subject to regulation by the State. Pursuant to the Mi'kmaq Nation's power and authority to self-govern, the Mi'kmaq Nation has the same, and no more, power to enact ordinances within Mi'kmaq Nation Jurisdiction Land as municipalities have within the State. The Mi'kmaq Nation shall designate such officers and officials as are necessary to implement and administer those laws of the State applicable to Mi'kmaq Nation Jurisdiction Land and the residents thereof. Any resident of Mi'kmaq Nation Jurisdiction Land who is not a member of the nation is equally entitled to receive any municipal or governmental services provided by the nation or by the State, except those services that are provided exclusively to members of the nation pursuant to state or federal law, and are entitled to vote in national, state and county elections in the same manner as any tribal member residing within Mi'kmaq Nation Jurisdiction Land.

**3. Power to sue and be sued.** The Mi'kmaq Nation and its members may sue and be sued in the courts of the State to the same extent as any other entity or person in the State except that the nation and its officers and employees are immune from suit when the nation is acting in its governmental capacity to the same extent as municipalities or like officers or employees thereof within the State.

**4. Ordinances.** The Mi'kmaq Nation has the right to exercise exclusive jurisdiction within Mi'kmaq Nation Jurisdiction Land over violations by members of

any federally recognized Indian tribe, nation, band or other group of tribal ordinances adopted by the nation pursuant to this section or section 7206. The decision to exercise or terminate the jurisdiction authorized by this section must be made by the Mi'kmaq Nation Tribal Council. If the nation chooses not to exercise, or to terminate its exercise of, jurisdiction as authorized by this section or section 7206, the State has exclusive jurisdiction over violations of the nation's tribal ordinances by members of any federally recognized Indian tribe, nation, band or other group within Mi'kmaq Nation Jurisdiction Land. The State has exclusive jurisdiction over violations of the nation's tribal ordinances by persons not members of any federally recognized Indian tribe, nation, band or other group except as provided in section 7208.

**§7206. Regulation of natural resources**

**1. Adoption of hunting, trapping and fishing ordinances by Mi'kmaq Nation.** Subject to the limitations of subsection 5, the Mi'kmaq Nation has exclusive authority within Mi'kmaq Nation Jurisdiction Land to enact ordinances regulating:

A. Hunting, trapping or other taking of wildlife; and

B. Taking of fish on any pond in which all the shoreline and all submerged lands are wholly within Mi'kmaq Nation Jurisdiction Land and that is less than 10 acres in surface area.

Ordinances under this subsection must be equally applicable, on a nondiscriminatory basis, to all persons regardless of whether a person is a member of the Mi'kmaq Nation except that, subject to the limitations of subsection 5, ordinances under this subsection may include special provisions for the sustenance of the individual members of the Mi'kmaq Nation. In addition to the authority provided by this subsection, the Mi'kmaq Nation, subject to the limitations of subsection 5, may exercise within Mi'kmaq Nation Trust Land all the rights incident to ownership of land under the laws of the State.

**2. Registration stations.** The Mi'kmaq Nation shall establish and maintain registration stations for the purpose of registering bear, moose, deer and other wildlife killed within Mi'kmaq Nation Jurisdiction Land and shall adopt ordinances requiring registration of such wildlife to the extent and in substantially the same manner as such wildlife are required to be registered under the laws of the State. These ordinances requiring registration must be equally applicable to all persons without distinction based on tribal membership. The Mi'kmaq Nation shall report the deer, moose, bear and other wildlife killed and registered within Mi'kmaq Nation Jurisdiction Land to the Commissioner of Inland Fisheries and Wildlife at such times as the commissioner considers appropriate. The records of registration of the

Mi'kmaq Nation must be available, at all times, for inspection and examination by the commissioner.

**3. Sustenance fishing within Mi'kmaq Nation Jurisdiction Land.** Subject to the limitations of subsection 5 and notwithstanding any other provision of state law to the contrary, the members of the Mi'kmaq Nation may take fish for their individual sustenance within the boundaries of Mi'kmaq Nation Jurisdiction Land to the same extent as authorized under section 6207, subsection 4.

**4. Posting.** Lands or waters subject to regulation by the Mi'kmaq Nation must be conspicuously posted in such a manner as to provide reasonable notice to the public of the limitations on hunting, trapping, fishing or other use of those lands or waters.

**5. Supervision by Commissioner of Inland Fisheries and Wildlife.** The Commissioner of Inland Fisheries and Wildlife, or the commissioner's successor, is entitled to conduct fish and wildlife surveys within Mi'kmaq Nation Jurisdiction Land to the same extent as the commissioner is authorized to conduct such surveys in other areas of the State. Before conducting any such survey, the commissioner shall provide reasonable advance notice to the Mi'kmaq Nation and afford the nation a reasonable opportunity to participate in that survey. If the commissioner, at any time, has reasonable grounds to believe that a tribal ordinance adopted under this section, or the absence of such a tribal ordinance, is adversely affecting or is likely to adversely affect the stock of any fish or wildlife on lands or waters outside the boundaries of lands or waters subject to regulation by the Mi'kmaq Nation, the commissioner shall inform the governing body of the nation of the commissioner's opinion and attempt to develop appropriate remedial standards in consultation with the nation. If such efforts fail, the commissioner may call a public hearing to investigate the matter further. Any such hearing must be conducted in a manner consistent with the laws of the State applicable to adjudicative hearings. If, after a hearing, the commissioner determines that any such tribal ordinance or the absence of a tribal ordinance is causing, or there is a reasonable likelihood that it will cause, a significant depletion of fish or wildlife stocks on lands or waters outside the boundaries of lands or waters subject to regulation by the Mi'kmaq Nation, the commissioner may adopt appropriate remedial measures including rescission of any such tribal ordinance and, in lieu thereof, order the enforcement of the generally applicable laws or rules of the State. In adopting any remedial measures, the commissioner shall use the least restrictive means possible to prevent a substantial diminution of the stocks in question and shall take into consideration the effect that non-Indian practices on non-Indian lands or waters are having on those stocks. The remedial measures adopted by the commissioner may not be more restrictive than those that the commissioner could impose if the area in question was not within Mi'kmaq Nation Jurisdiction Land.

In any administrative proceeding under this section, the commissioner has the burden of proof. The decision of the commissioner may be appealed in the manner provided by the laws of the State for judicial review of administrative action and may be sustained only if supported by substantial evidence.

**6. Transportation of game.** Fish lawfully taken within Mi'kmaq Nation Jurisdiction Land and wildlife lawfully taken within Mi'kmaq Nation Jurisdiction Land and registered pursuant to ordinances adopted by the Mi'kmaq Nation may be transported within the State.

**7. Fish.** As used in this section, "fish" means a cold-blooded, completely aquatic vertebrate animal having permanent fins, gills and an elongated streamlined body usually covered with scales and includes inland fish and anadromous and catadromous fish when in inland water.

**8. Regulation of drinking water.** Unless the Mi'kmaq Nation, in its discretion, enters into an inter-governmental agreement authorizing the State to exercise concurrent jurisdiction over specific drinking water-related issues within Mi'kmaq Nation Jurisdiction Land:

A. The Mi'kmaq Nation has exclusive authority to enact ordinances regulating drinking water within Mi'kmaq Nation Jurisdiction Land;

B. The State may not exercise primary enforcement authority from the United States Environmental Protection Agency to implement the federal Safe Drinking Water Act and its implementing regulations, as amended, within Mi'kmaq Nation Jurisdiction Land; and

C. The Mi'kmaq Nation may seek to be treated as a state and to obtain primary enforcement authority from the United States Environmental Protection Agency to implement the federal Safe Drinking Water Act and its implementing regulations, as amended, within Mi'kmaq Nation Jurisdiction Land.

Notwithstanding any other provision of this subsection, the Mi'kmaq Nation's jurisdiction does not extend beyond Mi'kmaq Nation Jurisdiction Land.

**§7207. Jurisdiction of Mi'kmaq Nation over drinking water within Mi'kmaq Nation Jurisdiction Land**

Notwithstanding any provision of state law to the contrary, pursuant to the Aroostook Band of Micmacs Settlement Act, Section 6(d), the State and the Mi'kmaq Nation agree and establish that:

**1. Jurisdiction of Mi'kmaq Nation to administer drinking water-related programs.** The Mi'kmaq Nation may seek to be treated as a state pursuant to the federal Safe Drinking Water Act, 42 United States

Code, Section 300j-11, and its implementing regulations, as amended, within Mi'kmaq Nation Jurisdiction Land and may otherwise benefit from and exercise jurisdiction under any other federal law enacted after October 10, 1980 that permits a federally recognized Indian tribe to administer drinking water-related programs; and

**2. Administration of drinking water-related programs does not affect or preempt state law.** The application of any provision of the federal Safe Drinking Water Act and its implementing regulations, as amended, and of any other federal law enacted after October 10, 1980 that permits a federally recognized Indian tribe to administer drinking water-related programs and the enforcement of such laws and regulations by the Mi'kmaq Nation under subsection 1 does not affect or preempt the laws of the State.

Notwithstanding any other provision of this section, the Mi'kmaq Nation's jurisdiction does not extend beyond Mi'kmaq Nation Jurisdiction Land.

**§7208. Jurisdiction of the Mi'kmaq Tribal Court**

**1. Exclusive jurisdiction over certain matters.** Except as provided in subsections 5 and 6, the Mi'kmaq Nation has the right to exercise exclusive jurisdiction, separate and distinct from the State, over:

A. Criminal offenses for which the maximum potential term of imprisonment is less than one year and the maximum potential fine does not exceed \$5,000 and that are committed on Mi'kmaq Nation Jurisdiction Land by a member of any federally recognized Indian tribe, nation, band or other group, except when committed against a person who is not a member of any federally recognized Indian tribe, nation, band or other group or against the property of a person who is not a member of any federally recognized Indian tribe, nation, band or other group;

B. Juvenile crimes against a person or property involving conduct that, if committed by an adult, would fall within the exclusive jurisdiction of the Mi'kmaq Nation under paragraph A, and juvenile crimes, as defined in Title 15, section 3103, subsection 1, paragraphs B and C, committed by a juvenile member of the Mi'kmaq Nation, the Passamaquoddy Tribe, the Houlton Band of Maliseet Indians or the Penobscot Nation within Mi'kmaq Nation Jurisdiction Land;

C. Civil actions between members of the Mi'kmaq Nation, the Passamaquoddy Tribe, the Houlton Band of Maliseet Indians or the Penobscot Nation arising on Mi'kmaq Nation Jurisdiction Land and cognizable as small claims under the laws of the State and civil actions against a member of the Mi'kmaq Nation, the Passamaquoddy Tribe, the Houlton Band of Maliseet Indians or the Penobscot

Nation under Title 22, section 2383 involving conduct within Mi'kmaq Nation Jurisdiction Land by a member of the Mi'kmaq Nation, the Passamaquoddy Tribe, the Houlton Band of Maliseet Indians or the Penobscot Nation;

D. Indian child custody proceedings to the extent authorized by applicable state and federal law;

E. Other domestic relations matters, including marriage, divorce and support, between members of the Mi'kmaq Nation, the Passamaquoddy Tribe, the Houlton Band of Maliseet Indians or the Penobscot Nation, both of whom reside within Mi'kmaq Nation Jurisdiction Land; and

F. Notwithstanding any other provision of this subsection, civil and criminal actions regarding the enforcement of ordinances enacted pursuant to section 7206, subsection 8, except that the Mi'kmaq Nation may not exercise jurisdiction over a non-profit public municipal corporation.

The governing body of the Mi'kmaq Nation shall decide whether to exercise or terminate the exercise of the exclusive jurisdiction authorized by this subsection. The decision to exercise, to terminate the exercise of or to reassert the exercise of jurisdiction under each of the subject areas described by paragraphs A to F may be made separately. Until the Mi'kmaq Nation notifies the Attorney General that the nation has decided to exercise exclusive jurisdiction set forth in any or all of the paragraphs in this subsection, the State has exclusive jurisdiction over those matters. If the Mi'kmaq Nation chooses not to exercise, or chooses to terminate its exercise of, jurisdiction over the criminal, juvenile, civil and domestic matters described in this subsection, the State has exclusive jurisdiction over those matters. When the Mi'kmaq Nation chooses to reassert the exercise of exclusive jurisdiction over any or all of the areas under paragraphs A to F, the nation must first provide 30 days' notice to the Attorney General. Except as provided in paragraphs A and B, all laws of the State relating to criminal offenses and juvenile crimes apply within Mi'kmaq Nation Jurisdiction Land and the State has exclusive jurisdiction over those offenses and crimes.

**2. Concurrent jurisdiction over certain criminal offenses.** The Mi'kmaq Nation has the right to exercise jurisdiction, concurrently with the State, over the following Class D crimes committed by a person within Mi'kmaq Nation Jurisdiction Land or on lands taken into trust by the secretary for the benefit of the Mi'kmaq Nation, now or in the future, for which the potential maximum term of imprisonment does not exceed one year and the potential fine does not exceed \$2,000: Title 17-A, sections 207-A, 209-A, 210-B, 210-C and 211-A and Title 19-A, section 4011. The concurrent jurisdiction authorized by this subsection does not include an offense committed by a juvenile or a criminal offense

committed by a person who is not a member of any federally recognized Indian tribe, nation, band or other group against the person or property of a person who is not a member of any federally recognized Indian tribe, nation, band or other group.

The governing body of the Mi'kmaq Nation shall decide whether to exercise or terminate the exercise of jurisdiction authorized by this subsection. Notwithstanding subsection 3, the Mi'kmaq Nation may not deny to any criminal defendant prosecuted under this subsection the right to a jury of 12, the right to a unanimous jury verdict, the rights and protections enumerated in 25 United States Code, Sections 1302(a), 1302(c), 1303 and 1304(d) and all other rights whose protection is necessary under the United States Constitution in order for the State to authorize concurrent jurisdiction under this subsection. If a criminal defendant prosecuted under this subsection moves to suppress statements on the ground that they were made involuntarily, the prosecution has the burden to prove beyond a reasonable doubt that the statements were made voluntarily.

In exercising the concurrent jurisdiction authorized by this subsection, the Mi'kmaq Nation is deemed to be enforcing Mi'kmaq tribal law. The definitions of the criminal offenses and the punishments applicable to those criminal offenses over which the Mi'kmaq Nation has concurrent jurisdiction under this subsection are governed by the laws of the State. Issuance and execution of criminal process also are governed by the laws of the State.

**3. Definitions of crimes; tribal procedures.** In exercising its exclusive jurisdiction under subsection 1, paragraphs A and B, the Mi'kmaq Nation is deemed to be enforcing Mi'kmaq tribal law. The definitions of the criminal offenses and juvenile crimes and the punishments applicable to those criminal offenses and juvenile crimes over which the Mi'kmaq Nation has exclusive jurisdiction under this section are governed by the laws of the State. Issuance and execution of criminal process are also governed by the laws of the State. The procedures for the establishment and operation of tribal forums created to effectuate the purposes of this section are governed by federal statute, including, without limitation, the provisions of 25 United States Code, Sections 1301 to 1303 and rules or regulations generally applicable to the exercise of criminal jurisdiction by Indian tribes on federal Indian reservations.

**4. Criminal records, juvenile records and fingerprinting.** At the arraignment of a criminal defendant, the Mi'kmaq Tribal Court shall inquire whether fingerprints have been taken or whether arrangements have been made for fingerprinting. If neither has occurred, the Mi'kmaq Tribal Court shall instruct both the responsible law enforcement agency and the person charged as to their respective obligations in this regard, consistent with Title 25, section 1542-A.

At the conclusion of a criminal or juvenile proceeding within the Mi'kmaq Nation's exclusive or concurrent jurisdiction, except for a violation of Title 12 or Title 29-A that is a Class D or Class E crime other than a Class D crime that involves hunting while under the influence of intoxicating liquor or drugs or with an excessive alcohol level or the operation or attempted operation of a watercraft, all-terrain vehicle, snowmobile or motor vehicle while under the influence of intoxicating liquor or drugs or with an excessive alcohol level, the Mi'kmaq Tribal Court shall transmit to the Department of Public Safety, State Bureau of Identification an abstract duly authorized on forms provided by the bureau.

**5. Lesser included offenses in state courts.** In any criminal proceeding in the courts of the State in which a criminal offense under the exclusive jurisdiction of the Mi'kmaq Nation constitutes a lesser included offense of the criminal offense charged, the defendant may be convicted in the courts of the State of the lesser included offense. A lesser included offense is as defined under the laws of the State.

**6. Double jeopardy, collateral estoppel.** A prosecution for a criminal offense or juvenile crime over which the Mi'kmaq Nation has exclusive jurisdiction under this section does not bar a prosecution for a criminal offense or juvenile crime, arising out of the same conduct, over which the State has exclusive jurisdiction. A prosecution for a criminal offense over which the Mi'kmaq Nation has concurrent jurisdiction under this section does not bar a prosecution for a criminal offense, arising out of the same conduct, over which the State has exclusive jurisdiction. A prosecution for a criminal offense over which the State has concurrent jurisdiction under this section does not bar a prosecution for a criminal offense, arising out of the same conduct, over which the Mi'kmaq Nation has exclusive jurisdiction. A prosecution for a criminal offense or juvenile crime over which the State has exclusive jurisdiction does not bar a prosecution for a criminal offense or juvenile crime, arising out of the same conduct, over which the Mi'kmaq Nation has exclusive jurisdiction under this section. The determination of an issue of fact in a criminal or juvenile proceeding conducted in a Mi'kmaq tribal forum does not constitute collateral estoppel in a criminal or juvenile proceeding conducted in a state court. The determination of an issue of fact in a criminal or juvenile proceeding conducted in a state court does not constitute collateral estoppel in a criminal or juvenile proceeding conducted in a Mi'kmaq tribal forum.

**7. Full faith and credit.** The State shall give full faith and credit to the judicial proceedings of the Mi'kmaq Nation. The Mi'kmaq Nation shall give full faith and credit to the judicial proceedings of the Passamaquoddy Tribe, the Penobscot Nation, the Houlton Band of Maliseet Indians and the State.

## **§7209. Law enforcement within Mi'kmaq Nation Jurisdiction Land**

**1. Exclusive authority of Mi'kmaq Nation law enforcement officers.** Law enforcement officers appointed by the Mi'kmaq Nation have exclusive authority to enforce, within Mi'kmaq Nation Jurisdiction Land, the criminal, juvenile, civil and domestic relations laws over which the Mi'kmaq Nation has exclusive jurisdiction under section 7208, subsection 1, and to enforce, on Mi'kmaq Nation Jurisdiction Land, ordinances adopted under section 7205 and section 7206, subsection 1.

**2. Before conducting any such survey, the commissioner shall provide reasonable advance notice to the Houlton Band of Maliseet Indians and afford it a reasonable opportunity to participate in such survey. If the commissioner, at any time, has reasonable grounds to believe that a tribal ordinance or commission rule adopted under this section, or the absence of such a tribal ordinance or commission rule, is adversely affecting or is likely to adversely affect the stock of any fish or wildlife on lands or waters outside the boundaries of land or waters subject to regulation by the commission or the Houlton Band of Maliseet Indians, the commissioner shall inform the governing body

of the band or the commission, as is appropriate, of the commissioner's opinion and attempt to develop appropriate remedial standards in consultation with the band or the commission. If such efforts fail, the commissioner may call a public hearing to investigate the matter further. Any such hearing must be conducted in a manner consistent with the laws of the State applicable to adjudicative hearings. If, after hearing, the commissioner determines that any such ordinance or rule, or the absence of an ordinance or rule, is causing, or there is a reasonable likelihood that it will cause, a significant depletion of fish or wildlife stocks on lands or waters outside the boundaries of lands or waters subject to regulation by the Houlton Band of Maliseet Indians or the commission, the commissioner may adopt appropriate remedial measures including rescission of any such ordinance or rule and, in lieu thereof, order the enforcement of the generally applicable laws or rules of the State. In adopting any remedial measures the commissioner shall use the least restrictive means possible to prevent a substantial diminution of the stocks in question and shall take into consideration the effect that non-Indian practices on non-Indian lands or waters are having on those stocks. The remedial measures adopted by the commissioner may not be more restrictive than those that the commissioner could impose if the area in question was not within Houlton Band Jurisdiction Land or waters subject to commission regulation.

In any administrative proceeding under this section the commissioner has the burden of proof. The decision of the commissioner may be appealed in the manner provided by the laws of the State for judicial review of administrative action and may be sustained only if supported by substantial evidence.

(2) Applying evaluation criteria set forth in this subsection, except that the commission shall give greatest preference to any proposal that:

(a) Demonstrates the greatest likelihood of ensuring the success of the program by contributing to the likelihood of successful completion of the transmission line

proposal selected under subsection 2 and other generation proposals selected under subsection 3;

(b) Is submitted by a bidder that demonstrates significant experience in the successful completion of renewable energy generation projects similar to that proposal; and

**An Act Relating to Energy  
Storage and the State's Energy  
Goals**

**Be it enacted by the People of the State of Maine  
as follows:**

**Sec. 1. 35-A MRSA §3145**, as amended by PL 2021, c. 676, Pt. A, §49, is further amended to read:

**§3145. State energy storage policy goals**

The state goal for energy storage system development is at least 300 megawatts of installed capacity located within the State by December 31, 2025 and at least 400 megawatts of installed capacity located within the State by December 31, 2030. Beginning January 1, 2031 2024, and every 2 years thereafter, the Governor's Energy Office established in Title 2, section 9 shall set may reevaluate and increase the state goal for energy storage system development and report that goal to the joint standing committee of the Legislature having jurisdiction over energy and utilities matters. For the purposes of this section, "energy storage system" has the same meaning as in section 3481, subsection 6.

**Sec. 2. Maine energy storage program development.** The Governor's Energy Office, established in the Maine Revised Statutes, Title 2, section 9, referred to in this section as "the office," shall, in consultation with the Public Utilities Commission, evaluate designs for a program to procure commercially avail-

1. In evaluating programs for the procurement of energy storage systems, the office shall consider programs that are likely to be cost-effective for ratepayers and that are likely to achieve the following objectives:

A. Advance both the State's climate and clean energy goals and the state energy storage policy goals established in Title 35-A, section 3145 through the development of up to 200 megawatts of incremental energy storage capacity located in the State;

B. Provide one or more net benefits to the electric grid and to ratepayers, including, but not limited to, improved reliability, improved resiliency and incremental delivery of renewable electricity to customers;

C. Maximize the value of federal incentives; and

D. Enable the highest value energy storage projects, specifically energy storage systems in preferred locations, projects that can serve as an alternative to upgrades of the existing transmission system and projects of optimal duration.

For purposes of this subsection, "index storage credit mechanism" means a mechanism for setting contract prices for energy storage capacity using the difference between a competitively bid price, or strike price, and daily reference prices calculated using an index designed to approximate wholesale market revenues available for each megawatt-hour of capacity and including a mechanism to provide for a net payment from the operator of the storage capacity project to ratepayers in the event the reference price exceeds the strike price.

2. The office shall encourage interested parties to submit relevant information to inform the evaluation under subsection 1.

3. No later than March 31, 2024, the office shall complete the evaluation required under subsection 1 and provide its recommendations to the Public Utilities Commission for a program to procure up to 200 megawatts of energy storage capacity.

4. No later than December 31, 2024, the Public Utilities Commission shall review the recommendations of the report and determine whether the program recommended by the office is reasonably likely to achieve the objectives established in subsection 1. Upon finding the proposed program reasonably likely to achieve the objectives established in subsection 1, the Public Utilities Commission shall take steps to implement the program in accordance with any applicable authority the commission may have under law and may submit to the joint standing committee of the Legislature having jurisdiction over energy matters recommen-

The joint standing committee may report out a bill related to the report to the Second Regular Session of the 131st Legislature. The report must include, but is not limited to:

1. A discussion of technology options for long-duration energy storage, including emerging technologies and a description of their technical operation and commercial viability, that may be feasible within the State and New England between 2023 and 2040;

2. An overview of known cost and performance characteristics, as well as development considerations by technology, such as development timelines, siting requirements or safety considerations;

3. A discussion of scenarios for long-duration energy storage technologies, such as serving as peaking capacity, providing winter reliability or providing benefits through colocation with renewable resources; and

4. Consideration of whether and under what conditions the use of long-duration energy storage would be cost-effective for ratepayers in the State.

**Sec. 4. Funding.** Upon written request of the Governor's Energy Office, for the purposes of allowing the office to fulfill its responsibilities under sections 2 and 3, the Public Utilities Commission shall provide:

1. Reasonable technical, legal and other assistance, including the provision of requested information; and

**CHAPTER 393**

**H.P. 886 - L.D. 1372**

**An Act to Amend the Workers' Compensation Self-insurance Laws to Allow for the Use of Fronting Companies**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 39-A MRSA §403, sub-§4-B** is enacted to read:

**4-B. Group self-insurance reinsurance fronting arrangements.** This subsection governs group self-insurance reinsurance fronting arrangements.

A. As used in this subsection, unless the context otherwise indicates, the following terms have the following meanings.

(1) "Fronting arrangement" means a situation in which a fronting company issues a policy for workers' compensation insurance to an employer member of a group self-insurer licensed under this Title and cedes all of the premium and exposure of the policy for out-of-state employees to the self-insured group.

(2) "Fronting company" means an entity that engages in a fronting arrangement. A fronting company may be owned by one or more group self-insurers or by a group self-insurance reinsurance account.

(3) "National Association of Insurance Commissioners" has the same meaning as in Title 24-A, section 15.

(4) "Superintendent" means the Superintendent of Insurance.

B. Beginning June 1, 2024 and until May 31, 2029, an employer member of a group self-insurer licensed under this Title may insure its employees through a fronting arrangement under the following conditions.

(1) The group self-insurer must:

(a) Be a member of a group self-insurance reinsurance account, and the assets of the

members of the group self-insurance reinsurance account must be available to satisfy the obligations of a fronting company if the assets of the group self-insurer are inadequate to cover the obligations of the fronting company;

(b) Ensure that the members of the group have a net worth of at least \$50,000,000 or an amount reasonably determined by the superintendent;

(c) Insure members of the group that employ employees who live or work in a state other than this State and that are subject to the workers' compensation laws of that state; and

(d) Provide that members of a group self-insurer are jointly and severally liable for the workers' compensation obligations of an employer member of a group self-insurer whose out-of-state employees are insured by a fronting company.

Any fronting arrangement must require the group self-insurer or group self-insurance reinsurance account to assume all responsibility for administration and claims handling for the fronting company. More than one group self-insurer may enter into a fronting arrangement with the same fronting company. The obligations of a fronting company ceded to a group self-insurer must be included in the actuarial analysis of the group and such other filings as the superintendent may require under this section.

(2) The fronting company must:

(a) Have capital in the amount of \$500,000 or an amount reasonably determined by the superintendent;

(b) Submit a plan of operation to the superintendent, establish a board of directors and establish bylaws and procedures by which all the powers and duties of the fronting company are performed, including, but not limited to, defining the date and conditions upon which the fronting company will commence coverage for claims. The plan of operation is subject to the review and approval of the superintendent based on the consideration, including, but not limited to, of:

(i) The financial accreditation standards of the National Association of Insurance Commissioners; and

(ii) Whether the fronting company has received demonstrated interest from a regulatory agency in another

jurisdiction to authorize the fronting company to provide workers' compensation insurance coverage in that jurisdiction;

(c) Provide a detailed explanation of each fronting arrangement, including the process by which all exposures are ceded to a group self-insurer;

(d) Be subject to examination and regulation by the superintendent. The board of directors of a fronting company under this subsection shall submit, within 120 days after the close of each fiscal year, an audited financial report, an actuarial report, an audited financial statement and other information the superintendent may require; and

(e) Operate in accordance with its plan of operation as long as no workers' compensation insurance coverage is issued or provided in another jurisdiction until the fronting company receives prior approval in another jurisdiction. If the superintendent determines that the fronting company is not operating in accordance with its plan of operation or that the operations of the fronting company are adversely impacting the Bureau of Insurance's compliance with financial accreditation standards of the National Association of Insurance Commissioners or other applicable laws or regulations, the superintendent may order the fronting company to commence a plan to cease operations.

C. The provisions of Title 24-A and rules adopted under that Title relating to the formation, review, approval and operation of a workers' compensation insurance company do not apply to a fronting company established under this subsection except to the extent that those provisions and rules are consistent with the requirements of this subsection and any rules adopted pursuant to paragraph D.

D. The superintendent shall adopt rules to implement this subsection. Rules adopted pursuant to this paragraph are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 2. 39-A MRSA §403, sub-§4-C** is enacted to read:

**4-C. Continuation of authority to administer and handle claims; group self-insurer; fronting arrangement.** Beginning June 1, 2029, an employer member of a group self-insurer licensed under this Title may not insure its employees through a fronting arrangement, except that a group self-insurer or group self-insurance reinsurance account may continue to administer and handle claims for an employer member

through a fronting arrangement in place prior to June 1, 2029.

**Sec. 3. Rulemaking.** The Superintendent of Insurance shall provisionally adopt the rules required in the Maine Revised Statutes, Title 39-A, section 403, subsection 4-B, paragraph D no later than January 1, 2024.

**Sec. D-1. 35-A MRSA §307,** as amended by PL 2023, c. 145, §1 and repealed and replaced by c. 168, §1, is repealed and the following enacted in its place:

**§307. Changes in schedules; notice; suspension; rate increase limit**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Final determination of the public utility's revenue requirement" means a decision by the commission on the merits of a public utility's request after consideration of at least the public utility's direct case in support of its request.

B. "General increase in rates" means a change in a rate, toll or charge of a public utility, the effect of which is to increase the annual operating revenue of the public utility by more than 1%. "General increase in rates" does not include a rate change made for the sole purpose of implementing a gas cost adjustment rate pursuant to section 4703 or a rate change made for the sole purpose of implementing an energy conservation adjustment rate pursuant to section 3154.

**2. Notice requirements.** A public utility may not change a schedule, including a schedule of joint rates, unless the public utility provides notice to the commission 30 days prior to the time the changes are to take effect. The public utility must indicate all proposed changes on the schedule in effect at the time notice is provided. For good cause shown, the commission may allow changes after less than the notice specified in this subsection or modify the requirements of this section and section 308 with respect to publishing, posting and filing of a schedule, either in a particular instance or by rule applicable to a special circumstance or condition.

At the commission's discretion, the commission may require the information relating to changes described in this subsection to be filed in a general increase in rates at the same time as the schedules are filed. The commission may require a public utility whose gross revenues exceed \$5,000,000 annually to notify the commission not more than 2 months in advance of filing a general increase in rates under this section that a filing is planned and to disclose the approximate amount of the increase and the approximate rate of return and include a general statement of the major issues that might be presented and the approximate rate of return the utility would be seeking.

**3. Suspension pending investigation.** Pending an investigation and order pursuant to section 310, subsection 1, at any time within the period preceding the effective date of the schedule, the commission may suspend the operation of the schedule or any part of the schedule by filing with the schedule and delivering to the public utility affected a statement of its reasons for the suspension. The suspension may not be for a period longer than 12 months from the effective date of the order of suspension unless:

A. All parties agree to extend the suspension beyond 12 months; or

B. The commission determines that the party seeking the extension would be unreasonably disadvantaged because of circumstances beyond that party's control unless the extension were granted, as long as the party prior to the request for extension had prosecuted its case in good faith and with due diligence.

**4. General rate increase case limitation.** A public utility may not file a schedule for a general increase in rates pursuant to this section within one year of a prior filing for a general increase in rates pursuant to this section, unless the proceeding initiated by a prior filing was terminated without a final determination of the public utility's revenue requirement or with approval of the commission. The limitation of this subsection does not prevent a public utility, at any time, from notifying the commission in advance, either voluntarily or in accordance with a commission requirement under this section, of plans by the public utility to file a general increase in rates.

Nothing in this subsection may be construed to limit a public utility's right, at any time, to petition pursuant to section 1322 for temporary rate relief.

**5. General rate increase notice requirement.** A public utility seeking a general increase in rates shall send a notice of the increase to its customers by either first-class mail or the method by which the customer receives bills from the utility. The commission shall prepare the notice in consultation with the utility. If, after the notice of the general increase in rates is sent, the utility seeks a rate increase greater than what was stated in the notice, the utility shall promptly notify the commission. If the utility demonstrates good cause, the commission may allow the utility to seek an increase greater than what was stated in the notice subject to reasonable conditions established by the commission, including, but not limited to, requiring the utility to send a new notice to its customers describing the revised proposed increase.

E. Except as provided in paragraph C, ratepayer funds may not be used to implement the program or to provide funding under the program to distributed solar facilities or energy storage systems.

**Sec. 2. 35-A MRSA §3209-A, sub-§9** is enacted to read:

**9. Applicability to projects between one megawatt and 2 megawatts.** A distributed generation resource with a nameplate capacity of at least one megawatt and not more than 2 megawatts may be used for net energy billing under this section only if the requirements of paragraph A are met.

A. On or before December 31, 2024, the proposed distributed generation resource must reach commercial operation by the date specified in the net energy billing agreement or by the date specified with an allowable modification to that agreement.

An entity proposing the development of a distributed generation resource that does not meet the requirement of this subsection may petition the commission for a good-cause exemption due to external delays outside of the entity's control, which the commission may grant if it finds that without the external delays the entity could reasonably have been expected to meet the requirement.

**Sec. 3. 35-A MRSA §3209-B, sub-§7**, as enacted by PL 2021, c. 390, §2, is amended to read:

**7. Applicability.** The applicability of this section is limited by the requirements of section 3209-A, subsection 7 and subsection 9.

**Sec. 4. 35-A MRSA §3209-B, sub-§8** is enacted to read:

**8. Limitation.** After December 31, 2023, a distributed generation resource may be used for net energy billing under this section only if the distributed generation resource is collocated with all of the distributed generation resource's net energy billing customers and those customers are subscribed to 100% of the facility's output under this section. This limitation does not apply to a distributed generation resource with a net energy billing agreement that was executed on or before December 31, 2023. An amendment, revision or reissuance of an agreement under this subsection that occurs after December 31, 2023 may not be interpreted to affect the date on which the agreement was initially executed.

**Sec. 5. 35-A MRSA §3209-C** is enacted to read:

**§3209-C. Net energy billing cost recovery**

The commission shall ensure that benefits of distributed generation under net energy billing are reported and net energy billing costs are allocated in accordance with this section.

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Benefits of distributed generation under net energy billing" means all benefits determined by the commission to be reasonably attributable to distributed generation projects under section 3209-A and 3209-B, including but not limited to:

(1) Avoided energy and capacity costs. In determining avoided energy and capacity costs, the commission shall use reasonable estimates of energy and capacity market prices and account for transmission and distribution line losses. The commission may determine different avoided costs for different time periods, including, but not limited to, peak and off-peak periods and summer and winter periods;

(2) Avoided transmission and distribution costs. In determining avoided transmission and distribution costs, the commission shall use estimates of the marginal transmission and distribution costs and may determine different avoided costs for different time periods;

(3) Avoided fossil fuel costs. The commission shall determine avoided fossil fuel costs based on estimated reductions in oil, gas or other fossil fuel use and estimated market prices for these fuels;

(4) Avoided transmission and distribution line losses;

(5) Demand reduction induced price effects;

(6) Transmission and distribution plant extensions or upgrades funded by net energy billing customers; and

(7) Any other benefits identified by the commission.

B. "Net energy billing" means net energy billing arrangements under section 3209-A or 3209-B.

C. "Net energy billing costs" means all legitimate and verifiable costs incurred by a transmission and distribution utility directly attributable to net energy billing. "Net energy billing costs" does not include any costs incurred by a project sponsor as defined in section 3209-A, subsection 1, paragraph D, a net energy billing customer or any other entity, as determined by the commission by rule.

**2. Determination of costs and benefits.** The commission annually shall determine the net energy billing costs and benefits of distributed generation under net energy billing for the previous year.

A. When determining the benefits of distributed generation under net energy billing, the commission shall use any available regional avoided energy supply cost study that the commission finds to be applicable to the determination and has been developed through a transparent process, with input from state agencies, public advocates and utilities or energy efficiency administrators from at least 3 other states in New England. When relevant information specific to this State is not provided in the regional study, the commission may use the re-

gional information in the regional study or information from other sources supported by evidence in the commission's record.

B. The commission shall allocate to each investor-owned transmission and distribution utility its pro rata share of net energy billing costs. If the commission finds that a benefit of distributed generation under net energy billing provides a monetized net financial benefit to an investor-owned transmission and distribution utility that the commission does not otherwise account for when setting rates for the utility, the net financial benefit must be applied to offset the net energy billing costs allocated under this paragraph. The allocation must be based on each utility's total retail kilowatt-hour energy sales to ratepayers that pay net energy billing costs. The commission may determine the means to be used for the allocation required under this subsection, and those means may include the direct transfer of funds between transmission and distribution utilities.

**3. Reporting of costs and benefits.** The commission shall submit an annual report no later than March 31st to the joint standing committee of the Legislature having jurisdiction over utilities matters describing net energy billing costs and benefits of distributed generation under net energy billing determined by the commission under subsection 2. The report must include, but is not limited to, costs authorized to be collected by transmission and distribution utilities in rates and benefits directly received by ratepayers. The commission shall distinguish costs and benefits that are monetized from costs and benefits that are not monetized. If costs or benefits are monetized, the commission shall specify the entities to which the monetized value accrues, which may include, but are not limited to, electricity customers, electricity supply providers and transmission and distribution utilities.

**4. Rules.** The commission shall adopt rules necessary to implement this section. Rules adopted by the commission under this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 6. 35-A MRSA §3209-D** is enacted to read:

**§3209-D. Distributed generation procurement**

The commission may direct an investor-owned transmission and distribution utility to enter into one or more contracts for energy or renewable energy credits from distributed generation resources in accordance with this section. The commission may not require a distributed generation resource to contract for the sale of energy or renewable energy credits under this section.

**1. Definition.** As used in this section, the following term has the following meaning.

A. "Distributed generation resource" means an electric generating facility that uses a renewable fuel or technology under section 3210, subsection 2, paragraph B-3, is located in the service territory of a transmission and distribution utility in the State and:

(1) Has met or is reasonably likely to meet the requirements of section 3209-A, subsection 7, paragraph E, as determined by the commission; or

(2) Has a nameplate capacity of at least one megawatt and not more than 2 megawatts and:

(a) Is a member of a cluster study conducted by the transmission and distribution utility with which the distributed generation resource is seeking to interconnect; or

(b) Is likely to receive required transmission approval from the New England independent system operator on or before April 30, 2024.

**2. Competitive solicitations and initial procurement.** The commission may conduct one or more competitive solicitations in order to select distributed generation resources for contracts under this subsection.

A. No later than January 31, 2024, the commission shall determine whether to conduct a competitive solicitation pursuant to this subsection.

B. If the commission conducts a competitive solicitation under paragraph A and determines that an initial procurement of energy or renewable energy credits is in the public interest, the commission shall select distributed generation resources for contracts under this section.

**3. Additional contracting authority.** After conducting one or more competitive solicitations under subsection 2, the commission may direct an investor-owned transmission and distribution utility to enter into one or more additional contracts for energy or renewable energy credits from distributed generation resources if the commission finds that such contracts are in the public interest.

A. A contract for energy or renewable energy credits from a distributed generation resource under this subsection may not establish a price for such energy or renewable energy credits that is greater than the highest price established in the procurements under subsection 2.

**4. Contract terms.** A contract entered into pursuant to this section must be for a term of no more than 20 years unless the commission finds a contract for a longer term to be in the public interest.

**5. Net energy billing agreement termination.** A distributed generation resource that is awarded a contract under this section is ineligible for net energy billing under section 3209-A or section 3209-B and the commission shall require all net energy billing arrangements or agreements be terminated as a condition of awarding a contract under this section.

**6. Report.** The commission shall include in its biennial report required by section 3210-G, subsection 3 information regarding the status of contracts for energy or renewable energy credits from distributed generation resources pursuant to this section, including, but not limited to, the number of distributed generation resources that have been awarded contracts, the total capacity of those resources and the estimated ratepayer savings as a result of those contracts.

**Sec. 7. 35-A MRSA §3209-E** is enacted to read:

**§3209-E. Net energy billing cost management**

**1. Definitions.** As used in this section, the following terms have the following meanings.

A. "Distributed generation resource" has the same meaning as in section 3209-D, subsection 1, paragraph A.

B. "Net energy billing cost" means a cost borne by ratepayers that is determined by the commission to be reasonably attributable to distributed generation projects participating in net energy billing arrangements under section 3209-A and section 3209-B.

C. "Opt-in program" means a program to reduce net energy billing costs in which a distributed generation resource may elect to participate.

**2. Opt-in programs.** The commission may develop and implement one or more opt-in programs in accordance with this section.

A. The commission shall conduct one or more proceedings to examine and evaluate opt-in program designs, including, but not limited to, designs that include long-term financial mechanisms and buy-down arrangements. In conducting an examination and evaluation in accordance with this paragraph, the commission shall consult with the Finance Authority of Maine and give preference to designs that enable the continued development and operation of distributed generation resources.

B. After examining and evaluating opt-in programs under paragraph A, if the commission finds the implementation of an opt-in program to be in the public interest, the commission shall establish and implement the opt-in program by rule.

C. The commission may not require a distributed generation resource to participate in an opt-in program established in accordance with this section.

**3. Rules.** The commission may adopt rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 8. 35-A MRSA §3210-G, sub-§3,** as enacted by PL 2019, c. 477, §2, is amended to read:

**3. Report.** No later than March 31, 2023 and biennially thereafter, the commission shall submit a report regarding the status of contracts for Class IA resources under this section and the status of contracts for energy or renewable energy credits from distributed generation resources under section 3209-D to the joint standing committee of the Legislature having jurisdiction over utilities and energy matters. The report must include, but is not limited to, a description of Class IA resources participating in competitive solicitations, information about the resources selected for contracts and the selection process, the benefits and costs of the contracts and recommendations about how to further stimulate investment in Class IA resources or achieve ratepayer benefits from Class IA resources. The report may include information about benefits and costs of the contracts to the State's economy, environmental quality or electricity consumers over both the short and long terms. Any analysis of the benefits or costs of the contracts must be based on a forecast of all avoided costs resulting from the contracts that is transparent and balanced over the long term.

**Sec. 9. Interconnection of energy storage.** In developing rules governing the interconnection of renewable resources and energy storage pursuant to the Maine Revised Statutes, Title 35-A, section 3474, subsection 3, the Public Utilities Commission shall consider whether modification of an interconnection application for the sole purpose of adding an energy storage system should materially impact the position of the project in an interconnection queue.

**Sec. 10. Cost management report.** By March 31, 2024, the Public Utilities Commission shall submit a report to the Joint Standing Committee on Energy, Utilities and Technology regarding the proceedings and any actions taken under the Maine Revised Statutes, Title 35-A, section 3209-E.

**Sec. 11. Distributed Solar and Energy Storage Program design.** In developing the Distributed Solar and Energy Storage Program under the Maine Revised Statutes, Title 2, section 9, subsection 6-A, the Governor's Energy Office shall ensure that the program is designed to address the recommendations contained in the Final Report of the Distributed Generation Stakeholder Group dated January 6, 2023 and submitted by the office to the Joint Standing Committee on Energy, Utilities and Technology pursuant to Public Law 2021, chapter 390, section 4.

The director is authorized and empowered, subject to the approval of the Governor, to accept from any other agency of government, individual, group or corporation such funds as may be available in carrying out this section, and meet such requirements with respect to the administration of such funds, not inconsistent with this section, as are required as conditions precedent to receiving such funds. An accounting of such funds and a report of the use to which they were

put must be included in the biennial report to the Governor. Each agency of government shall cooperate fully with the bureau's efforts to compile labor and industrial statistics. The director shall cause to be enforced all laws regulating the employment of minors; all laws established for the protection of health, lives and limbs of operators in workshops and factories, on railroads and in other places; all laws regulating the payment of wages; and all laws enacted for the protection of the working classes. The director may review various data, such as workers' compensation records, as well as other information relating to any public or private employer's safety experience. When any individual public or private employer's safety experience causes the director to question seriously the safe working environment of that employer, the director may offer any safety education and consultation programs to that employer that may be beneficial in providing a safer work environment. If the employer refuses this assistance or is in serious noncompliance which may lead to injuries, or if serious threats to worker safety continue, then the director shall communicate concerns to appropriate agencies, such as the United States Occupational Safety and Health Administration. As used in this section, the term "noncompliance" means a lack of compliance with any applicable health and safety regulations of the United States Occupational Safety and Health Administration or other federal agencies. In accordance with subsection 1, the department may, through contract after a competitive bidding process subject to the requirements of Title 5, section 1816-B, authorize a 3rd party to conduct claims administration.

**1. Competitive bidding process.** Any competitive bidding process used by the department pursuant to this section is governed by this subsection.

A. The minimum criteria established by the department to evaluate a proposal must include, but are not limited to cost; transparency of business operations; efficiency of business operations; quality of work related to the potential contracts issued; user experience; confidentiality and use of claimant data; software development, information technology and state ownership of software and specialized information technology; accountability; experience with providing education to the public related to claims; and a cost-benefit analysis documenting the direct and indirect costs of such a contract, including qualitative and quantitative benefits that will result from the implementation of such a contract.

B. Any 3rd party that submits a proposal must have a meaningful physical presence in the State; have no adjudicated record of substantial or repeated willful noncompliance with any relevant federal, state or local law, statute or regulation, including payment of taxes or other payments owed to a public entity; attest to compliance with all applicable local, state and federal laws, regulations and statutes, including health and safety, labor and employment and licensing laws that affect the employees, worksite or performance of the contract; complete a signed pledge of compliance provided by the State to comply with all applicable laws, statutes and regulations; and attest that any projected cost savings may not derive from the 3rd party's failure to provide adequate wages.

C. The requirements of Title 5, section 1825-B, subsection 7 do not apply.

**2. Family leave eligibility.** A covered individual is eligible for family leave for any of the following reasons:

A. To bond with the covered individual's child during the first 12 months after the child's birth or the first 12 months after the placement of the child for adoption or foster care with the covered individual;

B. A covered individual is not eligible for medical leave for more than 12 weeks in a benefit year.

C. A covered individual may not take more than 12 weeks, in the aggregate, of family leave and medical leave under this subchapter in the same benefit year.

This subsection does not prevent a covered individual from taking medical leave that is immediately followed by family leave when the medical leave is taken during pregnancy or recovery from childbirth and is supported by documentation from a health care provider.

**5. Intermittent leave requirements.** Leave permitted by this section may be taken by an employee intermittently in increments of not less than 8 hours or on a reduced leave schedule otherwise agreed to by the employee and the employer. The taking of leave intermittently or on a reduced leave schedule pursuant to this subsection may not result in a reduction in the total amount of leave to which the covered individual is entitled under this subchapter.

**6. Weekly benefit.** While on family leave or medical leave pursuant to this subchapter, a covered individual receives a weekly benefit amount as provided in section 850-C.

**7. Notice to employer.** Absent an emergency, illness or other sudden necessity for taking leave, an employee shall give reasonable notice to the employee's supervisor of the employee's intent to use leave under this subchapter. Use of such leave must be scheduled to prevent undue hardship on the employer as reasonably determined by the employer. If an employer fails to provide notice as required under section 850-I, the employee's obligation to provide notice under this subsection is waived.

**8. Right to benefits; accrual.** The taking of family leave or medical leave may not affect an employee's right to accrue vacation time, sick time, bonuses, advancement, seniority, length of service credit or other employment benefits, plans or programs. During the duration of an employee's family leave or medical leave, the employer shall continue to provide for and contribute to the employee's employment-related health insurance benefits, if any, at the level and under the condi-

tions coverage would have been provided if the employee had continued working continuously for the duration of leave.

**9. Treatment of self-employed individuals.** Subsection 8 does not apply to a self-employed individual taking family leave or medical leave under this subchapter or to a person who is no longer an employee who was an employee when that person began taking family leave or medical leave under this subchapter.

**10. Collective bargaining; employer policy; greater or additional rights.** This subchapter does not:

A. Obviate an employer's obligations to comply with any employer policy, law or collective bargaining agreement that provides for rights to leave greater than or additional to those provided by this subchapter;

B. In any way curtail the rights, privileges or remedies of any employee under any collective bargaining agreement or employment contract;

C. Allow an employer to compel an employee to exhaust rights to any sick, vacation or personal time prior to or while taking leave under this subchapter; or

D. Require a public employer, as defined in section 962, subsection 7, or employee of a public employer that is a party to a collective bargaining agreement in existence on the effective date of this subchapter to apply any of the rights and responsibilities under this subchapter until the existing collective bargaining agreement expires.

**11. Concurrent with leave under state and federal law.** Leave taken under this subchapter runs concurrently with leave taken under the federal Family and Medical Leave Act of 1993, 29 United States Code, Section 2611, et seq., and under subchapter 6-A. Employees may take leave under this subchapter while ineligible for leave under the federal Family and Medical Leave Act of 1993 in the same benefit year.

**12. Employer policy may not waive employee rights.** An employer policy adopted or retained on or after the effective date of this subchapter may not diminish an employee's right to benefits under this subchapter. Any agreement by an employee to waive the employee's rights under this subchapter is against public policy and is void and unenforceable.

**§850-C. Payment of benefits**

**1. Waiting period for medical leave.** Medical leave benefits are not payable during the first 7 calendar days of the leave, except that an employee may use accrued sick or vacation pay or other paid leave provided under a collective bargaining agreement or employer policy during the first 7 calendar days of the leave.

**2. Determination of weekly benefit amount.** The weekly benefit amount paid to employees and self-employed individuals on family leave or medical leave is calculated as follows:

A. The portion of the covered individual's average weekly wage that is equal to or less than 50% of the state average weekly wage must be replaced at a rate of 90%; and

B. The portion of the covered individual's average weekly wage that is more than 50% of the state average weekly wage must be replaced at a rate of 66% up to the maximum weekly benefit.

**3. Maximum benefit amount adjustment.** The maximum weekly benefit amount calculated under subsection 2 is the state average weekly wage. By January 1st of the year in which claims begin being processed and annually thereafter, the department shall take into consideration the recommendation of the authority to adjust the maximum weekly benefit amount as necessary, and the adjusted maximum weekly benefit amount takes effect on January 1st of the year following the adjustment. The authority shall recommend adjusting the maximum benefit amount in order to maintain the solvency of the fund at a level of at least the annualized amount described in section 850-E, subsection 3.

**4. Prorated benefit.** If a covered individual takes family leave or medical leave on an intermittent or reduced leave schedule, the weekly benefit amount must be prorated as determined by the department.

**5. Reduction of benefit.** The weekly benefit amount must be reduced by the amount of wages or wage replacement that a covered individual receives for that period under any of the following while on family leave or medical leave:

A. A government program or law, including, but not limited to, unemployment insurance under this Title and workers' compensation under Title 39-A other than for compensation received under Title 39-A, section 213 for an injury that occurred prior to the family leave or medical leave claim, or under other state or federal temporary or permanent disability benefits law; or

B. A permanent disability policy or program of an employer.

**§850-D. Applications and claims for benefits**

**1. Procedures and forms.** The administrator shall establish reasonable procedures and forms for filing claims for family leave benefits and medical leave benefits under this subchapter and shall specify what supporting documentation is necessary to support a claim for benefits, including any documentation required from a health care provider for proof of a serious health condition and any documentation required by the administrator with regard to a claim for safe leave or qualifying exigency leave.

**2. Filing of application.** An individual may file an application for family leave benefits or medical leave benefits no more than 60 days before the anticipated start date of family leave and medical leave and no more than 90 days after the start date of family leave and medical leave. The administrator shall waive the 90-day filing deadline for good cause. The administrator shall institute forms and procedures that are not unduly burdensome to an individual claiming benefits.

**3. Notification of employer.** The administrator shall notify the relevant employer within 5 business days of a claim being filed pursuant to this subchapter.

**4. Confidentiality.** Any medical or health information required under this section must be treated as confidential and may not be disclosed except with permission from the covered individual who provided it unless disclosure is otherwise required by law. Nothing in this section may be construed to compel a health care provider to provide any information for certification that would be in violation of Section 1177 of the federal Social Security Act, 42 United States Code, Section 1320d-6.

**5. Ineligibility.** A covered individual is not eligible to receive family leave benefits or medical leave benefits if the administrator finds, through a process established by rule, that the covered individual, for the purpose of obtaining these benefits, has willfully made a false statement or misrepresentation regarding a material fact or has willfully withheld a material fact concerning the facts required to be certified pursuant to this section. The department shall establish a process by rule for the determination of eligibility under this section, including a grievance process for a covered individual determined to be ineligible.

Funds may not be expended, released, appropriated or otherwise disposed of for any other purpose and must be expended by the department as required by this subchapter to pay family leave benefits and medical leave benefits to covered individuals eligible to receive benefits and to pay the administrative costs of the administrator.

**4. Administrative costs.** The costs of administering the program by the administrator may not exceed 5% of the amount deposited under subsection 2 for each fiscal year following the initial year family leave benefits and medical leave benefits are paid. Money may not be commingled with other state funds and must be maintained in a separate account.

**5. Payment of benefits.** The administrator shall expend money from the fund to provide weekly family leave benefits and medical leave benefits under section 850-C. Family leave benefits and medical leave benefits must be paid from the fund to covered individuals eligible for benefits. An employer's bankruptcy or noncompliance with this subchapter does not interfere with an employee's ability to collect family leave benefits and medical leave benefits under this subchapter. Family leave benefits and medical leave benefits paid from the fund to such an employee may be recovered through bankruptcy proceedings or from the noncomplying employer. The administrator shall institute administrative and legal action to recover family leave benefits and medical leave benefits paid through the fund.

B. Annually, for the 2028 calendar year and each calendar year thereafter, not later than October 1st, the department shall set the premium for the coming calendar year based on a percentage of employee wages and at the rate necessary to obtain a total amount of premium contributions in order to maintain the solvency of the fund at a level of at least the annualized amount described in section 850-E, subsection 3, plus an amount equal to 100%

of the cost of administration of the payment of those benefits during the previous fiscal year, less the amount of net assets remaining in the fund as of June 30th of the current calendar year. If, for the 2028 calendar year or any calendar year thereafter, the premium rate adjustment pursuant to this subsection is an increase and results in the difference between the rate of the upcoming calendar year and the current calendar year equaling more than 0.1% of wages paid, the department shall submit a report regarding fund solvency and factors contributing to rate setting to the joint standing committee of the Legislature having jurisdiction over labor matters.

**4. Self-employed individuals.** The following provisions govern self-employed individuals.

A. A self-employed individual who elects coverage under section 850-G shall pay up to 50% of the premium required by subsection 3 on that individual's income from self-employment.

**5. Employers.** The following provisions govern employers.

A. An employer with 15 or more employees may deduct up to 50% of the premium required for an employee by subsection 3 from that employee's wages and shall remit 100% of the combined premium contribution required by subsection 3 to the fund.

B. An employer with fewer than 15 employees may deduct up to 50% of the premium required for an employee by subsection 3 from that employee's wages and shall remit 50% of the premium required by subsection 3 to the fund.

**6. **9. Failure or refusal to make premium contributions.** An employer that fails or refuses to make premium contributions as required in this section must be assessed 1.0% of its total annual payroll for each year it

so failed to comply in addition to any amounts previously owed, or fraction thereof, in addition to the total amount of family leave benefits and medical leave benefits paid to covered individuals for whom it failed to make premium contributions. The rate of assessment imposed by this subsection must be adjusted annually consistent with subsection 3, paragraph B.

**10. Self-employed individual who elects coverage and fails or refuses to make premium contributions.** A self-employed individual who elects coverage under section 850-G and who fails or refuses to make premium contributions for at least 2 quarters as required in this section may be disqualified from family leave benefits and medical leave benefits. The self-employed individual's disqualification terminates upon:

A. The self-employed individual's remittance of all previously owed premium contributions as required in this section; and

B. Following remittance as required by paragraph A, the self-employed individual's remittance of premium contributions as required in this section for an additional number of quarters equivalent to the number of quarters for which the self-employed individual failed or refused to make premium contributions.

The Emergency Medical Services Stabilization and Sustainability Program, referred to in this section as "the program," is established within the department, to be administered by Maine Emergency Medical Services in consultation with the board and the Department of Health and Human Services, to provide financial assistance to emergency medical services entities based in the State that are facing immediate risk of failure, to increase the sustainability, efficiency and resiliency of emergency medical services throughout the State and to help ensure that all residents of the State continue to have access to high-quality, out-of-hospital clinical care provided by the emergency medical services system.

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Community" means a municipality, group of municipalities or other area of the State served by an emergency medical services entity.

B. "Emergency medical services entity" means a nonprofit or for-profit ambulance service or non-transporting emergency medical service or emergency medical services training center licensed under this chapter or a regional council.

C. "Historical activations" means the number of times an emergency medical services entity was dispatched by the E-9-1-1 system within a defined period of time.

D. "Rurality" means a community's score established by the United States Department of Agriculture that indicates the rural nature of the community.

**2. Purpose and use of funding.** The purpose of the program is to provide financial assistance, in accordance with subsection 3, to emergency medical services entities at immediate risk of failing and leaving their

communities without access to adequate emergency medical services and to provide grants to assist emergency medical services entities with long-term sustainability and resiliency planning and programming within the emergency medical services system in accordance with subsection 4.

**3. Funding requirements.** This subsection provides requirements for financial assistance to emergency medical services entities at immediate risk of failing and leaving their communities without access to adequate emergency medical services. Financial assistance under this subsection must be provided through the program.

A. Using a form developed and made available by the board, an emergency medical services entity applying for funding under this subsection must demonstrate that the entity:

(1) Is at immediate risk of failing and leaving its community without access to adequate emergency medical services due to employee recruitment or retention issues or an inability to finance daily operations. The entity must submit a financial statement covering its most recent fiscal year;

(2) Provided ambulance services or nontransporting emergency medical services to its community during the prior calendar year;

B. As a condition of receiving funding under this subsection, an emergency medical services entity meeting the requirements of paragraph A must enter into an agreement with Maine Emergency Medical Services requiring the entity to:

(1) Use all funding received to support only those activities as specified by the board in the application, which must include, but are not limited to:

(a) Supplementing wages, benefits, stipends and incentives for emergency medical services persons;

(d) Implementation of programming directly related to a strategic plan for the emergency medical services system developed by the board; and

(e) Investment in capital expenditures not to exceed \$50,000 in the aggregate;

(2) Submit a report to the board no later than December 31st of the year in which the entity receives the funding identifying how the funding was expended; and

(3) If the board determines, based on the report, that the funding was used to support activities not identified in the application as authorized expenditures, repay all such unauthorized expenditures for redistribution in accordance with this subsection.

(a) For the purposes of this subparagraph, a funding expenditure by an entity is deemed to be unauthorized and subject to repayment if the board determines the expenditure was used to supplant the entity's existing emergency medical services funding sources, except for funding sources originating from in-kind donations, fund-raisers or volunteer labor.

(b) To the extent permissible under applicable federal laws and regulations and state laws and rules, the Department of Health and Human Services may withhold future payments or reimbursements under the MaineCare program that are due to an entity that is an ambulance service and that is required to repay unauthorized expenditures under this subparagraph until such unauthorized expenditures are repaid in full. Payments withheld under this paragraph must be transferred to the program established in this section.

C. The board shall establish an allocation algorithm for maximum and minimum funding distributions to emergency medical services entities under this subsection based on the rurality of a community and historical activations for emergency medical services.

D. The board may establish reasonable deadlines by which an emergency medical services entity seeking funding under this subsection must enter into an agreement pursuant to paragraph B.

**4. Sustainability grant requirements.** This subsection provides requirements for grants to emergency medical services entities to increase support and de-

A. Using a form developed and made available by the board, an emergency medical services entity may apply for and be awarded a grant under this subsection upon a determination by the board that the applicant meets all applicable requirements for the grant as established by the board by rule.

B. Upon the recommendation of the director after consultation with the board, the board shall establish an allocation algorithm for maximum and minimum funding distributions to emergency medical services entities under this subsection, which may, as applicable, be based on the rurality of the community and historical activations for emergency medical services.

Upon federal approval, the department shall adopt rules to implement this section. Rules adopted pursuant to this section are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A, except that any subsequent amendments to those rules are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. LLLLL-2. The goals of the lifespan program are to:

**2. Seamless transitions.** Expand upon the department's current childhood-to-adulthood transition initiatives by including children beginning at 14 years of age and enable smooth transitions at later life stages;

**3. Early planning for independence.** Emphasize in-home supports, independent living skills and employment services for youth to prepare them for as much independence as possible in adulthood;

**4. Innovation.** Include service innovations currently under development, such as tiered shared living, standardized assessment of need, enhanced medical and behavioral health supports, self-direction, innovative employment supports, independent living options and remote support technology, including models of support that can be successfully implemented with a smaller workforce; and

Individuals who are on a waiting list for enrollment under Section 21 or 29 when the lifespan program opens will be transferred to the lifespan program waiting list.

**Sec. LLLLL-4. Appropriations.** Any appropriations made for the lifespan program may be used for purposes of the Department of Health and Human Services rule Chapter 101: MaineCare Benefits Manual, Chapter II, Section 29 until the lifespan program opens for enrollment. When the lifespan program opens for enrollment, any unused appropriations for reserve slots in rule Chapter 101: MaineCare Benefits Manual, Chapter II, Section 21 must be used for the lifespan program for the same purpose. When the lifespan program opens for enrollment, any appropriations for Section 21 or 29 that become available as a result of attrition of enrollment under Section 21 or 29 must be used for the lifespan program to expand access in that program.

**Sec. LLLLL-5. Lifespan stakeholder advisory group.** The Department of Health and Human Services shall create a lifespan stakeholder advisory

1. A nursing facility that receives financial assistance under this Part may not convert nursing facility beds to other service models, such as residential care facility beds, without written approval from the department's division of licensing and certification based on the facility's assessment of the net positive value of need for and access to quality services at the appropriate level of care for the facility's residents.

2. A nursing facility shall submit a plan to the department to adjust costs to maximize efficiency and economy, with a focus on contracted labor, prior to approval of an extraordinary circumstance allowance.

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 22 MRSA §1508** is enacted to read:

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Gender-affirming hormone therapy" means nonsurgical, medically necessary health care that respects the gender identity of the patient, as experienced and defined by the patient, that includes, but is not limited to, the following health care:

- (1) Interventions to suppress the development of endogenous secondary sex characteristics;
- (2) Interventions to align the patient's appearance or physical body with the patient's gender identity; or
- (3) Interventions to alleviate symptoms of clinically significant distress resulting from gender dysphoria.

B. "Gender dysphoria" means a clinical diagnosis of gender dysphoria as defined either in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association or in the Standards of Care for the Health of Transgender and Gender Diverse People, Version 8 or subsequent version, published by the World Professional Association for Transgender Health.

C. "Health care professional" means a person qualified by training and experience to provide and monitor the provision of gender-affirming hormone therapy who is authorized by law to prescribe medication and who is:

- (1) Licensed by the Board of Licensure in Medicine under Title 32, chapter 48;
- (2) Licensed by the Board of Osteopathic Licensure under Title 32, chapter 36; or
- (3) Licensed by the State Board of Nursing as an advanced practice registered nurse under Title 32, chapter 31.

**2. Authority of minor to consent.** A health care professional may provide gender-affirming hormone therapy and follow-up care to a minor without obtaining

the consent of the parent or guardian of the minor only if:

- A. The minor is at least 16 years of age;
- B. The minor has been diagnosed with gender dysphoria by a health care professional;
- C. In the judgment of the health care professional, the minor is experiencing harm from or is expected to experience harm from not receiving gender-affirming hormone therapy;
- D. The minor informs the health care professional that the minor has discussed the minor's gender dysphoria with a parent or guardian of the minor and that parent or guardian refused to support treatment of the minor's gender dysphoria; and
- E. The minor provides informed written consent to the receipt of gender-affirming hormone therapy in accordance with the requirements of subsection 3; the health care professional makes the written consent that is set forth in a writing containing the information and statements required by subsection 3, paragraph B and that is signed by the minor a part of the minor's health record; and the minor, under all the surrounding circumstances, is mentally and physically competent to give consent.

**3. Informed consent.** A minor who meets the requirements of subsection 2, paragraphs A to D may provide informed written consent to gender-affirming hormone therapy and follow-up care only in accordance with the requirements of this subsection.

A. A health care professional shall, in a manner that the health care professional believes is not misleading and will be understood by the minor:

- (1) Explain that the information being given to the minor is not intended to coerce, persuade or induce the minor to consent to gender-affirming hormone therapy;
- (2) Explain that the minor may withdraw the decision to commence or to continue to receive gender-affirming hormone therapy at any time either before the therapy begins or during the course of the therapy;
- (3) Clearly and fully explore with the minor the alternative choices available for managing and treating gender dysphoria;
- (4) Explain the physiological effects, benefits and possible consequences of gender-affirming hormone therapy and follow-up care, including the physiological effects, benefits and possible consequences of discontinuing the therapy;
- (5) Discuss the possibility of involving the minor's parents or guardians in the minor's decision making about gender-affirming hormone

therapy and follow-up care and explore whether the minor believes that parent or guardian involvement would be in the minor's best interests; and

(6) Provide an adequate opportunity for the minor to ask any questions concerning gender dysphoria, gender-affirming hormone therapy and follow-up care and provide the information the minor seeks or, if the health care professional cannot provide the information, explain where the minor can obtain the information.

B. After providing the information and counseling required by paragraph A, the health care professional shall have the minor sign and date a form stating:

- (1) The business address and telephone number of the health care professional who provided the information and counseling required by paragraph A;
- (2) The minor has received information on gender-affirming hormone therapy and follow-up care, including the benefits and possible consequences of and alternatives to gender-affirming hormone therapy;
- (3) The minor has received an explanation that the minor may withdraw consent to gender-affirming hormone therapy at any time, including after therapy begins;
- (4) The alternatives for managing gender dysphoria have been clearly and fully explored with the minor;
- (5) The minor has discussed with the health care professional the possibility of involving the minor's parents or guardians in the minor's decision making about gender-affirming hormone therapy and follow-up care. If the minor has chosen not to involve the minor's parents or guardians, the reasons for making that choice must be stated in writing on the form; and
- (6) The minor has been given an adequate opportunity to ask questions and receive answers about gender dysphoria, gender-affirming hormone therapy and follow-up care.

C. The health care professional who provided the information and counseling required by paragraph A shall also sign and date the form signed by the minor under paragraph B. The health care professional shall retain a copy of the form in that health care professional's files and shall give the form to the minor. If the health care professional who provided the information and counseling required by paragraph A is not the health care professional who will provide gender-affirming hormone therapy to

the minor, at the minor's request the health care professional shall transmit the form to the health care professional who will provide gender-affirming hormone therapy to the minor.

**4. Rebuttable presumption of validity.** A written consent of a minor who meets the requirements of subsection 2 that is set forth in a writing containing the information and statements required by subsection 3, paragraph B and that is signed by the minor is presumed to be a valid, informed consent to treatment for gender-affirming hormone therapy and bars an action by a parent or guardian of the minor on the grounds of battery, malpractice or any other claim for providing gender-affirming hormone therapy without consent from a parent or guardian. The presumption of validity established in this subsection may be rebutted only by evidence that the minor's consent was obtained through fraud, deception or misrepresentation of material fact.

**5. Disallowance of recovery.** Recovery is not allowed against a health care professional upon the grounds that gender-affirming hormone therapy of a minor who meets the requirements of subsection 2 was rendered without the informed consent of the minor when:

A. The health care professional, in obtaining the minor's consent, complied with the terms of this section and the standards of care among members of the same health care profession with similar training and experience situated in the same or similar communities; or

B. The health care professional received and acted in good faith on the informed written consent to gender-affirming hormone therapy given by the minor to another health care professional that contains the information and statements required by subsection 3, paragraph B.

**6. Nonseverability.** In the event that any portion of subsections 1 to 5 is held invalid, it is the intent of the Legislature that this entire section, other than subsection 7, is invalid.

**7. Authority of parent to consent unaffected.** This section does not affect the legal authority of a parent or guardian to consent to gender-affirming hormone therapy for a minor in accordance with established standards of care.

See title page for effective date.
