## PREFACE

The 2023 edition of Laws of the State of Maine is the official publication of the session laws of the State of Maine enacted by the 131st Legislature and is compiled and published under the authority of the Maine Revised Statutes, Title 3, section 163-A. Laws of the State of Maine has been in continuous publication since 1820, when the acts and resolves adopted by the First Legislature were published by the Secretary of State under the authority of Resolve 1820, chapter 25.

Volume 1 contains the public laws, private and special laws, resolves and constitutional resolutions enacted at the First Regular Session and the First Special Session of the 131st Legislature and includes the 2021 Revisor's Report, chapter 2 and a selection of significant addresses, joint resolutions and memorials.

Additional volumes of the 2023 Laws of the State of Maine will contain those measures adopted in the Second Regular Session and any other special session of the 131st Legislature.

The following conventions are used throughout the series.

1. At the top of each page is a heading that classifies each law by session of passage, year, type and chapter number.
2. A table of contents that locates major divisions and contents by page number is located at the beginning of each volume.
3. Subject indexes of the documents contained in these volumes, arranged alphabetically by subject heading with corresponding chapter numbers, are provided.
4. Session cross-reference tables are also provided showing how unallocated public laws and titles and sections of the Maine Revised Statutes of 1964 have been affected by the laws included in this publication.
5. Words and phrases deleted from the statutes are shown struck through. When an entire unit is repealed, the text that is repealed is not shown struck through, but its repeal is indicated by express language.
6. When new words or sections are added to the statutes, they are underlined.
7. A chaptered law's Legislative Document number is printed beneath its chapter number heading, indicating the source of the chapter.
8. The effective date for Maine laws is provided for in the Constitution of Maine, Article IV, Part Third, Section 16, which specifies that, except for certain emergency legislation, an act or resolve enacted into law takes effect 90 days after the adjournment of the session in which it passed. The general effective date of nonemergency laws passed at the First Regular Session of the 131st Legislature is June 29, 2023 and the general effective date of nonemergency laws passed at the First Special Session of the 131st Legislature is October 25, 2023. The effective dates of emergency legislation vary and are provided at the ends of the chapters that were enacted as emergencies.

Copies of a specific chaptered law may be obtained by contacting the Engrossing Division of this office. Laws of the State of Maine is also available online through the website of the Office of the Revisor of Statutes at <http://legislature.maine.gov/ros/LOM/LOMpdfDirectory.htm>.

This edition of Laws of the State of Maine and its predecessors have been prepared for the convenience of the people of the State of Maine, and any comments or suggestions for improvements in subsequent editions would be appreciated.

**CHAPTER 1**  
**H.P. 5 - L.D. 3**

**An Act to Establish the Winter  
Energy Relief Payment  
Program to Aid Residents with  
High Heating Costs and to  
Finalize the COVID Pandemic  
Relief Payment Program**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas**, on March 13, 2020, the President of the United States declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act and, on April 4, 2020, the President of the United States approved a major disaster declaration for the State of Maine for periods beginning on January 20, 2020 and continuing; and

**Whereas**, on March 13, 2020, the President of the United States declared a national emergency concerning the coronavirus disease 2019 (COVID-19) pandemic pursuant to Sections 201 and 301 of the National Emergencies Act and, on February 18, 2022, the President of the United States continued the national emergency pursuant to Section 202(d) of the National Emergencies Act; and

**Whereas**, on January 31, 2020, the United States Secretary of Health and Human Services determined that a public health emergency exists and has existed since January 27, 2020 nationwide and, on October 13, 2022, the United States Secretary of Health and Human Services renewed that determination; and

**Whereas**, Maine consumers are experiencing increased energy prices across all fuel types and experiencing volatility; and

**Whereas**, with nearly 60% of homes reliant on heating oil, Maine is the most heating oil dependent state in the country. Also, the New England electric grid, which supplies power to a majority of Maine, is over-reliant on natural gas to generate electricity. This makes Maine distinctly vulnerable to price increases; and

**Whereas**, residential energy prices have increased significantly throughout the pandemic and high winter energy prices will exacerbate the ongoing effects

of the pandemic and pose a threat to Maine's recovery from the pandemic; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**PART A**

**Sec. A-1. Transfer from General Fund unappropriated surplus; Housing Authority - State; supplement federal funding.** Notwithstanding any provision of law to the contrary, on or before June 30, 2023, the State Controller shall transfer \$40,000,000 from the unappropriated surplus of the General Fund to the Maine State Housing Authority, Housing Authority - State, Other Special Revenue Funds account to supplement federal Low Income Home Energy Assistance Program, or LIHEAP, funding. judge's or register of probate's letters were granted, further proceedings in that county must be transferred to the probate court in any adjoining county and there remain until completed, as if such court had had original jurisdiction thereof, unless said disability is removed before that time. Whenever in any case ~~within~~ under this section the disability of the judge or register is removed before the proceedings have been fully completed, the proceedings must then be transferred to the probate court in the county of original jurisdiction or to the probate court that otherwise would have had jurisdiction. In all such cases the register in such adjoining county shall transmit copies of all records relating to such estate to the probate office of the county where such estate belongs, to be there recorded. If there are fewer than 4 counties adjoining the county of a probate court that is required to transfer proceedings to an adjoining county under this section, the proceedings must be transferred to a probate court in one of the 4 counties nearest to the transferring probate court, as measured by the shortest distance along paved roads between the building in which the registry of probate is located in the transferring county and the building in which the registry of probate is located in the other county.

How do I make a TOD deed? ~~Complete this form.~~ You may use this template to create a TOD deed but be aware that the registry of deeds of each Maine county has specific requirements for a document to be accepted for recording, including requirements related to the top, bottom and side margins. Have ~~#~~ the TOD deed

acknowledged before a notary public or other individual authorized by law to take acknowledgments. Record the ~~form~~ TOD deed in each county where any part of the property is located. The ~~form~~ TOD deed has no effect unless it is acknowledged and recorded before your death.

Is the "legal description" of the property necessary? Yes.

This information may also be available in the registry of deeds for the county where the property is located. If you are not absolutely sure, consult a lawyer.

What is the proper form for the required acknowledgment of signatures on the TOD deed? Forms of acknowledgment may be found in Title 33, section 775 of the Maine Revised Statutes. You may also consult a notary public or a lawyer for the proper form of an acknowledgment.

Can I change my mind before I record the TOD deed? Yes. If you have not yet recorded the deed and want to change your mind, simply tear up or otherwise destroy the TOD deed.

How do I "record" the TOD deed? Take the completed and acknowledged ~~form~~ TOD deed to the registry of deeds of the county where the property is located. Follow the instructions given by the register of deeds to make the ~~form~~ TOD deed part of the official property records. If the property is in more than one county, you should record the TOD deed in each county.

Can I later revoke the TOD deed if I change my mind? Yes. You can revoke the TOD deed. No one, including the beneficiaries, can prevent you from revoking the TOD deed.

How do I revoke the TOD deed after it is recorded? There are three ways to revoke a recorded TOD deed: (1) Complete and acknowledge a revocation form, and record it in each county where the property is located. (2) Complete and acknowledge a new TOD deed that disposes of the same property, and record it in each county where the property is located. (3) Transfer the property to someone else during your lifetime by a recorded deed that expressly revokes the TOD deed. You may not revoke the TOD deed by will.

C. Any other related action ~~currently filed or~~ pending before any court of this State or another state, including the District Court.

**2. Transfer to District Court.** If Except as provided in subsection 3, if in a matter before the Probate Court concerning a minor child a judge of probate becomes aware that a proceeding under the Maine Juvenile Code brought against the minor child or a proceeding involving custody or other parental rights with respect to the minor child is pending in the District Court or that the minor child is or was the subject of a District Court order terminating parental rights, appointing a guardian, including a permanency, emergency or interim guardian, awarding parental rights to a 3rd party

**3. Scope of authority.** The court shall consider and act on child protection petitions regardless of other decrees regarding a child's care and custody. The requirements and provisions of Title 19-A, chapter 58 do not apply to child protection proceedings. If custody or parentage is an issue in another pending proceeding, the proceedings may be consolidated in the District Court with respect to the issue of custody, parentage or both. In any event, the court shall make an order on the child protection petition in accordance with this chapter. That order takes precedence over any ~~prior~~ other order regarding the child's care and custody. Nothing in this subsection may be construed to limit the authority of the District Court to determine parentage pursuant to section 4005-F during the pendency of a child protection

proceeding; to consolidate a child protection proceeding with another matter; or to resolve a child protection proceeding through the entry of a parental rights and responsibilities order, guardianship order or adoption order.

**Emergency preamble.** **Whereas**, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas**, housing security is vital for those in recovery from substance use disorder; and

**Whereas**, Public Law 2021, chapter 472 ensured access to general assistance benefits for rental payments by prohibiting municipalities from denying an eligible applicant housing assistance for the sole reason that the applicant resides in a recovery residence; and

**Whereas**, the law lacks clarity regarding who is eligible to receive payments for recovery residence housing assistance from municipal general assistance administrators; and

**Whereas**, this lack of clarity has resulted in delayed payments, threatening the housing security of individuals in recovery and causing confusion for recovery residence operating managers and property owners; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 22 MRSA §4301, sub-§8-B** is enacted to read:

**Sec. 3. 22 MRSA §4309, sub-§6**, as enacted by PL 2021, c. 472, §3, is amended to read:

**6. Eligibility; recovery residence; exception.** The overseer in a municipality may not deny general assistance to a person for the sole reason that the person is residing in a recovery residence. Beginning July 1, 2022, a municipality may not provide housing assistance to a person residing in a recovery residence that has not been certified in accordance with Title 5, section 20005, subsection 22, except that the person may receive housing assistance while residing in an uncertified recovery residence for one 30-day period only and the overseer shall inform the person of the requirements of this subsection. A person who is ineligible for housing assistance under this subsection may remain eligible to receive general assistance for other basic necessities. Upon request by a person residing in a certified recovery residence who has been determined eligible for housing assistance, a municipality shall issue a housing assistance payment to the operator of the certified recovery residence instead of to a landlord.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective June 8, 2023.

**CHAPTER 136**

**S.P. 31 - L.D. 39**

**An Act to Amend the Maine Juvenile Code**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 15 MRSA §3003, sub-§14**, as amended by PL 2021, c. 326, §1, is further amended to read:

**14. Juvenile.** "Juvenile" means a person who ~~has had~~ not attained 18 years of age ~~and a person 18 years of age or older during the period of a disposition that includes probation or commitment to a Department of Corrections juvenile facility who was adjudicated before 18 years of age. This definition does not apply to a person whose disposition includes probation or commitment to a Department of Corrections juvenile correctional facility when that person engages in new criminal conduct and is 18 years of age or older at the time of the new criminal conduct at the time the person allegedly committed a juvenile crime.~~

**Sec. 2. 15 MRSA §3203-A, sub-§5**, as amended by PL 2021, c. 326, §3, is further amended to read:

**5. Detention hearing.** The Department of Corrections shall notify the Juvenile Court when a juvenile is detained and shall provide the court with the name and date of birth of the juvenile, the name of the arresting law enforcement agency, the time of arrest, a description of the juvenile crimes for which the juvenile was arrested and, if available, the current telephone number and e-mail address for the juvenile's parent or parents, guardian or legal custodian. Upon petition by a juvenile community corrections officer who ordered the detention or an attorney for the State who ordered the detention, the Juvenile Court shall review the decision to detain a juvenile within 48 hours following the detention, excluding Saturday, Sunday and legal holidays, except that if a juvenile is detained pursuant to subsection 7, paragraph B-5, the Juvenile Court shall review the decision to detain the juvenile within 24 hours following the detention, excluding Saturday, Sunday and legal holidays. If the juvenile is not emancipated and the court has been provided a telephone number or e-mail address for the juvenile's parent or parents, guardian or legal custodian, the Juvenile Court shall provide notice of the detention hearing to the juvenile's parent or parents, guardian or legal custodian. The court may conduct the detention hearing in the absence of the parent or parents, guardian or legal custodian if the court is unable to provide notice to the parent or parents, guardian

or legal custodian or the parent or parents, guardian or legal custodian fails to appear after receiving notice. When a petition to review detention is filed, the Juvenile Court shall assign counsel to represent the juvenile. The assignment must be reviewed at the juvenile's first appearance before the Juvenile Court. If a juvenile petition with charges based on the conduct at issue in the detention hearing is filed, the assignment continues with respect to the petition to review detention but must be reviewed at the juvenile's first appearance on the juvenile petition.

A. A detention hearing must precede and must be separate from a bind-over or adjudicatory hearing. Evidence presented at a detention hearing may include testimony, affidavits and other reliable hearsay evidence as permitted by the Juvenile Court and may be considered in making any determination in that hearing.

B. Following a detention hearing, the Juvenile Court shall order a juvenile's release, in accordance with subsection 4, unless it finds, by a preponderance of the evidence, that continued detention is necessary to meet one of the purposes of detention provided in that subsection. The Juvenile Court shall ensure, by appropriate order, that any such continued detention is otherwise in accordance with the requirements of subsection 4. The Juvenile Court may order that detention be continued pending further appearances before the Juvenile Court or pending conditional release to a setting satisfactory to the juvenile community corrections officer.

C. Continued detention or conditional release may not be ordered unless a Juvenile Court Judge or justice of the peace has determined pursuant to subsection 4-A or the Juvenile Court determines at the detention hearing that there is probable cause to believe that the juvenile has committed a juvenile crime.

D. When the Juvenile Court orders detention or a conditional release that authorizes, even temporarily, the juvenile's removal from the juvenile's home, the Juvenile Court shall determine whether reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that no reasonable efforts are necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B, and whether continuation in the juvenile's home would be contrary to the welfare of the juvenile. This determination does not affect whether the Juvenile Court orders detention or a conditional release, which continues to be governed by the other provisions of this section.

**Sec. 3. 15 MRSA §3311-B, sub-§1,** as amended by PL 2011, c. 480, §2, is further amended to read:

**1. Imposition.** Following the acceptance of an admission of commission of a juvenile crime for which a juvenile is eligible for a deferred disposition under section 3311-A, the court may order disposition deferred to a date certain or determinable and impose requirements upon the juvenile to be in effect during the period of deferment that are considered by the court to be reasonable and appropriate to meet the purposes of the Maine Juvenile Code. The court-imposed deferment requirements must include a requirement that the juvenile refrain from conduct that would constitute a juvenile crime, crime or civil violation. Unless the juvenile crime is one under section 3103, subsection 1, paragraph B or C, the court-imposed deferment requirements may include that the juvenile abide by specific conditional release requirements under supervision by a juvenile community corrections officer. The court may not impose a requirement that the juvenile pay a supervision fee. In exchange for the deferred disposition, the juvenile shall abide by the court-imposed deferment requirements. Unless the court orders otherwise, the deferment requirements are immediately in effect.

**Sec. 4. 15 MRSA §3314, sub-§1, ¶H,** as amended by PL 2021, c. 330, §4, is further amended to read:

H. The court may order the juvenile to serve a period of confinement that may not exceed 30 days, with or without an underlying suspended disposition of commitment to a Department of Corrections juvenile correctional facility, which confinement must be served concurrently with any other period of confinement previously imposed and not fully discharged or imposed on the same date but may be served intermittently as the court may order and must be ordered served in a facility approved or operated by the Department of Corrections exclusively for juveniles. The court may order such a disposition to be served as a part of and with a period of probation that is subject to such provisions of Title 17-A, section 1807 as the court may order and that must be administered pursuant to Title 34-A, chapter 5, subchapter 4. Revocation of probation is governed by the procedure contained in subsection 2. Any disposition under this paragraph is subject to Title 17-A, section 2305 except that a statement is not required to be furnished and the day-for-day deduction must be determined by the facility, but is not subject to Title 17-A, section 2305, subsection 4 or 4-A; section 2307, subsections 2, 3 and 4; section 2308, subsection 2; section 2309, subsection 2; or section 2310, subsections 3, 6 and 7. ~~For purposes of calculating the commencement of the~~ The period of confinement, credit is accorded only for the portion of the first day for which the juvenile is actually confined; the commences on the date on which the juvenile is received into the facility to serve the period of confinement, and that day is counted as the first full

~~day of the period of confinement. The juvenile may not be released until the juvenile has served the full term of hours or days imposed by the court at any time on the final day of the period of confinement.~~ When a juvenile is committed for a period of confinement, the court shall determine whether reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that reasonable efforts are not necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B and whether continuation in the juvenile's home would be contrary to the welfare of the juvenile. This determination does not affect whether the court orders a period of confinement.

**Sec. 5. 15 MRSA §3314, sub-§2**, as amended by PL 2019, c. 113, Pt. C, §49, is further amended to read:

**2. Suspended disposition.** The court may impose any of the dispositional alternatives provided in subsection 1 and may suspend its disposition and place the juvenile on a specified period of probation that is subject to such provisions of Title 17-A, section 1807 as the court may order and that is administered pursuant to the provisions of Title 34-A, chapter 5, subchapter 4, except that the court may not impose the condition set out in Title 17-A, section 1807, subsection 5 6. The court may impose as a condition of probation that a juvenile must reside outside the juvenile's home in a setting satisfactory to the juvenile community corrections officer if the court determines that reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that no reasonable efforts are necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B, and that continuation in the juvenile's home would be contrary to the welfare of the juvenile. Imposition of such a condition does not affect the legal custody of the juvenile.

Modification of probation is governed by the procedures contained in Title 17-A, section 1804, subsections 7 and 8. Termination of probation is governed by the procedures contained in Title 17-A, section 1804, subsection 10. Revocation of probation is governed by the procedures contained in Title 17-A, sections 1809 to 1812, except that this subsection governs the court's determinations concerning probable cause and continued detention and those provisions of Title 17-A, section 1812, subsection 6 allowing a vacating of part of the suspension of execution apply only to a suspended fine under subsection 1, paragraph G or a suspended period of confinement under paragraph H. A suspended commitment under subsection 1, paragraph F may be modified to a disposition under subsection 1, paragraph H. When a revocation of probation results in the imposition of a disposition under subsection 1, paragraph F or a period of confinement under subsection 1, paragraph

H, the court shall determine whether reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that no reasonable efforts are necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B and whether continuation in the juvenile's home would be contrary to the welfare of the juvenile. This determination does not affect whether the court orders a particular disposition upon a revocation of probation. If the juvenile is being detained for an alleged violation of probation, the court shall review within 48 hours following the detention, excluding Saturdays, Sundays and legal holidays, the decision to detain the juvenile. Following that review, the court shall order the juvenile's release unless the court finds that there is probable cause to believe that the juvenile has violated a condition of probation and finds, by a preponderance of the evidence, that continued detention is necessary to meet one of the purposes of detention under section 3203-A, subsection 4, paragraph C. When a court orders continued detention, the court shall determine whether reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that no reasonable efforts are necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B and whether continuation in the juvenile's home would be contrary to the welfare of the juvenile. This determination does not affect whether the court orders continued detention.

**Sec. 6. 15 MRSA §3314-C, sub-§8** is enacted to read:

**8. Payment and collection of restitution.** Payment of restitution by and collection of restitution from a juvenile must be in accordance with Title 17-A, sections 2006, 2007, 2008, 2009, 2011, 2012, 2013, 2016, 2017 and 2018.

**Sec. 7. 15 MRSA §3318-B, sub-§3** is enacted to read:

**3. Provision of reports.** If, following the competency determination hearing provided in section 3318-A, subsection 7, the Juvenile Court refers the juvenile to the Commissioner of Health and Human Services for evaluation and treatment, issues an order for the commissioner to evaluate the juvenile or orders the juvenile into the custody of the commissioner pursuant to this section, the Juvenile Court shall ensure that a copy of the report of the State Forensic Service examiner or any other report considered for the competency determination is provided to the commissioner or the commissioner's designee.

**Sec. 8. 15 MRSA §3509** is enacted to read:

**§3509. Interstate Compact for Juveniles**

If a consumer-owned water utility assists a holder in acquiring a conservation easement and the utility does not acquire through the transaction a fee interest in the property, consumer-owned water utility shall obtain a 3rd-party right of enforcement with respect to that easement. If a consumer-owned water utility assists a holder in acquiring a fee interest in real property, the utility shall acquire a conservation easement unless the holder conveys a conservation easement to another holder, in which case the utility shall obtain a 3rd-party right of enforcement with respect to that conservation easement. For purposes of this subsection, "protection of public water supply" includes watershed protection, ground-water protection or wellhead protection reasonably necessary to minimize the potential for contamination of the consumer-owned water utility's water supply. If the

consumer-owned water utility has adopted a watershed control program pursuant to 40 Code of Federal Regulations, Section 141.71 and that program has been approved by the Department of Health and Human Services, any expenditures from the water supply protection fund pursuant to this section for the purposes of watershed protection must be in conformity with that watershed control program. For purposes of this subsection, "conservation easement" has the same meaning as in Title 33, section 476, subsection 1; "holder" has the same meaning as in Title 33, section 476, subsection 2; and "3rd-party right of enforcement" has the same meaning as in Title 33, section 476, subsection 4.

A covered employee who is not a participant because that employee has opted out will

be automatically reenrolled with the opportunity to opt out again at regular or ad hoc intervals determined by the board in its discretion, but not more frequently than annually;

C. Provide that the IRA to which contributions are made is a Roth IRA, except that the board has the authority at any time, in its discretion, to add an option for all participants to affirmatively elect to contribute to a traditional IRA as an alternative to the Roth IRA;

D. Provide that, unless otherwise specified by the covered employee, a covered employee must automatically initially contribute 5% of the covered employee's salary or wages to the program and may elect to opt out of the program at any time or contribute at any higher or lower rate, expressed as a percentage of salary or wages, or, if the board in its discretion permits, expressed as a flat dollar amount, subject in all cases to the IRA contribution and income eligibility limits applicable under the Internal Revenue Code at no additional charge. In addition, the board may provide that each participant's initial contributions, up to a specified dollar amount or for a specified period of time, are required to be invested in a ~~principal capital~~ preservation investment or, in the board's discretion, must be defaulted into such an investment unless the participant affirmatively opts for a different investment for those contributions. The board shall determine how often participants will have the opportunity to change their selections of investments for future contributions or existing balances or both;

G. Provide that employer contributions by a covered employer are not required or permitted;

H. Be professionally managed;

I. When possible and practicable, use existing employer and public infrastructure to facilitate contributions, record keeping and outreach and use pooled or collective investment arrangements for amounts contributed to the program;

J. Require the maintenance of separate records and accounting for each account under the program and allow for participants to maintain their accounts regardless of place of employment and to roll over funds into other IRAs or other retirement accounts;

K. Provide for reports on the status of each participant's account to be provided to each participant at least annually and make best efforts to provide each participant frequent or continual online access to information on the status of that participant's account;

L. Provide that each participant owns the contributions to and earnings on amounts contributed to the participant's account under the program and that the State and covered employers have no proprietary interest in those contributions or earnings;

The fee may be an asset-based or investment return fee, flat fee or hybrid of the permissible fee structures identified in this paragraph;

Q. Adopt rules and establish procedures governing the distribution of funds from the program, including such distributions as may be permitted or required by the program and any applicable provisions of tax laws, with the objectives of maximizing financial security in retirement, helping to protect spousal rights and assisting participants with the challenges of decumulation of savings. The board has the authority to provide for one or more reasonably priced distribution options to provide a

source of regular retirement income, including income for life or for the participant's life expectancy or for joint lives and life expectancies, as applicable;

R. Adopt rules and establish procedures promoting portability of benefits, including the ability to make tax-free rollovers or transfers from IRAs under the program to other IRAs or to tax-qualified plans that accept such rollovers or transfers;

S. Establish penalties in accordance with subsection 4 for a covered employer that fails without reasonable cause to enroll a covered employee in the program as required or that fails to transmit a payroll deduction IRA contribution to the program as required. A lack of reasonable cause is established by the failure to enroll after the program communicates with the employer 3 times;

T. In accordance with subsection 1, paragraph C, use private sector entities to administer the program and invest the contributions to the program under the supervision and guidance of the board; and

## CHAPTER 168

### S.P. 659 - L.D. 1654

#### An Act to Extend the Time for Certain Public Utilities Commission Proceedings

Be it enacted by the People of the State of Maine as follows:

**Sec. 1. 35-A MRSA §307**, as amended by PL 1999, c. 398, Pt. A, §13 and affected by §§104 and 105, is repealed and the following enacted in its place:

#### **§307. Changes in schedules; notice; suspension; rate increase limit**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Final determination of the public utility's revenue requirement" means a decision by the commission on the merits of a public utility's request after consideration of at least the public utility's direct case in support of its request.

B. "General increase in rates" means a change in a rate, toll or charge of a public utility, the effect of which is to increase the annual operating revenue of the public utility by more than 1%. "General increase in rates" does not include a rate change made for the sole purpose of implementing a gas cost adjustment rate pursuant to section 4703 or a rate change made for the sole purpose of implementing an energy conservation adjustment rate pursuant to section 3154.

**2. Notice requirements.** A public utility may not change a schedule, including a schedule of joint rates, unless the public utility provides notice to the commission 30 days prior to the time the changes are to take effect. The public utility must indicate all proposed changes on the schedule in effect at the time notice is provided. For good cause shown, the commission may allow changes after less than the notice specified in this subsection or modify the requirements of this section and section 308 with respect to publishing, posting and

filing of a schedule, either in a particular instance or by rule applicable to a special circumstance or condition.

At the commission's discretion, the commission may require the information relating to changes described in this subsection to be filed in a general increase in rates at the same time as the schedules are filed. The commission may require a public utility whose gross revenues exceed \$5,000,000 annually to notify the commission not more than 2 months in advance of filing a general increase in rates under this section that a filing is planned and to disclose the approximate amount of the increase and the approximate rate of return and include a general statement of the major issues that might be presented and the approximate rate of return the utility would be seeking.

**3. Suspension pending investigation.** Pending an investigation and order pursuant to section 310, subsection 1, at any time within the period preceding the effective date of the schedule the commission may suspend the operation of the schedule or any part of the schedule by filing with the schedule and delivering to the public utility affected a statement of its reasons for the suspension. The suspension may not be for a period longer than 12 months from the effective date of the order of suspension unless:

A. All parties agree to extend the suspension beyond 12 months; or

B. The commission determines that the party seeking the extension would be unreasonably disadvantaged because of circumstances beyond that party's control unless the extension were granted, as long as the party prior to the request for extension had prosecuted its case in good faith and with due diligence.

**4. General rate increase case limitation.** A public utility may not file a schedule for a general increase in rates pursuant to this section within one year of a prior filing for a general increase in rates pursuant to this section, unless the proceeding initiated by a prior filing was terminated without a final determination of the public utility's revenue requirement or with approval of the commission. The limitation of this subsection does not prevent a public utility, at any time, from notifying the commission in advance, either voluntarily or in accordance with a commission requirement under this section, of plans by the public utility to file a general increase in rates.

Nothing in this subsection may be construed to limit a public utility's right, at any time, to petition pursuant to section 1322 for temporary rate relief.

**Sec. 2. 35-A MRSA §310**, as amended by PL 2009, c. 237, §1, is further amended by amending the section headnote to read:

**§310. Investigation of proposed changes in rates of public utilities; ~~suspension pending investigation~~**

**Sec. 3. 35-A MRSA §310, sub-§2**, as enacted by PL 1987, c. 141, Pt. A, §6, is repealed.

**Sec. 4. 35-A MRSA §310, sub-§3**, as amended by PL 2009, c. 237, §1, is further amended to read:

**3. Exception: Municipal and quasi-municipal water utilities and consumer-owned transmission and distribution utilities.** This section and section 307, subsection 3 does not apply to:

A. Municipal or quasi-municipal corporations that are water utilities within the definition of section 102, any provisions in any charter notwithstanding, and that elect to proceed pursuant to the terms of section 6104 or 6104-A, unless by the express terms of section 6104 or 6104-A the provisions of this section are made applicable to those corporations;

A-1. Municipal or quasi-municipal corporations that are water utilities within the definition of section 102, any provisions in any charter notwithstanding, and that file a change in a schedule pursuant to section 307 that changes rates, tolls or charges for service other than the provision of water, only if the cumulative revenue impact of all such changes that become effective within any consecutive 12-month period does not exceed 1% of the utility's total annual revenue; or

B. Consumer-owned transmission and distribution utilities organized in accordance with chapter 35, unless by the express terms of chapter 35 the provisions of this section are made applicable to those districts.

**Sec. 5. 35-A MRSA §707, sub-§3, ¶A**, as enacted by PL 1987, c. 141, Pt. A, §6, is amended to read:

A. Unless the commission disapproves it within 60 days of filing, a contract or arrangement filed with the commission under this section is deemed approved. The commission may, however, suspend the effective date of the contract or arrangement for an additional 60 days if necessary to enable the commission to complete its review of the contract or arrangement or for a longer period by agreement of all the parties or by the commission if the commission determines that the party seeking the extension would be unreasonably disadvantaged because of circumstances beyond that party's control unless the extension were granted, as long as the party prior to the request for extension had prosecuted its case in good faith and with due diligence.

**Sec. 6. 35-A MRSA §708, sub-§2, ¶A**, as amended by PL 2019, c. 353, §2, is further amended to read:

A. Unless exempted by rule or order of the commission, a reorganization may not take place without the approval of the commission. A reorganization may not be approved by the commission unless it is established by the applicant for approval that the reorganization is consistent with the interests of the utility's ratepayers and investors. If a reorganization would result in the transfer of ownership and control of a public utility or the parent company of a public utility, a reorganization may not be approved by the commission unless it is established by the applicant for approval that the reorganization provides net benefits to the utility's ratepayers. The commission shall rule upon all requests for approval of a reorganization within 60 days of the filing of the request for approval. If it determines that the necessary investigation cannot be concluded within 60 days, the commission may extend the period for a further period of no more than 120 days, unless this period is extended either by agreement of all the parties or by the commission upon its determination that the party seeking the extension would be unreasonably disadvantaged because of circumstances beyond that party's control unless the extension were granted, as long as the party prior to the request for the extension had prosecuted its case in good faith and with due diligence. In granting its approval, the commission shall impose such terms, conditions or requirements as, in its judgment, are necessary to protect the interests of ratepayers. These conditions must include provisions that ensure the following:

- (1) That the commission has reasonable access to books, records, documents and other information relating to the utility or any of its affiliates, except that the Public Utilities Commission may not have access to trade secrets unless it is essential to the protection of the interests of ratepayers or investors. The commission shall afford trade secrets and other information such protection from public disclosure as is provided in the Maine Rules of Civil Procedure;
- (2) That the commission has all reasonable powers to detect, identify, review and approve or disapprove all transactions between affiliated interests;
- (3) That the utility's ability to attract capital on reasonable terms, including the maintenance of a reasonable capital structure, is not impaired;
- (4) That the ability of the utility to provide safe, reasonable and adequate service is not impaired;
- (5) That the utility continues to be subject to applicable laws, principles and rules governing the regulation of public utilities;

(6) That the utility's credit is not impaired or adversely affected;

(7) That reasonable limitations be imposed upon the total level of investment in nonutility business, except that the commission may not approve or disapprove of the nature of the nonutility business;

(8) That the commission has reasonable remedial power including, but not limited to, the power, after notice to the utility and all affiliated entities of the issues to be determined and the opportunity for an adjudicatory proceeding, to order divestiture of or by the utility in the event that divestiture is necessary to protect the interest of the utility, ratepayers or investors. A divestiture order must provide a reasonable period within which the divestiture must be completed; and

(9) That neither ratepayers nor investors are adversely affected by the reorganization, and if the reorganization would result in the transfer of ownership and control of a public utility or the parent company of a public utility, that the reorganization provides net benefits to the utility's ratepayers.

**Sec. 7. 35-A MRSA §3132, sub-§2,** as amended by PL 2017, c. 201, §1, is further amended to read:

**2. Construction of transmission line.** Except as otherwise provided in subsection 3-A, whenever any person proposes to erect within this State a transmission line capable of operating at 69 kilovolts or more, that person shall file a petition for the approval of the proposed line in accordance with subsection 2-C. The petition for approval must be set down for public hearing. The commission shall issue its order within ~~9~~ 12 months after the petition is filed unless this period is extended either by agreement of all the parties or by the commission upon its determination that the party seeking the extension would, because of circumstances beyond that party's control, be unreasonably disadvantaged unless the extension were granted, as long as the party to that time had prosecuted its case in good faith and with due diligence.

At the time of filing of a petition for approval of a proposed line under this section, the person filing the petition shall send a copy of the petition by certified mail to the municipal officers of the municipality or municipalities in which the line is to be located.

**CHAPTER 34-E**  
**BATTERY STORAGE SYSTEM DECOMMISSIONING**

**§3498. Definitions**

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

**1. Decommissioning.** "Decommissioning" means the physical removal of all components of a battery storage system development, including but not limited to battery storage modules and associated anchoring systems and foundations to a depth of at least 24 inches or to the depth of bedrock, whichever is less, and other structures, buildings, roads, fences, cables, electrical components or associated facilities and foundations to a depth of at least 24 inches or to the depth of bedrock, whichever is less, to the extent the components of the development are not otherwise in or proposed to be placed in productive use or otherwise authorized to remain in place by the environmental permitting entity.

For any portion of a battery storage system development located on land classified as farmland any time within 5 years preceding the start of construction of the development, "decommissioning" means the physical removal of all such components of the development to a depth of at least 48 inches or to the depth of bedrock, whichever is less, to the extent such components are not otherwise in or proposed to be placed in productive use or otherwise authorized to remain in place by the environmental permitting entity.

"Decommissioning" includes the grading to postconstruction grade and revegetation of all earth disturbed during construction and decommissioning, except for areas already restored.

**2. Battery storage system.** "Battery storage system" means a commercially available technology that uses chemical processes for absorbing energy and storing it for a period of time for use at a later time, including but not limited to lithium-ion batteries.

**3. Environmental permitting entity.** "Environmental permitting entity" means:

A. The Department of Environmental Protection in the case of a battery storage system development:

- (1) Located wholly or partly outside of the unorganized and deorganized areas; or
- (2) Subject to the department's jurisdiction pursuant to Title 38, chapter 3, subchapter 1, article 6; or

B. The Maine Land Use Planning Commission in the case of a battery storage system development located wholly in the unorganized and deorganized

areas and not subject to the jurisdiction of the Department of Environmental Protection pursuant to Title 38, chapter 3, subchapter 1, article 6.

**4. Farmland.** "Farmland" has the same meaning as in Title 36, section 1102, subsection 4.

**5. Transfer of ownership.** "Transfer of ownership" means a change in the legal entity that owns or operates a battery storage system development. A sale or exchange of stock or membership interests or a merger is not a transfer of ownership as long as the legal entity that owns or operates the battery storage system development remains the same.

**6. Unorganized and deorganized areas.** "Unorganized and deorganized areas" has the same meaning as in Title 12, section 682, subsection 1.

**§3499. Decommissioning plan required**

**1. Prohibition.** A person may not construct, cause to be constructed or operate a battery storage system development with a capacity of 2 megawatts or more without first obtaining approval of a decommissioning plan from the environmental permitting entity under this section.

**2. Plan requirements.** A decommissioning plan must provide for the decommissioning of a battery storage system development and include demonstration of current and future financial capacity, which must be unaffected by the owner's or operator's future financial condition, to fully fund decommissioning in accordance with an approved decommissioning plan under this section.

**3. Standards.** An environmental permitting entity shall approve a decommissioning plan whenever it finds the following:

A. The plan, if implemented, will result in successful decommissioning of the battery storage system development, including the restoration of farmland sufficient to support resumption of farming or agricultural activities;

B. The plan provides for the recycling of the waste components of the battery storage system that are recyclable and disposing of the components that are not recyclable at facilities authorized to accept such components;

C. The person identified in the plan as responsible for decommissioning demonstrates financial assurance, in the form of a performance bond, surety bond, irrevocable letter of credit or other form of financial assurance acceptable to the environmental permitting entity, for the total cost of decommissioning, including the cost of recycling the waste components of the battery storage system that are recyclable and disposing of the components that are not recyclable at facilities authorized to accept such components; and

D. The plan requires the financial assurance be updated 15 years after approval of the plan and no less frequently than every 5 years thereafter. Updates to financial assurance required under this paragraph must be submitted to the environmental permitting entity on or before December 31st of the year in which such updates are required.

**4. Applicability.** This section applies to a battery storage system development on which construction begins on or after January 1, 2024. This section does not apply to a battery storage system development on which construction begins prior to January 1, 2024 unless the battery storage system development undergoes a transfer of ownership on or after January 1, 2024 in which case a person may not operate the battery storage system after the transfer of ownership without a decommissioning plan approved by the environmental permitting entity under this section.

Upon a transfer of ownership of a battery storage system development subject to a decommissioning plan approved under this section, a person that transfers ownership of the development remains jointly and severally liable for implementation of the plan until the environmental permitting entity approves transfer of the decommissioning plan to the new owner or operator.

**5. Administration and enforcement; rulemaking.** The Department of Environmental Protection shall administer and enforce this chapter with respect to the decommissioning of battery storage system developments for which it is the environmental permitting entity, subject to the same powers and authorities granted to it pursuant to Title 38, chapter 2, which may include, but are not limited to, the adoption of rules and the establishment of reasonable fees. **§4973. Notification of intent to sell**

Any person, firm or organization that owns or has a controlling interest in any low-income rental housing may not sell, transfer title, prepay a mortgage or take other action in regard to the property that would result in the termination of any income eligibility restrictions, rent restrictions or financial assistance designed to make a rental unit affordable to low-income or moderate-income people without providing notice, as outlined in subsection 1, to the tenants of that property, the Maine State Housing Authority and the, if the property is located in the area of operation of a municipal housing authority, if any, for the municipality in which the property is located the municipal housing authority, as provided in this section.

**1. Notice.** The notice must be made to the tenants, the Maine State Housing Authority and the municipal housing authority, if any, at least 90 days prior to the owner entering into a contract for the sale or transfer or taking ~~other any~~ action in regard to the property ~~that will result in the termination of financial assistance designed to make the rental units affordable to low income or moderate income people described in this section.~~ Failure to provide notice as required by this subsection does not reduce the 90-day period within which the Maine State Housing Authority or the municipal housing authority, if any, may submit, in writing, the intention to pursue the option described in subsection 2.

**2. Right of first refusal Option.** The Maine State Housing Authority or the municipal housing authority, if any, has the ~~right of first refusal~~ option to purchase the property at its current appraised value, as determined by appraisers for the owner and the ~~authority holder~~ that has stated the intention to exercise the option to purchase. This additional 90-day period may be extended by mutual agreement between the authority holder and the owner of the property. The 90-day period and any agreed upon extension beginning on the date the appraised value is determined is automatically extended for any additional time required to obtain

governmental approvals of any sale or transfer transaction and an additional 60 days after receipt of approval. The holder has the right to assign its option to a non-profit corporation upon such terms as the holder may determine, including, but not limited to, requiring the assignee to agree to additional income eligibility restrictions and rental restrictions for a duration as determined by the holder.

A. Nothing in this section prevents an owner of the property from deciding not to sell, transfer or take other action ~~that would result in termination of the financial assistance and revoking the notice required by subsection 1 at any time before its expiration described in this section.~~ The withdrawal or revocation, or failure to close on a sale pursuant to the option within the time provided in this subsection, extinguishes any ~~right of first refusal option~~ held by the ~~Maine State Housing Authority holder~~ or an assignee.

**3. Exceptions.** ~~The Maine State Housing Authority holder may not possess any right of first refusal option when a bona fide buyer, by contract with the seller, agrees to maintain the property as low-income housing without any termination or other modification to the income eligibility restrictions or rental restrictions or financial assistance applicable to the property. **An Act Regarding Clearance for Occupancy Under the Lead Poisoning Control Act**

**Emergency preamble.** **Whereas**, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas**, this Act needs to take effect prior to the expiration of the 90-day period because there is a shortage of housing available in the State, which makes it difficult to find alternative housing for occupants of residential dwelling units that are undergoing lead abatement activities that require the occupants to be displaced from their units; and

**Whereas**, this Act authorizes the Department of Health and Human Services to waive a prohibition on renting an owner-occupied residential building of 3 dwelling units or less that has been ordered to be cleared of harmful lead-based substances and is vacant; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 22 MRSA §1322**, as amended by PL 2023, c. 82, §2, is further amended to read:

**§1322. Child occupants**

A person may not knowingly rent a dwelling that has been posted and ordered cleared of harmful lead-based substances in accordance with section 1321, except when waived by the department in accordance with this section. In circumstances where the presence of lead-based paint or building materials is unsuspected and becomes known when the dwelling is already rented to a family with children, the family of the children may not be evicted for that reason and the owner and occupant of the dwelling must be given written notice by the department advising of the existence of lead-based substances in the dwelling and ordering that within 30 days the lead-based substances be removed, replaced or securely and permanently covered.

Until the owner brings any residential dwelling or premises into compliance with this Act while a tenant is occupying a dwelling unit, the owner shall move the tenant to a substitute dwelling unit upon reasonable notice. The department may, on a case-by-case basis, waive this requirement if the department determines that the implementation of actions to reduce lead exposure or interim controls sufficiently protects the residents of the unit until full abatement is achieved. Pursuant to section 1321, subsection 3-A, the department may order the owner to implement lead exposure reduction actions or interim controls as determined by the department with reasonable notice. The owner shall pay reasonable moving expenses and any use and occupancy charges for a substitute dwelling unit that exceed the rent for the vacated dwelling unit for which the tenant remains responsible. "Substitute dwelling unit" means a dwelling unit of like or similar accommodation and in like or similar location that is lead-safe. If the tenant fails to accept the substitute dwelling unit selected by the owner while the owner is required to bring the vacated dwelling unit into compliance with this Act or the tenant fails to remain current in rent pursuant to the lease or tenancy at will under Title 14, section 6002, including the statutory period of right to cure, the owner is not obligated beyond 10 days after completion of remediation to reimburse the tenant for any expense or inconvenience other than moving expenses and any use and occupancy charges for the substitute dwelling unit selected by the owner that exceed the rent for the vacated dwelling unit.

The department may, on a case-by-case basis, waive the prohibition on renting and permit the owner of an owner-occupied residential dwelling of 3 dwelling units or fewer for which lead-based substances have been ordered to be removed, replaced or securely and permanently covered in accordance with section 1321 to rent a vacant unit or units in that residential dwelling before full abatement of the dwelling is achieved if the department determines that residents may be sufficiently protected from lead-based substances in the dwelling.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

**Whereas**, this legislation extends that moratorium until June 30, 2024; and

**Whereas**, without this legislation taking effect immediately, there will be a period of time when no moratorium is in effect, which is not the intended effect of this legislation; and

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** following the enactment of changes to the waste management laws under Public Law 2021, chapter 626, the operator of the state-owned Juniper Ridge Landfill implemented limitations on the amount of sludge accepted for landfilling and imposed additional and significant transportation and other sludge-management related costs on municipal and quasi-municipal customers; and

**Whereas,** as memorialized in a written pledge dated May 16, 2023 from the operator of the state-owned landfill and provided to the Joint Standing Committee on Environment and Natural Resources, the landfilling of those additional sludge amounts, as facilitated in this legislation, will eliminate the additional transportation and sludge-management related costs the operator has imposed on municipal and quasi-municipal customers as a result of the enactment of Public Law 2021, chapter 626; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 38 MRSA §1310-N, sub-§5-A, ¶B,** as amended by PL 2021, c. 626, §2, is further amended by amending subparagraph (2) to read:

40-A as long as that excess residue is composed of oversized bulky waste and is disposed of or otherwise placed in a state-owned solid waste landfill; and
