

LAWS
OF THE
STATE OF MAINE

CUMULATIVE SUBJECT INDEX
2023 – 2026

PREPARED BY THE OFFICE OF THE REVISOR OF STATUTES AND
PUBLISHED UNDER THE AUSPICES OF THE LEGISLATIVE COUNCIL

Augusta, Maine
2026

PREFACE

The Cumulative Subject Index provides access by subject to *Laws of the State of Maine* for the years 2023 to 2026, encompassing the work of all sessions of the 131st through the 132nd Legislatures. This issue of the Cumulative Subject Index is a companion to all volumes of *Laws of the State of Maine* from 2023 to 2026.

This edition of the Cumulative Subject Index is intended to be a permanent cumulative index for the years 2023 to 2026. A separate permanent Cumulative Subject Index is available for the years 1964 to 1988, the years 1989 to 2006 and the years 2007 to 2022. Some previous editions of the Cumulative Subject Index also contained cumulative cross-reference tables summarizing the changes resulting from enacted laws; these tables have been omitted from this edition as that information is available elsewhere.

The subject index uses a hierarchical structure that includes major, minor and detail subject listings. This hierarchical format guides the user from the general subject to various aspects of that subject. The minor and detail subject listings are designed to narrow the general subject until they focus the user on the topic(s) actually covered in a particular law. There are usually multiple entries for each chaptered law.

In addition to the major, minor and detail subject listings, cross-references provide additional guides to lead users to related information.

- "SEE" references are used to lead users from terms that are not used for indexing to the closest synonym that is an authorized index term (e.g., CARS – SEE MOTOR VEHICLES).
- "SEE ALSO" references direct the user to additional terms that are closely related to a topic (e.g., COLLEGES & UNIVERSITIES – SEE ALSO UNIVERSITY OF MAINE SYSTEM).

The subject index employs several conventions designed to help users to conduct searches efficiently. Because the index has been generated from a computer database, alphabetization is affected. An abbreviated word such as "St" (Saint) is alphabetized as it actually appears rather than as it would if written out in full. In general, the word "Maine" at the beginning of the names of state agencies or acts is either dropped or changed to "State"; however, it is retained in the names of private organizations. Items are indexed using their proper word order, but words such as "Department" and "Commission" appear at the end of the index term even when that is not the natural word order. Finally, the index uses the ampersand (&) instead of "and" and apostrophes are not used.

Note: Because it covers a range of years, the Cumulative Subject Index in some instances uses terminology that has since been determined to be outdated or inappropriate. For historical purposes, this Cumulative Subject Index retains the terminology that was in use by the Legislature at the time a specific annual index was produced.
