The state contribution to the cost of the components of essential programs and services, ~~exclusive of federal funds that are provided and accounted for in the cost of the components of essential programs and services,~~ must be made in accordance with this subsection:

**Sec. CCCC-4. 26 MRSA §1221, sub-§4, ¶B**, as amended by PL 1995, c. 220, §1, is further amended to read:

B. Subject to paragraph A, each employer's contribution rate for the 12-month period commencing January 1st of each year is based upon the employer's experience rating record and determined from the employer's reserve ratio, which is the percent obtained by dividing the amount by which, if any, the employer's contributions credited from the time the employer first or most recently became an employer, whichever date is later, and up to and including June 30th of the preceding year, including any part of the employer's contributions due for that year paid on or before July 31st of that year, exceed the employer's benefits charged during the same period, by the employer's average annual payroll for the 36-consecutive-month period ending June 30th of the preceding year. The employer's contribution rate is the percent shown on the line of the following table on which in column A there is indicated the employer's reserve ratio and under the schedule within which the reserve multiple falls as of September 30th of each year. The following table applies for each 12-month period commencing January 1st of each year as determined by paragraph C. ~~Notwithstanding any other provisions of~~

~~this paragraph, each employer's contribution rate computed and effective as of July 1, 1981, is for the 6-month period ending December 31, 1981.~~

B. Subject to paragraph A, an employer's contribution rate for the 12-month period commencing January 1st of each year is based upon the employer's experience rating record and determined from the employer's reserve ratio. The employer's reserve ratio is the percent obtained by dividing the amount, if any, by which the employer's contributions, credited from the time the employer first or most recently became an employer, whichever date is later, up to and including June 30th of the preceding year, including any part of the employer's contributions due for that year paid on or before July 31st of that year, exceed the employer's benefits charged during the same period, by the employer's average annual payroll for the period of 36 consecutive months ending June 30th of the preceding year. The employer's contribution rate is determined under subparagraphs (1) to (8).

(1) The commissioner shall prepare a schedule listing all employers for whom a reserve ratio has been computed pursuant to this paragraph, in the order of their reserve ratios, beginning with the highest ratio. For each employer, the schedule must show:

- (a) The amount of the employer's reserve ratio;
- (b) The amount of the employer's annual taxable payroll; and
- (c) A cumulative total consisting of the amount of the employer's annual taxable payroll plus the amount of the annual taxable payrolls of all other employers preceding the employer on the list.

(2) The commissioner shall segregate employers into contribution categories in accordance with the cumulative totals under subparagraph (1), division (c). The contribution category is determined by the cumulative payroll percentage limits in column B. Each contribution category is identified by the contribution category number in column A that is opposite the figures in column B, which represent the percentage limits of each contribution category. If an employer's taxable payroll falls in more than one contribution category, the employer must be assigned to the lower-numbered contribution category, except that an employer may not be assigned to a higher contribution category than is assigned any other employer with the same reserve ratio.

Sec. CCCC-5. 26 MRSA §1221, sub-§4-A, ¶B, as amended by PL 2007, c. 352, Pt. A, §2, is further amended to read:

(3-A) Beginning January 1, 2008, the commissioner shall compute a reserve multiple to determine the schedule and planned yield in effect for a rate year. The reserve multiple is determined by dividing the fund reserve ratio by the average benefit cost rate. The determination date is October 31st of each calendar year. The schedule and planned yield that apply for the 12-month period commencing on January 1, 2008 and every January 1st thereafter are shown on the line of the following table that corresponds with the applicable reserve multiple in column A.

(4) The commissioner shall compute the predetermined yield by multiplying the ratio of total wages to taxable wages for the preceding calendar year by the planned yield.

(5) The commissioner shall determine the contribution rates effective for a rate year by multiplying the predetermined yield by the experience factors for each contribution category. Contribution category 20 in the table in subparagraph (2) must be assigned a contribution rate of at least 5.4%. The employer's experience factor is the percentage shown in column C in the table in subparagraph (2) that corresponds with the employer's contribution category in column A, except that the experience factors in column E must be used to determine the contribution rates for rate years 2000 and 2001 and those in column D must be used for rate years 2002 and 2003. Beginning January 1, 2018, for rate years when schedule A is in effect as determined in subparagraph (3-A), the experience factor in subparagraph (2) for contribution category 1 is assigned an experience factor of 0.00 in column C.

(6) If, subsequent to the assignment of contribution rates for a rate year, the reserve ratio of an employer is recomputed and changed, the employer must be placed in the position on the schedule prepared pursuant to subparagraph (1) that the employer would have occupied had the corrected reserve ratio been shown on the schedule. The altered position on the schedule does not affect the position of any other employer.

(7) In computing the contribution rates, only the wages reported by employers liable for payment of contributions into the fund and net benefits paid that are charged to an employer's experience rating record or to the fund are considered in the computation of the average benefit cost rate and the ratio of total wages to taxable wages.

(8) Beginning January 1, 2008, all contribution rates must be reduced by the Competitive Skills Scholarship Fund predetermined yield as defined in section 1166, subsection 1, paragraph C, except that contribution category 20 under this paragraph may not be reduced below 5.4%.

B. The department may use funds, insofar as resources permit, provided under and in accordance with the United States Social Security Act or state funds appropriated for this purpose or a combination of state and federal funds to provide assistance to families under this chapter. In addition to assistance for families described in this subsection, funds must be expended for the following purposes:

(1) To continue the pass-through of the first \$50 per month of current child support collections and the exclusion of the \$50 pass-through from the budget tests and benefit calculations;

(2) To provide financial assistance to non-citizens legally admitted to the United States who are receiving assistance under this subsection as of July 1, 2011. Recipients of assistance under this subparagraph are limited to the categories of noncitizens who would be eligible for the TANF programs but for their status as aliens under PRWORA. Eligibility for the TANF program for these categories of noncitizens must be determined using the criteria applicable to other recipients of assistance from the TANF program. Any household receiving assistance as of July 1, 2011 may continue to receive assistance, as long as that household remains eligible, without regard to interruptions in coverage or gaps in eligibility for service. A noncitizen legally admitted to the United States who is neither receiving assistance on July 1, 2011 nor has an application pending for assistance on July 1, 2011 that is later approved is not eligible for financial assistance through a state-funded program unless that noncitizen is:

(a) Elderly or disabled, as described under the laws governing supplemental security income in 42 United States Code, Sections 1381 to 1383f (2010);

(b) A victim of domestic violence;

(c) Experiencing other hardship, such as time necessary to obtain proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A; or

(d) Unemployed but has obtained proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are

routine technical rules as defined by Title 5, chapter 375, subchapter 2-A;

- (3) To provide benefits to 2-parent families with children using the same eligibility requirements as apply to families headed by a single custodial parent or caretaker relative;
- (4) To provide an assistance program for needy children, 19 to 21 years of age, who are in full-time attendance in secondary school. The program is operated for those individuals who qualify for TANF under the United States Social Security Act, except that they fail to meet the age requirement, and is also operated for the parent or caretaker relative of those individuals. Except for the age requirement, all provisions of TANF, including the standard of need and the amount of assistance, apply to the program established pursuant to this subparagraph;
- (5) To provide assistance for a pregnant woman who is otherwise eligible for assistance under this chapter, except that she has no dependents under 19 years of age. An individual is eligible for the monthly benefit for one eligible person if the medically substantiated expected date of the birth of her child is not more than 90 days following the date the benefit is received;
- (6) To provide a special housing allowance for TANF families whose shelter expenses for rent, mortgage or similar payments, homeowners insurance and property taxes equal or exceed ~~75%~~ 50% of their monthly income. The special housing allowance is limited to \$300 per month for each family. For purposes of this subparagraph, "monthly income" means the total of the TANF monthly benefit and all income countable under the TANF program, plus child support received by the family, excluding the \$50 pass-through payment;
- (7) In determining benefit levels for TANF recipients who have earnings from employment, the department shall disregard from monthly earnings the following:
  - (a) One hundred and eight dollars;
  - (b) Fifty percent of the remaining earnings that are less than the federal poverty level; and
  - (c) All actual child care costs necessary for work, except that the department may limit the child care disregard to \$175 per month per child or \$200 per month per child under 2 years of age or with special needs;

(7-A) In determining eligibility and benefit levels, the department may apply a gross income test only to applicants and not to recipients;

(8) In cases when the TANF recipient has no child care cost, the monthly TANF benefit is the maximum payment level or the difference between the countable earnings and the standard of need established by rule adopted by the department, whichever is lower;

(9) In cases when the TANF recipient has child care costs, the department shall determine a total benefit package, including TANF cash assistance, determined in accordance with subparagraph (7) and additional child care assistance, as provided by rule, necessary to cover the TANF recipient's actual child care costs up to the maximum amount specified in section 3782-A, subsection 5. The benefit amount must be paid as provided in this subparagraph.

(a) Before the first month in which child care assistance is available to an ASPIRE-TANF recipient under this paragraph and periodically thereafter, the department shall notify the recipient of the total benefit package and the following options of the recipient: to receive the total benefit package directly; or to have the department pay the recipient's child care assistance directly to the designated child care provider for the recipient and pay the balance of the total benefit package to the recipient.

(b) If an ASPIRE-TANF recipient notifies the department that the recipient chooses to receive the child care assistance directly, the department shall pay the total benefit package to the recipient.

(c) If an ASPIRE-TANF recipient does not respond or notifies the department of the choice to have the child care assistance paid directly to the child care provider from the total benefit package, the department shall pay the child care assistance directly to the designated child care provider for the recipient. The department shall pay the balance of the total benefit package to the recipient;

(10) Child care assistance under this paragraph must be paid by the department in a prompt manner that permits an ASPIRE-TANF recipient to access child care necessary for work; and

(11) The department shall adopt rules pursuant to Title 5, chapter 375 to implement this

subsection. Rules adopted pursuant to this subparagraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**1. Amount of assistance.** It is the goal of this section to provide low-income families with children sufficient income to meet their most basic needs. If the commissioner determines that unexpended funds are available within the Department of Health and Human Services state or federal ASPIRE or TANF accounts, the commissioner may, by rule, use those funds to increase the maximum levels of assistance in the TANF Program program.

~~A. Beginning October 1, 2001, the department shall use unexpended funds in the TANF program to increase the maximum amount of TANF assistance by an amount equal to 5% of the maximum payments that were in effect on January 1, 2001, and shall increase the standard of need to maintain the same differential between the maximum payment and the standard of need that was in effect on January 1, 2001. Initial applicants for assistance may not become eligible for assistance as a result of any increase in the standard of need required by this paragraph.~~

~~B. Beginning with the 2004 2005 fiscal biennium, the commissioner must continue the 5% benefit increase provided for in paragraph A in the department's current services budget request for the TANF block grant.~~

D. Beginning October 1, 2018 and for each year thereafter, the department shall increase the maximum amount of monthly TANF assistance by an amount equal to the increase, if any, in the cost of living and shall increase the standard of need to maintain the same differential between the maximum payment and the standard of need that was in effect on January 1, 2017. The increase in the cost of living for each year must equal the percentage increase, if any, in the federal supplemental security income program for that year.

Funds provided under this section must be used to supplement funds available under the Low-Income Home Energy Assistance Program administered by the federal Department of Health and Human Services and must be made available to families with children at or below 170% of the federal poverty level that qualify for that program under rules established by the Maine State Housing Authority.

The Maine State Housing Authority may retain what the department determines to be a reasonable administrative fee from the Temporary Assistance for Needy Families block grant for the cost of administering the heating assistance available under this section.

**§3769-F. Working Cars for Working Families Program**

**An Act To Promote Workforce Participation**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas**, employers throughout this State are struggling to hire and retain skilled workers to meet the needs of their businesses; and

**Whereas**, thousands of parents in this State are currently receiving benefits under the Temporary Assistance for Needy Families, TANF, program and are employed or seeking employment; and

**Whereas**, employers are eager to hire TANF recipients, but often see such employees struggle due to the rapid loss of TANF or other benefits after they return to work, the so-called welfare cliff; and

**Whereas**, addressing this welfare cliff will assist employees to remain employed and to establish stable and long-term employment, allowing them to move permanently off of public assistance while meeting the needs of employers in this State; and

**Whereas**, it is imperative that this legislation take effect immediately so that employees are incentivized to remain at work; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 22 MRSA §3762, sub-§3, ¶B**, as amended by PL 2015, c. 267, Pt. RRRR, §2, is further amended to read:

B. The department may use funds, insofar as resources permit, provided under and in accordance with the United States Social Security Act or state funds appropriated for this purpose or a combination of state and federal funds to provide assistance to families under this chapter. In addition to assistance for families described in this subsection, funds must be expended for the following purposes:

- (1) To continue the pass-through of the first \$50 per month of current child support collections and the exclusion of the \$50 pass-through from the budget tests and benefit calculations;
- (2) To provide financial assistance to non-citizens legally admitted to the United States who are receiving assistance under this subsection as of July 1, 2011. Recipients of assistance under this subparagraph are limited to the categories of noncitizens who would be eligible for the TANF programs but for their status as aliens under PRWORA. Eligibility for the TANF program for these categories of noncitizens must be determined using the cri-

teria applicable to other recipients of assistance from the TANF program. Any household receiving assistance as of July 1, 2011 may continue to receive assistance, as long as that household remains eligible, without regard to interruptions in coverage or gaps in eligibility for service. A noncitizen legally admitted to the United States who is neither receiving assistance on July 1, 2011 nor has an application pending for assistance on July 1, 2011 that is later approved is not eligible for financial assistance through a state-funded program unless that noncitizen is:

- (a) Elderly or disabled, as described under the laws governing supplemental security income in 42 United States Code, Sections 1381 to 1383f (2010);
  - (b) A victim of domestic violence;
  - (c) Experiencing other hardship, such as time necessary to obtain proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A; or
  - (d) Unemployed but has obtained proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A;
- (3) To provide benefits to certain 2-parent families whose deprivation is based on physical or mental incapacity;
  - (4) To provide an assistance program for needy children, 19 to 21 years of age, who are in full-time attendance in secondary school. The program is operated for those individuals who qualify for TANF under the United States Social Security Act, except that they fail to meet the age requirement, and is also operated for the parent or caretaker relative of those individuals. Except for the age requirement, all provisions of TANF, including the standard of need and the amount of assistance, apply to the program established pursuant to this subparagraph;
  - (5) To provide assistance for a pregnant woman who is otherwise eligible for assistance under this chapter, except that she has no dependents under 19 years of age. An individual is eligible for the monthly benefit for one eligible person if the medically substantiated expected date of the birth of her child is not more than 90 days following the date the benefit is received;

(6) To provide a special housing allowance for TANF families whose shelter expenses for rent, mortgage or similar payments, homeowners insurance and property taxes equal or exceed 75% of their monthly income. The special housing allowance is limited to \$200 per month for each family. For purposes of this subparagraph, "monthly income" means the total of the TANF monthly benefit and all income countable under the TANF program, plus child support received by the family, excluding the \$50 pass-through payment;

(7) In determining benefit levels for TANF recipients who have earnings from employment, the department shall disregard from monthly earnings the following:

- (a) One hundred and eight dollars;
- (b) Fifty percent of the remaining earnings that are less than the federal poverty level; and
- (c) All actual child care costs necessary for work, except that the department may limit the child care disregard to \$175 per month per child or \$200 per month per child under 2 years of age or with special needs;

(7-A) In determining eligibility and benefit levels, the department may apply a gross income test only to applicants and not to recipients;

(7-B) In addition to the earned income disregards provided in subparagraph (7), a TANF recipient who enters employment must receive a one-time employment incentive payment of \$400 if that TANF recipient retains employment for the subsequent 4 months after entering employment, to be paid at the end of that 4-month period. This subparagraph is repealed December 31, 2018;

(8) In cases when the TANF recipient has no child care cost, the monthly TANF benefit is the maximum payment level or the difference between the countable earnings and the standard of need established by rule adopted by the department, whichever is lower;

(9) In cases when the TANF recipient has child care costs, the department shall determine a total benefit package, including TANF cash assistance, determined in accordance with subparagraph (7) and additional child care assistance, as provided by rule, necessary to cover the TANF recipient's actual child care costs up to the maximum amount specified in section 3782-A, subsection 5.

The benefit amount must be paid as provided in this subparagraph.

(a) Before the first month in which child care assistance is available to an ASPIRE-TANF recipient under this paragraph and periodically thereafter, the department shall notify the recipient of the total benefit package and the following options of the recipient: to receive the total benefit package directly; or to have the department pay the recipient's child care assistance directly to the designated child care provider for the recipient and pay the balance of the total benefit package to the recipient.

(b) If an ASPIRE-TANF recipient notifies the department that the recipient chooses to receive the child care assistance directly, the department shall pay the total benefit package to the recipient.

(c) If an ASPIRE-TANF recipient does not respond or notifies the department of the choice to have the child care assistance paid directly to the child care provider from the total benefit package, the department shall pay the child care assistance directly to the designated child care provider for the recipient. The department shall pay the balance of the total benefit package to the recipient;

(10) Child care assistance under this paragraph must be paid by the department in a prompt manner that permits an ASPIRE-TANF recipient to access child care necessary for work; and

(11) The department shall adopt rules pursuant to Title 5, chapter 375 to implement this subsection. Rules adopted pursuant to this subparagraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

## CHAPTER 294

### H.P. 597 - L.D. 848

#### An Act To Support Law Enforcement Officers and First Responders Diagnosed with Post-traumatic Stress Disorder

**Mandate preamble.** This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, 2/3 of

all of the members elected to each House have determined it necessary to enact this measure.

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 39-A MRSA §201, sub-§3,** as enacted by PL 1991, c. 885, Pt. A, §8 and affected by §§9 to 11, is repealed.

**Sec. 2. 39-A MRSA §201, sub-§3-A** is enacted to read:

**3-A. Mental injury caused by mental stress. Mental injury resulting from work-related stress does not arise out of and in the course of employment unless:**

A. It is demonstrated by clear and convincing evidence that:

(1) The work stress was extraordinary and unusual in comparison to pressures and tensions experienced by the average employee; and

(2) The work stress, and not some other source of stress, was the predominant cause of the mental injury.

The amount of work stress must be measured by objective standards and actual events rather than any misperceptions by the employee; or

B. The employee is a law enforcement officer, firefighter or emergency medical services person and is diagnosed by an allopathic physician or an osteopathic physician licensed under Title 32, chapter 48 or chapter 36, respectively, with a specialization in psychiatry or a psychologist licensed under Title 32, chapter 56 as having post-traumatic stress disorder that resulted from work stress, that the work stress was extraordinary and unusual compared with that experienced by the average employee and the work stress and not some other source of stress was the predominant cause of the post-traumatic stress disorder, in which case the post-traumatic stress disorder is presumed to have arisen out of and in the course of the worker's employment. This presumption may be rebutted by clear and convincing evidence to the contrary. For purposes of this paragraph, "law enforcement officer," "firefighter" and "emergency medical services person" have the same meaning as in section 328-A, subsection 1.

By January 1, 2022, the board shall submit a report to the joint standing committee of the Legislature having jurisdiction over labor matters that includes an analysis of the number of claims brought under this paragraph, the portion of those claims that resulted in a settlement or award of benefits and the effect of the provisions of this paragraph on costs to the State and its subdivi-

sions. The Department of Administrative and Financial Services, Bureau of Human Resources and the Department of Public Safety shall assist the board in developing the report, and the board shall seek the input of an association, the membership of which consists exclusively of counties, municipalities and other political or administrative subdivisions, in the development of the report.

This paragraph is repealed October 1, 2022.

A mental injury is not considered to arise out of and in the course of employment if it results from any disciplinary action, work evaluation, job transfer, layoff, demotion, termination or any similar action, taken in good faith by the employer.

See title page for effective date.

## **§5219-QQ. Credit for major business headquarters expansions**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Certified applicant" means a qualified applicant that has received a certificate of approval from the commissioner pursuant to this section.

B. "Commissioner" means the Commissioner of Economic and Community Development.

E. "Full-time" means an average of 36 hours weekly during the period of measurement.

F. "Headquarters" means the principal facility from which the applicant directs its national or global business activities, as determined by the commissioner at the time of application.

H. "Qualified investment" means an investment of at least \$35,000,000 to design, permit, construct, modify, equip or expand the applicant's headquarters in the State. The investments and activities of a qualified applicant and other entities that are members of the qualified applicant's unitary business must be aggregated to determine whether a qualified investment has been made. A qualified investment does not include an investment made prior to the issuance of a certificate of approval or after December 31, 2022.

**2. Procedures for application; certificate of approval.** The provisions of this subsection govern the procedures for providing for and obtaining a certificate of approval.

A. A qualified applicant may apply to the commissioner for a certificate of approval. An applicant shall submit to the commissioner information demonstrating that the applicant is a qualified applicant. If a certified applicant undertakes to make an additional qualified investment, the certified applicant may apply to the commissioner for an additional certificate of approval.

B. The commissioner, within 30 days of receipt of an application submitted pursuant to paragraph A, shall determine whether the applicant is a qualified applicant and shall issue either a certificate of approval or a written denial indicating why the applicant is not qualified. The certificate issued by the commissioner must describe the qualified investment and specify the total amount of qualified investment approved under the certificate.

C. Upon issuance of a certificate of completion in accordance with paragraph F, the commissioner shall issue, on behalf of the State, a memorandum to the qualified applicant describing the benefits provided by this section at the time the certificate of completion is issued. The memorandum must provide that the certificate of completion does not prohibit the commissioner from revoking a certificate in accordance with paragraph E and does not prohibit the assessor from assessing and collecting an overpaid benefit in accordance with the provisions of this Title.

D. A certified applicant shall obtain approval from the commissioner to transfer the certificate of approval or, if the certified applicant has obtained a certificate of completion, that certificate of completion to another person. A certificate of approval or certificate of completion may be transferred only if all or substantially all of the assets of the certified applicant are, or will be, transferred to that person or if 50% or more of the certified applicant's voting stock is, or will be, acquired by that person. If the commissioner approves the transfer of the certificate, the transferee, from the date of the transfer, must be treated as the certified applicant

and as eligible to claim any remaining benefit under the certificate of approval or the certificate of completion that has not been previously claimed by the transferor as long as the transferee meets the same eligibility requirements and conditions for the credit as applied to the original certified applicant.

E. The commissioner must revoke a certificate of approval if the certified applicant or a person to whom a certificate of approval has been transferred pursuant to paragraph D fails to make a qualified investment within 5 years of the date of the certificate of approval. The commissioner shall revoke a certificate of approval or a certificate of completion if the applicant ceases operations of the headquarters in the State or the certificate of approval or certificate of completion is transferred to another person without approval from the commissioner pursuant to paragraph D. A certified applicant whose certificate of completion is revoked within 5 years after the date issued shall within 60 days following revocation of the certificate return to the State an amount equal to the total credits claimed under this section. A certified applicant whose certificate of completion is revoked during the period from 6 years after through 10 years after the date the certificate was issued shall within 60 days following revocation of the certificate return to the State an amount equal to the total credits claimed under this section for the period from 6 years after through 10 years after the date the certificate was issued.

F. Upon making the qualified investment and completing the headquarters and employment criteria in subsection 1, paragraph H, a certified applicant shall submit an application to the commissioner for a certificate of completion. If the commissioner determines that a qualified investment has been made, the applicant's headquarters is located in the State and at least 25% of the applicant's full-time employees, as measured at the time of application for the certificate of approval, are based in the State, the commissioner shall issue a certificate of completion to the certified applicant as soon as is practical.

The commissioner may not issue certificates of approval under this subsection that total, in the aggregate, more than \$100,000,000 of qualified investment or any individual certificate of approval for more than \$40,000,000 of qualified investment.

**3. Refundable credit allowed.** A qualified applicant is allowed a credit as provided in this subsection.

A. Subject to the limitations under paragraph B, beginning with the tax year during which the certificate of completion is issued or the tax year beginning in 2020, whichever is later, and for each

of the following 19 tax years, a certified applicant is allowed a credit against the tax due under this Part for the taxable year in an amount equal to 2% of the certified applicant's qualified investment. The credit allowed under this paragraph is refundable.

B. The credit under this subsection is limited as follows:

(1) A credit is not allowed for any tax year during which the taxpayer does not meet or exceed the following employment targets as measured on the last day of the tax year.

(a) For each of the first 10 tax years for which the credit is claimed, there must be a total of at least 80 additional full-time employees based in the State whose jobs were added since the first day of the first tax year for which the credit was claimed multiplied by the number of years for which the credit has been claimed.

(b) For each tax year after the 10th tax year for which the credit is claimed, the taxpayer must employ a total of at least 800 additional full-time employees based in the State whose jobs were added since the first day of the first tax year for which the credit was claimed.

Jobs for additional full-time employees that are counted for determining eligibility for the credit under one certificate of completion may not be counted for determining eligibility for the credit under a separate certificate of completion.

(2) Cumulative credits under this subsection may not exceed \$16,000,000 under any one certificate.

**4. Reporting required.** A certified applicant and the commissioner are required to make reports pursuant to this subsection.

A. On or before March 1st of each year, a certified applicant shall file a report with the commissioner for the tax year ending during the immediately preceding calendar year, referred to in this paragraph as "the report year," containing the following information:

(1) The number of full-time employees based in this State of the certified applicant on the last day of the tax year ending during the calendar year immediately preceding the report year; and

(2) The incremental amount of qualified investment made in the report year.

The commissioner may prescribe forms for the annual report described in this paragraph. The

commissioner shall provide copies of the report to the State Tax Assessor and to the joint standing committee of the Legislature having jurisdiction over taxation matters at the time the report is received.

B. By April 1st of each year, the commissioner shall report to the joint standing committee of the Legislature having jurisdiction over taxation matters aggregate data on employment levels and qualified investment amounts of certified applicants for each year, and the State Tax Assessor shall report to the committee the revenue loss during the previous calendar year, including the loss due to refundable credits, as a result of this section for each taxpayer claiming the credit.

Notwithstanding any other provision of law to the contrary, the reports provided under this subsection are public records as defined in Title 1, section 402, subsection 3.

**Sec. 3. Credit design evaluation.** By February 28, 2018, the Office of Program Evaluation and Government Accountability, referred to in this section as "the office," shall complete and submit to the Joint Standing Committee on Taxation and the Government Oversight Committee a tax expenditure design evaluation review of the credit for major business headquarters expansions established under the Maine Revised Statutes, Title 36, section 5219-QQ, referred to in this section as "the tax expenditure." The review must include an assessment of:

1. The extent to which the design of the tax expenditure supports accomplishment of the tax expenditure's purposes, intent and goals;
2. The extent to which the design of the tax expenditure directs benefits to the intended beneficiaries; and
3. The extent to which the State's current or planned administration of the tax expenditure, including enforcement efforts, is efficient and effective.

The office shall include with the review recommended performance measures appropriate for analyzing the evaluation objectives established for full evaluations under Title 3, section 999, subsection 1, paragraph A and make recommendations regarding data that would be necessary to perform the analyses. The Joint Standing Committee on Taxation may submit a bill to the Second Regular Session of the 128th Legislature regarding the credit for major business headquarters expansions.

**Sec. 4. Legislative findings, purpose.** The Legislature finds that it is in the best interest of the people of the State of Maine to encourage the location and expansion of major business headquarters in the State and to encourage the recruitment and training of employees for these facilities. The Legislature further

finds that the location and expansion of major business headquarters in Maine will create jobs, benefit small businesses that supply goods and services to the major business headquarters and its employees, increase the tax base and provide many other direct and indirect economic benefits to the State.

The purpose of this credit is to create high-quality jobs in the State by encouraging major businesses to locate their headquarters in this State or to expand their headquarters in the State.

**CHAPTER 2**

**I.B. 4 - L.D. 1661**

**An Act To Raise the Minimum  
Wage**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 26 MRSA §664, sub-§1**, as amended by PL 2007, c. 640, §4, is further amended to read:

**1. Minimum wage.** The minimum hourly wage is ~~\$6.50 per hour. Starting October 1, 2006, the minimum hourly wage is \$6.75 per hour. Starting October 1, 2007, the minimum hourly wage is \$7.00 per hour. Starting October 1, 2008, the minimum hourly wage is \$7.25 per hour. Starting October 1, 2009, the minimum hourly wage is \$7.50 per hour. Starting January 1, 2017, the minimum hourly wage is \$9.00 per hour; starting January 1, 2018, the minimum hourly wage is \$10.00 per hour; starting January 1, 2019, the minimum hourly wage is \$11.00 per hour; and starting January 1, 2020, the minimum hourly wage is \$12.00 per hour. On January 1, 2021 and each January 1st thereafter, the minimum hourly wage then in effect must be increased by the increase, if any, in the cost of living. The increase in the cost of living must be measured by the percentage increase, if any, as of August of the previous year over the level as of August of the year preceding that year in the Consumer Price Index for Urban Wage Earners and Clerical Workers, CPI-W, for the Northeast Region, or its successor index, as published by the United States Department of Labor, Bureau of Labor Statistics or its successor agency, with the amount of the minimum wage increase rounded to the nearest multiple of 5¢. If the highest federal minimum wage is increased in excess of the minimum wage in effect under this section, the minimum wage under this section is increased to the same amount, effective on the same date as the increase in the federal minimum wage, but in no case may the minimum wage exceed the minimum wage otherwise in effect under this section by more than \$1 per hour and must be increased in accordance with this section thereafter.~~

**Sec. 2. 26 MRSA §664, sub-§2**, as amended by PL 2011, c. 118, §3, is further amended to read:

**2. Tip credit.** An employer may consider tips as part of the wages of a service employee, but such a tip credit may not exceed 50% of the minimum hourly wage established in this section. Starting January 1,

2017, the minimum cash wage paid directly to a tipped service employee may not be less than \$5.00 per hour, and the tip credit may not exceed the difference between the minimum cash wage paid directly to a tipped service employee and the minimum hourly wage established under subsection 1. Starting January 1, 2018, and on each January 1st thereafter, the minimum cash wage paid directly to a tipped service employee must be increased by an additional \$1.00 per hour until it reaches the same amount as the annually adjusted minimum hourly wage established under subsection 1, except that if the minimum cash wage paid directly to a tipped service employee is less than \$1.00 less than the annually adjusted minimum hourly wage, it must be increased by that lesser amount. An employer who elects to use the tip credit, until it is eliminated under this subsection, must inform the affected employee in advance and must be able to show that the employee receives at least the minimum hourly wage when direct wages and the tip credit are combined. Upon a satisfactory showing by the employee or the employee's representative that the actual tips received were less than the tip credit, the employer shall increase the direct wages by the difference.

The tips received by a service employee become the property of the employee and may not be shared with the employer. Tips that are automatically included in the customer's bill or that are charged to a credit card must be treated like tips given to the service employee. A tip that is charged to a credit card must be paid by the employer to the employee by the next regular payday and may not be held while the employer is awaiting reimbursement from a credit card company.

Effective January 7, 2017.

**CHAPTER 3**

**I.B. 2 - L.D. 1557**

**An Act To Establish  
Ranked-choice Voting**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 21-A MRSA §1, sub-§27-C** is enacted to read:

**27-C. Office elected by ranked-choice voting.** "Office elected by ranked-choice voting" means any of the following offices: United States Senator, United States Representative to Congress, Governor, State

Senator and State Representative, and includes any nominations by primary election to such offices.

**Sec. 2. 21-A MRSA §1, sub-§35-A** is enacted to read:

**35-A. Ranked-choice voting.** "Ranked-choice voting" means the method of casting and tabulating votes in which voters rank candidates in order of preference, tabulation proceeds in sequential rounds in which last-place candidates are defeated and the candidate with the most votes in the final round is elected.

**Sec. 3. 21-A MRSA §601, sub-§2, ¶J** is enacted to read:

J. For offices elected by ranked-choice voting, the ballot must be simple and easy to understand and allow a voter to rank candidates for an office in order of preference. A voter may include no more than one write-in candidate among that voter's ranked choices for each office.

**Sec. 4. 21-A MRSA §722, sub-§1**, as amended by PL 2009, c. 253, §36, is further amended to read:

**1. How tabulated.** The Secretary of State shall tabulate all votes that appear by an election return to have been cast for each question or candidate whose name appeared on the ballot. For offices elected by ranked-choice voting, the Secretary of State shall tabulate the votes according to the ranked-choice voting method described in section 723-A. The Secretary of State shall tabulate the votes that appear by an election return to have been cast for a declared write-in candidate and shall tabulate the votes that appear to have been cast for an undeclared write-in candidate based on a recount requested and conducted pursuant to section 737-A, subsection 2-A.

**Sec. 5. 21-A MRSA §723-A** is enacted to read:

**§723-A. Determination of winner in election for an office elected by ranked-choice voting**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Batch elimination" means the simultaneous defeat of multiple candidates for whom it is mathematically impossible to be elected.

B. "Continuing ballot" means a ballot that is not an exhausted ballot.

C. "Continuing candidate" means a candidate who has not been defeated.

D. "Exhausted ballot" means a ballot that does not rank any continuing candidate, contains an overvote at the highest continuing ranking or contains 2 or more sequential skipped rankings before its highest continuing ranking.

E. "Highest continuing ranking" means the highest ranking on a voter's ballot for a continuing candidate.

F. "Last-place candidate" means the candidate with the fewest votes in a round of the ranked-choice voting tabulation.

G. "Mathematically impossible to be elected," with respect to a candidate, means either:

(1) The candidate cannot be elected because the candidate's vote total in a round of the ranked-choice voting tabulation plus all votes that could possibly be transferred to the candidate in future rounds from candidates with fewer votes or an equal number of votes would not be enough to surpass the candidate with the next-higher vote total in the round;  
or

(2) The candidate has a lower vote total than a candidate described in subparagraph (1).

H. "Overvote" means a circumstance in which a voter has ranked more than one candidate at the same ranking.

I. "Ranking" means the number assigned on a ballot by a voter to a candidate to express the voter's preference for that candidate. Ranking number one is the highest ranking, ranking number 2 is the next-highest ranking and so on.

J. "Round" means an instance of the sequence of voting tabulation steps established in subsection 2.

K. "Skipped ranking" means a circumstance in which a voter has left a ranking blank and ranks a candidate at a subsequent ranking.

**2. Procedures.** Except as provided in subsections 3 and 4, the following procedures are used to determine the winner in an election for an office elected by ranked-choice voting. Tabulation must proceed in rounds. In each round, the number of votes for each continuing candidate must be counted. Each continuing ballot counts as one vote for its highest-ranked continuing candidate for that round. Exhausted ballots are not counted for any continuing candidate. The round then ends with one of the following 2 potential outcomes.

A. If there are 2 or fewer continuing candidates, the candidate with the most votes is declared the winner of the election.

B. If there are more than 2 continuing candidates, the last-place candidate is defeated and a new round begins.

**3. Ties.** A tie under this section between candidates for the most votes in the final round or a tie between last-place candidates in any round must be decided by lot, and the candidate chosen by lot is de-

feated. The result of the tie resolution must be recorded and reused in the event of a recount. Election officials may resolve prospective ties between candidates before the election.

**4. Modification of ranked-choice voting ballot and tabulation.** Modification of a ranked-choice voting ballot and tabulation is permitted in accordance with the following.

A. The number of allowable rankings may be limited to no fewer than 6.

B. Two or more candidates may be defeated simultaneously by batch elimination in any round of tabulation.

**5. Effect on rights of political parties.** For all statutory and constitutional provisions in the State pertaining to the rights of political parties, the number of votes cast for a party's candidate for an office elected by ranked-choice voting is the number of votes credited to that candidate after the initial counting in the first round described in subsection 2.

**6. Application.** This section applies to elections held on or after January 1, 2018.

**Sec. 6. Application.** This Act applies to elections held on or after January 1, 2018.

Effective January 7, 2017.

**2. Revenue; 30-day review before changing use of fund.** The Treasurer of State shall deposit all revenue collected pursuant to Title 36, section 5111, subsection 6 from the income tax surcharge to advance public kindergarten to grade 12 education into the fund according to the schedule in Title 36, section 5111, subsection 6. Any private or public funds appropriated, allocated or dedicated to the fund must be depos-

ited into the fund as well as income from any other source directed to the fund. All interest earned by the fund becomes part of the fund. Legislation that proposes to enact or amend a law that would change the distribution of the revenue directed to the fund by this subsection or by Title 36, section 5111, subsection 6 must be submitted to the Legislative Council and to the joint standing committee of the Legislature having jurisdiction over education matters at least 30 days prior to any vote or public hearing on that legislation.

**3. Use of fund to supplement and not supplant General Fund appropriations; direct support for student learning.** The use of the fund is controlled by this subsection. The fund may not be used for any purpose other than as described in this subsection.

A. If the General Fund appropriation for the state contribution for general purpose aid for local schools as finally enacted in any year is insufficient to meet the annual target established by section 15752, the commissioner shall use the fund to supplement the state contribution. These supplemental funds must be used to enable the State to meet the annual target established by section 15752 or to decrease the amount by which state funding from all other sources falls short of the target. The commissioner shall announce the increased state contribution amounts made possible by the supplemental amounts obtained from the fund within 14 days after final enactment of the General Fund appropriation for general purpose aid for local schools. The commissioner shall distribute the increased state contribution amounts on the basis of the essential programs and services formula set forth in this chapter.

B. The fund may be used only to pay for portions of the state contribution that constitute direct support for student learning and not for the costs of administration. As used in this paragraph, "direct support for student learning" includes salary and benefit costs paid for public school classroom teachers; special teachers of reading or mathematics; literacy specialists; career technical education teachers; education technicians; associate teachers; assistant teachers; special education technicians I, II or III; guidance staff; health staff; librarians; and media assistants as documented in the department's database. Direct support for student learning does not include salary and benefit costs paid for school administrative staff or clerical staff. By July 1st annually each school administrative unit must file a report to the department detailing how the funding provided by this section was used to provide direct support for student learning in this chapter.

C. The fund may be used for the necessary expenses of the department in the administration of the fund.

**4. Report.** Annually by January 15th, the department shall submit a report to the joint standing committee of the Legislature having jurisdiction over education matters showing the amounts deposited into and disbursed from the fund and detailing how those disbursements increased the state contribution and enabled the State to meet or come closer to meeting the applicable annual targets specified in section 15752. The department shall post the report on its publicly accessible website.

**5. Rule of construction.** This section must be liberally construed to increase the amount of funding available for public kindergarten to grade 12 education above the General Fund appropriation for that year to the greatest extent possible in any year.

**Sec. 2. 36 MRSA §5111, sub-§6** is enacted to read:

**6. Income tax surcharge to advance public kindergarten to grade 12 education.** An income tax surcharge to advance public kindergarten to grade 12 education, referred to in this subsection as "the surcharge," is established and administered as follows.

A. For tax years beginning on or after January 1, 2017, in addition to any other tax imposed by this chapter, a tax at the rate of 3% is imposed on that portion of the taxpayer's Maine taxable income in excess of \$200,000.

B. One hundred percent of the revenue from the surcharge must be deposited each year into the Fund to Advance Public Kindergarten to Grade 12 Education established in Title 20-A, section 15697 in accordance with this paragraph.

(1) Prior to January 1st of each year, the bureau shall estimate the annual revenue to be collected from the surcharge for the immediately following calendar year.

(2) On the first of each month, beginning on January 1, 2018, the Treasurer of State shall deposit 8.333% of the estimated annual total revenue from the surcharge into the Fund to Advance Public Kindergarten to Grade 12 Education.

(3) The bureau may adjust the monthly transfer amount once annually to account for any difference between the estimated collection and actual collection.

C. The surcharge must be imposed and collected regardless of whether the income tax brackets in this section are changed, replaced or eliminated by an act of the Legislature or by a measure approved by voters pursuant to the Constitution of Maine, Article IV, Part Third, Section 18.

Effective January 10, 2017.

These rules are major substantive rules pursuant to Title 5, chapter 375, subchapter 2-A. Rules must address but are not limited to the following issues:

These products must be documented and properly destroyed.

**3. THC potency.** Testing must verify THC potency representations for correct labeling.

The establishment of an independent testing and certification program does not affect the adoption of rules in section 2444 or affect the implementation of cultivation, production and sale of retail marijuana and retail marijuana products.

D. Rules adopted pursuant to this subsection are routine technical rules, pursuant to Title 5, chapter 375, subchapter 2-A.

**§2447. License application and issuance**

An application for a license under the provisions of this chapter must be made to the state licensing authority on forms prepared and furnished by the state licensing authority and must set forth such information as the state licensing authority may require to enable the state licensing authority to determine whether a license should be granted. The information must include the name and address of the applicant and the

names and addresses of the applicant's officers, directors or managers. Each application must be verified by the oath or affirmation of such person or persons as the state licensing authority may prescribe. The state licensing authority may issue a license to an applicant pursuant to this section upon completion of the applicable criminal history record check associated with the application. The license is conditioned upon municipal approval. An applicant is prohibited from operating a retail marijuana establishment or retail marijuana social club without state licensing authority and municipal approval. If the applicant does not receive municipal approval within one year from the date of state licensing authority approval, the license expires and may not be renewed. If an application is not approved by the municipality, the state licensing authority shall revoke the license.

**1. Qualifications.** The following provisions govern the qualifications for licensure as a retail marijuana establishment or retail marijuana social club. A person is not qualified to conduct licensed activities until the required annual fee has been paid.

A. An applicant who is a natural person must be at least 21 years of age. If an applicant is a corporation, all members of the board must comply with this paragraph.

B. A person who has been convicted of a disqualifying drug offense may not be a licensee. For purposes of this paragraph, "disqualifying drug offense" means a conviction for a violation of a state or federal controlled substance law that is a crime punishable by imprisonment for 5 years or more. "Disqualifying drug offense" does not include an offense for which the sentence, including any term of probation, incarceration or supervised release, was completed 10 or more years prior to application for licensure or an offense that consisted of conduct that is permitted under this chapter.

C. A person who has had a license for a retail marijuana establishment or retail marijuana social club revoked may not be a licensee.

D. A sheriff, deputy sheriff, police officer, prosecuting officer or an officer or employee of the state licensing authority or a municipality is ineligible to become a licensee.

E. The state licensing authority shall investigate all applicants for compliance with this chapter prior to issuing a license.

F. First priority for licensure must be given to registered caregivers who have been continuously registered with the Department of Health and Human Services pursuant to the Maine Medical Use of Marijuana Act or who have experience serving as a principal officer or board member of a nonprofit medical dispensary registered with the

Department of Health and Human Services pursuant to the Maine Medical Use of Marijuana Act. If an applicant, either a business entity or an individual, owns, has a financial interest in or controls the management of more than one dispensary in this State, that applicant may receive preference for only one license in each license class. As long as there are other preferred applicants for any or all license classes an applicant who owns, has a financial interest in or controls the management of more than one dispensary in this State is not eligible for multiple licenses in any class. Preference must be given to an applicant who has at least 3 medical marijuana caregiver registrations when determining which applicants receive licenses.

G. The state licensing authority shall accept applications from registered caregivers and principal officers or board members of registered dispensaries who have continuously registered with the Department of Health and Human Services pursuant to the Maine Medical Use of Marijuana Act.

H. The state licensing authority shall adopt rules, which are major substantive rules pursuant to Title 5, chapter 375, subchapter 2-A, for a streamlined application process for registered caregivers and principal officers or board members of dispensaries registered with the Department of Health and Human Services pursuant to the Maine Medical Use of Marijuana Act, which must include an initial site inspection confirming compliance with this chapter.

**2. Investigation of qualifications.** In investigating the qualifications of an applicant or a licensee, the state licensing authority and municipality may have access to criminal history record information furnished by a law enforcement agency subject to any restrictions imposed by that agency. In the event the state licensing authority or municipality considers the applicant's criminal history record, the state licensing authority or municipality shall also consider any information provided by the applicant regarding such criminal history record, including, but not limited to, evidence of rehabilitation, character references and educational achievements, especially those items pertaining to the time between the applicant's last criminal conviction and the consideration of the application for a license.

At the time of filing an application for issuance of a retail marijuana establishment or retail marijuana social club license, an applicant shall submit a set of the applicant's fingerprints and personal history information concerning the applicant's qualifications for a license on forms prepared by the state licensing authority. The state licensing authority shall submit the fingerprints and the municipality may forward fingerprints to the State Bureau of Investigation for criminal history background information. The state licensing

authority shall also forward the fingerprints to the Federal Bureau of Investigation for the purpose of conducting a federal fingerprint-based criminal history record check. The state licensing authority may acquire a name-based criminal history record check for an applicant or a licensee who has twice submitted to a fingerprint-based criminal history record check and whose fingerprints are unclassifiable. An applicant who has previously submitted fingerprints for state licensing purposes may request that the fingerprints on file be used. The state licensing authority shall use the information resulting from the fingerprint-based criminal history record check to investigate and determine whether an applicant is qualified to hold a license pursuant to this chapter. The state licensing authority or municipality may verify any of the information an applicant is required to submit.

**3. Applications; issuance.** The following provisions govern applications for and issuance of a retail marijuana establishment or retail marijuana social club license.

A. An applicant shall file an application in the form required by the state licensing authority for the type of license sought, along with the application fee as set by the state licensing authority.

B. An applicant may apply for and be granted more than one type of license except that a person licensed as a retail marijuana testing facility may not hold any other retail marijuana establishment license. Registered caregivers and registered dispensaries who have held a registration in good standing for 2 years by the date of the application must be given priority in the granting of licenses for a retail marijuana cultivation facility, retail marijuana products manufacturing facility or retail marijuana store license. The state licensing authority shall begin accepting and processing applications by 30 days after the adoption of rules under section 2444, subsection 2. If after 90 days those applications do not meet the maximum square footage allotment set by this chapter, the state licensing authority may begin accepting and processing applications by all other qualified applicants.

C. The state licensing authority shall issue or renew a license to operate a retail marijuana establishment or retail marijuana social club to an applicant who meets the requirements of the state licensing authority, which must include a review of the site plan, operating plan and relevant experience in the marijuana industry in this State, as set forth in rule, within 90 days of the date of receipt of the application unless:

(1) The state licensing authority finds the applicant is not in compliance with this section or rules adopted by the state licensing authority;

(2) The state licensing authority is notified by the relevant municipality that the applicant is not in compliance with an ordinance, rule or regulation in effect at the time of application; or

(3) The number of retail marijuana establishments or retail marijuana social clubs allowed in the municipality has been limited pursuant to local ordinance or is limited by subsection 7 and the state licensing authority has already licensed the maximum number of retail marijuana establishments or retail marijuana social clubs allowed in the municipality for the class of license that is sought.

D. The following provisions govern the situation when more than one application is received by the state licensing authority for establishment of a retail marijuana establishment or retail marijuana social club in the same municipality.

(1) If a greater number of applications are received from qualified applicants to operate a retail marijuana store in a municipality than are allowed under the limits enacted by that municipality pursuant to subsection 4, the state licensing authority shall solicit and consider input from the municipality as to the municipality's preferences for licensure. Within 180 days of the date the first application is received, the state licensing authority shall issue the maximum number of applicable licenses.

(2) In any competitive application process to determine which applicants receive licenses for any class of license, the state licensing authority shall give first preference to an applicant who has at least 2 years of previous experience cultivating marijuana in compliance with Title 22, section 2423 and who has been continuously registered with the Department of Health and Human Services pursuant to the Maine Medical Use of Marijuana Act. Preference must be given to an applicant who has 3 medical marijuana caregiver registrations when determining which applicants receive licenses.

E. The state licensing authority may not grant a license for a retail marijuana establishment to a licensee who has already received a license to operate the same type of retail marijuana establishment if doing so would prevent another qualified applicant from receiving a license. The state licensing authority may not grant a license for a retail marijuana social club to a licensee who has already received a license to operate a retail marijuana social club if doing so would prevent another qualified applicant from receiving a license.

**4. Limitation on number of retail marijuana stores.** The state licensing authority may not limit the total number of retail marijuana stores in this State. A municipality may regulate the number of retail marijuana stores and the location and operation of retail marijuana establishments and retail marijuana social clubs and may prohibit the operation of retail marijuana establishments and retail marijuana social clubs within its jurisdiction.

**5. Limitations on retail marijuana cultivation.** The state licensing authority may establish limitations upon retail marijuana cultivation through one or more of the following methods:

A. Placing or modifying a limit on the number of licenses that it issues, by class or overall, but in placing or modifying the limits, the state licensing authority shall consider the reasonable availability of new licenses after a limit is placed or modified; and

B. Placing or modifying a limit on the amount of production permitted by a retail marijuana cultivation facility license or class of licenses based upon some reasonable metric or set of metrics, including, but not limited to, previous months' sales, pending sales or other reasonable metric as determined by the state licensing authority.

**6. Limitation on retail marijuana cultivation facility size.** The amount of space approved for marijuana cultivation at retail marijuana cultivation facilities is limited to 800,000 square feet of plant canopy, unless the state licensing authority determines that a greater amount may be needed to ensure an adequate supply to meet demand for various strains of marijuana throughout the State. An applicant must designate on the applicant's operating plan the size category of the licensed premises and the amount of actual square footage in the applicant's licensed premises that will be designated as plant canopy.

The state licensing authority shall license 2 types of retail marijuana cultivation facilities, those with 3,000 square feet or less of plant canopy and those with more than 3,000 square feet of plant canopy. The state licensing authority shall license marijuana cultivation at retail marijuana cultivation facilities by unit blocks of 10 feet by 10 feet, or 100 square feet, of plant canopy, with 40% of all licenses issued going to licensees of 30 unit blocks or less. The maximum amount of unit blocks allowed to a single licensee is 300.

An applicant who applies for a retail marijuana cultivation facility license for a facility with more than 3,000 square feet of plant canopy but is not licensed by the state licensing authority may be considered for a license for a facility with 3,000 square feet or less of plant canopy.

No more than 6 retail marijuana cultivation facilities or more than 300 unit blocks of plant canopy may be located on the same parcel of property.

The state licensing authority may reduce the number of unit blocks a retail marijuana cultivation facility is authorized to cultivate if 50% or fewer of the unit blocks a facility is authorized to cultivate are not used by the end of the first year of operation.

**7. Restrictions on applications for licenses.** The state licensing authority may not approve an application for the issuance of a license pursuant to this chapter:

A. If the application for the license concerns a location that is the same as or within 1,000 feet of a location for which, within the 2 years immediately preceding the date of the application, the state licensing authority denied an application for the same class of license due to the nature of the use or other concern related to the location; or

B. Until it is established that the applicant is in or will be entitled to possession of the licensed premises for which application is made under a lease, rental agreement or other arrangement for possession of the premises or by virtue of ownership of the premises.

#### **§2448. Classes of licenses; license provisions**

**1. State licensing authority may issue license.** For the purpose of regulating the cultivation, manufacture, distribution, sale and testing of retail marijuana and retail marijuana products, the state licensing authority, in its discretion, upon receipt of an application in the prescribed form, may issue and grant to the applicant a license from one or more of the following classes, subject to the provisions and restrictions provided by this chapter:

A. Retail marijuana store license;

B. Retail marijuana cultivation facility license;

C. Retail marijuana products manufacturing facility license;

D. Retail marijuana testing facility license;

E. Retail marijuana social club license; and

F. Occupational licenses and registrations for owners, managers, operators, employees, contractors and other support staff employed at, working in or having access to restricted access areas of the licensed premises, as determined by the state licensing authority.

**2. Licensee to collect tax.** A retail marijuana store licensee or retail marijuana social club licensee shall collect sales tax on all retail sales made at a retail marijuana store or retail marijuana social club, respectively.

**3. Retail marijuana store license.** The following provisions govern a retail marijuana store.

A. A licensed retail marijuana store may sell only retail marijuana, retail marijuana products, marijuana accessories, nonconsumable products such as apparel and marijuana-related products such as child-resistant containers, but is prohibited from selling or giving away any consumable product, including but not limited to cigarettes, alcohol and edible products that do not contain marijuana, including but not limited to sodas, candies and baked goods. Automatic dispensing machines that contain retail marijuana and retail marijuana products are prohibited.

B. A retail marijuana store licensee shall track all of its retail marijuana and retail marijuana products from the point at which they are transferred from a retail marijuana cultivation facility or retail marijuana products manufacturing facility to the point of sale.

All retail marijuana and retail marijuana products sold at a licensed retail marijuana store must be packaged and labeled as required by rules of the state licensing authority and pursuant to section 2446, subsection 1. Notwithstanding the provisions of this section, a retail marijuana store licensee may also sell retail marijuana products that are prepackaged and labeled as required by rules of the state licensing authority and pursuant to section 2446, subsection 1.

C. A person must be 21 years of age or older to make a purchase in a retail marijuana store.

(1) Prior to initiating a sale, the employee of the retail marijuana store making the sale shall verify that the purchaser has a valid government-issued identification card, or other acceptable identification, showing that the purchaser is 21 years of age or older. If a person under 21 years of age presents a fraudulent proof of age, any action relying on the fraudulent proof of age may not be grounds for the revocation or suspension of any license issued under this chapter.

(2) The state licensing authority shall adopt rules, which are routine technical rules as described in Title 5, chapter 375, subchapter 2-A, to prohibit certain signs, marketing and advertising, including but not limited to a prohibition on mass-market campaigns that have a high likelihood of reaching persons under 21 years of age.

These rules may include:

(a) A prohibition on health or physical benefit claims in advertising, merchandising and packaging;

(b) A prohibition on unsolicited advertising on the Internet;

(c) A prohibition on opt-in marketing that does not permit an easy and permanent opt-out feature; and

(d) A prohibition on marketing directed toward location-based devices, including but not limited to cellular phones, unless the marketing is a mobile device application installed on the device by the owner of the device who is 21 years of age or older and includes a permanent and easy opt-out feature.

(3) A magazine whose primary focus is marijuana or marijuana businesses may be sold only in a retail marijuana store or behind the counter in an establishment where persons under 21 years of age are present.

(4) A retail marijuana product may not contain an additive designed to make the product more appealing to children.

(5) Notwithstanding any other provision of state law, sales of retail marijuana and retail marijuana products are not exempt from state sales tax.

(6) Nothing in this chapter may be construed to limit a law enforcement agency's ability to investigate unlawful activity in relation to a retail marijuana establishment or retail marijuana social club. A law enforcement agency may run a Maine criminal history record check of a licensee, or employee of a licensee, during an investigation of unlawful activity related to retail marijuana and retail marijuana products.

D. Retail marijuana and retail marijuana products may be transported between a licensed retail marijuana store and retail marijuana stores, retail marijuana cultivation facilities, retail marijuana products manufacturing facilities, retail marijuana social clubs and retail marijuana testing facilities.

**4. Retail marijuana cultivation facility license.** The state licensing authority shall create a statewide licensure class system for retail marijuana cultivation facilities.

A. The following provisions govern retail marijuana cultivation facilities.

(1) A retail marijuana cultivation facility licensee is permitted to cultivate retail marijuana for sale and distribution only to licensed retail marijuana stores, retail marijuana products manufacturing facilities, other retail marijuana cultivation facilities or retail marijuana social clubs.

(2) A retail marijuana cultivation facility may have a retail marijuana store if it is located on the same licensed premises as the retail marijuana cultivation facility. If the retail marijuana cultivation facility chooses the option to have a retail marijuana store it must meet all requirements set by the state licensing authority and municipality in which it is located. A retail marijuana store located on the licensed premises of a retail marijuana cultivation facility does not count against any municipal limits on the number of retail marijuana stores.

(3) A retail marijuana cultivation facility shall track the marijuana it cultivates from seed or immature plant to wholesale purchase. The state licensing authority may not make rules that are unreasonably impracticable concerning the tracking of marijuana from seed or immature plant to wholesale purchase.

(4) A retail marijuana cultivation facility may provide, except as required by subsection 6, a sample of its products to a retail marijuana testing facility for testing and research purposes. A retail marijuana cultivation facility shall maintain a record of what was provided to the retail marijuana testing facility, the identity of the retail marijuana testing facility and the testing results.

B. Retail marijuana may be transported between a licensed retail marijuana cultivation facility and retail marijuana stores, other retail marijuana cultivation facilities, retail marijuana products manufacturing facilities, retail marijuana social clubs and retail marijuana testing facilities.

**5. Retail marijuana products manufacturing facility license.** The following provisions govern retail marijuana products manufacturing facilities and the preparation of retail marijuana products.

A. The following provisions govern retail marijuana products manufacturing facilities.

(1) A retail marijuana products manufacturing facility licensee is permitted to manufacture retail marijuana products pursuant to the terms and conditions of this chapter.

(2) A retail marijuana products manufacturing facility may cultivate its own retail marijuana if it obtains a retail marijuana cultivation facility license, or it may purchase retail marijuana from a licensed retail marijuana cultivation facility. A retail marijuana products manufacturing facility licensee shall track all of its retail marijuana from the point it is either transferred from its retail marijuana cultivation facility or the point when it

is delivered to the retail marijuana products manufacturing facility from a licensed retail marijuana cultivation facility to the point of transfer to a licensed retail marijuana store, retail marijuana social club or retail marijuana testing facility.

B. A retail marijuana products manufacturing facility licensee may not:

(1) Add any marijuana to a food product if the manufacturer of the food product holds a trademark to the food product's name, except that a retail marijuana products manufacturing facility licensee may use a trademarked food product if the licensee uses the product as a component or as part of a recipe and if the licensee does not state or advertise to the consumer that the final retail marijuana product contains a trademarked food product;

(2) Intentionally or knowingly label or package a retail marijuana product in a manner that would cause a reasonable consumer confusion as to whether the retail marijuana product was a trademarked food product;

(3) Label or package a product in a manner that violates any federal trademark law or regulation; or

(4) Include harmful additives in any retail marijuana product, including, but not limited to, those that are toxic, designed to make the product more addictive and designed to make the product more appealing to children or misleading to consumers, but not including common baking and cooking items.

C. The following provisions govern the preparation of retail marijuana products.

(1) Retail marijuana products must be prepared on licensed premises that are used exclusively for the manufacture and preparation of retail marijuana or retail marijuana products and prepared using equipment that is used exclusively for the manufacture and preparation of retail marijuana and retail marijuana products.

(2) All licensed premises in which retail marijuana products are manufactured must meet the sanitary standards for retail marijuana product preparation adopted pursuant to section 2446, subsection 2 and must be licensed as commercial kitchens by the Department of Health and Human Services.

(3) Retail marijuana products must be packaged, sealed and conspicuously labeled in compliance with this chapter and any rules adopted pursuant to this chapter.

(4) A retail marijuana products manufacturing facility licensee may provide a sample of the licensee's products to a licensed retail marijuana testing facility pursuant to subsection 6 for testing and research purposes. A retail marijuana products manufacturing facility licensee shall maintain a record of what was provided to the retail marijuana testing facility, the identity of the testing facility and the results of the testing.

(5) A retail marijuana products manufacturing facility licensee may list ingredients and compatibility with dietary practices on an edible retail marijuana product.

(6) All retail marijuana products that require refrigeration to prevent spoilage must be stored and transported in a refrigerated environment.

D. Nothing in this chapter may be construed to limit a law enforcement agency's ability to investigate unlawful activity in relation to a retail marijuana establishment. A law enforcement agency may run a Maine criminal history record check of a licensee, or employee of a licensee, during an investigation of unlawful activity related to retail marijuana and retail marijuana products.

E. Retail marijuana products may be transported between a licensed retail marijuana products manufacturing facility and retail marijuana stores, other retail marijuana products manufacturing facilities, retail marijuana social clubs and retail marijuana testing facilities.

**6. Retail marijuana testing facility license.** A retail marijuana testing facility license may be issued to a person who performs testing and research on retail marijuana. The facility may develop and test retail marijuana products.

The state licensing authority shall adopt rules pursuant to its authority in section 2445 related to acceptable testing and research practices, including but not limited to testing, standards, quality control analysis, equipment certification and calibration, chemical identification and other practices used in bona fide research methods.

A. A person that has an interest in a retail marijuana testing facility license from the state licensing authority for testing purposes may not have any interest in a registered dispensary, a registered caregiver, a licensed retail marijuana store, a licensed retail marijuana social club, a licensed retail marijuana cultivation facility or a licensed retail marijuana products manufacturing facility. A person that has an interest in a registered dispensary, a registered caregiver, a licensed retail marijuana store, a licensed retail marijuana social club, a licensed retail marijuana cultivation facility or a

licensed retail marijuana products manufacturing facility may not have an interest in a facility that has a retail marijuana testing facility license. For purposes of this paragraph, "interest" includes an ownership interest or partial ownership interest or any other type of financial interest, such as being an investor or serving in a management position.

B. Retail marijuana and retail marijuana products may be transported between the licensed retail marijuana testing facility and retail marijuana cultivation facilities, retail marijuana products manufacturing facilities, retail marijuana stores and retail marijuana social clubs.

**7. Retail marijuana social club license.** The following provisions govern retail marijuana social clubs.

A. A licensed retail marijuana social club may sell only retail marijuana, retail marijuana products, marijuana accessories, nonconsumable products such as apparel, marijuana-related products and edible products that do not contain marijuana, including but not limited to sodas, candies and baked goods, but may not sell or give away cigarettes or alcohol. All retail marijuana and retail marijuana products purchased at a licensed retail marijuana social club must be consumed or disposed of on and may not be taken off the licensed premises.

B. A retail marijuana social club shall track all of its retail marijuana and retail marijuana products from the point at which they are transferred from a retail marijuana cultivation facility, retail marijuana store or retail marijuana products manufacturing facility to the point of sale.

C. The following provisions govern procedures for preventing sales to persons under 21 years of age.

(1) Prior to allowing a person onto the retail marijuana social club's licensed premises, an employee of the retail marijuana social club shall verify that the person has a valid government-issued identification card, or other acceptable identification, showing that the person is 21 years of age or older. If a person under 21 years of age presents a fraudulent proof of age, any action relying on the fraudulent proof of age may not be grounds for the revocation or suspension of any license issued under this chapter.

(2) The state licensing authority shall adopt rules, which are routine technical rules as described in Title 5, chapter 375, subchapter 2-A, to prohibit certain signs, marketing and advertising, including but not limited to a prohibition on mass-market campaigns that

have a high likelihood of reaching persons under 21 years of age.

These rules may include:

(a) A prohibition on health or physical benefit claims in advertising, merchandising and packaging;

(b) A prohibition on unsolicited advertising on the Internet;

(c) A prohibition on opt-in marketing that does not permit an easy and permanent opt-out feature; and

(d) A prohibition on marketing directed toward location-based devices, including but not limited to cellular phones, unless the marketing is a mobile device application installed on the device by the owner of the device who is 21 years of age or older and includes a permanent and easy opt-out feature.

(3) Notwithstanding any other provision of state law, sales of retail marijuana and retail marijuana products are not exempt from state sales tax.

(4) Nothing in this chapter may be construed to limit a law enforcement agency's ability to investigate unlawful activity in relation to a retail marijuana establishment. A law enforcement agency may run a Maine criminal history record check of a licensee, or employee of a licensee, during an investigation of unlawful activity related to retail marijuana and retail marijuana products.

D. Retail marijuana and retail marijuana products may be transported between a licensed retail marijuana social club and other retail marijuana social clubs or retail marijuana testing facilities.

**8. Inspection of books and records.** Each licensee shall keep a complete set of all records necessary to show fully the business transactions of the licensee, all of which must be open at all times during business hours for the inspection and examination by the state licensing authority or its duly authorized representatives. The state licensing authority may require any licensee to furnish such information as it considers necessary for the proper administration of this chapter and may require an audit to be made of the books of account and records on such occasions as it may consider necessary by an auditor to be selected by the state licensing authority. The auditor must have access to all books and records of the licensee, and the cost of the audit must be paid by the licensee.

The licensed premises, including any places of storage, where retail marijuana or retail marijuana products are stored, cultivated, sold, dispensed or tested are

subject to inspection by the State or the municipality in which the licensed premises are located and by the investigators of the State or municipality during all business hours and other times of apparent activity for the purpose of inspection or investigation. Access must be granted during business hours for examination of any inventory or books and records required to be kept by a licensee. When any part of the licensed premises consists of a locked area, upon demand to the licensee this area must be made available for inspection, and, upon request by authorized representatives of the State or municipality, the licensee shall open the area for inspection.

Each licensee shall retain all books and records necessary to show fully the business transactions of the licensee for a period comprising the current tax year and the 2 immediately preceding tax years.

**9. Product pricing.** Nothing in this chapter may be construed as granting to the state licensing authority the power to fix prices for retail marijuana or retail marijuana products.

**10. License fees.** The state licensing authority shall determine the revenue needed to set up the licensing and enforcement operations of the department and set the fees applicable to the categories as outlined in subsection 1 within the ranges specified in the following schedule:

A. Retail marijuana store license, \$250 to \$2,500, with a \$10 to \$250 nonrefundable application fee;

B. Retail marijuana cultivation facility license, \$10 to \$100 per unit block, with a \$10 to \$250 nonrefundable application fee;

C. Retail marijuana products manufacturing facility license, \$100 to \$1,000, with a \$10 to \$250 nonrefundable application fee;

D. Retail marijuana testing facility license, \$500, with a \$10 to \$250 nonrefundable application fee;

E. Retail marijuana social club license, \$250 to \$2,500, with a \$10 to \$250 nonrefundable application fee; and

F. Occupational licenses and registrations for owners, managers, operators, employees, contractors and other support staff employed at, working in or having access to restricted access areas of the licensed premises, as determined by the state licensing authority.

**11. License terms.** All licenses under this chapter are effective for one year from the date of issuance.

**12. License renewal.** The following provisions govern license renewals.

A. Ninety days prior to the expiration date of an existing license, the state licensing authority shall notify the licensee of the expiration date by first

class mail at the licensee's address of record with the state licensing authority. A licensee may apply for the renewal of an existing license to the state licensing authority not less than 30 days prior to the date of expiration. Upon receipt of an application for renewal of an existing license and any applicable fees, the state licensing authority shall, within 7 days, submit a copy of the application to the appropriate municipality to determine whether the application complies with all local restrictions on renewal of licenses.

B. The state licensing authority may not accept an application for renewal of a license after the date of expiration, except that the state licensing authority may extend the expiration date of the license and accept a late application for renewal of a license as long as the applicant has filed a timely renewal application with the municipality. The state licensing authority or the municipality, in its discretion, subject to the requirements of section 2447 and based upon reasonable grounds, may waive the 30-day time requirements set forth in this subsection.

C. Notwithstanding the provisions of paragraph A, a licensee whose license has been expired for not more than 90 days may file a late renewal application upon the payment of a nonrefundable late application fee of \$250 to the state licensing authority. A licensee who files a late renewal application and pays the requisite fees may continue to operate until the state licensing authority takes final action to approve or deny the licensee's late renewal application unless the state licensing authority summarily suspends the license pursuant to subsection 16, this chapter and rules adopted pursuant to this chapter.

D. The state licensing authority may administratively extend the expiration date of a license and accept a later application for renewal of a license at the discretion of the state licensing authority.

E. The state licensing authority may, for good cause, elect to not renew a license.

13. Inactive licenses. The state licensing authority, in its discretion, may revoke or elect not to renew any license if it determines that the licensed premises have been inactive, without good cause, for at least one year.

14. Unlawful financial assistance. The state licensing authority shall require a complete disclosure of all persons having a direct or indirect financial interest, and the extent of such interest, in each license issued under this chapter. This subsection is intended to prohibit and prevent the control of a retail marijuana store, retail marijuana cultivation facility, retail marijuana products manufacturing facility or retail marijuana social club by a person or party other than the

persons licensed pursuant to the provisions of this chapter.

15. Denial of license. The state licensing authority may, for good cause, deny approval of a license application. Upon denial of a license application, the state licensing authority shall inform the applicant of the basis for denial and the right to appeal the denial in a hearing.

16. Disciplinary actions. In addition to any other sanctions prescribed by this chapter, or rules adopted pursuant to this chapter, the state licensing authority has the power, on its own motion or on complaint, after investigation and opportunity for a public hearing at which the licensee must be afforded an opportunity to be heard, to fine a licensee or to suspend or revoke a license issued by the state licensing authority for a violation by the licensee, or by any of the agents or employees of the licensee, of the provisions of this chapter or any of the rules adopted pursuant to this chapter or of any of the terms, conditions or provisions of the license issued by the state licensing authority. The state licensing authority has the power to administer oaths and issue subpoenas to require the presence of persons and the production of papers, books and records necessary for a hearing that the state licensing authority is authorized to conduct.

The state licensing authority shall provide notice of suspension, revocation, fine or other sanction, as well as the required notice of the hearing required by this subsection, by mailing the same in writing to the licensee at the address contained in the license and, if different, at the last address furnished to the state licensing authority by the licensee. Except in the case of a summary suspension, a suspension may not be for a period longer than 6 months. If a license is suspended or revoked, a part of the fees paid must be retained by the state licensing authority.

Whenever a decision of the state licensing authority suspending a license for 14 days or less becomes final, the licensee may, before the operative date of the suspension, petition for permission to pay a fine in lieu of having the license suspended for all or part of the suspension period. Upon the receipt of the petition, the state licensing authority may, in its sole discretion, stay the proposed suspension and cause any investigation to be made that it considers desirable and may, in its sole discretion, grant the petition if the state licensing authority is satisfied that:

A. The public welfare would not be impaired by permitting the licensee to operate during the period set for suspension and that the payment of the fine will achieve the desired disciplinary purposes; and

B. The books and records of the licensee are kept in such a manner that the loss of sales that the licensee would have suffered had the suspension

gone into effect can be determined with reasonable accuracy.

The fine imposed may not be less than \$500 nor more than \$10,000. Payment of a fine pursuant to the provisions of this subsection must be in the form of cash or in the form of a certified check or cashier's check made payable to the state licensing authority.

Upon payment of the fine pursuant to this subsection, the state licensing authority shall enter its order permanently staying the imposition of the suspension. Fines paid to the state licensing authority pursuant to this subsection must be transmitted to the Treasurer of State.

In connection with a petition pursuant to this subsection, the authority of the state licensing authority is limited to the granting of such stays as are necessary for the state licensing authority to complete its investigation and make its findings and, if the state licensing authority makes such findings, to the granting of an order permanently staying the imposition of the entire suspension or that portion of the suspension not otherwise conditionally stayed.

If the state licensing authority does not make the findings required in this subsection and does not order the suspension permanently stayed, the suspension goes into effect on the operative date finally set by the state licensing authority.

No later than January 15th of each year, the state licensing authority shall compile a report of the preceding year's actions in which fines, suspensions or revocations were imposed by the state licensing authority. The state licensing authority shall include this information in its annual report to the Legislature.

**17. Disposition of unauthorized retail marijuana or retail marijuana products and related materials.** The following provisions apply to the disposition of unauthorized retail marijuana or retail marijuana products and related materials.

A. The provisions of this subsection apply in addition to any criminal, civil or administrative penalties and in addition to any other penalties prescribed by this chapter or any rules adopted pursuant to this chapter. Every licensee is deemed, by virtue of applying for, holding or renewing that licensee's license, to have expressly consented to the procedures set forth in this subsection.

B. If the state licensing authority issues a final agency order imposing a disciplinary action against a licensee pursuant to subsection 16, then, in addition to any other remedies, the state licensing authority's final agency order may specify that some or all of the licensee's marijuana or marijuana products is not retail marijuana or a retail marijuana product and is an illegal controlled substance. The order may further specify that the li-

censee loses any ownership interest in any of the marijuana or marijuana products even if the marijuana or marijuana products previously qualified as retail marijuana or a retail marijuana product. The final agency order may direct the destruction of any such marijuana and marijuana products. The authorized destruction may include the incidental destruction of any containers, equipment, supplies and other property associated with the marijuana or marijuana products.

C. A district attorney, or an assistant attorney general, shall notify the state licensing authority if an investigation of a retail marijuana establishment or retail marijuana social club is commenced. If the state licensing authority has received notification from a district attorney, or an assistant attorney general, that an investigation is being conducted, the state licensing authority may not destroy any marijuana or marijuana products from the retail marijuana establishment or retail marijuana social club until the destruction is approved by the district attorney or assistant attorney general.

D. A state or local agency may not be required to cultivate or care for any retail marijuana or retail marijuana products belonging to or seized from a licensee. A state or local agency is not authorized to sell marijuana, retail or otherwise.

**18. Judicial review.** Final agency actions by the state licensing authority are subject to judicial review pursuant to Title 5, section 11001, et seq.

#### **§2449. Local licensing**

**1. Municipality may regulate retail marijuana establishments and retail marijuana social clubs.** A municipality may regulate the location and operation of retail marijuana establishments and retail marijuana social clubs pursuant to Title 30-A, chapter 187, subchapter 3. A municipality may adopt and enforce regulations for retail marijuana establishments and retail marijuana social clubs that are at least as restrictive as the provisions of this chapter and any rule adopted pursuant to this chapter. Nothing in this chapter prohibits the registered voters of a municipality from calling for a vote on any regulations adopted by a municipal legislative body.

**2. Municipal approval required.** A retail marijuana establishment or retail marijuana social club may not operate until it is licensed by the state licensing authority pursuant to this chapter and approved by the municipality in which it is located. If an application is denied by the municipality, the licensee has 90 days to locate and obtain legal interest in another property in a municipality that approves of the retail marijuana establishment or retail marijuana social club before the license is revoked.

**3. Notice and portion of fee must be given to municipality.** When the state licensing authority receives an application for original licensing, or renewal of an existing license, for any retail marijuana establishment or retail marijuana social club, the state licensing authority shall, within 7 business days, provide a copy of the application and 50% of the licensing fee to the municipality in which the establishment or club is to be located. The municipality shall determine whether the application complies with the local land use ordinance and any other restrictions on time, place, manner and the number of marijuana businesses within the municipality. The municipality shall inform the state licensing authority whether the application complies with the local land use ordinance and other local restrictions.

**4. Municipality may impose licensing requirement.** A municipality may impose a separate local licensing requirement as a part of its restrictions on time, place, manner and the number of marijuana businesses. A municipality may decline to impose any local licensing requirements, but a municipality shall notify the state licensing authority that it either approves or denies each application forwarded to it within 14 business days.

**5. Public hearing notice.** The following provisions govern local public hearings and notice.

A. If a municipality issues local licenses for a retail marijuana establishment or retail marijuana social club, a public hearing on the application may be scheduled. If the municipality schedules such a hearing, it shall post and publish public notice of the hearing not less than 10 days prior to the hearing. The municipality shall give public notice by posting a sign in a conspicuous place on the premises identified in a local license application and by publication in a newspaper of general circulation in the county in which the premises are located.

B. If a municipality does not issue local licenses, the municipality may give public notice of the state application by posting a sign in a conspicuous place on the premises identified in the application and by publication in a newspaper of general circulation in the county in which the premises are located.

#### **§2450. Transfer of ownership**

A license granted under the provisions of this chapter is not transferable except as provided in this section, but this section does not prevent a change of location as provided in section 2451, subsection 7.

For a transfer of ownership, a licensee shall apply to the state licensing authority on forms prepared and furnished by the state licensing authority. Upon receipt of an application for transfer of ownership, the state licensing authority shall, within 7 days, submit a

copy of the application to the appropriate municipality to determine whether the transfer complies with any local restriction on transfer of ownership. In determining whether to permit a transfer of ownership, the state licensing authority shall consider only the requirements of this chapter, any rules adopted by the state licensing authority and any other local restrictions. The municipality may hold a hearing on the application for transfer of ownership. The municipality may not hold a hearing pursuant to this section until the municipality has posted a notice of hearing in the manner described in section 2449, subsection 5 on the licensed premises for a period of 10 days and has provided notice of the hearing to the applicant at least 10 days prior to the hearing. Any transfer of ownership hearing by the state licensing authority must be held in compliance with the requirements specified for a municipality in this section.

#### **§2451. Licensing in general**

The following provisions govern licensing in general.

**1. Notice of new owner, officer, manager or employee.** A retail marijuana establishment or retail marijuana social club shall notify the state licensing authority in writing of the name, address and date of birth of an owner, officer, manager or employee before the new owner, officer, manager or employee begins managing, owning or associating with the establishment or club. The owner, officer, manager or employee must pass a fingerprint-based criminal history record check as required by the state licensing authority and obtain the required identification card prior to being associated with, managing, owning or working at the establishment or club.

**2. Each license separate.** Each license issued under this chapter is separate and distinct. A person may not exercise any of the privileges granted under a license other than the license that the person holds and a licensee may not allow any other person to exercise the privileges granted under the licensee's license. A separate license is required for each specific business or business entity and each geographical location.

**3. Licensee to maintain possession of premises.** At all times, a licensee shall possess and maintain possession of the licensed premises identified in the license by ownership, lease, rental or other arrangement for possession of the premises.

**5. Computation of time.** In computing any time prescribed by this chapter, the day of the act, event or default from which the designated time begins to run

is not included. Saturdays, Sundays and legal holidays are counted as any other day except that any documents due to be submitted to state or local government on a date that falls on a Saturday, Sunday or legal holiday are due on the next business day.

**6. Licensee to report transfer of interest.** A licensee shall report each transfer or change of financial interest in the license to the state licensing authority and appropriate municipality and receive approval prior to any transfer or change pursuant to section 2450.

**7. Relocation of licensed premises.** A licensee may move the permanent location of licensed premises to any other place in this State once permission to do so is granted by the state licensing authority and municipality where the retail marijuana establishment or retail marijuana social club proposes to relocate. Upon receipt of an application for change of location, the state licensing authority shall, within 7 days, submit a copy of the application to the municipality to determine whether the transfer complies with all local restrictions on change of location. In permitting a change of location, the municipality where the retail marijuana establishment or retail marijuana social club proposes to relocate shall consider all reasonable restrictions that are or may be placed upon the new location by the governing board of the municipality. Any such change in location must be in accordance with all requirements of this chapter and rules adopted pursuant to this chapter.

#### **§2452. Personal use of marijuana**

**1. Person 21 years of age or older.** A person 21 years of age or older may:

A. Use, possess or transport marijuana accessories and up to 2 1/2 ounces of prepared marijuana;

**3. Legible tag on each marijuana plant.** A person 21 years of age or older must have a legible tag on each marijuana plant. The tag must include at least the person's name and Maine driver's license number or Maine identification number.

**4. Exemptions.** The following exemptions apply.

A. Marijuana cultivation for medical use is not considered cultivation for personal use under this chapter and is governed by Title 22, section 2423-A.

B. This section does not apply to cultivation by a registered dispensary licensed pursuant to Title 22, section 2428.

**5. Use.** A person may consume marijuana in a nonpublic place including a private residence.

A. The prohibitions and limitations on smoking tobacco products in specified areas in Title 22, chapters 262 and 263 apply to smoking marijuana.

B. A person who smokes marijuana in a public place other than as governed by Title 22, chapters 262 and 263 commits a civil violation for which a fine of not more than \$100 may be adjudged.

F. Violate the provisions of section 2450 or abandon the licensed premises or otherwise cease operation without notifying the state licensing authority and appropriate municipality at least 48 hours in advance and without accounting for and forfeiting to the state licensing authority for destruction all marijuana and products containing marijuana.

## **§2454. Construction**

**1. Relation to the Maine Medical Use of Marijuana Act.** This chapter may not be construed to limit any privileges or rights of a qualifying patient, primary caregiver, registered or otherwise, or registered dispensary under the Maine Medical Use of Marijuana Act.

**2. Employment policies.** This chapter may not be construed to require an employer to permit or accommodate the use, consumption, possession, trade, display, transportation, sale or growing of cannabis in the workplace. This chapter does not affect the ability of employers to enact and enforce workplace policies restricting the use of marijuana by employees or to discipline employees who are under the influence of marijuana in the workplace.

**3. School, employer or landlord may not discriminate.** A school, employer or landlord may not refuse to enroll or employ or lease to or otherwise penalize a person 21 years of age or older solely for that person's consuming marijuana outside of the school's, employer's or landlord's property.

**4. Person may not be denied parental rights and responsibilities or contact with a minor child.** A person may not be denied parental rights and responsibilities with respect to or contact with a minor child as a result of acting in accordance with this chapter, unless the person's conduct is contrary to the best interest of the minor child as set out in Title 19-A, section 1653, subsection 3.

If 15 days or more after the passage of this order a majority of but not all appointments have been made, the chairs may request authority and the Legislative Council may grant authority for the task force to meet and conduct its business.

**5. Duties; design options.** The task force shall propose at least 3 design options, including implementation plans, for creating a system of health care that ensures all residents of the State have access to and coverage for affordable, quality health care. The design options must meet the principles and goals outlined in this order. The proposals designed under this order must contain the analysis and recommendations as provided for in this section.

A. The proposal must include the following design options:

(1) A design for a government-administered and publicly financed universal payer health benefits system that is decoupled from employment, that prohibits insurance coverage for the health services provided by the system and that allows for private insurance coverage of only supplemental health services;

(2) A design for a universal health benefits system with integrated delivery of health care and integrated payment systems for all individuals that is centrally administered by State Government or an entity under contract with State Government; and

(3) A design for a public health benefits option administered by State Government or an entity under contract with State Government that allows individuals to choose between the public option and private insurance coverage and allows for fair and robust competition among public and private plans.

Additional options may be designed by the task force, taking into consideration the parameters described in this section.

Each design option must include sufficient detail to allow the task force to report back to the Legislature to enable the Legislature to consider the adoption of one design and to determine an implementation plan for that design during the First Regular Session of the 129th Legislature, including the submission of any necessary waivers pursuant to federal law.

B. In creating the design options under paragraph A, the task force shall review and consider the following fundamental elements:

(1) The findings and reports from previous studies of health care reform in the State, including the December 2002 document titled "Feasibility of a Single-Payer Health Care Model for the State of Maine" produced by Mathematica Policy Research, Inc., and studies and reports provided to the Legislature;

(2) The State's current health care reform efforts;

(3) The health care reform efforts in other states, including any efforts in other states to develop state innovation waivers for universal health coverage plans as an alternative to the

federal Patient Protection and Affordable Care Act;

(4) The federal Patient Protection and Affordable Care Act or any other successor federal legislation; the federal Employee Retirement Income Security Act of 1974, as amended; and the Medicare program, the Medicaid program and the State Children's Health Insurance Program under Titles XVIII, XIX and XXI, respectively, of the federal Social Security Act; and

(5) The health care systems adopted in other countries.

C. Each design option under paragraph A must maximize federal funds to support the system and must be composed of the following components:

(1) A payment system for health services that includes one or more packages of health services providing for the integration of physical and mental health services; budgets, payment methods and a process for determining payment amounts; and mechanisms for cost reduction and cost containment;

(2) Coordinated regional delivery systems;

(3) Health system planning and regulation and public health;

(4) Financing and estimated costs, including federal financing. Each design option must provide:

(a) An estimate of the total costs of the design option, including any additional costs for providing access to and coverage for health services to the uninsured and underinsured, any estimated costs necessary to build a new system and any estimated savings from implementing a single system;

(b) Financing proposals for sustainable revenue, including by maximization of federal revenues or by reductions from existing health care programs, services, state agencies or other sources necessary for funding the cost of the new system;

(c) A proposal to the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services to waive provisions of Titles XVIII,

XIX and XXI of the federal Social Security Act, if necessary, to align the federal programs with the proposals contained within the design option in order to maximize federal funds or to promote the simplification of administration, cost containment or promotion of health care reform initiatives; and

(d) A proposal to the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services to waive provisions of the federal Patient Protection and Affordable Care Act, if necessary, to implement the proposals contained within the design option in order to maximize federal funds;

(5) A method to address compliance of the proposed design option with federal law. Unless specifically authorized by federal law, the proposed design option must provide coverage supplemental to coverage available under the Medicare program of the federal Social Security Act, Title XVIII and the federal TRICARE program, 10 United States Code, Chapter 55;

(6) A benefit package or packages of health services that meet the requirements of state and federal law and provide for the integration of physical and mental health care, including access to and coverage for primary care, preventive care and wellness services; specialty care; chronic care and chronic disease management; acute episodic care; palliative and end-of-life care; hospital services; prescription drugs and durable medical equipment; maternity, newborn and pediatric care; laboratory services; mental health and substance use disorder services; and dental, vision and health care;

(7) A method for administering payment for health services, which may include administration by a government agency, under an open bidding process soliciting bids from insurance carriers or 3rd-party administrators, through a private nonprofit insurer or 3rd-party administrator, through private insurers or from a combination of methods;

(8) Enrollment processes;

(9) Integration of pharmacy best practices and cost control programs and other mechanisms to promote evidence-based prescribing, clinical efficacy and cost containment, such as a single statewide preferred drug list, prescriber education and utilization reviews;

(10) Appeals processes for decisions made by entities or agencies administering coverage for health services;

(11) Integration of the workers' compensation system;

(12) A recommendation for budgets and payment methods and a process for determining payment amounts. Payment methods for mental health services must be consistent with mental health parity. The design option must consider:

(a) Recommending a global health care budget when it is appropriate to ensure cost containment by a health care facility, a health care provider, a group of health care professionals or any combination of these entities. Any recommendation must include a process for developing a global health care budget, including circumstances under which an entity may seek an amendment of its budget;

(b) Payment methods to be used for each health care sector that are aligned with the goals of this section and provide for cost containment, provision of high-quality, evidence-based health services in a coordinated setting, patient self-management and healthy lifestyles; and

(c) What process or processes are appropriate for determining payment amounts with the intent to ensure reasonable payments to health care professionals and providers and to eliminate the shift of costs between the payers of health services by ensuring that the amount paid to health care professionals and providers is sufficient. Payment amounts must be sufficient to provide reasonable access to health services, provide uniform payments to health care professionals and assist in creating financial stability for health care professionals. Payment amounts for mental health

services must be consistent with mental health parity;

(13) Mechanisms for cost reduction and cost containment and for oversight to ensure accountability and transparency of all financial transactions;

(14) A regional health system that ensures that the delivery of health services to the residents of the State is coordinated in order to improve health outcomes, improve the efficiency of the health system and improve patients' experiences of health services; and

(15) An overall approach to funding that is broadly based to ensure financial stability.

D. The proposal must include a method to address compliance of the proposed design options under paragraph A with federal law, if necessary, including the federal Patient Protection and Affordable Care Act or any other successor federal legislation; the federal Employee Retirement Income Security Act of 1974, as amended; and Titles XVIII, XIX and XXI of the federal Social Security Act.

E. The proposal must include an analysis of:

(1) The impact of each design option on the State's current private and public insurance system;

(2) The expected net fiscal impact of each design option;

(3) The impact of each design option on the State's economy;

(4) The benefits and drawbacks of alternative timing for the implementation of each design option, including the sequence and rationale for the phasing in of the major components; and

(5) The benefits and drawbacks of each design option and of not changing the current system.

**H.P. 1120**

**WE**, your Memorialists, the Members of the One Hundred and Twenty-eighth Legislature of the State of Maine now assembled in the First Regular Session, most respectfully present and petition the United States Congress as follows:

**WHEREAS**, the value of marine resources commercially harvested in Maine exceeded \$700 million in 2016, and the value of lobster harvested in Maine accounts for over \$533 million of that amount; and

**WHEREAS**, total exports from Maine to the European Union exceeded \$503 million in 2016; and

**WHEREAS**, exports from Maine of lobster to the European Union totaled approximately \$158 million, or approximately 80% of all lobster exported from the United States to the European Union, in 2016; and

**WHEREAS**, the European Union is the largest global fish and seafood market in the world; and

**WHEREAS**, Maine and Canada share the same lobster species and compete for market share in the European Union and around the world; and

**WHEREAS**, the European Union imposes tariffs on fish and seafood products that range from 2% on certain types of salmon to 20% on processed lobster imported from both the United States and Canada; and

**WHEREAS**, the Comprehensive Economic and Trade Agreement, or CETA, is a free trade agreement between Canada and the European Union that will reduce tariffs on fish and seafood products exported from Canada to the European Union; and

**WHEREAS**, CETA will go into effect on the first day of the month following the date the European Union and Canada notify each other that each has completed all necessary procedures for implementation; and

**WHEREAS**, when CETA takes effect, the 8% tariff on live lobster exports from Canada to the European Union will be immediately eliminated, the 6% to 16% tariff on frozen lobster exports from Canada to the European Union will be eliminated over 3 years and the 20% tariff on processed lobster exports from Canada to the European Union will be eliminated over 5 years; and

**WHEREAS**, while tariffs on lobster and seafood products exported from Canada to the European Union are being eliminated, tariffs on Maine and other domestic lobster and seafood products exported to the European Union will remain; and

**WHEREAS**, the elimination of tariffs on Canadian lobster and seafood products will increase trade between Canada and the European Union, resulting in economic injury to Maine and other domestic lobster and seafood harvesters and processors; and

**WHEREAS**, the impact of CETA on Maine lobster harvesters, who landed over 130 million pounds of lobster in 2016, should be minimized; and

**WHEREAS**, the impact of CETA on Maine lobster dealers, who support 675 jobs and paid \$28.4 million in wages in 2016, should be minimized; and

**WHEREAS**, under the United States Constitution, Article I, the Congress of the United States has the power to regulate commerce with foreign nations; now, therefore, be it

**RESOLVED:** That We, your Memorialists, on behalf of the people we represent, take this opportunity to respectfully request that the United States Congress, under the provisions of Article I of the United States Constitution, negotiate to reduce tariffs on Maine and domestic lobster and seafood products, or otherwise mitigate the effects of CETA, to ensure that historical, lucrative industries are not damaged by the economic disadvantage that will result from CETA unless these negotiations are undertaken; and be it further

**RESOLVED:** That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the President of the United States Senate, to the Speaker of the United States House of

**STATE OF THE STATE ADDRESS  
OF  
GOVERNOR PAUL R. LEPAGE  
FEBRUARY 7, 2017**

---

---

Members of the 128th Legislature, distinguished guests, and my fellow citizens:

Let me begin by first recognizing a few individuals. To my lovely wife Ann and my children—please stand—I would not be here tonight without you. Ann, you have made Maine proud as our First Lady.

Allison Salsbury of Bar Harbor is here tonight with her daughter, Kathy. She is an elderly widow, and she knows about the hardships Mainers are facing.

To Technical Sergeant Christopher Ludden, the military herald this evening, thank you for your courageous service to our state and nation.

Ann and I are so grateful to all of our military and their families for their service.

I'm here tonight to speak to the Maine people about the future of our state. Our economy and our way of life are under attack.

Older Mainers who have worked their entire lives are losing their homes because of tax or utility bills—and many local governments condone it. Sadly, Maine Municipal Association defends it.

The taxes Mainers have paid all their lives fund the organization that throws them on the street. It has to stop. We must protect our elderly!

We must also protect younger Mainers. Our families are losing good-paying jobs. It's all because of a faulty ideology.

Maine was once renowned for its rugged individualism. Liberals are now trying to transform our state into a socialist utopia.

Utopia is an ideology—no amount of taxpayers' money can make it a reality.

We have made great strides in shrinking state government, but liberals continue to provide all things to all people free. "Free" is very expensive to someone.

As Franklin D. Roosevelt said during his Annual Message to Congress in 1935:

"The lessons of history, confirmed by the evidence immediately before me, show conclusively that continued dependence upon relief induces a spiritual and moral disintegration fundamentally destructive to the national fiber.

"To dole out relief in this way is to administer a narcotic, a subtle destroyer of the human spirit. It is inimical to the dictates of sound policy. It is in violation of the traditions of America."

It was true in 1935, and it is true in 2017. Liberals have not learned from history. They have just changed tactics. They are doing an end run around the Legislature by highjacking the citizens' referendum process.

They say they are helping low-income Mainers by raising the minimum wage and taxing the so-called "rich." But they are harming our economy. We are losing doctors, dentists, psychiatrists and other professionals we so badly need. They are harming small family businesses. They are harming low-income workers. Even worse, they are harming our elderly.

Successful people are not the problem; they are the solution. They create jobs.

They pay the most in sales, excise, income and property taxes. They already pay two-thirds of the tax burden in Maine.

Taxing them out of Maine does not help our economy—it harms it.

It is harmful to lay off employees. It is harmful to put your local restaurant out of business. It is harmful to drive our elderly deeper into poverty.

Liberals from Southern Maine never go to Calais or Machias or Rumford or Fort Kent. But I do. I see the elderly living in poverty.

## STATE OF THE STATE ADDRESS

I see how Maine families are struggling. Our industries are laying off hard-working Mainers or leaving the state.

Madison Paper, Verso in Bucksport, Verso in Jay, Lincoln Pulp and Paper, Millinocket and East Millinocket and Old Town—just to name a few.

We need to help our families, not harm them. My budget has a theme: Do No Harm. I am asking you to join me—Do No Harm! Our citizens voted to raise the minimum wage. They also voted to “tax the rich.” I get it. But they did not read the legislation behind the ballot questions. They didn’t know it would destroy our fragile economy.

We reduced the unfunded pension liability. We improved our credit rating. We paid the hospitals!

We built the Budget Stabilization Fund from nearly zero to \$123 million. It could have been \$300 million, if we had the will to be just a bit more fiscally responsible.

We reduced the structural gap from \$1.2 billion to \$165 million. For the first time since 2005, we had positive cash flow at the end of the fiscal year.

We have lowered the income tax from 8.5 percent to 7.15 percent. During this period, revenues started to increase. Wow, imagine that—signs of prosperity.

Under my administration, Maine has been moving forward. To paraphrase Ronald Reagan: Free enterprise has done more to reduce poverty than all the government programs dreamed up by liberals.

Liberals are making the Legislature irrelevant and going straight to referendum. We need to reform our referendum process.

**TAX REFORM** Rich, out-of-state unions and progressive groups are moving us backwards. They spent millions to hit us with the second-highest income tax in the country.

California’s highest tax rate kicks in at \$1 million of income. Maine’s starts at \$200,000 household income. California is a wealthy state.

It is 18th on the Family Prosperity Index—Maine is 44th. We cannot afford this tax.

## SELECTED ADDRESSES TO THE LEGISLATURE

We must help Maine families achieve prosperity—not shatter their American Dreams with high taxation, high energy costs and an underperforming education system.

Eliminating the income tax is the biggest pay raise Mainers could get—but there is no political will to promote prosperity in Augusta.

My budget counteracts the damage from the 10.15 percent income tax. It is designed to do no harm.

By 2020, Maine’s income tax will be set at 5.75 percent for all Maine families. We must keep lowering the income tax until it is gone!

My budget lowers corporate taxes, broadens the sales tax and eliminates the death tax. The non-partisan Tax Foundation called my tax plan “a recipe for a more competitive state.”

It cuts taxes, welcomes professionals and allows families businesses to thrive. It does no harm!

**MINIMUM WAGE** As written, the law to raise the minimum wage will wreak havoc. Mainers did not read the 32 pages of legal jargon behind the ballot question.

If the question asked Mainers to slash the pay for their favorite server, they would have said no.

If it asked them to increase the cost of everything their grandparents buy, they would have said no.

Let’s be clear: I am not opposed to a higher minimum wage. But I would rather talk about career wages. Liberals always aim low—they want to raise the starter wage.

I don’t want to create more 9-dollar-an-hour jobs. I want to create 29-dollar-an-hour jobs.

The minimum wage law will be devastating to the restaurant industry. Menu prices will increase dramatically to cover the new labor costs.

It will eliminate the tip credit for employers, which will end tipping as we know it.

Restaurant servers who now make \$20 to \$30 an hour will get \$12 an hour with much lower tips—if any. This promotes poverty—not prosperity.

This law will prevent teens and low-skilled workers from getting jobs. Employers will not pay \$12 an hour for a kid with no work experience or someone with no skills.

Higher prices will push the elderly deeper into poverty. 358,000 Mainers on fixed incomes won't get a raise. They cannot afford higher prices.

The minimum wage will go up \$4 an hour, but the average increase in Social Security is just \$4 a month.

Indexing is even worse. It means the minimum wage will go automatically every year—even in a recession.

We got rid of indexing for the gasoline tax because the tax kept going up, even after gas hit \$4 a gallon during the Great Recession.

We already have an employee shortage across the state. Most places already pay more than a minimum wage. It was never supposed to be a living wage.

It is used as a starter wage and for those who cannot work at 100 percent capacity.

Make no mistake, this is not about economics. It is about a socialist ideology—the same kind that has failed in Greece, Venezuela and other countries.

Liberals only care about ideology. They don't care about raising prices on your grandparents. They don't care if your teen can't find work or mentally disabled people lose their jobs.

They don't care if they slash the pay for a single mother working as a waitress from \$20 to \$12.

ELDERLY This budget protects the people liberals consider expendable. They have forgotten the elderly.

They have forgotten the disabled and those with intellectual disabilities. It seems that whenever the Governor proposes to help the elderly or the mentally and physically disabled, it gets killed in committee.

That's why the Maine people and the American people say government is not working. I don't care who gets

credit for helping them. We just need to get it done for the Maine people.

Patrick and Janet Caskin of Litchfield wrote to me to say their daughter Katie is still on a waitlist for intensive home support. She has an intellectual disability. She has been on the Section 21 waitlist for five years.

Two years ago, my budget paid for the entire Section 21 waitlist. If the Legislature funded my initiative, Katie would be getting full-time care today.

But liberals have forgotten Mainers like Katie. She is not a priority for them.

Liberals only funded one-third of the waitlist. They spent the rest of the money on welfare for able-bodied, non-citizen asylum seekers.

They don't care about our elderly or the physically and mentally disabled. I do. When it comes to our most vulnerable citizens, I will do no harm!

We have realigned the welfare system and the Medicaid program to prioritize the elderly and those with all forms of disabilities.

As Ronald Reagan said: "We should measure welfare's success by how many people leave welfare, not how many are added." Able-bodied Mainers between 19 and 50 need to get off welfare. Get off the couch and get a job!

Our limited resources are helping our most vulnerable. In our budget, elderly and disabled Mainers make up more than 40 percent of MaineCare—an increase of 35 percent since 2011.

In Fiscal Year 2019, the elderly and disabled will make up 45 percent of MaineCare.

My budget includes more than \$30 million to help with increased costs for Medicare Part B and Part D. We also need to eliminate the income tax on retired pensioners. We provide tax relief to low-income and elderly homeowners with the Property Tax Fairness Credit.

This should help elderly Mainers like Juliet Nyholt of Solon, who has been struggling to pay her taxes. In

## STATE OF THE STATE ADDRESS

1986, her taxes were \$300—now they are over \$2,000. This is wrong.

No Mainer should be taxed out of their home—especially when environmental groups are taking hundreds of millions of dollars' worth of land value off the tax rolls.

Communities and the Maine Municipal Association may do things right—they follow the law regarding tax liens and foreclosures. But they should do the right thing—help our elderly stay in their homes.

It is unethical and immoral to take away a senior citizen's home. They lose all the equity they built up during their lives. They end up on the street.

Richard Sukeforth, an elderly veteran, and his wife, Leonette, lost their home in Albion after the town seized it for back taxes. They were thrown out with no place to go. He is here with his daughter, Yvette.

I'm pleased to announce Adria Horn of our Bureau of Veterans Services jumped into action and discovered he was eligible for VA benefits.

Mr. Sukeforth is now getting almost \$1,200 a month. This is how we should treat our elderly!

**OPIOID CRISIS** We are also addressing the opioid crisis that is ravaging our state.

We have been urging the Legislature to take action for years, but many have been dragging their feet.

They held up our efforts to hire more MDEA agents for two years—God only knows how much heroin poured into our state during that time.

Back then, heroin was killing 5 Mainers a week. Now it's over 7.

MDEA seized 8 pounds of heroin in January—that's almost 50,000 deadly doses of heroin mixed with fentanyl. It was the largest seizure of heroin in the state's history. It saved thousands of lives. Law enforcement works.

But liberals don't care about law enforcement efforts to stop out-of-state drug dealers from selling their poison to Mainers.

## SELECTED ADDRESSES TO THE LEGISLATURE

They simply want to throw money at treatment programs. They don't identify which programs the money should go to—they just want the headlines to say they are doing something. We are doing something. Strong financial management at DHHS has allowed us to budget an extra \$2.4 million in funding for opioid-addiction treatment for the uninsured.

This money will fund 359 openings for therapy and medication-assisted treatment for uninsured Mainers afflicted by the heroin and the opioids—immediately.

Seven Mainers a week are being killed by deadly opiates. Three babies a day are born afflicted by or addicted to drugs. This drug epidemic is killing our young people.

**EDUCATION REFORMS** Liberals haven't just forgotten our elderly. They have forgotten our children, too.

Out-of-state teachers' unions spent millions on a referendum to tax the so-called "rich."

We do not need more money for education—we need more accountability in education.

Only 59 cents of every dollar spent on education in Maine makes it into the classroom. The national average is 64 cents. Our children deserve more!

This attempt to "tax the rich" will drive successful people out of Maine. Only 10 percent of taxpayers pay two-thirds of the tax burden in Maine. By chasing them out of the state, liberals will generate less money for education—not more.

We are seeking accountability and efficiency in education funding. Instead of spending money on a top-heavy administrative structure, we direct it where it is needed most: our students and our underpaid teachers.

This budget enables communities to form regional education systems to reduce administrative costs.

More importantly, this budget sets the stage for a statewide teacher contract. This contract will increase the base pay for teacher salaries and increase access to quality teachers throughout Maine.

Good teachers in rural Maine are lured away by wealthy communities that pay more.

This needs to stop. Teachers in rural Maine should get the same pay as teachers in wealthy towns. All Maine children deserve good teachers!

We also need to stop double-dipping, and we need to pay effective teachers what they are worth. Gimmicks like double-dipping will come to haunt our education system. We need to replace the unsustainable age imbalance and let young teachers enter our school system.

We are also reducing the cost of higher education. We have increased funding to the University of Maine System, the Maine Community College System and Maine Maritime Academy to help control tuition cost.

We want to make it easier for young people to stay in Maine. I will once again propose funding for zero-interest loans for all higher ed students who decide to live and work in Maine.

Business owners who help pay off student loans should be able to write it off quickly—not over 20 years.

#### ENERGY

Young people need good jobs. Businesses need all the help they can get to stay competitive and create good jobs.

The PUC's decision on net energy billing is the latest example. It raises rates on elderly and poor Mainers to subsidize solar panels for affluent people.

This rate hike was pushed by environmentalists, special interests, the public advocate and some Legislative leaders. Rather than protect Maine ratepayers, the PUC caved to special interests.

I have no problem if wealthy people with solar panels are paid for the excess electricity they generate. However, they should not be paid for the transmission and distribution of the excess power.

The PUC ruled Mainers will pay for the excess generation, as well as the transmission and distribution of the excess power. But Emera and CMP will also

charge the ratepayers to transmit and distribute this excess electricity.

Ratepayers are being charged twice so people who put solar panels on their roof can recoup their money faster. Our elderly, our poor and our most vulnerable Mainers should not be subsidizing people who can afford to install expensive solar panels.

The wealthy solar industry will line its pockets on the backs of hardworking Mainers—not to mention our poor and most vulnerable who can least afford it.

We should be able to agree on a sensible energy policy. We should provide the most affordable energy that does the least harm to the environment.

I ask the Legislature three questions:

1. Should we lower energy costs?
2. Should we lower carbon dioxide levels in the most cost-effective manner?
3. Should we reduce our demand for oil?

If we agree the answer to all three is “yes,” then we can become a state that supports job creators and protects the environment.

But liberals continue to support their favorite—and very expensive—forms of renewal energy. They have no political desire to reduce rates for Mainers.

Our energy costs have gone from 12th highest in the nation to 11th highest. We are going backwards.

Liberals continue to deny the harm they are doing to our job creators and our economy. Put very simply, higher rates leave less money for higher wages.

**CONCLUSION** We are trying to attract small businesses and successful young professionals. We need creative innovators with an entrepreneurial spirit.

We must keep our families here and attract new families from other states and countries. We must give our young people a reason to stay in Maine.

We have worked hard to reduce spending and limit the growth of government. It has not been easy.

## STATE OF THE STATE ADDRESS

When writing about American Presidents, Andy Jones said: “Whenever government in general is smaller, the people have more say over their own lives, and the nation becomes more prosperous.”

We are trying to make Maine more prosperous. It takes courage. We were elected to make tough decisions for the hard-working taxpayers and the forgotten Mainers—not just lobbyists and special interests.

## SELECTED ADDRESSES TO THE LEGISLATURE

We are here to make sure our progress is not rolled back by poorly thought-out referendums. We are here to do no harm. Over the next two years, I hope we can work together to set Maine on the path to future prosperity.

I ask you, the members of the 128th Legislature, to join me in protecting our economy, our families, our small businesses and, most importantly, our elderly.

Despite the challenges facing us, I ask you to move Maine forward—not backward. I ask you to do no harm.

Now, let’s get to work!

**MAINE JUDICIAL BRANCH  
THE STATE OF THE JUDICIARY  
A Report to the Joint Convention of the First  
Regular Session  
128th Maine Legislature**

**MANAGING IN A TIME OF CHANGE**

**Presented by Chief Justice Leigh I. Saufley  
February 16, 2017**

President Thibodeau, Speaker Pro Tem Herbig, and Honorable Members of the 128th Maine Legislature, good afternoon, and thank you so much for finding a way to fit this presentation into your very challenging schedule. It has been a hard winter, and I so much appreciate your efforts.

It is an honor, as always, to be invited to address this joint convention of the Maine Legislature.

I am accompanied today by my amazing husband of 36 years, Bill Saufley, who consistently accommodates my scheduling changes with great humor. My parents, Jan and Dick Ingalls, would have been here, but I convinced them not to travel, so they are watching at home in South Portland, thanks to your terrific technology.

I am also accompanied by my wonderful colleagues from the Supreme Judicial Court and the new Chief Judge of the District Court who you will hear a bit more about in a minute.

The extraordinary people in the Maine Judicial Branch are working very hard to meet shifting public needs, and my presentation today will focus on those CHANGES.

But as we talk about changes, it is important to anchor our discussions in the bedrock principles of good government. This Joint Convention, where the Chief Justice is invited by Legislative leadership to present a report on the State of the Judiciary, represents a tradition of good government that we all value highly.

And this year is an important milestone in this great tradition.

Forty years ago, in 1977, Chief Justice Armand Dufresne, Maine's first Franco-American Chief Justice, delivered the very first State of the Judiciary. So, for four decades, broken only by two years in the early '80s, Chief Justice Dufresne, Chief Justice McKusick, Chief Justice Wathen, and I have had the honor of an annual invitation to address the joint houses of the Maine Legislature.

I emphasize this history because we do not take this tradition for granted. It does not happen in every State, and the benefits of formal communication between the separate, but equal, branches of government cannot be overstated.

So very much has been accomplished in the last decade because of the work that we have all done together for the people of Maine.

With great traditions anchoring our work, my focus today is

CHANGE in the pursuit of improved public service.

To be clear, there has been no change in the mission of the Judicial Branch.

*To administer justice by providing a safe, accessible, efficient and impartial system of dispute resolution that serves the public interest, protects individual rights, and instills respect for the law.*

But changes in society, changes in technology, and changes in the public's expectations of government require us to evolve consistently in the way we fulfill that mission.

Today I will update you on:

- Changes in the leadership of the Trial Courts;
- Changes in the Infrastructure of the Courts;
- Changes in the delivery of justice to families in Maine;
- Changes in the processing of Criminal Cases, including
  - o Fines and Bail,
  - o The Addiction Crisis, and
  - o Domestic Violence.

And finally, I will have two requests for you.

**CHANGES IN TRIAL COURT MANAGEMENT**

The first of the changes is in the leadership of the Trial Courts.

The Chief Justice of the Superior Court and the Chief Judge of the District Court are positions created by statute. We have now established that they will serve three year terms, renewable once.

The Chiefs are responsible for the operations of the trial courts, and they must assure that the trial courts are responsive to the needs of the public.

These judicial leaders must have the respect of their colleagues and the legal profession. They work very long hours, filling both roles of judges and managers.

**Chief Justice Roland Cole** is the new Superior Court Chief. He has an extraordinary history as a Maine Trial Judge, but, unfortunately, he had a family emergency, and I will introduce him to you at another time.

**Chief Judge Mary Kelly** has taken over as the Chief of the District Court. As Judy Harrison of the Bangor Daily News wrote, Judge Kelly grew up just 12 miles east of Bangor: Bangor Erris, in County Mayo, Ireland, that is.

Chief Judge Kelly came to Maine from Ireland as an exchange law professor in 1987. She found Maine to be such a wonderful place that she stayed on, becoming an American citizen in 1990.

Chief Judge Kelly has worked in the Legislature's Revisor's Office, in the Attorney General's Office handling child support and child protection cases, and in the District Court as a Family Law Magistrate. In 2010, she was appointed to the District Court. She is well respected by her colleagues and is already beginning to make her mark in improved public service.

**CHANGES IN JUDICIAL BRANCH INFRASTRUCTURE****CMS eFiling**

Next, I am very pleased to provide an update on a monumental change made possible by the three branches of government working together to make the courts more efficient, responsible, and accessible.

The digital world is coming to the Maine Courts.

Working with Tyler Technologies, a company with a significant Maine presence, we expect to implement the new Case Management System first in the Violations Bureau, which handles between 85,000 and 100,000 traffic cases statewide each year. Penobscot and Piscataquis Counties will be the first courts where the full digital system will be implemented in 2019.

Moving from a paper-based court system to an electronic one will revolutionize the way we do business.

- The new system will allow 24/7 access by litigants from anywhere in the world that is connected to the Internet.
- Members of the public will not need special programs to access their cases.
- Interactive court forms will assist unrepresented litigants to initiate and process their cases.
- The system will greatly improve access, efficiency, and transparency for all involved with the court system.

Recognizing that broadband access is not yet equally available in all areas of the state, our plans include public kiosks in the courthouses, to make sure that all members of the public benefit from this improvement.

We have much work ahead of us to implement a system that, while transparent and accessible, must also protect personal privacy and guard against identity theft. To address this challenge, we are about to launch the new Task Force on Transparency and Privacy that will include a broad array of stakeholders.

I am grateful for the bipartisan support that is making all of this possible. Governor LePage steadfastly supported funding for the new technology, as did the Legislature, including Leadership in both parties, especially the Judiciary and Appropriations Committees, and Representative Fredette, who first got the ball rolling six years ago as a freshman member of the Appropriations Committee.

**Safer, Modern Courthouses**

The state's aging courthouses are also benefitting from much-needed changes.

Those of you who are veteran Legislators have heard me bemoan the physical facilities of the Maine courts. But with the bipartisan support of both the Governor and the Legislature, we continue to make steady improvements to Maine's courthouses. Without sacrific-

ing rural access to justice, we have reduced the number of separate court buildings from 47 to 36, and in the process, we have improved safety and access in many counties.

In 2016, after legislation was approved by the 127th Legislature, we began work toward improved facilities in York, Oxford, and Waldo counties.

We will improve or replace eight inadequate buildings with three efficient, handicapped accessible, and vastly safer courthouses that will improve the delivery of justice for generations to come. I want to thank the Governor, President Thibodeau, and former Speaker Eves for their support.

And I especially want to thank the four members of the 127th Maine Legislature who gave so much time to the legislatively created Site Selection Commission for the York County Courthouse:

Senator Ron Collins,  
Former Senator Linda Valentino,  
Representative Bob Foley, and  
Representative Ann Marie Mastraccio.

Thank you all for your time and energy.

### **Improvements in Access to Justice**

So, with improvements to buildings and technology, access to justice is getting better every year, except for one critical aspect:

litigants too often cannot afford lawyers to help them with their legal problems.

We still have a way to go to ensure that everyone in court is assisted by capable counsel. There is a constitutional right to a lawyer in criminal proceedings, but too many Maine people are not able to afford a lawyer for the civil proceedings that may affect their families, their livelihoods, housing, and healthcare.

But the good news is that Maine lawyers continue to give generously of their time and money to assist their fellow-Mainers in need.

- The Campaign for Justice raised over \$600,000 from Maine lawyers and judges to make free legal services available to the poor.
- In addition to donating money, Maine lawyers participating in the Katahdin Program donated over 11,000 hours of free legal work, with a market value of approximately \$1.7 million.

- In 2016, with the assistance of the New Lawyers Section of the Maine State Bar Association, 22 local libraries participated in the Lawyers in Libraries Program, where people could find legal help right in their own communities.
- The Civil Legal Services Fund, which you—the Maine Legislature—established, provided over \$1.4 million to legal service providers to assist the elderly, low income parents, the disabled, and victims of domestic violence, along with many others in need.

We absolutely must do more, but I am grateful to you and to the many lawyers who have voluntarily stepped up to help those in need.

## **FAMILY DIVISION CHANGES**

### **1. Home Court**

Turning now to the changes in the actual case processing, I want to thank both the Legislative Branch—the 127th Legislature, and the Executive Branch for passage of L.D. 890, *An Act To Ensure a Continuing Home Court For Cases Involving Children*.

Prior to passage of this bill, many cases involving the same children were split between the State District Courts and the County Probate Courts. A child protection case would proceed in the District Court, but any adoption, guardianship, or name change involving the same child would have to be handled by the County Probate Courts.

Imagine having to navigate two separate court systems, separate clerks, separate judges, separate rules of procedure, often even in different buildings, all regarding issues affecting the *same* child, the *same* family? It was difficult; it was more complicated than it should be; and it did not serve children and families well.

Working diligently over two sessions of the 127th, the Judiciary Committee found a way to address the challenges, and the Executive Branch found a way to fund the proposal. The new law, allowing families to proceed in one court—the District Court—went into effect in July 2016.

Today, I am pleased to report wonderful progress in the seven months since the bill went into effect. As of last Friday, 173 adoptions, 50 guardianships, and 5 name changes, all involving families and children in

District Court cases that would have required *separate* case filings in the Probate Courts, were completed expeditiously, and exclusively, in the District Courts.

These improvements would not have happened without the commitment of:

- The sponsor, Rep. Kim Monaghan,
- Co-sponsor Speaker Gideon,
- The Judiciary and Appropriations Committees, and
- The Executive Branch.

I am also grateful to:

- Justice Ellen Gorman,
- Chief Judge Kelly,
- The Probate Judges, especially Judge Carol Emery, and
- A host of lawyers and District Court Judges who assisted in rapidly creating new rules to assure the expedited processing of the cases.
- Professor Deirdre Smith, who heads the Cumberland Legal Aid Clinic, deserves special mention for her advocacy for this legislation.

Those 173 adoptions represent a concrete example of how, when we work together, we can find solutions that make government work better for Maine people.

## 2. Guardian ad Litem Changes

In another area of change, bringing improvements for Maine families, Chief Judge Mary Kelly has this week delivered a report to the Judiciary Committee regarding changes and improvements in the delivery of guardian ad litem services.

The GAL report describes several years of work in the Legislature and then in the Judicial Branch, which resulted in many substantial changes, including:

- the adoption of clearer standards of conduct for GALs;
- improved training;
- precise billing limits that must be set before any work is done;
- creation of the 12-member Guardian ad Litem Review Board, which is a complaint process independent of the Judicial Branch; and
- an evaluation process for consumers of GAL services upon completion of their cases that will provide feedback on how well the improved system is working for families.

We have also updated the Judicial Branch website to include more information about GAL services. Although my summary here today is relatively brief, these changes were the culmination of a four-year effort to improve the delivery of GAL services, and you can read the complete report on line at the Judicial Branch website.

And finally, regarding family and civil cases, we have several new process improvement projects in the works. I am very proud to announce that we recently received news of a grant funding award from the State Justice Institute to help us undertake a significant new effort to improve the way we process civil and business cases. Grants were awarded to only three states across the country. More on that in the months to come.

## CHANGES IN CRIMINAL CASE PROCESSING

I turn now to some of the most pressing problems in our State—affecting several different aspects of our Criminal Justice system.

And in keeping with my theme, I am pleased to tell you that some of the changes that have been accomplished or are in the works have been encouraging. But we are far from finding the answers to too many of the challenges.

So let's begin with some good news.

### Reduced Criminal Case Backlogs

Last year, having completed the redesign of the criminal dockets into a single unified process, we moved to the next step—reducing the backlog in the criminal dockets. And, with your help, the results have been excellent.

You all know the saying, “Justice delayed is justice denied.” Witnesses become unavailable and even die, memories fade. Crime victims, the public, and mistakenly or wrongfully charged defendants are not well served when cases are delayed.

In 2016, you approved funding to allow the trial judges to increase the availability of jury trials and to provide overtime so that our clerks and marshals could work the necessary additional hours to address that backlog.

I am pleased to report that that effort was successful.

- In Fiscal Year 2016, the intense focus on criminal cases resulted in a 61% decrease in active pending cases over one year old, and
- a 49% decrease in active pending cases over nine months old.
- That is statistical jargon for this result:
  - Cases are being reached much more quickly.
  - New criminal charges can be resolved without delay.

This took a great deal of focused effort on the part of everyone involved.

I want to take this opportunity to recognize the great work that was done, not just by the Judges and court employees, but also by the defense lawyers and the District Attorneys, all of whom stepped up to make this a priority.

And many of the real heroes in this story are the hundreds of Maine citizens who respond to the call for jury duty. They often give up a day's or a week's pay, leave their homes and families, struggle with parking, and then are called on to make some of the most important decisions in the court system. We all owe them a debt of gratitude for their service. We could not have been successful without them.

### Changes in Fines and Bail

Another area where positive changes have begun is in the collection of fines and the analysis of our current bail system.

A group of judges and staff, led by Justice William Anderson, has undertaken a complete review of Maine fine collection procedures. In order to assure that we do not have impoverished Mainers placed in difficult situations, clarified procedures and new forms will be promulgated that will assure that everyone who is convicted of a crime and ordered to pay a fine understands clearly:

- The amount due,
- When the fine must be paid,
- What to do if they cannot meet the deadline, and
- Who to talk to if that happens.

While these clarified procedures will help, I continue to suggest that a meaningful, well-supervised, substantive public service program, particularly when

combined with a restorative justice component, could provide an excellent option for accountability in place of mandatory fines.

### Bail Reform

Next, with regard to Bail Reform, I am here with a mea culpa. Last session I told you that I hoped to present a proposal this year for updating our antiquated bail system. In recent years, we had received a proposal for a new bail system that would cost the General Fund an estimated additional \$4 to 5 million a year. I told you that I thought it could be done for much less—that we could find a way to reduce the costs and still provide a much-needed update for the system.

We do not yet have a proposal that I believe is sufficiently fiscally prudent to present to you. I hope to return next session with an improved plan.

And now I turn to the two areas of criminal justice where change is desperately needed, but the answers are not yet clear.

### Opiate Addictions

I begin with the Opiate/Heroin epidemic. I will echo much of what you heard from the Governor last week, but I believe it is worth repeating.

Attorney General Mills has provided us some horrifying statistics.

- The drug overdose deaths in 2016 were up again—**378 human beings lost their lives to a drug overdose last year in Maine.**
  - In a minute, I am going to talk with you about homicides in Maine, and one of the statistics you'll hear is that there were 258 homicides in Maine *over a ten-year period.*
  - Compare that number with 378 overdose deaths in just one year.
  - There were **more overdose deaths in one year than there were homicides in a decade.**
- Even more frightening, in 2016 there were **2,380** administrations of Narcan—up from 1,565 in 2015.
- And—the saddest number of all—there were **1,024 drug affected babies** born in 2016, up from 1,013 in 2015. As the Governor described it, that

is just about three babies a day who start their lives in such a horrible way.

We see the effects of heroin, fentanyl, and now car-fentanyl in every case type. Not just criminal cases. These addictions affect families, businesses, and schools.

People often ask me the same question they are asking you:

What can we do to stem this tide?

And I only have one answer. You've heard it before.

We have to do EVERYTHING.

- We must stop the drugs from coming into Maine.
- We must provide robust prevention programs.
- We must have real and meaningful treatment quickly available.
- We must have housing for people who have lost everything.
- We must understand treatment in terms of months and years, not days and weeks.

You and the Governor are already hard at work addressing many of these issues. You addressed the prescription medicine gateway last session, and discussions regarding treatment resources are well underway.

In the Judicial Branch, we are rethinking drug courts. Last year, we reestablished the Bangor Adult Drug Treatment Court, and with that addition, there are now six Adult Drug Treatment Courts along with a Co-Occurring Disorders Court and a Veterans Court.

Sadly, drug courts can reach only a small percentage of people plagued with drug addiction.

- There were 52 graduations in 2016—52 people who successfully stayed clean and sober and were released from active judicial supervision.
- Statewide, approximately 247 people are currently in adult drug courts.
- In a State where 358 people died of overdoses in one year, we cannot delude ourselves that drug courts alone will make a difference.

I have therefore asked Justice Nancy Mills, whose vision and relentless hard work helped create the extremely successful Veterans Court here in Augusta, to step up and take over the Drug Court Steering Committee.

I am grateful that Justice Mills said yes, and already her presence is felt. In March, just weeks away, she has arranged for national experts to come to Maine to meet with all of Maine's Drug Court Judges and Teams and the Trial Court Chiefs for an intensive two-day session, to bring them up to date on what actually *works* with these pernicious addictions.

We know that we must consider updated models for the Drug Courts and for the criminal and family dockets much more broadly.

- Re-entry programs for people leaving incarceration are beginning to show real promise.
- Diversion programs, which can help people avoid lengthy incarceration, must be consistent in providing up-to-date treatment options, and simultaneously requiring personal accountability.
- Wrap-around programs that involve families, housing, and jobs may provide another answer.

None of this is cheap, but nothing is more expensive than allowing our State to sink further into the horror and sadness of an addiction crisis.

### **Changes in the Way We Address Domestic Violence**

Moving now to another difficult topic, this year, I requested two separate reviews of the ways our system of justice addresses domestic violence.

The first review took a deep look at a single recent case in which one victim died and one was badly wounded.

The second review was designed to give us a much broader analysis. For this review, I am grateful to the Attorney General's Office for its assistance and data. Our researcher looked at every murder in Maine over a ten-year period, searching for patterns and places where we could all have done a better job in protecting vulnerable Maine people from domestic violence.

Here are just a few important points:

- From 2006 through 2016, 258 people were victims of homicide in Maine.
- From the records provided, the researchers identified 126 of the deaths as related to domestic violence. In other words, almost one-half of the homicides result from domestic violence.

In the 126 domestic violence related homicides:

- Most of the perpetrators, 88%, were male.
- The victims were more evenly divided: 43% male, and 57% female.
- About half of the 126 homicides took the lives of a spouse or intimate partner.
- 20% of the victims were children.
  - 26 children died as a result of domestic violence in that ten-year period.
  - 14 of those children were only a year old or younger.
- And, this is what led me to ask for the analysis, far too many of the victims never sought help from the courts.
  - As far as we can tell, 75 of the 126 victims, just about 60%, did not have any meaningful contact with the Maine courts before they were killed.
- In the specific case review, we also learned that, in important bail review and sentencing proceedings, no criminal records checks in Maine or nationally were requested by law enforcement. This practice left judges, attorneys, and advocates with serious gaps in critical information.
- In many instances, the applicable ODARA risk analysis, which you mandated by law to be completed in particular crimes, was never provided to the judge.

I understand that you have legislation before you this session intended to provide more thorough information to judges, and to close some of these gaps. I encourage your thoughtful consideration of these proposals.

In the Judicial Branch, the Trial Chiefs, working with a Team of experienced trial judges, have determined that several changes should be implemented quickly.

Some of the most important changes are these:

At sentencing and bail hearings on serious charges, the presiding judge will require the prosecutor to provide the following information if it exists:

- Maine and national criminal history records;
- The victim's statement or presentation; and
- The ODARA or other risk assessment score.

In addition, now that we understand how few of the victims sought timely help, there is something else we all have to do.

We must stop assuming that the victim will always ask for help.

As neighbors, family members, employers, and service providers, we must all be alert for the signs of isolation, control, and impending violence that are harbingers of real lethality.

And we must not look away and assume that someone else will take care of it.

I am pleased to report that, this summer, in collaboration with the Maine State Bar Association, we will gather all of Maine's state court judges and many lawyers from all different practices to come together for this broader conversation about a more comprehensive approach to reducing and eliminating domestic violence.

I am also pleased that the Governor has agreed to come and help us kick off the conference and share some of his very personal history.

#### **AND NOW I HAVE TWO REQUESTS.**

##### **Clerks and Marshals**

First, as you may have heard me mention before, Maine's trial judges are among the lowest paid judges in the nation.

But even more distressing is the fact that the pay scales of marshals, clerks, and others in the Judicial Branch have not remained competitive either with other law enforcement agencies or with what the staff can make working other public sector jobs or the private sector. We no sooner train new clerks and marshals than we lose them to other employers.

Yet the clerks and the marshals are the unsung heroes of the Maine Courts.

You may have noticed that I did not begin today's presentation with my usual request for more marshal positions to help us reach 100% entry screening. That is because the compensation situation is so bad that we struggle just to fill the existing marshal positions.

We must adjust the compensation of court staff. Our recently completed salary study confirmed that we have fallen significantly below market averages. Ted Glessner will shortly be discussing this problem with

## STATE OF THE JUDICIARY ADDRESS

the Appropriations Committee. This is important. We need to act quickly to make Judicial Branch wages more competitive in order to attract and retain good employees.

### **Supreme Court Visits to Maine Schools**

My second request has no money involved. I am inviting *you* to invite the Supreme Judicial Court to come to a High School in your District to preside over real appellate arguments at the school.

Since 2005, at the request of Maine Legislators, the Maine SJC has traveled to 35 High Schools across the State to help Maine students get a close-up view of how an appellate court works. Last year, the Court traveled to and heard cases in Fort Kent, South Berwick, and East Machias, thanks to invitations from Representatives John Martin and Bobbie Beavers, and Senator David Burns.

## SELECTED ADDRESSES TO THE LEGISLATURE

We have not yet created the schedule for the 2017 High School events. If you are interested, please find Mary Ann Lynch in the next week.

### **Thank you**

In closing, it has been a long day for many of you, and you have been very patient with me.

I want to thank every one of you in this chamber today, who will spend hundreds of hours in this statehouse at great personal and financial sacrifice, before the work of the 128th Legislature is done.

Your work does make a difference.

Thank you for everything you do for the people of the State of Maine.
