# PREFACE

The 2017 edition of Laws of the State of Maine is the official publication of the session laws of the State of Maine enacted by the 128th Legislature and is compiled and published under the authority of the Maine Revised Statutes, Title 3, section 163-A. Laws of the State of Maine has been in continuous publication since 1820, when the acts and resolves adopted by the First Legislature were published by the Secretary of State under the authority of Resolve 1820, chapter 25.

Volume 1 contains the public laws, private and special laws and resolves enacted at the First Regular Session of the 128th Legislature, followed by the 2015 Revisor's Report, chapter 2, Initiated Bill 2015, chapters 2 to 5 and a selection of significant addresses, joint resolutions and memorials.

Additional volumes of the 2017 Laws of the State of Maine will contain those measures adopted in the Second Regular Session and any special session of the 128th Legislature.

The following conventions are used throughout the series.

1. At the top of each page is a heading that classifies each law by session of passage, year, type and chapter number.
2. A table of contents that locates major divisions and contents by page number is located at the beginning of each volume.
3. An individual subject index of the documents contained in these volumes, arranged alphabetically by subject heading with corresponding chapter numbers, is located at the end of volume 1.
4. Session cross-reference tables are also provided at the end of volume 1 showing how unallocated public laws and titles and sections of the Maine Revised Statutes of 1964 have been affected by the laws included in this publication.
5. Words and phrases deleted from the statutes are shown struck through. When an entire unit is repealed, the text that is repealed is not shown struck through, but its repeal is indicated by express language.
6. When new words or sections are added to the statutes, they are underlined.
7. A chaptered law's Legislative Document number is printed beneath its chapter number heading, indicating the source of the chapter.
8. The effective date for Maine laws is provided for in the Constitution of Maine, Article IV, Part Third, Section 16, which specifies that, except for certain emergency legislation, an act or resolve enacted into law takes effect 90 days after the adjournment of the session in which it passed. The general effective date of nonemergency laws passed at the First Regular Session of the 128th Legislature is November 1, 2017. The effective dates of emergency legislation vary and are provided at the ends of the chapters that were enacted as emergencies.

Copies of a specific chaptered law may be obtained by contacting the Engrossing Division of this office. Laws of the State of Maine is also available online through the website of the Office of the Revisor of Statutes at <http://www.mainelegislature.org/ros/LOM/lomdirectory.htm>.

This edition of Laws of the State of Maine and its predecessors have been prepared for the convenience of the people of the State of Maine, and any comments or suggestions for improvements in subsequent editions would be appreciated.

**CHAPTER 1**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, implementing a system for the regulation and administration of the cultivation, distribution and retail sale of recreational marijuana, a controlled substance, is a complex function with significant financial costs; and

Whereas, ensuring that possession and use of recreational marijuana is limited to persons who are 21 years of age and older is necessary to protect those who have not yet reached adulthood from the potential negative effects of irresponsible use of a controlled substance; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

For the purpose of adopting rules pursuant to this subsection, the commissioner may delegate rule-making authority granted under this section to the Commissioner of Administrative and Financial Services or the Commissioner of Public Safety, or both, if the commissioner determines that the expertise and resources of those other departments would be beneficial in the development of the rules and the enforcement of those rules. If the authority finds that the alternatives are not sufficient:

A. A final license, permit or approval necessary for construction may be issued by the appropriate state agency; and

#### An Act To Allow the Waldo County Budget Committee To Appoint Replacement Members

**Emergency preamble.** **Whereas**, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas**, the budgets of counties are important undertakings requiring the participation of representatives of municipalities throughout the county; and

**Whereas**, when a vacancy occurs in a county budget committee, it reduces the ability of the budget committee to adequately represent all of its constituents and makes the task of creating a county budget more difficult; and

**Whereas**, county budget committees need adequate and prompt mechanisms to fill a vacancy when a municipality of a vacating member is unwilling or unable to fill the vacancy so that the budget committee can timely and efficiently produce a budget representing the interests of the entire county; and

**Whereas**, there may be a need to replace committee members before the next budget cycle; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

#### An Act To Allow a Physical Therapist To Administer Certain Coagulation Tests in a Patient's Home

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** the need for home care medical services is rapidly increasing as Maine's population ages

and the prevalence of chronic conditions increases; and

**Whereas,** providing health services in the home keeps people out of more costly institutional settings and allows people to live at home for as long as it is safe and practical for them to do so; and

**Whereas,** home health care services are provided by collaborative teams of nurses, therapists, aides and others and the industry is facing critical workforce challenges; and

**Whereas,** physical therapists who are already visiting patients in their homes have more than adequate education to perform finger stick blood tests to assess blood clotting levels, and allowing them to perform these tests will save the expense of sending nurses to the patients' homes to perform these tasks; and

**Whereas,** delaying the effective date of this bill will add to the financial and workforce challenges faced by the home health care industry; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Emergency preamble.** **Whereas,** acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** it is likely that applicants will seek financing for projects using the Revenue Obligation Securities Program before this Act takes effect if it is not enacted on an emergency basis; and

**Whereas,** if this Act is not enacted on an emergency basis, applicants could obtain financing without sufficient credit safeguards to protect against the calling upon the moral obligation of the State, leading to undue losses to the State; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 10 MRSA §1043, sub-§2, ¶O**, as amended by PL 2015, c. 504, §3, is further amended to read:

O. In the case of an energy distribution system project or an energy generating system project regulated by the Public Utilities Commission with respect to rates or terms of service or that requires, for construction or operation, authorization or certification from the commission, the following conditions are met.

(1) The energy distribution system project or the energy generating system project has received all authorizations or certifications from the Public Utilities Commission necessary for construction and operation of the project. The authority may issue a certificate of approval for a project that has received conditional approvals or certifications from the commission, except that the authority's certificate becomes legally effective only upon fulfillment of the conditional provisions of the commission's certificates or approvals. If the commission has approved rates to be charged by the project or has issued a certificate of public convenience and necessity for the project, the authority shall take into consideration any findings and conclusions of law of the commission, including any findings and conclusions pertaining to the need for the project and the financial viability of the project.

(2) The authority has reviewed and considered any comments provided by the Director of the Governor's Energy Office and the Public Advocate.

(3) The authority has determined that the applicant is creditworthy and that there is a ~~reasonable~~ strong likelihood that the revenue obligation securities will be repaid through the revenues of the project and any other sources of revenues and collateral pledged to the repayment of those securities. In order to make these determinations, the authority shall consider such factors as it considers necessary and appropriate in light of the special purpose or other nature of the business entity owning the project and the specific purposes of the project to measure and evaluate the project

and the sufficiency of the pledged revenues to repay the obligations, including, but not limited to:

(a) Whether the individuals or entities obligated to repay the obligations have demonstrated sufficient revenues from the project or from other sources to repay the obligations and a reasonable probability that those revenues will continue to be available for the term of the revenue obligation securities;

(b) Whether the applicant demonstrates a reasonable probability that the project will continue to operate and provide the public benefits projected to be created for the term of the revenue obligation securities;

(c) Whether the applicant's creditworthiness is demonstrated by factors such as its historical financial performance, management ability, plan for marketing its product or service and ability to access conventional financing;

(d) Whether the applicant meets or exceeds industry average financial performance ratios commonly accepted in determining creditworthiness in that industry;

(e) Whether the applicant demonstrates that the need for authority assistance is due to the reduced cost and increased flexibility of the financing for the project that result from authority assistance and not from an inability to obtain necessary financing without the capital reserve fund security provided by the authority;

(f) Whether collateral securing the repayment obligation is reasonably sufficient under the circumstances;

(g) Whether the proposed project enhances the opportunities for economic development;

(h) The effect that the proposed project financing has on the authority's financial resources;

(i) The financial performance of similar projects;

(j) The need for the project, as determined by the Public Utilities Commission and as indicated by any comments provided by the Director of the Governor's Energy Office, other public officials and members of the public;

(k) The nature and extent of customer commitment to use the project or the fuel or energy the project distributes, transmits or generates;

(l) The cost advantages to end users of the fuel or energy to be distributed, transmitted or generated by the project, to the extent those advantages may affect market penetration by the project; and

(m) The nature and extent of the applicant's equity contribution to payment of the costs of the project; such a contribution may not be less than 25% of the expected cost of the project.

This paragraph is repealed January 1, 2020.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

**CHAPTER 104****S.P. 250 - L.D. 805**

**An Act To Streamline the  
Municipal Review Process  
When Dividing a Structure into  
3 or More Dwelling Units and  
To Amend the Process for  
Recording Subdivision  
Variances**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 30-A MRSA §4401, sub-§4,** as amended by PL 2013, c. 126, §1, is further amended to read:

**4. Subdivision.** "Subdivision" means the division of a tract or parcel of land into 3 or more lots within any 5-year period that begins on or after September 23, 1971. This definition applies whether the division is accomplished by sale, lease, development, buildings or otherwise. The term "subdivision" also includes the division of a new structure or structures on a tract or parcel of land into 3 or more dwelling units within a 5-year period, the construction or placement of 3 or more dwelling units on a single tract or parcel of land and the division of an existing structure or structures previously used for commercial or industrial use into 3 or more dwelling units within a 5-year period.

A. In determining whether a tract or parcel of land is divided into 3 or more lots, the first dividing of the tract or parcel is considered to create the first 2 lots and the next dividing of either of these first 2 lots, by whomever accomplished, is considered to create a 3rd lot, unless:

(1) Both dividings are accomplished by a subdivider who has retained one of the lots for the subdivider's own use as a single-family residence that has been the subdivider's principal residence for a period of at least 5 years immediately preceding the 2nd division; or

(2) The division of the tract or parcel is otherwise exempt under this subchapter.

B. The dividing of a tract or parcel of land and the lot or lots so made, which dividing or lots when made are not subject to this subchapter, do not become subject to this subchapter by the subsequent dividing of that tract or parcel of land or any portion of that tract or parcel. The municipal reviewing authority shall consider the existence of the previously created lot or lots in reviewing a proposed subdivision created by a subsequent dividing.

C. A lot of 40 or more acres must be counted as a lot, except:

(2) When a municipality has, by ordinance, or the municipal reviewing authority has, by regulation, elected not to count lots of 40 or more acres as lots for the purposes of this subchapter when the parcel of land being divided is located entirely outside any shoreland area as defined in Title 38, section 435 or a municipality's shoreland zoning ordinance.

D-1. A division accomplished by devise does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

D-2. A division accomplished by condemnation does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

D-3. A division accomplished by order of court does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

D-4. A division accomplished by gift to a person related to the donor of an interest in property held by the donor for a continuous period of 5 years prior to the division by gift does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter. If the real estate exempt under this paragraph is transferred within 5 years to another person not related to the donor of the exempt real estate as provided in this paragraph, then the previously exempt division creates a lot or lots for the purposes of this subsection. "Person related to the donor" means a spouse, parent, grandparent, brother, sister, child or grandchild related by blood, marriage or adoption. A gift under this paragraph can not be given for consideration that is more than 1/2 the assessed value of the real estate.

D-5. A division accomplished by a gift to a municipality if that municipality accepts the gift does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

D-6. A division accomplished by the transfer of any interest in land to the owners of land abutting that land does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter. If the real estate exempt under this paragraph is transferred within 5 years to another person without all of the merged land, then the previously exempt division creates a lot or lots for the purposes of this subsection.

E. The division of a tract or parcel of land into 3 or more lots and upon each of which lots permanent dwelling structures legally existed before September 23, 1971 is not a subdivision.

F. In determining the number of dwelling units in a structure, the provisions of this subsection regarding the determination of the number of lots apply, including exemptions from the definition of a subdivision of land.

~~G. Notwithstanding the provisions of this subsection, leased dwelling units are not subject to subdivision review if the municipal reviewing authority has determined that the units are otherwise subject to municipal review at least as stringent as that required under this subchapter.~~

~~H-1. This subchapter may not be construed to prevent a municipality from enacting an ordinance under its home rule authority that:~~

~~(1) Expands the definition of "subdivision" to include the division of a structure for commercial or industrial use; or~~

~~(2) Otherwise regulates land use activities.~~

~~A municipality may not enact an ordinance that expands the definition of "subdivision" except as provided in this subchapter. A municipality that has a definition of "subdivision" that conflicts with the requirements of this subsection at the time this paragraph takes effect shall comply with this subsection no later than January 1, 2006. Such a municipality must file its conflicting definition at the county registry of deeds by June 30, 2003 for the definition to remain valid for the grace period ending January 1, 2006. A filing required under this paragraph must be collected and indexed in a separate book in the registry of deeds for the county in which the municipality is located.~~

H-2. This subchapter may not be construed to prevent a municipality from enacting an ordinance under its home rule authority that otherwise regulates land use activities.

A municipality may not enact an ordinance that expands the definition of "subdivision" except as provided in this subchapter. A municipality that has a definition of "subdivision" that conflicts with the requirements of this subsection at the time this paragraph takes effect shall comply with this subsection no later than January 1, 2019. Such a municipality must file its conflicting definition at the county registry of deeds by June 30, 2018 for the definition to remain valid for the grace period ending January 1, 2019. A filing required under this paragraph must be collected and indexed in a separate book in the registry of deeds

for the county in which the municipality is located.

I. The grant of a bona fide security interest in an entire lot that has been exempted from the definition of subdivision under paragraphs D-1 to D-6, or subsequent transfer of that entire lot by the original holder of the security interest or that person's successor in interest, does not create a lot for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

B. Whenever the initial approval or any subsequent amendment of a subdivision is based in part on the granting of a variance from any applicable subdivision approval standard, that fact must be expressly noted on the face of the subdivision plan to be recorded in the registry of deeds.

(1) In the case of an amendment, if no amended plan is to be recorded, a certificate must be prepared in recordable form and recorded in the registry of deeds. This certificate must:

(a) Indicate the name of the current property owner;

- (b) Identify the property by reference to the last recorded deed in its chain of title; and
- (c) Indicate the fact that a variance, including any conditions on the variance, has been granted and the date of the granting.

(2) The variance is not valid until recorded as provided in this paragraph. Recording must occur within ~~90 days~~ 2 years of the final subdivision approval or approval under Title 38, chapter 3, subchapter ~~1~~ 1, article 6, where applicable, whichever date is later, or the variance is void.

An application for an initial license or renewal for a place of business other than that of the applicant's first licensed location must be accompanied by a fee of \$100. An applicant must also pay a nationwide mortgage licensing system and registry processing fee in an amount to be determined by the administrators of the nationwide mortgage licensing system and registry. A non-profit organization exempt from taxation under the United States Internal Revenue Code, Section 501(c)(3) and engaged in the financing of housing for low-income people under a program designed specifically for that purpose must pay an initial licensing fee, and a fee for each branch location, of \$20 and a renewal licensing fee and renewal fee for each branch location of \$10, plus the applica-

ble nationwide mortgage licensing system and registry processing fee.

B. For a lender subject to this subsection whose activities do not include making or arranging residential mortgage loans, an initial application for a license must be accompanied by a \$500 fee and a renewal application must include a \$200 fee. A license is granted for a 2-year period and expires on September 30th of the 2nd year. An application for an initial license or renewal for a place of business other than that of the applicant's first licensed location must be accompanied by a fee of \$200.

2. A license to make or service supervised loans or as a mortgage loan originator may not be issued unless the administrator, upon investigation, finds that the financial responsibility, character and fitness of the applicant, and of the members thereof, if the applicant is a copartnership or association, and of the officers and directors thereof, if the applicant is a corporation, and, when applicable, the character and fitness of the mortgage loan originators thereof, are such as to warrant belief that the business will be operated honestly and fairly within the purposes of this Act. In determining the financial responsibility of an applicant proposing to engage in making insurance premium loans, the administrator shall consider the liabilities the lender may incur for erroneous cancellation of insurance.

A. Every applicant shall also, at the time of filing such application, file with the administrator, if the administrator so requires, a surety bond satisfactory to the administrator in an amount not to exceed \$50,000. The terms of the bond must run concurrent with the period of time during which the license will be in effect. The bond must run to the State for the use of the State and of any person or persons who may have a cause of action against the licensee under this Act. The bond must be conditional that the licensee will faithfully conform to and abide by the provisions of this Act and to all rules lawfully made by the administrator under this Act and will pay to the State and to any such person or persons any and all amounts of money that may become due or owing to the State or to such person or persons from the licensee under and by virtue of this Act during the period for which the bond is given.

B. As used in this section, the term "financial responsibility" means that the applicant has available for the operation of the licensed business net assets of at least \$25,000 and upon issuance of a license, each licensee shall maintain net assets of at least \$25,000 that are either used or readily available for use in the conduct of the business of each office of the licensee in which supervised loans are made or serviced.

D. In determining the financial responsibility of a nonprofit organization engaged in the financing of housing for low-income people under a program specifically designed for that purpose, the administrator may waive the requirement of a bond and availability of \$25,000 of net assets, if the applicant submits appropriate additional evidence of financial responsibility.

3. Upon written request, the applicant is entitled to a hearing on the question of the applicant's qualifications for a license or registration if (a) the administrator has notified the applicant in writing that the application has been denied, or (b) the administrator has not issued a license or registration within 60 days after the application for the license or registration was filed. A request for a hearing may not be made more than 15 days after the administrator has mailed a writing to the applicant notifying the applicant that the application has been denied and stating in substance the administrator's findings supporting denial of the application.

4. A separate license is required for each place of business. Each branch location license application must be accompanied by a surety bond, in a form acceptable to the administrator, in the amount of \$50,000.

5. A licensee may conduct the business of making or servicing supervised loans only at or from any place of business for which ~~he~~ the licensee holds a license and not under any other name than that in the license. For purposes of this subsection, the closing of a supervised loan, secured by an interest in real estate, made by the licensee, at the office of an attorney or land title company, ~~shall~~ may not be considered the making or servicing of a supervised loan at the place of business other than the licensee's licensed location. Loans made pursuant to a lender credit card do not violate this subsection.

5-A. A licensee subject to subsection 1, paragraph A may conduct the business of making supervised loans only through a mortgage loan originator who possesses a current, valid license.

6. Any supervised loan, otherwise valid under the provisions of this Act, made by any corporation or by any subsidiary or affiliate of any corporation to which a license is granted by the administrator on or before June 30, 1975, and to which said supervised loan is assigned, ~~shall be~~ is deemed to have been made by a duly licensed licensee, provided the administrator finds that said corporation has made a good faith effort to comply with the licensing provisions of this Act.

**Sec. 6. 9-A MRSA §2-303, sub-§1,** as amended by PL 2011, c. 427, Pt. B, §7, is further amended to read:

1. The administrator may file a complaint with the District Court to suspend or revoke a license to make ~~or~~ originate or service supervised loans if the

administrator finds reason to believe, after investigation or hearing, or both, that:

- A. The licensee has violated this Act or any rule or order made pursuant to this Act; or
- B. Facts or conditions exist that would clearly have justified the administrator in refusing to grant a license had these facts or conditions been known to exist at the time the application for the license was made.

An affirmative finding by the District Court of either cause is sufficient to suspend or revoke the license.

**Sec. 7. 9-A MRSA §2-303-A**, as amended by PL 2011, c. 427, Pt. B, §8, is further amended to read:

**§2-303-A. Temporary suspension of license**

Notwithstanding Title 5, sections 10003 and 10004 and Title 10, section 8003, if the public interest or the protection of borrowers so requires, the administrator may, by order, suspend a license to make or service supervised loans or a license as a mortgage loan originator or postpone the effective date of such a license. Upon entry of the order, the administrator shall promptly notify the applicant or licensee that an order has been entered, of the reasons for the order and that, within 15 days after the receipt of a written request by the applicant or licensee, the matter must be scheduled for hearing. Section 2-303 applies to all subsequent proceedings.

**Sec. 8. 9-A MRSA §2-304, sub-§2**, as amended by PL 2013, c. 466, §6, is further amended to read:

2. The administrator may direct each licensee to file composite annual and quarterly reports relating to all supervised loans made ~~or~~ arranged or serviced by that licensee. Information contained in annual and quarterly reports is confidential and may be published only in composite form. The administrator may at any time require additional reports if the administrator determines such action necessary to the proper supervision of licensees.

**Sec. 9. 9-A MRSA §2-309**, as enacted by PL 1973, c. 762, §1, is amended to read:

**§2-309. No other business for purpose of evasion**

A supervised lender may not carry on other business for the purpose of evasion or violation of this Act at a location where ~~he~~ the supervised lender makes or services supervised loans.

**Sec. 10. 9-A MRSA §9-101**, as amended by PL 2007, c. 273, Pt. A, §24 and affected by §41, is further amended to read:

financial organizations, that are made to finance or refinance the acquisition of real estate or the initial construction of a dwelling or that are secured by a first-lien mortgage on real estate and applies to the servicing of those transactions.

**Sec. 11. 9-A MRSA §9-201**, as enacted by PL 1987, c. 396, §12, is amended to read:

**§9-201. Authority to make or service supervised loans; licensing**

**19. Wages.** "Wages" means all remuneration for personal services, including commissions, bonuses, severance or terminal pay, gratuities and the cash value of all remuneration in any medium other than cash. The reasonable cash value of remuneration in any medium other than cash ~~shall~~ must be estimated and determined in accordance with regulations prescribed by the commission, except that:

A. For purposes of section 1221, the term "wages" does not include remuneration that exceeds ~~the first \$7,000 through December 31, 1999, and on and after January 1, 2000, the first \$12,000 that is paid in a calendar year to an individual by an employer or the employer's predecessor for employment during any calendar year, unless that remuneration is subject to a tax under a federal law imposing a tax against which credit may be taken for contributions required to be paid into a state unemployment fund. The wages of an individual for employment with an employer are subject to this exception whether earned in this State or any other state when the employer-employee relationship is between the same legal entities;~~

B. For purposes of section 1191, subsection 2, section 1192, subsection 5 and section 1221, the term "wages" ~~shall~~ does not include:

(1) The amount of any payment, including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment, made to, or on behalf of, an employee or any of ~~his~~ the employee's dependents under a plan or system established by an employer ~~which~~ that makes provision for ~~his~~ the employer's employees generally, or for ~~his~~ the employer's employees generally and their dependents, or for a class or classes of ~~his~~ the employer's employees, or for a class or classes of ~~his~~ the employer's employees and their dependents, on account of:

(a) Sickness or accident disability, but, in the case of payments made to an employee or any of ~~his~~ the employee's dependents, this subparagraph ~~shall exclude~~ excludes from the term "wages" only payments ~~which~~ that are received under a workers' compensation law;

(b) Medical or hospitalization expenses in connection with sickness or accident disability; or

(c) Death;

(1-A) Any payment on account of sickness or accident disability, or medical or hospitalization expenses in connection with sickness or accident disability, made by an employer or a 3rd party to, or on behalf of, an employee after the expiration of 6 calendar months following the last calendar month in which the employee worked for that employer;

(2) The payment by an employing unit, without deduction from the remuneration of the employee, of the tax imposed upon an employee under section 3101 of the Federal Insurance Contributions Act, as amended, with respect to service performed after July 26, 1940, with respect to remuneration paid to an employee for domestic service in a private home of the employer or for agricultural labor; or

(3) The amount of any payment, other than vacation or sick pay, to an individual after the month in which ~~he~~ the individual attains the age of 62, if ~~he~~ the individual did not perform services for the employing unit in the period for which such payment is made and is not expected to perform service in the future for the payment; or

(4) The amount of any nominal fee or stipend to a volunteer whose service is excluded from the definition of employment pursuant to subsection 11, paragraph F, subparagraph (35);

C. With respect to weeks of unemployment beginning on or after January 1, 1978, wages for insured work includes wages paid for previously uncovered services. For the purposes of this paragraph, the term "previously uncovered services" means services:

(1) That were not employment as defined in subsection 11, and were not services covered pursuant to section 1222, at any time during the one-year period ending December 31, 1975; and

(2) That:

(a) Are agricultural labor, as defined in subsection 11, paragraph A-2 or domestic service as defined in subsection 11, paragraph A-3; or

(b) Are services performed by an employee of this State or a political subdivision thereof, or any of their instrumentalities as provided in subsection 11,

paragraph A-1, subparagraph (1), or by an employee of a nonprofit educational institution that is not an institution of higher education, as provided in subsection 11, paragraph F, subparagraph (17), division (i);

except to the extent that assistance under Title II of the Emergency Jobs and Unemployment Assistance Act of 1974 was paid on the basis of such services;

D. Nothing in this subsection may be construed to include as wages any payment ~~which that~~ is not included as wages under the Federal Unemployment Tax Act, 26 United States Code, Section 3306(b)(5) and (r), as amended, as of January 1, 1985; and

E. Nothing in this subsection may be construed to exclude from wages any remuneration ~~which that~~ is:

(1) Taxable under any federal law that imposes a tax against which credit may be taken for contributions required to be paid into a state unemployment fund; or

(2) Required to be covered under this chapter as a condition for full tax credit against the tax imposed by the Federal Unemployment Tax Act.

**Sec. 4. 26 MRSA §1192, sub-§6-E**, as enacted by PL 1999, c. 705, §1, is amended to read:

**6-E. Prohibition against disqualification of individuals in approved training under federal Workforce Innovation and Opportunity Act.** Notwithstanding any other provision of this chapter, unless inconsistent with federal law, the acceptance of training opportunities available through the federal ~~Workforce Investment~~ Innovation and Opportunity Act of 1998, 20 United States Code, Sections 9201 to 9276 (1998) is deemed to be acceptance of training with the approval of the State within the meaning of any other provision of federal or state law relating to unemployment benefits.

**Sec. 5. 26 MRSA §1192, sub-§13**, as enacted by PL 2011, c. 645, §4, is amended to read:

**13. Reemployment services and eligibility assessment; participation.** In the case that the individual has been referred to reemployment services and eligibility assessment ~~services~~ by the Department of Labor, the individual participates in those services, unless the department determines there is good cause for the individual's failure to participate. Failure to participate in reemployment services and eligibility assessment ~~services~~ without good cause results in a denial of benefits until the individual participates.

**Sec. 6. 26 MRSA §1193, sub-§1, ¶A**, as amended by PL 2009, c. 33, §1, is further amended to read:

A. For the week in which the claimant left regular employment voluntarily without good cause attributable to that employment. The disqualification continues until the claimant has earned 4 times the claimant's weekly benefit amount in employment by an employer. A claimant may not be disqualified under this paragraph if:

(1) The leaving was caused by the illness or disability of the claimant or an immediate family member and the claimant took all reasonable precautions to protect the claimant's employment status by promptly notifying the employer of the need for time off, a change or reduction in hours or a shift change and being advised by the employer that the time off or change or reduction in hours or shift change cannot or will not be accommodated;

(2) The leaving was necessary to accompany, follow or join the claimant's spouse in a new place of residence, ~~and the claimant is in all respects able, available and actively seeking suitable work;~~

(3) The leaving was in good faith in order to accept new employment on a permanent full-time basis and the new employment did not materialize for reasons attributable to the new employing unit;

(4) The leaving was necessary to protect the claimant or any member of the claimant's immediate family from domestic abuse or the leaving was due to domestic violence that caused the claimant reasonably to believe that the claimant's continued employment would jeopardize the safety of the claimant or any member of the claimant's immediate family and the claimant made all reasonable efforts to preserve the employment; or

(5) The claimant's employer announced in writing to employees that it planned to reduce the work force through a layoff or reduction in force and that employees may offer to be among those included in the layoff or reduction in force, at which time the claimant offered to be one of the employees included in the layoff or reduction in force and the claimant's employer accepted the claimant's offer, thereby ending the employment relationship.

Separation from employment based on the compelling family reasons in subparagraphs (1), (2) and (4) does not result in disqualification.

**Sec. 7. 26 MRSA §1193, sub-§1, ¶C**, as enacted by PL 1989, c. 702, Pt. F, §1, is amended to read:

C. For the duration of ~~an unpaid voluntary~~ a leave of absence or sabbatical leave that has been mutually agreed to by the employee and the employer.

**Sec. 8. 26 MRSA §1193, sub-§1, ¶D** is enacted to read:

D. For the duration of a partial separation or reduction of hours initiated at the employee's request and agreed to by the employee and employer:

**Sec. 9. 26 MRSA §1193, sub-§7-A**, as enacted by PL 1985, c. 420, §2, is amended to read:

**7-A. Absence from work due to incarceration.**

For the duration of ~~his~~ the individual's unemployment subsequent to a discharge arising from ~~his~~ the individual's absence from work for more than 2 workdays due to ~~his~~ the individual's incarceration for conviction of a criminal offense. This disqualification continues until the ~~claimant~~ individual has earned ~~4~~ 8 times ~~his~~ the individual's weekly benefit amount in employment by an employer; or

**Sec. 10. 26 MRSA §1198, sub-§1, ¶F**, as enacted by PL 2011, c. 91, §1 and affected by §3, is amended to read:

F. "Intermittent employment" means employment that is not continuous but may consist of intervals of weekly work and intervals of no weekly work or annually reoccurring reductions of work at a year-round business that has not been determined seasonal.

**Sec. 11. 26 MRSA §1198, sub-§2, ¶J**, as enacted by PL 2013, c. 448, §3, is amended to read:

J. The eligible employer allows eligible employees to participate, as appropriate, in training, including employer-sponsored training or worker training funded under the federal Workforce ~~Investment~~ Innovation and Opportunity Act of 1998, Public Law 105-220, 112 Stat. 936, to enhance job skills if such training has been approved by the commissioner.

**Sec. 12. 26 MRSA §1221, sub-§3, ¶A**, as amended by PL 2013, c. 175, §1, is further amended to read:

A. At the time the status of an employing unit is ascertained to be that of an employer, the commissioner shall establish and maintain, until the employer status is terminated, for the employer an experience rating record, to which are credited all the contributions that the employer pays on the employer's own behalf. This chapter may not be construed to grant any employer or individuals in the employer's service prior claims or rights to the

amounts paid by the employer into the fund. Benefits paid to an eligible individual under the Maine Employment Security Law must be charged against the experience rating record of the claimant's most recent subject employer or to the General Fund if the otherwise chargeable experience rating record is that of an employer whose status as such has been terminated; except that no charge may be made to an individual employer but must be made to the General Fund if the commission finds that:

- (1) The claimant's separation from the claimant's last employer was for misconduct in connection with the claimant's employment or was voluntary without good cause attributable to the employer;
- (2) The claimant has refused to accept reemployment in suitable work when offered by a previous employer, without good cause attributable to the employer;
- (3) Benefits paid are not chargeable against any employer's experience rating record in accordance with section 1194, subsection 11, paragraphs B and C;
- (5) Reimbursements are made to a state, the Virgin Islands or Canada for benefits paid to a claimant under a reciprocal benefits arrangement as authorized in section 1082, subsection 12, as long as the wages of the claimant transferred to the other state, the Virgin Islands or Canada under such an arrangement are less than the amount of wages for insured work required for benefit purposes by section 1192, subsection 5;
- (6) The claimant was hired by the claimant's last employer to fill a position left open by a Legislator given a leave of absence under chapter 7, subchapter 5-A, and the claimant's separation from this employer was because the employer restored the Legislator to the position after the Legislator's leave of absence as required by chapter 7, subchapter 5-A;
- (7) The claimant was hired by the claimant's last employer to fill a position left open by an individual who left to enter active duty in the United States military, and the claimant's separation from this employer was because the employer restored the military serviceperson to the person's former employment upon separation from military service; ~~or~~
- (8) The claimant was hired by the claimant's last employer to fill a position left open by an individual given a leave of absence for family medical leave provided under Maine or federal law, and the claimant's separation from

this employer was because the employer restored the individual to the position at the completion of the leave; or

(9) The claimant initiated a partial separation or reduction of hours and that partial separation or reduction of hours was agreed to by the employee and employer.

**Sec. A-9. 38 MRSA §420, sub-§1-B, ¶C**, as enacted by PL 2001, c. 418, §3, is amended to read:

C. The department may establish a site-specific bioaccumulation factor for mercury when there is sufficient information to indicate that a site-specific bioaccumulation factor will be protective of human health and wildlife. A site-specific bioaccumulation factor may only be established:

- (1) As part of a licensing proceeding pursuant to section 413 by the ~~board~~ department; or
- (2) As part of a remediation or corrective action plan, license or order approved either by the department pursuant to section 1301, 1304, 1319, 1364 or 1365, or by the United States Environmental Protection Agency under federal law with the concurrence of the department.

**Sec. A-10. 38 MRSA §420, sub-§2**, as amended by PL 2011, c. 194, §2, is further amended to read:

**2. Toxic or hazardous substances.** Any other toxic substance in any amount or concentration greater

than that identified or regulated, including complete prohibition of such substance, by the board department. In identifying and regulating such toxic substances, the board department shall take into account the toxicity of the substance, its persistence and degradability, the usual or potential presence of any organism affected by such substance in any waters of the State, the importance of such organism and the nature and extent of the effect of such substance on such organisms, either alone or in combination with substances already in the receiving waters or the discharge. As used in this subsection, "toxic substance" shall mean means those substances or combination of substances, including disease-causing disease-causing agents, ~~which that~~ after discharge or upon exposure, ingestion, inhalation or assimilation into any organism, including humans either directly through the environment or indirectly through ingestion through food chains, will, on the basis of information available to the board department either alone or in combination with other substances already in the receiving waters or the discharge, cause death, disease, abnormalities, cancer, genetic mutations, physiological malfunctions, including malfunctions in reproduction, or physical deformations in such organism or ~~their its~~ offspring.

A. Except as naturally occurs or as provided in paragraphs B and C, the board department shall regulate toxic substances in the surface waters of the State at the levels set forth in federal water quality criteria as established by the United States Environmental Protection Agency pursuant to the Federal Water Pollution Control Act, Public Law 92-500, Section 304(a), as amended.

B. The board department may change the statewide criteria established under paragraph A for a particular toxic substance established pursuant to the Federal Water Pollution Control Act, Public Law 92-500, Section 304(a), as amended, as follows:

- (1) By adopting site-specific numerical criteria for the toxic substance to reflect site-specific circumstances different from those used in, or any not considered in, the derivation of the statewide criteria. The board department shall adopt site-specific numerical criteria only as part of a licensing proceeding pursuant to sections 413, 414 and 414-A; or
- (2) By adopting alternative statewide criteria for the toxic substance. The alternative statewide criteria must be adopted by rule.

The board department may substitute site-specific criteria or alternative statewide criteria for the criteria established in paragraph A only upon a finding that the site-specific criteria or alternative statewide criteria are based on sound scientific rationale and are protective of the most sensitive designated use of the water body, including, but

not limited to, human consumption of fish and drinking water supply after treatment.

C. When surface water quality standards are not being met due to the presence of a toxic substance for which no water quality criteria have been established pursuant to the Federal Water Pollution Control Act, Section 304(a), as amended, the board department shall:

- (1) Adopt statewide numerical criteria by rule; or
- (2) Adopt site-specific numerical criteria as part of a licensing proceeding under sections 413, 414 and 414-A.

Nothing in this section restricts the authority of the board department to adopt, by rule, statewide or site-specific numerical criteria for toxic substances that are not presently causing water quality standards to be violated.

D. For any criteria established under this subsection, the board department shall establish the acceptable level of additional risk of cancer to be borne by the affected population from exposure to the toxic substance believed to be carcinogenic.

E. In regulating substances that are toxic to humans, including any rulemaking to regulate these substances, the board department shall consider any information provided by the Department of Health and Human Services.

F. The Department of Health and Human Services may request that the board department adopt or revise the statewide or site-specific criteria for any toxic substance based on the need to protect public health. If the request is filed with the board department, the board department may propose a rule and initiate a rule-making proceeding. The board department shall incorporate in its proposal for rulemaking under this paragraph the statewide or site-specific criteria recommended by the Department of Health and Human Services.

G. Numeric water quality criteria for 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin established by the United States Environmental Protection Agency under the Federal Water Pollution Control Act, Public Law 92-500, Section 304(a), as amended, do not apply until June 1, 1991, and only apply on that date if the board department has not adopted through rulemaking or individual licensing proceedings under this section alternative numeric water quality criteria for 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin. Pursuant to section 414-A, subsection 2, the board department shall establish schedules for compliance with criteria established under this section. These schedules must be consistent with the compliance deadlines established under the Federal Water Pollution

Control Act, Public Law 92-500, Section 304(l), as amended.

H. Notwithstanding paragraphs D and G, the ~~board~~ department may not adopt any numeric water quality criteria for, or acceptable level of additional cancer risk from exposure to, 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin prior to January 1, 1994.

I. Notwithstanding any other provision of this section, the following standards apply only to a bleach kraft pulp mill, referred to in this paragraph as a "mill."

(1) After July 31, 1998, a mill may not have a detectable quantity of 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin as measured in any internal waste stream of its bleach plant. For purposes of compliance, the detection level is 10 picograms per liter, unless the department adopts a lower detection level by rule, which is a routine technical rule pursuant to Title 5, chapter 375, subchapter 2-A, or a lower detection level by incorporation of a method in use by the United States Environmental Protection Agency.

(2) After December 31, 1999, a mill may not have a detectable quantity of 2, 3, 7, 8-tetrachlorodibenzo-p-furan as measured in any internal waste stream of its bleach plant. The commissioner may extend this time frame up to 6 months for a mill if the commissioner determines, based on information presented by the mill, that compliance is not achievable by the deadline due to engineering constraints, availability of equipment or other justifiable technical reasons. For purposes of compliance, the detection level is 10 picograms per liter, unless the department adopts a lower level of detection by rule, which is a routine technical rule pursuant to Title 5, chapter 375, subchapter 2-A, or a lower detection level by incorporation of a method in use by the United States Environmental Protection Agency. If a mill fails to achieve this requirement, as documented by confirmatory sampling, it shall conduct a site-specific evaluation of feasible technologies or measures to achieve it. This evaluation must be submitted to the commissioner within 6 months of the date of confirmatory sampling and include a timetable for implementation, acceptable to the commissioner, with an implementation date no later than December 31, 2002. The commissioner may establish a procedure for confirmatory sampling.

(3) After December 31, 2002, a mill may not discharge dioxin into its receiving waters. For purposes of this subparagraph, a mill is

considered to have discharged dioxin into its receiving waters if 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin or 2, 3, 7, 8-tetrachlorodibenzo-p-furan is detected in any of the mill's internal waste streams of its bleach plant and in a confirmatory sample at levels exceeding 10 picograms per liter, unless the department adopts a lower detection level by rule, which is a routine technical rule pursuant to Title 5, chapter 375, subchapter 2-A, or a lower detection level by incorporation of a method in use by the United States Environmental Protection Agency, or if levels of dioxin, as defined in section 420-B, subsection 1-A, paragraph A detected in fish tissue sampled below the mill's wastewater outfall are higher than levels in fish tissue sampled at an upstream reference site not affected by the mill's discharge or on the basis of a comparable surrogate procedure acceptable to the commissioner. The commissioner shall consult with the technical advisory group established in section 420-B, subsection 1, paragraph B, subparagraph (5) in making this determination and in evaluating surrogate procedures. The fish-tissue sampling test must be performed with differences between the average concentrations of dioxin in the fish samples taken upstream and downstream from the mill measured with at least 95% statistical confidence. If the mill fails to meet the fish-tissue sampling-result requirements in this subparagraph and does not demonstrate by December 31, 2004 and annually thereafter to the commissioner's satisfaction that its wastewater discharge is not the source of elevated dioxin concentrations in fish below the mill, then the commissioner may pursue any remedy authorized by law.

(4) For purposes of documenting compliance with subparagraphs (1) and (2) the internal waste stream of a bleach plant must be sampled twice per quarter by the mill. The department may conduct its own sampling and analysis of the internal waste stream of a bleach plant. Analysis of the samples must be conducted by a 3rd-party laboratory using methodology approved by the United States Environmental Protection Agency. A mill shall report to the department for informational purposes the actual laboratory results including sample detection limits on a frequency to be established by the commissioner.

The commissioner shall assess the mill for the costs of any sampling performed by the department and any analysis performed for the department under this paragraph and credit

funds received to the Maine Environmental Protection Fund.

The commissioner may reduce the frequency of sampling required by a mill after 3 consecutive years of sampling have demonstrated the mill does not have a detectable quantity of 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin or 2, 3, 7, 8-tetrachlorodibenzo-p-furan.

J. Notwithstanding any other provision of law to the contrary, the department shall use a one in 10,000 risk level when calculating ambient water quality criteria for inorganic arsenic.

**Sec. A-11. 38 MRSA §490-Y, first ¶**, as amended by PL 2007, c. 297, §9, is further amended to read:

Except as provided in section 484-A, a person intending to create or operate a quarry under this article must file a notice of intent to comply before the total area of excavation of rock or overburden on the parcel exceeds one acre excavated since January 1, 1970. Both reclaimed and unreclaimed areas are added together in determining whether this one-acre threshold is exceeded. A notice filed under this section must be complete, submitted on forms approved by the department and mailed to the municipality where the quarry is located, the department, the Maine Historic Preservation Commission and each abutting property owner. The notice that is mailed to the municipality and each abutting property owner must be sent by certified mail at least 7 days before the notice of intent to comply is filed with the regulator. The notice that is mailed to the department must be sent by certified mail, return receipt requested. Upon receiving the postal receipt, the owner or operator may commence operation of the quarry. The municipality where the proposed quarry is located may submit comments to the department if the proposed quarry may pose an unreasonable adverse impact under the standards in section 490-Z. Within 30 days of receipt of the notice of intent to comply, the department shall respond to the comments made by the municipality. Abutting property owners, the Maine Historic Preservation Commission or other interested persons may submit comments directly to the department.

**Sec. A-12. 38 MRSA §496-A, 2nd ¶**, as affected by PL 1989, c. 890, Pt. A, §40 and amended by Pt. B, §104, is further amended to read:

The commission may administer programs of training and certification for such personnel, and may make classifications thereof. Any certificate issued by the commission ~~shall~~ must be accepted by this State and all agencies and subdivisions ~~thereof~~ of the State as conclusive evidence that the holder has the training, education and experience necessary for certification for the class of position or responsibility described ~~therein~~ in the certificate. The ~~Board of Environmental~~

~~Protection may impose and the~~ Commissioner of Environmental Protection may administer any other requirements for certification within any applicable provisions of law, but the commissioner ~~shall~~ may not reexamine or reinvestigate the applicant for a certificate with respect to the applicant's training, education or experience qualifications.

**Sec. A-13. 38 MRSA §568-A, sub-§3**, as enacted by PL 1989, c. 865, §15 and affected by §§24 and 25, is amended to read:

**3. Exemptions from deductible.** The commissioner may waive the deductible requirement for an applicant's personal residence if the commissioner determines that the applicant does not have the financial resources to pay the deductible. The ~~board~~ commissioner shall adopt rules to determine the standards to be used to assess an applicant's ability to pay this deductible.

**Sec. A-14. 38 MRSA §3102, sub-§9**, as enacted by PL 2015, c. 166, §14, is amended to read:

**9. Hard cider.** "Hard cider" means a beverage produced by fermentation of the juice of fruit, including, but not limited to, flavored, sparkling or carbonated cider that contains not less than 1/2 of 1% alcohol by volume and not more than ~~7%~~ 8.5% alcohol by volume.

## PART B

**Sec. B-1. 38 MRSA §465-A, first ¶**, as affected by PL 1989, c. 890, Pt. A, §40 and amended by Pt. B, §64, is further amended to read:

The department shall have one standard for the classification both of great ponds and of natural lakes and ponds less than 10 acres in size. Impoundments of rivers that are defined as great ponds pursuant to section 480-B are classified as GPA or as specifically provided in sections 467 and 468.

**Sec. B-2. 38 MRSA §465-A, sub-§1**, as amended by PL 2013, c. 193, §4, is further amended to read:

**1. Class GPA waters.** Class GPA ~~shall be~~ is the sole classification both of great ponds and of natural lakes and ponds ~~and lakes~~ less than 10 acres in size.

A. Class GPA waters must be of such quality that they are suitable for the designated uses of drinking water after disinfection, recreation in and on the water, fishing, agriculture, industrial process and cooling water supply, hydroelectric power generation, navigation and as habitat for fish and other aquatic life. The habitat must be characterized as natural.

B. Class GPA waters must be described by their trophic state based on measures of the chlorophyll "a" content, Secchi disk transparency, total phosphorus content and other appropriate criteria.

Class GPA waters must have a stable or decreasing trophic state, subject only to natural fluctuations, and must be free of culturally induced algal blooms that impair their use and enjoyment. The number of *Escherichia coli* bacteria of human and domestic animal origin in these waters may not exceed a geometric mean of 29 per 100 milliliters or an instantaneous level of 194 per 100 milliliters.

C. There may be no new direct discharge of pollutants into Class GPA waters. The following are exempt from this provision:

- (1) Chemical discharges for the purpose of restoring water quality approved by the department;
- (2) Aquatic pesticide or chemical discharges approved by the department and conducted by the department, the Department of Inland Fisheries and Wildlife or an agent of either agency for the purpose of restoring biological communities affected by an invasive species;
- (3) Storm water discharges that are in compliance with state and local requirements;
- (4) Discharges of aquatic pesticides approved by the department for the control of mosquito-borne diseases in the interest of public health and safety using materials and methods that provide for protection of non-target species. When the department issues a license for the discharge of aquatic pesticides authorized under this subparagraph, the department shall notify the municipality in which the application is licensed to occur and post the notice on the department's publicly accessible website; and
- (5) Discharges of pesticides approved by the department that are:
  - (a) Unintended and an incidental result of the spraying of pesticides;
  - (b) Applied in compliance with federal labeling restrictions; and
  - (c) Applied in compliance with statute, Board of Pesticides Control rules and best management practices.

Discharges into these waters licensed prior to January 1, 1986 are allowed to continue only until practical alternatives exist. Materials may not be placed on or removed from the shores or banks of a Class GPA water body in such a manner that materials may fall or be washed into the water or that contaminated drainage may flow or leach into those waters, except as permitted pursuant to section 480-C. A change of land use in the watershed of a Class GPA water body may not, by itself

or in combination with other activities, cause water quality degradation that impairs the characteristics and designated uses of downstream GPA waters or causes an increase in the trophic state of those GPA waters.

**Sec. B-3. 38 MRSA §467, sub-§3, ¶B**, as amended by PL 2005, c. 330, §11, is further amended to read:

When a recount is requested for a statewide office or congressional office or statewide referendum or an office or referendum for a county office that encompasses more than one county, the Secretary of State, ~~in agreement with the parties involved in the recount~~, may direct the State Police to retrieve ballots from certain voting jurisdictions so that the recount may be conducted in stages until the requesting candidate or the lead applicant for a referendum recount concedes or until all the ballots are recounted.

**Sec. 4. 21-A MRSA §737-A, sub-§1,** as amended by PL 2015, c. 447, §29, is further amended to read:

**1. Deposit for legislative or single county office recount.** This subsection applies to a recount for an election for the office of State Senator or State Representative or for a county office that does not encompass more than one county. All deposits required by this section must be made with the Secretary of State when a recount is requested by a losing candidate or an undeclared write-in candidate. Once the State Police have taken custody of the ballots and other election materials from the municipalities, the deposit made by the candidate requesting the recount is forfeited to the State if the resulting count fails to change the outcome of the election. If the recount reverses the election, the deposit must be returned to the candidate requesting the recount. The amount of the deposit is calculated as follows.

A. If the percentage difference shown by the official tabulation between the leading candidate and the requesting candidate is 1.5% or less of the total votes cast for that office, a deposit is not required.

B. If the percentage difference shown by the official tabulation between the leading candidate and the requesting candidate is more than 1.5% and

less than or equal to 4% of the total votes cast for that office, the deposit is \$500.

C. If the percentage difference shown by the official tabulation between the leading candidate and the requesting candidate is more than 4% and less than or equal to 6% of the total votes cast for that office, the deposit is \$1,000.

D. If the percentage difference shown by the official tabulation between the leading candidate and the requesting candidate is more than 6% and less than or equal to 8% of the total votes cast for that office, the deposit is \$2,500.

E. If the percentage difference shown by the official tabulation between the leading candidate and the requesting candidate is more than 8% and less than or equal to 10% of the total votes cast for that office, the deposit is \$5,000.

F. If the percentage difference shown by the official tabulation between the leading candidate and the requesting candidate is more than 10% of the total votes cast for that office, the deposit is \$10,000.

**Sec. 5. 21-A MRSA §737-A, sub-§1-A** is enacted to read:

**1-A. Deposit for statewide or multicounty office recount.** This subsection applies to a recount for an office not described by subsection 1. A losing candidate who requests a recount must pay the deposit required by this subsection when the recount is requested. The amount of the deposit is calculated as follows.

A. If the difference shown by the official tabulation between the leading candidate and the requesting candidate is 1% or less of the total votes cast for that office or not more than 1,000 votes, whichever is less, a deposit is not required. A candidate who is not required to pay a deposit pursuant to this subsection may not be charged for the recount regardless of whether the procedure changes the result of the election.

B. If the difference shown by the official tabulation between the leading candidate and the requesting candidate is more than 1% of the total votes cast for that office or more than 1,000 votes, whichever is less, the deposit is \$5,000 or 10% of the reasonable estimate of the cost to the State of performing the first stage of the recount, whichever is greater. After completion of the recount, if the recount has not changed the result of the election, the Secretary of State shall calculate the actual cost of the procedure, which must be paid by the requesting candidate. If the deposit is greater than the actual cost, the overpayment must be refunded to the candidate. If the actual cost is greater than the deposit, the candidate shall pay

the remainder of the actual cost to the State. Once the State Police have taken custody of the ballots and other election materials for the first stage of the recount, the deposit made by the candidate requesting the recount is forfeited to the State even if the candidate withdraws from the recount before the recount begins. If a recount reverses the election, the deposit must be returned to the candidate requesting the recount.

**Sec. 6. 21-A MRSA §737-A, sub-§2**, as enacted by PL 1993, c. 473, §31 and affected by §46, is amended to read:

**2. Recount request.** If a ballot contains the names of state and local candidates or questions, the Secretary of State shall determine which requests for recount must be honored first when more than one request is presented. If a recount is requested for more than one office or referendum question that is included on the same ballot for one or more jurisdictions, the Secretary of State may determine a process for counting the ballots for both offices or questions simultaneously.

**Sec. 7. 21-A MRSA §737-A, sub-§2-A**, as enacted by PL 2009, c. 253, §43, is amended to read:

**2-A. Recount for write-in candidates.** For the purposes of this section, a declared write-in candidate who has complied with the requirements of section 722-A is treated the same as any candidate whose name is printed on the ballot. ~~An undeclared write-in candidate also may request a recount and be treated as a designated recount candidate, but only upon first submitting a written request for a recount that must contain a statement signed by the candidate that the candidate will accept the nomination. The consent must contain a declaration of the candidate's place of residence and party designation and a statement that the candidate meets the qualifications of the office the write-in candidate seeks, which the candidate must verify by oath or affirmation before a notary public or other person authorized by law to administer oaths or affirmations that the declaration is true. The undeclared write-in candidate must submit a \$10,000 deposit. If the recount fails to reverse the outcome of the election, the undeclared candidate must also pay the actual cost of the recount, as determined by the Secretary of State.~~

**Sec. 8. 21-A MRSA §738**, as amended by PL 1995, c. 506, §1 and affected by §3, is repealed and the following enacted in its place:

**§738. Statewide referendum ballots**

Except as provided by this section, the method of conducting a recount of a statewide referendum is governed by section 737-A. Appeal of challenged or disputed ballots is to the Supreme Judicial Court.

**1. Recount request.** To request a recount of a statewide referendum, a petition signed by 200 or more registered voters must be submitted to the Secretary of State within 8 business days after the election. The Secretary of State shall provide a petition form for this purpose to any registered voter in the State who requests it within 2 days of receiving the request.

**2. Deposit for recount.** A representative of the recount petitioners shall pay the deposit required by this section when the petition is submitted to the Secretary of State. The amount of the deposit is calculated as follows.

A. If the difference shown by the official tabulation between the yes and the no votes is 1% or less of the total votes cast for that question or not more than 1,000 votes, whichever is less, a deposit is not required. Petitioners who are not required to pay a deposit pursuant to this subsection may not be charged for the recount regardless of whether the procedure changes the result of the election.

B. If the difference shown by the official tabulation between the yes and the no votes is more than 1% of the total votes cast for that question or more than 1,000 votes, whichever is less, the deposit is \$5,000 or 10% of the reasonable estimate of the cost to the State of performing the first stage of the recount, whichever is greater. After the completion of the recount, if the recount has not changed the result of the election, the Secretary of State shall calculate the cost of the procedure, which must be paid by the petitioners. If the deposit is greater than the actual cost, the overpayment must be refunded to the petitioners. If the actual cost is greater than the deposit, the petitioners shall pay to the State the remainder of the actual cost. Once the State Police have taken custody of the ballots and other election materials for the first stage of the recount, the deposit made by the petitioners is forfeited to the State even if the petitioners withdraw from the recount before the recount begins. If a recount reverses the result of the election, the deposit must be returned to the petitioners.

**3. Order of recounts.** If a ballot contains state and local candidates or questions and a recount is requested, the Secretary of State shall determine which requests for recount must be honored first when more than one request is presented. If recounts are requested for more than one office or referendum question that is included on the same state ballot for one or more jurisdictions, the Secretary of State may determine a process for counting the ballots for both offices or questions simultaneously.

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 12 MRSA §549-B, sub-§7, ¶C-1** is enacted to read:

C-1. Notwithstanding any other provision of law to the contrary, the director of the agency having jurisdiction over the state lands on which a mining lease is sought may not grant a mining lease under this section that authorizes mining operations proposed to be located wholly or partially in, on or under any of the following state lands:

- (1) Designated lands under section 598-A;
- (2) Historic sites as defined in section 1801, subsection 5;
- (3) Parks as defined in section 1801, subsection 7;

**Sec. 2. 38 MRSA §490-MM, sub-§§5-A, 10-A, 10-B, 10-C and 13-A** are enacted to read:

**5-A. Dry stack tailings management.** "Dry stack tailings management" means the process of disposing of dewatered, compacted mine tailings into a freestanding, stable structure on an area with an impervious liner designed to shed water to a water collection and treatment system.

**10-A. Mine shaft.** "Mine shaft" means a vertical, inclined or horizontal excavation, including all underground workings, with a surface opening not exceeding 1,000 square feet.

**10-B. Mine waste.** "Mine waste" means all material, including, but not limited to, overburden, rock, lean ore, leached ore or tailings, that in the process of mining and beneficiation has been exposed or removed from the earth during advanced exploration and mining activities.

**10-C. Mine waste unit.** "Mine waste unit" means any land area, structure, location, equipment or combination thereof on or in which mine wastes are managed. A structure or area of land does not become a mine waste unit solely because it is used to store nonreactive mine wastes generated on the site, such as soil or overburden, for 90 days or less.

**13-A. Open-pit mining.** "Open-pit mining" means, for any single mining operation permitted under this article, the process of mining a metallic mineral deposit by use of surface pits or excavations having greater than 3 acres of surface area in aggregate or by means of a surface pit excavated using one or more horizontal benches.

**Sec. 3. 38 MRSA §490-MM, sub-§17,** as enacted by PL 2011, c. 653, §23 and affected by §33, is repealed and the following enacted in its place:

**17. Tailings impoundment.** "Tailings impoundment" means a surface area, contained by dikes or dams, on which is deposited the slurry of material that is separated from a metallic product in the beneficiation or treatment of minerals, including any surrounding dikes constructed to contain such material. "Tailings impoundment" does not include a lined surface area on which dewatered tailings are stacked.

**Sec. 4. 38 MRSA §490-MM, sub-§18** is enacted to read:

**18. Wet mine waste unit.** "Wet mine waste unit" means a mine waste unit in which mine wastes are placed under water to minimize sulfide oxidation, acid formation or particulate pollution.

**Sec. 5. 38 MRSA §490-NN, sub-§1, ¶B,** as enacted by PL 2011, c. 653, §23 and affected by §33, is amended to read:

B. In addition to other powers granted to it, the department shall adopt rules to carry out its duties under this article, including, but not limited to, standards for exploration, advanced exploration, construction, operation, closure, post-closure monitoring, reclamation and remediation. Except as otherwise provided, rules adopted under this article are major substantive rules for purposes of Title 5, chapter 375, subchapter 2-A and are subject to section 341-H. Notwithstanding Title 5, section 8072, subsection 11, or any other provision of law to the contrary, rules provisionally adopted by the department in accordance with this article and submitted for legislative review may not be finally adopted by the department unless legislation authorizing final adoption of those rules is enacted into law.

**Sec. 6. 38 MRSA §490-NN, sub-§2,** as enacted by PL 2011, c. 653, §23 and affected by §33 and amended by c. 682, §38, is further amended to read:

**2. Maine Land Use Planning Commission.** The department may not approve a permit under this article in an unorganized territory unless the Maine Land Use Planning Commission certifies to the department that:

A. The proposed mining is an allowed use within the subdistrict or subdistricts in which it is to be located; and

B. The proposed mining meets any land use standard established by the Maine Land Use Planning Commission and applicable to the project that is not considered in the department's review.

The Maine Land Use Planning Commission shall adopt rules in accordance with this subsection relating to the certification of mining permit applications under this article. Notwithstanding any other provision of law to the contrary, rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 7. 38 MRSA §490-OO, sub-§4, ¶¶D and H,** as enacted by PL 2011, c. 653, §23 and affected by §33, are amended to read:

D. There is reasonable assurance that discharges of pollutants from the mining operation will not violate applicable water quality standards. Notwithstanding sections 465-C and 470, ~~discharges to~~ contamination of groundwater from activities permitted under this article may occur within a mining area, but such ~~discharges~~ contamination must be limited and may not result in ~~contamination of groundwater beyond each mining area. In determining compliance with this standard, the department shall require groundwater monitoring consistent with the standards established pursuant to section 490-QQ, subsection 3-;~~

(1) Contamination of groundwater beyond the mining area;

(2) Contamination of groundwater within the mining area that exceeds applicable water quality criteria for pollutants other than pH or metals;

(3) Contamination of groundwater within the mining area due to pH or metals that exceeds limits set forth in the mining permit by the department based on site-specific geologic and hydrologic characteristics;

(4) Any violation of surface water quality standards under section 413 or article 4-A; or

(5) If groundwater or surface water quality within the mining area prior to the commencement of any mining activity exceeds applicable water quality standards, further degradation of such groundwater or surface water quality.

In determining compliance with this standard, the department shall require groundwater monitoring consistent with the standards established pursuant to section 490-QQ, subsection 3.

Notwithstanding section 490-MM, subsection 12, for the purposes of this paragraph, "mining area" means an area of land, approved by the department and set forth in the mining permit, not to exceed 100 feet in any direction from a mine shaft, surface pit or surface excavation, and does not include the following lands, regardless of the distance of such land from a mine shaft, surface pit or surface excavation: the land on which material from mining is stored or deposited, the land on which beneficiating or treatment facilities are located, the land on which groundwater and surface water management systems are located or the land on which water reservoirs used in a mining operation are located.

H. The mining operation will not unreasonably cause or increase the flooding of the area that is altered by the mining operation or adjacent properties or create an unreasonable flood hazard to any structure. Mining Notwithstanding any provision of law to the contrary, mining operations involving the removal of metallic minerals, the storage of metallic minerals or mine waste, the processing of metallic minerals or the treatment of mine waste may not be placed in or on flood plains or flood hazard areas as long as they are designed, constructed, operated and reclaimed in a manner that complies with the approval criteria in this subsection and the Natural Resources Protection Act.

**Sec. 8. 38 MRSA §490-OO, sub-§4, ¶¶K to O** are enacted to read:

K. No part of the mining operation will be located wholly or partially in, on or under any state land listed in Title 12, section 549-B, subsection 7, paragraph C-1.

L. The mining operation will not involve the removal of metallic minerals in, on or from a river, stream or brook, as defined in section 480-B, subsection 9; a great pond, as defined in section 480-B, subsection 5; a freshwater wetland, as defined in section 480-B, subsection 4; or a coastal wetland, as defined in section 480-B, subsection 2.

M. The mining operation will not involve placement of a mine shaft in, on or under a significant river segment, as identified in section 437; an outstanding river segment, as identified in section 480-P; an outstanding river, as identified in Title 12, section 403; a high or moderate value waterfowl and wading bird habitat that is a significant wildlife habitat pursuant to section 480-B, subsec-

tion 10, paragraph B, subparagraph (2); a great pond, as defined in section 480-B, subsection 5; or a coastal wetland, as defined in section 480-B, subsection 2.

N. The mining operation will use dry stack tailings management and will not use wet mine waste units or tailings impoundments for the management of mine waste and tailings, except that the mining operation may involve the placement into a mine shaft of waste rock that is neutralized or otherwise treated to prevent contamination of groundwater or surface water.

O. The mining operation will not use open-pit mining.

**Sec. 9. 38 MRSA §490-RR, sub-§2**, as enacted by PL 2011, c. 653, §23 and affected by §33, is repealed and the following enacted in its place:

**2. Coverage and form of financial assurance.** The financial assurance required under subsection 1 applies to all mining and reclamation operations that are subject to a mining permit.

A. The amount of the financial assurance must be sufficient to cover the cost for the department to administer, and hire a 3rd party to implement, all necessary investigation, monitoring, closure, post-closure, treatment, remediation, corrective action, reclamation, operation and maintenance activities under the environmental protection, reclamation and closure plan, including, but not limited to:

(1) The cost to investigate all possible releases of contaminants at the site, monitor all aspects of the mining operation, close the mining operation in accordance with the closure plan, conduct treatment activities of all expected fluids and wastes generated by the mining operation for a minimum of 100 years, implement remedial activities for all possible releases and maintenance of structures and waste units as if these units have released contaminants to the groundwater and surface water, conduct corrective actions for potential environmental impacts to groundwater and surface water resources as identified in the environmental impact assessment and conduct all other necessary activities at the mine site in accordance with the environmental protection, reclamation and closure plan; and

(2) The cost to respond to a worst-case catastrophic mining event or failure, including, but not limited to, the cost of restoring, repairing and remediating any damage to public facilities or services, to private property or to the environment resulting from the event or failure.

B. An applicant for a mining permit must include with its application a review of the proposed financial assurance amounts required under this section as performed by a qualified, independent 3rd-party reviewer approved by the department. The costs of the 3rd-party review must be paid by the applicant. Estimates of the costs of a worst-case catastrophic mining event or failure under paragraph A, subparagraph (2) provided by the applicant may not include costs to the applicant associated with loss of use of any mining operation or facility or the costs of repairing any damaged mining operation or facility to restore operations or other functionality.

C. The department shall require the applicant to provide financial assurance in the amount determined by the 3rd-party reviewer under paragraph B to be sufficient for the department to conduct all activities listed under paragraph A. Financial assurance estimates provided by the applicant and reviewed by the 3rd-party reviewer under this section must use the highest cost option for all estimates and include a minimum 20% contingency to account for unexpected expenses.

D. The financial assurance required by department under this subsection must consist of a trust fund that is secured with any of the following forms of negotiable property, or a combination thereof, as approved by the department:

(1) A cash account in one or more federally insured accounts;

(2) Negotiable bonds issued by the United States or by a state or a municipality having a Standard and Poor's credit rating of AAA or AA or an equivalent rating from a national securities credit rating service; or

(3) Negotiable certificates of deposit in one or more federally insured depositories.

E. The financial assurance required by the department under this section must be posted by the applicant before the department issues a permit to mine under this article.

**Sec. 10. 38 MRSA §490-RR, sub-§3**, as enacted by PL 2011, c. 653, §23 and affected by §33, is repealed.

**Sec. 11. Department of Environmental Protection; approval of final adoption.** Final adoption of Chapter 200: Metallic Mineral Exploration, Advanced Exploration and Mining, a provisionally adopted major substantive rule of the Department of Environmental Protection that was submitted to the Legislature for review pursuant to the Maine Revised Statutes, Title 5, chapter 375, subchapter 2-A on January 13, 2017, is authorized only if the following changes are made:

If the court finds that good cause exists for the delay, the court may extend the 14-day period to the date of production specified by the foreign entity provider and the provider is prohibited from asserting that the warrant has expired. For purposes of this paragraph, good cause includes, but is not limited to, impracticability of timely response, difficulty of identifying and retrieving the data requested and the volume of data or number of sources sought.

A. A domestic entity provider, when served with criminal process issued by another state to produce records that would reveal the identity of a customer using services, data stored by or on behalf of a customer, a customer's usage of the service, the recipient or destination of communications sent to or from a customer, content information or location information, shall produce those records as if that criminal process had been issued by a court in this State.

(2) The law enforcement officer shall file a notice with the court of the reasons under subparagraph (1).

If the court finds that good cause exists for the delay, the court may extend the 14-day period to the date of production specified by the domestic entity provider and the provider is prohibited from asserting that the warrant has expired. For purposes of this paragraph, good cause includes, but is not limited to, impracticability of timely response, difficulty of identifying and retrieving the data requested and the volume of data or number of sources sought.

A domestic entity provider served with a grand jury subpoena pursuant to this section shall produce to the prosecutor or grand jury all records sought, including those records maintained or located outside this State, by or at the time of the grand jury appearance. The grand jury subpoena must include the address of the prosecutor or grand jury to which the provider must produce the records.

E. A domestic entity provider that produces records or testifies pursuant to this subsection is immune from criminal or civil liability for the release of the requested information to the court, attorney for the State or law enforcement agency involved in the investigation.

**4. Application for expedited production of records.** Notwithstanding the 14-day period specified in subsection 2 or 3 for production of the records, if an applicant for a search warrant believes that delaying production is reasonably likely to cause an adverse result, the applicant may request that the court require the production of the records sooner than 14 days after service pursuant to this subsection.

A. The applicant shall demonstrate to the court the specific adverse result or results, as specified in subsection 1, paragraph A, subparagraphs (1) to (7), that delaying production for 14 days is reasonably likely to cause.

B. If the court finds that the delay may cause an adverse result, the court shall state the adverse result specified in subsection 1, paragraph A, subparagraphs (1) to (7) and may require the provider to produce the records in a specified number of days.

C. If the court specifies that the provider has less than 14 days to produce the record and the adverse result finding is listed in subsection 1, paragraph A, subparagraphs (1) to (4), the provider must respond within the time specified by the court.

D. The law enforcement officer shall file the provider's response with the court, and, upon a demonstration of good cause by the provider, the response period may be extended by the court to no more than 14 days from the date of service of the warrant. As used in this paragraph, good cause includes, but is not limited to, impracticability of timely response, difficulty of identifying and retrieving the data requested and the volume of data or number of sources sought.

**An Act To Clarify the  
Financial Authority of Sewer  
and Sanitary Districts**

**Be it enacted by the People of the State of  
Maine as follows:**

**Sec. 1. 38 MRSA §1033, sub-§1, ¶¶G and H**, as enacted by PL 2013, c. 555, §6, are amended to read:

H. Section ~~1051~~; 1050; ~~and~~

**Sec. 2. 38 MRSA §1033, sub-§1, ¶I** is enacted to read:

I. Section 1051.

**Sec. 3. 38 MRSA §1033, sub-§2, ¶C**, as enacted by PL 2013, c. 555, §6, is repealed.

**Sec. 4. 38 MRSA §1050, sub-§3**, as enacted by PL 2013, c. 555, §6, is amended to read:

**3. Collection.** The treasurer of the qualified sewer district ~~may has full and complete authority and power to collect rates and all rates must be committed to the treasurer fees established under section 1048 or otherwise authorized by law.~~ The treasurer may, after demand for payment, sue in the name of the qualified sewer district in a civil action in any court of competent jurisdiction for any rates remaining unpaid. In addition to other methods established by law for the collection of rates and without waiver of the right to sue for the collection of rates, the lien created under subsection 2 may be enforced in the following manner.

A. ~~When rates have been committed to the treasurer of the qualified sewer district for collection, the~~ The treasurer may, after the expiration of 3 months and within one year after the date when the rates became due and payable, give to the owner of the real estate served, leave at the owner's last and usual place of abode or send by certified mail, return receipt requested, to the owner's last known address a notice in writing signed by the treasurer or bearing the treasurer's facsimile signature, stating the amount of the rates due, describing the real estate upon which the lien is claimed and stating that a lien is claimed on the real estate to secure the payment of the rates and demanding the payment of the rates within 30 days after service or mailing, with \$1 added to the demanded rate for the treasurer and an additional fee to cover mailing the notice by certified mail, return receipt requested. The notice must contain a statement that the qualified sewer district is willing to arrange installment payments of the outstanding debt.

B. After the expiration of 30 days and within one year after giving notice pursuant to paragraph A, the treasurer of the qualified sewer district shall record in the registry of deeds of the county in which the property of the person is located a certificate signed by the treasurer setting forth the amount of the rates due, describing the real estate on which the lien is claimed and stating that a lien is claimed on the real estate to secure payment of the rates and that a notice and demand for payment has been given or made in accordance with

this section and stating further that the rates remain unpaid. At the time of the recording of the certificate in the registry of deeds, the treasurer shall file in the office of the qualified sewer district a true copy of the certificate and shall mail a true copy of the certificate by certified mail, return receipt requested, to each record holder of any mortgage on the real estate, addressed to the record holder at the record holder's last and usual place of abode.

C. The filing of the certificate in the registry of deeds creates a mortgage held by the qualified sewer district on the real estate described in the certificate that has priority over all other mortgages, liens, attachments and encumbrances of any nature, except liens, attachments and claims for taxes, and gives to the qualified sewer district all the rights usually possessed by mortgagees, except that the qualified sewer district as mortgagee does not have any right to possession of that real estate until the right of redemption has expired.

D. If the mortgage created under paragraph C, together with interest and costs, has not been paid within 18 months after the date of filing the certificate in the registry of deeds in accordance with paragraph B, the mortgage is foreclosed and the right of redemption expires. The filing of the certificate in the registry of deeds is sufficient notice of the existence of the mortgage. In the event that the rate, with interest and costs, is paid within the period of redemption, the treasurer of the qualified sewer district shall discharge the mortgage in the same manner as provided for discharge of real estate mortgages.

E. The owner of the real estate shall pay the sum of the fees for receiving, recording and indexing the lien, or its discharge, as established by Title 33, section 751, plus \$13, plus all certified mail, return receipt requested, fees.

F. Not more than 45 days or less than 30 days before the foreclosing date of the mortgage created under paragraph C, the treasurer of the qualified sewer district shall notify the party named on the mortgage and each record holder of a mortgage on the real estate in a writing signed by the treasurer or bearing the treasurer's facsimile signature and left at the holder's last and usual place of abode or sent by certified mail, return receipt requested, to the holder's last known address of the impending automatic foreclosure and indicating the exact date of foreclosure. For sending this notice, the qualified sewer district is entitled to receive \$3 plus all certified mail, return receipt requested, fees, which must be added to and become a part of the amount due under paragraph E. If notice is not given in the time period specified in this para-

graph, the person not receiving timely notice has up to 30 days after the treasurer provides notice as specified in this paragraph in which to redeem the mortgage. The notice of impending automatic foreclosure must be substantially in the following form:

G. The qualified sewer district shall pay the treasurer \$1 for the notice, \$1 for filing the lien certificate and the amount paid for certified mail, return receipt requested, fees. The fees for recording the lien certificate must be paid by the qualified sewer district to the register of deeds.

H. A discharge of the certificate given after the right of redemption has expired, which discharge has been recorded in the registry of deeds for more than one year, terminates all title of the qualified sewer district derived from that certificate or any other recorded certificate for which the right of redemption expired 10 years or more prior to the foreclosure date of this discharge lien, unless the qualified sewer district has conveyed any interest based upon the title acquired from any of the affected liens.

**Sec. 5. 38 MRSA §1055**, as enacted by PL 2013, c. 555, §6, is amended to read:

**§1055. Investments**

A sewer district may invest its funds, including sinking funds, reserve funds and trust funds, ~~to the extent that the term of any instrument creating the funds does not prohibit the investment, in shares of an investment company registered under the federal Investment Company Act of 1940, whose shares are registered under the United States Securities Act of 1933, only if the investments of the investment company are limited to obligations of the United States or any agency or instrumentality, corporate or otherwise, of the United States or repurchase agreements secured by obligations of the United States or any agency or instrumentality, corporate or otherwise, of the United States in accordance with this section.~~ This section is in addition to, and not in limitation of, any power of a sewer district to invest its funds.

**1. Deposit or investment of funds.** A sewer district may invest all district funds, including reserve funds and trust funds, if the terms of the instrument, order or article creating the fund do not prohibit the investment, as follows:

A. In accounts or deposits of institutions insured by the Federal Deposit Insurance Corporation, the National Credit Union Share Insurance Fund or the successors to these federal programs.

(1) Accounts and deposits exceeding an amount equal to 25% of the capital, surplus and undivided profits of any trust company or national bank or a sum exceeding an amount equal to 25% of the reserve fund and undivided profit account of a mutual savings bank or state or federal savings and loan association on deposit at any one time must be secured by the pledge of certain securities as collateral or fully covered by insurance.

(a) The collateral must be in an amount equal to the excess deposit. The trustees shall determine the value of the pledged securities on the basis of market value and shall review the value of the pledged securities on the first business day of January and July of each year.

(b) The collateral may consist only of securities in corporate bond and Maine corporate bond. The securities must be held in a depository institution approved by the trustees and pledged to indemnify the sewer district against any loss. The depository institution shall notify the trustees of the pledging when the securities are deposited;

B. In repurchase agreements with respect to obligations of the United States Government, as described in Title 30-A, section 5712, subsection 1, as long as the market value of the underlying ob-

ligation is equal to or greater than the amount of the sewer district's investment and either the sewer district's security entitlement with respect to the underlying obligation is created pursuant to the provisions of Title 11, Article 8-A and other applicable law or the sewer district's security interest is perfected pursuant to Title 11, Article 9-A and other applicable law, except that, if the term of the repurchase agreement is not in excess of 96 hours, the sewer district's security interest with respect to the underlying obligation need not be perfected as long as an executed Public Securities Association form of master repurchase agreement is on file with the counterparty prior to the date of the transaction;

C. In the shares of an investment company registered under the United States Investment Company Act of 1940, Public Law 76-768, whose shares are registered under the United States Securities Act of 1933, Public Law 73-22, if the investments of the fund are limited to bonds and other direct obligations of the United States Government, as described in Title 30-A, section 5712, subsection 1, or repurchase agreements secured by bonds and other direct obligations of the United States Government, as described in Title 30-A, section 5712, subsection 1; or

D. The trustees may enter into an agreement with any financial institution with trust powers authorized to do business in the State for the safekeeping of the reserve funds, or trust funds, of the sewer district. Services must consist of the safekeeping of the funds, collection of interest and dividends and any other fiscal service that is normally covered in a safekeeping agreement. Investment of reserve funds or trust funds deposited under a safekeeping agreement may be managed either by the financial institution with which the funds are deposited or by an investment advisor registered with the National Association of Securities Dealers, federal Securities and Exchange Commission or other governmental agency or instrumentality with jurisdiction over investment advisors, to act in such capacity pursuant to an investment advisory agreement providing for investment management and periodic review of portfolio investments. Investment of funds on behalf of the district under this paragraph is governed by the rule of prudence, according to Title 18-B, sections 802 to 807 and Title 18-B, chapter 9. The contracting parties shall give assurance of proper safeguards that are usual to these contracts and shall furnish insurance protection satisfactory to both parties.

**2. Government unit bonds.** A sewer district may invest in:

A. The bonds and other direct obligations of the United States, or the bonds and other direct obli-

gations or participation certificates issued by any agency, association, authority or instrumentality created by the United States Congress or any executive order;

B. The bonds and other direct obligations issued or guaranteed by any state or by any political subdivision, instrumentality or agency of any state, if the securities are rated within the 3 highest grades by any rating service approved by the Superintendent of Financial Institutions;

C. The bonds and other direct obligations issued or guaranteed by this State, or issued by any instrumentality or agency of this State, or any political subdivision of the State that is not in default on any of its outstanding funded obligations; or

D. Prime bankers' acceptances and prime commercial paper.

Investments made pursuant to this subsection are limited to direct obligations of the issuer in which the sewer district directly owns the underlying security. Obligations created from, or whose value depends on or is derived from, the value of one or more underlying assets or indexes of asset values in which the sewer district owns no direct interest do not qualify as investments under this subsection.

**3. Corporate securities.** A sewer district may invest in:

A. The bonds and other obligations of any United States or Canadian corporation if the securities are rated within the 3 highest grades by any rating service approved by the Superintendent of Financial Institutions and are payable in United States funds. Not more than 2% of the total assets of the permanent reserve fund, permanent trust fund or other permanent fund being invested may be invested in the securities of any one such corporation; and

B. The bonds and other obligations of any Maine corporation, actually conducting in this State the business for which that corporation was created, that, for a period of 3 successive fiscal years or for a period of 3 years immediately preceding the investment, has earned or received an average net income of not less than 2 times the interest on the obligations in question and all prior liens or, in the case of water companies subject to the jurisdiction of the Public Utilities Commission, an average net income of not less than 1 1/2 times the interest on the obligations in question and all prior liens. Not more than 20% of the total assets of the permanent reserve fund, permanent trust fund or other permanent fund being invested may be invested in these securities of Maine corporations and not more than 2% of that fund may be invested in the securities of any single corporation.

**4. Retention of unauthorized securities.** Sewer districts may acquire and hold securities not authorized by law but that have been acquired in settlements, reorganizations, recapitalizations, mergers or consolidations or by receipt of stock dividends or the exercise of rights applicable to securities held by sewer districts and may continue to hold these securities at the discretion of the trustees. Sewer districts may continue to hold at the discretion of the trustees securities under authorization of law.

**5. Standard of prudence.** All investments made under this section must be made with the judgment and care that persons of prudence, discretion and intelligence, under circumstances then prevailing, exercise in the management of their own affairs, not for speculation but for investment, considering:

A. The safety of principal and preservation of capital in the overall portfolio;

B. Maintenance of sufficient liquidity to meet all operating and other cash requirements with which a fund is charged that are reasonably anticipated; and

C. The income to be derived throughout budgetary and economic cycles, taking into account prudent investment risk constraints and the cash flow characteristics of the portfolio.

This standard must be applied to the overall investment portfolio of the sewer district and not to individual items within a diversified portfolio.

**Sec. 6. 38 MRSA §1164**, as enacted by PL 1993, c. 651, §7, is amended to read:

#### **§1164. Investments**

ing assets or indexes of asset values in which the sanitary district owns no direct interest do not qualify as investments under this subsection.

### An Act To Amend the Laws Governing Forensic Examination Kits

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 5 MRSA §3360-M,** as amended by PL 2009, c. 79, §4, is further amended to read:

**§3360-M. Payment for forensic examinations for alleged victims of sexual assault**

**1. Payment.** The board shall pay the costs of forensic examiner training as well as the costs of forensic examinations for alleged victims of ~~gross~~ sexual assault from the Victims' Compensation Fund. The board shall track expenditures for forensic examinations separately from all other expenditures. Forensic examination payments are not subject to any other provision of this chapter. For the purposes of this section, "sexual assault" means any crime enumerated in Title 17-A, chapter 11.

**2. Forensic examination; forensic examiner training and education.** The board shall determine by rule what a forensic examination may include for purposes of payment. An examination must include at least all services directly related to the gathering of forensic evidence and related testing and treatment for pregnancy and sexually transmitted diseases. The board shall pay a licensed hospital or licensed health care practitioner the actual cost of the forensic examination up to a maximum of \$750.

The cost of sexual assault forensic examiner training and education provided by the sexual assault forensic examiner program must be paid from the Victims' Compensation Fund in an amount that may not exceed \$50,000 per year.

**3. Process for payment.** A licensed hospital or licensed health care practitioner that performs forensic examinations for alleged victims of ~~gross~~ sexual assault shall submit a bill to the Victims' Compensation Board directly for payment of the forensic examinations. The hospital or health care practitioner that performs a forensic examination shall take steps necessary to ensure the confidentiality of the alleged victim's identity. The bill submitted by the hospital or health care practitioner may not identify the alleged victim by name but must be assigned a tracking number ~~that corresponds to~~ assigned by the manufacturer of the forensic examination kit. The tracking number may not be the alleged victim's social security number. The hospital or health care practitioner that performs the examination may not bill the alleged victim or the alleged victim's insurer, nonprofit hospital or medical service organization or health maintenance organization for payment of the examination. The alleged victim is not required to report the alleged offense to a law enforcement agency.

**4. Other reimbursement.** The fact that forensic examinations are paid for separately through the Victims' Compensation Fund does not preclude alleged victims of ~~gross~~ sexual assault from seeking reimbursement for expenses other than those for the forensic examination. A victim seeking reimbursement from the Victims' Compensation Fund for expenses other than the forensic examination is subject to all other provisions of this chapter.

**5. Rules.** Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter ~~H-A~~ 2-A.

**Sec. 2. 24 MRSA §2986**, as amended by PL 2011, c. 59, §1 and c. 420, Pt. A, §21, is further amended to read:

**§2986. Performing forensic examinations for alleged victims of sexual assault**

**1. Standard forensic examination kit.** All licensed hospitals and licensed health care practitioners shall use a standard forensic examination kit devel-

oped and furnished by the Department of Public Safety pursuant to Title 25, section 2915 to perform forensic examinations for alleged victims of ~~gross~~ sexual assault. For the purposes of this section, "sexual assault" means any crime enumerated in Title 17-A, chapter 11.

**2. Victims' Compensation Board billing.** All licensed hospitals and licensed health care practitioners that perform forensic examinations for alleged victims of ~~gross~~ sexual assault shall submit a bill to the Victims' Compensation Board directly for payment of the forensic examinations. The Victims' Compensation Board shall determine what a forensic examination includes pursuant to Title 5, section 3360-M. The hospital or health care practitioner that performs a forensic examination shall take steps necessary to ensure the confidentiality of the alleged victim's identity. The bill submitted by the hospital or health care practitioner may not identify the alleged victim by name but must be assigned a tracking number ~~that corresponds to~~ assigned by the manufacturer of the forensic examination kit. The tracking number may not be the alleged victim's social security number. The Victims' Compensation Board shall pay the actual cost of the forensic examination up to a maximum of \$750. Licensed hospitals and licensed health care practitioners that perform forensic examinations for alleged victims of ~~gross~~ sexual assault may not bill the alleged victim or the alleged victim's insurer, nonprofit hospital or medical service organization or health maintenance organization for payment for the examination.

**3. Completed kit.** If the alleged victim has not reported the alleged offense to a law enforcement agency when the examination is complete, the hospital or health care practitioner shall then notify the nearest law enforcement agency, which shall transport and store the completed forensic examination kit for at least 90 days. The completed kit may be identified only by the tracking number. If during that 90-day period an alleged victim decides to report the alleged offense to a law enforcement agency, the alleged victim may contact the hospital or health care practitioner to determine the tracking number. The hospital or health care practitioner shall provide the alleged victim with the tracking number on the forensic examination kit and shall inform the alleged victim which law enforcement agency is storing the kit.

If the alleged victim reports the alleged offense to a law enforcement agency by the time the examination is complete, the investigating agency shall retain custody of the forensic examination kit.

If an examination is performed under subsection 5 and the alleged victim does not, within 60 days, regain a state of consciousness adequate to decide whether or not to report the alleged offense, the State may file a motion in the District Court relating to storing or processing the forensic examination kit. Upon finding

good cause and after considering factors, including, but not limited to, the possible benefits to public safety in processing the kit and the likelihood of the alleged victim's regaining a state of consciousness adequate to decide whether or not to report the alleged offense in a reasonable time, the District Court may order either that the kit be stored for additional time or that the kit be transported to the Maine State Police Crime Laboratory for processing, or such other disposition that the court determines just. In the interests of justice or upon motion by the State, the District Court may conduct hearings required under this paragraph confidentially and in camera and may impound pleadings and other records related to them.

**4. Other payment.** A licensed hospital or licensed health care practitioner is not precluded from seeking other payment for treatment or services provided to an alleged victim that are outside the scope of the forensic examination.

**5. Implied consent.** If an alleged victim of gross sexual assault is unconscious and a reasonable person would conclude that exigent circumstances justify conducting a forensic examination, a licensed hospital or licensed health care practitioner may perform an examination in accordance with the provisions of this section.

A forensic examination kit completed in accordance with this subsection must be treated in accordance with Title 25, section 3821 and must preserve the alleged victim's anonymity. In addition, the law enforcement agency shall immediately report to the district attorney for the district in which the hospital or health care practitioner is located that such a forensic examination has been performed and a forensic examination kit has been completed under this subsection.

**6. Liability.** A licensed hospital or licensed health care practitioner in the exercise of due care is not liable for an act done or omitted in performing a sexual assault forensic examination under this section.

**Sec. 3. 25 MRSA §2915**, as enacted by PL 1999, c. 719, §3 and affected by §11, is amended to read:

**§2915. Uniform forensic examination kit for evidence collection in alleged cases of sexual assault**

**1. The rules must define the contents of the kit, instructions for administering the kit and a checklist that examiners must follow and enclose in the completed kit.

**2. Use of uniform forensic examination kit.** A licensed hospital or licensed health care practitioner that conducts physical examinations of alleged victims of gross sexual assault shall use the uniform standardized forensic examination kit developed by the Department of Public Safety pursuant to subsection 1. A health care practitioner who conducts physical examinations of alleged victims of gross sexual assault must be trained in the proper evidence collection procedures for conducting a forensic examination.

Evidence collection results may not be excluded as evidence in any proceeding before any court of this State as a result of the examiner's failure to use the standardized evidence collection kit or as a result of the examiner's failure to be trained in the proper procedures for the collection of evidence required by this subsection.

**3. Furnishing of uniform forensic examination kit.** The Department of Public Safety shall furnish the uniform forensic examination kits to licensed hospitals and licensed health care practitioners that perform forensic examinations of alleged victims of gross sexual assault.

**3-A. "Sexual assault" defined.** For the purposes of this section, "sexual assault" means any crime enumerated in Title 17-A, chapter 11.

**4. Rules.** Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter H-A 2-A.

That law enforcement agency shall transport the completed kit, identified only by a tracking number assigned by ~~the hospital or health care practitioner~~ the kit manufacturer, to its evidence storage facility. The law enforcement agency shall store the kit for at least 90 days from the time of receipt. If during that 90-day period the alleged victim reports the offense to a law enforcement agency, the investigating agency shall take possession of the kit.

In the case of a forensic examination performed under Title 24, section 2986, subsection 5, the law enforcement agency must immediately notify the district attorney for the district in which the hospital or

health care practitioner is located that such a forensic examination has been performed and a forensic examination kit has been completed under Title 24, section 2986, subsection 5.

**Sec. 5. Rulemaking; exemption from Maine Administrative Procedure Act.** The Department of Public Safety shall amend its rules implementing the Maine Revised Statutes, Title 25, sections 2915 and 3821 to reflect the changes set forth in this Act; and, notwithstanding Title 5, Part 18, or any other provision of law to the contrary, rule amendments adopted in accordance with this section are not subject to the requirements of the Maine Administrative Procedure Act.

**Sec. 6. Rulemaking.** The Victims' Compensation Board shall amend the rules on reimbursement by the Victims' Compensation Fund for use of forensic examination test kits in certain instances of sexual assault as provided in this Act by January 1, 2018. 6. Rules. The superintendent may adopt reasonable rules as necessary to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

7. Severability. If any provision of this section other than subsection 4, or the application thereof to any person or circumstance, is determined to be invalid, that determination does not affect the provisions or applications of this section that can be given effect without the invalid provision or application, and to

that end the provisions of this section with the exception of subsection 4 are severable.

8. Relationship to other laws. This section may not be construed to prescribe or impose corporate governance standards and internal procedures beyond those required of business corporations under Title 13-C. **Sec. B-6. 24-A MRSA §222, sub-§7-C** is enacted to read:

**7-C. Groupwide supervision.** This subsection governs groupwide supervision.

A. The superintendent is authorized to act as the groupwide supervisor in accordance with the provisions of this subsection for any internationally active insurance group, or any other insurance holding company system that has requested the identification of a groupwide supervisor pursuant to this subsection, or to acknowledge another regulatory official as the groupwide supervisor if the insurance group:

(1) Does not have substantial insurance operations in the United States;

(2) Has substantial insurance operations in the United States, but not in this State; or

(3) Has substantial insurance operations in the United States and this State, but the superintendent has determined pursuant to the factors set forth in paragraphs B and G that the other regulatory official is the appropriate groupwide supervisor.

B. In cooperation with other state, federal and international regulatory agencies, and in consultation with the insurance group, the superintendent shall identify a single groupwide supervisor for each internationally active insurance group that includes an insurer registered under subsection 8 and has the discretion to identify a single groupwide supervisor for any other insurance holding company system that has requested that the superintendent identify a groupwide supervisor. The superintendent may determine that the superintendent is the appropriate groupwide supervisor for an insurance group that conducts substantial in-

surance operations concentrated in this State or may acknowledge that a regulatory official from another jurisdiction is the appropriate groupwide supervisor for the insurance group. The superintendent shall consider the following factors when making a determination or acknowledgment under this paragraph and shall reconsider that determination or acknowledgment if the superintendent finds that there has been a material change in the following factors:

(1) The place of domicile of the insurers within the insurance group that hold the largest share of the group's written premiums, assets or liabilities;

(2) The place of domicile of the top-tiered insurer or insurers in the insurance holding company system of the insurance group;

(3) The location of the executive offices or largest operational offices of the insurance group;

(4) The recommendation made by a regulatory official who is a candidate for designation under the criteria in this paragraph but has notified the superintendent that a different regulatory official would be a more appropriate groupwide supervisor;

(5) Whether another regulatory official is acting or is seeking to act as the groupwide supervisor under a regulatory system that the superintendent determines to be:

(a) Substantially similar to the system of regulation provided under the laws of this State; or

(b) Otherwise sufficient in terms of providing for groupwide supervision, enterprise risk analysis and cooperation with other regulatory officials; and

(6) Whether another regulatory official acting or seeking to act as the groupwide supervisor provides the superintendent with reasonably reciprocal recognition and cooperation.

C. If another regulatory official is acting as the groupwide supervisor of an insurance group subject to groupwide supervision under this subsection, the superintendent shall acknowledge that regulatory official as the groupwide supervisor and may not consider designating the superintendent as the groupwide supervisor under paragraph B unless there is a material change in the insurance group that results in:

(1) The insurance group's insurers domiciled in this State holding the largest share of the group's premiums, assets or liabilities; or

(2) This State being the place of domicile of the top-tiered insurer or insurers in the insurance holding company system of the insurance group.

D. If more than one regulatory official is acting as the groupwide supervisor of an insurance group, the superintendent is authorized to cooperate with any of them under paragraph G.

E. Pursuant to subsection 1-A, the superintendent is authorized to collect from any insurer registered pursuant to subsection 8 all information necessary to determine whether the superintendent should act as the groupwide supervisor of an insurance group or whether the superintendent should acknowledge another regulatory official to act as the groupwide supervisor. Before issuing a determination that an insurance group is subject to groupwide supervision by the superintendent, the superintendent shall notify the insurer registered pursuant to subsection 8 and the ultimate controlling person within the insurance group. The insurance group has no less than 30 days to provide the superintendent with additional information pertinent to the pending determination. The superintendent shall publish on the bureau's publicly accessible website the identity of all insurance groups that the superintendent has determined are subject to groupwide supervision by the superintendent.

F. If the superintendent is the groupwide supervisor for an insurance group, the superintendent is authorized to engage in any of the following groupwide supervision activities:

(1) Assess the enterprise risks within the insurance group to ensure that:

(a) The material financial condition and liquidity risks to the members of the insurance group that are engaged in the business of insurance are identified by management; and

(b) Reasonable and effective mitigation measures are in place;

(2) Request, from any member of the insurance group, information necessary and appropriate to assess enterprise risk, including, but not limited to, information about the members of the insurance group regarding:

(a) Governance, risk assessment and management;

(b) Capital adequacy; and

(c) Material intercompany transactions;

(3) Coordinate and, through the authority of the regulatory officials of the jurisdictions where members of the insurance group are

domiciled, compel development and implementation of reasonable measures designed to ensure that the insurance group is able to promptly recognize and mitigate enterprise risks to members of the insurance group that are engaged in the business of insurance;

(4) Communicate with other state, federal and international agencies that regulate members of the insurance group and share relevant information subject to the confidentiality provisions of subsection 13-A, through supervisory colleges as set forth in subsection 7-B or otherwise;

(5) Enter into agreements with or obtain documentation from any insurer registered under subsection 8, any member of the insurance group and any other state, federal and international regulatory agencies for members of the insurance group, providing the basis for or otherwise clarifying the superintendent's role as groupwide supervisor, including provisions for resolving disputes with other regulatory officials. Such agreements or documentation may not serve as evidence in any proceeding that any insurer or person within an insurance holding company system not domiciled or incorporated in this State is doing business in this State or is otherwise subject to jurisdiction in this State; and

(6) Other groupwide supervision activities, consistent with the authorities and purposes set out in subparagraphs (1) to (5), as considered necessary by the superintendent.

G. If the superintendent acknowledges that another regulatory official from a jurisdiction that is not accredited by the National Association of Insurance Commissioners is the groupwide supervisor, the superintendent is authorized to cooperate reasonably, through supervisory colleges or otherwise, with groupwide supervision undertaken by the groupwide supervisor, as long as:

(1) The superintendent's cooperation is in compliance with the laws of this State; and

(2) The regulatory official acknowledged as the groupwide supervisor also recognizes and cooperates with the superintendent's activities as a groupwide supervisor for other insurance groups as applicable. When such recognition and cooperation is not reasonably reciprocal, the superintendent is authorized to refuse recognition and cooperation.

H. The superintendent is authorized to enter into agreements with or obtain documentation from any insurer registered under subsection 8, any affiliate of the insurer and other state, federal and international regulatory agencies for members of

the insurance group in order to provide the basis for or otherwise clarify a regulatory official's role as groupwide supervisor.

I. The superintendent may adopt rules necessary for the administration of this subsection. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

J. A registered insurer subject to this subsection is liable for and shall pay the reasonable expenses of the superintendent's participation in the administration of this subsection, including the engagement of attorneys, actuaries and any other professionals and all reasonable travel expenses.

**Sec. B-7. 24-A MRSA §222, sub-§9, ¶A-1,** as enacted by PL 2013, c. 238, Pt. A, §21 and affected by §34, is amended to read:

A-1. Agreements for ~~cost-sharing~~ management services and management cost sharing must include any provisions required by the superintendent by rule.

**Sec. B-8. 24-A MRSA §222, sub-§9, ¶E,** as amended by PL 2013, c. 238, Pt. A, §21 and affected by §34, is further amended to read:

E. A domestic insurer shall notify the superintendent in writing at least 30 days in advance, unless the superintendent authorizes a shorter period, before entering into or materially amending or modifying any of the following kinds of transactions with any member of its holding company system:

(1) Sales, purchases, exchanges, loans or extensions of credit, guarantees or investments that are equal to or exceed:

(a) With respect to nonlife insurers, the lesser of 3% of the insurer's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(b) With respect to life insurers, 3% of the insurer's admitted assets as of December 31st of the preceding year; or

(c) With respect to nonprofit hospital and medical service organizations and their 100% controlled affiliates that operate as monoline health insurers or health maintenance organizations, the lesser of 5% of the entity's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(2) Loans or extensions of credit to any person who is not an affiliate, if the insurer makes the loan or extension of credit with the agreement or understanding that the proceeds

in whole or in substantial part are to be used to make loans or extensions of credit to, purchase assets of or make investments in any affiliate of the insurer if the loan, extension of credit, purchase or investment is equal to or exceeds:

(a) With respect to nonlife insurers, the lesser of 3% of the insurer's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(b) With respect to life insurers, 3% of the insurer's admitted assets as of December 31st of the preceding year; or

(c) With respect to nonprofit hospital and medical service organizations and their 100% controlled affiliates that operate as monoline health insurers or health maintenance organizations, the lesser of 5% of the entity's admitted assets as of December 31st of the preceding year and 25% of surplus to policyholders;

(3) All reinsurance pooling agreements, and all reinsurance agreements in which the reinsurance premium or a change in the insurer's liabilities, or the projected reinsurance premium or a projected change in the insurer's liabilities in any of the next 3 years, equals or exceeds 5% of the insurer's surplus to policyholders, as of December 31st of the preceding year, including those agreements that may require as consideration the transfer of assets from an insurer to a nonaffiliate if an agreement or understanding exists between the insurer and nonaffiliate that any portion of the assets will be transferred to one or more affiliates of the insurer;

(4) All management agreements, cost-sharing arrangements, tax allocation agreements, service contracts and guaranties, with the exception of guaranties that are quantifiable in amount and do not exceed, in the aggregate, the lesser of 0.5% of admitted assets and 10% of surplus as regards policyholders as of December 31st of the preceding year;

(5) Any transactions that are part of a plan or series of like transactions with persons within the holding company system if ~~the purpose of those separate transactions is to avoid the statutory threshold amount and thus avoid the review that would occur otherwise~~ transactions when aggregated over any 12-month period exceed the reporting thresholds of this paragraph. If the superintendent determines that those separate transactions were entered

into over any 12 month period for such a purpose, the superintendent may exercise authority for the purpose of avoiding regulatory review by circumventing statutory reporting requirements, that determination is a sufficient basis for disapproving the transactions under this subsection; and

(6) Any other material transactions specified by rule that the superintendent has determined may adversely affect the interests of the insurer's policyholders.

A notice of amendment or modification of a transaction must include the reasons for the change and the financial impact on the domestic insurer. The insurer shall notify the superintendent within 30 days after terminating an agreement previously reported under this paragraph.

The superintendent shall disapprove a transaction that is subject to this paragraph if the transaction violates the standards of this section or other applicable law or adversely affects the interests of policyholders. The superintendent's failure to make a determination on a proposed transaction within 30 days after it has been submitted for review has the effect of an approval, unless the superintendent has issued a notice of adjudicatory hearing on the proposal in accordance with section 230.

**Sec. B-9. 24-A MRSA §222, sub-§11-C,** ¶C, as enacted by PL 2009, c. 511, Pt. A, §5, is amended to read:

(a) ~~Exceeds~~ When aggregated with all other dividends and distributions paid or proposed to be paid by the insurer less than a full year before the payment date, exceeds the greater of 10% of the insurer's surplus to policyholders as of December 31st of the preceding year or and the net gain from operations for the preceding calendar year, whichever is greater;

(b) Is declared within 5 years after any acquisition of control of a domestic insurer or of any person controlling that insurer, unless it has been approved by a number of continuing directors equal to a

majority of the directors in office immediately preceding that acquisition of control; or

(c) Is not paid entirely from unassigned funds. For purposes of this division, 50% of the net of unrealized capital gains and unrealized capital losses, reduced, but not to less than zero, by that portion of the asset valuation reserve attributable to equity investments, must be excluded from the calculation of unassigned funds.

(2) An insurer may declare an extraordinary dividend on a conditional basis, subject to the superintendent's approval. A declaration pursuant to this subparagraph does not confer any rights upon stockholders until the superintendent has approved the payment or the 60-day review period has elapsed.

(3) An investment owner in shares of regulated diversified investment companies; or

Section 222, to the extent not modified by this chapter, continues to apply to all parties within holding company systems subject to this chapter.

**Sec. E-9. 24-A MRSA §6404**, as enacted by PL 1991, c. 828, §33, is amended to read:

#### §6404. Minimum standards

**1. Applicability.** This section applies as follows.

A. This section applies if, in any calendar year, the aggregated amount of gross written premium on business placed with a controlled insurer by a controlling ~~broker~~ producer is equal to or greater than 5% of the admitted assets of the controlled insurer as of September 30th of the preceding year, as reported in the controlled insurer's quarterly statement.

B. Notwithstanding paragraph A, this section does not apply if:

(1) The controlling ~~broker~~ producer:

(a) Places insurance only with the controlled insurer, only with the controlled insurer and a member or members of the controlled insurer's holding company system or only with the controlled insurer's parent, affiliate or subsidiary and receives no compensation based upon the amount of premiums written in connection with such insurance; and

(b) Accepts insurance placements only from nonaffiliated subproducers and not directly from insureds; and

(2) The controlled insurer, except for insurance business written through a residual market facility such as the workers' compensation residual market mechanism or the State's automobile assigned risk plan, accepts insurance business only from a controlling ~~broker~~ producer, a producer controlled by the controlled insurer or a producer that is a subsidiary of the controlled insurer.

**2. Required contract provisions.** A controlled insurer may not accept business from a controlling ~~broker~~ producer and a controlling ~~broker~~ producer

may not place business with a controlled insurer unless there is a written contract between the controlling ~~broker~~ producer and the controlled insurer specifying the responsibilities of each party. The contract must be approved by the board of directors of the insurer and must contain the following minimum provisions.

A. The controlled insurer may terminate the contract for cause upon written notice to the controlling ~~broker~~ producer. The controlled insurer shall suspend the authority of the controlling ~~broker~~ producer to write business during the pendency of any dispute regarding the cause for the termination.

B. The controlling ~~broker~~ producer shall render timely accounts to the controlled insurer detailing all material transactions including information necessary to support all commissions, charges and other fees received by or owed to the controlling ~~broker~~ producer.

C. The controlling ~~broker~~ producer shall remit all funds due under the terms of the contract to the controlled insurer on at least a monthly basis. The due date must be fixed so that premiums or installments of premiums collected are remitted no later than 90 days after the effective date of any policy placed with the controlled insurer under the contract.

D. All funds collected for the controlled insurer's account must be held in trust by the controlling ~~broker~~ producer in a fiduciary capacity, in one or more appropriately identified bank accounts in banks that are members of the Federal Reserve System, in accordance with applicable insurance laws. Funds of a controlling ~~broker~~ producer not licensed in this State must be maintained in compliance with the requirements of the controlling ~~broker's~~ producer's domiciliary jurisdiction.

E. The controlling ~~broker~~ producer shall maintain separately identifiable records of business written for the controlled insurer. The controlled insurer must have access and may copy all accounts and records related to its business in a form usable by the insurer. The records must be retained according to section 3408.

F. The contract may not be assigned in whole or in part by the controlling ~~broker~~ producer.

G. The controlled insurer shall provide the controlling ~~broker~~ producer with its underwriting standards, rules, procedures, rates and conditions, including manuals setting forth the rates to be charged and the conditions for the acceptance or rejection of risks. The controlling producer shall comply with those standards, rules, procedures, rates and conditions, which must be the same as those applicable to comparable business placed

with the controlled insurer by a producer other than the controlling ~~broker~~ producer.

H. The rates of the controlling ~~broker's~~ producer's commissions, charges and other fees may not be greater than those applicable to comparable business placed with the controlled insurer by producers other than controlling ~~brokers~~ producers. For purposes of this paragraph and paragraph G, examples of "comparable business" include the same lines of insurance, the same kinds of insurance, the same kinds of risks, similar policy limits and similar quality of business.

I. If the contract provides that the controlling ~~broker~~ producer, on insurance business placed with the insurer, must be compensated contingent upon the insurer's profits on that business, then that compensation may not be determined and paid until at least 5 years after the premiums on liability insurance are earned and at least one year after the premiums are earned on any other insurance. The commissions may not be paid until the adequacy of the controlled insurer's reserves on remaining claims are independently verified pursuant to subsection 3.

J. The controlled insurer shall place a limit on the controlling ~~broker's~~ producer's writings in relation to the controlled insurer's surplus and total writings. The insurer may establish a different limit for each line or subline of business. The controlled insurer shall notify the controlling ~~broker~~ producer when the applicable limit is approached and may not accept business from the controlling ~~broker~~ producer if the limit is reached. The controlling ~~broker~~ producer may not place business with the controlled insurer if notified by the controlled insurer that the limit has been reached.

K. The controlling ~~broker~~ producer may negotiate but may not bind reinsurance on behalf of the controlled insurer on business the controlling ~~broker~~ producer places with the controlled insurer, except that the controlling ~~broker~~ producer may bind facultative reinsurance contracts pursuant to obligatory facultative agreements. All such contracts with the controlled insurer must contain underwriting guidelines including, for reinsurance both assumed and ceded, a list of reinsurers with which the automatic agreements are in effect, the coverages and amounts or percentages that may be reinsured and schedules of the commissions allowed.

**3. Audit committee.** Every controlled insurer must have an audit committee of the board of directors composed of independent directors. The audit committee shall annually meet with management, the insurer's independent certified public accountants and an independent casualty actuary acceptable to the super-

intendent to review the adequacy of the insurer's loss reserves.

**4. Reporting requirements.** A controlled insurer shall make the following reports.

A. In addition to any other required loss reserve certification, by April 1st of each year, the controlled insurer shall file with the superintendent an opinion of an independent casualty actuary acceptable to the superintendent reporting loss ratios for each line of business written and attesting to the adequacy of loss reserves established for losses incurred and outstanding at the preceding year end, including incurred but not reported losses, on business placed by the controlled ~~broker~~ producer.

B. The controlled insurer shall report annually to the superintendent the amount of commissions paid to the controlling ~~broker~~ producer, the percentage that amount represents of the net premiums written and comparable amounts and percentage paid to noncontrolling producers for placement of the same kinds of insurance.

**Sec. E-10. 24-A MRSA §6405**, as corrected by RR 1991, c. 2, §94, is amended to read:

#### **§6405. Disclosure**

**1. Civil action by superintendent.** If the superintendent has good cause to believe that a controlled insurer or any policyholder of the controlled insurer has suffered any loss or damage resulting from a violation of this chapter, the superintendent may maintain a civil action or intervene in an action brought by or on behalf of the insurer or policyholder for recovery of compensatory damages or other appropriate relief for the benefit of the insurer or policyholder.

**Sec. E-12. 24-A MRSA §6406, sub-§2**, as enacted by PL 1991, c. 828, §33, is amended to read:

**2. **Sec. E-13. 24-A MRSA §6406, sub-§3**, as enacted by PL 1991, c. 828, §33, is amended to read:

**Sec. E-14. 24-A MRSA §6407**, as enacted by PL 1991, c. 828, §33, is repealed.

**Sec. E-15. Maine Revised Statutes headnote amended; revision clause.** In the Maine Revised Statutes, Title 24-A, chapter 77, in the chapter headnote, the words "business transacted with broker-controlled property or casualty insurer" are amended to read "business transacted with producer-controlled property or casualty insurer" and the Revisor of Statutes shall implement this revision when updating, publishing or republishing the statutes.

**Sec. B-1. 36 MRSA §305, sub-§1**, as amended by PL 2003, c. 426, §2, is further amended to read:

**1. Just value.** Certify to the Secretary of State before the first day of February each year the equalized just value of all real and personal property in each municipality and unorganized place that is subject to taxation under the laws of this State, ~~except that percentage of captured assessed value located within a tax increment financing district that is used to finance that district's development plan, the captured assessed value located within a municipal affordable housing development district and the valuation amount by which the current assessed value of commercial and industrial property within a municipal incentive development zone, as determined in Title 30-A, section 5284, exceeds the assessed value of commercial and industrial property within the zone as of the date the zone is approved by the Commissioner of Economic and Community Development, known in this subsection as the "sheltered value," up to the amount invested by a municipality in infrastructure improvements under an infrastructure improvement plan adopted pursuant to Title 30-A, section 5283. The equalized just value must be uniformly assessed in each municipality and unorganized place and be based on 100% of the current market value. It must separately show for each municipality and unorganized place the actual or estimated value of all real estate that is exempt from property taxation by law or is the captured value within a tax increment financing district that is used to finance that district's development plan, as reported on the municipal valuation return filed pursuant to section 383, or that is the sheltered value of a municipal incentive development zone. The valuation as filed remains in effect until the next valuation is filed and is the basis for the computation and apportionment of the state and county taxes; The equalized just value excludes the following:~~

A. That percentage of captured assessed value located within a tax increment financing district that is used to finance that district's development plan;

B. The captured assessed value located within a municipal affordable housing development district; and

C. The amount by which the current assessed value of commercial and industrial property within a municipal incentive development zone exceeds the assessed value of that property as of the date the development zone is approved by the Commissioner of Economic and Community Development. This excess value as determined under Title 30-A, chapter 208-A and referred to in this subsection as the "sheltered value" is limited to the amount invested by a municipality in infrastructure improvements pursuant to the infrastructure improvement plan adopted under Title 30-A, chapter 208-A.

The equalized just value must be uniformly assessed in each municipality and unorganized place and be based on 100% of the current market value. The bureau's valuation documents must separately show for each municipality and unorganized place the actual or estimated value of all real estate that is exempt from property taxation by law or is the captured value within a tax increment financing district that is used to finance that district's development plan, as reported on the municipal valuation return filed pursuant to section 383, or that is the sheltered value of a municipal incentive development zone;

**Sec. B-2. 36 MRSA §327, sub-§3**, as amended by PL 2001, c. 583, §10, is further amended to read:

**3. Employment of assessor.** Any municipal assessing unit may employ a part-time, non-certified assessor or contract with a firm or organization that provides assessing services; when any municipal assessing unit or primary assessing area employs a full-time, professional assessor, this assessor must be certified by the ~~Bureau of Revenue Services~~ bureau as a professionally trained assessor. The bureau shall publish, for the information of the municipalities, a ~~listing of certified assessors and~~ list of assessing firms or organizations. The bureau shall provide to a municipality, on request by the municipality, a list of certified assessors.

**Sec. B-3. 36 MRSA §576, first and 2nd ¶¶**, as amended by PL 1997, c. 504, §6, are further amended to read:

The State Tax Assessor shall determine the average annual net wood production rate for each forest type described in section 573, subsections 5 ~~to~~, 6 and 7, in each county or region to be used in determining valuations applicable to forest land under this subchapter, on the basis of the surveys of average annual growth rates applicable in the State made from time to time by the United States Forest Service or by the Maine Forestry Bureau. The growth rate surveys must

be reduced by the percentage discount factor prescribed by section 576-B to reflect the growth that can be extracted on a sustained basis. The rates when determined remain in effect without change for each county through the property tax year ending March 31, 1975. In 1974 and in every 10th year thereafter, the State Tax Assessor shall review and set rates for the following 10-year period in the same manner.

The State Tax Assessor shall determine the average stumpage value for each forest type described in section 573, subsections 5 ~~to~~ 6 and 7, applicable in each county, or in alternative forest economic regions as the assessor designates, after passage of this subchapter and in each year thereafter, taking into consideration the prices upon sales of sound standing timber of that forest type in that area during the previous calendar year, and any other appropriate considerations.

**Sec. B-4. 36 MRSA §578, sub-§1,** as amended by PL 2011, c. 404, §1, is further amended to read:

**1. Organized areas.** The municipal assessors or chief assessor of a primary assessing area shall adjust the State Tax Assessor's 100% valuation per acre for each forest type of their county by whatever ratio, or percentage of current just value, is applied to other property within the municipality to obtain the assessed values. Forest land in the organized areas, subject to taxation under this subchapter, must be taxed at the property tax rate applicable to other property in the municipality.

The State Tax Assessor shall determine annually the amount of acreage in each municipality that is classified and taxed in accordance with this subchapter. Each municipality is entitled to annual payments distributed in accordance with this section from money appropriated by the Legislature if it submits an annual return in accordance with section 383 and if it achieves the minimum assessment ratio established in section 327. The State Tax Assessor shall pay any municipal claim found to be in satisfactory form by ~~August 1st~~ October 15th of the year following the submission of the annual return. The municipal reimbursement appropriation is calculated on the basis of 90% of the per acre tax revenue lost as a result of this subchapter. For property tax years based on the status of property on April 1, 2008 and April 1, 2009, municipal reimbursement under this section is further limited to the amount appropriated by the Legislature and distributed on a pro rata basis by the State Tax Assessor for all timely filed claims. For purposes of this section, "classified forest lands" means forest lands classified pursuant to this subchapter as well as all areas identified as forested land within farmland parcels that are transferred from tree growth classification pursuant to section 1112 on or after October 1, 2011. For the purposes of this section, the tax lost is the tax that would have been assessed, but for this

subchapter, on the classified forest lands if they were assessed according to the undeveloped acreage valuations used in the state valuation then in effect, or according to the current local valuation on undeveloped acreage, whichever is less, minus the tax that was actually assessed on the same lands in accordance with this subchapter, and adjusted for the aggregate municipal savings in required educational costs attributable to reduced state valuation. A municipality that fails to achieve the minimum assessment ratio established in section 327 loses 10% of the reimbursement provided by this section for each one percentage point the minimum assessment ratio falls below the ratio established in section 327.

The State Tax Assessor shall adopt rules necessary to implement the provisions of this section. Rules adopted pursuant to this subsection are routine technical rules for the purposes of Title 5, chapter 375, subchapter 2-A.

C. The State Tax Assessor shall distribute reimbursement under this section to each municipality in proportion to the product of the reduced tree growth valuation of the municipality multiplied by the property tax burden of the municipality. For purposes of this paragraph, unless the context otherwise indicates, the following terms have the following meanings.

(1) "Property tax burden" means the total real and personal property taxes assessed in the most recently completed municipal fiscal year, except the taxes assessed on captured value within a tax increment financing district, divided by the latest state valuation certified to the Secretary of State.

(2) "Undeveloped land" means rear acreage and unimproved nonwaterfront acreage that is not:

- (a) Classified under the laws governing current use valuation set forth in chapter 105, subchapter 2-A, 10 or 10-A;

- (c) Waste land.

(3) "Average value of undeveloped land" means the per acre undeveloped land valuations used in the state valuation then in effect, or according to the current local valuation on undeveloped land as determined for state valuation purposes, whichever is less.

(4) "Reduced tree growth valuation" means the difference between the average value of undeveloped land and the average value of tree growth land times the total number of acres classified as forest land under this subchapter plus the total number of acres of forest land that is transferred from tree growth

classification to farmland classification pursuant to section 1112 on or after October 1, 2011.

**Sec. B-5. 36 MRSA §603, sub-§1-A**, as enacted by PL 1987, c. 303, is amended to read:

For purposes of this subparagraph, the following terms have the following meanings:

- (a) "Primarily" means more than 50% of the time;

The report must identify the property for which exemption is claimed that would otherwise be subject to taxation on April 1st of that year and must be made on a form prescribed by the State Tax Assessor or substitute form approved by the State Tax Assessor. The State Tax Assessor shall furnish copies of the form to each municipality in the State and the form must be made available to taxpayers prior to April 1st annually. The assessor of the taxing jurisdiction may require the taxpayer to sign the form and make oath to its truth. If the report is not filed by April 1st, the filing deadline is automatically extended to May 1st without the need for the taxpayer to request or the assessor to grant that extension. Upon written request, before the commitment of taxes, the assessor may ~~at any time~~ grant further extensions of time to file the report. If a taxpayer fails to file the report in a timely manner, including any extensions of time, the taxpayer may not obtain an exemption for that property under this subchapter for that tax year. The assessor of the taxing jurisdiction may require in writing that a taxpayer answer in writing all reasonable inquiries as to the property for which exemption is requested. A taxpayer has 30 days from receipt of such an inquiry to respond. Upon written request, a taxpayer is entitled to a 30-day extension to respond to the inquiry and the assessor may at any time grant additional extensions upon written request. The answer to any such inquiry is not binding on the assessor.

All notices and requests provided pursuant to this subsection must be made by personal delivery or certified mail and must conspicuously state the consequences of the taxpayer's failure to respond to the notice or request in a timely manner.

If an exemption has already been accepted and the State Tax Assessor subsequently determines that the property is not entitled to exemption, a supplemental assessment must be made within 3 years of the original assessment date with respect to the property in compliance with section 713, without regard to the

limitations contained in that section regarding the justification necessary for a supplemental assessment.

#### §2463. Powers and duties

#### **§1710-J. Access to information**

The committee members and staff are subject to the provisions governing confidentiality of tax information described in Title 36, section 191 with regard to disclosures made pursuant to this section.

**1. Statistical data.** The Associate Commissioner for Tax Policy shall provide to the committee upon request any statistical tax data that may be published pursuant to Title 36, section 191, subsection 2, paragraph B.

**3. **Sec. A-2. 36 MRSA §175-A, sub-§1**, as amended by PL 1999, c. 699, Pt. D, §26 and affected by §30, is further amended to read:

**1. Filing.** ~~¶~~ Before August 1, 2017, if any tax imposed by this Title or imposed by any other provision of law and authorized to be collected by the bureau is not paid when due and no further administrative or judicial review of the assessment is available pursuant to law, the assessor may file in the registry of deeds of any county, with respect to real property, or in the office of the Secretary of State, with respect to property of a type a security interest in which may be perfected by a filing in such office under Title 11, Article 9-A, a notice of lien specifying the amount of the tax, interest, penalty and costs due, the name and last known address of the person liable for the amount and, in the case of a tax imposed by this Title, the fact that the assessor has complied with all the provisions of this Title in the assessment of the tax. The lien arises at the time the assessment becomes final and constitutes a lien upon all property, whether real or personal, then owned or thereafter acquired by that person in the period before the expiration of the lien. The lien imposed by this section is not valid against any mortgagee, pledgee, purchaser, judgment creditor or holder of a properly recorded security interest until notice of the lien has been filed by the assessor, with respect to real property, in the registry of deeds of the county where such property is located and, with respect to personal property, in the office in which a financing statement for such personal property is normally filed. Notwithstanding this subsection, a tax lien upon personal property does not extend to those types of personal property not subject to perfection of a security interest by means of the filing in the office of the Secretary of State. The lien is prior to any mortgage or security interest recorded, filed or otherwise perfected after the notice, other than a purchase money security interest perfected in accordance with Title 11, Article 9-A. In the case of any mortgage or security interest properly recorded or filed prior to the notice of lien that secures future advances by the mortgagee or secured party, the lien is junior to all advances made within 45 days after filing of the notice of lien, or made without knowledge of the lien or pursuant to a commitment entered into without knowledge of the lien. Subject to the limitations in this section, the lien provided in this ~~section~~ subsection has the same force, effect and priority as a judgment lien and continues for 10 years from the date of recording unless sooner released or otherwise discharged. The lien may, within the 10-year period, or within 10 years from the date of the last extension of the lien in the manner provided in this subsection, be extended by filing for record in the

appropriate office a copy of the notice and, from the time of filing, that lien must be extended for 10 years unless sooner released or otherwise discharged.

This subsection applies to assessments made before August 1, 2017.

**Sec. A-3. 36 MRSA §175-A, sub-§1-A** is enacted to read:

**1-A. Filing of tax lien.** Beginning August 1, 2017, if any tax imposed by this Title or any tax imposed by any other provision of law and authorized to be collected by the bureau is not paid when due and no further administrative or judicial review of the assessment is available pursuant to law, the amount of the assessment, including the tax, interest, penalties and costs, is a lien in favor of the assessor. The lien arises at the time the assessment is made and constitutes a lien upon all property, whether real or personal, owned by the person liable for the assessment at the time the lien arises or acquired by that person in the period after the lien arises until the expiration of the lien. The assessor may file in the registry of deeds of any county, with respect to real property, or in the office of the Secretary of State, with respect to property of a type for which a security interest may be perfected by a filing in such office under Title 11, Article 9-A, a notice of lien specifying the amount of the tax, interest, penalties and costs due, the name and last known address of the person liable for the amount and, in the case of a tax imposed by this Title, the fact that the assessor has complied with all the provisions of this Title in the assessment of the tax. Filing of the lien by the assessor constitutes notice of lien for, and secures payment of, both the original assessment and all subsequent assessments of tax against the same person, until such time as the lien is released or otherwise discharged as provided for in this section. The lien imposed by this section is not valid against any mortgagee, pledgee, purchaser, judgment creditor or holder of a properly recorded security interest until notice of the lien has been filed by the assessor, with respect to real property, in the registry of deeds of the county where such property is located and, with respect to personal property, in the office in which a financing statement for such personal property is normally filed. Notwithstanding this subsection, a tax lien upon personal property not subject to perfection of a security interest by means of the filing in the office of the Secretary of State. The lien is prior to any mortgage or security interest recorded, filed or otherwise perfected after the notice, other than a purchase-money security interest perfected in accordance with Title 11, Article 9-A and except as provided in Part 2. In the case of any mortgage or security interest properly recorded or filed prior to the notice of lien that secures future advances by the mortgagee or secured party, the lien is junior to all advances made within 45 days after filing of the notice of lien, or made without knowledge of

the lien or pursuant to a commitment entered into without knowledge of the lien. Subject to the limitations in this section, the lien provided in this subsection has the same force, effect and priority as a judgment lien and continues for 10 years from the date of recording unless sooner released or otherwise discharged. The lien may, within the 10-year period, or within 10 years from the date of the last extension of the lien in the manner provided in this subsection, be extended by filing for record in the appropriate office a copy of the notice and, from the time of filing, that lien must be extended for 10 years unless sooner released or otherwise discharged. If the lien is extended within the 10-year period, or within 10 years from the date of the last extension of the lien as provided for in this subsection, the extended lien relates back to the date the lien was first filed.

This subsection applies to assessments made on or after August 1, 2017.

**Sec. A-4. 36 MRSA §175-A, sub-§3**, as amended by PL 1997, c. 526, §10, is further amended to read:

**3. Enforcement.** The lien provided for by subsection 1 or 1-A may be enforced at any time after the tax liability with respect to which the lien arose becomes collectible under section 173, subsection 1 by a civil action brought by the Attorney General in the name of the State in the Superior Court of the county in which the property is located to subject any property, of whatever nature, in which the taxpayer has any right, title or interest, to the payment of such tax or liability. The court shall, after the parties have been duly notified of the action, proceed to adjudicate all matters involved in the action and finally determine the merits of all claims to and liens upon the property and, in all cases where a claim or interest of the State therein is established, may decree a sale of the property by the proper officer of the court and a distribution of the proceeds of such sale according to the findings of the court. If the property is sold to satisfy a lien held by the State, the State may bid at the sale such sum, not exceeding the amount of that lien plus expenses of sale, as the assessor directs.

**Sec. A-5. 36 MRSA §175-A, sub-§4**, as corrected by RR 1997, c. 1, §28, is amended to read:

**4. Recording fees part of tax liability.** Fees paid by the assessor to registrars of deeds for recording notices of lien pursuant to subsection 1 or 1-A and notices of release of a lien pursuant to subsection 2 may be added to the tax liability that gave rise to the lien and, in the case of a tax imposed by this Title, may be collected by all the methods provided for in chapter 7. In the case of other obligations owed to the State and authorized to be collected by the bureau, the fees may be collected by any collection method authorized by this section or section 176-A.

**Sec. A-6. 36 MRSA §186, first ¶**, as amended by PL 2009, c. 625, §3, is further amended to read:

A person who fails to pay any tax, other than a tax imposed pursuant to chapter 105, on or before the last date prescribed for payment is liable for interest on the tax, calculated from that date and compounded monthly. The rate of interest for any calendar year equals the highest prime rate as published in the Wall Street Journal on the first day of September of the preceding calendar year or, if the first day of September falls on a weekend or holiday, on the next succeeding business day, rounded up to the next whole percent plus 3 percentage points. The rate of interest for any calendar year beginning on or after January 1, 2018 equals the prime rate as published in the Wall Street Journal on the first day of September of the preceding calendar year or, if the first day of September falls on a weekend or holiday, on the next succeeding business day, rounded up to the next whole percent plus one percentage point. For purposes of this section, the last date prescribed for payment of tax must be determined without regard to any extension of time permitted for filing a return. A tax that is upheld on administrative or judicial review bears interest from the date on which payment would have been due in the absence of review. Any amount that has been erroneously refunded and is recoverable by the assessor bears interest at the rate determined pursuant to this section from the date of payment of the refund. A credit or reimbursement that has been allowed or paid pursuant to this Title and is recoverable by the assessor bears interest at the rate determined pursuant to this section from the date it was allowed or paid. Interest accrues automatically, without being assessed by the assessor, and is recoverable by the assessor in the same manner as if it were a tax assessed under this Title. If the failure to pay a tax when required is explained to the satisfaction of the assessor, the assessor may abate or waive the payment of all or any part of that interest.

**Sec. A-7. 36 MRSA §191, sub-§2, ¶I**, as amended by PL 1985, c. 764, §3, is further amended to read:

I. The disclosure of information acquired pursuant to Part 2 and chapter 367, except for information identified as confidential within those provisions;

A manufacturer is not required by this subparagraph to pay more than the total value of the used motor vehicle to a motor vehicle dealer.

(2) A used motor vehicle is considered to be part of the inventory of the motor vehicle dealer under subparagraph 1 if the used motor vehicle is in the possession of the dealer on the date the do not drive order or stop sale order is issued or if the dealer obtains the used motor vehicle as a result of a trade-in or a lease return after the date that the order is issued but before the remedy and all parts necessary to repair the used motor vehicle are made available to the dealer. For purposes of this paragraph, "stop sale order" and "do not drive order" have the same meaning as in paragraph C-4;

own and operate a dealership of the same line make in a manner consistent with the public interest and this chapter. For purposes of this paragraph, the relevant market area must be determined exclusively by equitable principles, except that a manufacturer or distributor is not considered to be competing when does not violate this paragraph by operating a dealership either temporarily for a reasonable period, in any case not to exceed one year, or in a bona fide relationship in which an independent person has made a significant investment subject to loss in the dealership and can reasonably expect to acquire full ownership of the dealership on reasonable terms and conditions and except that a distributor is not considered to be competing when a wholly owned subsidiary corporation or the distributor sells motor vehicles at retail if, for at least 3 years prior to January 1, 1975, the subsidiary corporation has been a wholly owned subsidiary of the distributor and engaged in the sale of motor vehicles at retail. The provisions of this paragraph apply to a successor manufacturer or a distributor;

For the purpose of this section, "lemon law" refers to any state's certified dispute settlement law that establishes a state-certified arbitration procedure to settle consumer complaints that the consumer had been sold a vehicle that did not conform to all manufacturer express warranties and that the manufacturer had not been able to repair or correct the defect or condition that impaired the vehicle; ~~and~~

**§6856. Shellfish sanitation; depuration certificate and permits**

**1. Shellfish sanitation certificate.** A person may not undertake the processing, buying, selling, shipping, transporting or shucking of shellfish or whole scallops without a shellfish sanitation certificate unless authorized under section 6701 or 6702. The commissioner may issue a shellfish sanitation certificate to a wholesale seafood license holder or a shellfish transportation license holder that authorizes the holder to undertake the activities expressly authorized therein, which may include buying and selling, shipping, transporting, shucking or other processing of shellfish or whole scallops. A wholesale seafood license or shellfish transportation license is also necessary to undertake the activities authorized under those licenses. A shellfish sanitation certificate does not authorize a person to undertake any of the activities for which a permit is required pursuant to subsection 2-A. Beginning June 1, 2018, the fee for a shellfish sanitation certificate is \$50.

**2. Express authorizations.** The commissioner shall expressly state the authorized activities on each shellfish sanitation certificate. The activities authorized must be sufficient to allow the holder to carry out the holder's wholesale or transportation operations, except that the operations may be limited to the extent required to protect the public health.

**2-A. Additional permits.** A person may not engage in an activity for which a permit is required pursuant to this subsection unless the person holds a shellfish sanitation certificate and the applicable permit as provided in this subsection.

A. A person may not store shellfish in containers or tanks containing recirculating water without a recirculating wet storage permit. Beginning August 1, 2018, the fee for a recirculating wet storage permit is \$200, except that the fee for a recirculating wet storage permit is \$100 if the holder of the permit accepts as a permit condition the duty to provide and provides the department weekly test results showing the recirculating wet storage facility's compliance with the most recently adopted federal sanitation standards.

B. A person may not store shellfish in containers or tanks where nonrecirculating water flows through the containers or tanks or in or on floats in a natural body of water without a flow-through wet storage permit. Beginning August 1, 2018, the fee for a flow-through wet storage permit is \$100.

C. A person may not handle, ship, transport or process shellfish in bulk, as defined by the department by rule, without:

(1) Attaching a tag to the shellfish in accordance with rules adopted by the department; and

(2) A bulk tagging permit. Beginning June 1, 2018, the fee for a bulk tagging permit is \$50.

D. A person may not use a vehicle to transport soft-shelled clam shell stock purchased at a location other than the establishment or vehicle authorized under the license without a shellfish buying station permit. Beginning June 1, 2018, the fee for a shellfish buying station permit is \$100.

**3. Depuration certificate.** A person may not take shellfish from closed areas for depuration, processing and transportation without a depuration certificate. The commissioner may issue a depuration certificate to a wholesale seafood license holder that authorizes the holder to take shellfish from closed areas for depuration, processing and transportation. The certificate must establish limits on harvesting, depurating and processing methods and any other provisions required to ensure the public safety. The commissioner may permit depuration of shellfish not contaminated by paralytic shellfish poisoning if it is established that the water used during depuration will not contaminate the shellfish with paralytic shellfish poisoning. Beginning May 1, 2018, the fee for a depuration certificate is \$200.

**3-D. Soft-shelled clam depuration harvesting in municipalities with municipal shellfish conservation programs.** Soft-shelled clam depuration activities conducted within a municipality that has a municipal shellfish conservation program pursuant to section 6671 are subject to the following provisions.

A. Using the following general guidelines to identify whether pollution abatement activities are likely to succeed in a shellfish growing area, the commissioner may close a shellfish growing area pursuant to section 6172 for municipal pollution abatement activities.

(1) Pollution abatement activities are likely to succeed in shellfish growing areas affected by identified failing residential septic systems and other identified localized sources of human or animal fecal contamination when funding for abatement is available.

(2) Pollution abatement activities are not likely to succeed in shellfish growing areas affected by wastewater treatment plant outfall or other point sources of treated or partially treated sewage unless complete removal of pollution sources has been achieved.

(3) Abatement activities are not likely to succeed in shellfish growing areas affected by chronic nonpoint source contamination from rivers or streams.

At the request of the municipality, the commissioner may allow soft-shelled clam depuration harvesting in a shellfish growing area closed under this paragraph.

B. In conducting depuration harvesting activities under this subsection, a person holding a depuration certificate shall engage commercial harvesters holding valid municipal and state commercial shellfish licenses. If there are insufficient municipally licensed commercial harvesters, the depuration certificate holder may supplement with other commercial shellfish harvesters licensed in the State.

C. A depuration certificate holder shall maintain a generalized depuration management plan on file with the commissioner that sets forth methods for identifying harvest limits, operational procedures for harvest management and responsibilities of authorized representatives.

D. A depuration certificate holder shall pay each municipality an amount equal to 50¢ for each bushel of soft-shelled clams taken in that municipality under the depuration certificate. When submitting payment to a municipality under this paragraph, the depuration certificate holder shall include a summary of reports submitted to the department pursuant to rules adopted under subsection 4.

**4. Rules.** The commissioner may adopt or amend rules concerning:

A. The procedures for issuing certificates and the required qualifications for each type of certificate;

B. The minimum sanitation standards for establishments and vehicles;

C. The sanitation and quality control standards for shellfish and whole scallops and their products;

E. The records and reports of takings, purchases, processing, sales, shipping and transporting of shellfish and whole scallops;

F. The labeling or marking of shipments of shellfish and whole scallops; and

G. Other rules necessary to the public health.

The rules must be based on the particular operational requirements of each activity, the most recently adopted federal sanitation standards and the most re-

cent generally accepted research data, in a manner so as to protect the public health and safety while allowing reasonable use of the State's shellfish and whole scallops.

**5. Right of entry.** Whenever a certificate has been issued under this section, the commissioner, or the commissioner's agent, must have access to any establishment or part thereof for the purpose of inspection or collection of samples. Denial of access is grounds for suspension or revocation of any certificate or license under the provisions of section 6372.

**6. Products embargoed and condemned.** The commissioner, or the commissioner's agent, shall indefinitely embargo, condemn or order to be destroyed any shellfish, shellfish product or whole scallop in any establishment whenever it is determined that the product is of unsound quality, contains any filthy, decomposed or putrid substance, or may be poisonous or deleterious to health or otherwise unsafe. The commissioner and the commissioner's agent shall cooperate with those state and federal agencies having similar responsibility in the protection of public health and in enforcing the order to embargo, condemn or destroy.

In the event that any shellfish, shellfish product or whole scallop in any establishment is embargoed, condemned or ordered destroyed, the commissioner, or the commissioner's agent, shall, as soon thereafter as practical, notify the owner in writing of the amount and kind of shellfish, shellfish product or whole scallop embargoed, condemned or destroyed.

**9. Disposition of fees.** The commissioner shall deposit fees collected under this section in the Shellfish Fund under section 6651.

**An Act To Amend the Motor Vehicle Laws**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 5 MRSA §17716**, as amended by PL 2007, c. 491, §135, is further amended to read:

**§17716. Motor vehicle detectives**

A motor vehicle ~~investigator~~ detective, senior motor vehicle ~~investigator~~ detective, principal motor vehicle ~~investigator~~ detective or chief motor vehicle ~~investigator~~ detective who elects the retirement option provided in section 17851, subsection 14 shall contribute to the State Employee and Teacher Retirement

Program or have pick-up contributions made by the employer as provided in section 17852, subsection 15.

**Sec. 2. 5 MRSA §17851, sub-§14**, as enacted by PL 1997, c. 402, §2, is amended to read:

**14. Motor vehicle detectives; option.** A motor vehicle ~~investigator detective~~, senior motor vehicle ~~investigator detective~~, principal motor vehicle ~~investigator detective~~ or chief motor vehicle ~~investigator detective~~ qualifies for a service retirement benefit upon reaching 55 years of age after completing at least 25 years of creditable service in that capacity if notice of election of the option and payment of employee contributions and actuarial costs are made as provided in section 17852, subsection 15.

**Sec. 3. 5 MRSA §17852, sub-§15**, as amended by PL 2007, c. 491, §§171, 172, is further amended to read:

**15. Motor vehicle investigators and motor vehicle detectives; option.** The retirement benefit of a person who qualifies under section 17851, subsection 14 and who retires upon or after reaching 55 years of age is computed in accordance with subsection 1 if:

A. The person was first employed as a motor vehicle investigator or a motor vehicle detective on or after October 1, 1997, elects the option provided in section 17851, subsection 14 and pays to the State Employee and Teacher Retirement Program an increased employee payroll contribution in an amount that equals the full actuarial cost of electing that option; or

B. The person was first employed as a motor vehicle investigator before October 1, 1997, elects the option provided in section 17851, subsection 14 and pays to the State Employee and Teacher Retirement Program a single payment or periodic payments of a lump sum or a combination of single and periodic payments of that amount that equals the full actuarial cost of electing that option for service before that date.

A person who requests calculation of the full actuarial cost, regardless of whether the person elects the option, must pay to the retirement system by a single lump sum payment the reasonable administrative costs of determining the full actuarial costs. Payment of the full actuarial cost related to service on or after October 1, 1997 is made as part of the employee payroll contribution.

For the purposes of this subsection, "full actuarial cost" means that the person's payment or payments must fully offset any unfunded liability that would or does result from retirement under the option provided in section 17851, subsection 14 and must fully fund the cost of the person's retirement prior to normal retirement age so that an additional employer contribution is not required.

A person who makes the election provided in section 17851, subsection 14 at any time after the date on which the person is first employed as a motor vehicle investigator or a motor vehicle detective must include interest, at a rate to be set by the board not to exceed regular interest by 5 or more percentage points, applied as of the date on which the person was first employed in that capacity to the contributions the person would have paid or had picked up by the employer had the person elected that option at the date of first employment.

This subsection takes effect October 1, 1997. Election to retire under this subsection is a one-time irrevocable election. A person who was first employed as a motor vehicle investigator or a motor vehicle detective on or after October 1, 1997 must make the election no later than 90 days after the date of first employment. A person who was first employed in that capacity before October 1, 1997 must make the election no later than January 1, 1998.

**Sec. 4. 5 MRSA §17852, sub-§16**, as enacted by PL 1997, c. 401, §3, is further amended to read:

**16. Motor vehicle detectives exercising option; retirement before 55 years of age.** For a person exercising the option provided in section 17851, subsection 14 who makes the payments required in subsection 15 and who retires before reaching 55 years of age, the retirement benefit is determined as follows.

A. For members with 10 years of creditable service on July 1, 1993, the retirement benefit is determined in accordance with subsection 1, except that:

(1) The amount arrived at under subsection 1 is reduced by applying to that amount the percentage that a life annuity due at 55 years of age bears to the life annuity due at the age of retirement; and

(2) For the purpose of making the computation under subparagraph (1), the board-approved tables of annuities in effect at the date of the member's retirement are used.

For the purpose of calculating creditable service under this subsection only, "creditable service" includes time during which a member participated in the voluntary cost-savings plan or the voluntary employee incentive program; authorized by Public Law 1989, chapter 702, Part F, section 6 and Public Law 1991, chapter 591, Part BB and chapter 780, Part VV; 10 years of combined creditable service under this Part and Title 3, chapter 29; or creditable service available to a member that the member was eligible to purchase on June 30, 1993 and that the member does purchase in accordance with rules adopted by the board.

B. For members who do not have 10 years of creditable service on July 1, 1993, the retirement benefit is determined in accordance with subsection 1, except that the benefit is reduced by 6% for each year that the person's age precedes 55 years of age.

**Sec. 5. 20-A MRSA §12552, sub-§2**, as amended by PL 2009, c. 421, §1, is further amended to read:

**1. Licensing.** If the commission is satisfied that all of this chapter and rules prescribed by the commission have been substantially complied with during the past year and will be fully complied with during the coming year by the person, association or corporation applying for a license; that the applicant, its members, directors, officers, shareholders, employees, creditors and associates are of good moral character; that the applicant is financially responsible; and that the award of racing dates to the applicant is appropriate under the criteria contained in subsection 2, it may issue a license for the holding of harness horse races or meets for public exhibition with pari-mutuel pools, which must expire on December 31st. The fee for a license is \$100 or \$10 per week, whichever is higher. A license issued pursuant to this subsection is not transferable or assignable. The District Court Judge, as designated in Title 4, chapter 5, may revoke any license issued at any time for violation of the commission's rules or licensing provisions upon notice and hearing. The license is automatically revoked, subject to Title 5, chapter 375, upon a change in ownership, legal or equitable, of 50% or more of the voting stock of the licensee; the licensee may not hold a harness horse race or meet for public exhibition without a new license.

**Sec. 9. 8 MRSA §271, sub-§2,** as amended by PL 2007, c. 539, Pt. G, §7 and affected by §15 and amended by PL 2011, c. 657, Pt. W, §6, is further amended to read:

**2. Minimum number of race days; criteria for date awards.** The commission shall determine the number of race days that should be awarded to licensed applicants pursuant to this section based on the criteria set forth herein. The commission may award fewer than the minimum race days set forth in section

275-A, subsection 1 to commercial tracks with the express written approval of the track, and with the express written approval of an association of horsemen as defined in section 272-B, if credible evidence is presented that demonstrates that fewer race days is in the best interest of Maine's harness racing industry. The award of fewer race days than set forth in section 275-A, subsection 1 may not affect the status of those tracks as commercial tracks pursuant to section 299. In assigning race dates to licensees, the commission shall consider the following factors:

- A. The revenues to be generated, consistent with the profitability and financial health of the licensee, for the operating account pursuant to section 287; the purse supplements pursuant to section 286; the Sire Stakes Fund pursuant to section 281; and the Stipend Fund pursuant to Title 7, section 86;
- B. The quality of race programming and facilities offered and to be offered by the licensee and the suitability of the applicant's racing facilities for operation at the season for which the race dates are requested;
- C. The necessity of having and maintaining proper physical facilities for racing meetings; and consequently, to ~~insure~~ ensure the continuance of the facilities, the quality of the licensee's maintenance of its track and plant, the adequacy of its provisions for rehabilitation and capital improvements and the necessity of fair treatment of the economic interests and investments of those who, in good faith, have provided and maintained racing facilities;
- D. The desirability of reasonable consistency in the pattern of race date assignments from year to year;
- E. With respect to agricultural societies seeking licenses to conduct harness racing meets at the time of their annual fairs, the scheduling of agricultural fairs determined by the Commissioner of Agriculture, Conservation and Forestry pursuant to Title 7, sections 83 and 84;
- F. The preservation of a diversity of harness racing tracks in the State;
- G. The quality of the licensee's observance and enforcement of this chapter and the rules ~~promulgated~~ adopted pursuant to this chapter during the past year;
- H. The extent to which the licensee fully utilized race dates granted to it for the past year;
- I. The personnel and resources available to the commission for the enforcement of this chapter and the rules ~~promulgated~~ adopted pursuant to this chapter;

J. The likely availability of race-worthy horses throughout the year with a goal of promoting full cards and avoiding 5-horse fields; and

K. Such other criteria consistent with the betterment of harness racing and the public health, safety and welfare as the commission may establish by rule.

If the executive director or the commission determines that any of the criteria listed in this subsection have not been met by the licensee, the executive director shall submit a notice of the deficiency in meeting any criteria to the licensee, regardless of whether the deficiency resulted in the denial of the application for or the refusal to award race dates. The director shall also submit a copy of the notice in the same manner and at the same time to the joint standing committee of the Legislature having jurisdiction over agriculture matters.

**Sec. 10. 8 MRSA §271, sub-§5**, as amended by PL 1995, c. 408, §3, is further amended to read:

**5. Minimum number of race dates.** The commission may assign a commercial licensee a minimum number of race dates for a period of up to 3 years. The specific calendar dates for the minimum number of race dates and any additional race dates are determined each year in accordance with subsection 1. For the purposes of this subsection, "commercial licensee" means a licensee with an annual total of ~~more than~~ at least 25 race dates with pari-mutuel wagering in the previous calendar year.

**Sec. 11. 8 MRSA §271, sub-§7**, as reallocated by RR 1997, c. 1, §5, is amended to read:

**7. Hearing on horse supply.** Prior to August ~~31st~~ of each year, the commission shall conduct a hearing to determine whether the horse supply in the State has been adequate for the number of dashes conducted on assigned race dates. If the commission concludes that the horse supply has been inadequate, the commission shall limit to the extent necessary the number of dashes that a licensee may race on any date after August 1st of that year that has been assigned to more than one track. The commission may not restrict the number of dashes to fewer than ~~40~~ 8.

**Sec. 12. 8 MRSA §271, sub-§9**, as reallocated by RR 1997, c. 1, §7, is repealed.

**Sec. 13. 8 MRSA §272-C, sub-§§1 and 2**, as enacted by PL 2013, c. 490, §2, are amended to read:

**1. Establishment; deposits; rules.** A licensee conducting live racing in the State shall establish a trust account for the benefit of the persons who race horses at that licensee's facility. Except as provided by subsection 3, funds distributed to or retained by the licensee pursuant to sections 287, 289, 290, 292 and 298 and Title 7, section 91, less any administrative assessments pursuant to section 267-A, that must be

used to pay or supplement harness racing purses must be deposited in that account and used exclusively to pay harness racing purses. The funds in a trust account established in accordance with this subsection are not considered to be property of the licensee, may not be pledged as security for the debts of the licensee and are not subject to attachment or execution by creditors of the licensee. The commission may adopt rules governing the handling of trust accounts, providing for the reallocation of trust account funds to other licensed commercial tracks in the event that a track ceases operation or cancels a significant number of race days, as determined by the commission, and governing the handling of harness racing purses at any commercial track that does not have a contract with a statewide horsemen association. Rules adopted pursuant to this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A.

## 2. Payment if licensee fails to conduct racing.

If a licensee ceases to operate and therefore fails to conduct ~~a race meet~~ racing during any of the assigned race dates in a calendar year, all funds not committed to pay purses held in the trust account established under this section by that licensee must be returned within 15 days to the commission, which shall return to the licensee any amount that represented a reimbursement that equaled an overpayment of harness racing purses. Any remaining balance of the trust account must be redistributed by the commission to the trust accounts of all racetracks that continue to conduct live racing in the State, with each track receiving that portion of money determined by multiplying the amount of money available for redistribution by a fraction, the numerator of which is the number of race dates at that racing facility during the prior calendar year and the denominator of which is the total number of race dates throughout the State during that year, except that those funds received by a licensee pursuant to section 298 must be returned to the fund to supplement harness racing purses established in section 298 and must be distributed according to that section.

**Sec. 14. 8 MRSA §275-A, sub-§1,** as amended by PL 2013, c. 490, §3, is further amended to read:

**1. Commercial track.** "Commercial track" means ~~a~~ any harness horse racing track that is a for-profit business and is licensed under this chapter to conduct harness horse racing with pari-mutuel wagering that: is not associated with an agricultural fair as defined in Title 7, section 81 and that:

A. If the population of the region is 300,000 or more, based on the 1990 U.S. Census, conducted racing on more than ~~400~~ 69 days in each of the previous 2 calendar years, except that if a racetrack that qualifies as a commercial track under this paragraph ceases operation, a separate racetrack operated by the owner or operator of the

racetrack that ceased operation qualifies as a commercial track, and for all purposes is considered the same commercial track as the track that ceased operation, if the population of the region of that separate racetrack is 300,000 or more, based on the 1990 U.S. Census, and the sum of the number of days on which racing was conducted at the track that ceased operation and the number of days on which racing was conducted at the separate racetrack equals at least ~~400~~ 70 days in each of the 2 preceding calendar years;

B. If the population of the region is less than 300,000, based on the 1990 U.S. Census, conducted racing on more than ~~25~~ 34 days in each of the previous 2 calendar years, except that if a racetrack that qualifies as a commercial track under this paragraph ceases operation, a separate racetrack operated by the owner or operator of the racetrack that ceased operation qualifies as a commercial track, and for all purposes is considered the same commercial track as the track that ceased operation, if the population of the region of that separate racetrack is less than 300,000, based on the 1990 U.S. Census, and the sum of the number of days on which racing was conducted at the track that ceased operation and the number of days on which racing was conducted at the separate racetrack equals at least ~~26~~ 35 days in each of the 2 preceding calendar years;

C. Began operation after January 1, 2014 in a region with a population of 300,000 or more, based on the 1990 U.S. Census, to replace a commercial track as defined by paragraph A that ceased operation after January 1, 2014 and for which no separate racetrack has been opened by the owner or operator of that commercial track that ceased operation. For purposes of this paragraph, a racetrack is not required to have conducted racing during the 2 preceding calendar years but is required to conduct racing on at least ~~400~~ 70 days during each calendar year after the track is initially licensed as a commercial track. If a commercial track under this paragraph has not been granted ~~400~~ 70 race days by the commission for the initial calendar year of operation, race days conducted during that year by the commercial track that ceased operation after January 1, 2014 are credited to the replacement commercial track; or

D. Began operation after January 1, 2014 in a region with a population of less than 300,000, based on the 1990 U.S. Census, to replace a commercial track as defined by paragraph B that ceased operation after January 1, 2014 and for which no separate racetrack has been opened by the owner or operator of that commercial track that ceased operation. For purposes of this paragraph, a racetrack is not required to have conducted racing during the 2 preceding calendar years but is required

to conduct racing on at least ~~25~~ 35 days during each calendar year after the track is initially licensed as a commercial track. If a commercial track under this paragraph has not been granted ~~25~~ 35 race days by the commission for the initial calendar year of operation, race days conducted during that year by the commercial track that ceased operation after January 1, 2014 are credited to the replacement commercial track.

For the purposes of this subsection, "region" is determined by measuring a distance of 50 miles from the center of the racing track along the most commonly used roadway, as determined by the Department of Transportation, drawing a circle around the center of the racing track using that 50-mile measurement and excluding those municipalities or unorganized territories that do not have boundaries contained entirely by that circle.

For the purpose of determining the number of days a race track conducted racing under this subsection, if a race day is canceled due to a natural or other disaster, or due to a horse supply shortage as verified by the state steward, the track is considered to have conducted racing on that day.

**Sec. 15. 8 MRSA §275-A, sub-§9-A**, as enacted by PL 1995, c. 408, §5, is amended to read:

**9-A. Race date.** "Race date" means a scheduled date awarded by the commission pursuant to section 271 for which there is a racing program of not less than 8 separate live races. In the event of cancellation of a portion of the scheduled racing program due to weather, power failure or a decision to cancel by the presiding judge on duty, a minimum of 5 live races actually raced constitutes a race date. If a licensee schedules separate programs for both an afternoon and an evening on the same calendar day and each program qualifies as a race date under this subsection, that licensee is granted one race date for each program.

**Sec. 16. 8 MRSA §275-A, sub-§9-B** is enacted to read:

**9-B. Race day.** "Race day" means a scheduled day of racing awarded by the commission pursuant to section 271 on which racing occurred.

**Sec. 17. 8 MRSA §275-A, sub-§10-A**, as enacted by PL 1995, c. 408, §6, is amended to read:

**10-A. Regular meeting.** "Regular meeting" means the period of time from the first date a licensee is authorized to conduct live racing through the last date a licensee is authorized to conduct live racing, excluding periods of time longer than 14 days when the licensee is not authorized to conduct live racing. ~~Notwithstanding this subsection, the regular meeting of a licensee that is licensed to conduct live racing in at least 6 separate calendar months includes the entire calendar year.~~

**Sec. 18. 8 MRSA §275-N**, as amended by PL 2015, c. 200, §2, is further amended to read:

**§275-N. Limitations on off-track betting facilities**

The commission may allow interstate simulcasting and license any off-track betting facility regardless of the number of race dates that were conducted in the State for any calendar year. Interstate simulcasting always must be allowed at any commercial track ~~that conducted at least 136 race dates during the immediately preceding 2 calendar years or at an existing commercial track as defined in section 275-A, subsection 1, paragraph B at which at least 35 race dates were conducted during the preceding 2 years if the interstate simulcasting at the commercial track is conducted during the regular meeting.~~ For the purposes of this section, any race date that the commission determines was canceled due to a natural or other disaster must be counted as a race date. ~~For the purposes of this section and for the purpose of meeting the requirements of section 275-A, subsection 1, any race date that is canceled at a commercial race track due to the inability to meet the requirements of section 275-A, subsection 9-A because of a horse shortage, as verified by the state steward, is counted as a race date.~~

**Sec. 19. 8 MRSA §276-B**, as enacted by PL 2013, c. 490, §4, is amended to read:

**§276-B. Commercial track ceases operation; entitled to funds**

Other than funds used exclusively to pay harness racing purses, a commercial track that ceases operation is entitled to distribution of all funds maintained by the State under this chapter based on the number of race days conducted by that commercial track up to and including the final racing date conducted by that commercial track. Payments due from a commercial track that ceases operation to any in-state commercial track, agricultural fair or off-track wagering licensee must be made from the funds under this section prior to distribution to the commercial track that has ceased operation.

**Sec. 20. 8 MRSA §277**, as amended by PL 2013, c. 16, §10, is further amended to read:

**§277. Records**

Every person, association or corporation conducting a race or race meet under the provisions of this chapter shall so keep its books and records as to clearly show all financial transactions relating to racing related to sections 281, 298, 299 and 300, which books and records ~~shall be~~ are subject to audit at any time by the department or the Office of the State Auditor.

**Sec. 21. 8 MRSA §279-E**, as enacted by PL 2007, c. 611, §8, is amended to read:

**§279-E. Trainers; duty to submit a horse for testing for use of prohibited substances**

**1. Obtaining a sample.** Pursuant to this section, the commission may require a licensed trainer to:

A. Transport the horse to a designated site where a veterinarian employed by the commission or the department may ~~draw a blood~~ obtain a biological sample; or

B. Allow a veterinarian employed by the commission or the department, or a veterinarian designated by the commission and accompanied by a state steward designated department personnel, access to the premises where the horse is kept for the purpose of obtaining a blood biological sample.

**2. Rulemaking.** The commission shall adopt rules establishing a procedure for obtaining blood biological samples and ensuring a secure chain of custody for transporting the sample to a laboratory for testing. The rules must consider travel distances and costs associated with obtaining a sample when designating a testing site and may assess a fee to defray travel costs for the veterinarian and ~~the state steward~~ designated department personnel. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**3. Refusal.** Refusal to comply with the commission's directives for obtaining a sample under this section is a basis for suspension of a trainer's license.

**Sec. 22. 8 MRSA §283**, as amended by PL 2013, c. 155, §2, is further amended to read:

**§283. Reciprocal disciplinary action**

The department shall obtain current listings from other jurisdictions of persons in harness racing occupations regulated by the commission who have been refused a license or who have had their license revoked or suspended. The commission shall refuse to license or shall suspend the license of any person ~~who has been refused a license or who has had that person's~~ whose license is currently refused, revoked or suspended in another jurisdiction until notification from the jurisdiction that refused to license or suspended or revoked the license of the person that the person is again eligible for licensing in that jurisdiction.

The payment in January must be adjusted so that for the prior ~~3~~ 2 time periods each commercial track receives that fraction of the total money distributed over the full year from the fund established by this section, the amount determined by multiplying the total amount of money times a fraction, the numerator of which is the number of ~~live race days conducted~~ day credits actually earned by the commercial track during the calendar year and the denominator of which is the total number of ~~race days conducted~~ day credits actually earned by all commercial tracks licensed under section 271 during that calendar year.

**Sec. 24. 8 MRSA §299, sub-§3**, as enacted by PL 2015, c. 493, §3, is amended to read:

**3. Track closure distribution.** Notwithstanding subsection 2, if a commercial track ceases operation and is not immediately replaced by a commercial track in the same region that is owned by the same owner as the commercial track that ceased operation, all amounts credited to the fund established by this section must be disbursed to the remaining commercial tracks and to agricultural fair licensees that conduct live racing based on days raced during extended meets up to a maximum of 100 days raced during extended meets per year and until such time as a new commercial track begins operation. If a commercial track ceases operation, the commission may vary from the distribution schedule set forth in subsection 2 to facilitate racing at other licensed tracks in the State. The payment to a commercial track or agricultural fair is determined ~~by dividing the amount in the fund by 150 and multiplying the result by the number of days raced by that commercial track or agricultural fair pursuant to subsections 2 and 5, with agricultural fair licensees conducting live racing during extended meets receiving race day credits as determined in subsection 5 in a similar manner as commercial race tracks receive race day credits.~~ by dividing the amount in the fund by 150 and multiplying the result by the number of days raced by that commercial track or agricultural fair pursuant to subsections 2 and 5, with agricultural fair licensees conducting live racing during extended meets receiving race day credits as determined in subsection 5 in a similar manner as commercial race tracks receive race day credits. An agricultural fair must receive its payment ~~on no later than~~ no later than May 30th before extended meets are held based on assigned dates for extended meets for that agricultural fair. An adjustment must be made no later than the January 30th following the extended meets that results in payment to an agricultural fair

based on days actually raced during extended meets by that agricultural fair. Any amount remaining in the fund on January 30th after payments are made to commercial tracks and agricultural fairs must be transferred to the operating account of the commission under section 267-A.

For the purposes of this subsection, "region" is determined by measuring a distance of 50 miles from the center of the racing track along the most commonly used roadway, as determined by the Department of Transportation, drawing a circle around the center of the racing track using that 50-mile measurement and excluding those municipalities or unorganized territories that do not have boundaries contained entirely by that circle.

**Sec. 25. 8 MRSA §299, sub-§5** is enacted to read:

**5. Race day credits.** For the purposes of this section, race day credits are awarded as follows:

A. One race day credit is earned for each day actually raced;

B. One additional race day credit is earned for each day raced when no other association licensed under section 271 is scheduled to race; and

C. One additional race day credit is earned for each day raced during the months of March and December. A maximum of 12 race day credits may be awarded per commercial track for the month of March and a maximum of 12 race day credits may be awarded per commercial track for the month of December.

**Sec. 26. 8 MRSA §1037, first ¶**, as enacted by PL 2011, c. 358, §6 and amended by c. 657, Pt. W, §6, is further amended to read:

Beginning February 15, 2012 April 1, 2018 and annually thereafter, the executive director of the State Harness Racing Commission, in consultation with the Commissioner of Agriculture, Conservation and Forestry, annually shall submit a report to the joint standing committees of the Legislature having jurisdiction over slot machines, harness racing, agricultural fairs and appropriations and financial affairs regarding the use of slot machine revenue deposited in funds under section 1036, subsection 2, paragraphs B, C, D, H and I. The executive director and the commissioner shall obtain the information as described in this section. The report required by this section must be completed using budgeted resources. The executive director may not distribute funds listed under section 1036, subsection 2, as applicable, to harness racing tracks, off-track betting facilities, agricultural fairs or the Sire Stakes Fund under section 281 until the information required to submit the report required by this section is provided. The report required by this section may be combined with the report required under section 267.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective June 19, 2017.

A health care entity shall comply with this paragraph by providing a written notice at the time the health care entity recommends or refers a patient for a health care service or procedure that may qualify as a comparable health care service. A written notice provided under this paragraph must include a notification that, prior to obtaining the recommended service, the patient may review the health care price transparency tool provided by the patient's carrier or contact the patient's carrier directly via a toll-free telephone number so that the patient may consider whether the recommended provider of the comparable health care service represents the best value for the patient. A written notice provided under this paragraph must also include a description of the service or the applicable standard medical codes or current procedural terminology codes used by the American Medical Association sufficient to allow the carrier to assist the patient in comparing prices for the comparable health care service.

The services presented must include, but not be limited to, imaging, preventative health, radiology

Beginning October 1, 2012, price information posted on the website must be posted semiannually, must display the date of posting and, when posted, must be current to within 12 months of the date of submission of the information. Payment reports and price information posted on the website must include data submitted by payors with regard to all health care facilities and practitioners that provide comparable health care services as defined in Title 24-A, section 4318-A, subsection 1, paragraph A or services for which the organization reports data pertaining to the statewide average price pursuant to this subsection or Title 24-A, section 4318-B. Upon notice made by a health care facility or practitioner that data posted by the organization pertaining to that facility or practitioner is inaccurate or incomplete, the organization shall remedy the inaccurate or incomplete data within the earlier of 30 days of receipt of the notice and the next semiannual posting date.

**Sec. 3. 24-A MRSA §4302, sub-§1, ¶K**, as amended by PL 2009, c. 439, Pt. B, §3, is further amended to read:

L. A description of a provider profiling program that may be a part of the health plan, including the location of provider performance ratings in the plan materials or on a publicly accessible website, information explaining the provider rating system and the basis upon which provider performance is measured, the limitations of the data used to measure provider performance, the process for selecting providers and a conspicuous written disclaimer explaining the provider performance ratings should only be used as a guide for choosing a provider and that enrollees should consult their current provider before making a decision about their health care based on a provider rating; and

**Sec. 5. 24-A MRSA §4302, sub-§1, ¶M** is enacted to read:

M. If the health plan is subject to the requirements of section 4318-A, a description of the incentives available to an enrollee and how to earn such incentives if enrolled in a health plan offering a comparable health care service incentive program designed pursuant to section 4318-A.

**Sec. 6. 24-A MRSA §4303, sub-§21** is enacted to read:

**21. Health care price transparency tools.** Beginning January 1, 2018, a carrier offering a health plan in this State shall comply with the following requirements.

A. A carrier shall develop and make available a website accessible to enrollees and a toll-free telephone number that enable enrollees to obtain information on the estimated costs for obtaining a comparable health care service, as defined in Title 24-A, section 4318-A, subsection 1, paragraph A, from network providers, as well as quality data for those providers, to the extent available. A carrier may comply with the requirements of this paragraph by directing enrollees to the publicly accessible health care costs website of the Maine Health Data Organization.

B. A carrier shall make available to the enrollee the ability to obtain an estimated cost that is based on a description of the service or the applicable standard medical codes or current procedural terminology codes used by the American Medical Association provided to the enrollee by the provider. Upon an enrollee's request, the carrier shall request additional or clarifying code information, if needed, from the provider involved with the comparable health care service. If the carrier obtains specific code information from the enrollee or the enrollee's provider, the carrier shall provide the anticipated charge and the enrollee's anticipated out-of-pocket costs based on that code information, to the extent such information is made available to the carrier by the provider.

C. A carrier shall notify an enrollee that the amounts are estimates based on information available to the carrier at the time the request is made and that the amount the enrollee will be responsible to pay may vary due to unforeseen circumstances that arise out of the proposed comparable health care service. This subsection does not prohibit a carrier from imposing cost-sharing requirements disclosed in the enrollee's certificate of coverage for unforeseen health care services that arise out of the proposed comparable health care service or for a procedure or service that was not included in the original estimate. This subsection does not preclude an enrollee from contacting

the carrier to obtain more information about a particular admission, procedure or service with respect to a particular provider.

D. Notwithstanding the provisions of this subsection and at the request of a carrier, the superintendent may grant an additional year to comply with the provisions of this subsection as long as the carrier has demonstrated a good faith effort to comply with the provisions of this subsection and has provided the superintendent with an action plan detailing the steps to be taken by the carrier to comply with this subsection no later than January 1, 2019.

**Sec. 7. 24-A MRSA §4303, sub-§22** is enacted to read:

**22. Denial of referral by out-of-network provider prohibited.** Beginning January 1, 2018, a carrier may not deny payment for any health care service covered under an enrollee's health plan based solely on the basis that the enrollee's referral was made by a provider who is not a member of the carrier's provider network.

**Sec. 8. 24-A MRSA §4318-A** is enacted to read:

**§4318-A. Comparable health care service incentive program**

Beginning January 1, 2019, a carrier offering a health plan in this State shall establish, at a minimum, for all small group health plans as defined in section 2808-B, subsection 1, paragraph G compatible with a health savings account authorized under federal law, a health plan design in which enrollees are directly incentivized to shop for low-cost, high-quality participating providers for comparable health care services. Incentives may include, but are not limited to, cash payments, gift cards or credits or reductions of premiums, copayments or deductibles. A small group health plan design created under this section must remain available to enrollees for at least 2 consecutive years, except that any changes made to the program after 2 years, including, but not limited to, ending the incentive, may not be construed as a change to the small group health plan design for the purpose of guaranteed renewability under section 2808-B, subsection 4 or section 2850-B. A multiple-employer welfare arrangement is not considered a carrier for the purposes of this section.

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

**A. "Comparable health care service" means nonemergency, outpatient health care services in the following categories:**

**(1) Physical and occupational therapy services;**

**(2) Radiology and imaging services;**

**(3) Laboratory services; and**

**(4) Infusion therapy services.**

**B. "Program" means the comparable health care service incentive program established by a carrier pursuant to this section.**

**2. Filing with superintendent.** Plans filed with the superintendent pursuant to this section must disclose, in the summary of benefits and explanation of coverage, a detailed description of the incentives available to a plan enrollee. The description must clearly detail any incentives that may be earned by the enrollee, including any limits on such incentives, the actions that must be taken in order to earn such incentives and a list of the types of services that qualify under the program. This subsection may not be construed to prevent a carrier from directing an enrollee to the carrier's website or toll-free telephone number for further information on the program in the summary of benefits and explanation of coverage. The superintendent shall review the filing made by the carrier to determine if the carrier's program complies with the requirements of this section.

**3. Availability of program; notice to enrollees.** Annually at enrollment or renewal, a carrier shall provide notice about the availability of the program to an enrollee who is enrolled in a health plan eligible for the program as required by section 4302, subsection 1, paragraph M.

**4. Additional types of nonemergency health care services or procedures.** Nothing in this section precludes a carrier from including additional types of nonemergency health care services or procedures in its program.

**5. No administrative expense.** An incentive payment made by a carrier in accordance with this section is not an administrative expense of the carrier for rate development or rate filing purposes.

**6. Study and evaluation.** Beginning March 1, 2020 and annually thereafter, the superintendent shall undertake a study and evaluation of the programs created by carriers as required by this section. The superintendent may request information on enrollment and use of incentives earned by enrollees of a carrier as necessary. By April 15, 2020 and annually thereafter, the superintendent shall submit an aggregate report relating to the performance of the programs, the use of incentives, the incentives earned by enrollees and the cumulative effect of the programs to the joint standing committee of the Legislature having jurisdiction over health insurance matters.

**7. Rules.** The superintendent may adopt rules as necessary to implement this section. Rules adopted pursuant to this subsection are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A.

**8. Repeal.** This section is repealed January 1, 2024.

**Sec. 9. 24-A MRSA §4318-B** is enacted to read:

**§4318-B. Access to lower-priced services**

**1. Services from out-of-network provider; lower prices.** Beginning January 1, 2019, if an enrollee covered under a health plan other than a health maintenance organization plan elects to obtain a covered comparable health care service as defined in section 4318-A, subsection 1, paragraph A from an out-of-network provider at a price that is the same or less than the statewide average for the same covered health care service based on data reported on the publicly accessible health care costs website of the Maine Health Data Organization, the carrier shall allow the enrollee to obtain the service from the out-of-network provider at the provider's charge and, upon request by the enrollee, shall apply the payments made by the enrollee for that comparable health care service toward the enrollee's deductible and out-of-pocket maximum as specified in the enrollee's health plan as if the health care services had been provided by an in-network provider. A carrier may use the average price paid to a network provider for the covered comparable health care service under the enrollee's health plan in lieu of the statewide average price on the Maine Health Data Organization's publicly accessible website as long as the carrier uses a reasonable method to calculate the average price paid and the information is available to enrollees through a website accessible to the enrollee and a toll-free telephone number that provide, at a minimum, information relating to comparable health care services. The enrollee is responsible for demonstrating to the carrier that payments made by the enrollee to the out-of-network provider should be applied toward the enrollee's deductible or out-of-pocket maximum pursuant to this section. The carrier shall provide a downloadable or interactive online form to the enrollee for the purpose of making such a demonstration and may require that copies of bills and proof of payment be submitted by the enrollee. For the purposes of this section, "out-of-network provider" means a provider located in Massachusetts, New Hampshire or this State that is enrolled in the MaineCare program and participates in Medicare.

**2. Rules.** The superintendent may adopt rules as necessary to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**3. Repeal.** This section is repealed January 1, 2024.

(2) An affordable housing project for which the owner of the property received the income tax credit increase under Title 36, section 5219-BB, subsection 3 must remain an affordable housing project for 30 years from the date the affordable housing project is placed in service. If the property does not remain an affordable housing project for 30 years from the date the affordable housing project is placed in service, the owner of the property shall pay to the Maine State Housing Authority for application to the Housing Opportunities for Maine Fund established under section 4853 an amount equal to the income tax credit increase allowed under Title 36, section 5219-BB, subsection 3, plus interest on that amount at the rate of 7% per annum from the date the property is placed in service until the date of payment of all amounts due. **1. Legislative findings.** The Legislature finds that:

A. The inability to effectively collect the sales or use tax from remote sellers that deliver tangible personal property, a product transferred electronically or a service directly to the citizens of this State is seriously eroding the sales tax base of this State, causing revenue losses and imminent harm to this State through the loss of critical funding for state and local services;

B. Despite the fact that a use tax is owed on tangible personal property, a product transferred electronically or a service delivered for use in this State, many remote sellers actively market sales as "tax free" or "no sales tax" transactions;

C. The structural advantages of remote sellers, including the absence of point-of-sale tax collection, along with the general growth of online retail, could further erode this State's sales tax base in the near future;

D. Remote sellers that make a substantial number of deliveries into or have large gross revenues from Maine benefit extensively from this State's market, including the economy generally and state infrastructure;

E. In contrast with increasing harm caused to the State from the exemption from sales and use tax collection duties for remote sellers, the costs of that collection have fallen. Given modern computing and software options, it is neither unusually difficult nor burdensome for remote sellers to collect and remit sales and use taxes associated with sales into Maine; and

F. The Legislature recognizes that the imposition of this requirement places remote sellers in a complicated position, precisely because existing constitutional doctrine calls the imposition of this

requirement into question. Accordingly, the Legislature intends to clarify that the obligations created by the imposition of this requirement would be appropriately stayed by the courts until the constitutionality of this law has been clearly established by a binding judgment, including, for example, a decision from the Supreme Court of the United States abrogating its existing doctrine or a final judgment applicable to a particular taxpayer.

**2. Legislative intent.** It is the intent of the Legislature to apply the sales and use tax obligations imposed under the laws of this State to the limit of federal and state constitutional doctrines and to thereby clarify that the laws of this State permit the State to immediately argue in any litigation that such constitutional doctrine should be changed to permit the tax collection obligations of this section.

**3. Collection of tax by remote seller.** Notwithstanding any provision of law to the contrary, a person selling tangible personal property, products transferred electronically or services for delivery into this State is subject to the provisions of this Part and shall collect and remit the sales tax imposed pursuant to section 1811 in the same manner as a retailer that has a physical presence in this State if:

A. The person's gross revenue from delivery of tangible personal property, products transferred electronically or services that are taxable by this State into this State in the previous calendar year or current calendar year exceeds \$100,000; or

B. The person sold tangible personal property, products transferred electronically or services that are taxable by this State for delivery into this State in at least 200 separate transactions in the previous calendar year or the current calendar year.

**4. Declaratory judgment action.** Notwithstanding any other provision of law, and regardless of whether the State initiates an audit or other tax collection procedure, the State may bring a declaratory judgment action pursuant to Title 14, chapter 707 against any person the State believes meets the criteria of subsection 3 to establish that the tax collection obligation is applicable and valid under state and federal law. The court shall act on this declaratory judgment action as expeditiously as possible, and the court shall proceed with priority over any other action presenting the same question in any other venue.

**5. Effect of court action on collection of tax; injunction.** During a pending action pursuant to subsection 4, and upon determining that a question is presented regarding the constitutionality of this law, the court, on the State's motion or the court's own initiative, shall enjoin the State from enforcing the obligation in subsection 3 against any person subject to subsection 3 that does not affirmatively consent or other-

wise collect the sales or use tax on a voluntary basis. The injunction does not apply if there is a previous judgment from a court establishing the validity of the obligation in subsection 3 with respect to the particular taxpayer.

**6. Appeal.** Any appeal from a decision with respect to the cause of action established by this section may only be made to the Supreme Judicial Court sitting as the Law Court. The Law Court shall hear and decide the appeal as expeditiously as possible.

**7. No retroactive application of tax.** The obligation to collect and remit the sales and use tax required by this section may not be applied retroactively.

**8. Prospective application of tax following injunction.** If an injunction imposed pursuant to subsection 5 is lifted, the State shall assess and apply the sales or use tax collection obligation only from that date forward with respect to any person covered by the injunction.

**Sec. 2. Effective date.** This Act takes effect October 1, 2017.

## **CHAPTER 145**

### **INTERSTATE MEDICAL LICENSURE COMPACT**

#### **§18501. Short title**

This chapter may be known and cited as "the Interstate Medical Licensure Compact."

#### **§18502. Purpose**

In order to strengthen access to health care and in recognition of the advances in the delivery of health care, the member states of the Interstate Medical Licensure Compact have allied in common purpose to develop a comprehensive process that complements the existing licensing and regulatory authority of state member boards and provides a streamlined process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The compact creates another pathway for licensure and does not otherwise change a state's existing medical practice act. The compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician-patient encounter and therefore requires the physician to be under the jurisdiction of the state member board where the patient is located. State member boards that participate in the compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the compact.

This compact is the Maine enactment of the Interstate Medical Licensure Compact as revised by the Interstate Medical Licensure Compact Commission. The form, format and text of the compact have been changed minimally so as to conform to Maine statutory conventions. The changes are technical in nature and it is the intent of the Legislature that this Act be interpreted as substantively the same as the Interstate Medical Licensure Compact that is enacted by other member states.

#### **§18503. Definitions**

**13. Rule.** "Rule" means a written statement by the interstate commission promulgated pursuant to section 18513 that is of general applicability; implements, interprets or prescribes a policy or provision of the compact or an organizational, procedural or practice requirement of the interstate commission; has the force and effect of statutory law in a member state; and includes the amendment, repeal or suspension of an existing rule.

**14. State.** "State" means any state, commonwealth, district or territory of the United States.

**15. State of principal license.** "State of principal license" means a member state where a physician holds a license to practice medicine and that has been designated as the state of principal license by the physician for purposes of registration and participation in the compact.

#### **§18504. Eligibility**

**1. Eligibility requirements.** A physician may receive an expedited license under the terms and provisions of the compact.

**2. Exception.** An individual who does not meet the requirements of section 18503, subsection 11 may obtain a license to practice medicine in a member state

if the individual complies with all laws and requirements, other than the compact, relating to the issuance of a license to practice medicine in that state.

### **§18505. Designation of state of principal license**

**1. State of principal license.** A physician must designate a member state as the state of principal license for purposes of registration for expedited licensure through the compact if the physician possesses a full and unrestricted license to practice medicine in that state, and the state is:

- A. The state of primary residence for the physician;
- B. The state where at least 25% of the physician's practice of medicine occurs;
- C. The location of the physician's employer; or
- D. If no state qualifies under paragraphs A to C, the state designated as the physician's state of residence for the purpose of federal income tax.

**2. Redesignation.** A physician may designate another member state as the state of principal license at any time after a designation under subsection 1, as long as the state meets the requirements in subsection 1.

**3. Rules.** The interstate commission is authorized to adopt rules pursuant to section 18516 to facilitate designation pursuant to subsection 2 of another member state as the state of principal license.

### **§18506. Application for and issuance of expedited license**

**1. Application.** A physician seeking licensure through the compact must file an application for an expedited license with the member board of the state selected by the physician as the state of principal license.

**2. Evaluation.** Upon receipt of an application for an expedited license, the member board of the state selected by the physician as the state of principal license shall evaluate whether the physician is eligible for expedited licensure and issue a letter of qualification, verifying or denying the physician's eligibility, to the interstate commission.

A. Static qualifications, which include verification of medical education, graduate medical education, results of any medical or licensing examination and other qualifications as determined by the interstate commission through rule, are not subject to additional primary source verification when already verified by primary source by the state of principal license.

B. The member board of the state selected by the physician as the state of principal license shall, in the course of verifying eligibility, perform a criminal background check of an applicant, in-

cluding the use of the results of fingerprint or other biometric data checks in compliance with the requirements of the Federal Bureau of Investigation, with the exception of federal employees who have been determined suitable in accordance with 5 Code of Federal Regulations, Section 731.202.

An appeal on the determination of eligibility must be made to the member state where the application was filed and is subject to the law of that state.

**3. Registration process.** Upon verification in subsection 2, a physician eligible for an expedited license must complete the registration process established by the interstate commission to receive an expedited license in a member state selected pursuant to subsection 1, including the payment of any applicable fees under section 18507.

**4. Expedited license.** After receiving verification of eligibility under subsection 2 and any fees under subsection 3, a member board shall issue an expedited license to the physician. The license authorizes the physician to practice medicine in the issuing state consistent with the medical practice act and all applicable laws and rules of the issuing member board and member state.

**5. Validity.** An expedited license is valid for a period consistent with the licensure period in the member state and in the same manner as required for other physicians holding a full and unrestricted license within the member state.

**6. Termination.** An expedited license obtained through the compact must be terminated if a physician fails to maintain a license in the state of principal licensure for a nondisciplinary reason without redesignation of a new state of principal licensure.

**7. Rules.** The interstate commission is authorized to adopt rules pursuant to section 18516 regarding the application process, including payment of any applicable fees, and the issuance of an expedited license.

### **§18507. Fees for expedited licensure**

**2. Rules.** The interstate commission is authorized to adopt rules pursuant to section 18516 regarding fees for expedited licenses.

### **§18508. Renewal and continued participation**

**1. License renewal process.** A physician seeking to renew an expedited license granted in a member state must complete a renewal process with the interstate commission. The physician is eligible for renewal if the physician:

A. Maintains a full and unrestricted license in a state of principal license;

B. Has not been convicted or received adjudication, deferred adjudication, community supervision or deferred disposition for any offense by a court of appropriate jurisdiction;

C. Has not had a license authorizing the practice of medicine subject to discipline by a licensing agency in any state, federal or foreign jurisdiction, excluding any action related to nonpayment of fees related to a license; and

D. Has not had a controlled substance license or permit suspended or revoked by a state or the United States Drug Enforcement Administration.

**2. Professional development.** A physician must comply with all continuing professional development or continuing medical education requirements for renewal of a license issued by a member state.

**3. Renewal fees.** The interstate commission shall collect from the physician any renewal fee charged for the renewal of a license and distribute the fee to the applicable member board.

**4. License renewal.** Upon receipt of the renewal fee collected in subsection 3, a member board shall renew the physician's license.

**5. Physician information.** Physician information collected by the interstate commission during the renewal process must be distributed to all member boards.

**6. Rules.** The interstate commission is authorized to adopt rules pursuant to section 18516 to address renewal of licenses obtained through the compact.

#### **§18509. Coordinated information system**

**1. Database.** The interstate commission shall establish a database of all physicians licensed or who have applied for licensure under section 18506.

**2. Public action or complaint.** Notwithstanding any other provision of law, a member board shall report to the interstate commission any public action or complaint against a physician licensed by that member board who has applied for or received an expedited license through the compact.

**3. Disciplinary or investigatory information.** A member board shall report disciplinary or investigatory information determined as necessary and proper by rule of the interstate commission.

**4. Other reports.** A member board may report any nonpublic complaint, disciplinary or investigatory information not required to be reported by subsection 3 to the interstate commission.

**5. Information sharing.** A member board shall share complaint or disciplinary information about a physician upon request of another member board.

**6. Confidentiality.** Information provided to the interstate commission or distributed by a member board is confidential within the meaning of Title 1, section 402, subsection 3, paragraph A and may be used only for investigatory or disciplinary matters under sections 18510 and 18511.

**7. Rules.** The interstate commission is authorized to adopt rules pursuant to section 18516 regarding mandated or discretionary sharing of information by member boards.

#### **§18510. Joint investigations**

**1. Joint investigations.** In addition to the authority granted to a member board by its respective medical practice act or other applicable state law, a member board may participate with other member boards in joint investigations of a physician licensed by the member boards.

**2. Subpoenas.** A subpoena issued by a member state is enforceable in other member states.

**3. Materials sharing.** Notwithstanding any other provision of law, a member board may share any investigative, litigation or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

**4. Investigations in other member states.** A member state may investigate actual or alleged violations of the laws authorizing the practice of medicine in any other member state in which a physician holds a license to practice medicine.

#### **§18511. Disciplinary actions**

**1. Unprofessional conduct.** A physician licensed through the compact who is the subject of a disciplinary action taken by a member board is deemed to have engaged in unprofessional conduct and may be subject to discipline by another member board, in addition to discipline for any violation of the medical practice act or rules in that member board's state.

**2. License revocation.** If a license granted to a physician by the member board in the state of principal license is revoked, surrendered or relinquished in lieu of discipline, or suspended, then all licenses issued to the physician by member boards must automatically be placed, without further action necessary by any member board, on the same status. If the member board in the state of principal license subsequently reinstates the physician's license, a license issued to the physician by any other member board remains encumbered until that respective member board takes action to reinstate the license in a manner consistent

with the medical practice act of that member board's state.

**3. Matter of law and fact decided.** If disciplinary action is taken against a physician by a member board not in the state of principal license, any other member board may deem the action conclusive as to matter of law and fact decided and may:

A. Impose the same or a lesser sanction against the physician as long as such sanction is consistent with the medical practice act of that member board's state; or

B. Pursue separate disciplinary action against the physician under the medical practice act of the member board's state, regardless of the action taken in other member states.

**4. Licenses in other member states.** If a license granted to a physician by a member board is revoked, surrendered or relinquished in lieu of discipline, or suspended, then any license issued to the physician by any other member board must be suspended, automatically and immediately without further action necessary by the other member board, for 90 days upon entry of the order by the disciplining member board, to permit the other member board to investigate the basis for the action under the medical practice act of that member board's state. A member board may terminate the automatic suspension of the license it issued prior to the completion of the 90-day suspension period in a manner consistent with the medical practice act of that member board's state.

#### **§18512. Interstate medical licensure compact commission**

**1. Commission established.** The Interstate Medical Licensure Compact Commission is established.

**2. Duties.** The interstate commission shall administer the Interstate Medical Licensure Compact.

**3. Powers.** The interstate commission is a body corporate and joint agency of the member states and has all the responsibilities, powers and duties set forth in the compact and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of the compact.

**4. Membership.** The interstate commission consists of 2 voting representatives appointed by each member state, who serve as commissioners. In states where allopathic and osteopathic physicians are regulated by separate member boards, or if the licensing and disciplinary authority is split between multiple member boards within a member state, the member state shall appoint one representative from each member board. A commissioner must:

A. Be an allopathic or osteopathic physician appointed to a member board;

B. Be an executive director, executive secretary or similar executive of a member board; or

C. Be a member of the public appointed to a member board.

**5. Meetings; officers.** The interstate commission shall meet at least once each calendar year to address such matters as may properly come before the commission, including the election of officers including the chair. The chair may call additional meetings and shall call for a meeting upon the request of a majority of the member states.

**6. Telecommunication or electronic communication.** The bylaws of the commission may provide for meetings to be conducted by telecommunication or electronic communication.

**7. Quorum.** A commissioner participating at a meeting of the interstate commission is entitled to one vote. A majority of commissioners constitutes a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the interstate commission. A commissioner may not delegate a vote to another commissioner. In the absence of its commissioner, a member state may delegate voting authority for a specified meeting to another person from that state who meets the requirements of subsection 4.

**8. Public notice.** The interstate commission shall provide public notice of all meetings, and all meetings must be open to the public. The interstate commission may close a meeting, in full or in portion, if it determines by a 2/3 vote of the commissioners present that an open meeting would be likely to:

A. Relate solely to the internal personnel practices and procedures of the interstate commission;

B. Discuss matters specifically exempted from disclosure by federal statute;

C. Discuss trade secrets or commercial or financial information that is privileged or confidential;

D. Involve accusing a person of a crime or formally censuring a person;

E. Discuss information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

F. Discuss investigative records compiled for law enforcement purposes; or

G. Specifically relate to participation in a civil action or other legal proceeding.

**9. Minutes.** The interstate commission shall keep minutes that must fully describe all matters discussed in a meeting and provide a full and accurate

summary of actions taken, including a record of any roll call votes.

**10. Public records.** The interstate commission shall make its information and official records, to the extent not otherwise designated in the compact or by rules adopted by the interstate commission, available to the public for inspection.

**11. Executive committee.** The interstate commission shall establish an executive committee, which must include officers, members and others as determined by the bylaws. The executive committee has the power to act on behalf of the interstate commission, with the exception of rulemaking, during periods when the interstate commission is not in session. When acting on behalf of the interstate commission, the executive committee shall oversee the administration of the compact, including enforcement of and compliance with the provisions of the compact and the interstate commission's bylaws and rules, and perform other such duties as necessary.

**12. Other committees.** The interstate commission may establish other committees, in addition to the executive committee under subsection 11, for governance and administration of the compact.

**§18513. Powers and duties of the interstate commission**

**1. Duties.** The interstate commission shall:

A. Oversee and maintain the administration of the compact;

B. Adopt rules pursuant to section 18516, which are binding to the extent and in the manner provided for in the compact;

C. Issue, upon the request of a member state or member board, advisory opinions concerning the meaning or interpretation of the compact and the interstate commission's bylaws, rules and actions;

D. Enforce compliance with compact provisions and the rules and bylaws adopted by the interstate commission using all necessary and proper means, including but not limited to the use of judicial process;

E. Pay, or provide for the payment of, the expenses related to the establishment, organization and ongoing activities of the interstate commission;

F. Purchase and maintain insurance and bonds;

G. Employ an executive director who has the power to employ, select or appoint employees, agents or consultants and to determine their qualifications, define their duties and fix their compensation;

H. Establish personnel policies and programs relating to conflicts of interest, rates of compensation and qualifications of personnel;

I. Establish a budget and make expenditures;

J. Adopt a seal and bylaws governing the management and operation of the interstate commission;

K. Report annually to the legislatures and governors of the member states concerning the activities of the interstate commission during the preceding year. Reports must include reports of financial audits and any recommendations adopted by the interstate commission; and

L. Maintain records in accordance with the bylaws.

**2. Powers.** The interstate commission may:

A. Establish and appoint committees, including, but not limited to, an executive committee as required by section 18512, that have the power to act on behalf of the interstate commission in carrying out its powers and duties;

B. Establish and maintain one or more offices;

C. Borrow, accept, hire or contract for the services of personnel;

D. Accept donations and grants of money, equipment, supplies, materials and services, and receive, use and dispose of donations and grants in a manner consistent with the conflict of interest policies established by the interstate commission;

E. Lease, purchase, accept contributions or donations of or otherwise own, hold, improve or use any property, real, personal or mixed;

F. Sell, convey, mortgage, pledge, lease, exchange, abandon or otherwise dispose of any property, real, personal or mixed;

G. Coordinate education, training and public awareness regarding the compact and its implementation and operation;

H. Seek and obtain trademarks, copyrights and patents; and

I. Perform such functions as may be necessary or appropriate to achieve the purposes of the compact.

**§18514. Finance powers**

**1. Annual assessment.** The interstate commission may levy an annual assessment on and collect the assessment from each member state to cover the cost of the operations and activities of the interstate commission and its staff. The total assessment must be sufficient to cover the annual budget approved each year for which revenue is not provided by other

sources. The aggregate annual assessment amount must be allocated upon a formula to be determined by the interstate commission. The interstate commission shall adopt the formula by rule binding upon all member states.

**2. Obligations.** The interstate commission may not incur an obligation of any kind prior to securing the funds adequate to meet that obligation.

**3. Credit.** The interstate commission may not pledge the credit of another member state, except by and with the authority of that member state.

**4. Financial audit.** The interstate commission is subject to a yearly financial audit conducted by a certified or licensed public accountant, and the report of the audit must be included in the annual report of the interstate commission under section 18513, subsection 1, paragraph K.

#### **§18515. Organization and operation of the interstate commission**

**1. Bylaws.** The interstate commission shall, by a majority of commissioners present and voting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact within 12 months of the first interstate commission meeting.

**2. Officers.** The interstate commission shall elect or appoint annually from among its commissioners a chair, a vice-chair and a treasurer, each of whom has the authority and duties as specified in the bylaws. The chair, or in the chair's absence or disability, the vice-chair, shall preside at all meetings of the interstate commission.

**3. Remuneration.** Officers selected in subsection 2 serve without remuneration from the interstate commission.

**4. Immunity and liability.** An officer or employee of the interstate commission is immune from suit and liability, either personally or in that person's official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of, or relating to, an actual or alleged act, error or omission that occurred, or that that officer or employee has a reasonable basis for believing occurred, within the scope of interstate commission employment, duties or responsibilities, except that that officer or employee is not protected from suit or liability for damage, loss, injury or liability caused by the intentional or willful and wanton misconduct of that officer or employee.

A. The liability of the executive director or an employee or representative of the interstate commission, acting within the scope of that executive director's, representative's or employee's employment or duties for acts, errors or omissions occurring within that executive director's, representa-

tive's or employee's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees and agents. The interstate commission is considered to be an instrumentality of the states for the purposes of any action to enforce liability. Nothing in this paragraph may be construed to protect a person from suit or liability for damage, loss or injury caused by the intentional or willful and wanton misconduct of the executive director, representative or employee.

B. The interstate commission shall defend the executive director, an employee and, subject to the approval of the attorney general or other appropriate legal counsel of the member state, an interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of the executive director, employee or representative.

C. To the extent not covered by the state involved, a member state or the interstate commission, a representative or employee of the interstate commission must be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against that person arising out of an actual or alleged act, error or omission that occurred or that that representative or employee has a reasonable basis for believing occurred within the scope of interstate commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of that representative or employee.

#### **§18516. Rule-making functions of the interstate commission**

**1. Rules.** The interstate commission shall adopt reasonable rules, which are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A, in order to effectively and efficiently achieve the purposes of the compact; however, if the interstate commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of the compact or the powers granted under the compact, then such an action by the interstate commission is invalid and has no force or effect.

**2. Rules conformation.** Rules for the operations of the interstate commission must be adopted pursuant to a rule-making process that substantially conforms to the "Revised Model State Administrative Procedure

Act" (2010), as amended, of the National Conference of Commissioners on Uniform State Laws.

**3. Judicial review.** Not later than 30 days after a rule is adopted, a person may file a petition for judicial review of the rule in the United States District Court for the District of Columbia or the federal district where the interstate commission has its principal offices, as long as the filing of such a petition does not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and may not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the interstate commission.

#### **§18517. Oversight of interstate compact**

**1. Enforcement.** The executive, legislative and judicial branches of state government in each member state shall enforce the compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of the compact and the rules adopted under the compact have standing as statutory law but do not override existing state authority to regulate the practice of medicine.

**2. Courts.** All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the compact that may affect the powers, responsibilities or actions of the interstate commission.

**3. Service of process.** The interstate commission is entitled to receive all service of process in any proceeding under subsection 2 and has standing to intervene in the proceeding for all purposes. Failure to provide service of process to the interstate commission renders a judgment or order void as to the interstate commission, the compact or adopted rules.

#### **§18518. Enforcement of interstate compact**

**1. Enforcement.** The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the compact.

**2. Compliance.** The interstate commission may, by majority vote of the commissioners, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices to enforce compliance with the provisions of the compact and its adopted rules and bylaws against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

**3. Remedies.** The remedies in this section are not the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or the regulation of a profession.

#### **§18519. Default procedures**

**1. Grounds.** The grounds for default under section 18518 include, but are not limited to, failure of a member state to perform such obligations or responsibilities imposed upon it by the compact or the rules and bylaws of the interstate commission adopted under the compact.

**2. Default.** If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the compact or the bylaws or adopted rules, the interstate commission shall:

A. Provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default and any action taken by the interstate commission. The interstate commission shall specify the conditions by which the defaulting state must cure its default; and

B. Provide remedial training and specific technical assistance regarding the default.

**3. Termination.** If a defaulting state fails to cure the default, the defaulting state must be terminated from the compact in accordance with subsection 4 upon an affirmative vote of a majority of the commissioners and all rights, privileges and benefits conferred by the compact terminate on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

**4. Notice of intent.** Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate must be given by the interstate commission to the governor of the defaulting state, the majority and minority leaders of the defaulting state's legislature and each of the member states.

**5. Rules.** The interstate commission shall adopt rules pursuant to section 18516 and procedures to address licenses and physicians that are materially affected by the termination of a member state or the withdrawal of a member state.

**6. Obligations.** A member state that has been terminated is responsible for all dues, obligations and liabilities incurred through the effective date of termination, including obligations the performance of which extends beyond the effective date of termination.

**7. Costs.** The interstate commission may not bear any costs relating to any state that has been found

to be in default or that has been terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

**8. Appeal.** A defaulting state may appeal an action of the interstate commission by petitioning the United States District Court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party must be awarded all costs of such litigation including reasonable attorney's fees.

#### **§18520. Dispute resolution**

**1. Resolution.** The interstate commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that arise among member states or member boards.

**2. Rules.** The interstate commission shall adopt rules pursuant to section 18516 providing for both mediation and binding dispute resolution, as appropriate.

#### **§18521. Member states, effective date and amendment**

**1. Eligibility.** Any state is eligible to become a member state of the compact.

**2. Effective date.** The compact becomes effective and binding upon legislative enactment of the compact into law by no fewer than 7 states. Thereafter, it becomes effective and binding on a state upon enactment of the compact into law by that state.

**3. Participation by nonmember states.** The governors of nonmember states, or their designees, must be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of the compact by all states.

**4. Amendments to compact.** The interstate commission may propose amendments to the compact for enactment by the member states. An amendment does not become effective and binding upon the interstate commission and the member states until it is enacted into law by unanimous consent of the member states.

#### **§18522. Withdrawal**

**1. Repeal.** Once effective, the compact continues in force and remains binding upon each member state, except that a member state may withdraw from the compact by specifically repealing the statute that enacted the compact into law.

**2. Effective date.** Withdrawal from the compact is by the enactment of a statute repealing the compact, but does not take effect until one year after the effective date of that statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.

**3. Intent.** The withdrawing state shall immediately notify the chair of the interstate commission in writing upon the introduction of legislation repealing the compact in the withdrawing state.

**4. Notification.** The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within 60 days of its receipt of notice provided under subsection 3.

**5. Obligations.** The withdrawing state is responsible for all dues, obligations and liabilities incurred through the effective date of withdrawal, including obligations the performance of which extends beyond the effective date of withdrawal.

**6. Reinstatement.** Reinstatement following withdrawal of a member state occurs upon the withdrawing state's reenacting the compact or upon such later date as determined by the interstate commission.

**7. Rules.** The interstate commission is authorized to adopt rules pursuant to section 18516 to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

#### **§18523. Dissolution**

**1. Effective date.** The compact dissolves effective upon the date of the withdrawal or default of the member state that reduces the membership in the compact to one member state.

**2. Surplus funds.** Upon the dissolution of the compact, the compact becomes null and void and is of no further force or effect, and the business and affairs of the interstate commission are concluded and surplus funds must be distributed in accordance with the bylaws.

#### **§18524. Construction**

**1. Liberal construction.** The provisions of the compact must be liberally construed to effectuate its purposes.

**2. Applicability of other compacts.** Nothing in the compact may be construed to prohibit the applicability of other interstate compacts of which the states are members.

#### **§18525. Binding effect of compact and other laws**

**1. Other law.** Nothing in this chapter prevents the enforcement of any other law of a member state that is not inconsistent with the compact.

**2. Conflicts.** All laws in a member state in conflict with the compact are superseded to the extent of the conflict.

**3. Actions.** All lawful actions of the interstate commission, including all rules and bylaws adopted by the commission, are binding upon the member states.

**4. Agreements.** All agreements between the interstate commission and the member states are binding in accordance with their terms.

**5. Constitutional limits.** In the event any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state, that provision is ineffective to the extent of the conflict with the constitutional provision in question in that member state.

**1. Challenge.** A challenge under this section must be in writing, signed by the voters who signed the declaration of intent to form a party by enrollment, and must set forth the reasons for the challenge. The challenge may include a request for copies of voter registration and enrollment or change of enrollment applications that were rejected by municipal registrars from up to 15 named municipalities. ## CHAPTER 256

H.P. 250 - L.D. 336

### An Act To Amend the Requirements of the Temporary Assistance for Needy Families Program

Be it enacted by the People of the State of Maine as follows:

**Sec. 1. 22 MRSA §3762, sub-§3,** as amended by PL 2015, c. 267, Pt. RRRR, §2, is further amended to read:

**3. Administration.** The department may administer and operate a program of aid to needy dependent children, called "Temporary Assistance for Needy Families" or "TANF," ~~who are deprived of support or care due to the death, continued absence, physical or mental incapacity of a parent or the unemployment or underemployment of the principal wage earner in accordance with the United States Social Security Act, as amended by PRWORA and DRA, and this Title.~~

A. The department shall adopt rules as necessary to implement and administer the program. The rules must include eligibility criteria, budgeting process, benefit calculation and confidentiality. The confidentiality rules must ensure that confidentiality is maintained for TANF recipients at least to the same extent that confidentiality was maintained for families in the Aid to Families with Dependent Children program unless otherwise required by federal law or regulation.

B. The department may use funds, insofar as resources permit, provided under and in accordance with the United States Social Security Act or state funds appropriated for this purpose or a combination of state and federal funds to provide assistance to families under this chapter. In addition to assistance for families described in this subsection, funds must be expended for the following purposes:

- (1) To continue the pass-through of the first \$50 per month of current child support collections and the exclusion of the \$50 pass-through from the budget tests and benefit calculations;
- (2) To provide financial assistance to non-citizens legally admitted to the United States who are receiving assistance under this subsection as of July 1, 2011. Recipients of assistance under this subparagraph are limited to the categories of noncitizens who would be eligible for the TANF programs but for their status as aliens under PRWORA. Eligibility for the TANF program for these categories of noncitizens must be determined using the cri-

teria applicable to other recipients of assistance from the TANF program. Any household receiving assistance as of July 1, 2011 may continue to receive assistance, as long as that household remains eligible, without regard to interruptions in coverage or gaps in eligibility for service. A noncitizen legally admitted to the United States who is neither receiving assistance on July 1, 2011 nor has an application pending for assistance on July 1, 2011 that is later approved is not eligible for financial assistance through a state-funded program unless that noncitizen is:

- (a) Elderly or disabled, as described under the laws governing supplemental security income in 42 United States Code, Sections 1381 to 1383f (2010);
  - (b) A victim of domestic violence;
  - (c) Experiencing other hardship, such as time necessary to obtain proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A; or
  - (d) Unemployed but has obtained proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A;
- (3) To provide benefits to ~~certain~~ 2-parent families ~~whose deprivation is based on physical or mental incapacity with children using the same eligibility requirements as apply to families headed by a single custodial parent or caretaker relative;~~
- (4) To provide an assistance program for needy children, 19 to 21 years of age, who are in full-time attendance in secondary school. The program is operated for those individuals who qualify for TANF under the United States Social Security Act, except that they fail to meet the age requirement, and is also operated for the parent or caretaker relative of those individuals. Except for the age requirement, all provisions of TANF, including the standard of need and the amount of assistance, apply to the program established pursuant to this subparagraph;
- (5) To provide assistance for a pregnant woman who is otherwise eligible for assistance under this chapter, except that she has no dependents under 19 years of age. An individual is eligible for the monthly benefit for one eligible person if the medically substanti-

ated expected date of the birth of her child is not more than 90 days following the date the benefit is received;

- (6) To provide a special housing allowance for TANF families whose shelter expenses for rent, mortgage or similar payments, homeowners insurance and property taxes equal or exceed 75% of their monthly income. The special housing allowance is limited to ~~\$200~~ \$300 per month for each family. For purposes of this subparagraph, "monthly income" means the total of the TANF monthly benefit and all income countable under the TANF program, plus child support received by the family, excluding the \$50 pass-through payment;
- (7) In determining benefit levels for TANF recipients who have earnings from employment, the department shall disregard from monthly earnings the following:
  - (a) One hundred and eight dollars;
  - (b) Fifty percent of the remaining earnings that are less than the federal poverty level; and
  - (c) All actual child care costs necessary for work, except that the department may limit the child care disregard to \$175 per month per child or \$200 per month per child under 2 years of age or with special needs;
- (7-A) In determining eligibility and benefit levels, the department may apply a gross income test only to applicants and not to recipients;
- (8) In cases when the TANF recipient has no child care cost, the monthly TANF benefit is the maximum payment level or the difference between the countable earnings and the standard of need established by rule adopted by the department, whichever is lower;
- (9) In cases when the TANF recipient has child care costs, the department shall determine a total benefit package, including TANF cash assistance, determined in accordance with subparagraph (7) and additional child care assistance, as provided by rule, necessary to cover the TANF recipient's actual child care costs up to the maximum amount specified in section 3782-A, subsection 5. The benefit amount must be paid as provided in this subparagraph.
  - (a) Before the first month in which child care assistance is available to an ASPIRE-TANF recipient under this paragraph and periodically thereafter, the

department shall notify the recipient of the total benefit package and the following options of the recipient: to receive the total benefit package directly; or to have the department pay the recipient's child care assistance directly to the designated child care provider for the recipient and pay the balance of the total benefit package to the recipient.

(b) If an ASPIRE-TANF recipient notifies the department that the recipient chooses to receive the child care assistance directly, the department shall pay the total benefit package to the recipient.

(c) If an ASPIRE-TANF recipient does not respond or notifies the department of the choice to have the child care assistance paid directly to the child care provider from the total benefit package, the department shall pay the child care assistance directly to the designated child care provider for the recipient. The department shall pay the balance of the total benefit package to the recipient;

(10) Child care assistance under this paragraph must be paid by the department in a prompt manner that permits an ASPIRE-TANF recipient to access child care necessary for work; and

(11) The department shall adopt rules pursuant to Title 5, chapter 375 to implement this subsection. Rules adopted pursuant to this subparagraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 2. 22 MRSA §3785**, as amended by PL 1997, c. 530, Pt. A, §§20 to 24, is further amended to read:

### **§3785. Sanctions**

An individual may not be sanctioned under this program or Temporary Assistance for Needy Families for failure to participate in the ASPIRE-TANF program if that failure to participate is based on good cause. Each individual participating in an ASPIRE-TANF orientation must receive written and oral notice of what constitutes good cause for nonparticipation in ASPIRE-TANF including the domestic violence exception. Good cause for failure to participate in this program must be found when there is reasonable and verifiable evidence of:

**1. Illness or incapacitation.** The individual's illness, incapacity or advanced age, or the illness or incapacity of a household member, that requires the individual to provide care in the home;

**2. Sexual harassment.** Sexual harassment at a program-approved component;

**3. Court-required appearance; incarceration.** Court-required appearance or incarceration;

~~**4. Lack of supportive services.** Lack or breakdown of necessary supportive services such as child care or transportation with no appropriate alternatives available;~~

~~**5. Inelemt weather.** Inelemt weather that prevents the individual from traveling to an activity when the weather is severe enough to prevent other individuals from traveling to the same activity;~~

~~**6. Assignment to another activity.** Assignment by the department to an activity or component that has not been made part of the family contract;~~

~~**7. Remoteness.** Participation that requires the individual to travel outside the individual's immediate geographic area, defined as an area within a 2 hour round trip commute;~~

**8. Crisis or special circumstance.** A crisis or special circumstance or other reason that the department determines to be good cause that causes an individual to be absent from or discontinue a department activity about which the department has been advised ~~and has determined to constitute good cause, including lack of transportation or child care necessary for participation when the individual does not have reasonable access to that service and the department cannot offer a reasonable alternative to enable the individual to participate; or~~

~~**12. Other good cause.** Any other reason resulting in failure to participate that is beyond the control of the individual or that a reasonable person would determine to be good cause; or~~

**13. Domestic violence.** Inability to participate due to domestic violence when the individual is unable to participate because of physical injuries or the psychological effects of abuse; because of legal proceedings, counseling or other activities related to abuse; because the abuser actively interferes with the individual's participation; because the location puts the individual at risk; or for other good cause related to domestic violence. For the purposes of this subsection, reasonable and verifiable evidence may include but is not limited to the following:

A. Court, medical, law enforcement, child protective, social services, psychological or other records that establish that the individual has been a victim of domestic violence; or

B. Sworn statements from persons other than the individual with knowledge of the circumstances affecting the individual.

S.P. 198 - L.D. 583**

**An Act To Improve the Tax Appeal Process for Maine Businesses and Consumers**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 36 MRSA §2011**, as amended by PL 2013, c. 331, Pt. C, §10 and affected by §41, is further amended to read:

**§2011. Overpayment; refunds**

If the State Tax Assessor determines, upon written application by a taxpayer or during the course of an audit, that any tax under this Part has been paid more than once or has been erroneously or illegally collected or computed, the assessor shall certify to the State Controller the amount paid in excess of that legally due. That amount must be credited by the assessor on any taxes then due from the taxpayer and the balance refunded to the taxpayer or the taxpayer's successor in interest, but no such credit or refund may be allowed unless within 3 years from the date of overpayment either a written petition stating the grounds upon which the refund or credit is claimed is filed with the assessor or the overpayment is discovered on audit. Interest at the rate determined pursuant to section 186 must be paid on any balance refunded pursuant to this chapter from the date the return listing the overpayment was filed or the date the payment was made, whichever is later, except that no interest may be paid with respect to the refunds provided by section 2013 and, in cases of excessive or erroneous collections, interest must be paid in accordance with section 1814, subsection 3. At the election of the assessor, unless the taxpayer specifically requests a cash refund, the refund may be credited to the taxpayer's sales and use tax account, but, in the case of a credit no further interest may accrue from the date of that election. The taxpayer may not apply for a refund of any amount assessed when administrative and judicial review under section 151 has been completed.

A taxpayer making an application for a refund or credit of erroneously or illegally collected sales tax paid by the taxpayer to the retailer must submit an affidavit as prescribed by the assessor stating in part that the refund or credit has not been and will not be requested from the retailer.

A taxpayer dissatisfied with the decision of the assessor, upon a written request for refund filed under this section may request reconsideration and appeal from the reconsideration in the same manner and under the same conditions as in the case of assessments made under chapter 7. The decision of the assessor upon a written request for refund becomes final as to law and fact in the same manner and under the same

conditions as in the case of assessments made under chapter 7.

**Sec. 2. 36 MRSA §2551, sub-§2-A** is enacted to read:

**2-A. Customer.** "Customer" means a person who purchases one or more services subject to tax under section 2552, subsection 1.

**Sec. 3. 36 MRSA §2555, first ¶,** as enacted by PL 2003, c. 673, Pt. V, §25 and affected by §29, is amended to read:

If the assessor determines, upon written application by a taxpayer or during the course of an audit, that any tax has been paid more than once or has been erroneously or illegally computed, the assessor shall certify to the State Controller the amount paid in excess of that legally due and that amount must be credited by the assessor on any taxes then due from the taxpayer and the balance refunded to the taxpayer or its successor in interest, but no such credit or refund may be allowed unless within 3 years of the date of overpayment either a written petition stating the grounds upon which the refund or credit is claimed is filed with the assessor or the overpayment is discovered on audit. A credit or refund may not be allowed for tax that has been erroneously or illegally collected and separately stated on a customer's bill until the service provider has provided evidence satisfactory to the assessor that the tax has been refunded or credited to the customer. Interest at the rate determined pursuant to section 186 must be paid on any balance refunded pursuant to this chapter from the date the return listing the overpayment was filed or the payment was made, whichever is later. At the election of the assessor, unless the taxpayer specifically requests a cash refund, the refund may be credited to the taxpayer's service provider tax account, but in the case of a credit no further interest may accrue from the date of that election. The taxpayer may not apply for a refund of any amount assessed when administrative and judicial review under section 151 has been completed.

**Sec. 4. 36 MRSA §2555-A** is enacted to read:

**§2555-A. Refund or credit to customer**

A service provider tax that has been erroneously or illegally computed by a service provider and included on a customer's bill must be refunded or credited to the customer by the service provider.

**Sec. 5. Report.** By February 1, 2018, the State Tax Assessor shall review the adequacy of procedures and notices involved in the process of notifying taxpayers regarding the basis of an assessment or a denial of a refund request and provide a report of the review to the Joint Standing Committee on Taxation. The report must describe the procedures and documents reviewed and any revisions implemented to ensure that taxpayers who receive notices or determinations from

the assessor are provided a brief, nontechnical explanation for an assessment or a denial of a refund request.

**Sec. 6. Application.** The sections of the bill that amend the Maine Revised Statutes, Title 36, sections 2011 and 2555 apply to requests for credit or refund of sales tax paid to a retailer and service provider tax paid to a service provider for which administrative or judicial review is still available.

**S.P. 488 - L.D. 1410**

**An Act To Adopt the Nurse  
Licensure Compact**

**Be it enacted by the People of the State of  
Maine as follows:**

**PART A**

**Sec. A-1. 32 MRSA c. 31, sub-c. 2-A** is enacted to read:

**SUBCHAPTER 2-A**

**NURSE LICENSURE COMPACT**

**§2171. Short title; findings and declaration of  
purpose -- Article 1**

**1. Short title.** This chapter may be known and cited as "the Nurse Licensure Compact," or "the compact."

**2. Legislative intent.** This compact is the Maine enactment of the Nurse Licensure Compact as revised by the National Council of State Boards of Nursing. The form, format and text of the compact have been changed minimally so as to conform to Maine statutory conventions. The changes are technical in nature, and it is the intent of the Legislature that this Act be interpreted as substantively the same as the Nurse Licensure Compact that is enacted by other party states.

**3. Findings.** The party states find that:

A. The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;

B. Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

C. The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;

D. New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;

E. The system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states; and

F. Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

**4. Purpose.** The general purposes of this compact are to:

A. Facilitate the states' responsibility to protect the public's health and safety;

B. Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;

C. Facilitate the exchange of information between party states in the areas of nurse regulation, investigation and adverse actions;

D. Promote compliance with the laws governing the practice of nursing in each jurisdiction;

E. Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses;

F. Decrease redundancies in the consideration and issuance of nurse licenses; and

G. Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

#### **§2172. Definitions -- Article 2**

As used in this compact, unless the context otherwise indicates, the following terms have the following meanings.

**1. Adverse action.** "Adverse action" means an administrative, civil, equitable or criminal action permitted by a state's laws that is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.

**2. Alternative program.** "Alternative program" means a nondisciplinary monitoring program approved by a licensing board.

**3. Commission.** "Commission" means the Interstate Commission of Nurse Licensure Compact Administrators established in this compact.

**4. Coordinated licensure information system.** "Coordinated licensure information system" means an integrated system for collecting, storing and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

**5. Current significant investigative information.** "Current significant investigative information" means:

A. Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for a nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, indicates more than a minor infraction; or

B. Investigative information that indicates that a nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

**6. Encumbrance.** "Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

**7. Head of the state licensing board.** "Head of the state licensing board" means the executive director of the State Board of Nursing.

**8. Home state.** "Home state" means the party state that is a nurse's primary state of residence.

**9. Licensing board.** "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

**10. Multistate license.** "Multistate license" means a license to practice as a registered or a licensed practical or vocational nurse issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

**11. Multistate licensure privilege.** "Multistate licensure privilege" means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse or licensed practical or vocational nurse in a remote state.

**12. Nurse.** "Nurse" means a registered nurse or licensed practical or vocational nurse, as those terms are defined by each party state's practice laws.

**13. Party state.** "Party state" means a state that has adopted this compact.

**14. Prior compact.** "Prior compact" means the prior nurse licensure compact that is superseded by this compact.

**15. Remote state.** "Remote state" means a party state other than the home state.

**16. Single-state license.** "Single-state license" means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

**17. State.** "State" means a state, territory or possession of the United States and the District of Columbia.

**18. State practice laws.** "State practice laws" means a party state's laws, rules and regulations that govern the practice of nursing, define the scope of nursing practice and create the methods and grounds for imposing discipline. "State practice laws" does not include requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

### **§2173. General provisions and jurisdiction -- Article 3**

**1. Multistate license.** A multistate license to practice registered or licensed practical or vocational nursing issued by a home state to a resident in that state is recognized by each party state as authorizing a nurse to practice as a registered nurse or as a licensed practical or vocational nurse, under a multistate licensure privilege, in each party state.

**2. Criminal history records.** A party state shall implement procedures for considering the criminal history records of an applicant for an initial multistate license or licensure by endorsement. Such procedures must include the submission of fingerprints or other biometric-based information by an applicant for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

**3. Requirements.** Each party state shall require that an applicant to obtain or retain a multistate license in the home state:

A. Meet the home state's qualifications for licensure or renewal of licensure, as well as all other applicable laws;

B. Have graduated or be eligible to graduate from a registered nurse or licensed practical or vocational nurse prelicensure education program approved by a licensing board or have graduated in a country other than the United States from a registered nurse or licensed practical or vocational nurse prelicensure education program that has been approved by an authorized accrediting body in the applicable country and has been verified by an independent credentials review agency to be comparable to a prelicensure education program approved by a licensing board;

C. Have, if a graduate of a prelicensure education program not taught in English or if English is not the applicant's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing and listening;

D. Have successfully passed a National Council Licensure Examination for registered nurses or a National Council Licensure Examination for practical or vocational nurses given by the National Council of State Boards of Nursing or an exam given by a predecessor or successor organization, as applicable;

E. Be eligible for or hold an active, unencumbered nurse license;

F. Have submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric-based information for the purpose of obtaining criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records;

G. Have not been convicted or found guilty, or have entered into an agreed disposition, of a felony offense under applicable state or federal criminal law;

H. Have not been convicted or found guilty, or have entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis;

I. Be not currently enrolled in an alternative program;

J. Be subject to self-disclosure requirements regarding current participation in an alternative program; and

K. Have a valid social security number.

**4. Adverse action.** A party state is authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation, suspension, probation or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes an action under this subsection, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any action under this subsection by a remote state.

**5. Practice of nursing.** A nurse practicing in a party state shall comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but includes all nursing practice as

defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege subjects a nurse to the jurisdiction of the licensing board, the courts and the laws of the party state in which the client is located at the time service is provided.

**6. Single-state license.** A person not residing in a party state may apply for a party state's single-state license as provided under the laws of each party state; however, a single-state license granted under this subsection is not recognized as granting the privilege to practice nursing in any other party state. Nothing in this compact affects the requirements established by a party state for the issuance of a single-state license.

**7. Licenses active on the effective date of compact.** A nurse holding a home state multistate license on the effective date of this compact may retain and renew the multistate license issued by the nurse's then-current home state, except that:

A. A nurse who changes primary state of residence after the effective date of this compact must meet all applicable requirements under subsection 3 to obtain a multistate license from a new home state; and

B. A nurse who fails to satisfy the multistate licensure requirements in subsection 3 due to a disqualifying event occurring after the effective date of this compact is ineligible to retain or renew a multistate license, and the nurse's multistate license must be revoked or deactivated in accordance with applicable rules adopted by the commission.

**§2174. Applications for licensure in a party state -- Article 4**

**1. Other licenses.** Upon receiving an application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on a license or multistate licensure privilege held by the applicant, whether an adverse action has been taken against a license or multistate licensure privilege held by the applicant and whether the applicant is currently participating in an alternative program.

**2. Multistate license.** A nurse may hold a multistate license issued by the home state in only one party state at a time.

**3. Change of residence.** If a nurse changes primary state of residence by moving between 2 party states, the nurse shall apply for licensure in the new home state, and the multistate license issued by the prior home state must be deactivated in accordance with applicable rules adopted by the commission.

A. A nurse may apply for licensure under this compact in advance of a change in primary state of residence.

B. A multistate license may not be issued by the new home state under this subsection until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

**4. Change of residence to nonparty state.** If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state converts to a single-state license, valid only in the former home state.

**§2175. Additional authorities invested in party state licensing boards -- Article 5**

**1. Authority.** In addition to other powers conferred by state law, a licensing board has the authority to:

A. Take adverse action against a nurse's multistate licensure privilege to practice within that party state.

(1) Only the home state has the power to take adverse action against a nurse's license issued by the home state.

(2) For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to a report of conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state licensing board shall apply its own state laws to determine appropriate action;

B. Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state;

C. Complete any pending investigation of a nurse who changes primary state of residence during the course of such investigation. The licensing board also has the authority to take appropriate action and shall promptly report the conclusions of an investigation to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any action under this paragraph;

D. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. A subpoena issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another

party state may be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state in which the witnesses or evidence is located;

E. Obtain and submit, for each nurse licensure applicant, fingerprints or other biometric-based information to the Federal Bureau of Investigation for criminal background checks, receive the results of the Federal Bureau of Investigation record search on criminal background checks and use the results in making licensure decisions;

F. If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse; and

G. Take adverse action based on the factual findings of the remote state, as long as the licensing board follows its own procedures for taking such adverse action.

**2. Adverse action.** If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states is deactivated until all encumbrances have been removed from the multistate license. A home state disciplinary order that imposes adverse action against a nurse's multistate license must include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

**3. Alternative program.** Nothing in this compact overrides a decision by a licensing board of a party state that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of a nurse for the duration of the nurse's participation in an alternative program.

#### **§2176. Coordinated licensure information system and exchange of information -- Article 6**

**1. Participation.** A party state shall participate in the coordinated licensure information system for all licensed registered nurses and licensed practical or vocational nurses. The coordinated licensure information system includes information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

**2. Procedures.** The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and

proper procedures for the identification, collection and exchange of information under this compact.

**3. Reports.** A licensing board shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications, including the reasons for such denials, and nurse participation in alternative programs known to the licensing board regardless of whether such participation is considered nonpublic or confidential under state law.

**4. Information restrictions.** Current significant investigative information and participation in nonpublic or confidential alternative programs may be transmitted through the coordinated licensure information system only to party state licensing boards.

**5. Confidentiality.** Notwithstanding any other provision of law, a party state licensing board contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state licensing board.

**6. Personally identifiable information.** Personally identifiable information obtained from the coordinated licensure information system by a party state licensing board may not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

**7. Expungement.** Information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information must also be expunged from the coordinated licensure information system.

**8. Uniform data set.** The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which must include, at a minimum:

A. Identifying information;

B. Licensure data;

C. Information related to alternative program participation; and

D. Other information that may facilitate the administration of this compact, as determined by commission rules.

**9. Investigative documents.** The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

**§2177. Establishment of the Interstate Commission of Nurse Licensure Compact Administrators -- Article 7**

**1. Commission established.** The party states hereby create and establish a joint public entity known as the Interstate Commission of Nurse Licensure Compact Administrators.

A. The commission is an instrumentality of the party states.

B. Venue is proper, and judicial proceedings by or against the commission must be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

C. Nothing in this compact may be construed to be a waiver of sovereign immunity.

**2. Membership, voting and meetings.** This subsection governs the membership, voting and meetings of the commission.

A. Each party state has and is limited to one administrator. The head of the state licensing board or the head of the state licensing board's designee is the administrator of this compact for each party state. An administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission must be filled in accordance with the laws of the party state in which the vacancy exists.

B. Each administrator is entitled to one vote with regard to the promulgation of rules and creation of bylaws and must otherwise have an opportunity to participate in the business and affairs of the commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

C. The commission shall meet at least once during each calendar year. Additional meetings must be held as set forth in the bylaws or rules of the commission.

D. All meetings must be open to the public, and public notice of meetings must be given in the same manner as required under the rule-making provisions in section 2178.

E. The commission may convene in a closed, nonpublic meeting if the commission must discuss:

(1) Noncompliance of a party state with its obligations under this compact;

(2) The employment, compensation, discipline or other personnel matters, practices or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;

(3) Current, threatened or reasonably anticipated litigation;

(4) Negotiation of contracts for the purchase or sale of goods, services or real estate;

(5) Accusing a person of a crime or formally censuring a person;

(6) Disclosure of trade secrets or commercial or financial information that is privileged or confidential;

(7) Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(8) Disclosure of investigatory records compiled for law enforcement purposes;

(9) Disclosure of information related to any reports prepared by or on behalf of the commission for the purpose of investigation of compliance with this compact; or

(10) Matters specifically exempted from disclosure by federal or state statute.

F. If a meeting, or portion of a meeting, is closed pursuant to paragraph E, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken and the reasons for those actions, including a description of the views expressed. All documents considered in connection with an action must be identified in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

**3. Bylaws and rules.** The commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including but not limited to:

A. Establishing the fiscal year of the commission;

B. Providing reasonable standards and procedures:

(1) For the establishment and meetings of other committees; and

(2) Governing any general or specific delegation of any authority or function of the commission;

C. Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission shall make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed;

D. Establishing the titles, duties and authority and reasonable procedures for the election of the officers of the commission;

E. Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws exclusively govern the personnel policies and programs of the commission; and

F. Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of this compact after the payment or reserving of all of its debts and obligations.

**4. Publishing.** The commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the publicly accessible website of the commission.

**5. Financial records.** The commission shall maintain its financial records in accordance with the bylaws.

**6. Meetings.** The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.

**7. Powers.** The commission has the following powers:

A. To promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules have the force and effect of law and are binding in all party states;

B. To bring and prosecute legal proceedings or actions in the name of the commission; however, the standing of any licensing board to sue or be sued under applicable law is not affected;

C. To purchase and maintain insurance and bonds;

D. To borrow, accept or contract for services of personnel, including, but not limited to, employees of a party state or nonprofit organizations;

E. To cooperate with other organizations that administer state compacts related to the regulation of nursing, including, but not limited to, sharing administrative or staff expenses, office space or other resources;

F. To hire employees, elect or appoint officers, fix compensation, define duties, grant appropriate authority to carry out the purposes of this compact and establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel and other related personnel matters;

G. To accept all appropriate donations, grants and gifts of money, equipment, supplies, materials and services and to receive, use and dispose of the same, as long as at all times the commission avoids any appearance of impropriety or conflict of interest;

H. To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve or use, any property, whether real, personal or mixed, as long as at all times the commission avoids any appearance of impropriety;

I. To sell, convey, mortgage, pledge, lease, exchange, abandon or otherwise dispose of any property, whether real, personal or mixed;

J. To establish a budget and make expenditures;

K. To borrow money;

L. To appoint committees, including advisory committees composed of administrators, state nursing regulators, state legislators or their representatives, consumer representatives and other interested persons;

M. To provide and receive information from, and to cooperate with, law enforcement agencies;

N. To adopt and use an official seal; and

O. To perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of nurse licensure and practice.

**8. Financing of commission.** This subsection governs the financial operations of the commission.

A. The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization and ongoing activities.

B. The commission may levy on and collect an annual assessment from each party state to cover the cost of its operations, activities and staff in its annual budget as approved each year. The aggre-

gate annual assessment amount, if any, must be allocated based upon a formula to be determined by the commission, which shall promulgate a rule that is binding upon all party states.

C. The commission may not incur obligations of any kind prior to securing the funds adequate to those obligations; nor may the commission pledge the credit of any of the party states except by and with the authority of that party state.

D. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission must be audited yearly by a certified or licensed public accountant, and the report of the audit must be included in and become part of the annual report of the commission.

**9. Qualified immunity; defense and indemnification.** This subsection governs immunity provisions and defense and indemnification requirements of the commission.

A. An administrator, officer, executive director, employee or representative of the commission is immune from suit and liability, either personally or in that person's official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error or omission that occurred or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, except that nothing in this paragraph may be construed to protect any person from suit or liability for any damage, loss, injury or liability caused by the intentional, willful or wanton misconduct of that person.

B. The commission shall defend an administrator, officer, executive director, employee or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from that person's intentional, willful or wanton misconduct. Nothing in this paragraph may be construed to prohibit that person from retaining counsel.

C. The commission shall indemnify and hold harmless an administrator, officer, executive di-

rector, employee or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that the person had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from the intentional, willful or wanton misconduct of that person.

### **§2178. Rulemaking -- Article 8**

**1. Rule-making powers.** The commission shall exercise its rule-making powers pursuant to the criteria set forth in this section and the rules adopted under this section. Rules and amendments to rules become binding as of the date specified in each rule or amendment and have the same force and effect as provisions of this compact.

**2. Adoption.** Rules or amendments to rules must be adopted at a regular or special meeting of the commission.

**3. Notice publication.** Prior to promulgation and adoption of a final rule or rules by the commission, and at least 60 days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

A. On the publicly accessible website of the commission; and

B. On the publicly accessible website of each licensing board or in the publication in which each party state would otherwise publish proposed rules.

**4. Notice contents.** The notice of proposed rulemaking under subsection 3 must include:

A. The proposed time, date and location of the meeting in which the rule will be considered and voted upon;

B. The text of the proposed rule or amendment and the reason for the proposed rule or amendment;

C. A request for comments on the proposed rule from any interested person; and

D. The manner in which an interested person may submit notice to the commission of the intention to attend the public hearing and any written comments.

**5. Materials submission.** Prior to adoption of a proposed rule, the commission shall allow any interested person to submit written data, facts, opinions and arguments, which must be made available to the public.

**6. Public hearing opportunity.** The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

**7. Public hearing procedure.** The commission shall publish the place, time and date of the scheduled public hearing.

A. A public hearing must be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All public hearings must be recorded, and a copy must be made available upon request.

B. Nothing in this section may be construed as requiring a separate public hearing on each rule. Rules may be grouped for the convenience of the commission at public hearings required by this section.

**8. Attendance.** If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.

**9. Consideration of comments.** Following the scheduled public hearing date, or by the close of business on a scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

**10. Final action.** The commission shall, by majority vote of all administrators, take final action on a proposed rule and determine the effective date of the rule, if any, based on the rule-making record and the full text of the rule.

**11. Emergency rulemaking.** Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or public hearing, in which case the usual rule-making procedures provided in this compact and in this section must be retroactively applied to the rule as soon as reasonably possible and in no event later than 90 days after the effective date of the rule. For the purposes of this subsection, an emergency rule is one that must be adopted immediately in order to:

A. Meet an imminent threat to public health, safety or welfare;

B. Prevent a loss of commission or party state funds; or

C. Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

**12. Revisions.** The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of any revisions must be posted on the publicly accessible website of the commission. The

revision is subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

### **§2179. Oversight, dispute resolution and enforcement -- Article 9**

**1. Oversight.** This subsection governs enforcement and proceedings under the compact.

A. Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.

B. The commission is entitled to receive service of process in any proceeding that may affect the powers, responsibilities or actions of the commission and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process in a proceeding to the commission renders a judgment or order void as to the commission, this compact or promulgated rules.

**2. Default, technical assistance and termination.** This subsection governs default, technical assistance and termination under the compact.

A. If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(1) Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default or any other action to be taken by the commission; and

(2) Provide remedial training and specific technical assistance regarding the default.

B. If a party state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

C. Termination of membership in this compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

D. A party state whose membership in this compact has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

E. The commission may not bear any costs related to a party state that is found to be in default or whose membership in this compact has been terminated unless agreed upon in writing between the commission and the defaulting state.

F. The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party must be awarded all costs of such litigation, including reasonable attorney's fees.

**3. Dispute resolution.** This subsection governs dispute resolution under the compact.

A. Upon request by a party state, the commission shall attempt to resolve disputes related to the compact that arise among party states and between party and nonparty states.

B. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

C. In the event the commission cannot resolve disputes among party states arising under this compact:

(1) The party states may submit the issues in dispute to an arbitration panel composed of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute; and

(2) The decision of a majority of the arbitrators under this paragraph is final and binding.

**4. Enforcement.** This subsection governs enforcement under the compact.

A. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

B. By majority vote, the commission may initiate legal action in the United States District Court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party must be awarded

all costs of such litigation, including reasonable attorney's fees.

C. The remedies provided in this section are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

### **§2180. Effective date, withdrawal and amendment -- Article 10**

**1. Effective date.** This compact becomes effective and binding on the earlier of the date of legislative enactment of this compact into law by no fewer than 26 states or December 31, 2018. All party states to this compact that were parties to the prior compact are deemed to have withdrawn from the prior compact within 6 months after the effective date of this compact.

**2. Prior compact.** Each party state shall continue to recognize a multistate licensure privilege of a nurse to practice in that party state issued under the prior compact until that party state has withdrawn from the prior compact.

**3. Withdrawal.** A party state may withdraw from this compact by enacting a statute repealing the same. A party state's withdrawal does not take effect until 6 months after enactment of the repealing statute.

**4. Continuing requirements.** A party state's withdrawal or termination does not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of the withdrawal or termination.

**5. Agreements with nonparty states.** Nothing contained in this compact may be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

**6. Amendments to compact.** This compact may be amended by a party state. An amendment to this compact does not become effective and binding upon the party states until it is enacted into the laws of all party states.

**7. Representative participation.** Representatives of nonparty states to this compact must be invited to participate in the activities of the commission, on a nonvoting basis, prior to the adoption of this compact by all states.

### **§2181. Construction and severability -- Article 11**

This compact may be liberally construed so as to effectuate its purposes. The provisions of this compact are severable, and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or if its applicability to any government,

agency, person or circumstance is held invalid, the validity of the remainder of this compact and its applicability to any government, agency, person or circumstance are not affected. If this compact is held to be contrary to the constitution of any party state, this compact remains in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

## PART B

#### **An Act To Allow Municipalities To Establish Ordinances Banning or Restricting Marijuana Caregivers within 500 Feet of a School**

**Emergency preamble.** **Whereas**, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas**, while the Maine Medical Use of Marijuana Act prohibits the location of medical marijuana dispensaries within 500 feet of a school, there are no such prohibitions placed on primary caregivers who cultivate medical marijuana for qualifying patients; and

**Whereas**, without restrictions, the current law could be construed to permit a number of caregivers to be located in the same facility, each cultivating up to 6 marijuana plants; and

**Whereas**, the location of such a facility close to a school may pose a risk to minors passing that facility on their way to and from school, which is a risk that needs to be addressed as soon as possible; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 22 MRSA §2423-A, sub-§13**, is enacted to read:

**13. Moratorium ordinance.** Notwithstanding any other provision of this chapter or any other provision of law to the contrary, a municipality may adopt and enforce an ordinance that establishes a moratorium on the location within 500 feet of the property line of a preexisting public or private school of new facilities or expansion of existing facilities where registered primary caregivers cultivate marijuana plants. This subsection does not affect any permit that has been granted to a registered primary caregiver prior to the effective date of this subsection.

This subsection is repealed July 1, 2018. Any ordinances adopted pursuant to this subsection are not authorized and are void after July 1, 2018.

**Sec. 2. Authority to report out legislation.**

**Sec. 1. 26 MRSA §664, sub-§2,** as amended by IB 2015, c. 2, §2, is further amended to read:

**2. Tip credit.** An employer may consider tips as part of the wages of a service employee, but such a tip credit may not exceed 50% of the minimum hourly wage established in this section. ~~Starting except that from January 1, 2017 to December 31, 2017,~~ the minimum cash wage paid directly to a tipped service employee may not be less than \$5.00 per hour, ~~and the tip credit may not exceed the difference between the minimum cash wage paid directly to a tipped service employee and the minimum hourly wage established under subsection 1. The tips received by a service employee become the property of the employee and may not be shared with the employer. Tips that are automatically included in the customer's bill or that are charged to a credit card must be treated like tips given to the service employee. A tip that is charged to a credit card must be paid by the employer to the employee by the next regular pay-day and may not be held while the employer is awaiting reimbursement from a credit card company. The employer may not deduct any amount from employee tips charged to a credit card, including, but not limited to, service fees assessed to the employer in connection with the credit card transaction.

An employer who elects to use the tip credit must inform the affected employee in advance, either orally or in writing, of the following information:

A. The amount of the direct wage to be paid by the employer to the tipped employee;

B. The amount of tips to be credited as wages toward the minimum wage;

C. That the amount of tips to be credited as wages may not exceed the value of the tips actually received by the employee;

E. That the tip credit may not apply to any employee who has not been informed by the employer of the provisions for a tip credit; and

Access must be granted during business hours for examination

of any inventory or books and records required to be kept by a licensee. When any part of the licensed premises consists of a locked area, upon demand to the licensee this area must be made available for inspection, and, upon request by authorized representatives of the State or municipality, the licensee shall open the area for inspection.

**Whereas,** the Department of Administrative and Financial Services, Bureau of Alcoholic Beverages and Lottery Operations is charged with enforcing the laws relating to licensing of the manufacture and sale of liquor; and

**Whereas,** the bureau's recent interpretation of a law regarding brewery ownership could lead to consequences that were not intended by the Legislature; and

**Whereas,** it is imperative that the law be clarified as soon as possible to avoid unintended consequences that could imperil operations by breweries during premium tourism season; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 28-A MRSA §1355-A, sub-§2, ¶I,** as amended by PL 2017, c. 34, §1, is further amended to read:

I. A licensee may be issued one retail license under chapter 43 per licensed location for the sale of liquor to be consumed on the premises at the retail premises.

~~(1) The retail license must be held exclusively by the holder of the brewery, small brewery, winery, small winery, distillery or small distillery license.~~

(2) The retail license authorizes the sale of products of the brewery, small brewery, winery, small winery, distillery or small distillery, in addition to other liquor permitted to be

sold under the retail license, to be consumed on the premises.

(3) All records related to activities under a manufacturer license issued under this section must be kept separate from records related to the retail license.

(4) A distillery or small distillery must meet the requirements of subsection 5, paragraphs D and E.

(5) The licensee shall ensure that products purchased for off-premises consumption under paragraph D are not consumed on the licensed premises.

**Sec. 2. 28-A MRSA §1355-A, sub-§2-A** is enacted to read:

licensed to manufacture liquor under Title 28-A, section 1355-A.

consumption, increase energy efficiency or reduce greenhouse gas emissions and lower energy costs at commercial or industrial facilities and for investment in measures that lower residential heating energy demand and reduce greenhouse gas emissions. The measures that lower residential heating demand must be fuel-neutral and may include, but are not limited to, energy efficiency improvements to residential buildings and upgrades to efficient heating systems that will reduce residential energy costs and greenhouse gas emissions, as determined by the board. The trust shall ensure that measures to reduce the cost of residential heating are available for low-income households as defined by the trust. When promoting electricity cost and consumption reduction, the trust may consider measures at commercial and industrial facilities that also lower peak capacity demand. Subject to the apportionment pursuant to this subsection, the trust shall fund conservation programs that give priority to measures with the highest benefit-to-cost ratio, as long as cost-effective collateral efficiency opportunities are not lost, and that:

- (1) Reliably reduce greenhouse gas production and heating energy costs by fossil fuel combustion in the State at the lowest cost in funds from the trust fund per unit of emissions; or
- (2) Reliably increase the efficiency with which energy in the State is consumed at the lowest cost in funds from the trust fund per unit of energy saved.

Notwithstanding this paragraph, during fiscal years 2017-18 to 2019-20, the trust is not required to allocate 50% of the funds to residential programs and 50% of the funds to commercial and industrial programs and may instead allocate those funds to programs at the trust's discretion.

**Sec. 3. 35-A MRSA §10111, sub-§2,** as amended by PL 2015, c. 425, §1, is further amended to read:

**2. Funding level.** The natural gas conservation fund, which is a nonlapsing fund, is established to carry out the purposes of this section. The commission shall assess each gas utility, in accordance with the triennial plan, an amount necessary to capture all cost-effective energy efficiency that is achievable and reliable for those consumers who are eligible to receive funds from the natural gas conservation fund. The commission shall direct a gas utility that collects any portion of the assessment under this subsection from a customer that is a large-volume manufacturer to collect the assessment only on the first 1,000,000 centum cubic feet of natural gas used by that manufacturer in each year. The limitation on the collection of the assessment from large-volume manufacturers may

not affect the trust's determination of the amount necessary to capture all cost-effective energy efficiency that is achievable and reliable. The limitation does not limit the eligibility of a large-volume manufacturer to participate in a natural gas conservation program. All amounts collected under this subsection must be transferred to the natural gas conservation fund. Any interest on funds in the fund must be credited to the fund. Funds not spent in any fiscal year remain in the fund to be used for the purposes of this section.

The assessments charged to gas utilities under this section are just and reasonable costs for rate-making purposes and must be reflected in the rates of gas utilities.

All funds collected pursuant to this section are collected under the authority and for the purposes of this section and are deemed to be held in trust for the purposes of benefiting natural gas consumers served by the gas utilities assessed under this subsection. In the event funds are not expended or contracted for expenditure within 2 years of being collected from consumers, the commission shall ensure that the value of those funds is returned to consumers.

For purposes of this subsection, "large-volume manufacturer" means a customer that is a gas utility rate-payer engaged in manufacturing in the State and purchases at least 1,000,000 centum cubic feet of natural gas per year.

Rules adopted by the commission under this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

See title page for effective date.
