**LEGISLATIVE COUNCIL
MEETING SUMMARY
October 26, 2017**

CALL TO ORDER

Speaker Gideon called the October 26, 2017 meeting of the Legislative Council to order at 10:32 a.m. in the Legislative Council Chamber.

ROLL CALL

Senators: President Thibodeau, Senator Mason Senator Cushing, and Senator Jackson and Senator Libby

Representatives: Speaker Gideon, Representative Herbig, Representative Golden, Representative Fredette and Representative Espling

Legislative Officers: Heather Priest, Secretary of the Senate
Robert Hunt, Clerk of the House
Grant T. Pennoyer, Executive Director of the Legislative Council
Dawna Lopatosky, Legislative Finance Director
Suzanne Gresser, Revisor of Statutes
Marion Hylan Barr, Director, Office of Policy and Legal Analysis
Chris Nolan, Director, Office of Fiscal and Program Review
Kevin Dieterich, Director, Legislative Information Technology

Speaker Gideon convened the meeting at 10:32 a.m. with a quorum of members present.

SUMMARY OF SEPTEMBER 19, 2017 MEETING OF LEGISLATIVE COUNCIL

Motion: That the Meeting Summary for September 19, 2017 be accepted and placed on file. Motion by Representative Herbig. Second by Senator Mason. **Motion passed unanimous (10-0).**

REPORTS FROM EXECUTIVE DIRECTOR AND COUNCIL OFFICES

Executive Director's Report

Grant Pennoyer, Executive Director, submitted the following written report.

1. Updating Card Readers and New Access Cards

The new security cards have been received and we are in the process of updating photos for staff. We will be using the existing photos on file for Legislators until next Legislature begins. We hope to complete the updating of photos in the next couple of weeks and the new cards will be processed in a batch for distribution. Once the new cards are distributed, the card readers will be updated over a weekend to complete the transition. The tentative time frame for transition is a weekend in mid-November. Once the card readers have been replaced, we will be establishing a process to get the new cards to Legislators or others who did not receive their new card before the transition of the card readers. The old access cards will not work with the new card readers, so Legislators and staff must get their new card before they can access the building after hours or through entrances other than the main entrance. We are looking at arranging it with the Legislative Information Office to hold the new cards for Legislators and staff who did not get them before transition. Therefore, they can pick them up prior to having to go through security screening.

2. RFP for MELD Bill Production System Replacement

We have held the second demonstrations with the top 2 bidders for the MELD Bill Production System Replacement project and our IT staff had technical question and answer sessions with both of the bidders. We will be meeting soon to review our findings and develop recommendations.

3. NCSL Job Classification and Compensation Study

NCSL is currently reviewing comprehensive surveys filled out by staff that were due Friday, October 20th. They will soon be scheduling interviews with individual staff for their Maine visit during the week of November 13th to the 17th.

Fiscal Report

Chris Nolan, Director, Office of Fiscal and Program Review, submitted the following written report.

1. General Fund Revenue Update

Total General Fund Revenue - FY 2018 (\$'s in Millions)						
	Budget	Actual	Var.	% Var.	Prior Year	% Growth
September	\$356.3	\$377.0	\$20.7	5.8%	\$368.9	2.2%
FYTD	\$894.0	\$927.7	\$33.7	3.8%	\$904.4	2.6%

General Fund revenue was over budget by \$20.7 million (5.8%) for the month of September and over budget by \$33.7 million (3.8%) for the fiscal year to date. Individual income tax revenue was over budget for the month by \$8.5 million and over budget for the fiscal year by \$18.7 million. As with the month of August, strong withholding and estimated payments contributed to the positive variance. Sales and use taxes for September (August sales) were under budget by \$0.7 million for the month but over budget by \$3.9 million for the fiscal year. Corporate income tax revenue was over budget by \$7.7 million in September and over

budget by \$10.2 million for the fiscal year to date. Transfers for tax relief programs were over budget (less transferred than budgeted) by \$3.2 million in September largely due to the timing of BETR transfers.

The Consensus Economic Forecasting Commission is scheduled to meet on October 27th to review and update its current economic forecast. The Revenue Forecasting Committee will then meet in late November to review and update the current revenue forecast.

2. Highway Fund Revenue Update

Total Highway Fund Revenue - FY 2018 (\$'s in Millions)

	Budget	Actual	Var.	% Var.	Prior Year	% Growth
September	\$26.8	\$27.5	\$0.6	2.4%	\$26.6	3.2%
FYTD	\$87.1	\$85.9	(\$1.2)	-1.4%	\$87.5	-1.9%

Highway Fund revenue was over budget by \$0.6 million (2.4%) for the month of September but under budget by \$1.2 million (1.4%) for the fiscal year to date. The positive monthly variance occurred in the Fuel Taxes and Motor Vehicle Registration and Fees revenue lines. The fiscal year to date negative variance continues to be the result of fuel tax payments received in June that were expected in July.

3. Cash Balances Update

The average balance in the cash pool for September was \$1,143.5 million, up from August's average of \$1,102.9 million and well above both last year's average balance for September and the ten-year average for the month. General Fund internal borrowing from other funds was not needed in September. The average Highway Fund balance of \$29.8 million in September decreased from August's average of \$37.2 million as a result of construction season spending.

Studies Report

Marion Hylan Barr, Director, Office of Policy and Legal Analysis, submitted the written report found in the agenda packet. Several studies have work in progress. Some are still waiting for appointments to be completed. Some of the committees have held recent work sessions and public hearings.

REPORTS FROM COUNCIL COMMITTEES

1. Personnel Committee

No Report

2. State House Facilities Committee

Representative Herbig presented the State House Facilities Committee report. The committee met on October 25th, to consider the following items.

1. State Postal Delivery Changes

The committee received an update from Andrew Giroux, Director, Central Services about changes to postal deliveries to state facilities including the State House and presented some

options for developing a single postal delivery and pick up location inside the State House. The committee directed the Executive Director to continue to explore options for this single location in the State House.

2. State House Parking – Handicapped Parking

Chief Gauvin of Capitol Police provided an update of the recent efforts at State Facilities to bring all parking spaces into complete ADA compliance as an example for other facilities around the State.

3. Artist Selection Committee Recommendations

The committee received a report from the Artist Selection Committee with their recommendations for the artwork to reuse the copper from the State House dome. The Artist Selection Committee recommended two artists for two different locations inside the State House, one above the Law Library door and the other on wall of the exit corridor at the main entrance. The selection committee felt that since these wonderful pieces of art did not require much of the available copper, there was an opportunity to do both and still have some pieces to sell to others interested in using the rough copper from the dome. The committee unanimously agreed with the acceptance of the artists' proposals and to provide funding from the State House Preservation and Maintenance Fund and is recommending that the Council adopt this recommendation.

Motion: That upon the unanimous recommendation of the State House Facilities Committee the Legislative Council approve the recommendations of the Artist Selection Committee for the reuse of the copper from the State House dome and accept the proposals of two artists for projects in two locations inside the State House and that the funding for the artist costs be allocated from the funds appropriated to the State House Preservation and Maintenance Fund. Motion by Representative Herbig. Second by Senator Libby. **Motion passed unanimous (10-0).**

4. Gold Star Memorial in Capitol Park

John Kelly presented a proposal for a Maine committee that is spearheading a fundraising effort for a Maine Gold Star Family Memorial. Their proposal is to locate this new memorial next to the Maine Vietnam Veterans Memorial in Capitol Park. The committee also heard from Earle Shettleworth, the State Historian, on the history of the park and the statutory guidance established for Capitol Park. The committee recommended that this proposal be referred to the full Council to review and discuss the details of this proposal.

The committee also discuss two related matters, flying a new Killed in Action flag at the State House and the placement of a statue of a soldier from Maine somewhere near the State House. After discussing these two matters, the committee tabled them and directed Mr. Pennoyer to work with those presenting these proposals to further develop these proposals and report back to the committee.

5. Parking Lot O – Flag Poles from State House Low Domes

Mr. Pennoyer presented some background on the flag poles that were replaced on the State House's low domes that have been stored very poorly at one end of Parking Lot O. In preparation for the renovation of that parking lot next year, Mr. Pennoyer sought guidance on what to do with these flag poles. The committee recommended that Mr. Pennoyer reach out to Camp Sunshine that had previously expressed an interest in the flag poles. If Camp Sunshine is

not interested, Mr. Pennoyer should seek out other interested parties, before considering using state surplus property sale if no interest after a few months.

6. Review of Multi-year Plan for State House Maintenance and Improvements

Mr. Pennoyer provided an overview of the proposals in the Multi-year Plan for State House Maintenance and Improvements. The committee unanimously recommended adoption of the multi-year plan by the Council.

Motion: That upon the unanimous recommendation of the State House Facilities Committee the Legislative Council approves the maintenance and improvement projects as summarized in the 2017 update of the Maine State House and Grounds Multi-Year Plan for Maintenance and Improvements. Motion by Representative Herbig. Second by Senator Libby. **Motion passed unanimous (10-0).**

OLD BUSINESS

Item #1: Task Force on Health Care Coverage Outside Funding

The Council has received more outside funds for the Task Force on Health Care Coverage to approve. This study is unique in that it covers two fiscal years. The Task Force has raised \$7,379 of the \$9,364 required to cover the total estimated costs of the study. The remaining \$1,985 must be raised and accepted before June 30, 2018 or the work of the task force may not continue after that date.

Motion: That the Legislative Council accepts the outside funding of the Task Force on Health Care Coverage. Motion by Speaker Gideon. Second by President Thibodeau. **Motion passed unanimous (10-0).**

NEW BUSINESS

Item #1: Suggested Procedures for Deciding Legislative Bill Requests

Speaker Gideon and Mr. Pennoyer reviewed the procedures the Council will follow in deciding legislator bill requests.

Item #2: Consideration of Legislative Bill Requests for Introduction in the Second Regular Session of the 128th Legislature

The Legislative Council proceeded to consider and vote on two hundred sixty-eight (268) bill requests in accordance with the adopted protocol, and using an electronic voting system. The Legislative Council authorized sixty-three (63) bills for introduction in the Second Regular Session, tabled three (3) bill requests and declined to authorize two hundred two (202) bill requests. Four (4) bill requests were withdrawn by the sponsor prior to the Legislative Council's vote. The Legislative Council's action on the bill requests is attached.

Item #3: Legislative Council Meeting Schedule for 2018

Mr. Pennoyer reviewed the proposed meeting schedule for the Legislative Council for 2018.

Motion: That the Legislative Council approve the 2018 Legislative Council meeting schedule. Motion by Speaker Gideon. Second by President Thibodeau. **Motion passed unanimous (10-0).**

Item #4: Proposed Document Service Fee Schedule for 128th Legislature, Second Regular Session

Mr. Hunt submitted the proposed Document Service Fee Schedule for the 128th Legislature, Second Regular Session for the Legislative Council's approval.

Motion: That the Legislative Council approve the Document Fee Schedule for the 128th Legislature, 2nd Regular Session. Motion by Representative Espling. Second by Senator Mason. **Motion passed unanimous (10-0).**

Item #5: Request from the Task Force to Identify Special Education Cost Drivers and Innovative Approaches to Services to Extend its Reporting Deadline

The Legislative Council received a request from the Task Force to Identify Special Education Cost Drivers and Innovative Approaches to Services to extend its reporting deadline from December 6th to January 15th. Since they were unable to begin meeting until October 19th, the Task Force feels that they do not have enough time to hold all five of their meetings and complete their report by December 6th.

Motion: That the Legislative Council approve the request by the Task Force to Identify Special Education Cost Drivers and Innovate Approaches to Services to extend its reporting deadline to January 15, 2018. Motion by Representative Fredette. Second by Representative Espling. **Motion passed unanimous (10-0).**

ANNOUNCEMENTS AND REMARKS

Executive Director's Report November 30, 2017

1. Updating Card Readers and New Access Cards

The timing of the transition to a new card reader system is still uncertain. The new card readers are still pending delivery. Once received, we will process the new cards and distribute them. We are still hoping to make the transition to the new card readers and new cards in December before the start of the Second Regular Session. For those card holders that have not received their new card before the actual transition, we will have the replacement cards available in the Legislative Information Office before security screening so that any card holder that hasn't received their new card can have a new card available to go through the priority screening lane. We will be collecting all old cards after the transition.

2. NCSL Job Classification and Compensation Study

During the week of November 13th to the 17th, NCSL conducted interviews with many individual staff to learn more about the various positions in the Legislature to supplement the information from the surveys filled out by legislative staff. NCSL will be conducting additional analyses on the Legislature's positions and reviewing market information on salaries before formulating their recommendations for their report, which is scheduled to be released by March 15, 2018.

Fiscal Briefing

November 30, 2017

Prepared by the Office of Fiscal & Program Review

1. General Fund Revenue Update (see attached)

Total General Fund Revenue - FY 2018 (\$'s in Millions)

	Budget	Actual	Var.	% Var.	Prior Year	% Growth
October	\$303.8	\$302.9	(\$1.0)	-0.3%	\$291.2	4.0%
FYTD	\$1,197.8	\$1,230.6	\$32.8	2.7%	\$1,195.6	2.9%

General Fund revenue was under budget by \$1.0 million (0.3%) for the month of October and over budget by \$32.8 million (2.7%) for the fiscal year to date. Individual income tax revenue was over budget for the month by \$5.8 million and over budget for the fiscal year by \$24.5 million. Withholding payments and estimated payments continued to be strong in October. Sales and use taxes for October (September sales) were under budget by \$0.1 million for the month but over budget by \$3.8 million for the fiscal year. Corporate income tax revenue was under budget by \$0.9 million in October but over budget by \$9.4 million for the fiscal year to date. Transfers for tax relief programs were over budget (less transferred than budgeted) by \$0.7 million in October largely due to the timing of BETR transfers. Cigarette and tobacco taxes were under budget by \$1.5 million in October and by \$8.2 million for the fiscal year to date.

2. Highway Fund Revenue Update (see attached)

Total Highway Fund Revenue - FY 2018 (\$'s in Millions)

	Budget	Actual	Var.	% Var.	Prior Year	% Growth
October	\$28.3	\$28.3	\$0.0	0.1%	\$28.3	0.1%
FYTD	\$115.4	\$114.2	(\$1.2)	-1.0%	\$115.8	-1.4%

Highway Fund revenue was on budget for the month of October but under budget by \$1.2 million (1.0%) for the fiscal year to date. The fiscal year to date negative variance continues to be the result of fuel tax payments received in June that were expected in July.

3. Cash Balances Update

The average balance in the cash pool for October was \$1,142.1 million, down slightly from September's average of \$1,143.5 million but well above both last year's average balance for October and the ten-year average for the month. General Fund internal borrowing from other funds was not needed in October. The average Highway Fund balance of \$21.7 million in October decreased from August's average of \$29.8 million.

4. December 2017 Revenue Forecast

The Revenue Forecasting Committee met on November 27th to review and update the current revenue forecast to comply with its December 1st statutory deadline. A summary of its preliminary findings follows below. The complete report will be available later this week.

Fiscal Briefing (continued)
 Legislative Council Meeting – November 30, 2017
 Prepared by the Office of Fiscal & Program Review

General Fund revenue estimates were revised upward by \$17.9 million for FY18 but downward by \$11.7 million for FY19 (upward by \$6.2 million for the 2018-2019 biennium). The revised forecast increases the overall rate of growth for General Fund revenue for FY18 from -0.2% to 0.3% but reduces the rate of growth for FY19 from 4.7% to 3.8%. The projections for FY20 assume a much smaller overall growth rate of 0.5%, largely the result of Municipal Revenue Sharing returning to the 5% level under current law from the 2% level in place for FY16 through FY19. The growth rate for FY21 is now projected to be 3.6%.

General Fund Summary - Preliminary December 2017 Forecast

	FY18	FY19	FY20	FY21
Current Forecast	\$3,448,809,669	\$3,611,309,138	\$3,622,429,076	\$3,740,251,502
Annual % Growth	-0.2%	4.7%	0.3%	3.3%
Net Increase (Decrease)	\$17,938,255	(\$11,750,528)	(\$6,307,179)	\$6,727,385
Revised Forecast	\$3,466,747,924	\$3,599,558,610	\$3,616,121,897	\$3,746,978,887
Annual % Growth	0.3%	3.8%	0.5%	3.6%
Summary of Preliminary Revenue Revisions by Major Revenue Category				
Sales and Use Tax	\$4,900,000	(\$250,000)	\$9,400,000	\$20,500,000
Service Provider Tax	\$2,800,000	\$2,800,000	\$2,800,000	\$2,800,000
Individual Income Tax	\$15,500,000	(\$26,000,000)	(\$28,850,000)	(\$28,000,000)
Corporate Income Tax	\$6,200,000	\$13,500,000	\$12,600,000	\$14,500,000
Cigarette and Tobacco Tax	(\$7,650,000)	\$0	\$0	\$0
Insurance Companies Tax	\$385,000	\$385,000	\$250,000	\$250,000
Estate Tax	\$0	\$0	\$0	\$0
Other Taxes and Fees	\$1,231,400	(\$182,075)	(\$1,157,291)	(\$1,157,744)
Fines, Forfeits and Penalties	\$20,000	\$20,000	\$20,000	\$20,000
Income from Investments	\$1,555,731	\$707,637	\$709,868	\$886,115
Transfer from Lottery Commission	\$0	\$0	\$0	\$0
Transfer to Tax Relief Programs	\$0	\$0	\$0	\$0
Transfer to Municipal Rev. Sharing	(\$632,249)	\$159,735	\$238,624	(\$437,835)
Transfers to Education Fund	\$0	\$0	\$0	\$0
Other Revenues	(\$6,371,627)	(\$2,890,825)	(\$2,318,380)	(\$2,633,151)
Total Revisions - Increase (Decrease)	\$17,938,255	(\$11,750,528)	(\$6,307,179)	\$6,727,385

Highway Fund revenue estimates were revised downward by \$2.5 million for the FY18 and by \$0.3 million for FY19 (downward by \$2.8 million over the 2018-2019 biennium). The FY 18 reduction was largely the result of fuel tax payments received in June (FY17) that were expected in July.

Fund for a Healthy Maine revenue estimates were revised upward by \$2.7 million for FY18 and by \$3.1 million for FY19 (upward by \$5.8 million over the 2018-2019 biennium). The changes were largely the result of updated national estimates for tobacco settlement payments.

Medicaid/MaineCare Dedicated revenue estimates were revised upward by \$0.9 million per year for FY18 and FY19.

Legislative Council Meeting
November 30, 2017

Deciding Appeals of Legislative Bill Requests Turned Down By the Council

Requirements Relevant to Bills in the Second Regular Session

1. Under the terms of the Maine Constitution, Section 1 of Article IV, Part Third, Legislative Power, the business of the second regular session **must be limited** to budgetary matters; legislation in the Governor's call; legislation of an emergency nature admitted by the Legislature; legislation referred to committees to study and report by the Legislature in the first regular session; and legislation presented to the Legislature by written petition of the electors (direct citizen initiative).
2. Under the 128th Legislative Council's Rules of Procedure, any action of the Council requires the affirmative vote of at least 6 members.
3. Under Rule 203 of the Joint Rules of the 128th Legislature, any vote of the Legislative Council to accept or reject a bill or resolve for introduction under the procedures established under the Joint Rules must be taken by the yeas and nays, and that vote must be recorded and made available for public inspection.
4. Under Rule 217 of the Joint Rules, a bill that has been introduced and finally rejected in a regular or special session may not be introduced in a subsequent session of the same Legislature except by a vote of 2/3 of both chambers. Therefore, determinations as to the relevancy of Rule 217 will be made by the presiding officers outside of this meeting.

Suggested Protocol for Deciding Appeals

- A. The Legislative Council will review appeals in alphabetical order by Sponsor.
- B. For procedural consistency, when voting on an appeal of a bill request that was denied, the initial motion on a bill will be presumed to be a motion to accept the bill request for introduction in the second regular session along with a second to that motion. (Yea is to let in a bill; nay is to reject the bill for introduction). Also for procedural consistency, unless otherwise stated, each motion is presumed to have been made by the vice-chair of the Legislative Council, seconded by the chair.
- C. In order to review all legislative appeals in a timely manner, voting will be by electronic vote or a show of hands, with each Council Member's vote on each bill being recorded. The record of each vote will be made available by the Office of the Executive Director for public inspection following the meeting.
- D. Legislators who have appealed a decision of the Legislative Council will be given a brief opportunity to orally present their appeal to the Council. A time limit of 2 minutes will be observed for Legislators making an appeal. Only by leave of the Chair of the Legislative Council may a person who is not a Legislator Sponsor address the Council.
- E. Discussion of a bill request will be limited to whether it is appropriate for introduction under Constitutional provisions for second regular session bills, and will not speak to the merits of the bill itself. If a bill was turned down because it is closely related to another legislative request or to a carryover bill, the burden is on the Sponsor to convincingly distinguish his or her bill request from the closely related one.

Re: Recommendation for MELD Replacement Bill Production System

At the request of the 127th Legislative Council, the Legislature solicited proposals from potential vendors to replace our outdated bill production system known as MELD. The RFP (Request for Proposal) process began early last fall and only recently concluded with the staff's decision to recommend awarding the bid to Tallan.

After completing the RFP document, we set a deadline in late May for firms to respond. We received proposals from four of the major firms that have been active in providing legislative information systems in the United States and Canada. These firms were: Irosoft; Propylon, Tallan and Xcential. A review team of key staff from the Office of the Revisor of Statutes (ROS), the Office of Policy and Legal Analysis (OPLA), the Office of Fiscal and Program Review (OFPR) and the Office of Legislative Information Technology (LIT) evaluated with the Executive Director the four proposals from these major firms that were received in May of this year.

The initial review narrowed down the bidders to two firms, Tallan and Propylon, which were invited to provide in-person presentations of their proposals and to give some demonstrations. The first demonstrations were scheduled in mid-August after the conclusion of the First Regular Session. Both firms presented very well, making it difficult to select between the proposals at this stage. After these initial presentations and reviews of the written proposals, LIT staff developed a number of technical questions about the proposed new drafting systems and had conference calls with each of the firms. Both firms were also invited back to provide additional demonstrations and respond to additional questions developed by the review team. An additional demonstration with each firm was held during a two-week span in late September and early October.

The review team gathered again in late October to evaluate and reach a decision on a recommendation. At that late October meeting, the team decided to recommend selecting Tallan for this bill production system project. Both firms had excellent proposals and each firm's cost were relatively close to one another. While Tallan's cost proposal at \$3.4 million was higher by roughly \$400,000, there are several other factors overriding the cost differential. In addition to their core estimates, both proposals included substantial additional contingency budgets for unexpected items that were out of the scope of the original estimate that could significantly affect the final cost of both proposals.

Some other key factors tipping the scale in favor of Tallan include the compatibility of Tallan's programming language of its proposal with LIT's existing applications, most importantly our core LEAP system with which the bill production system must have multiple interfaces. Tallan's programming language is also used by in-house programmers for most LIT projects, enhancing LIT's ability to provide future fixes and programming changes after conclusion of the contract. Propylon's solution included the purchase of their Legislative Workbench system that they have used in several other states. Their proposal also offered ongoing software support for upgrades, fixes and enhancements at a cost of \$50,000 per year. The unknown nature of Propylon's programming within the Legislative Workbench system, which has been modified multiple times over the years, would inhibit LIT staff from making changes in the future without Propylon's assistance. Maine's previous experience with using systems developed for use in another state has not been good. The current MELD system was such a case that proved to be an incredibly difficult implementation that dragged on for years.

Tallan's proposal is based on a custom software solution for Maine. While they will be able to use some of the programming code that they developed for a similar successful installation in Delaware, it will be designed specifically for Maine. Delaware's bill production process has similarities to Maine's that make this possible. Their proposal also would integrate more easily with our core bill status and tracking system due to the compatibility of programming languages used. Propylon's Legislative Workbench system is duplicative of many LEAP's functions and would mean a complex mapping and developing of multiple data interfaces.

As noted previously, both firms had substantial contingencies or change control budgets for unanticipated work as part of the MELD replacement project. It is for that reason that in our recommendation to award the bid to Tallan, we are recommending breaking the project into two distinct phases with two separate contracts. The first phase would be a planning and design phase that would include the development of a detailed requirements document and a diagram of the system to be developed. The Phase I cost would be \$149,000 and begin in early January and end in mid-February.

Based on the work of the first phase, Tallan would refine their cost estimate and resubmit an estimated project cost. We will provide an update to the Legislative Council after receiving an estimate of the revised cost for the actual development and implementation work. We are hopeful that Tallan with the benefit of this in-depth analysis gathered during the first phase of the project will be able to reduce their overall project cost below their original bid.

It is also good practice when we get to the development and implementation phase of the project that we contract with a project manager to represent the Legislature's interest and make sure that the project is implemented as intended. We will be researching options and reporting back on this important supplement to in-house staff resources for the next phase of this project.

Thank you for your consideration of and support for this approach to implement this important and long-overdue information systems project. I would be happy to answer any questions that you may have.

PARAGRAPH 1A: DESCRIPTION OF THE AUTHORITY'S OPERATIONS

Loring Development Authority (LDA) is responsible for the redevelopment of the properties formerly comprising the Loring Air Force Base, for the purpose of creating new jobs and new economic activity following the base's closure. Accomplishing that mission requires LDA to manage the 3,700-acre business-commercial and industrial park including a 1,600-acre aviation complex; serve as landlord to leasehold businesses and supply municipal-type services to approximately 300 residents and to 26 businesses that collectively employ approximately 800 people and occupy 1 million square feet of space in numerous major buildings. LDA operates a water treatment plant, water distribution system, and a wastewater collection system; maintains and plows 26 miles of roadways; performs grounds maintenance on hundreds of acres of developed and developable property; and through arrangements with the Town of Limestone and others, secures fire, ambulance, and law enforcement services and contracts for wastewater treatment. The LDA works with prospective businesses to develop opportunities to reuse additional facilities and properties, create additional employment and economic activity both at Loring and in the broader region.

Employers at Loring represent industrial, manufacturing, agriculture, forestry, energy, telecommunications, commercial, back-office, education, recreation, conservation and aviation sectors. A profile of the employers at Loring, included in an addendum at the end of this report, illustrates the significant level and diversity of economic activity generated by the reuse of facilities at Loring Commerce Centre.

FISCAL YEAR 2017 ACCOMPLISHMENTS

**THE FOLLOWING SUMMARIZES THE LDA'S ACCOMPLISHMENTS FOR FISCAL YEAR 2017,
WHICH SUPPORT ITS PRIMARY MISSION OF JOB CREATION AND FACILITY ABSORPTION ON
LORING COMMERCE CENTRE.**

LORING INDUSTRIES, LLC. Loring Industries (LI), a company formed to facilitate new business activity at Loring in collaboration with the Maine Military Authority (MMA) and LDA in 2014, became privately owned in January 2017. Joseph Alosa Sr. of Concord, N.H is now the principal owner of Loring Industries. Also the owner of New England Kenworth (NEK), Mr. Alosa has extensive experience in the transportation industry, and has many contacts in that industry which will help tremendously in the growth and development of Loring Industries and its relationship to MMA. As a private entity, LI is able to pursue business opportunities with various partners, and can attract capital as any private enterprise might.

LI has attracted contracts for refurbishing buses and other vehicles including end-of-life bus overhauls, overhauls of coach buses and landfill compactors.

LI together with New England Kenworth opened a TRP truck parts outlet in building #7210. Loring Industries and New England Kenworth have hired twenty-four people.

LI also leases building #2501 the former Loring Inn and has invested in improvements. The building is used as guest quarters for business affiliates, but may be open to the public in the future.

MAINE MILITARY AUTHORITY. In addition to its capacity to rebuild military vehicles, MMA has developed a reputation for rebuilding transit buses. MMA's contract the Massachusetts Bay Transit Authority (MBTA), for the refurbishment of 32 articulating buses, proved to be challenging; however, after a work stoppage last fall, the MBTA bus project resumed in May and laid-off employees were recalled. More bus operators are seeing the financial benefits that result from a mid-life overhaul. MMA is working with Loring Industries to complete the MBTA project and both are pursuing future bus refurbishment projects.

AVIATION PROJECT. LDA is working with an established aviation company that has begun the process of establishing an aircraft maintenance, repair and overhaul (MRO) operation at Loring Commerce Centre. The company intends to occupy two buildings initially, the Arch Hangar and the former Jet Engine Shop, then lease other hangars and aviation facilities within the first two years.

After a binding letter of intent for the MRO project was approved, 34 truckloads of aviation equipment were shipped to Loring. Efforts to facilitate the establishment of the MRO operation at Loring, include repairs and upgrades to key facilities such as the Arch Hangar and Operations Building. A tail dock enclosure is proposed for installation at the Snow Barn Hangar at Loring so that it can accommodate larger aircraft.

Items remaining to be addressed include securing resources to upgrade facilities and acquire equipment needed for airfield operations; attracting and housing aviation mechanics and technicians; determining if the airport status should change from private to public and what support is available from the FAA.

The housing item is partially addressed by the sale of building #2500, the former Bas Officers Quarters at Loring, to the MRO company. The building was first sold in 2007 and later acquired by the town of Limestone for back taxes. The town was looking for a buyer.

AIRPORT MANAGER. LDA collaborated with the City of Presque Isle to secure the services of Scott Wardwell, the Airport Manager for the Northern Maine Regional Airport (KPQI) in Presque Isle. Mr. Wardwell assisted LDA with aviation matters in the past; his expertise in airport management is crucial to the development of the new aviation project.

RANGER SOLAR. On October 3, 2017, LDA and Ranger Solar, a grid-scale solar developer, executed a lease agreement for up to 996 acres of land at Loring for the development of a utility-scale solar energy project. The lease allows Ranger Solar to evaluate the best placement for solar equipment; at least 600 of the initial 996 acres are expected ultimately to be utilized for solar energy production. Locating the project at Loring makes use of its large tracts of open, previously developed land and existing electrical infrastructure. The project is compatible with future development including aviation uses. The 100 megawatt solar energy facility will be the largest in the state of Maine and the New England region. Construction is expected to begin in 2019, creating about 300 one to two-year construction jobs. The project, once built and

operational, will support several permanent jobs. Ranger Solar would be the project developer, but would then sell the project to one or more operators.

LORING HOLDINGS, LLC. Loring Holdings continues to work on a project called Maine Power Express, which involves the construction of a DC power converter plant with a transmission line in the Searsport pipeline right-of-way and underwater to southern New England. The Maine Power Express project would bring renewable energy from northern Maine and Canada to southern New England. If built, the LDA would be compensated for the additional uses of the pipeline corridor under a New Facilities Payment Agreement.

STRAIGHT LINE FENCING. The former laundry facility, building #7330, is now being leased to the owners of a fence manufacturing and installation company. The lease agreement includes an option to purchase the building and an expectation that the building will be improved during the ten-year lease term so that it can serve as a manufacturing facility.

RESIDENTIAL OPERATIONS. Having acquired the residential properties at Loring, LDA operated the apartment rental business while seeking a new operator. In February 2016, the residential properties were leased to a private party operating under the name Inland Winds Property Management. The first year of operations for the new managers was a successful one; improvements have been made and new tenants have moved in. Housing availability is important to larger business prospects, who have indicated a need for on-premises housing for a portion of their workforce.

GOLF OPERATIONS. The Limestone Country Club was open for business again during the summer of 2017. Having engaged the help of dedicated volunteers and experienced employees, the business has made good progress. It continues to represent a valuable amenity for Loring and the larger community.

LORING MILITARY HERITAGE CENTER (LMHC). The LMHC, a museum showcasing Loring's military history, hosted another very successful open house. The events bring many people from around the world to Loring. The highlight of the reunion, fly-bys of a KC-135 tanker and a B-52, were a fitting tribute to the many service members who served at Loring.

LAND SPEED RACING. Loring Timing Association (LTA) continues to host land speed racing events at Loring, making use of the 12,100 foot runway. The events bring people from many places to the community and has exposed Loring's facilities and airfield to companies interested in automotive product testing, research and development.

AUTOCROSS EVENT. Cumberland Motor Club Inc. continues to hold autocross precision driving events at Loring. The events consist of automobiles, including high performance cars, being operated within a defined course. Although the race events do not attract huge crowds they do bring visitors to the area who provide increased traffic to restaurants, hotels and other businesses.

AROOSTOOK BAND OF MICMACS. LDA has had discussions with All Nations Global Solutions regarding opportunities for Loring businesses to partner with All Nations. The organization carries out economic development projects for the benefit of the Aroostook Band of Micmacs (ABM). It qualifies for super 8-A status when competing for federal procurements and can partner with private industry to carry out contracts.

PROSPECTS. Active prospects include various types of businesses including manufacturing, data services and technology companies and warehousing. Prospects have cited the quality and of the labor force as a central reason for their interest in the area. The availability of unique or specialized facilities at Loring is another attraction for companies.

WATER SUPPLY SYSTEM UPGRADES PHASES 1, 2 AND 3. LDA and the Air Force entered into a Memorandum of Agreement, which included a payment to LDA of \$1.5 million for upgrades to the water treatment plant and distribution system. The MOA and payment addresses the Air Force's responsibility to provide potable water to Loring, where groundwater contamination prevents the use of wells. The funding matched a \$1,132,000 grant from the Economic Development Administration (EDA) and a \$2,264,000 infrastructure improvement project was completed last year. This year, Phase 3 of the water system improvement project was completed. Systems were installed to address disinfection byproducts in the water supply system as required by current drinking water standards. The \$1.1 million project was funded by a \$507,780 loan from the Drinking Water State Revolving Loan Fund and by part of a \$1 million Community Development Block Grant (CDBG). About \$200,000 of the loan is forgiven; addition financial assistance from the Air Force helped to secure the loan. The CDBG was secured with the help of the Town of Limestone. (The balance of the CDBG, approximately \$336,000, will fund additional sewer rehabilitation at Loring.)

Completion of the water system upgrades brought Loring's water system in compliance with the regulatory standards for trihalomethanes (TTHM's). The water system continues to meet all other regulatory standards.

INFLOW AND INFILTRATION (I/I) REDUCTION AT LORING COMMERCE CENTRE. Reduction of the I/I of ground and surface water in Loring's wastewater collection systems is an ongoing project. Upgrades to the system to date total approximately \$2.6 million. Construction work for a \$336,000 project is expected to be completed in October and November 2017. The work includes replacing worn collection lines and manholes, and abandoning a section of the collection system, redirecting it with a new line. The project is designed to achieve maximum I & I reduction with the available funding.

MAPPING PROJECT FOR WATER INFRASTRUCTURE. Begin this fall, two University of Maine at Presque Isle students will work on a Geographic Information System (GIS) mapping project for LDA, mapping water distribution infrastructure. Hydrant locations will be mapped first. The students are working under the guidance of Professor Chunzeng Wang.

FIRE AND AMBULANCE. Crown Ambulance continues to supply a two-person crew for ambulance service at Loring and all of Limestone, and Caswell. The ambulance crew is housed at the Loring Fire Station and has access to Loring's fire truck and associated equipment. Fire response falls under the authority of the Limestone Fire Department. The ambulance crew may be called upon occasionally to do long distance transports and when that happens, coverage will be by the crew based in Fort Fairfield.

CODES ENFORCEMENT OFFICER. LDA and the City of Presque Isle renewed the agreement by which LDA obtains the services of George Howe, Codes Enforcement Officer for the city, on an as-needed basis.

AIR FORCE ENVIRONMENTAL BRIEFING ON PFCs OR "PERFLUORINATED COMPOUNDS. In 2009, EPA issued a Preliminary Health Advisory for two compounds, PFOS and PFOA,

recommending provisional drinking water standards for two specific PFCs (PFOS & PFOA). PFCs are a group of manmade chemicals that had been used for a wide variety of products including food grade uses such as Teflon and fast food wrappers. PFCs were found in firefighting foams used after 1970 and the Air Force has identified PFCs in groundwater at Loring's former fire training area. This has been the case with many closed bases. The Air Force began to assess other potential PFC sites at Loring during 2016. Because the drinking water supply does not come from wells, any PFC sites identified will have minimal or no impact on Loring's redevelopment.

POSSIBLE AMENDMENT BY AIR FORCE OF OU 12 RECORD OF DECISION. The Air Force is now monitoring for potential soil vapor intrusion (SVI) whereby contaminants in the soil or groundwater become vaporized and find their way through a floor slab and into a building. An amendment of the OU 12 (Groundwater) Record of Decision would create use restrictions for several Loring buildings, thereby preventing residential, school or day care use. The amendment would have minimal impact on LDA reuse activity since the buildings in question are industrial buildings with good air exchange. LDA anticipates that routine testing of work spaces in suspect buildings will take place.

MARKETING EFFORTS

WEBSITE. Loring.org was designed to provide downloadable data for available facilities, up-to-date information, ease in making in-house changes and an efficient delivery of board meeting documents. LDA regularly responds to inquiries submitted through the website.

PROMOTING LORING

Loring's facilities, attributes and contact information are available on numerous business development websites such as The Maine Chamber, The Yellow Pages online, www.aviationacres.com and other aviation interests.

Following a request for proposals to provide real estate services, the LDA signed an Exclusive Right to Sell Listing Agreement with Re/Max Central to provide Sales Agent services and exposure on the Multiple Listing Service for designated Loring properties. The goal is to promote Loring properties, for sale or lease, to the widest possible audience. For properties not specifically listed, LDA maintains an "Open Listing" and encourages all real estate brokers to bring prospective purchasers or commercial lessees to Loring.

PUBLIC OUTREACH

STAKEHOLDER AND BUSINESS DEVELOPMENT MEETINGS. The LDA President & CEO regularly leads tours and presents Loring's buildings and assets to potential tenants and visitors. He also promotes Loring and northern Maine when participating in speaking engagements and meetings regionally and state-wide.

PUBLIC BOARDS AND AFFILIATIONS. The LDA President & CEO serves in a voluntary capacity on regional and state-wide Boards, networking within various communities and acquainting people with Loring Commerce Centre, the State of Maine's largest industrial, business and aviation complex.

OTHER ACTIVITIES & EFFORTS

LDA ADVISORY GROUP. LDA Trustees established an Advisory Group for LDA. The function of the group is to work with the LDA President to generate and develop new ideas and proposals for the use of Loring's assets. Members would be volunteers; there would be no cost to LDA. Board member Dana Saucier was appointed to serve as the Board's designee; other trustees are to inform Mr. Saucier of their interest in working with the advisory group. The LDA board chair will also serve ex-officio.

AROOSTOOK PARTNERSHIP. LDA's President & CEO serves on the Board of Directors of Aroostook Partnership. Aroostook Partnership represents many economic development interests ranging from numerous private sector businesses and non-profits as well as public sector entities like Northern Maine Development Commission, the University and Community College, and the LDA.

TECHNOLOGY AND INNOVATION WORKING GROUP. Representatives of Maine School of Science and Math (MSSM), Aroostook Partnership, and LDA held a series of discussion on identifying and making use of regional assets and new technology. Assets at Loring such as the Three-Ring Binder and the Loring Applied Technology Center are part of the discussion. Another tremendous asset in the county is MSSM. The group is working to build relationships with MSSM students and alumni in an effort to prepare for and take advantage of quickly changing technology as outlined in an eye-opening presentation called the "Speed of Change".

ENERGY GROUP. The Aroostook Energy Association is a new organization whose members are large energy users in the county. LDA has been invited to participate and to represent the interests of Loring's large electric users. According to Miles Williams, LDA Trustee and now Board Chair, there were about 30 members in the association in February 2017. The association intends to work with Emera in the hope of securing the best possible energy rates for both supply and transmission.

MITC FORUM. Having attended at an international business forum hosted by the Maine International Trade Center, LDA representatives learned that the number of jobs in Maine dependent on international trade increased considerably as the economy recovered from the recession. They also learn that the results of a recent Gallop poll showed that Maine residents were among the most satisfied with their state and least likely to want to move away. Evidence of people wanting to stay in Maine is the level of underemployment in the state. People often take jobs that don't fully utilize their skills so that they can live in Maine. Aroostook County is no exception; underemployment is a chronic problem in the county. Maine's stable, skilled workforce is a great asset for attracting new businesses to the state.

KEEPING INFORMED. When relevant to the LDA's activities, LDA staff members actively participate in community and state economic development efforts, serving on various boards, attending workshops, development forums and trainings, keeping abreast of programs and other opportunities available to businesses.

LDA FUNDING

STATE OF MAINE. LDA used to receive annual grants of up to \$326,000 through the DECD budget. The routine annual appropriations ceased after the FY 2011 budget year. LDA seeks

assistance through grants available through the Maine Department of Economic and Community Development including CDBG grants accessed through the Town of Limestone. All LDA funding supports the reuse of the former military facilities including newly developing projects.

TAX INCREMENT FINANCING FUND. The Loring Tax Increment Financing (TIF) Program allows the LDA to receive 50% of the Maine State Income Tax withheld from incremental jobs created at the Loring Commerce Centre. LD 1670, An Act to Attract Investment to Loring Commerce Centre, provided additional funding for one year; funding received for fiscal year 2017 was increased to 100%. Contributions to this fund for fiscal year 2017 totaled \$1,326,853. These funds are used to fund municipal service costs and maintenance of public infrastructure.

PROPERTY SALE, LEASE, MUNICIPAL SERVICES AND MISCELLANEOUS REVENUES. During fiscal year 2017, the LDA received revenues from its tenants, from the sale of land and personal property and from miscellaneous revenues in the amount of \$1,340,442.

MACHIAS SAVINGS BANK. LDA's \$1,250,000 line of credit from Machias Savings Bank was increased to \$1.5 million. The line assists in the management of cash flow. At the end of FY 2017, funds advanced under the line of credit totaled \$1,436,000.

MACHIAS SAVINGS BANK. LDA secured a \$65,000 short-term bank loan in May to assist with year-end cash flow; the loan is due in full in July 2017. (Subsequent Note: the loan was paid in full in July 2017).

CDBG GRANT. A \$1 million Department of Economic and Community Development Community Development Block Grant was awarded to the Town of Limestone on behalf of the LDA in July 2015. The grant assisted with water treatment system upgrades needed to achieve Disinfection By-Product (DBP) removal in the water supply system. It is also being used to upgrade a portion of the existing wastewater collection system to reduce the inflow and infiltration of ground and surface water in the system.

MAINE DRINKING WATER STATE REVOLVING FUND (DWSRF). LDA worked with the Maine Bond Bank to close on a \$507,780 DWSRF loan. A portion of the loan, 40%, is forgiven; the remaining 60% or \$304,668 will be repaid over 30 years. The DWSRF funds were used to match the CDBG grant and were used on the water treatment system improvement project.

U.S. AIR FORCE FUNDING LDA received \$300,000 from the Air Force in 2016 for work on the water supply system at Loring. The funding assures the LDA will be able to repay the loan portion of the DWSRF funding through the Maine Municipal Bond Bank. It supplements the \$1.5 million provided by the Air Force in 2009 to complete the work required to continue to supply water to the former Loring Air Force Base tenants.

LD 1643. LD 1643, An Act To Provide Funding to the Loring Development Authority of Maine, was approved in June 2017. It provides \$1.5 million for grants to the LDA from the Department of Economic and Community Development (DECD). Upon the recommendation of the Commissioner of DECD and the approval of the Governor, LDA will receive \$750,000 in both fiscal year 2018 and 2019. The funding will support new business development at Loring.

**PARAGRAPH 1B: AUDITED FINANCIAL STATEMENTS FOR
FISCAL YEAR 2017**

The attached Independent Auditor's Report was approved by the Loring Development Authority Board of Trustees on October 11, 2017.
