SUMMARY

Beginning in fiscal year 2019-20 for early adopters and over a 5-year implementation
phase-in beginning in fiscal year 2020-21 for other school administrative units, this bill
moves responsibility for providing special education and related services for children
who are at least 3 years of age and under 6 years of age from the Department of
Education, Child Development Services System, the state intermediate educational unit,
to the school administrative units of residence of the children.
This bill eliminates the Child Development Services System and moves the entire responsibility for providing services to children from birth to under 3 years of age to the Department of Education's office of special services. The funding plan continues the present arrangement of full responsibility for costs being shared among state funds, federal funds, the MaineCare program and private insurers.

The changes provide fewer transition points, create efficiencies, eliminate duplicate state functions and maximize existing services and facilities at the local level. The State continues its current practice of funding all services for preschool children with disabilities that are not paid for with federal funds, MaineCare funds or private funds.
