

# OFPR Caseload Review FINAL SFY 2020

## MaineCare Caseload

MaineCare caseload data for FY 2020 released by the Department of Health and Human Services, Office of MaineCare Services (OMS) show aggregate MaineCare caseload continued to decrease until January of 2019, when Medicaid Expansion began. In the 4th quarter, the caseload increased by 17,320 or an average of around 5,773 members a month. These increases are considerably higher than the previous 6 months (Sept – Feb), which were increasing at a level of 1,600 members a month. This increase is likely related to additional new members entering the program due to COVID-19. Over the last 12 months MaineCare caseload has increased by 36,640 persons (12.95 %), or around 3,050 persons per month.

MaineCare Caseload Chart 1 shows OMS caseload data over time, while MaineCare Caseload Table 1 shows the caseload summary over that period. MaineCare Caseload Chart 2 shows OMS caseload data by membership group over the last 6 months, while MaineCare Caseload Table 2 shows the caseload detail with membership categories, membership groups and age categories over the last 6 months. MaineCare Expansion totals are broken out on all the charts and tables below.
