**BY GOVERNOR  
ORDERED,**

That the State Controller increase allotment in account 022-18B-0155-02, Information Services, by \$1,506,971 in the All Other line category to fund security upgrades; and,

Be it further ordered,

that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2021", for which this shall be our sufficient warrant.

**Statement of Fact**

This financial order increases allotment in the Information Services Coronavirus Relief Fund account to fund security upgrades necessary to address the increased number of employees working remotely as a result of COVID-19. The Office of Information Technology (OIT) is responsible for providing IT security for the State of Maine. In order to deal with the increase of teleworking, these products are needed to provide additional security due to increased threats. These funds will purchase two products that work in conjunction with each other to ensure State of Maine employees, devices, and information are secured and protected regardless of what location users are working from. This purchase was a decisive measure to secure the IT remote infrastructure and respond appropriately to the evolving and expanding threat environment. Funding is provided by the Coronavirus Aid, Relief and Economic Security (CARES) Act.

**Statement of Fact**

In order to meet CDC guidelines, many school boards across Maine are making challenging decisions regarding how they will re-open to ensure the health and safety of students, educators and staff. Hybrid learning models throughout the state vary depending on local decisions made by school boards. The utilization of a hybrid learning model requires students to engage in both in-person and virtual instruction. For many working parents statewide, securing alternative care for their children during the remote portion of their instruction is vital to their ability to activity re-engage in the workforce. This financial order establishes allotment in the Day Programming for School Age Children account to support school administrative units as they work to propose alternative support and care for students during planned remote learning periods. Funds will be used for facility costs, staffing, meals, technology infrastructure, transportation services, supplies and materials, and health and safety supplies. Funding is provided by the Coronavirus Aid, Relief and Economic Security (CARES) Act.
