BY GOVERNOR
ORDERED,

That the State Controller increase allotment in account 014-13A-0258-16, Marine Science, Management, and Enforcement Fund, by \$28,941 in the All Other line category for the purpose of allotting a portion of the unencumbered balance forward to purchase sound detection monitors, inReach satellite technology, and uniforms; and,

Be it further ordered,
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2022", for which this shall be our sufficient warrant.

Statement of Fact

This financial order allots a portion of the unencumbered balance forward for contractual research and design services, to purchase sound detection monitors, Garmin inReach satellite technology, and uniforms for the Bureau of Marine Patrol (BMP). BMP is acquiring a new vessel with a Tier 4 diesel engine. Tier 4 diesel technology reduces emissions of particulate matter and oxides of nitrogen to near zero levels but requires exhaust temperatures that pose a challenge aboard a fiberglass lobster boat. BMP will contract with the vessel manufacturer to design the Tier 4 technology safely into the future vessel build. This order also funds sound detection monitors that will allow BMP to measure sound levels to evaluate and enforce noise limitations on watercraft and airboats. Garmin inReach satellite technology will be used on the larger BMP vessels for two-way communication and location services in areas without cell service. These funds are received from the sale of items or articles forfeited resulting from a violation of law relating to a particular species. Failure to allot these funds will have a detrimental impact to the BMP's enforcement and public safety efforts.
