CHAPTER 33-A

MICROGRIDS

§3351. Microgrids

1. Definitions. As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

A. "Distributed energy resources" means small-scale electrical generation sources located close to where the generated electricity is used, energy storage resources, energy efficiency resources or demand response resources.

B. "New microgrid" means a group of interconnected loads and distributed energy resources within clearly defined electrical boundaries that acts as a single controllable entity with respect to the electric grid and can connect and disconnect from the electric grid to enable the new microgrid to operate in both electric grid-connected mode and nongrid-connected mode, referred to in this chapter as "island mode," and that is constructed after October 1, 2020.

2. Microgrids, public utility exception. Notwithstanding section 2102 or any other provision of this

Title to the contrary, a person that constructs, maintains or operates a new microgrid approved under subsection 3 does not, solely as a result of furnishing service through that new microgrid to participating consumers, become a public utility and is not subject to regulation as a public utility under this Title.

3. Commission approval; requirements. A person may not construct or operate a new microgrid without commission approval in accordance with this subsection.

A. The commission shall approve a petition to construct and operate a new microgrid if the commission finds that operation of the new microgrid is in the public interest and the new microgrid meets at least the following requirements:

(1) The proposed new microgrid will serve a total load of no more than 10 megawatts, except that the commission may approve no more than 2 new microgrids that each serve a load greater than 10 megawatts but no more than 25 megawatts;

(2) The proposed new microgrid is located in the service territory of a transmission and distribution utility with more than 50,000 customers;

(3) The distributed energy resources for the new microgrid meet the applicable portfolio requirements in section 3210, subsections 3, 3-A, 3-B and 3-C;

(4) Any distributed energy resources constructed after the effective date of this subsection for the new microgrid are a renewable capacity resource as defined in section 3210, subsection 2, paragraph B-3 or a renewable resource as defined in section 3210, subsection 2, paragraph C;

(5) The person proposing the new microgrid demonstrates that the person has secured the financial capacity to operate the proposed new microgrid;

(6) The person proposing the new microgrid demonstrates that the person has secured the technical capability to operate the proposed new microgrid;

(7) There is a contractual relationship between the proposed new microgrid operator and consumers within the area to be served by the proposed new microgrid; and

(8) The proposed new microgrid will not negatively affect the reliability and security of the electric grid.

For the purposes of this paragraph, when determining whether a proposed new microgrid is in the

public interest, the commission shall consider possible ratepayer effects, whether positive or negative; benefits due to the increased resilience or reliability of the electric grid; economic development benefits; and any other factors the commission considers necessary to promote the public interest.

B. As a condition of approval of a new microgrid, the commission shall:

(1) Require that any increase in costs to the electric transmission and distribution system in the State as a result of the new microgrid must be fully recovered from the person approved under this subsection to construct, maintain or operate the new microgrid and customers of the microgrid and may not be passed on to other electric ratepayers; and

(2) Impose any other terms, conditions or requirements on the construction, maintenance or operation of the new microgrid as, in its judgment, it considers necessary, which may include but are not limited to parameters regarding the ability of the new microgrid to enter island mode, as defined by the commission by rule, and the operation of the new microgrid in grid-connected mode and island mode.

4. Commission oversight; grid protections; consumer protections. A new microgrid approved in accordance with subsection 3 is subject to commission oversight to ensure reliability and security of the electric grid and consumer protections for customers of the new microgrid.

5. Services. Services provided by a new microgrid may include, but are not limited to:

A. Standby electric service, as defined by the commission by rule, when the new microgrid is operating in island mode; and

B. Selling electricity as a competitive electricity provider when the new microgrid is operating in grid-connected mode.

6. Rulemaking. The commission may adopt rules to implement this section. Rules adopted under this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A.

Sec. 6. Report. The Public Utilities Commission shall submit a report by January 7, 2023 to the joint standing committee of the Legislature having jurisdiction over energy and utility matters detailing its activities related to new microgrids as defined in the Maine Revised Statutes, Title 35-A, section 3351, subsection 1, paragraph B, including whether any new microgrids have been approved under Title 35-A, section 3351. The report must also include any recommendations for legislation that may be necessary to clarify or enhance the law regarding new microgrids. The committee may

report out a bill to the First Regular Session of the 131st Legislature based on the report.

Sec. 7. Precedent established by Public Utilities Commission. The provisions of this Act may not be interpreted to modify or nullify the analytical framework and precedent for analyzing whether an entity is a transmission and distribution utility or a competitive electricity provider established by the Public Utilities Commission in opinions and orders issued prior to the effective date of this Act, including, but not limited to, opinions and orders issued under Docket Number 2000-653, Request for Commission Investigation Regarding the Plans of Boralex Stratton Energy, Inc. to Provide Electric Service Directly from Stratton Lumber Company and Docket Number 2011-200, ReEnergy Rumford, LLC, Request for Advisory Ruling.

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Law enforcement officer" or "officer" has the same meaning as in Title 25, section 2801-A, subsection 5.

B. "No-knock warrant" means a warrant that authorizes execution of the warrant without the law enforcement officer first announcing the authority for the execution of the warrant and the purpose for which the warrant was issued. **An Act To Regulate Insurance
Carrier Practice or Facility-
wide Prepayment Review**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRSA §4303, sub-§24 is enacted to read:

24. Practice or facility-wide prepayment review of providers. A practice or facility-wide prepayment review of the documentation or records of a provider conducted by a carrier for the purposes of identifying fraud, waste or abuse, determining whether the documentation is appropriate or adequate to support a claim for covered health care services or determining whether health care services are or were medically necessary

health care as a condition of payment must be conducted in accordance with the following requirements.

A. When a carrier subjects a provider or facility to a practice or facility-wide prepayment review, the carrier shall provide a process to allow claims and documentation to be submitted to the carrier electronically for purposes of proving timely filing and tracking the carrier's compliance with time limits in other applicable laws.

B. Claims subject to a practice or facility-wide prepayment review must be paid or disputed within 30 days as required by section 2436. Any claim that is not disputed pursuant to section 2436 or paid within 30 days by the carrier is overdue and subject to interest in accordance with section 2436.

C. Any records of an enrollee reviewed as part of a practice or facility-wide prepayment review must be reviewed by the same reviewer to the extent possible. The reviewer who performs the practice or facility-wide prepayment review is the primary contact person for the provider related to an audit, review, denial or nonpayment of a claim. Any practice or facility-wide prepayment review that involves clinical or professional judgement must be conducted by or in consultation with a clinical peer.

D. A carrier may not apply additional or different documentation standards beyond the standards set by the professional association of the provider subject to practice or facility-wide prepayment review if those standards are publicly available or made available to the carrier. This paragraph does not prohibit carriers from establishing or applying medical policies or clinical guidelines to determine whether a service is a covered benefit and medically necessary health care. This paragraph does not apply to claims submitted by a hospital or other health care facility.

E. A carrier may not deny payment of a claim for covered health care services by a provider solely on the basis of a minor documentation error or omission, including, but not limited to, misspelling, use of an abbreviation or a correctable error, unless the carrier affords the provider or enrollee the opportunity to resubmit the claim to correct the identified error.

F. If a carrier requires additional information as part of a practice or facility-wide prepayment review of a claim for covered health care services by a provider, the carrier shall inform the provider with reasonable specificity of the information needed by the carrier to adjudicate the claim.

G. Additional information required by a carrier is considered timely filed by the provider if submitted within 30 days from the date the provider received notice from the carrier of the errors, omissions or additional information needed.

H. A carrier shall provide information on how a provider may appeal the denial of a claim, including the mailing or e-mail address or fax number where an appeal should be sent, on its publicly accessible website or in a provider manual.

I. A carrier shall provide an opportunity to appeal the results of an audit leading to the provider being put on a practice or facility-wide prepayment review.

J. A carrier may not audit a provider or require that a provider's claims be subject to practice or facility-wide prepayment review as retribution for raising contract disputes.

For the purposes of this subsection, "practice or facility-wide prepayment review" means a manual review or audit process of all, or substantially all, of a provider's claims by a carrier or the carrier's agent.

Sec. 2. Application. This Act applies to any claim that has been subjected to practice or facility-wide prepayment review as described in the Maine Revised Statutes, Title 24-A, section 4303, subsection 24 that has not yet been resolved as of the effective date of this Act and to any claim submitted by a provider on or after the effective date of this Act.

If items other than returned absentee ballots are deposited in the secured drop box during the absentee voting period, the municipal clerk or designees shall deliver those items to the appropriate municipal official.

8. Periodic retrieval of ballots. During the absentee voting period, the municipal clerk or a team of 2 people designated by the clerk shall periodically remove absentee ballots from each secured drop box and deliver the absentee ballots to the clerk's office to

The clerk must also indicate on the list

when the absentee voter is a uniformed service voter, overseas voter or township voter. By the time that all absentee ballots have been processed on election day, the clerk must update the central voter registration system or annotate the printed list of absentee voters to reflect all ballots that were received by the close of the polls on election day, including a notation of whether the ballots were accepted, accepted but challenged or rejected and the reasons for such rejections. This list, reflecting all absentee ballots received by the close of the polls, must be made available for public inspection. Any absentee voter certified as a participant in the Address Confidentiality Program pursuant to Title 5, section 90-B must be listed by the voter code assigned to that individual under the program instead of by the voter's name and reflect the Address Confidentiality Program address assigned to the voter. The method of voting is otherwise as prescribed in this article. After the person has voted, the clerk shall sign the affidavit on the return envelope as a witness, indicate on the envelope that the voter voted in the presence of a clerk and ensure that the affidavit on the return envelope is properly completed by the voter. For the 45 days preceding an election, during the hours when the clerk's office is open and may be conducting absentee voting, the display or distribution of any advertising material intended to influence a voter's decision regarding a candidate or question on the ballot for that election is prohibited within the clerk's office and on public property within 250 feet of the entrance to the building in which the clerk's office is located.

This subsection does not apply to the display or distribution of any campaign advertising material on private property that is within 250 feet of the entrance to the building in which the clerk's office is located. For purposes of this section, "private property" includes privately owned property subject to a public right-of-way that is an easement right-of-way.

This subsection does not apply to campaign advertising material on automobiles traveling to and from the municipal office or parked on municipal property while the occupants are visiting the municipal office to conduct municipal business. It does not prohibit a person who is at the municipal office for the purpose of conducting municipal business or for absentee voting from wearing a campaign button when the longest dimension of the button does not exceed 3 inches.

2. Clerk to examine signatures and affidavit.

The clerk shall compare the signature of the voter on the application, ~~where~~ when required, with that on the corresponding return envelope. The clerk shall also examine the affidavit and witness certification, if any, on the return envelope. ~~If the signatures appear to have been made by the same person and if the affidavit is properly completed, the clerk shall write "OK" and the clerk's initials on the return envelope. Otherwise, the clerk shall note any discrepancy on the return envelope.~~

A. If the signatures appear to have been made by the same person and if the affidavit and witness certification are properly completed, when required, the clerk shall write "OK" and the clerk's initials on the return envelope. If the affidavit and witness certification are properly completed, when required, and the signatures do not appear to have been made by the same person, but this discrepancy is apparently the result of the voter's having properly obtained assistance under either section 753-A, subsection 5, or section 754-A, subsection 3, or both, then the clerk shall note the discrepancy on the return envelope, but shall also write "OK" and the clerk's initials on the return envelope.

B. If the voter provided a telephone number or e-mail address with the voter's absentee ballot application and if the clerk determines that there is a discrepancy in the signature on the return envelope that is not described in paragraph A, that the return envelope is missing a signature or that the affidavit or witness certification on the return envelope is not properly completed, the clerk shall notify the voter pursuant to section 756-A of the process by which the voter may cure the defect with the return envelope.

(1) If the defect is corrected under the procedures in section 756-A prior to the deadline for returning absentee ballots under section 755, the clerk shall initial the return envelope, indicate whether the ballot is accepted or accepted but challenged as provided in section 756-A and, if the ballot is challenged, indicate the basis for the challenge.

(2) If the defect is not corrected under the procedures in section 756-A prior to the deadline for returning absentee ballots under section 755, the clerk shall initial the return envelope and indicate that the ballot is accepted but challenged or rejected as provided in section 756-A and the basis for rejecting or challenging the ballot.

C. If the voter did not provide a telephone number or e-mail address with the voter's absentee ballot application and if the clerk determines that there is a discrepancy in the signature on the return envelope that is not described in paragraph A, the clerk shall initial the return envelope and indicate that the ballot is accepted but challenged under section 673, subsection 1 and indicate the basis for the challenge. The clerk is not required to conduct a hearing described in section 673, subsection 7 when a clerk accepts but challenges an absentee ballot under this paragraph. If the voter did not provide a telephone number or e-mail address with the voter's absentee ballot application and if the clerk determines that the return envelope is missing a signature or that the affidavit or witness certification on the return envelope is not properly completed, the clerk shall initial the return envelope and indicate that the ballot is rejected and the basis for rejecting the ballot.

Sec. 23. 21-A MRS §756-A is enacted to read:

§756-A. Procedures for curing absentee ballot return envelope defects

1. Notice to voters. If the clerk determines that there is a defect on the absentee ballot return envelope described in section 756, subsection 2, paragraph B and the absentee voter provided a telephone number or e-mail address with the voter's absentee ballot application, the clerk shall notify the voter of the defect and explain that the ballot may be rejected or challenged unless the defect is cured as provided in this section. The clerk must notify the voter within one business day of receiving the absentee ballot, unless the absentee ballot is received on election day or less than 24 hours before election day, in which case the clerk shall make a good faith effort to notify the voter as quickly as possible. Notification must be made by telephone if the absentee voter provided a telephone number on the voter's absentee ballot application. If the clerk attempts to notify the voter by telephone but does not speak directly with the voter, the clerk shall leave a voice mail message if available and shall notify the voter by e-mail, using the e-mail address provided on the absentee ballot application, if any. If the voter did not provide a telephone number on the absentee ballot application, the clerk shall notify the voter by e-mail, using the e-mail address provided on the absentee ballot application, if any.

2. Mismatched voter signatures. If the voter's signature on the return envelope does not appear to have been made by the same person who signed the absentee voter application and this discrepancy does not appear to be the result of the voter's having properly obtained assistance under either section 753-A, subsection 5 or section 754-A, subsection 3, or both, the following procedures apply.

A. The voter may cure the defect in person or by telephone by self-identifying by name, date of birth and residence address and confirming that the voter requested an absentee ballot, the voter or the voter's aide under section 754-A, subsection 3 placed the absentee ballot in the return envelope and the voter personally signed the return envelope. If the voter confirms this information in person or by telephone before the deadline for returning absentee ballots under section 755, the clerk shall accept the ballot without challenge and make a notation on the return envelope that the voter confirmed by telephone that the voter personally signed the return envelope.

B. If the voter does not cure the defect under the procedure in paragraph A before the deadline for returning absentee ballots under section 755, the clerk shall accept the ballot but challenge it pursuant to section 673, subsection 1.

3. Missing voter signature. If the voter's signature does not appear on the return envelope, the following procedures apply.

A. The voter may cure the defect in person at the clerk's office by self-identifying by name, date of birth and residence address and either signing the original return envelope or removing the absentee ballot from the original return envelope, inspecting the absentee ballot, sealing the absentee ballot in a new return envelope and signing the new return envelope. If the voter cures the defect as provided in this paragraph before the deadline for returning absentee ballots under section 755, the clerk shall accept the absentee ballot without challenge.

B. The voter may cure the defect by telephone by self-identifying by name, date of birth and residence address and confirming that the voter requested an absentee ballot and the voter or the voter's aide under section 754-A, subsection 3 placed the absentee ballot in the return envelope. If the voter confirms this information, by telephone, before the deadline for returning absentee ballots under section 755, the clerk shall accept the ballot but challenge it pursuant to section 673, subsection 1.

C. If the voter does not cure the defect under the procedures in paragraph A or B before the deadline for returning absentee ballots under section 755,

the clerk shall reject the ballot in accordance with section 759, subsection 3.

4. Aide or witness certification incomplete. If an aide-executed affidavit or aide or witness certification on a return envelope that is required under section 754-A, subsection 1, paragraph C, subsection 2, paragraph C or subsection 3, paragraph E is unsigned, incomplete or improperly completed, the following procedures apply.

A. The voter may contact the voter's aide or witness and request that the aide or witness cure the defect by appearing in person at the clerk's office and properly completing the affidavit or witness certification. If the aide or witness corrects the affidavit or witness certification as provided in this paragraph before the deadline for returning absentee ballots under section 755, the clerk shall accept the absentee ballot without challenge.

B. The voter may cure the defect by telephone by self-identifying by name, date of birth and residence address, confirming that the voter requested an absentee ballot and explaining whether a 3rd person other than the voter's immediate family member delivered or returned the absentee ballot or whether the voter received the assistance of an aide as described in section 754-A, subsection 3 in reading, marking or placing the ballot in the return envelope. If the voter provides the information required by this paragraph, by telephone, before the deadline for returning absentee ballots under section 755, the clerk shall accept the ballot but challenge it pursuant to section 673, subsection 1.

C. If the voter does not cure the defect under the procedures in paragraph A or B before the deadline for returning absentee ballots under section 755, the clerk shall reject the ballot in accordance with section 759, subsection 3.

5. Duplicate ballot. Notwithstanding section 753-B, subsection 4, a voter who receives notification of a defect on the voter's absentee ballot return envelope under subsection 1 may, instead of curing the defect pursuant to subsections 2 to 4, request that the clerk issue a 2nd absentee ballot to the voter. If a request for a 2nd absentee ballot is made under this subsection, the following procedures apply.

A. The clerk shall reject the first absentee ballot in accordance with section 759, subsection 3.

B. The clerk shall write "second ballot issued" on the 2nd absentee ballot return envelope and include with the 2nd absentee ballot written instructions for signing and completing the affidavit and witness certification on the return envelope and a written notice identifying the problem with the voter's first absentee ballot return envelope.

C. The voter may request that the clerk issue the 2nd absentee ballot to the voter in person at the clerk's office; by mail to the address listed on the original absentee ballot application or on a new written absentee ballot application submitted by the voter; or to an immediate family member or a 3rd person listed on the original absentee ballot application or on a new written absentee ballot application submitted by the voter. If the voter does not indicate a preferred method for issuing the 2nd absentee ballot, the clerk shall issue the 2nd absentee ballot by mail to the address listed on the original absentee ballot application.

6. Challenged ballots; hearing not required. The clerk is not required to conduct the hearing described in section 673, subsection 7 when a clerk accepts but challenges an absentee ballot under this section.

Sec. 24. 21-A MRSA §759, sub-§2, as amended by PL 2007, c. 455, §42, is further amended to read:

2. Accepted if correct. If the warden finds that the affidavit ~~is~~ and the aide and witness certification, if required, are properly completed, that the clerk has verified that the signature on the envelope matches the signature on the application ~~where~~ or that the voter confirmed that the voter personally signed the return envelope pursuant to section 756-A, subsection 2 when applicable, that the person voter is registered and enrolled where when necessary, the warden shall then examine the incoming voting list to determine whether the voter voted in person at the election. The warden shall then announce the name of each absentee voter who has not voted at the election and remove each ballot from its envelope without destroying the envelope or unfolding the ballot. After having an election clerk from a political party different from that of the warden mark the letters "AV" beside the name of each absentee voter on the incoming voting lists and place a check mark or horizontal line in red ink on the list beside the voter's name, the warden shall accept the ballot.

Sec. 25. 21-A MRSA §759, sub-§3, ¶A, as amended by PL 1999, c. 645, §9, is repealed.

In registering to provide interstate ~~telemedicine telehealth~~ services to residents of this State under this section, a physician agrees to be subject to the laws and judicial system of this State and board rules with respect to providing medical services to residents of this State.

6. Notification to other states. The board shall obtain confirmation of licensure from all states and jurisdictions in which a physician applying for registration has ever been licensed prior to registering the physician pursuant to subsection 3. The board shall request notification from a state or jurisdiction if future adverse action is taken against the physician's license in that state or jurisdiction.

CHAPTER 294

H.P. 119 - L.D. 163

An Act Concerning the Regulation of Air Emissions at Petroleum Storage Facilities

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 38 MRSA §590, sub-§1, as amended by PL 2001, c. 626, §16, is repealed and the following enacted in its place:

1. License required; rules. After ambient air quality standards and emission standards have been established within a region, the board may by rule provide that a person may not operate, maintain or modify in that region any air contamination source or emit any

air contaminants in that region without an air emission license from the department.

A. As a condition of licensure under this chapter for any petroleum storage facility with an above-ground petroleum storage tank, the facility shall:

(1) Ensure that any new aboveground petroleum storage tank with a storage capacity greater than 39,000 gallons used for the storage of distillate fuel products is equipped with a floating roof;

(2) Maintain a record of any additives or materials added to any heated, aboveground petroleum storage tank;

(3) Ensure that any heated, fixed-roof aboveground petroleum storage tank is fully insulated in a manner that minimizes temperature fluctuation and resulting breathing losses and that the temperature of the petroleum product stored in the tank is continuously monitored;

(4) Implement forward-looking infrared technology for the monitoring of vapor leaks around any aboveground petroleum storage tank with a storage capacity greater than 39,000 gallons, as well as around the piping and fittings associated with the tank. The facility shall conduct such monitoring on at least a quarterly basis, and the results of that monitoring and any resulting repairs made as a result of detected leaks must be properly documented and provided to the department upon request;

(5) Collect site-specific air emission test data semiannually during the most active time of operations for any existing, new or modified heated, aboveground petroleum storage tank with a storage capacity greater than 39,000 gallons, and the collected data must be used to establish site-specific air emission factors. A facility that operates in a similar manner multiple tanks of the same construction storing the same product may, upon approval by the department, collect site-specific air emission test data from a representative tank in lieu of testing all similarly operating tanks. The test data collected by the facility must be used for the purposes of annual air emissions reporting and by the department when determining compliance with licensed air emission limits;

(6) Conduct on a monthly basis a visual inspection of the internal, floating roof of any aboveground petroleum storage tank equipped with such a roof; conduct on a monthly basis an external leak inspection of that roof using photo ionization detection technology or flame ionization detection technology; and conduct a complete inspection of the cover and seal

associated with that roof every 5 years and each time the tank is emptied and degassed; and

(7) If the facility has an aboveground petroleum storage tank with a storage capacity greater than 39,000 gallons that is equipped with an external or internal floating roof, implement a fenceline monitoring program, designed and operated by a qualified, independent 3rd-party entity, which must provide continuous emission monitoring consistent with the requirements of the United States Environmental Protection Agency’s Method 325A, Volatile Organic Compounds from Fugitive and Area Sources: Sampler Deployment and VOC Sample Collection, and Method 325B, Volatile Organic Compounds from Fugitive and Area Sources: Sampler Preparation and Analysis. The facility shall provide to the department a description of its fenceline monitoring program and a copy of all data collected under the program, which the department shall make available on its publicly accessible website.

B. A facility required to be licensed under this chapter may not load distillate fuel into a cargo tank that carried gasoline as its most recent load unless the facility is equipped with and uses a collection and control system for air emissions of volatile organic compounds.

C. As a condition of licensure under this chapter for any new or modified bulk gasoline terminal, the terminal shall implement best practical treatment for emissions associated with the loading, unloading and storage of gasoline at the terminal that is equivalent or substantially similar to applicable best available control technology requirements implemented by the United States Environmental Protection Agency pursuant to the federal Clean Air Act.

D. At least once every 5 years, the board shall evaluate and, if determined necessary, update the best practical treatment requirements applicable to licensed petroleum storage facilities with aboveground petroleum storage tanks. In evaluating the best practical treatment requirements pursuant to this paragraph, the board shall consider best practical treatment requirements for aboveground petroleum storage tanks implemented by other New England states and applicable best available control technology requirements implemented by the United States Environmental Protection Agency pursuant to the federal Clean Air Act.

E. An incinerator may not be used to dispose of solid waste without a license from the department, except an incinerator with a primary chamber volume no greater than 133 cubic feet or 1,000 gallons

that burns only wood waste as defined in Title 12, section 9324, subsection 7-A and painted and unpainted wood from construction and demolition debris.

As used in this subsection, “petroleum storage facility” means a storage facility that receives petroleum products from refineries primarily by pipeline, ship or barge and delivers those products to bulk plants or to commercial or retail accounts primarily by tank truck.

The board may adopt rules to implement paragraphs A to E. Rules initially adopted to implement paragraphs A to E are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A. Any subsequent revision to rules adopted to implement paragraphs A to E are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

Sec. 2. Department of Environmental Protection; rulemaking. On or before December 31, 2021, the Department of Environmental Protection shall initiate rulemaking to amend its rules regulating air emissions adopted pursuant to the Maine Revised Statutes, Title 38, sections 585, 585-A and 590 to align those rules as necessary with the provisions of Title 38, section 590, subsection 1, paragraphs A to E.

(d) A description of the hearing process; ~~and~~

Sec. 2. 20-A MRSA §1001, sub-§8-A, ¶A, as enacted by PL 2011, c. 614, §3, is amended by enacting a new subparagraph (1), division (f) to read:

(f) A list of available free and low-cost legal services, which must be created and updated annually by the department; and

Sec. 3. 20-A MRSA §1001, sub-§9, as amended by PL 2017, c. 407, Pt. A, §57, is further amended to read:

9. Students expelled or suspended. Following a proper investigation of a student's behavior and due process proceedings pursuant to subsection 8-A, if found necessary for the peace and usefulness of the school, a

school board shall expel any student, except a student who is enrolled in grade 5 or below:

- A. Who is deliberately disobedient or deliberately disorderly;
- B. For infractions of violence;
- C. Who possesses on school property a firearm as defined in Title 17-A, section 2, subsection 12-A or a dangerous weapon as defined in Title 17-A, section 2, subsection 9 without permission of a school official;
- D. Who, with use of any other dangerous weapon as defined in Title 17-A, section 2, subsection 9, paragraph A, intentionally or knowingly causes injury or accompanies use of a weapon with a threat to cause injury; or
- E. Who possesses, furnishes or trafficks in any scheduled drug as defined in Title 17-A, chapter 45.

A student may be readmitted on satisfactory evidence that the behavior that was the cause of the student being expelled will not likely recur. The school board may authorize the principal to suspend students up to a maximum of 10 days for infractions of school rules, except that the school board may not authorize the principal to issue an out-of-school suspension to a student who is enrolled in grade 5 or below except as provided under subsection 9-A or unless the principal determines that there is an imminent danger of serious physical injury to the student or others and less restrictive interventions would be ineffective. An out-of-school suspension for a student who is enrolled in grade 5 or below may not exceed 3 days. In addition to other powers and duties under this subsection, the school board may develop a policy requiring a student who is in violation of school substance use or possession rules to participate in substance use disorder services as provided in section 6606. Nothing in this subsection or subsection 9-C prevents a school board from providing educational services in an alternative setting to a student who has been expelled.

15. Adoption of student code of conduct. With input from educators, administrators, parents, students and community members, they shall adopt a ~~district-wide~~ districtwide student code of conduct consistent with the statewide standards for student behavior developed under section 254, subsection 11. The student code of conduct must:

- A. Define unacceptable student behavior;

G. Establish guidelines and criteria concerning the appropriate circumstances when the superintendent or the superintendent's designee may provide information to the local police or other appropriate law enforcement authorities regarding an offense that involves violence committed by any person on school grounds or other school property; ~~and~~

H. Establish policies and procedures to address bullying, harassment and sexual harassment as set forth in section 6554-~~;~~

I. Provide that recess may not be withheld as a consequence of a violation of the student code of conduct by any student enrolled in grade 5 or below, except that when there is no alternative time available, recess time may be used for restorative interventions as defined in section 1001, subsection 15-A, paragraph B related to the student's behavior;

J. Establish that an out-of-school suspension or expulsion may not be issued to a student in grade 5 or below except as provided under subsection 9 or 9-A or unless the principal determines that there is an imminent danger of serious physical injury to the student or others and less restrictive interventions would be ineffective; and

K. Establish that an out-of-school suspension for a student in grade 5 or below may not exceed 3 days.

The school board is responsible for ensuring that school officials inform students, parents and community members of the student code of conduct.

Sec. 4. Short-term, small dollar loan study.

The Department of Professional and Financial Regulation, Bureau of Consumer Credit Protection shall study the use by Maine residents of short-term, small dollar loans in accordance with this section. In conducting the study, the bureau shall seek input from consumer advocates, regulators in other states, federal regulatory agencies, members of the lending industry and other interested parties.

1. At a minimum, the study must include the following:

A. A survey of the laws of other New England states related to maximum interest rates, permitted fees and finance charges and other provisions regulating consumer debt;

B. A survey of other policies that help consumers avoid the debt trap, including prohibitions on postdated checks or loan limits accompanied by cooling-off periods;

C. A review of complaints from Maine consumers and a survey of credit counselors and nonprofit organizations that provide legal or other assistance to Maine consumers to provide insight into the types of debt that are causing the most difficulty to Maine consumers; and

D. An analysis of the extent to which lenders and other entities use the provisions of the Maine Revised Statutes, Title 9-A, section 2-201, subsection 6 to receive a minimum charge on short-term, small dollar loans and the impact of those minimum charges on overall interest rates charged to Maine consumers.

2. The bureau shall submit the report, including any suggested legislation, to the Joint Standing Committee on Health Coverage, Insurance and Financial Services no later than December 1, 2021. CHAPTER 298

S.P. 213 - L.D. 528

An Act To Advance Energy Storage in Maine

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA §3145 is enacted to read:

§3145. State energy storage policy goals

The state goal for energy storage system development is 300 megawatts of installed capacity located within the State by December 31, 2025 and 400 megawatts of installed capacity located within the State by December 31, 2030. Beginning January 1, 2031, and every 2 years thereafter, the Governor's Energy Office established in Title 2, subsection 9 shall set the state goal for energy storage system development and report that goal to the joint standing committee of the Legislature having jurisdiction over energy and utilities matters. For the purposes of this section, "energy storage system" has the same meaning as in section 3481, subsection 6.

Sec. 2. 35-A MRSA §10102, sub-§5-A is enacted to read:

5-A. Energy storage system. "Energy storage system" has the same meaning as in section 3481, subsection 6.

Sec. 3. 35-A MRSA §10109, sub-§4, ¶A, as amended by PL 2019, c. 69, §1, is further amended to read:

A. Trust funds must be allocated for measures, investments, loans, technical assistance and arrangements that reduce electricity consumption, increase energy efficiency or reduce greenhouse gas emissions and lower energy costs at commercial or industrial facilities and for investment in measures that lower residential heating energy demand and reduce greenhouse gas emissions. The measures that lower residential heating demand must be fuel-neutral and may include, but are not limited to, energy efficiency improvements to residential buildings, energy storage systems and upgrades to efficient heating systems that will reduce residential energy costs and greenhouse gas emissions, as determined by the board. The trust shall ensure that measures to reduce the cost of residential heating are available for low-income households as defined by the trust. When promoting electricity cost and consumption reduction, the

trust may consider measures at commercial and industrial facilities that also lower peak capacity demand, including energy storage systems. Subject to the apportionment pursuant to this subsection, the trust shall fund conservation programs that give priority to measures with the highest benefit-to-cost ratio, as long as cost-effective collateral efficiency opportunities are not lost, and that:

- (1) Reliably reduce greenhouse gas production and heating energy costs by fossil fuel combustion in the State at the lowest cost in funds from the trust fund per unit of emissions; or
- (2) Reliably increase the efficiency with which energy in the State is consumed at the lowest cost in funds from the trust fund per unit of energy saved.

Sec. 4. 35-A MRSA §10110, sub-§2, ¶A, as amended by PL 2019, c. 365, §3, is further amended by amending subparagraph (4) to read:

- (4) Reduce the price of electricity over time for all consumers by ~~achieving reductions in reducing or shifting demand for electricity during peak use periods or balancing load~~, including by the implementation of beneficial electrification and energy storage systems; and

Sec. 5. Efficiency Maine Trust; energy storage measures. The Efficiency Maine Trust shall explore and evaluate options to expand existing opportunities and develop new opportunities to support energy storage measures that cost-effectively reduce or shift demand or balance load, through its electric efficiency and conservation programs established pursuant to the Maine Revised Statutes, Title 35-A, section 10110 and its programs funded by the Regional Greenhouse Gas Initiative Trust Fund established in Title 35-A, section 10109. In evaluating the cost-effectiveness of energy storage measures, the trust shall explore various methods and tests to measure cost-effectiveness. In fulfilling the duties of this section, the trust shall consider:

1. Expanding energy storage pilot projects within the trust's innovation pilot program and implementing any cost-effective pilot projects as statewide programs;
2. Bring-your-own-device programs in which customer-owned and customer-sited battery storage is aggregated and performance incentives are provided for reducing load at times of system peak;
3. Rebate or funding programs for energy storage paired with renewable energy for residential, commercial and industrial electricity customers; and
4. Customer education initiatives regarding demand management and energy storage, including education targeted to low-income and rural populations in the State.

The trust shall report on its activities under this section, including its efforts with respect to bring-your-own-device programs, in the trust's annual report due December 1, 2021 pursuant to the Maine Revised Statutes, Title 35-A, section 10104, subsection 5.

Sec. 6. Energy storage pilot program. The Efficiency Maine Trust shall conduct a pilot program beginning January 1, 2022 to provide energy storage systems to critical care facilities, including but not limited to, hospitals, health care facilities, fire departments, emergency medical service departments, police departments, public safety buildings, emergency shelters and other facilities providing critical services. The total energy storage capacity deployed under the pilot program may not exceed 15 megawatts. Under this program, the trust may consider the installation of energy storage systems to support the operations of a critical care facility during outages or emergencies. The trust shall select for the program the most cost-effective proposals that provide direct or indirect benefits through transmission or distribution deferral or other uses or through the participation in energy markets, capacity markets or ancillary service markets. The trust may also consider the deployment of mobile energy storage technologies that serve multiple critical care facilities.

The trust shall report on its activities under this section in the trust's annual report pursuant to the Maine Revised Statutes, Title 35-A, section 10104, subsection 5.

Sec. 7. Public Utilities Commission; rate design and energy storage. The Public Utilities Commission shall investigate and, where appropriate, implement transmission and distribution utility rate designs that account for variation in the cost components of electricity as the load or demand on the electricity system fluctuates. By December 31, 2022, the commission, in coordination with other related proceedings, shall take the following specific steps to address rate design and energy storage:

1. Open a docket to investigate opportunities to modernize transmission and distribution utility rate designs through time-of-use or other time-differentiated rates that send appropriate price signals and incentives to consumers to reduce demand during peak periods and develop and implement a pilot program to test and evaluate time-of-use rates in conjunction with energy storage; and
2. Develop and implement a schedule for regular review and update of transmission and distribution utility rate designs, including consideration of fixed charges, and ensure that the review includes consideration of time-differentiated rates.

Sec. 8. Public Utilities Commission; consideration of power-to-fuel pilot program. The Public Utilities Commission shall consider the feasibility of a power-to-fuel pilot program that would result in the

development of power-to-fuel projects utilizing renewable energy and would provide the developer with exemptions, for a period of at least 15 years, from distribution charges, including volumetric, demand and standby charges, charges associated with the procurement of energy efficiency resources by transmission and distribution utilities ordered under the Maine Revised Statutes, Title 35-A, section 10110, subsection 4-A and renewable portfolio standards requirements under Title 35-A, section 3210, subsections 3-A, 3-B and 3-C. The commission shall also:

1. Evaluate whether a power-to-fuel project would benefit the electric grid;
2. Provide estimates of the ratepayer impact of a pilot program and how that compares with other types of energy storage technologies; and

**CHAPTER 300
H.P. 407 - L.D. 562**

An Act To Enhance Tribal-State Collaboration in the Enforcement of Child Support

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 19-A MRSA §2201-A is enacted to read:

§2201-A. Notice to licensing boards and obligor; judicial review; Penobscot Nation

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Board" means any bureau, board or commission listed in Title 10, section 8001 or 8001-A, any other licensor that is affiliated with or is a part of the Department of Professional and Financial Regulation and the Department of Inland Fisheries and Wildlife.

B. "Support obligor" or "obligor" means an individual who owes a duty of support and over whom the Penobscot Nation and the Penobscot Nation Tribal Court have jurisdiction.

C. "Support order" or "order of support" means a judgment, decree or order, whether temporary, final or subject to modification, issued by the Penobscot Nation Tribal Court for the support and maintenance of a child or a child and the parent with whom the child is living that provides for monetary support, health care, arrearages or reimbursement and may include related costs and fees, interest and penalties, income withholding, attorney's fees and other relief.

2. Notice. The Penobscot Nation may serve notice upon a support obligor who is not in compliance with an order of support that informs the obligor of the Penobscot Nation's intention to submit the obligor's name to the appropriate board as a licensee who is not in compliance with an order of support. The notice must inform the obligor that:

A. The obligor may request a court hearing in the Penobscot Nation Tribal Court to contest the issue of compliance;

B. A request for hearing must be made in writing and must be received by the Penobscot Nation Tribal Court within 20 days of service;

C. If the obligor requests a hearing within 20 days of service, the Penobscot Nation will stay the action to certify the obligor to a board for noncompliance with an order of support pending a hearing;

D. If the obligor does not request a hearing within 20 days of service and is not in compliance with an order of support, the Penobscot Nation will certify the obligor to the appropriate board for noncompliance with an order of support;

E. If the Penobscot Nation certifies the obligor to a board for noncompliance with an order of support, the board must revoke the obligor's license and refuse to issue or reissue a license until the obligor provides the board with a written confirmation of compliance from the Penobscot Nation that states the obligor is in compliance with the obligor's order of support. The notice must state that revocation by a board or a refusal to reissue, renew or otherwise extend the license or certificate of authority is deemed a final determination within the meaning of Title 5, section 10002; and

F. The obligor can comply with an order of support by:

- (1) Paying current support;
- (2) Paying all past-due support or, if unable to pay all past-due support and a periodic payment for past-due support has not been ordered by the court, by making periodic payments in accordance with a written payment agreement with the Penobscot Nation; and
- (3) Meeting the obligor's health insurance obligation, if applicable.

The notice must include the address and telephone number of the Penobscot Nation's support enforcement office that issues the notice and a statement of the need to obtain a written confirmation of compliance from that office as provided in subsection 10. The Penobscot Nation shall attach a copy of the obligor's order of support to the notice. Service of the notice must be made in the manner provided for service of summons by the Maine Rules of Civil Procedure, Rule 4. For purposes of this subsection, support enforcement action must be deemed to be an action pursuant to Chapter XIII of the Maine Rules of Civil Procedure.

3. Written agreement to pay past-due support.

An obligor who is presently unable to pay all past-due support may come into compliance with the support order by executing a written payment agreement with the Penobscot Nation and by complying with that agreement. A condition of a written payment agreement must be that the obligor pay the current support when due. Before a written payment agreement is executed, the obligor shall:

A. Disclose fully to the Penobscot Nation in writing on a form prescribed by the Penobscot Nation the obligor's financial circumstances, including income from all sources, assets, liabilities and work history for the past year; and

B. Provide documentation to the Penobscot Nation concerning the obligor's financial circumstances, including copies of the most recent state and federal income tax returns, both personal and business, a copy of a recent pay stub representative of current income and copies of other records that show the obligor's income and the present value of assets held by the obligor.

After full financial disclosure under this subsection, the Penobscot Nation shall determine the obligor's ability to pay past-due support and request the obligor to execute a written payment agreement consistent with the obligor's ability to pay, not to exceed the limits on income withholding in section 2356.

4. Failure to comply with written agreement.

Failure to comply with a written payment agreement described in subsection 3 is grounds for license revocation unless the obligor notifies the Penobscot Nation that the obligor is unable to comply with the agreement and provides the Penobscot Nation with evidence of the obligor's current financial circumstances to support the claim. The consequences of failing to comply with a written payment agreement and the requirements to avoid license revocation, if the obligor cannot comply with the agreement, must be stated in the agreement. If the obligor claims inability to comply with a written payment agreement, the Penobscot Nation, upon motion to the Penobscot Nation Tribal Court, may request the tribal court to determine the obligor's ability to pay past-due support. After notice and an opportunity for hearing, the tribal court may make a finding of money due and render judgment in that amount.

5. Hearing. An obligor may request a hearing in the Penobscot Nation Tribal Court upon service of the notice described in subsection 2. The request for hearing must be made in writing and must be received by the Penobscot Nation Tribal Court within 20 days of service. The issues that may be determined at hearing are whether the obligor is required to pay support under an order of support and whether the obligor is in compliance with an order of support.

6. Order. The Penobscot Nation Tribal Court shall issue an order after hearing without undue delay as to whether the obligor is in compliance with the obligor's order of support. The order must be based on the hearing record. The Penobscot Nation Tribal Court shall send an attested copy of the order to the obligor by regular mail to the obligor's most recent address of record.

7. Stay. If an obligor timely requests a hearing to contest the issue of compliance, the Penobscot Nation may not certify the name of the obligor to a board for noncompliance with an order of support until the Penobscot Nation Tribal Court issues an order after hearing that finds the obligor is not in compliance with an order of support.

8. Certification of noncompliance. The Penobscot Nation may certify in writing to the appropriate board that a support obligor is not in compliance with an order of support if:

A. The obligor does not timely request a hearing upon service of a notice issued under subsection 2 and is not in compliance with an order of support 21 days after service of the notice;

B. The Penobscot Nation Tribal Court issues a nonappealable, final judgment that the obligor is not in compliance with an order of support;

C. The obligor abandons a timely request for a hearing on the Penobscot Nation's notice of non-compliance and is not in compliance with the support order; or

D. The obligor fails to comply with a written payment agreement described in subsection 3, does not notify the Penobscot Nation that the obligor is unable to comply with the agreement and does not provide the Penobscot Nation with evidence of the obligor's current financial circumstances.

The Penobscot Nation shall send by regular mail a copy of a certification of noncompliance filed with a board to the obligor at the obligor's most recent address of record. The certification of noncompliance is prima facie evidence that the obligor is required to pay support under an order of support and is not in compliance with that order of support.

9. Notice from board. A board shall notify an obligor certified by the Penobscot Nation under subsection 8, without undue delay, that the obligor's application for the issuance or renewal of a license may not be granted or that the obligor's license has been revoked because the obligor's name has been certified by the Penobscot Nation as a support obligor who is not in compliance with an order of support. The notice constitutes final agency action for the purposes of judicial review under Title 5, chapter 375, subchapter 7. Notwithstanding Title 5, section 11006, the Superior Court may supplement the record, including records of any proceedings before the Penobscot Nation that resulted in the certification under subsection 8.

10. Written confirmation of compliance. When an obligor who is served notice under subsection 2 subsequently complies with the official order of support, the Penobscot Nation shall provide the obligor with written confirmation that the obligor is in compliance with the order of support.

11. Agreements. The Penobscot Nation and the various boards may enter into agreements that are necessary to carry out the requirements of this section.

12. Motion to modify order of support; stay. This section does not prohibit a support obligor from filing a motion to modify support with the Penobscot Nation Tribal Court.

13. Reporting. As soon as economically feasible and at least annually, all boards subject to this section and the Department of Professional and Financial Regulation, Division of Administrative Services shall provide to the Penobscot Nation specified information in machine-readable or electronic form, according to standards established by the Penobscot Nation, about applicants for licensure and all current licensees. The Department of Professional and Financial Regulation, Office of Securities shall provide the specified information for only those current licensees who are residents of this State. The information to be provided must include all of the following information about the licensee:

A. Name;

B. Address of record;

C. Federal employer identification number or social security number;

D. Type of license;

E. Effective date of license or renewal;

F. Expiration date of license; and

G. Active or inactive status.

14. Commissioner of Inland Fisheries and Wildlife report. The Commissioner of Inland Fisheries and Wildlife shall provide annually to the Penobscot Nation in machine-readable or electronic form watercraft, snowmobile and all-terrain vehicle registration information concerning obligors who are residents of this State. The information to be provided must include all of the following information about the registrant:

A. Name;

B. Address of record;

C. Make, model and identification number for each watercraft registered under Title 12, section 13052; each snowmobile registered under Title 12, section 13104; and each all-terrain vehicle registered under Title 12, section 13155;

D. Type of registration;

E. Effective date of registration or registration renewal; and

F. Expiration of registration.

15. Subsequent reissuance, renewal or other extension of license or certificate. A board may reissue, renew or otherwise extend the license or certificate of authority of the obligor in accordance with the board's rules after the board receives a copy of the written confirmation of compliance specified in subsection 10. A board may waive any applicable requirement for reissuance, renewal or other extension if it determines that the imposition of that requirement places an undue burden on the obligor and that waiver of the requirement is consistent with the public interest.

Sec. 2. 19-A MRSA §2360-B is enacted to read:

§2360-B. Cooperative agreements between department and Penobscot Nation

In accordance with 45 Code of Federal Regulations, Sections 302.34 and 303.107, the department shall enter into one or more cooperative arrangements with the Penobscot Nation governing the expedient and efficient administration and availability of the child support enforcement remedies in sections 2360 and 2360-A, and any other child support enforcement remedy available in this Title.

A. "Eligible individual" means an individual who has been determined to qualify for assistance under the program pursuant to subsection 3 or 4.

B. 2. Insulin Safety Net Program established. The board shall establish the Insulin Safety Net Program, referred to in this section as "the program," in accordance with the requirements of this section. Under the program, by March 1, 2022, each manufacturer shall establish procedures to make insulin available in accordance with this section and as required under subsections 3 and 4 to pharmacies for dispensing to eligible individuals who are in urgent need of insulin or who need access to an affordable insulin supply.

If additional information is needed, the manufacturer shall notify the applicant within 5 business days of receipt of the application as to what information is being requested. Within 3 business days of receipt of the requested information, the manufacturer shall determine eligibility and notify the applicant of the determination. If the individual has been determined to be not eligible, the manufacturer shall include the reasons for denying eligibility in the notification. The individual may seek an appeal of the determination in accordance with this section. If the individual is determined to be eligible, the manufacturer shall provide the individual with an eligibility statement or other indication that the individual has been determined eligible for the manufacturer's patient assistance program. An individual's eligibility is valid for 12 months and is renewable upon a re-determination of eligibility.

E. If the eligible individual has prescription drug coverage through an individual or group health plan, the manufacturer may determine that the individual's insulin needs are better addressed by providing financial assistance for copayments and other cost-sharing requirements of the individual's individual or group health plan. The manufacturer shall establish a copayment assistance program to provide such financial assistance. The manufacturer shall inform the individual and provide the individual with the necessary coupons to submit to a pharmacy. Under the manufacturer's copayment assistance program, an eligible individual may not be required to pay more than a copayment of \$35 for a 30-day supply of insulin.

F. The eligible individual shall submit to a pharmacy the eligibility statement provided by the manufacturer under paragraph D. Upon receipt of an individual's eligibility status, the pharmacy shall dispense insulin in accordance with this paragraph.

(1) The pharmacy shall submit an order containing the name of the insulin product and the daily dosage amount as contained in a valid prescription to the product's manufacturer. The pharmacy shall include with the order to the manufacturer the following information: the pharmacy's name and shipping address; office telephone number, fax number, e-mail address and contact name; and any specific days or times when deliveries are not accepted by the pharmacy.

(2) Upon receipt of an order from a pharmacy and the information described in this paragraph, the manufacturer shall send to the pharmacy a 90-day supply of insulin as ordered, unless a lesser amount is requested in the

order, at no charge to the individual or pharmacy. Except as authorized under paragraph E, the pharmacy shall provide the insulin to the individual at no charge to the individual. The pharmacy may not provide insulin received from the manufacturer to any individual other than the individual associated with the specific order.

(3) The pharmacy may not seek reimbursement for the insulin received from the manufacturer or from any 3rd-party payor. The pharmacy may collect a copayment from the individual to cover the pharmacy's costs for processing and dispensing in an amount not to exceed \$50 for each 90-day supply if the insulin is sent to the pharmacy.

(4) The pharmacy may submit to a manufacturer a reorder for an individual if the individual's eligibility statement under paragraph D has not expired. Upon receipt of a reorder from a pharmacy, the manufacturer shall send to the pharmacy an additional 90-day supply of the product, unless a lesser amount is requested, at no charge to the individual or pharmacy if the individual's eligibility statement has not expired.

(5) Notwithstanding subparagraph (2), a manufacturer may send the insulin as ordered directly to the individual if the manufacturer provides a mail order service option.

G. If an individual disagrees with a manufacturer's determination of eligibility under this subsection, the individual may contact the board to request a review of eligibility. The review of eligibility must be conducted by the board administrator, in consultation with a board member. The individual requesting the review shall submit to the board, with the request, all documents submitted by the individual to the manufacturer. The board shall provide the reviewer or reviewers with the documents submitted by the individual. The review of eligibility must be completed within 10 business days of receipt of all the necessary documents from the individual. The review decision is final. If the review determines that the individual is eligible for the manufacturer's patient assistance program, the manufacturer shall provide the individual with an eligibility statement in accordance with this subsection.

5. Additional 30-day urgent-need insulin supply pending eligibility for other coverage or assistance.
If an individual has applied for MaineCare coverage but has not been determined eligible or has been determined eligible but MaineCare coverage has not become effective or if the individual has been determined ineligible for the manufacturer's patient assistance program by the manufacturer and the individual has requested a review

pursuant to subsection 4, paragraph G but the reviewer has not rendered a decision, the individual is entitled to access insulin under the provisions of subsection 3 if the individual has an urgent need of insulin. To access insulin under this subsection, the individual must attest to the pharmacy that the individual meets the requirements of subsection 2.

6. Dissemination of information about program.
In consultation with the Health Insurance Consumer Assistance Program, established in Title 24-A, chapter 56-A, subchapter 2-A, the board shall develop an information sheet to post on its publicly accessible website and provide a link to the information sheet on the website to be used by pharmacies, health care practitioners, hospital emergency departments, urgent care clinics and community health clinics. The information sheet must contain: a description of the urgent need insulin safety net, including how to apply for the benefits of the program; a description of each insulin manufacturer's patient assistance program, including contact information for accessing the assistance programs for each manufacturer; information on how to contact the Health Insurance Consumer Assistance Program, established in Title 24-A, chapter 56-A, subchapter 2-A; and information on how to contact the board if a manufacturer determines that an individual is not eligible for the manufacturer's patient assistance program.

7. Enforcement; penalty for noncompliance.
A person who violates this chapter is subject to enforcement action by the board through any board action authorized in accordance with section 13731 or any civil penalty or criminal or civil action authorized in section 13731.

8. Confidential information.
Any health information or records provided to the board under this section are confidential if the information or records identify or permit the identification of an individual who is seeking to access urgently needed insulin under subsection 3 or to participate in a manufacturer's patient assistance program under this section. A manufacturer shall maintain the confidentiality of any information received from any individual applying for the manufacturer's patient assistance program under this section and is prohibited from selling, sharing or disseminating data received under this section unless required to under this section or unless the individual has provided the manufacturer with a signed authorization.

9. Reports.
Beginning February 15, 2023 and annually thereafter, each manufacturer shall report to the board on the number of Maine residents who accessed and received insulin on an urgent-need basis in the preceding calendar year; the number of Maine residents participating in the manufacturer's patient assistance program in the preceding calendar year, including the number of Maine residents who the manufacturer determined were ineligible for its patient assistance program; and the total value of the insulin, determined by the

wholesale acquisition cost of the insulin, provided by the manufacturer in the preceding calendar year. Beginning April 15, 2023 and annually thereafter, the board shall submit a report of the aggregate information reported by manufacturers pursuant to this subsection to the joint standing committee of the Legislature having jurisdiction over health coverage, insurance and financial services matters.

25. Telehealth. "Telehealth" means the application of telecommunications technology to deliver occupational therapy services for assessment, intervention or consultation.

§2289. State participation in compact

1. Participation in compact. To participate in the compact, a member state shall:

A. License occupational therapists and occupational therapy assistants;

B. Participate fully in the commission's data system, including, but not limited to, using the commission's unique identifier as defined in rules of the commission;

C. Have a mechanism in place for receiving and investigating complaints about licensees;

D. Notify the commission, in compliance with the terms of the compact and rules, of any adverse action or the availability of investigative information regarding a licensee;

E. Implement or use procedures for considering the criminal history records of applicants for an initial compact privilege. These procedures must include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

(1) A member state shall within a time frame established by the commission require a criminal background check for a licensee applying for a compact privilege whose primary state of residence is that member state, by receiving the results of the Federal Bureau of Investigation criminal record search, and shall use the results in making licensure decisions.

(2) Communication with the commission and among member states regarding the verification of eligibility for licensure through the compact may not include any information received from the Federal Bureau of Investigation relating to a federal criminal records check performed by a member state under the Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriations Act, 1973, Title II, Public Law 92-544 (1972);

F. Comply with the rules of the commission;

G. Use only a recognized national examination as a requirement for licensure pursuant to the rules of the commission; and

H. Have continuing education requirements as a condition for license renewal.

2. Compact privilege. A member state shall grant the compact privilege to a licensee holding a valid unencumbered license in another member state in accordance with the terms of the compact and rules.

3. Fee. A member state may charge a fee for granting a compact privilege.

4. Delegate to commission. A member state shall provide for the state's delegate to attend all occupational therapy compact commission meetings.

5. Nonresidents. An individual not residing in a member state is able to apply for a member state's single-state license as provided under the laws of that member state. However, the single-state license granted to these individuals may not be recognized as granting the compact privilege in any other member state.

6. No effect on single-state license authority. Nothing in this compact affects the requirements established by a member state for the issuance of a single-state license.

§2290. Compact privilege

1. Exercise of compact privilege. To exercise the compact privilege under the terms and provisions of the compact, a licensee:

- A. Must hold a license in the home state;
- B. Must have a valid United States social security number or National Practitioner Data Bank identification number;
- C. May not have an encumbrance on any state license;
- D. Must be eligible for a compact privilege in any member state in accordance with subsections 4, 6, 7 and 8;
- E. Must have paid all fines and completed all requirements resulting from any adverse action against any license or compact privilege and 2 years must have elapsed from the date of completion;
- F. Must notify the commission that the licensee is seeking the compact privilege within a remote state;
- G. Must pay any applicable fees, including any state fee for the compact privilege;
- H. Must complete a criminal background check in accordance with section 2289, subsection 1, para-

graph E. The licensee is responsible for the payment of any fee associated with the completion of a criminal background check;

I. Must meet any jurisprudence requirements established by the remote state in which the licensee is seeking a compact privilege; and

J. Must report to the commission adverse action taken by any nonmember state within 30 days from the date the adverse action is taken.

2. Validity of compact privilege. The compact privilege is valid until the expiration date of the home state license. The licensee must comply with the requirements of subsection 1 to maintain the compact privilege in the remote state.

3. Exercising compact privilege in remote state. A licensee providing occupational therapy in a remote state under the compact privilege shall function within the laws and regulations of the remote state.

4. Supervision of occupational therapy assistant. An occupational therapy assistant practicing in a remote state must be supervised by an occupational therapist licensed or holding a compact privilege in that remote state.

5. Regulatory authority of remote state. A licensee providing occupational therapy in a remote state is subject to that state's regulatory authority. A remote state may, in accordance with due process and that state's laws, remove a licensee's compact privilege in the remote state for a specific period of time, impose fines or take any other necessary actions to protect the health and safety of its citizens. The licensee may be ineligible for a compact privilege in any state until the specific time for removal has passed and all fines are paid.

6. Loss of compact privilege. If a home state license is encumbered, the licensee loses the compact privilege in any remote state until the following occur:

- A. The home state license is no longer encumbered; and
- B. Two years have elapsed from the date on which the home state license is no longer encumbered in accordance with paragraph A.

7. Restoration of compact privilege. Once an encumbered license in the home state is restored to good standing, the licensee must meet the requirements of subsection 1 to obtain a compact privilege in any remote state.

8. Removal of compact privilege in remote state. If a licensee's compact privilege in any remote state is removed, the individual may lose the compact privilege in any other remote state until the following occur:

- A. The specific period of time for which the compact privilege was removed has ended;

B. All fines have been paid and all conditions have been met;

C. Two years have elapsed from the date of completing requirements for paragraphs A and B; and

D. The compact privileges are reinstated by the commission and the compact data system is updated to reflect reinstatement.

9. Error. If a licensee's compact privilege in any remote state is removed due to an erroneous charge, privileges must be restored through the compact data system.

10. Restoration of compact privilege. Once the requirements of subsection 8 have been met, the licensee must meet the requirements in subsection 1 to obtain a compact privilege in a remote state.

§2291. Obtaining new home state license by virtue of compact privilege

1. Home state license. An occupational therapist or occupational therapy assistant may hold a home state license, which allows for compact privileges in member states, in only one member state at a time.

2. Change of residence. If an occupational therapist or occupational therapy assistant changes the therapist's or the assistant's primary state of residence by moving between 2 member states, the following requirements apply.

A. The occupational therapist or occupational therapy assistant shall file an application for obtaining a new home state license by virtue of a compact privilege, pay all applicable fees and notify the current and the new home state in accordance with applicable rules adopted by the commission.

B. Upon receipt of an application for obtaining a new home state license by virtue of compact privilege, the new home state shall verify that the occupational therapist or occupational therapy assistant meets the pertinent criteria outlined in section 2290 via the data system, without need for primary source verification except for:

(1) A Federal Bureau of Investigation fingerprint-based criminal background check if not previously performed or updated pursuant to applicable rules adopted by the commission in accordance with the Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriations Act, 1973, Title II, Public Law 92-544 (1972);

(2) Any other criminal background check as required by the new home state; and

(3) Submission of any requisite jurisprudence requirements of the new home state.

C. The former home state shall convert the former home state license into a compact privilege once

the new home state has activated the new home state license in accordance with applicable rules adopted by the commission.

D. Notwithstanding any other provision of this compact, if the occupational therapist or occupational therapy assistant cannot meet the criteria in section 2290, the new home state shall apply its requirements for issuing a new single-state license.

E. The occupational therapist or the occupational therapy assistant shall pay all applicable fees to the new home state in order to be issued a new home state license.

3. Criteria for single-state license. If an occupational therapist or occupational therapy assistant changes the therapist's or the assistant's primary state of residence by moving from a member state to a nonmember state, or from a nonmember state to a member state, the state criteria apply for issuance of a single-state license in the new state.

4. Ability to hold single-state license in more than one state. This compact does not interfere with a licensee's ability to hold a single-state license in multiple states; however, for the purposes of this compact, a licensee may have only one home state license.

5. Requirements for single-state license. This compact does not affect the requirements established by a member state for the issuance of a single-state license.

§2292. Active duty military personnel or military spouses

An active duty military member or the military member's spouse shall designate a home state where the individual has a current license in good standing. The individual may retain the home state designation during the period the service member is on active duty. Subsequent to designating a home state, the individual may change the individual's home state only through application for licensure in the new state or through the process described in section 2291.

§2293. Adverse actions

1. Authority of home state. A home state has exclusive power to impose adverse action against an occupational therapist's or occupational therapy assistant's license issued by the home state.

2. Authority of remote state. In addition to the other powers conferred by state law, a remote state has the authority, in accordance with existing state due process law, to:

A. Take adverse action against an occupational therapist's or occupational therapy assistant's compact privilege within that member state; and

B. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. A

subpoena issued by a licensing board in a member state for the attendance and testimony of witnesses or the production of evidence from another member state may be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state in which the witnesses or evidence are located.

3. Application of law in home state. For the purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state and shall apply its own state laws to determine appropriate action.

4. Investigations. The home state shall complete any pending investigations of an occupational therapist or occupational therapy assistant who changes the therapist's or the assistant's primary state of residence during the course of the investigations. The home state where the investigations were initiated also has the authority to take appropriate action and shall promptly report the conclusions of the investigations to the data system. The data system administrator shall promptly notify the new home state of any adverse action.

5. Recovery of costs of investigations. A member state, if otherwise permitted by state law, may recover from the affected occupational therapist or occupational therapy assistant the costs of investigations and disposition of cases resulting from any adverse action taken against that occupational therapist or occupational therapy assistant.

6. Factual findings. A member state may take adverse action based on the factual findings of a remote state, as long as the member state follows its own procedures for taking the adverse action.

7. Joint investigations. The following requirements apply to joint investigations.

A. In addition to the authority granted to a member state by its respective state occupational therapy laws and regulations or other applicable state law, any member state may participate with other member states in joint investigations of licensees.

B. Member states shall share any investigative, litigation or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

8. Deactivation of compact privilege. If an adverse action is taken by the home state against an occupational therapist's or occupational therapy assistant's license, the occupational therapist's or occupational therapy assistant's compact privilege in all other member states must be deactivated until all encumbrances

have been removed from the state license. All home state disciplinary orders that impose adverse action against an occupational therapist's or occupational therapy assistant's license must include a statement that the occupational therapist's or occupational therapy assistant's compact privilege is deactivated in all member states during the pendency of the order.

9. Notice of adverse action. If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the home state of any adverse actions by remote states.

10. Alternative program. This compact does not override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

§2294. Establishment of Occupational Therapy Compact Commission

1. Commission established. The member states hereby create and establish a joint public agency known as the Occupational Therapy Compact Commission as follows.

A. The commission is an instrumentality of the compact states.

B. Venue is proper, and judicial proceedings by or against the commission must be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

C. This compact may not be construed to be a waiver of sovereign immunity.

2. Membership, voting and meetings. This subsection governs the membership, voting and meetings of the commission.

A. Each member state is limited to one delegate selected by that member state's licensing board.

- B. The delegate must be either:
- (1) A current member of the licensing board, who is an occupational therapist, occupational therapy assistant or public member; or

E. Each delegate is entitled to one vote with regard to the promulgation of rules and creation of bylaws

and must otherwise have an opportunity to participate in the business and affairs of the commission. A delegate shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for delegates' participation in meetings by telephone or other means of communication.

F. The commission shall meet at least once during each calendar year. Additional meetings may be held as set forth in the bylaws.

G. The commission shall establish by rule a term of office for delegates.

3. Powers and duties of commission. The commission has the following powers and duties:

A. Establish a code of ethics for the commission;

B. Establish the fiscal year of the commission;

C. Establish bylaws;

D. Maintain the commission's financial records in accordance with the bylaws;

F. Promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules have the force and effect of law and are binding in all member states;

K. Accept any and all appropriate donations and grants of money, equipment, supplies, materials and services and receive, use and dispose of the same, as long as at all times the commission avoids any appearance of impropriety or conflict of interest;

L. Lease, purchase, accept appropriate gifts or donations of or otherwise own, hold, improve or use any property, real, personal or mixed, as long as at all times the commission avoids any appearance of impropriety;

M. Sell, convey, mortgage, pledge, lease, exchange, abandon or otherwise dispose of any property, real, personal or mixed;

N. Establish a budget and make expenditures;

O. Borrow money;

P. Appoint committees, including standing committees, composed of members, state regulators, state legislators or their representatives and consumer representatives and such other interested persons as may be designated in this compact and the bylaws;

Q. Provide and receive information from, and cooperate with, law enforcement agencies;

R. Establish and elect an executive committee; and

S. Perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of occupational therapy licensure and practice.

4. Executive committee. The executive committee has the power to act on behalf of the commission according to the terms of this compact in accordance with this subsection.

A. The executive committee is composed of the following 9 members:

(1) Seven voting members who are elected by the commission from the current membership of the commission;

(2) One ex officio, nonvoting member from a recognized national occupational therapy professional association; and

(3) One ex officio, nonvoting member from a recognized national occupational therapy certification organization.

5. Public and nonpublic meetings. This subsection governs the requirements for public and nonpublic meetings of the commission.

A. All meetings must be open to the public, and public notice of meetings must be given in the same manner as required under the rule-making provisions in section 2296.

B. The commission or the executive committee or other committees of the commission may convene in a closed, nonpublic meeting if the commission or executive committee or other committees of the commission must discuss:

- (1) Noncompliance of a member state with its obligations under the compact;
- (2) The employment, compensation, discipline or other matters, practices or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;
- (3) Current, threatened or reasonably anticipated litigation;
- (4) Negotiation of contracts for the purchase, lease or sale of goods, services or real estate;
- (5) Accusing any person of a crime or formally censuring any person;

- (8) Disclosure of investigative records compiled for law enforcement purposes;
- (9) Disclosure of information related to any investigative reports prepared by or on behalf of or for use of the commission or other committee charged with responsibility of investigation or determination of compliance issues pursuant to the compact; or
- (10) Matters specifically exempted from disclosure by federal or member state statute.

C. If a meeting, or portion of a meeting, is closed pursuant to this subsection, the commission's legal counsel or legal counsel's designee shall certify that the meeting may be closed and shall reference each relevant exempting provision.

D. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons for those actions, including a description of the views expressed. All documents considered in connection with an action must be identified in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

6. Financing of commission. This subsection governs the financial operations of the commission.

A. The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization and ongoing activities.

B. The commission may accept any and all appropriate revenue sources, donations and grants of money, equipment, supplies, materials and services.

C. The commission may levy on and collect from each member state an annual assessment or impose fees on other parties to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved by the commission each year for which revenue is not provided by other sources. The aggregate annual assessment amount must be allocated based upon a formula to be determined by the commission, which shall promulgate a rule binding upon all member states.

D. The commission may not incur obligations of any kind prior to securing the funds adequate to meet the obligations, and the commission may not pledge the credit of any of the member states, except by and with the authority of the member state.

E. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission must be audited yearly by a certified or licensed public accountant, and the report of the audit must be included in and become part of the annual report of the commission.

7. Qualified immunity, defense and indemnification. This subsection governs immunity provisions

and defense and indemnification requirements of the commission.

A. The members, officers, executive director, employees and representatives of the commission are immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties or responsibilities, except that nothing in this paragraph may be construed to protect any such person from suit or liability for any damage, loss, injury or liability caused by the intentional or willful or wanton misconduct of that person.

B. The commission shall defend any member, officer, executive director, employee or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from that person's intentional or willful or wanton misconduct and except that nothing in this paragraph may be construed to prohibit that person from retaining that person's own counsel.

C. The commission shall indemnify and hold harmless any member, officer, executive director, employee or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that the person had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, as long as the actual or alleged act, error or omission did not result from the intentional or willful or wanton misconduct of that person.

§2295. Data system

This subsection governs the requirements for the data system used by the commission.

1. Data system. The commission shall provide for the development, maintenance and utilization of a coordinated database and reporting system containing licensure, adverse action and investigative information on all licensed individuals in member states.

2. Uniform data set. A member state shall submit a uniform data set to the data system on all individuals

to whom this compact is applicable using a unique identifier as required by the rules of the commission, including:

A. Identifying information;

B. Licensure data;

C. Adverse actions against a license or compact privilege;

D. Nonconfidential information related to alternative program participation;

E. Any denial of application for licensure and the reason for the denial;

F. Other information that may facilitate the administration of this compact, as determined by the rules of the commission; and

G. Current significant investigative information.

3. Availability of investigative information.

Current significant investigative information and other investigative information pertaining to a licensee in any member state may be available only to other member states.

4. Notification of adverse action. The commission shall promptly notify all member states of any adverse action taken against a licensee or an individual applying for a license. Adverse action information pertaining to a licensee in any member state must be available to any other member state.

5. Designation of nonpublic information. A member state contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing member state.

6. Expungement of information. Any information submitted to the data system that is subsequently required to be expunged by the laws of the member state contributing the information must be removed from the data system.

§2296. Rulemaking

1. Rule-making authority. The commission shall exercise its rule-making powers pursuant to the criteria set forth in this section and the rules adopted pursuant to this section. Rules and amendments become binding as of the date specified in each rule or amendment.

2. Adoption. The commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the compact. If the commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of the compact, or the powers granted in the compact, such an action by the commission is invalid and has no force and effect.

3. Rejection of rules. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to

adopt the compact within 4 years of the date of adoption of the rule, the rule has no further force and effect in any member state.

4. Adoption at meeting. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

5. Notice. Prior to promulgation and adoption of a final rule or rules by the commission, and at least 30 days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

A. On the website of the commission or other publicly accessible platform; and

B. On the website of each member state occupational therapy licensing board or other publicly accessible platform or the publication in which each state would otherwise publish proposed rules.

6. Notice requirements. The notice of proposed rulemaking under subsection 5 must include:

A. The proposed time, date and location of the meeting at which the rule will be considered and voted upon;

B. The text of the proposed rule and the reason for the proposed rule;

C. A request for comments on the proposed rule from any interested person; and

D. The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

7. Comments. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions and arguments, which must be made available to the public.

8. Opportunity for public hearing. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:

A. At least 25 persons;

B. A state or federal governmental subdivision or agency; or

C. An association or organization having at least 25 members.

9. Notice of hearing. If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time and date of the scheduled public hearing. If the hearing is held via electronic means, the commission shall publish the mechanism for access to the electronic hearing.

A. A person wishing to be heard at the hearing shall notify the executive director of the commission or other designated member in writing of the person's desire to appear and testify at the hearing not less than 5 business days before the scheduled date of the hearing.

B. A hearing must be conducted in a manner that provides each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

C. All hearings must be recorded. A copy of the recording must be made available on request.

D. Nothing in this subsection may be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

10. Consideration of comments. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

11. No public hearing. If no written notice of intent to attend the public hearing by interested persons is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

12. Final action. The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rule-making record and the full text of the rule.

13. Emergency rules. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing, as long as the usual rule-making procedures provided in the compact and in this section are retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this subsection, an emergency rule is a rule that must be adopted immediately in order to:

A. Meet an imminent threat to public health, safety or welfare;

B. Prevent a loss of commission or member state funds;

C. Meet a deadline for the promulgation of an administrative rule that is established by federal law or regulation; or

D. Protect public health and safety.

14. Revisions. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of

any revisions must be posted on the publicly accessible website of the commission. The revision is subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

§2297. Oversight, dispute resolution and enforcement

1. Oversight. This subsection governs enforcement and proceedings under the compact.

A. The executive, legislative and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated under this compact have standing as statutory law.

B. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities or actions of the commission.

C. The commission is entitled to receive service of process in any proceeding under paragraph B and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or order void as to the commission, this compact or promulgated rules.

2. Default, technical assistance and termination. This subsection governs default, technical assistance and termination under the compact.

A. If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(1) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default and any other action to be taken by the commission; and

(2) Provide remedial training and specific technical assistance regarding the default.

B. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the

default does not relieve the offending state of obligations or liabilities incurred during the period of default.

C. Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature and each of the member states.

D. A state that has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

E. The commission may not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting or terminating state.

F. The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing member must be awarded all costs of such litigation, including reasonable attorney's fees.

3. Dispute resolution. This subsection governs dispute resolution under the compact.

A. Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

B. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

4. Enforcement. This subsection governs enforcement under the compact.

A. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

B. By majority vote, the commission may initiate legal action in the United States District Court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the prevailing member must be awarded all costs of such litigation, including reasonable attorney's fees.

C. The remedies in this chapter are not the exclusive remedies of the commission. The commission

may pursue any other remedies available under federal or state law.

§2298. Date of implementation of compact; associated rules; withdrawal; construction; amendments

1. Effective date. This compact becomes effective on the date on which the compact statute is enacted into law in the 10th member state. The provisions, which become effective at that time, are limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rule-making powers necessary to the implementation and administration of the compact.

2. Effect of rules adopted by compact on member states. A state that joins the compact subsequent to the commission's initial adoption of the rules is subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission has the full force and effect of law on the date the compact becomes law in that state.

3. Withdrawal. A member state may withdraw from this compact by enacting a statute repealing the compact.

A. A member state's withdrawal does not take effect until 6 months after enactment of the repealing statute.

B. Withdrawal does not affect the continuing requirement of the withdrawing state's occupational therapy licensing board to comply with the investigative and adverse action reporting requirements of this Act prior to the effective date of withdrawal.

4. Construction. Nothing in this compact may be construed to invalidate or prevent any occupational therapy licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

5. Amendments. This compact may be amended by the member states. An amendment to this compact does not become effective and binding upon any member state until it is enacted into the statutes of all member states.

§2299. Construction and severability

This compact must be liberally construed so as to effectuate its purposes. The provisions of this compact are severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any member state or of the United States or the applicability of this compact to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability of this compact to any government, agency,

person or circumstance are not affected. If this compact is held to be contrary to the constitution of any member state, the compact remains in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

§2300. Binding effect of compact and other laws

A licensee providing occupational therapy in a remote state under the compact privilege shall function within the laws and regulations of the remote state. Nothing in this compact prevents the enforcement of any other law of a member state that is not inconsistent with the compact. Any laws in a member state in conflict with the compact are superseded to the extent of the conflict. Any lawful actions of the commission, including all rules and bylaws promulgated by the commission, are binding upon the member states. All agreements between the commission and the member states are binding in accordance with their terms. If any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state, the provision is ineffective to the extent of the conflict with the constitutional provision in question in that member state.

CHAPTER 325

H.P. 148 - L.D. 213

An Act To Require Coverage for Female Firefighters Facing Reproductive System Cancer

Mandate preamble. This measure requires one or more local units of government to expand or modify activities so as to necessitate additional expenditures from local revenues but does not provide funding for at least 90% of those expenditures. Pursuant to the Constitution of Maine, Article IX, Section 21, 2/3 of all of the members elected to each House have determined it necessary to enact this measure.

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 39-A MRSA §328-B, sub-§1, ¶A, as enacted by PL 2009, c. 408, §1, is amended to read:

A. "Cancer" means kidney cancer, non-Hodgkin's lymphoma, colon cancer, leukemia, brain cancer, bladder cancer, multiple myeloma, prostate cancer, testicular cancer or breast cancer or gynecologic cancer.

See title page for effective date.

CHAPTER 326
H.P. 224 - L.D. 320

An Act To Provide the Right to Counsel for Juveniles and Improve Due Process for Juveniles

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 15 MRSA §3003, sub-§14, as enacted by PL 1977, c. 520, §1, is amended to read:

14. Juvenile. "Juvenile" means any person who has not attained the age of 18 years of age and a person 18 years of age or older during the period of a disposition that includes probation or commitment to a Department of Corrections juvenile facility who was adjudicated before 18 years of age. This definition does not apply to a person whose disposition includes probation or commitment to a Department of Corrections juvenile correctional facility when that person engages in new criminal conduct and is 18 years of age or older at the time of the new criminal conduct.

Sec. 2. 15 MRSA §3203-A, sub-§4, ¶G is enacted to read:

G. Notwithstanding any provision of law to the contrary, a juvenile who has not attained 12 years of age may not be detained at a secure detention facility for more than 7 days except by agreement of the parties.

Sec. 3. 15 MRSA §3203-A, sub-§5, as amended by PL 2003, c. 706, Pt. A, §§2 and 3, is further amended to read:

5. Detention hearing. Upon petition by a juvenile community corrections officer who ordered the detention or an attorney for the State who ordered the detention, the Juvenile Court shall review the decision to detain a juvenile within 48 hours following the detention, excluding Saturday, Sunday and legal holidays, except that if a juvenile is detained pursuant to subsection 7, paragraph B-5, the Juvenile Court shall review the decision to detain the juvenile within 24 hours following the detention, excluding Saturday, Sunday and

legal holidays. When a petition to review detention is filed, the Juvenile Court shall assign counsel to represent the juvenile. The assignment must be reviewed at the juvenile's first appearance before the Juvenile Court. If a juvenile petition with charges based on the conduct at issue in the detention hearing is filed, the assignment continues with respect to the petition to review detention but must be reviewed at the juvenile's first appearance on the juvenile petition.

A. A detention hearing must precede and must be separate from a bind-over or adjudicatory hearing. Evidence presented at a detention hearing may include testimony, affidavits and other reliable hearsay evidence as permitted by the ~~court~~ Juvenile Court and may be considered in making any determination in that hearing.

B. Following a detention hearing, ~~a court~~ the Juvenile Court shall order a juvenile's release, in accordance with subsection 4, unless it finds, by a preponderance of the evidence, that continued detention is necessary to meet one of the purposes of detention provided in that subsection. The Juvenile Court shall ensure, by appropriate order, that any such continued detention is otherwise in accordance with the requirements of subsection 4. The ~~court~~ Juvenile Court may order that detention be continued pending further appearances before the ~~court~~ Juvenile Court or pending conditional release to a setting satisfactory to the juvenile community corrections officer.

C. Continued detention or conditional release may not be ordered unless a Juvenile Court Judge or justice of the peace has determined pursuant to subsection 4-A or the Juvenile Court determines at the detention hearing that there is probable cause to believe that the juvenile has committed a juvenile crime.

D. When ~~a court~~ the Juvenile Court orders detention or a conditional release that authorizes, even temporarily, the juvenile's removal from the juvenile's home, the ~~court~~ Juvenile Court shall determine whether reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that no reasonable efforts are necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B, and whether continuation in the juvenile's home would be contrary to the welfare of the juvenile. This determination does not affect whether the ~~court~~ Juvenile Court orders detention or a conditional release, which continues to be governed by the other provisions of this section.

Sec. 4. 15 MRSA §3301, sub-§6, as amended by PL 2011, c. 580, §1, is further amended by enacting a new 3rd blocked paragraph to read:

If the attorney for the State files a petition, the court, upon the motion of the attorney for the State, the motion of the juvenile or the court's own motion, may assign counsel for the juvenile. The assignment must be reviewed at the juvenile's first appearance before the court.

Sec. 5. 15 MRSA §3306, sub-§1, as amended by PL 2019, c. 525, §15, is further amended to read:

1. Notice and appointment. The provisions of this subsection address a juvenile's right to counsel.

A. At a juvenile's first appearance before the court, the juvenile and the juvenile's parent or parents, guardian or legal custodian must be fully advised by the court of their constitutional and legal rights, including the juvenile's right to be represented by counsel at every stage of the proceedings. At every subsequent appearance before the court, the juvenile must be advised of the juvenile's right to be represented by counsel.

B. If the juvenile requests an attorney and if the juvenile and the juvenile's parent or parents, guardian or legal custodian are found to be without sufficient financial means, counsel must be appointed by the court.

C. The court may appoint counsel without a request under paragraph B if the court determines representation by counsel necessary to protect the interests of the juvenile.

D. The court shall appoint counsel to represent the juvenile upon the entry of a dispositional order that includes commitment to a Department of Corrections juvenile correctional facility. A juvenile's right to counsel under this paragraph continues until the juvenile is discharged from the disposition. Counsel appointed under this paragraph may be in addition to any other counsel representing the juvenile.

This subsection does not limit the court's authority to appoint counsel for a juvenile at any time beginning with the detention of the juvenile under this Part.

Sec. 6. 15 MRSA §3313, sub-§2, ¶F, as amended by PL 2019, c. 474, §1 and c. 525, §26, is repealed and the following enacted in its place:

F. The juvenile has made or has agreed to pay restitution to the victim of the juvenile's conduct for the damage or injury that the victim sustained in an amount that the court has determined is within the juvenile's ability to pay pursuant to section 3314-C;

Sec. 7. 15 MRSA §3313, sub-§2, ¶J, as amended by PL 1979, c. 663, §119, is further amended to read:

J. The juvenile is particularly likely to respond affirmatively to probation; ~~and~~

Sec. 8. 15 MRSA §3313, sub-§2, ¶K, as amended by PL 2019, c. 525, §26, is further amended to read:

K. The confinement of the juvenile would entail excessive hardship to the juvenile or the juvenile's dependents;

Sec. 9. 15 MRSA §3313, sub-§2, ¶L is enacted to read:

L. The juvenile had not attained 14 years of age at the time of the alleged conduct; and

Sec. 10. 15 MRSA §3313, sub-§2, ¶M is enacted to read:

M. The juvenile crime would be considered a Class D or Class E crime if committed by an adult and, based upon both the written agreement of the parties and a court finding, the facts and circumstances of the underlying juvenile criminal episode giving rise to the adjudication did not generate probable cause to believe the juvenile had committed what would be considered a Class A, Class B or Class C crime if committed by an adult.

Sec. 11. 15 MRSA §3314, sub-§1, ¶F, as amended by PL 2001, c. 696, §4, is further amended to read:

F. The court may commit the juvenile to a Department of Corrections juvenile correctional facility, except that, beginning October 1, 2021, the juvenile must be at least 12 years of age at the time of commitment to be committed to such a facility. Whenever a juvenile is committed to a Department of Corrections juvenile correctional facility, the court shall determine whether reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that no reasonable efforts are necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B; and whether continuation in the juvenile's home would be contrary to the welfare of the juvenile. This determination does not affect whether the court orders a commitment to a Department of Corrections juvenile correctional facility, which continues to be governed by section 3313.

Sec. 12. 15 MRSA §3315, sub-§3, as amended by PL 2003, c. 503, §3, is further amended to read:

3. Court review of determination. Whenever a court makes a determination pursuant to section 3314, subsection 1, paragraph F or section 3314, subsection 2 that reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from the juvenile's home or that no reasonable efforts are necessary because of the existence of an aggravating factor as defined in Title 22, section 4002, subsection 1-B and that continuation in the juvenile's home would be contrary to the welfare of the juvenile, that determination

must be reviewed by the court not less than once every 12 months until the juvenile is discharged or no longer residing outside the juvenile's home ~~or attains 18 years of age~~. This review does not affect a juvenile's commitment to a Department of Corrections juvenile correctional facility.

A. A juvenile who has not attained 21 years of age must be represented by counsel at this review.

B. If an appropriate treatment or appropriate and less restrictive placement is not being provided or offered to the juvenile, the court may order the Department of Corrections or the Department of Health and Human Services, or both, to demonstrate the reasonableness of the current treatment or placement provided or offered.

Sec. 13. 15 MRSA §3316, sub-§2, ¶A, as repealed and replaced by PL 1999, c. 127, Pt. B, §6, is amended to read:

A. A commitment of a juvenile to a Department of Corrections juvenile ~~corrections~~ correctional facility pursuant to section 3314 must be for an indeterminate period not to extend beyond the juvenile's 18th birthday unless the court expressly further limits or extends the indeterminate commitment, as long as the court does not ~~limit the commitment to less than one year nor extend the commitment beyond a juvenile's 21st birthday and as long as an order does not result in a commitment of less than one year, unless the commitment is for an indeterminate period not to extend beyond the juvenile's 21st birthday.~~ Nothing in this Part may be construed to prohibit the provision to a juvenile following the expiration of the juvenile's term of commitment of services voluntarily accepted by the juvenile and the juvenile's parent or parents, guardian or legal custodian if the juvenile is not emancipated; except that these services may not be extended beyond the juvenile's 21st birthday.

Sec. 14. 15 MRSA §3317, as amended by PL 1997, c. 752, §26 and PL 2003, c. 689, Pt. B, §§6 and 7, is further amended to read:

§3317. Disposition after return to Juvenile Court

In instances of commitment of a juvenile to the Department of Health and Human Services or a Department of Corrections juvenile correctional facility or when the juvenile is under a specified period of probation, the Commissioner of Health and Human Services or the commissioner's designee or the Commissioner of Corrections or the commissioner's designee, or the juvenile following the disposition may for good cause petition the Juvenile Court having original jurisdiction in the case for a judicial review of the disposition, including extension of the period of commitment or period of probation. For a petition initiated by the juvenile, the Department of Health and Human Services

or the Department of Corrections shall provide information including, but not limited to, the information in reports required for periodic review pursuant to section 3315. In all cases in which a the juvenile is returned to a Juvenile Court, the Juvenile Court may make any of the dispositions otherwise provided in section 3314 and Title 34-A, section 3805, subsection 2. When reviewing a commitment to the Department of Health and Human Services, the court shall consider efforts made by the Department of Corrections and the Department of Health and Human Services to reunify the juvenile with the juvenile's parents or custodians, shall make a finding regarding those efforts and shall return custody of the juvenile to a parent or legal custodian if the return of the juvenile is not contrary to the welfare of the juvenile. A petition for judicial review of a disposition committing the ~~child~~ juvenile to the Department of Health and Human Services must be served on the parents at least 7 days prior to the hearing. Absent extraordinary circumstances, the juvenile may file a petition no more than once every 180 days. A juvenile who has not attained 21 years of age must be represented by counsel at this review.

Sec. 15. 15 MRSA §3402, sub-§1, as amended by PL 2021, c. 23, §§1 to 3, is further amended to read:

1. Matters for appeal. Appeals of the following matters may be taken from the ~~juvenile court~~ Juvenile Court to the Supreme Judicial Court by a party specified in subsection 2:

- A. An adjudication, as long as the appeal is taken after an order of disposition;
- B. An order of disposition, or of any subsequent order modifying disposition, for an abuse of discretion;
- D. A detention order entered pursuant to section 3203-A, subsection 5 or any refusal to alter a detention order upon petition of the juvenile pursuant to section 3203-A, subsection 11, for abuse of discretion, ~~provided that the~~ The appeal must be handled expeditiously; ~~and~~
- H. An order binding a juvenile over for prosecution as an adult, which may be taken following issuance of the bind-over order, or, at the election of the appellant, following a judgment of conviction as an adult, but not both; and
- I. A judicial review decision pursuant to section 3317.

Sec. 16. 15 MRSA §3405, sub-§2, as amended by PL 2015, c. 100, §5, is further amended to read:

2. Record on appeals. In appeals taken pursuant to section 3402, subsection 1, paragraphs A and B and H, review must be on the basis of the record of the proceedings in ~~juvenile court~~ the Juvenile Court. In the interest of justice, the Supreme Judicial Court may order that the record consist of:

- A. The untranscribed sound recording of the proceedings; or
- B. An agreed or settled statement of facts with the consent of the parties.

**CHAPTER 327
S.P. 142 - L.D. 336**

**An Act To Encourage Research
To Support the Maine Offshore
Wind Industry**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA §3210-H is enacted to read:

§3210-H. Floating offshore wind research array; project labor agreements

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

- A. "Floating offshore wind research array project" or "research array" means a project undertaken by an entity to develop a floating offshore wind energy system for the purpose of conducting research on such systems pursuant to 30 Code of Federal Regulations, Part 585 and is located seaward of territorial waters.
- B. "Labor organization" means an organization of any kind, or an agency or employee representation committee or plan, in which employees participate and that exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment or conditions of work.
- C. "Project labor agreement" means a prehire collective bargaining agreement with one or more labor organizations that establishes the terms and conditions of employment for a specific construction project or portion of a construction project,

wherever such construction occurs, and is an agreement described in 29 United States Code, Section 158(f).

2. Project labor agreements. When requiring the negotiation of, or directing an investor-owned transmission and distribution utility to enter into, a long-term contract pursuant to section 3210-C or any other provision of law with an entity for capacity, energy or renewable energy credits associated with the development of a floating offshore wind research array project, or obligating funds pursuant to such a contract, the commission shall require the use of a project labor agreement, to be negotiated and executed by the entity seeking the long-term contract in accordance with this section.

A. The project labor agreement must be negotiated in good faith and executed prior to the effective date of a long-term contract for a research array.

B. A project labor agreement reached pursuant to this section must:

- (1) Bind all contractors and subcontractors to the terms of the agreement through the inclusion of appropriate provisions in all relevant solicitation and contract documents;
- (2) Provide for the invitation of all contractors and subcontractors to bid on contracts without regard to whether the employees of the contractor or subcontractor are members of a labor organization or parties to a collective bargaining agreement;
- (3) Contain guarantees against strikes, lock-outs and similar disruptions;
- (4) Contain terms that are consistent with orders issued by the commission;
- (5) Set forth mutually binding procedures for resolving labor disputes arising during the term of the project labor agreement;
- (6) Provide other mechanisms for labor-management cooperation on matters of mutual interest and concern, including productivity, quality of work, safety and health; and
- (7) Fully conform to all relevant state and federal statutes, rules and regulations.

C. Nothing in this section may be construed to:

- (1) Require the commission to require a project labor agreement on projects or in connection with contracts not governed by this section;
- (2) Preclude the use of a project labor agreement in circumstances not covered by this section;

(3) Require contractors or subcontractors to enter into a project labor agreement with any particular labor organization;

(4) Impair or otherwise affect authority granted by law to the commission; or

(5) Prohibit in a project labor agreement the reasonable use of key employees by contractors and subcontractors who are not members of a labor organization or parties to a collective bargaining agreement.

D. Notwithstanding any provision of law to the contrary, agreements and contracts entered into pursuant to this section are not subject to the competitive bid requirements in Title 5, section 1825-B.

E. This section must be implemented consistent with applicable law. This section does not create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the State, its departments, agencies or entities or its officers, employees or agents.

Sec. 2. Long-term contract in the public interest; coordination with state policy. The Legislature finds that a long-term contract for a term of no less than 20 years between an investor-owned transmission and distribution utility and New England Aqua Ventus, LLC for capacity, energy and renewable energy credits generated from a floating offshore wind research array to be located in the Gulf of Maine with a capacity up to 144 megawatts effectuates the policies, goals and mandates in the Maine Revised Statutes, Title 35-A, section 3202, subsection 1 and section 3404 and Article 6, Sections 1.8 and 1.9 of the Maine Aqua Ventus power purchase agreement approved by the Public Utilities Commission and is in the public interest and in furtherance of the following:

1. Meeting the requirements of Title 35-A, section 3210 and chapter 34-A;
2. Achieving the wind energy goals contained in Title 35-A, chapter 34;
3. Achieving the greenhouse gas emissions reduction levels established in Title 38, section 576-A;
4. Implementing the recommendations of the State's climate action plan, developed pursuant to Title 38, section 577;
5. State energy policy with due consideration of the energy equity context of these energy policies, including, in particular, the economic circumstances and opportunities of Maine's socially vulnerable counties as highlighted in the February 2021 report of the Governor's Energy Office, State of Maine Renewable Energy Goals Market Assessment;
6. The Maine Offshore Wind Initiative overseen by the Governor's Energy Office;

7. The State's decision to seek a federal Department of the Interior, Bureau of Ocean Energy Management lease of federal waters to construct and operate a research array to scientifically determine means to protect the Gulf of Maine ecosystem, critical species and habitats and traditional marine users from imprudent offshore wind development;

8. State laws that seek to make the State an international hub for floating offshore wind development and fabrication, including but not limited to: Public Law 2007, chapter 661; Public Law 2009, chapter 270; Public Law 2009, chapter 615; and Resolve 2019, chapter 87; and

9. A memorandum of understanding between the State and New England Aqua Ventus, LLC requiring New England Aqua Ventus, LLC to seek a long-term contract from the Public Utilities Commission, to assist the State, upon request, in preparing and securing approval of a lease of federal waters in the Gulf of Maine and in complying with resulting lease obligations and to seek a power purchase agreement for a floating offshore wind research array, as defined in the Title 35-A, section 3210-H, through the commission.

Sec. 3. Commission action. Within in 9 months of receiving a petition from New England Aqua Ventus, LLC or its designated affiliate for a long-term contract for capacity, energy or renewable energy credits to be generated from a floating offshore wind research array project, as defined in the Maine Revised Statutes, Title 35-A, section 3210-H and referred to in this section as "the research array," with a capacity of up to 144 megawatts designed, permitted and operated by New England Aqua Ventus, LLC in accordance with the terms of a lease in federal waters from the federal Department of the Interior, Bureau of Ocean Energy Management, the Public Utilities Commission shall order the negotiation of, and direct an investor-owned transmission and distribution utility to enter into, a long-term contract for at least 20 years with New England Aqua Ventus, LLC or its designated affiliate if the commission determines the contract furthers the objectives of this Act and is in the public interest.

1. In ordering the negotiation of the contract, the commission shall:

A. Utilize the process for the negotiated purchase of capacity, energy and renewable energy credits under Title 35-A, section 3210-C except that the commission shall invite the Office of the Public Advocate, the Governor's Energy Office and transmission and distribution utilities to participate in negotiations;

B. Employ, at the expense of New England Aqua Ventus, LLC or the developer, any expert consultants necessary to assist in negotiations. Expert consultants hired pursuant to this subsection must be employed by the United States Department of

Energy, National Renewable Energy Laboratory or a similar entity expert in world-wide cost estimation for floating offshore wind commercialization and with specific knowledge of the VoltturnUS foundation design, and the commission shall use that advice; and

C. Direct the parties to determine the lowest reasonable cost to ratepayers, that is sufficient to enable the financing, construction and operation of the research array by New England Aqua Ventus, LLC or its affiliate, in a manner that is consistent with the lease issued by the federal Department of the Interior, Bureau of Ocean Energy Management and any final agreement between New England Aqua Ventus, LLC or its affiliate and the State.

2. If the commission directs the parties to enter into a long-term contract, the commission shall require that the contract requires New England Aqua Ventus, LLC or its affiliate to:

A. Maintain an office and project leadership staff in the State;

B. Use port facilities designated by the State for the organization, fabrication, launch and maintenance of the research array;

C. Operate, at the direction of the State, an open platform for research on the prudent development of offshore wind energy generation in the Gulf of Maine;

D. Establish and operate an integrated manufacturing and assembly facility in the State to manufacture required VoltturnUS or similar hulls for the research array;

E. Make commercially reasonable efforts to attract design and manufacturing facilities to the State for other floating offshore wind energy generation project components;

F. Make commercially reasonable efforts to employ in-state design, manufacturing and maintenance firms and workers in an amount that is at least equal to 50% of contracts for those services; and

G. Construct the research array pursuant to a project labor agreement in accordance with Title 35-A, section 3210-H that is negotiated with the developer and a qualified labor organization to promote efficiency and economy in state procurement of research on renewable energy development, including the development of offshore wind energy generation seaward of territorial waters.

3. If the commission directs the parties to enter into a long-term contract, the commission shall ensure any pricing structure adopted for capacity, energy or renewable energy credits:

A. Represents the lowest reasonable cost to ratepayers, while ensuring the pricing structure is sufficient to enable the financing, construction and operation of the research array by New England Aqua Ventus, LLC or its affiliate, in a manner that is consistent with the lease issued by the federal Department of the Interior, Bureau of Ocean Energy Management and any final agreement between New England Aqua Ventus, LLC or its affiliate and the State;

B. Was reached with the advice of expert consultants employed in accordance with subsection 1, paragraph B;

C. Supports prompt commercial pursuit of the research array lease, development of research plans and initiation of development and construction actions;

D. Recognizes and accommodates the commercial challenges in long-term cost estimation for large marine energy infrastructure and permits power purchase agreement capacity, energy and renewable energy credit prices to be adjusted based on changing costs prior to the final investment decision by New England Aqua Ventus, LLC or its affiliate and the commission, employing state of the art marine commercial cost estimation and control mechanisms such as indexing and inflation adjustment mechanisms; and

E. Considers, for levelized cost of energy comparison purposes, the needed and expected role of floating offshore wind energy generation in accomplishing the State's transition to beneficial electrification and the role of the research array in advancing that transition.

In determining the appropriate duration for a long-term contract entered into pursuant to this section, the commission shall consider what duration is adequate to allow the research array to be designed, permitted, constructed and operated in conformance with the terms of the lease of federal waters issued by the federal Department of the Interior, Bureau of Ocean Energy Management.

The State and New England Aqua Ventus, LLC shall negotiate in good faith and make best efforts to enter into a final operating agreement before a lease is issued by the federal Department of the Interior, Bureau of Ocean Energy Management. If the State and New England Aqua Ventus, LLC fail to enter into a final operating agreement before a lease is issued by the Bureau of Ocean Energy Management, nothing in this section precludes the State through the Governor's Energy Office from designating an entity other than New England Aqua Ventus, LLC to negotiate a long-term contract with an investor-owned transmission and distribution

utility for capacity, energy and renewable energy credits generated from a research array as directed by the commission.

Sec. 4. Study of infrastructure related to offshore wind energy generation. 2. Legislative intent. This compact is the Maine enactment of the Psychology Interjurisdictional Compact, which is referred to in this subchapter as "the compact." The form, format and text of the compact have been changed minimally so as to conform to the Maine Revised Statutes. The changes to the compact are technical in nature, and this Act must be interpreted as substantively the same as the compact that is enacted by other compact states.

3. Purpose. The compact protects the public through the verification of education, training and experience and ensures accountability for the professional practice of psychology.

A. The compact:

(2) Regulates the temporary in-person, face-to-face practice of psychology by psychologists across state boundaries for 30 days within a calendar year in the performance of their psychological practice as assigned by an appropriate authority;

(3) Authorizes state psychology regulatory authorities to afford legal recognition, in a manner consistent with the terms of the compact, to psychologists licensed in another state;

(4) Recognizes that states have a vested interest in protecting public health and safety through their licensing and regulation of psychologists and that such regulation will best protect public health and safety;

(5) Does not apply when psychologists are licensed in both their home state and receiving states; and

(6) Does not apply to ongoing in-person, face-to-face practice but allows for authorization of a temporary psychological practice.

B. The compact is designed to achieve the following purposes and objectives:

(1) To increase public access to professional psychological services by allowing for telepsychological practice across state lines as

well as temporary in-person, face-to-face services in a state in which the psychologist is not licensed to practice psychology;

(2) To enhance a state's ability to protect public health and safety, especially client safety;

(3) To encourage the cooperation of compact states in the areas of psychology licensure and regulation;

(4) To facilitate the exchange of information between compact states regarding psychologist licensure, adverse actions and disciplinary history;

3. Scope of practice. A psychologist practicing in a distant state under the temporary authorization to practice shall practice within the scope of practice authorized by the distant state.

4. Authority of distant state. A psychologist practicing in a distant state under the temporary authorization to practice is subject to the distant state's authority and law. A distant state may, in accordance with that state's due process law, limit or revoke a psychologist's temporary authorization to practice in the distant state and may take any other necessary actions under the distant state's applicable law to protect the health and safety of the distant state's citizens. If a distant state takes action, the distant state shall promptly notify the home state and the commission.

5. Revocation. If a psychologist's license in any home state or another compact state or any temporary authorization to practice in any distant state is restricted, suspended or otherwise limited, the interjurisdictional practice certificate must be revoked and the psychologist is not eligible to practice in a compact state under the temporary authorization to practice.

§3846. Conditions of telepsychology practice in receiving state - Article 6

1. Conditions of telepsychology practice. A psychologist may practice in a receiving state under the authority to practice interjurisdictional telepsychology only in the performance of the scope of practice for psychology as assigned by an appropriate state psychology regulatory authority, as defined in the rules, and under the following circumstances:

A. The psychologist initiates contact with a client in a home state via telecommunications technologies with a client in a receiving state; and

B. Other conditions regarding telepsychology as determined by rules promulgated by the commission.

§3847. Adverse actions - Article 7

1. Authority of home state and distant state. A home state has the power to impose adverse action against a psychologist's license issued by the home state. A distant state has the power to take adverse action on a psychologist's temporary authorization to practice within that distant state.

2. Authority of receiving state and home state. A receiving state may take adverse action on a psychologist's authority to practice interjurisdictional telepsychology within that receiving state. A home

state may take adverse action against a psychologist based on an adverse action taken by a distant state regarding temporary in-person, face-to-face practice.

3. Adverse action by home state. If a home state takes adverse action against a psychologist's license, that psychologist's authority to practice interjurisdictional telepsychology is terminated and the e-passport is revoked. Furthermore, that psychologist's temporary authorization to practice is terminated, and the interjurisdictional practice certificate is revoked.

A. All home state disciplinary orders that impose adverse action must be reported to the commission in accordance with the rules promulgated by the commission. A compact state shall report adverse actions in accordance with the rules.

B. In the event discipline is reported on a psychologist, the psychologist is not eligible for telepsychology or temporary in-person, face-to-face practice in accordance with the rules.

C. Other actions may be imposed as determined by the rules promulgated by the commission.

4. Investigation by home state. A home state's state psychology regulatory authority shall investigate and take appropriate action with respect to reported inappropriate conduct engaged in by a licensee that occurred in a receiving state as it would if such conduct by a licensee had occurred within the home state. In such cases, the home state's law controls in determining any adverse action against a psychologist's license.

5. Investigation by distant state. A distant state's state psychology regulatory authority shall investigate and take appropriate action with respect to reported inappropriate conduct engaged in by a psychologist practicing under temporary authorization to practice that occurred in that distant state as it would if such conduct by a licensee had occurred within the home state. In such cases, the distant state's law controls in determining any adverse action against a psychologist's temporary authorization to practice.

6. Participation in alternative program in lieu of adverse action. Nothing in this compact overrides a compact state's decision that a psychologist's participation in an alternative program may be used in lieu of adverse action and that such participation must remain nonpublic if required by the compact state's law. Compact states shall require psychologists who enter any alternative program to not provide telepsychology services under the authority to practice interjurisdictional telepsychology or not provide temporary psychological services under the temporary authorization to practice in any other compact state during the term of the alternative program.

7. No additional judicial or administrative remedies. No other judicial or administrative remedies are

available to a psychologist in the event a compact state imposes an adverse action pursuant to subsection 3.

§3848. Additional authorities invested in compact state's psychology regulatory authority - Article 8

1. Authority under compact. In addition to any other powers granted under state law, a state psychology regulatory authority has the authority under this compact to:

A. Issue subpoenas, for both hearings and investigations, that require the attendance and testimony of witnesses and the production of evidence. Subpoenas issued by a state psychology regulatory authority for the attendance and testimony of witnesses or the production of evidence from another compact state are enforced in the latter state by any court of competent jurisdiction, according to that court's practice and procedure in considering subpoenas issued in its own proceedings. The issuing state psychology regulatory authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state where the witnesses or evidence is located;

B. Issue cease and desist or injunctive relief orders to revoke a psychologist's authority to practice interjurisdictional telepsychology or temporary authorization to practice; and

C. During the course of any investigation, deny a change in the psychologist's home state licensure. A home state psychology regulatory authority is authorized to complete any pending investigations of a psychologist and to take any actions appropriate under its law. The home state psychology regulatory authority shall promptly report the conclusions of such investigations to the commission. Once an investigation has been completed, and pending the outcome of said investigation, the psychologist may change the psychologist's home state licensure. The commission shall promptly notify the new home state of any such decisions as provided in the rules. All information provided to the commission or distributed by compact states about the psychologist must be confidential, filed under seal and used only for investigatory or disciplinary matters. The commission may create additional rules for mandated or discretionary sharing of information by compact states.

§3849. Coordinated licensure information system - Article 9

1. Coordinated licensure information system. The commission shall provide for the development and maintenance of a coordinated licensure information system and reporting system containing licensure and disciplinary action information on all licensees to whom this compact is applicable in all compact states as defined by the rules.

2. Uniform dataset. Notwithstanding any other provision of state law to the contrary, a compact state shall submit a uniform dataset to the coordinated database on all licensees as required by the rules, including:

- A. Identifying information;
- B. Licensure data;
- C. Significant investigatory information;
- D. Adverse actions against a psychologist's license;
- E. An indicator that a psychologist's authority to practice interjurisdictional telepsychology or temporary authorization to practice is revoked;
- F. Nonconfidential information related to alternative program participation information;
- G. Any denial of an application for licensure and the reasons for such denial; and
- H. Other information that may facilitate the administration of this compact, as determined by the rules.

3. Notice of adverse action. The coordinated database administrator shall promptly notify all compact states of any adverse action taken against or significant investigative information on any licensee in a compact state.

4. Designation of nonpublic information. Compact states reporting information to the coordinated database may designate information that may not be shared with the public without the express permission of the compact state reporting the information.

5. Expunging of data pursuant to law of compact state. Any information submitted to the coordinated database that is subsequently required to be expunged under the law of the compact state reporting the information must be removed from the coordinated database.

§3850. Establishment of the Psychology Interjurisdictional Compact Commission - Article 10

1. Commission established. The compact states hereby create and establish a joint public agency known as the Psychology Interjurisdictional Compact Commission.

- A. The commission is a body politic and an instrumentality of the compact states.
- B. Venue is proper and judicial proceedings by or against the commission must be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

C. Nothing in this compact may be construed to be a waiver of sovereign immunity.

2. Membership, voting and meetings. The commission must consist of one voting representative appointed by each compact state who serves as that state's commissioner. The state psychology regulatory authority shall appoint its delegate. This delegate is empowered to act on behalf of the compact state.

- A. This delegate must be limited to:
 - (1) An executive director, executive secretary or similar executive;
 - (2) A current member of the state psychology regulatory authority of a compact state; or
 - (3) A designee empowered with the appropriate delegate authority to act on behalf of the compact state.

B. Any commissioner may be removed or suspended from office as provided by the law of the state from which the commissioner is appointed. Any vacancy occurring in the commission must be filled in accordance with the laws of the compact state in which the vacancy exists.

C. Each commissioner is entitled to one vote with regard to the promulgation of rules and creation of bylaws and must otherwise have an opportunity to participate in the business and affairs of the commission. A commissioner shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for commissioners' participation in meetings by telephone or other means of communication.

D. The commission shall meet at least once during each calendar year. Additional meetings must be held as set forth in the bylaws.

E. All meetings are open to the public, and public notice of meetings must be given in the same manner as required under the rule-making provisions in section 3850 A.

F. The commission may convene in a closed, non-public meeting if the commission must discuss:

- (1) Noncompliance of a compact state with its obligations under the compact;
- (2) Employment, compensation, discipline or other personnel matters, practices or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;
- (3) Current, threatened or reasonably anticipated litigation against the commission;
- (4) The negotiation of contracts for the purchase or sale of goods, services or real estate;

(5) An accusation against any person of a crime or formally censuring any person;

(6) Disclosure of trade secrets or commercial or financial information that is privileged or confidential;

(7) Disclosure of information of a personal nature when disclosure would constitute a clearly unwarranted invasion of personal privacy;

(8) Disclosure of investigatory records compiled for law enforcement purposes;

(9) Disclosure of information related to any investigatory reports prepared by or on behalf of or for use by the commission or other committee charged with responsibility for investigation or determination of compliance issues pursuant to the compact; or

(10) Matters specifically exempted from disclosure by federal and state statute.

G. If a meeting, or portion of a meeting, is closed pursuant to paragraph F, the commission's legal counsel or designee shall certify that the meeting may be closed and must reference each relevant subparagraph in paragraph F. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken and of any person participating in the meeting, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action must be identified in such minutes. All minutes and documents of a closed meeting must remain under seal, subject to release only by a majority vote of the commission or by order of a court of competent jurisdiction.

3. **Bylaws.** The commission shall, by a majority vote of the commissioners, prescribe bylaws and rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of the compact, including but not limited to:

A. Establishing the fiscal year of the commission;

B. Providing reasonable standards and procedures:

(1) For the establishment and meetings of other committees; and

(2) Governing any general or specific delegation of any authority or function of the commission;

C. Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest,

the privacy of individuals attending such proceedings and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the commissioners vote to close a meeting to the public in whole or in part. As soon as practicable, the commission shall make public a copy of the vote to close the meeting, revealing the vote of each commissioner with no proxy votes allowed;

D. Establishing the titles, duties, authority and reasonable procedures for the election of the officers of the commission;

E. Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar law of any compact state, the bylaws must exclusively govern the personnel policies and programs of the commission;

F. Promulgating a code of ethics to address permissible and prohibited activities of commission members and employees;

G. Providing a mechanism for concluding the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of the compact after the payment or reserving of all of its debts and obligations;

H. Publishing its bylaws in a convenient form and filing a copy thereof and a copy of any amendment thereto with the appropriate agency or officer in each of the compact states;

I. Maintaining its financial records in accordance with the bylaws; and

J. Meeting and taking such actions as are consistent with the provisions of this compact and the bylaws.

4. **Powers of commission.** The commission has the following powers:

A. To promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules have the force and effect of law and are binding in all compact states;

B. To bring and prosecute legal proceedings or actions in the name of the commission, as long as the standing of any state psychology regulatory authority or other regulatory body responsible for psychology licensure to sue or be sued under applicable law is not affected;

C. To purchase and maintain insurance and bonds;

D. To borrow, accept or contract for services of personnel, including, but not limited to, employees of a compact state;

E. To hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals

appropriate authority to carry out the purposes of the compact and establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel and other related personnel matters;

F. To accept any appropriate donations and grants of money, equipment, supplies, materials and services and to receive, utilize and dispose of the same, as long as at all times the commission strives to avoid any appearance of impropriety or conflict of interest;

G. To lease, purchase, accept appropriate gifts or donations of or otherwise to own, hold, improve or use any property, real, personal or mixed, as long as at all times the commission strives to avoid any appearance of impropriety;

H. To sell, convey, mortgage, pledge, lease, exchange, abandon or otherwise dispose of any property, real, personal or mixed;

I. To establish a budget and make expenditures;

J. To borrow money;

K. To appoint committees, including advisory committees, composed of members, state regulators, state legislators or their representatives, consumer representatives and such other interested persons as may be designated in this compact and the bylaws;

L. To provide and receive information from, and to cooperate with, law enforcement agencies;

M. To adopt and use an official seal; and

N. To perform other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of psychology licensure, temporary in-person, face-to-face practice and telepsychology practice.

5. Executive board. The elected officers shall serve as the executive board, which has the power to act on behalf of the commission according to the terms of this compact.

A. The executive board is composed of 6 members:

(1) Five voting members who are elected from the current membership of the commission by the commission; and

(2) One ex officio, nonvoting member from the Association of State and Provincial Psychology Boards.

B. The ex officio member must have served as staff or been a member of a state psychology regulatory authority and is selected by the member's respective organization.

C. The commission may remove any member of the executive board as provided in the bylaws.

D. The executive board shall meet at least annually.

E. The executive board has the following duties and responsibilities:

(1) To recommend to the entire commission changes to the rules or bylaws, this compact, fees paid by compact states such as annual dues and any other applicable fees;

(2) To ensure compact administration services are appropriately provided, contractual or otherwise;

(3) To prepare and recommend the budget;

(4) To maintain financial records on behalf of the commission;

(5) To monitor compact compliance of member states and provide compliance reports to the commission;

(6) To establish additional committees as necessary; and

(7) To perform other duties as provided in the rules or bylaws.

6. Financing of commission. The commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization and ongoing activities.

A. The commission may accept any appropriate revenue sources, donations and grants of money, equipment, supplies, materials and services.

B. The commission may levy and collect an annual assessment from each compact state or impose fees on other parties to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount must be allocated based upon a formula to be determined by the commission, which must promulgate a rule binding upon all compact states.

C. The commission may not incur obligations of any kind prior to securing the funds adequate to meet the same. The commission may not pledge the credit of any of the compact states, except by and with the authority of the compact state.

D. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission must be audited yearly

by a certified or licensed public accountant, and the report of the audit must be included in and become part of the annual report of the commission.

7. Qualified immunity, defense and indemnification. The members, officers, executive director, employees and representatives of the commission are immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error or omission that occurred or that the person against whom the claim is made had a reasonable basis for believing the alleged act, error or omission occurred within the scope of commission employment, duties or responsibilities. Nothing in this subsection may be construed to protect any such person from suit or liability for any damage, loss, injury or liability caused by the intentional, willful or wanton misconduct of that person.

A. The commission shall defend any member, officer, executive director, employee or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities or that the person against whom the claim is made had a reasonable basis for believing the alleged act, error or omission occurred within the scope of commission employment, duties or responsibilities if the actual or alleged act, error or omission did not result from that person's intentional, willful or wanton misconduct. Nothing in this paragraph may be construed to prohibit that person from retaining separate counsel.

B. The commission shall indemnify and hold harmless any member, officer, executive director, employee or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities or that such person had a reasonable basis for believing the alleged act, error or omission occurred within the scope of commission employment, duties or responsibilities if the actual or alleged act, error or omission did not result from the intentional, willful or wanton misconduct of that person.

§3850-A. Rulemaking - Article 11

1. Authority to adopt rules. The commission may exercise its rule-making powers pursuant to the criteria set forth in this subchapter and the rules promulgated by the commission. Rules and amendments are binding as of the date specified in each rule or amendment.

2. Rejection of rule. If a majority of the legislatures of the compact states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule has no further force and effect in any compact state.

3. Adoption required at regular or special meetings. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

4. Notice of rulemaking. Prior to promulgation and adoption of a final rule or rules by the commission, and at least 60 days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

A. On the website of the commission; and

B. On the website of each state psychology regulatory authority or the publication in which each state would otherwise publish proposed rules.

The notice of proposed rulemaking must include the proposed time, date and location of the meeting in which the rule will be considered and voted upon; the text of the proposed rule or amendment and the reason for the proposed rule or amendment; a request for comments on the proposed rule from any interested person; and the manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions and arguments, which must be made available to the public.

5. Public hearing. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:

A. At least 25 persons who submit comments independently of each other;

B. A governmental subdivision or agency; or

C. A duly appointed person from an association that has at least 25 members.

6. Notice of public hearing. If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time and date of the scheduled public hearing.

A. All persons wishing to be heard at the hearing must notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than 5 business days before the scheduled date of the hearing.

B. Hearings must be conducted in a manner that provides each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

C. A transcript of the hearing is not required, unless a written request for a transcript is made.

The person requesting the transcript shall bear the cost of producing the transcript. A recording may be made in lieu of a transcript under the same terms and conditions as a transcript. This paragraph does not preclude the commission from making a transcript or recording of the hearing if it so chooses.

D. Nothing in this subsection may be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this subsection.

7. **Written comments.** Following the scheduled hearing date or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

8. **Final action.** The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rule-making record and the full text of the rule.

9. **Adoption of rule without hearing.** If no written notice of intent to attend the public hearing by interested parties is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

10. **Emergency rules.** Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing. The usual rule-making procedures provided in the compact and in this section must be retroactively applied to the rule as soon as reasonably possible and in no event later than 90 days after the effective date of the rule. For the purposes of this subsection, an emergency rule is one that must be adopted immediately in order to:

- A. Meet an imminent threat to public health, safety or welfare;
- B. Prevent a loss of commission or compact state funds;
- C. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or
- D. Protect public health and safety.

11. **Revisions.** The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of any revisions must be posted on the website of the commission. The revision is subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule.

A challenge must be made in writing and delivered to the chair of the commission prior to the end of the notice

period. If a challenge is not made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

§3850-B. **Oversight, dispute resolution and enforcement - Article 12**

1. **Oversight.** The executive, legislative and judicial branches of State Government in each compact state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder have standing as statutory law.

A. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a compact state pertaining to the subject matter of this compact that may affect the powers, responsibilities or actions of the commission.

B. The commission may receive service of process in any proceeding under paragraph A and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or order void as to the commission, this compact or promulgated rules.

2. **Default, technical assistance and termination.** This subsection governs the default of a compact state.

A. If the commission determines that a compact state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

- (1) Provide written notice to the defaulting state and other compact states of the nature of the default, the proposed means of remedying the default and any other action to be taken by the commission; and
- (2) Provide remedial training and specific technical assistance regarding the default.

B. If a state in default fails to remedy the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the compact states and all rights, privileges and benefits conferred by this compact must be terminated on the effective date of termination. A remedy of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

C. Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be submitted by the commission to the Governor, the majority and minority leaders of the defaulting state's Legislature and each of the compact states.

D. A compact state that has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

E. The commission may not bear any costs incurred by a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

F. The defaulting state may appeal the action of the commission by petitioning the United States District Court for the State of Georgia or the federal district where the compact has its principal offices. The prevailing member must be awarded all costs of such litigation, including reasonable attorney's fees.

3. Dispute resolution. Upon request by a compact state, the commission shall attempt to resolve disputes related to the compact that arise among compact states and between compact and non-compact states. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes that arise before the commission.

4. Enforcement. This subsection governs the commission's enforcement of the compact.

A. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

B. By majority vote, the commission may initiate legal action in the United States District Court for the State of Georgia or the federal district where the compact has its principal offices against a compact state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the prevailing member must be awarded all costs of such litigation, including reasonable attorney's fees.

C. The remedies herein are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

§3850-C. Date of implementation of Psychology Interjurisdictional Compact Commission and associated rules; withdrawal; amendments - Article 13

1. Effective date. The compact comes into effect on the date on which the compact is enacted into law in the 7th compact state. The provisions, which become effective at that time, are limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet

and exercise rule-making powers necessary for the implementation and administration of the compact.

2. New compact state; application of rules. Any state that joins the compact subsequent to the commission's initial adoption of the rules is subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission has the full force and effect of law on the day the compact becomes law in that state.

3. Withdrawal. Any compact state may withdraw from this compact by enacting a statute repealing the same.

A. A compact state's withdrawal does not take effect until 6 months after enactment of the repealing statute.

B. Withdrawal does not affect the continuing requirement of the withdrawing state's psychology regulatory authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

4. Construction. Nothing contained in this compact may be construed to invalidate or prevent any psychology licensure agreement or other cooperative arrangement between a compact state and a non-compact state that does not conflict with the provisions of this compact.

5. Amendment of compact. This compact may be amended by the compact states. An amendment to this compact is not effective and binding upon any compact state until it is enacted into the law of all compact states.

§3850-D. Construction and severability - Article 14

This compact must be liberally construed so as to effectuate the purposes thereof. If this compact is held contrary to the constitution of any state member thereto, the compact remains in full force and effect as to the remaining compact states.

3. Employee organization request for review; final agency action. An employee organization representing agency employees may file a written request for review with the commissioner regarding the contents of the written statement required in subsection 2, paragraph A within 10 business days of the date the statement was filed. The commissioner's decision under this subsection constitutes final agency action for the purposes of judicial review under chapter 375, subchapter 7.

An employee organization representing agency employees may at any time before the final day for the agency to receive sealed bids pursuant to subsection 5 propose an amendment to any relevant collective bargaining agreement to which the employee organization is a party, but such a proposed amendment may take effect only if the effect of the proposed amendment is to reduce the agency cost estimate below the contract cost. A. Publicly designate the bidder to which the agency proposes to award a privatization contract;

B. Determine the contract cost of the designated bid and file a cost analysis with the commissioner and the Attorney General. If the proposed bidder under paragraph A proposes to perform any or all of the contract outside the boundaries of the State, the contract cost must be increased by the amount of any lost income tax revenue to the State caused by the corresponding elimination of agency employees, as determined by the State Tax Assessor; and

C. Determine whether the contract cost under paragraph B is less than the agency cost estimate prepared pursuant to subsection 2, paragraph C. If the contract cost is equal to or more than the agency cost estimate, the agency may not enter into a privatization contract.

If a bid is received from an employee organization, the commissioner, or the commissioner's designee, may include staff from the Department of Administrative and Financial Services, Bureau of Human Resources in the bid review process authorized by section 1825-D.

the terms of the privatization contract with the employee organization. If the contract cost is equal to or more than the agency cost estimate, the agency may not enter into a privatization contract. The privatization contract must be filed with the commissioner and the Attorney General prior to execution.

9. Attorney General authority. The authority of the Attorney General over the privatization of services is governed by this subsection.

A. At any time during the process of privatizing any services pursuant to this section, the Attorney General may:

- (1) Intervene in the process;
- (2) Require by summons the attendance and testimony under oath of state employees and the production of documents for the purpose of investigating whether the provisions set forth in this chapter and chapter 156 are met. The Attorney General may seek an order from the Superior Court compelling compliance with a summons issued under this subparagraph; and
- (3) Bring an action in Superior Court in the name of the State against an agency when the Attorney General has reason to believe that a requirement of this section has not been met, the agency has acted unlawfully or beyond the scope of its authority, the actions or inactions of the agency are not supported by the record required by this section or the privatization of services is not in the public interest.

B. After the filing of a court action under this subsection, further action by an agency under this section must be stayed unless the court orders otherwise. During the period of the stay, any time period specified for agency action under this chapter or chapter 156 is tolled until the court action is dismissed by the Attorney General or the Superior Court orders an agency to take further action. Relief from the stay may be granted only upon a showing of compelling justification.

C. Except as provided in this paragraph, at least 10 business days prior to commencement of an action under this subsection, the Attorney General shall notify the agency and the commissioner of the proposed action and shall provide the commissioner and the agency an opportunity to confer with the Attorney General in person or by counsel or other representative as to the proposed action. The Attorney General may proceed without notice upon a showing by affidavit of immediate irreparable harm to the citizens of the State.

D. An action by the Attorney General under this subsection may seek to, among other things, restrain by temporary or permanent injunction the privatization of services under this section, and the court may make such other orders or judgments as may be necessary to prevent the privatization of services.

10. Rules; forms. The Department of Administrative and Financial Services may prescribe forms and adopt rules to carry out the provisions of this section and to ensure that the competitive bidding process under this section is consistent with the provisions of competitive bids under subchapter 1-A. Rules adopted pursuant to this subsection are routine technical rules as defined in chapter 375, subchapter 2-A.

CHAPTER 333

H.P. 934 - L.D. 1274

**An Act Regarding 2021
Municipal Elections and Town
Meetings**

Emergency preamble. **Whereas**, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the spread of the novel coronavirus referred to as COVID-19 has created a public health emergency; and

Whereas, in response to COVID-19, the World Health Organization has declared a pandemic, the President of the United States has declared a national emergency and the Governor of Maine has declared a civil state of emergency; and

Whereas, state and federal authorities, including the federal Centers for Disease Control and Prevention, the Department of Health and Human Services, Maine Center for Disease Control and Prevention and the Governor have recommended or placed limits on public gatherings; and

Whereas, the most recommended ways of avoiding infection and furthering the spread of the virus that causes COVID-19 are for authorities to reduce the number of public gatherings and for people to avoid large crowds; and

Whereas, municipal leaders seek to ensure public safety by acting in concert with public health guidelines to discourage large gatherings and also recognize the likelihood of low voter turnout at meetings or elections held, depriving voters of full participation in municipal decisions; and

Whereas, there is no procedure in Maine law to postpone a municipal secret ballot election or nomination process already in progress, and delay of municipal budget meetings will deprive municipal authorities of legal authority to spend and continue operations; and

Whereas, it is imperative that action be taken at the earliest possible moment to allow for continuity of services by municipalities despite the need to postpone meetings; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Failure to pass municipal budget; deemed approved; tax commitment. Notwithstanding any law or municipal charter provision to the contrary, if an annual municipal budget meeting is delayed beyond the date the annual budget is customarily submitted to the legislative body of that municipality for approval due to public health concerns arising from coronavirus disease 2019, referred to in this Act as COVID-19, the prior year's approved or deemed approved municipal budget is deemed the budget for the ensuing year until a final budget is approved. If a final budget is not approved in a timely manner and the municipal officers determine that property taxes must be committed in a timely manner to the tax collector pursuant to the Maine Revised Statutes, Title 36, section 709, the municipal assessor may commit property taxes on the basis of the municipal budget deemed approved under this section.

Sec. 2. Individual authorization of disbursements by municipal treasurer. Notwithstanding the Maine Revised Statutes, Title 30-A, section 5603, subsection 2, paragraph A or any other law or municipal charter provision or ordinance to the contrary, for the duration of a state of emergency declared by the Governor in accordance with Title 37-B, section 742 due to the outbreak of COVID-19 and for 30 days following the termination of that state of emergency, a municipal treasurer may disburse money on the authority of a warrant drawn for that purpose seen and signed individually by a majority of the municipal officers outside of a public meeting.

Sec. 3. Postponement of secret ballot election. Notwithstanding any law or municipal charter provision or ordinance to the contrary, beginning January 15, 2021, the municipal officers may postpone the date of a scheduled municipal secret ballot election when nomination papers have already been issued or filed by posting notice in a conspicuous public location at least 2 days prior to the date of the election. The notice must be signed by a majority of the municipal officers and must either:

1. State a specific date and time during which the polls will be open to complete the election; or
2. State that the date of a rescheduled election will be determined by the municipal officers.

The rescheduled election must be noticed by a warrant calling the election that is approved and posted pursuant to the Maine Revised Statutes, Title 30-A, section 2523 at least 7 days prior to the date of the rescheduled election.

If ballots have been printed for the postponed election, the municipality may use those ballots despite inclusion of the original election date. If absentee ballots have been issued and returned, the municipality

shall use the ballots printed for the originally scheduled election. The municipal clerk shall safeguard and secure any absentee ballots already returned until the date of the rescheduled election and shall process them as required by the Maine Revised Statutes, Title 21-A. During the interim period between the originally scheduled election and rescheduled election, the clerk may continue to issue and accept absentee ballots and applications and allow voting in the presence of the clerk pursuant to Title 21-A.

A municipal secret ballot referendum election is subject to the same rescheduling, ballot and absentee ballot provisions as set forth in this section.

Sec. 4. Referendum vote hearing requirement. The hearing required by the Maine Revised Statutes, Title 30-A, section 2528, subsection 5 or municipal charter before a referendum vote may be conducted via remote means following the requirements established for remote board meetings in Public Law 2019, chapter 617, Part G.

Sec. 5. Secret ballot election. Notwithstanding any law or municipal charter provision to the contrary, the Maine Revised Statutes, Title 30-A, section 2528, subsection 1 is suspended to allow the municipal officers of a municipality that has not voted to accept secret ballot voting to nevertheless do so during the state of emergency declared by the Governor in accordance with Title 37-B, section 742 due to the outbreak of COVID-19. Elected officials in those municipalities may remain in office until an election pursuant to Title 30-A, section 2525.

Sec. 6. Referendum wording deadline. The requirement in the Maine Revised Statutes, Title 30-A, section 2528, subsections 4 and 5 that municipal officers file with the clerk an order establishing the wording of a referendum question by the 60th day before a referendum election is suspended and modified to provide for such filing by the 30th day before the referendum.

Sec. 7. Written ballot exception. Solely to the extent that the Maine Revised Statutes, Title 30-A, section 5721-A, subsection 7, paragraph A requires a written ballot to exceed or increase the property tax levy limit at an open town meeting held in compliance with relevant gathering limits, it is suspended in favor of either a show of hands or a voice vote during the state of emergency declared by the Governor in accordance with Title 37-B, section 742 due to the outbreak of COVID-19.

Sec. 8. Retroactivity; repeal. This Act applies retroactively to January 15, 2021 and is repealed the earlier of June 30, 2022 and the end of the state of emergency declared by the Governor in accordance with the Maine Revised Statutes, Title 37-B, section 742 due to the outbreak of COVID-19.

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective June 23, 2021.

(a) Such order was in effect at the time of the death of the parent awarded exclusive parental rights and responsibilities; and

(b) There is neither a substantial change in circumstances between the time of the entry of the order and the parent's death nor other facts that would render a finding based on the order to be inequitable or unjust.

Sec. 2. 19-A MRSA §1658, as repealed and replaced by PL 2015, c. 427, §1, is amended to read:

§1658. Termination of parental rights and responsibilities in ~~cases involving sexual assault~~

1. Petitioner. ~~The~~ A petition for termination of a parent's parental rights and responsibilities with respect to a specific child may be filed by ~~the other~~ another parent or, ~~if the other parent is a minor,~~ the parent or guardian of ~~the other parent~~ a child's minor parent on any grounds set forth in subsection 3. A parent may not file a petition under this section to terminate the parent's own parental rights and responsibilities.

1-A. Filing and contents of petition. A petition to terminate parental rights and responsibilities must be filed in the District Court and in the same case as a prior adjudication of parental rights and responsibilities, if

any. The petition must be sworn and must include at least the following:

- A. The name and date and place of birth of the child;
- B. The name and address of the petitioner and the nature of the petitioner's relationship to the child;
- C. The name of each of the child's parents;

2. Petition Grounds for petition. The petitioner may file a petition with the District Court that requests the termination of the parental rights and responsibilities of the parent and alleges following allegations, if proven, are sufficient grounds to terminate a parent's parental rights and responsibilities under this section:

- A. ~~That the~~ The parent was convicted of a crime involving sexual assault, as defined in Title 17-A, section 253, 254 or 556, or a comparable crime in another jurisdiction, that resulted in the conception of the child; or

- C. A final order, other than in a protection from abuse matter under chapter 101, that has been in effect for at least 12 months grants the petitioner exclusive parental rights and responsibilities with respect to all aspects of the child's welfare, with the exception of the right and responsibility for support, without reserving for the parent any rights to make decisions, to have access to records or to have contact with the child, and termination of the parent's parental rights and responsibilities is necessary to protect the child from serious harm or the threat of serious harm.

2-A. Procedure on petition to terminate parental rights and responsibilities. Once a petition to terminate parental rights and responsibilities is filed, the following procedure applies.

- A. The court shall appoint an attorney for a parent who is the subject of a petition to terminate parental

rights and responsibilities under this section and who is indigent. In a contested action, the court may also appoint counsel for any indigent petitioner who files a petition under this section when the parent who is the subject of the petition is represented by counsel.

B. The court shall appoint a guardian ad litem for the child if the petition to terminate parental rights and responsibilities is brought under subsection 2, paragraph C. The appointment may be made at any time, but the court shall make every effort to make the appointment as soon as possible after the commencement of the proceeding.

C. The court may hold a status conference prior to scheduling a hearing on the petition to terminate parental rights and responsibilities.

D. The court may refer the parties to mediation prior to conducting a hearing on a petition to terminate parental rights and responsibilities.

E. A parent may consent to an order terminating the parent's rights and responsibilities after a judge has fully explained the effects of the termination order and if such consent is written and voluntarily and knowingly executed in court. A parent's consent to the order is not a sufficient basis to enter an order in the absence of the findings required in subsection 3-A and any other applicable provisions of this section.

F. The federal Indian Child Welfare Act of 1978, United States Code, Title 25, Section 1901 et seq., governs all proceedings under this section that pertain to an Indian child as defined in that Act.

G. Proceedings and records under this section are not public unless the court orders otherwise. The Supreme Judicial Court may adopt rules governing requests for access to these proceedings and records.

3. Termination. Except as provided in subsection 4, if the petitioner proves the allegation in subsection 2, paragraph A by a preponderance of the evidence, the court shall terminate the parental rights and responsibilities of the parent. If the petitioner proves the allegation in subsection 2, paragraph B by clear and convincing evidence, the court may terminate the parental rights and responsibilities of the parent.

3-A. Termination. The court:

- A. Shall order termination of the parent's parental rights and responsibilities if the court finds based on a preponderance of the evidence that the petitioner has proven the allegations in subsection 2, paragraph A unless the court determines that the exception in subsection 4 applies; or

B. May order termination of the parent's parental rights and responsibilities if the court finds based on clear and convincing evidence:

(1) That the petitioner has proven the allegations in subsection 2, paragraph B; or

(2) That the petitioner has proven the allegations in subsection 2, paragraph C and, if so, that the termination is also in the best interest of the child. Evidence that termination is necessary to protect the child from harm or threat of serious harm may include, but is not limited to, proof of:

(a) The parent's conduct demonstrating an intent to permanently forgo all parental duties or relinquish parental claims regarding the child when that conduct results in harm or threat of harm to the child; or

(b) The parent's acts of abuse, as defined in section 4002, subsection 1, upon the petitioner or a minor child in the parent's or petitioner's household.

Except as provided in this section or in Title 18-C, section 9-204, a court may not terminate the parental rights and responsibilities of a parent on a petition filed by another parent or the parent or guardian of a child's minor parent.

4. Exception. The court is not required to terminate the parental rights and responsibilities of a parent convicted of gross sexual assault under Title 17-A, section 253, subsection 1, paragraph B that resulted in the conception of the child if:

A. The parent or guardian of the other parent filed the petition;

B. The other parent informs the court that the sexual act was consensual; and

C. The other parent opposes the termination of the parental rights and responsibilities of the parent convicted of the gross sexual assault.

5. Effects of termination order. An order terminating parental rights and responsibilities under this section has the effects set forth in Title 22, section 4056.

of the child if that parent is a minor, the court shall follow the requirements of Title 19-A, section 1658. If the petitioner is also petitioning to adopt the child, the court shall follow the requirements of Title 18-C, section 9-204.

Sec. 4. 22 MRSA §4052, sub-§3, as amended by PL 1981, c. 369, §14, is further amended to read:

§7403-A. Insurance requirements for peer-to-peer car sharing

1. Insurance coverage during car sharing period; liability. The following requirements apply to insurance coverage and liability during a car sharing period.

A. A peer-to-peer car sharing program shall assume the liability, except as provided in paragraph B, of a shared vehicle owner for bodily injury or property damage to 3rd parties or uninsured and underinsured motorists or personal injury protection losses during the car sharing period in an amount stated in the car sharing program agreement as long as the amount is not less than minimum requirements in Title 29-A, section 1605.

B. Notwithstanding the definition of "car sharing termination time" as set forth in section 7402, subsection 5, the assumption of liability under paragraph A does not apply when:

- (1) A shared vehicle owner makes an intentional or fraudulent material misrepresentation or omission to the peer-to-peer car sharing program before the car sharing period in which the loss occurred; or

(2) A shared vehicle owner is acting in concert with a shared vehicle driver who fails to return the shared vehicle pursuant to the terms of car sharing program agreement.

C. Notwithstanding the definition of "car sharing termination time" as set forth in section 7402, subsection 5, the assumption of liability under paragraph A applies to bodily injury or property damage to 3rd parties or uninsured and underinsured motorist or personal injury protection losses as required by Title 29-A, section 1605.

D. A peer-to-peer car sharing program shall ensure that, during each car sharing period, the shared vehicle owner and the shared vehicle driver are insured under a motor vehicle liability insurance policy that provides insurance coverage in amounts not less than the minimum amounts set forth in Title 29-A, section 1605 and:

- (1) Recognizes that the shared vehicle insured under the policy is made available and used through a peer-to-peer car sharing program; or
- (2) Does not exclude use of a shared vehicle by a shared vehicle driver.

E. The requirement for insurance coverage described under paragraph D may be satisfied by providing evidence of a motor vehicle liability insurance maintained by:

- (1) A shared vehicle owner;
- (2) A shared vehicle driver;
- (3) A peer-to-peer car sharing program; or
- (4) A shared vehicle owner, a shared vehicle driver and a peer-to-peer car sharing program collectively.

F. Insurance coverage that meets the requirements of paragraph D and obtained in accordance with paragraph E must be primary coverage during each car sharing period and, in the event that a claim occurs in another state with minimum financial responsibility limits higher than in Title 29-A, section 1605, during the car sharing period the coverage maintained under paragraph E must satisfy the difference in minimum coverage amounts up to the applicable policy limits.

G. The insurer, insurers or peer-to-peer car sharing program providing coverage in accordance with paragraph D or E shall assume primary liability for a claim when:

- (1) A dispute exists as to who was in control of the shared motor vehicle at the time of the loss and the peer-to-peer car sharing program does not have available, did not retain or fails to provide the information required by section 7404-A subsection 4; or

(2) A dispute exists as to whether the shared vehicle was returned to the alternatively agreed upon location as required under section 7402, subsection 5, paragraph B.

H. If insurance maintained by a shared vehicle owner or shared vehicle driver in accordance with paragraph E has lapsed or does not provide the required coverage, insurance maintained by a peer-to-peer car sharing program must provide the coverage required by paragraph D beginning with the first dollar of a claim, and the peer-to-peer car sharing program has the duty to defend that claim except under circumstances set forth in paragraph B.

I. Coverage under a motor vehicle liability insurance policy maintained by the peer-to-peer car sharing program may not be dependent on another insurer's first denying a claim or a requirement in another insurance policy to first deny a claim.

2. Exclusions in motor vehicle liability insurance policies. An insurer that writes motor vehicle liability insurance in the State may exclude any and all coverage and the duty to defend or indemnify for any claim afforded under a shared vehicle owner's motor vehicle liability insurance policy, including but not limited to:

- B. Personal injury protection coverage;
- C. Uninsured and underinsured motorist coverage;
- D. Medical payments coverage;
- E. Comprehensive physical damage coverage; and

This subsection does not invalidate, limit or restrict an insurer's ability under existing law to underwrite any insurance policy or to cancel or not renew any insurance policy.

3. Exemption; vicarious liability. A peer-to-peer car sharing program and a shared vehicle owner are exempt from vicarious liability consistent with 49 United States Code, Section 30106 and under any state or local law that imposes liability solely based on vehicle ownership.

4. Contribution against indemnification. An insurer that defends or indemnifies a claim against a shared vehicle that is excluded under the terms of its policy has the right to seek recovery against the insurer of the peer-to-peer car sharing program if the claim is:

A. Made against the shared vehicle owner or the shared vehicle driver for loss or injury that occurs during the car sharing period; and

B. Excluded under the terms of its policy.

5. Insurable interest. Notwithstanding any other law, statute, rule or regulation to the contrary, a peer-to-peer car sharing program has an insurable interest in a shared vehicle during the car sharing period. This section does not impose liability on a peer-to-peer car sharing program to maintain the coverage mandated by subsection 1. A peer-to-peer car sharing program may own and maintain as the named insured one or more policies of motor vehicle liability insurance that provides coverage for:

A. Liabilities assumed by the peer-to-peer car sharing program under a peer-to-peer car sharing program agreement;

B. Any liability of the shared vehicle owner;

C. Damage or loss to the shared motor vehicle; or

D. Any liability of the shared vehicle driver.

6. Construction. This section does not limit the liability of the peer-to-peer car sharing program for any act or omission of the peer-to-peer car sharing program itself that results in injury to any person as a result of the use of a shared vehicle through a peer-to-peer car sharing program or limit the ability of a peer-to-peer car sharing program to, by contract, seek indemnification from the shared vehicle owner or the shared vehicle driver for economic loss sustained by the peer-to-peer car sharing program resulting from a breach of the terms and conditions of the car sharing program agreement.

Sec. 9. 24-A MRSA §7404, as enacted by PL 2019, c. 367, §1, is repealed.

Sec. 10. 24-A MRSA §7404-A is enacted to read:

§7404-A. Responsibilities of peer-to-peer car sharing programs

C. That the peer-to-peer car sharing program's insurance coverage on the shared vehicle owner and the shared vehicle driver is in effect only during each car sharing period and that, for any use of the shared vehicle by the shared vehicle driver after the car sharing termination time, the shared vehicle driver and the shared vehicle owner may not have insurance coverage;

At the time a vehicle owner registers as a shared vehicle owner with a peer-to-peer car sharing program and prior to the time when the shared vehicle owner makes a shared vehicle available for car sharing with the peer-to-peer car sharing program, the peer-to-peer car sharing program shall notify the shared vehicle owner that, if the shared vehicle has a lien against it, the use of the shared vehicle through a peer-to-peer car sharing program, including use without physical damage coverage, may violate the terms of the contract with the lienholder.

3. Motor vehicle safety recalls. This subsection applies to motor vehicle safety recalls of shared vehicles.

A. At the time a vehicle owner registers as a shared vehicle owner with a peer-to-peer car sharing program and prior to the time when the shared vehicle owner makes a shared vehicle available for car sharing with the peer-to-peer car sharing program, the peer-to-peer car sharing program shall:

(1) Verify that the shared vehicle does not have any safety recalls on the vehicle for which the repairs have not been made; and

B. If the shared vehicle owner has received an actual notice of a safety recall on the vehicle, a shared vehicle owner may not make a vehicle available as a shared vehicle with a peer-to-peer car sharing program until the safety recall repair has been made.

(2) When the notice of a safety recall is received while the shared vehicle is being used in the possession of a shared vehicle driver, as soon as practicably possible after receiving the notice of the safety recall the shared vehicle owner shall notify the peer-to-peer car sharing program about the safety recall so that the shared vehicle owner may address the safety recall repair.

4. Recordkeeping; use of vehicle in car sharing. A peer-to-peer car sharing program shall collect and verify records pertaining to the use of a vehicle, including, but not limited to, times used, car sharing period pick up and drop off locations, fees paid by the shared vehicle driver and revenues received by the shared vehicle owner, and shall provide that information upon request to the shared vehicle owner, the shared vehicle owner's insurer or the shared vehicle driver's insurer to facilitate a claim coverage investigation, settlement, negotiation or litigation. The peer-to-peer car sharing program shall retain the records for a time period not less than the applicable personal injury statute of limitations.

5. Driver's license verification and data retention. A peer-to-peer car sharing program may not enter into a peer-to-peer car sharing program agreement with a driver unless the driver who will operate the shared vehicle:

the shared vehicle; and the place of issuance of the driver's license.

6. Responsibility for equipment. A peer-to-peer car sharing program has sole responsibility for any equipment, such as a GPS system or other special equipment that is put in or on the vehicle to monitor or facilitate the car sharing transaction, and shall agree to indemnify and hold harmless the vehicle owner for any damage to or theft of such equipment during the sharing period not caused by the vehicle owner. The peer-to-peer car sharing program has the right to seek indemnity from the shared vehicle driver for any loss or damage to such equipment that occurs during the sharing period.

§7056. Policy; responsibilities; enforcement; standards

1. Policy. Notwithstanding any provision of this Title to the contrary, travel insurance rates and forms must be filed with and approved by the superintendent. For purposes of such filings, travel insurance must be classified and filed for purposes of rates and forms as inland marine insurance, except that travel insurance that provides coverage for sickness, accident, disability or death occurring during travel, either exclusively or in conjunction with related coverages of emergency evacuation or repatriation of remains, or incidental limited property and casualty benefits such as lost baggage or trip cancellation, may, subject to the superintendent's discretion, be filed as either health insurance or inland marine insurance. Travel insurance may be provided under an individual policy or under a group or ~~master~~ blanket travel insurance policy.

2. Responsibility. A As the insurer's designee, a supervising travel insurance producer is responsible for the acts of a travel retailer offering and disseminating travel insurance under the supervising travel insurance producer's authority and shall use reasonable means to ensure compliance by the travel retailer with this chapter.

3. Enforcement. A supervising travel insurance producer and any travel retailer offering and disseminating travel insurance are subject to chapters 16 and 23.

4. Eligibility and underwriting standards. Eligibility and underwriting standards for travel insurance may be developed and provided based on travel protection plans designed for individual or identified marketing or distribution channels, as long as those standards also meet the State's underwriting standards for inland marine insurance.

Sec. 14. 24-A MRSA §7057 is enacted to read:
§7057. Travel protection plans

A travel protection plan composed of combined features may be offered for one price if:

1. Disclosures. The travel protection plan clearly discloses to the consumer, at or prior to the time of purchase, that it includes travel insurance, travel assistance services and cancellation fee waivers, as applicable, and provides information and an opportunity, at or prior to the time of purchase, for the consumer to obtain additional information regarding the features and pricing of each; and

2. Fulfillment material requirements. The fulfillment materials must:

A. Describe and delineate the travel insurance, travel assistance services and cancellation fee waivers in the travel protection plan; and

B. Include the travel insurance disclosures under subsection 1 and the contact information for persons providing travel assistance services and cancellation fee waivers, as applicable.

Sec. 15. 24-A MRSA §7058 is enacted to read:
§7058. Sales practices

1. Trade practices and frauds applicability. All persons offering travel insurance to residents of this State are subject to chapter 23, except as otherwise provided in this section. In the event of a conflict between this chapter and other provisions of this Title regarding the sale and marketing of travel insurance and travel protection plans, the provisions of this chapter control.

2. Deceptive travel insurance. Offering or selling a travel insurance policy that could never result in payment of any claims for any insured under the policy is an unfair trade practice under chapter 23.

3. Marketing. All persons offering travel insurance to residents of this State shall comply with the marketing requirements in this subsection.

A. All documents provided to consumers prior to the purchase of travel insurance, including but not limited to policy summaries, sales materials, advertising materials and marketing materials, must be consistent with the travel insurance policy, including but not limited to forms, endorsements, policies, rate filings and certificates of insurance.

B. For travel insurance policies or certificates that contain preexisting condition exclusions, information and a reasonable opportunity to learn more about the preexisting condition exclusions must be provided prior to the time of purchase and in the fulfillment materials under section 7057, subsection 2.

C. The fulfillment materials under section 7057, subsection 2 and the information described in section 7054, subsection 1, paragraphs A, D and E must be provided to a primary policyholder or primary certificate holder as soon as practicable following the purchase of a travel protection plan. Unless the insured has either started a covered trip or filed a claim under the travel insurance coverage, a primary policyholder or primary certificate holder may cancel a policy or certificate for a full refund of the travel protection plan price from the date of purchase of a travel protection plan until at least:

(1) Fifteen days following the date of delivery of the travel protection plan's fulfillment materials by mail; or

(2) Ten days following the date of delivery of the travel protection plan's fulfillment materials by means other than mail.

For the purposes of this paragraph, "delivery" means handing fulfillment materials to the primary policyholder or primary certificate holder or sending fulfillment materials by mail or electronic means to the primary policyholder or primary certificate holder.

D. The insurer shall disclose in the policy documentation and fulfillment materials whether the travel insurance is primary or secondary to other applicable coverage.

E. When travel insurance is marketed directly to a consumer through an insurer's website or by others through an aggregator site, it is not an unfair trade practice or other violation of law for an accurate summary or short description of coverage to be provided on the website or through an aggregator site, so long as the consumer has access to the full provisions of the policy through electronic means.

4. Opt-out format. A person offering, soliciting or negotiating travel insurance or travel protection plans on an individual or group basis may not do so by using a negative option or opt-out format that requires a consumer to take an affirmative action to deselect coverage, such as unchecking a box on an electronic form, when the consumer purchases a trip.

5. Blanket travel insurance. It is an unfair trade practice to market blanket travel insurance coverage as free.

6. Jurisdiction dictating coverage. When a consumer's destination jurisdiction requires insurance coverage, it is not an unfair trade practice to require that a consumer choose between the following options as a condition of purchasing a trip or travel package:

A. Purchasing the coverage required by the destination jurisdiction through the travel retailer or supervising travel insurance producer supplying the trip or travel package; or

B. Agreeing to obtain and provide proof of coverage that meets the destination jurisdiction's requirements prior to departure.

Sec. 16. 24-A MRSA §7059 is enacted to read:
§7059. Travel administrators

1. License required. Notwithstanding any provision of this Title to the contrary, a person may not act or represent itself as a travel administrator for travel insurance in the State unless that person:

A. Is a licensed property and casualty insurance producer in the State for activities permitted under that producer license;

B. Holds a valid managing general agent license in the State; or

C. Holds a valid 3rd-party administrator license in the State.

2. Exemption from adjuster license requirements. A travel administrator and its employees are exempt from the licensing requirements for adjusters in chapter 16 for travel insurance the travel administrator administers.

3. Insurer responsible. An insurer is responsible for the acts of a travel administrator administering travel insurance underwritten by the insurer, including any affiliate of the insurer acting as a travel administrator for the direct and assumed insurance business of the affiliated insurer, and is responsible for ensuring that the travel administrator maintains all books and records relevant to the insurer to be made available by the travel administrator to the superintendent upon request.

Sec. 17. 24-A MRSA §7060 is enacted to read:
§7060. Rulemaking

The superintendent may adopt rules to implement the provisions of this chapter. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

Sec. 18. 36 MRSA §2513-C is enacted to read:

3. Insurer requirements. An insurer shall:

A. Document the state of residence or principal place of business of the policyholder or certificate holder described in subsection 1; and

§173. Duties of board; requirements of program

1. Duties. In carrying out the purposes of this chapter, the board shall:

A. Develop, establish, implement and maintain the program and, to that end, may conduct market, legal and feasibility analyses if the board considers them advisable;

B. Adopt rules the board considers necessary or advisable for the implementation and general administration and operation of the program as provided in section 174, consistent with the Internal Revenue Code and regulations under that Code, including to ensure that the program satisfies all criteria for favorable federal tax treatment and complies, to the extent necessary, with any other applicable federal or state law;

C. Use private sector partnerships to contract with a program administrator to administer the program and manage the investments under the supervision and guidance of the board in accordance with this chapter;

D. Cause funds to be held and invested and reinvested under the program;

E. Develop and implement an investment policy that defines the program's investment objectives consistent with the objectives of the program and that provides for policies and procedures consistent with those investment objectives. The board shall strive to select and offer investment options available to participants and other program features that are intended to achieve maximum possible income replacement balanced with an appropriate level of risk in an IRA-based environment consistent with the investment objectives under the policy. The investment options may encompass a range of risk and return opportunities and allow for a rate of return commensurate with an appropriate level of risk in view of the investment objectives under the policy. The menu of investment options must be determined by considering the nature and objectives of the program, the desirability based on behavioral research findings of limiting investment options under the program to a reasonable number and the extensive investment options available to participants in the event that they roll over funds in an IRA established under the program to an IRA outside the program. In accordance with paragraphs K and O, the board, in carrying out its responsibilities and exercising its powers under this chapter, shall employ or retain appropriate entities or personnel to assist or advise it and to whom to delegate the carrying out of such responsibilities and exercise of such powers;

F. Arrange for collective, common and pooled investment of assets of the program and enterprise fund, including investments in conjunction with other funds with which these assets are permitted to be collectively invested, with a view to saving costs through efficiencies and economies of scale;

G. Cause the program, enterprise fund and arrangements and accounts established under the program to be designed, established and operated:

- (1) In accordance with best practices for retirement savings accounts;
- (2) To encourage participation and saving and to make it simple, easy and convenient for participants to contribute and manage their savings;
- (3) To promote sound investment practices and appropriate investment menus and default investments;
- (4) To maximize simplicity and ease of administration for covered employers;
- (5) To minimize costs, including by collective investment and economies of scale;
- (6) To promote portability of benefits; and
- (7) To avoid preemption of the program by federal law;

H. Educate participants and potential participants on the benefits of planning and saving for retirement, help them decide the level of participation and saving strategies that may be appropriate for them and help them develop greater financial capability and financial literacy, including through partnerships with organizations based in the State specializing in financial literacy education;

I. In accordance with rules adopted by the board, determine the eligibility of an employer, employee or other individual to participate in the program, including conditions under which an employer that terminates the offering of a specified tax-favored retirement plan can become a covered employer eligible to participate in the program;

J. Arrange for and facilitate compliance by the program or arrangements established under the program with all requirements applicable to the program under the Internal Revenue Code, including requirements for favorable tax treatment of the IRAs, and any other applicable federal or state law or accounting requirements, including using its best efforts to implement procedures minimizing the risk that covered employees will exceed the limits on tax-favored IRA contributions that they are eligible to make and otherwise providing or arranging for assistance to covered employers and covered employees in complying with applicable law and tax-related requirements in a cost-effective manner. The board may establish any processes it reasonably considers to be necessary or advisable to verify whether an employer is a covered employer, including reference to online data and possible use of questions in employer state tax filings, consistent with the objective of avoiding to the fullest extent practicable any need to require employers that are not covered employers to register with the program or take other action to demonstrate that they maintain specified tax-favored retirement plans or are exempt for other reasons from being treated as covered employers;

K. Employ or otherwise retain a program administrator, an executive director, staff, a trustee, a record keeper, investment managers, investment advisors, other administrative, professional and expert advisors and service providers, none of whom may be members of the board and all of whom serve at the pleasure of the board, and the board shall determine their duties and compensation. The board may authorize the executive director employed by the board to enter into contracts, as described in paragraph O, on behalf of the board or conduct any business necessary for the efficient operation of the board;

L. Discharge its duties and ensure that the members of the board discharge their duties with respect

to the program solely in the interest of the participants as follows:

(1) For the exclusive purpose of providing benefits to participants and defraying reasonable expenses of administering the program; and

(2) With the care, skill, prudence and diligence under the circumstances then prevailing that persons of prudence, discretion and intelligence, acting in a like capacity and familiar with those matters, would use in the conduct of an enterprise of a like character and with like aims;

M. Make provision for costs and expenses incurred to initiate, implement, maintain, manage and administer the program and its investments to be paid or defrayed from investment returns or assets of the program or from the charging and collection of other fees, charges or funds, whether account-based, asset-based, per capita or otherwise, by or for the program or pursuant to arrangements established under the program to the extent permitted under federal and state law;

N. Accept any grants, gifts, legislative appropriation, loans and other funds from the State, any unit of federal, state or local government or any other person, firm or entity to defray the costs of administering and operating the program in accordance with the requirements of section 178, subsection 1;

O. Make and enter into contracts, agreements or arrangements for and collaborate and cooperate with and retain, employ and contract with or for any of the following to the extent the board considers necessary or advisable for the effective and efficient design, implementation and administration of the program consistent with the purposes set forth in this chapter and to maximize outreach to covered employers and covered employees:

(1) Services of private and public financial institutions, depositories, consultants, actuaries, counsel, auditors, investment advisors, investment administrators, investment management firms, other investment firms, 3rd-party administrators, other professionals and service providers, the retirement system, the Office of the Treasurer of State, other state treasurers and other state public retirement systems;

(2) Research, technical, financial, administrative and other services;

(3) Services of other state agencies and instrumentalities, including without limitation those with responsibilities for tax collection, budget, finance, labor and employment regulation, consumer protection, business regulation and liaison, benefits and public assistance, to assist

the board in the exercise of its powers and duties, and all such agencies and instrumentalities shall provide such assistance at the board's request; or

(4) Services to develop and implement outreach efforts to gain input and disseminate information regarding the program and retirement saving in general, including timely information to covered employers regarding the program and how it applies to them, with special emphasis on their ability at any time to sponsor a specified tax-favored retirement plan that would exempt them from any responsibilities under the program;

P. Ensure that all contributions to an IRA under the program are used only to pay benefits to participants under the program, pay the cost of administering the program or make investments for the benefit of the program and that no assets of the program or enterprise fund are transferred to the General Fund or to any other fund of the State or are otherwise encumbered or used for any other purpose;

Q. Consider whether procedures should be adopted to allow employers that are not covered employers because they are exempt from covered employer status to voluntarily participate in the program by automatically enrolling their employees, considering, among other factors, the potential legal consequences and the degree of employer demand to participate or facilitate participation by employees;

R. Evaluate the need for, and procure if and as considered necessary, insurance against any loss in connection with the property, assets or activities of the program, including, if and as considered necessary, pooled private insurance;

S. Indemnify, including procurement of insurance if and as needed for this purpose, each member of the board from personal loss or liability resulting from a member's action or inaction as a member of the board;

T. Collaborate with, and evaluate the role of, financial advisors or other financial professionals, including in assisting and providing guidance for covered employees;

U. Along with its members, the program administrator and other staff of the board, comply with any applicable state ethics and gift laws, procurement codes and restrictions and restrictions on honoraria and may not:

(1) Directly or indirectly have any interest in the making of any investment under the program or in gains or profits accruing from any such investment;

(2) Borrow any program-related funds or deposits, or use any such funds or deposits in any manner, for the benefit of the board or any member or as an agent or partner of others; or

(3) Become an endorser, surety or obligor on investments made under the program; and

V. Carry out its powers and duties under the program pursuant to this chapter and exercise any other powers as are appropriate for the effectuation of the purposes, objectives and provisions of this chapter pertaining to the program.

2. Required elements of program. In accordance with the implementation dates set forth in subsection 3, the program must:

A. Allow an eligible individual in this State to choose whether or not to contribute to an IRA under the program, including allowing a covered employee in the State the choice to contribute to an IRA under the program through a payroll deduction IRA arrangement;

B. Notwithstanding any provision of state law related to payroll deduction to the contrary, require each covered employer to offer its covered employees the choice whether or not to contribute to a payroll deduction IRA by automatically enrolling them in the payroll deduction IRA with the opportunity to opt out. A covered employee who is not a participant because that employee has opted out will be automatically reenrolled with the opportunity to opt out again at regular or ad hoc intervals determined by the board in its discretion, but not more frequently than annually;

C. Provide that the IRA to which contributions are made is a Roth IRA, except that the board has the authority at any time, in its discretion, to add an option for all participants to affirmatively elect to contribute to a traditional IRA as an alternative to the Roth IRA;

D. Provide that, unless otherwise specified by the covered employee, a covered employee must automatically initially contribute 5% of the covered employee's salary or wages to the program and may elect to opt out of the program at any time or contribute at any higher or lower rate, expressed as a percentage of salary or wages, or, if the board in its discretion permits, expressed as a flat dollar amount, subject in all cases to the IRA contribution and income eligibility limits applicable under the Internal Revenue Code at no additional charge. The board is authorized to change, from time to time, the 5% automatic initial default contribution rate for all covered employees in its discretion;

E. Provide on a uniform basis, if and when the board so determines in its discretion, for an annual increase of each participant's contribution rate, by

not more than 1% of salary or wages per year up to a maximum of 8%. Any such increases must apply to participants, as determined by the board in its discretion, either by default or only if initiated by affirmative participant election and are in either case subject to the IRA contribution and income eligibility limits applicable under the Internal Revenue Code;

F. Provide for direct deposit of contributions into investments under the program, including, but not limited to, a default investment such as a series of target date funds and a limited number of investment alternatives including a principal preservation option determined by the board. In addition, the board may provide that each participant's initial contributions, up to a specified dollar amount or for a specified period of time, are required to be invested in a principal preservation investment or, in the board's discretion, must be defaulted into such an investment unless the participant affirmatively opts for a different investment for those contributions. The board shall determine how often participants will have the opportunity to change their selections of investments for future contributions or existing balances or both;

G. Provide that employer contributions by a covered employer are not required or permitted;

H. Be professionally managed;

I. When possible and practicable, use existing employer and public infrastructure to facilitate contributions, record keeping and outreach and use pooled or collective investment arrangements for amounts contributed to the program;

J. Require the maintenance of separate records and accounting for each account under the program and allow for participants to maintain their accounts regardless of place of employment and to roll over funds into other IRAs or other retirement accounts;

K. Provide for reports on the status of each participant's account to be provided to each participant at least annually and make best efforts to provide each participant frequent or continual online access to information on the status of that participant's account;

L. Provide that each participant owns the contributions to and earnings on amounts contributed to the participant's account under the program and that the State and covered employers have no proprietary interest in those contributions or earnings;

M. Be designed and implemented in a manner consistent with federal law to the extent that it applies and consistent with the program not being preempted by, and the payroll deduction IRAs and covered employers not being subject to, ERISA;

N. Promote expanded retirement saving by encouraging employers in the State that would otherwise be covered employers to instead adopt a specified tax-favored retirement plan;

O. Make provision for participation in the program by individuals who are not employees, such as self-employed individuals and independent contractors, as provided in rules adopted pursuant to section 174, subsection 2;

P. Seek to keep fees, costs and expenses of the program as low as practicable, except that any administrative fee imposed on a covered employee for participating in the program may not exceed a reasonable amount relative to fees charged by similar established programs in other states. The fee may be an asset-based or investment return fee, flat fee or hybrid of the permissible fee structures identified in this paragraph;

Q. Adopt rules and establish procedures governing the distribution of funds from the program, including such distributions as may be permitted or required by the program and any applicable provisions of tax laws, with the objectives of maximizing financial security in retirement, helping to protect spousal rights and assisting participants with the challenges of decumulation of savings. The board has the authority to provide for one or more reasonably priced distribution options to provide a source of regular retirement income, including income for life or for the participant's life expectancy or for joint lives and life expectancies, as applicable;

R. Adopt rules and establish procedures promoting portability of benefits, including the ability to make tax-free rollovers or transfers from IRAs under the program to other IRAs or to tax-qualified plans that accept such rollovers or transfers;

S. Establish penalties in accordance with subsection 4 for a covered employer that fails without reasonable cause to enroll a covered employee in the program as required or that fails to transmit a payroll deduction IRA contribution to the program as required;

T. In accordance with subsection 1, paragraph C, use private sector entities to administer the program and invest the contributions to the program under the supervision and guidance of the board; and

U. Allow the board to provide for the establishment, maintenance, administration, operation and implementation of the program to be carried out jointly with, or in partnership, collaboration, coordination or alliance with one or more other states, the Federal Government or any federal, state or local agencies or instrumentalities.

3. Implementation. The board shall implement the program in phases as required in this subsection.

A. Beginning April 1, 2023, the board shall require a covered employer with 25 or more covered employees to offer the program to its covered employees.

B. Beginning October 1, 2023, the board shall require a covered employer with 15 to 24 covered employees to offer the program to its covered employees.

C. Beginning April 1, 2024, the board shall require a covered employer with 5 to 14 covered employees to offer the program to its covered employees.

Notwithstanding paragraphs A to C, a covered employer may voluntarily offer the program to its covered employees on or after April 1, 2023. A covered employer with fewer than 5 employees is not required to offer the program to its covered employees but may offer the program to its employees at the option of the employer and in accordance with rules established by the board.

4. Penalties. The board shall establish and enforce penalties in accordance with this subsection.

A. If a covered employer fails to enroll a covered employee without reasonable cause, the covered employer is subject to a penalty for each covered employee for each calendar year or portion of a calendar year during which the covered employee was not enrolled in the program or had not opted out of participation in the program and, for each calendar year beginning after the date on which a penalty has been assessed with respect to a covered employee, is subject to a penalty for any portion of that calendar year during which the covered employee continues to be unenrolled without opting out of participation in the program. The amount of any penalty imposed on a covered employer for the failure to enroll a covered employee without reasonable cause is determined as follows:

(1) Prior to April 1, 2024, the maximum penalty per covered employee is \$10;

(2) From April 1, 2024 to March 31, 2025, the maximum penalty per covered employee is \$20;

(3) From April 1, 2025 to September 30, 2026, the maximum penalty per covered employee is \$50; and

(4) On or after October 1, 2026, the maximum penalty per covered employee is \$100.

B. A penalty may not be imposed on a covered employer for any failure to enroll a covered employee for which it is established that the covered employer did not know that the failure existed and

exercised reasonable diligence to meet the requirements of this chapter.

C. A penalty may not be imposed on a covered employer for any failure to enroll a covered employee if the covered employer exercised reasonable diligence to meet the requirements of this chapter and the covered employer complies with those requirements with respect to each covered employee by the end of the 90-day period beginning on the first date the covered employer knew, or exercising reasonable diligence would have known, that the failure existed.

D. In the case of a failure that is due to reasonable cause and not to willful neglect, all or part of the penalty may be waived to the extent that the payment of the penalty would be excessive or otherwise inequitable relative to the failure involved.

E. If a covered employer fails to remit a payroll deduction contribution to the program on the earliest date the amount withheld from the covered employee's compensation can reasonably be segregated from the covered employer's assets, but not later than the 15th day of the month following the month in which the covered employee's contribution amounts are withheld from the covered employee's paycheck, the failure to remit the contribution on a timely basis is subject to the same penalties as apply to employer misappropriation of employee wage withholdings and to the penalties specified in paragraph A.

F. The Attorney General shall represent the board in enforcement and collection of penalties.

§174. Rules

1. Authority. The board may adopt rules as necessary to implement this chapter, except that the board shall adopt rules required pursuant to subsection 2. Rules adopted pursuant to this chapter are routine technical rules as defined in chapter 375, subchapter 2-A.

2. Required rules. The board shall adopt rules to:

A. Establish the processes for enrollment and contributions to an IRA under the program, notwithstanding any provision of state law related to payroll deductions to the contrary, including withholding by covered employers of employee payroll deduction contributions from wages and remittance for deposit to an IRA, automatic enrollment in a payroll deduction IRA and opt-outs by covered employees, voluntary contributions by others, including self-employed individuals and independent contractors, through payroll deduction or otherwise, the making of default contributions using default investments and participant selection of alternative contribution rates or amounts and alternative investments from among the options offered under the program;

B. Establish the processes for withdrawals, rollovers and direct transfers from an IRA under the program in the interest of facilitating portability of benefits;

C. Establish processes for phasing in enrollment of eligible individuals, including phasing in enrollment of covered employees by size or type of covered employer in accordance with section 173, subsection 3;

D. Establish requirements for the determination of whether a part-time, seasonal or temporary employee is a covered employee eligible to participate in the program;

E. Establish a process for a participant to make nonpayroll contributions to accounts under the program;

F. Establish a process for an employer to be determined to be exempt from the program because the employer sponsors a specified tax-favored retirement plan; and

G. Conduct outreach to individuals, employers, other stakeholders and the public regarding the program, including specifying the contents, frequency, timing and means of required disclosures from the program to covered employees, participants, other individuals eligible to participate in the program, covered employers and other interested parties. These disclosures must include, but are not limited to, the following:

(1) The benefits and risks associated with tax-favored retirement saving under the program;

(2) The potential advantages and disadvantages associated with contributing to a Roth IRA and, if applicable, a traditional IRA under the program;

(3) The eligibility rules for a Roth IRA and, if applicable, a traditional IRA;

(4) That the individual and not the employer, the State, the board, any board member or other state official or the program is solely responsible for determining whether, and, if so, how much, the individual is eligible to contribute on a tax-favored basis to an IRA;

(5) The penalty for excess contributions to an IRA and the method of correcting excess contributions;

(6) Instructions for enrolling, opting out of participation, making contributions and making withdrawals, including the possibility of contributing to an IRA, whether offered under the program or not, by means other than automatic enrollment in a payroll deduction IRA;

(7) Instructions for opting out of each of the Roth IRA, the default contribution rate and the default investment if the covered employee prefers a traditional IRA, including the possibility of contributing to a traditional IRA, if offered as an option under the program, a higher or lower contribution rate or different investment alternatives;

(8) The potential availability of a saver's tax credit, including the eligibility conditions for the credit and instructions on how to claim it;

(9) That employees seeking tax, investment or other financial advice should contact appropriate professional advisors and that covered employers are not in a position to provide such advice and are not liable for decisions individuals make in relation to the program;

(10) That the payroll deduction IRA is intended not to be an employer-sponsored retirement plan and that the program is not an employer-sponsored retirement plan;

(11) The potential implications of account balances under the program for the application of asset limits under certain public assistance programs;

(12) That the participant is solely responsible for investment performance, including market gains and losses, and that IRAs and rates of return are not guaranteed by any employer, the State, the board, any board member or state official or the program;

(13) Additional information about retirement and saving and other information designed to promote financial literacy and capability, which may take the form of links to, or explanations of how to obtain, such information; and

(14) How to obtain additional information about the program.

§175. Protection from liability

1. Employer protection from liability. A covered employer or other employer is not and may not be considered a fiduciary in relation to the program or enterprise fund or any other arrangement under the program. A covered employer or other employer is not and may not be liable for and does not and may not bear responsibility for:

A. An employee's decision to participate in or opt out of the program;

B. Investment decisions of the board or any participant;

C. The administration, investment, investment returns or investment performance of the program,

including without limitation any interest rate or other rate of return on any contribution or account balance;

D. The program design or the benefits paid to participants;

E. An individual's awareness of or compliance with the conditions and other provisions of the tax laws that determine which individuals are eligible to make tax-favored contributions to an IRA, in what amount and in what time frame and manner; or

F. Any loss, deficiency, failure to realize any gain or any other adverse consequences, including without limitation any adverse tax consequences or loss of favorable tax treatment, public assistance or other benefits, incurred by any person as a result of participating in the program.

2. Protection for the State and others. The State, the board, each member of the board or other state official and any other state board, commission or agency, and any member, officer or employee of any of these entities, and the program:

A. Have no responsibility for compliance by individuals with the conditions and other provisions of the Internal Revenue Code that determine which individuals are eligible to make tax-favored contributions to IRAs, in what amount and in what time frame and manner;

B. Have no duty, responsibility or liability to any party for the payment of any benefits under the program, regardless of whether sufficient funds are available under the program to pay such benefits;

C. Do not and may not guarantee any interest rate or other rate of return on or investment performance of any contribution or account balance; and

D. Are not and may not be liable or responsible for any loss, deficiency, failure to realize any gain or any other adverse consequences, including without limitation any adverse tax consequences or loss of favorable tax treatment, public assistance or other benefits, incurred by any person as a result of participating in the program.

3. Debts, contracts and obligations. The debts, contracts and obligations of the program or the board are not the debts, contracts and obligations of the State, and the faith and credit or the taxing power of the State is not pledged directly or indirectly to the payment of the debts, contracts and obligations of the program or the board.

4. Immunity of board members. The board and its staff are immune from suit on any and all tort claims seeking recovery of damages to the same extent as governmental entities under the Maine Tort Claims Act.

5. Legal representation and defense of board. The Attorney General is legal counsel to the board and

shall represent and defend the board, as a group and individually, in connection with any claim, suit or action at law arising out of the performance or nonperformance of any actions related to the program under this chapter to the same extent as provided for governmental entities in the Maine Tort Claims Act.

§176. Confidentiality of account information

1. Individual account information. Individual account information for accounts under the program, including, but not limited to, names, residential addresses, e-mail addresses, telephone numbers, personal identification information, amounts contributed and earnings on amounts contributed, is confidential and must be maintained as confidential except to the extent necessary to administer the program in a manner consistent with this chapter, the tax laws of this State and the Internal Revenue Code or unless the person who provides the information or is the subject of the information expressly agrees in writing that the information may be disclosed.

2. Restriction on use of personal information. An individual or organization that has access to personal information of participants solely because of its contracts or agreements with the board to provide services or support to the program, including plan administration, may not use that information to market its products or services not associated with the program to participants unless the participant affirmatively consents to receive such information.

§177. Intergovernmental collaboration and cooperation

The board may enter into an intergovernmental agreement or memorandum of understanding with the State and any agency or instrumentality of the State to receive outreach, technical assistance, enforcement and compliance services, collection or dissemination of information pertinent to the program, subject to such obligations of confidentiality as may be agreed to or required by law, or other services or assistance. The State and any agencies or instrumentalities of the State that enter into such agreements or memoranda of understanding shall collaborate to provide the outreach, assistance, information and compliance or other services or assistance to the board. The agreements or memoranda of understanding may cover the sharing of costs incurred in gathering and disseminating information and the reimbursement of costs for any enforcement activities or assistance.

§178. Maine Retirement Savings Program Enterprise Fund

1. Fund established. The Maine Retirement Savings Program Enterprise Fund is established as an enterprise fund. The board shall use funds deposited in the enterprise fund in accordance with this section. The enterprise fund may receive grants, gifts, donations,

appropriations, loans or other funds designated for administrative expenses or otherwise transferred to the enterprise fund from or deposited in the enterprise fund by the State or a unit of federal, state or local government or any other person, firm, partnership or corporation, including appropriations to the enterprise fund by the Legislature and funds from the payment of application, account, administrative or other fees and the payment of other funds due the board. Interest or other investment earnings or returns that are attributable to funds in the enterprise fund must be deposited into or retained in the enterprise fund. The enterprise fund may not lapse but must be carried forward to carry out the purposes of this chapter. The board shall amortize any amounts appropriated to the enterprise fund by the Legislature to ensure that those amounts are paid back to the funding sources based on an amortization schedule determined by the board, but no later than 5 years after the program is fully implemented.

2. Borrowing. To enable or facilitate the start-up and continuing operation, maintenance, administration and management of the program until the program accumulates sufficient balances and can generate sufficient funding through fees assessed on program accounts for the program to become financially self-sustaining, the board may borrow from the State, any unit of federal, state or local government or any other person, firm, partnership or corporation working capital funds and other funds as may be necessary for this purpose, as long as such funds are borrowed in the name of the program and board only and that any such borrowing is repaid solely from the revenues of the program. The board may not borrow from the retirement system for any purpose. The board may enter into long-term procurement contracts with one or more financial or service providers that provide a fee structure that would assist the program in avoiding or minimizing the need to borrow or to rely upon general assets of the State.

3. Administrative costs. Subject to appropriation by the Legislature, the State may pay administrative costs associated with the creation, maintenance, operation and management of the program and provide funding for the program until sufficient assets are available in the enterprise fund for that purpose. Thereafter, all administrative costs of the enterprise fund, including any repayment of start-up funds provided by the State, must be repaid only out of money on deposit in the enterprise fund. However, private funds or federal funding received in order to implement the program until the enterprise fund is self-sustaining may not be repaid unless those funds were offered contingent upon the promise of such repayment.

4. Use of enterprise fund. The board shall use the money in the enterprise fund solely to pay the administrative costs and expenses of the program and the administrative costs and expenses the board incurs in the performance of its duties under this chapter.

§179. Accounting and annual report

1. Account; audit. The board shall cause an accurate account of all of the program's, enterprise fund's and board's activities, operations, receipts and expenditures to be maintained on a calendar year basis. A full audit of the books and accounts of the board pertaining to those activities, operations, receipts and expenditures must be conducted by a certified public accountant, including, but not limited to, direct and indirect costs attributable to the use of outside consultants, independent contractors and any other persons who are not state employees for the administration of the program. For the purposes of the audit, the auditors must have access to the properties and records of the program and board and may prescribe methods of accounting and the rendering of periodic reports in relation to projects undertaken by the program.

2. Submission of report. Beginning February 1, 2024 and annually thereafter, the board shall submit to the Governor, the Treasurer of State and the Legislature an audited financial report, prepared in accordance with generally accepted accounting principles, detailing the activities, operations, receipts and expenditures of the program and board during the preceding calendar year. The report must include the number of participants, the investment options and their rates of return and other information regarding the program and must also include projected activities of the program for the current calendar year.

Sec. 2. 5 MRSA §12004-G, sub-§33-G is enacted to read:

33-G.

Sec. 3. Implementation of Maine Retirement Savings Program. Except as provided in this section, the Maine Retirement Savings Board shall establish the Maine Retirement Savings Program as required under this Act so that individuals may begin making contributions under the program no later than April 1, 2023.

1. Phase in of program; implementation. The board shall phase in the program with regard to covered employers and accept contributions from covered employees employed by those covered employers as required under this Act and may in its discretion phase in the program for individuals who are not employees, such as self-employed individuals or independent contractors, except that any implementation schedule set by the board must be such that all individuals may begin making contributions under the program no later than January 1, 2025. The board may not implement the program if and to the extent that the board determines that the program is preempted by the federal Employee Retirement Income Security Act of 1974, as amended, 29

United States Code, Section 1001 et seq. If and to the extent that the board determines that a portion or aspect of the program is preempted by the federal Employee Retirement Income Security Act of 1974, the board may not implement that portion or aspect of the program but shall proceed to implement the remainder of the program to the extent practicable.

2. Effect of federal Employee Retirement Income Security Act of 1974 on program. If the board determines that some but not all of the payroll deduction individual retirement account arrangements or other arrangements under the program are or would be employee benefit plans under the federal Employee Retirement Income Security Act of 1974, the board shall implement the program with respect to the other arrangements under the program to the extent practicable and may not implement the program with respect to plans covered by the federal Employee Retirement Income Security Act of 1974 or the board shall proceed to implement the program with respect to plans covered by the federal Employee Retirement Income Security Act of 1974 on a basis reflecting their status or possible status as such, as long as such actions do not create an undue risk of causing the federal Employee Retirement Income Security Act of 1974 to preempt state law with respect to other portions of the program or causing other arrangements under the program to be treated as plans covered by the federal Employee Retirement Income Security Act of 1974.

Sec. 4. Staggered terms. Notwithstanding the Maine Revised Statutes, Title 5, section 172, subsection 3, with regard to the original appointments of the members of the Maine Retirement Savings Board, the Governor shall appoint one member for a one-year term, 2 members for a 2-year term, 3 members for a 3-year term and any other member for a 4-year term. The Governor shall appoint the initial members of the board no later than April 1, 2022.

Sec. 5. Transfer of settlement funds; fiscal year 2021-22. Notwithstanding any provision of law to the contrary, no later than February 1, 2022, the State Controller shall transfer \$1,600,000 of the funds received pursuant to the multistate settlement agreement in The Matter of Moody's Corporation, Moody's Investors Services, Inc. and Moody's Analytics, Inc. signed February 3, 2017 to the Maine Retirement Savings Program Enterprise Fund established in the Maine Revised Statutes, Title 5, section 178. Funds transferred pursuant to this section must be used solely for consumer and antitrust activities identified in the court decree and approved by the Attorney General with the consent of the President of the Senate, the Speaker of the House of Representatives, the Minority Leader of the Senate and the Minority Leader of the House of Representatives.

§16-102. License required

§16-103. Cosigned private education loan

1. Information prior to extension of loan. Prior to the extension of a private education loan that requires a cosigner, a private education lender shall deliver the following information to the cosigner:

A. How the private education loan will appear on the cosigner's credit report;

B. How the cosigner will be notified if the private education loan becomes delinquent, and how the cosigner can cure a delinquency to avoid negative credit reporting and loss of cosigner release eligibility; and

C. Eligibility criteria for cosigner release, including the number of on-time payments and any other criteria required to approve the cosigner release.

2. Disclosure. Prior to offering a person a private education loan that is being used to refinance an existing education loan, a private education lender shall provide the person a disclosure that the benefits and protections applicable to the existing loan may be lost due to the refinancing.

3. Form of and access to information and disclosure. A private education lender shall provide the information disclosure required by subsections 1 and 2 on a one-page information sheet in 12-point type written in simple, clear, understandable and easily readable language. A private education lender shall provide a cosigner with access to all documents or records related to a cosigned private education loan that is available to the borrower. If a private education lender provides electronic access to a document or record to a borrower of a cosigned private education loan, the lender shall provide equivalent access to the cosigner. Upon written request of the borrower or cosigner, the lender may

withhold individual contact information from the other party.

§16-104. Cosigner release

1. Annual written notice. A private education lender shall inform the borrower and cosigner of all administrative, nonjudgmental required for cosigner release. A private education lender shall provide the borrower and the cosigner of a cosigned private education loan an annual written notice containing information about cosigner release, including the criteria the lender requires to approve cosigner release and the process for applying for cosigner release.

2. Written notification of eligibility for release. If the borrower of a cosigned private education loan has met the applicable payment requirement to be eligible for cosigner release and the borrower or cosigner has elected to receive electronic communications from the lender, the lender shall send the borrower and the cosigner a written notification by mail and, if the borrower or cosigner has elected to receive electronic communications from the lender, by e-mail informing the borrower and cosigner that the payment requirement to be eligible for cosigner release has been met. The notification must also include information about any additional criteria to qualify for cosigner release and the procedure to apply for cosigner release.

3. Incomplete cosigner release application. If an application by a borrower of a cosigned private education loan for cosigner release is incomplete, the private education lender shall provide written notice to the borrower that the application is incomplete. The written notice must include a description of the information needed to consider the application complete and the date by which the missing information must be received by the lender.

4. Approval or denial of application for cosigner release. Within 30 days after a borrower of a cosigned private education loan submits a completed application for cosigner release, the private education lender shall send the borrower and cosigner a written notice that informs the borrower and cosigner whether the cosigner release application has been approved or denied. If the lender denies a request for cosigner release, the borrower may request any documents or information used in the determination, including, but not limited to, the credit score threshold used by the lender, the borrower's consumer report, the borrower's credit score and any other documents specific to the borrower. The lender shall also provide any adverse action notices required under applicable federal law if the denial is based in whole or in part on any information contained in a consumer report.

5. Request for cosigner release. In response to a written or oral request for cosigner release, a private education lender shall provide the requestor information

detailing the criteria to qualify for cosigner release and the procedure to apply for cosigner release.

A private education lender may not impose any restriction that permanently bars a borrower of a cosigned private education loan from qualifying for cosigner release, including restricting the number of times the borrower may apply for cosigner release.

7. Prohibition on negative consequences. A private education lender may not impose any negative consequences on any borrower or cosigner of a cosigned private education loan during the 60 days following the issuance of the notice under subsection 3 or until the lender makes a final determination about a borrower's cosigner release application, whichever is earlier. For the purpose of this subsection, "negative consequences" includes, but is not limited to, the imposition of additional cosigner release eligibility criteria, negative credit reporting, lost eligibility for cosigner release, late fees, interest capitalization and other financial injury.

8. Consecutive on-time payments. For a loan made after the effective date of this section, a private education lender may not require more than 12 consecutive on-time payments as criteria for cosigner release. A borrower of a cosigned private education loan who has paid the equivalent of 12 months of principal and interest payments within any 12-month period satisfies the consecutive on-time payment requirement, regardless of whether the borrower has made payments monthly during the 12-month period.

9. Change in terms. If a borrower or cosigner of a cosigned private education loan requests a change in terms of the loan that restarts the count of consecutive on-time payments required for cosigner release, the private education lender shall notify the borrower and cosigner in writing of an adverse effect of the change and provide the borrower or cosigner the right to withdraw or reverse the request to avoid that adverse effect.

10. Appeal of denial. A borrower of a cosigned private education loan has the right to request an appeal of a private education lender's determination to deny a request for cosigner release and the lender shall permit the borrower to submit additional documentation evidencing the borrower's ability, willingness and stability to meet the payment obligations. The borrower may request review of the cosigner release determination by another employee of the private education lender.

11. Comprehensive record management system. A private education lender shall establish and maintain a comprehensive record management system designed to reasonably ensure the accuracy, integrity and completeness of data and other information about cosigner release applications and to ensure compliance with applicable state and federal laws, including but not limited to the federal Equal Credit Opportunity Act and the federal Fair Credit Reporting Act. The system

required by this subsection must include the number of cosigner release applications received by the lender, the approval and denial rate and the primary reasons for any denial.

§16-105. Disability; discharge of liability

1. Notification of total and permanent disability. A private education lender, when notified of the total and permanent disability of a borrower or cosigner of a cosigned private education loan, shall release a cosigner from the obligations of the cosigner under the loan. The lender may not attempt to collect a payment from a cosigner following a notification of total and permanent disability of a cosigner or borrower. A private education lender shall, when notified of the total and permanent disability of a borrower, discharge the liability of the borrower and cosigner on the loan.

2. Notification of release. If either a cosigner or a borrower is released from the obligations of a cosigned private education loan under this section, the private education lender shall notify the borrower and cosigner within 30 days of the release.

3. Legal authority to act on behalf of borrower. A private education lender that extends a cosigned private education loan shall provide the borrower an option to designate an individual to have the legal authority to act on behalf of the borrower with respect to the private education loan in the event of the total and permanent disability of the borrower.

4. Cosigner release. If a cosigner is released from the obligations of a cosigned private education loan pursuant to subsection 1, the private education lender may not require the borrower to obtain another cosigner on the loan.

5. Prohibition on default or acceleration of loan. A private education lender may not declare a default or accelerate the debt against a borrower on the sole basis of a cosigner release under subsection 1.

2. Other alternative repayment options. If a private education lender offers alternative repayment options other than flexible repayment options, the lender shall consistently present and offer the alternative repayment options to borrowers with similar financial circumstances.

3. Policies and procedures. A private education lender shall:

A. Provide on its publicly accessible website a description of any alternative repayment options under this section offered by the lender for private education loans; and

B. Establish consistently implemented policies and procedures to evaluate private education loan alternative repayment options requests, including providing accurate information regarding any private education loan alternative repayment options that may be available to a borrower of a private education loan through the promissory note or that may have been marketed to the borrower.

§16-107. Record retention

A private education lender shall establish and maintain records and permit the superintendent to access and copy any records required to be maintained pursuant to this Article. The private education lender shall retain a loan file, including any record specified for retention by rules adopted by the superintendent, for at least 6 years after the termination of the loan account.

§16-108. Prohibition on acceleration of private education loans

1. Prohibition on acceleration. A private education loan executed after the effective date of this section may not include a provision that permits the private education lender to accelerate, in whole or in part, payments on the private education loan, except in cases of payment default. A lender may not place any private education loan or account into default or accelerate a private education loan for any reason, other than for payment default.

2. Private education loans executed prior to effective date of section. For a private education loan executed prior to the effective date of this section:

A. The loan may permit the private education lender to accelerate payments only if the promissory note or loan agreement explicitly authorizes an acceleration and only for the reasons stated in the note or agreement;

B. If a cosigner of the private education loan dies, the lender may not attempt to collect against the cosigner's estate other than for payment default;

C. Upon receiving notification of the death or bankruptcy of a cosigner of the loan, if the loan is not more than 60 days delinquent at the time of the notification, the private education lender may not

change any terms or benefits under the promissory note, repayment schedule, repayment terms or monthly payment amount or any other provision associated with the loan; and

D. The private education lender may not place the loan or account into default or accelerate payments on a loan while a borrower is seeking a loan modification or enrollment in an alternative repayment plan, except that the lender may place a loan or account into default or accelerate a loan for payment default 90 days following the borrower's default.

§16-109. Requirements for collecting on private education loan debt

1. Private education loan collection. This section applies to a private education loan collection action that is maintained by a private education lender or a private education loan collector.

F. "Fuel switching" means any project that replaces a heating system or industrial process using fossil fuels with a system or process that uses a different fuel and achieves lower net greenhouse gas emissions.

G. "Greenhouse gas" has the same meaning as in Title 38, section 574, subsection 1.

H. "Microgrid" means a group of interconnected loads and distributed energy resources within clearly defined electrical boundaries that acts as a single controllable entity in a larger electrical grid and that can connect to and disconnect from the larger grid to operate in either grid-connected or isolation mode.

S.P. 570 - L.D. 1725

An Act To Clarify the Deferral of the Pooled Market and Link Small Employer Clear Choice to Pooling in the Made for Maine Health Coverage Act

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRSA §2792, sub-§1, as enacted by PL 2019, c. 653, Pt. B, §2, is amended to read:

1. Pooled market established. Subject to the requirements of subsection 5, all individual and small group health plans offered in this State with effective dates of coverage on or after January 1, ~~2022~~ 2023 must be offered through a pooled market. A health insurance carrier offering an individual health plan subject to this section shall make the plan available to all eligible small employers within the plan's approved service area, and a health insurance carrier offering a small group health plan subject to this section shall make the plan available to all eligible individuals residing within the plan's approved service area. This subsection does not require the Maine Health Insurance Marketplace established in Title 22, chapter 1479 to offer identical choices of health plans to individuals and to small employers under Title 22, chapter 1479.

Sec. 2. 24-A MRSA §2792, sub-§5, as enacted by PL 2019, c. 653, Pt. B, §2, is amended to read:

5. Preconditions for pooled market. This section may not be implemented unless routine technical rules as defined in Title 5, chapter 375, subchapter 2-A are adopted to implement this section and the Federal Government approves a state innovation waiver amendment that extends reinsurance under section 3953 to the pooled market established pursuant to this section based on projections by the superintendent that both average

individual premium rates and average small group premium rates would be the same or lower than they would have been absent the provisions of this section and chapter 54-A. If this section is not implemented, the superintendent shall conduct an analysis of alternative proposals to improve the stability and affordability of the small group market.

Sec. 3. 24-A MRSA §2793, as enacted by PL 2019, c. 653, Pt. B, §2, is amended to read:

§2793. Clear choice designs

The superintendent shall develop clear choice designs for ~~the individual and small group health insurance markets~~ health plans in order to reduce consumer confusion and provide meaningful choices for consumers by promoting a level playing field on which carriers compete on the basis of price and quality.

1. Clear choice design. For the purposes of this section, "clear choice design" means a set of annual copayments, coinsurance and deductibles for all or a designated subset of the essential health benefits. An individual health plan subject to section 2736-C or ~~small group a pooled market~~ health plan subject to section 2792 must conform to one of the clear choice designs developed pursuant to this section unless ~~an opt-out request is granted~~ it is approved as an alternative plan under subsection 4.

2. Development of clear choice designs. The superintendent shall develop clear choice designs in consultation with working groups consisting of consumers, carriers, health policy experts and other interested persons. The superintendent shall adopt rules for clear choice designs, taking into consideration the ability of plans to conform to actuarial value ranges, consumer needs and promotion of benefits with high value and return on investment. The superintendent shall develop at least one clear choice design for each tier of health insurance plan designated as bronze, silver, gold and platinum in accordance with the federal Affordable Care Act. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A. Clear choice designs apply to all individual ~~and small group~~ health plans offered in this State with effective dates of coverage on or after January 1, 2022 and to all small group health plans offered through the pooled market under section 2792.

3. Annual review. The superintendent shall consider annually whether to revise, discontinue or add any clear choice designs for use by carriers in the following calendar year, including but not limited to considering whether deductible and copayment levels should be changed to reflect medical inflation and conform with actuarial value and annual maximum out-of-pocket limits.

4. Alternative plan designs. In addition to one or more health plans that include cost-sharing parameters

consistent with a clear choice design developed pursuant to this section, a carrier may offer up to 3 health ~~plans~~ plan designs that modify one or more specific cost-sharing parameters in a clear choice design if the carrier submits an actuarial certification to the satisfaction of the superintendent that the alternative plan design offers significant consumer benefits and does not result in adverse selection. An alternative plan design may be offered only in a service area where the carrier offers at least one clear choice design plan at the same tier.

Sec. 4. 24-A MRSA §3957, sub-§7, as enacted by PL 2011, c. 90, Pt. B, §8, is amended to read:

7. Excess funds. If assessments and other receipts by the association, board or administrator selected pursuant to section 3956 exceed the actual losses and administrative expenses of the association, the board shall hold the excess ~~as at~~ interest and shall use those excess funds to offset future losses or to ~~reduce reinsurance premiums~~ make adjustments to a reinsurance program operated pursuant to section 3953. As used in this subsection, "future losses" includes reserves for claims incurred but not reported.

Sec. 5. 24-A MRSA §3958, sub-§1, as amended by PL 2019, c. 653, Pt. B, §18, is further amended to read:

1. Reinsurance amount. A member insurer offering an individual health plan under section 2736-C must be reinsured by the association to the level of coverage provided in this subsection and is liable to the association for any applicable reinsurance premium at the rate established in accordance with subsection 2. For calendar year ~~2022~~ 2023 and subsequent calendar years, the association shall also reinsure member insurers for small group health plans issued under section 2808-B, unless otherwise provided in rules adopted by the superintendent pursuant to section 2792, subsection 5.

A. Beginning July 1, 2012, except as otherwise provided in paragraph A-1, the association shall reimburse a member insurer for claims incurred with respect to a person designated for reinsurance by the member insurer pursuant to section 3959 after the insurer has incurred an initial level of claims for that person of \$7,500 for covered benefits in a calendar year. In addition, the insurer is responsible for 10% of the next \$25,000 of claims paid during a calendar year. The amount of reimbursement is 90% of the amount incurred between \$7,500 and \$32,500 and 100% of the amount incurred in excess of \$32,500 for claims incurred in that calendar year with respect to that person. For calendar year 2012, only claims incurred on or after July 1st are considered in determining the member insurer's reimbursement. With the approval of the superintendent, the association may annually adjust the initial level of claims and the maximum limit to be retained by the insurer to

reflect changes in costs, utilization, available funding and any other factors affecting the sustainable operation of the association.

A-1. In any plan year in which a pooled market is operating in accordance with section 2792, the association shall operate a retrospective reinsurance program providing coverage to member insurers for all individual and small group health plans issued in this State in that plan year. For plan years beginning in 2022, if the pooled market has not been implemented pursuant to section 2792, subsection 5, the association may operate a retrospective reinsurance program for individual health plans, subject to the approval of the superintendent.

(1) The association shall reimburse member insurers based on the total eligible claims paid during a calendar year for a single individual in excess of the attachment point specified by the board. The board may establish multiple layers of coverage with different attachment points and different percentages of claims payments to be reimbursed by the association.

(2) Eligible claims by all individuals enrolled in individual or small group health plans in this State may not be disqualified for reimbursement on the basis of health conditions, predesignation by the member insurer or any other differentiating factor.

(3) The board shall annually review the attachment points and coinsurance percentages and make any adjustments that are necessary to ensure that the retrospective reinsurance program operates on an actuarially sound basis.

(4) The board shall ensure that any surplus in the retrospective reinsurance program at the conclusion of a plan year is used to lower attachment points, increase coinsurance rates or both for that plan year, consistent with its responsibility to ensure that the program operates on an actuarially sound basis.

B. A member insurer shall apply all managed care, utilization review, case management, preferred provider arrangements, claims processing and other methods of operation without regard to whether claims paid for coverage are reinsured under this subsection. A member insurer shall report for each plan year the name of each high-priced item or service for which its payment exceeded the amount allowed for eligible claims and the name of the provider that received this payment. The association shall annually compile and publish a list of all reported names.

At the option of the authority, the bonds may be made redeemable before maturity at a price or prices and under terms and conditions fixed prior to their issuance.

3. Form. The authority shall determine the form of the bonds, including any attached interest coupons, the manner of execution of the bonds, the denomination or denominations of the bonds and the place or places for payment of principal and interest, which may be at any financial institution within or without the State. Bonds must be executed in the name of the authority by the manual or facsimile signature of the authorized official or officials. 4. Sale. The authority may sell the bonds at a public or private sale, in a manner and at a price it determines is in the best interest of the authority.

The issuance of the bonds does not directly or indirectly or contingently obligate the State or any municipality or political subdivision to levy or to pledge any form of taxation or to make any appropriation for their payment.

6. Anticipatory borrowing. In anticipation of the sale of bonds, the authority may issue temporary notes and renewal notes, the total stated amount of which does

not exceed at any one time outstanding the authorized amount of the bonds. The period of such anticipatory borrowing may not exceed 5 years and the time within which the bonds are to become due may not be extended by the anticipatory borrowing beyond the term permitted by this section.

The authority is authorized to agree and consent to the inclusion of interest on any of its bonds, under the United States Internal Revenue Code of 1986 or any subsequent corresponding internal revenue law of the United States, in the gross income of the holders of any such bonds to the same extent and in the same manner that the interest on bills, bonds, notes or other obligations of the United States is includable in the gross income of the holders of such bills, bonds, notes or other obligations under the United States Internal Revenue Code of 1986 or any such subsequent law.

§9408. Collection of data

Subject to the provisions of this section, the authority may collect data from communications service providers and any wireless providers that own or operate advanced communications technology infrastructure in the State concerning infrastructure deployment and costs, revenues and subscribership.

1. Confidential information. If the authority, on its own or upon request of any person or entity, determines that public access to specific information about communications service providers or wireless providers in the State could compromise the security of public

utility systems to the detriment of the public interest or that specific information is of a competitive or proprietary nature, the authority shall issue an order that sets forth its designation of the information as confidential. Information that may be designated as confidential pursuant to this subsection includes, but is not limited to, network diagrams. The authority may designate information as confidential under this subsection only to the minimum extent necessary to protect the public interest and the legitimate competitive or proprietary interests of a communications service provider or a wireless provider. The authority may not designate any information as confidential under this subsection until it has adopted rules to implement this subsection.

Information designated as confidential under this subsection is not a public record under Title 1, section 402, subsection 3.

2. Protection of information. Upon such a request, the authority shall ensure that the information provided is viewed only by those members of the authority and staff who do not stand to gain a competitive advantage and that there are adequate safeguards to protect that information from members of the authority who could gain a competitive advantage from viewing the information.

After receiving a report under this section, the joint standing committee of the Legislature having jurisdiction over utilities matters may report out legislation relating to the authority.

§9410. Liberal construction

This chapter, being necessary for the welfare of the State and its inhabitants, must be liberally construed. In the event of any conflict between this chapter and any other law, this chapter prevails, but the power and authority granted is deemed to be in addition to and not in derogation of power and authority granted by any other law.

B. Any juvenile petition alleging a juvenile crime that would constitute a Class A crime if committed by an adult if the juvenile charged had attained 13 years of age at the time of the alleged juvenile crime if the Juvenile Court has found there is probable cause to believe the juvenile committed a juvenile crime that would be a Class A crime if the juvenile involved were an adult.

If the juvenile had not attained 13 years of age at the time of the juvenile crime that would constitute a Class A crime if committed by an adult, the Juvenile Court may allow public inspection of the juvenile petition pursuant to paragraph C.

A petition open to public inspection under this paragraph may be made confidential and not open to public inspection if, upon written request by a person to the Juvenile Court, and after notice to the juvenile and the juvenile's parent or parents, guardian or legal custodian, the attorney for the juvenile and the office of the prosecuting attorney, and after a hearing in which the Juvenile Court considers the purposes of this Part, the juvenile's interest in privacy, the alleged victim's interest in privacy, the nature of the juvenile crime alleged and the characteristics of the juvenile and public safety concerns as outlined in section 3101, subsection 4, paragraph D, the court determines that the general public's right to information does not substantially outweigh the juvenile's interest in privacy or the alleged victim's interest in privacy; and

C. Any petition alleging a juvenile crime that would constitute murder or a Class A crime if committed by an adult and the juvenile charged had not attained 13 years of age at the time of the alleged juvenile crime, or any petition alleging a juvenile of any age committed a juvenile crime that would constitute a Class B or C crime if committed by an adult, if:

(1) A written request is filed by any person with the Juvenile Court requesting that the juvenile petition be open to public inspection;

(2) The Juvenile Court has found there is probable cause to believe the juvenile committed a juvenile crime that would constitute murder, a violation of Title 17-A, section 204 or a Class A, B or C crime if the juvenile involved were an adult; and

(3) After notice to the juvenile and the juvenile's parent or parents, guardian or legal custodian, the attorney for the juvenile, the office of the prosecuting attorney and the individual or entity requesting the juvenile petition be open to public inspection and a hearing in which the Juvenile Court considers the purposes of this Part, the juvenile's interest in privacy, the alleged victim's interest in privacy, the nature of the juvenile crime alleged and the characteristics of the juvenile and public safety concerns as outlined in section 3101, subsection 4, paragraph D, the court determines that the general public's right to information substantially outweighs the juvenile's interest in privacy and the alleged victim's interest in privacy.

D. In a juvenile petition alleging multiple juvenile crimes, the juvenile crime that would constitute the highest class of crime if the juvenile were an adult determines whether the petition is open to public inspection.

The prosecuting attorney shall ensure that names and identifying information of any alleged victims are redacted before a petition is filed with the Juvenile Court.

If a request to allow public inspection of a petition under this subsection has been filed, the Juvenile Court shall advise the juvenile and the juvenile's parent or parents, guardian or legal custodian that the request has been made and shall advise them of the juvenile's right to be represented by counsel. The court may not allow the public to inspect a juvenile petition pursuant to paragraph C until authorized by court order.

3. Orders of adjudication open to public inspection. Orders of adjudication for any juvenile crime that would constitute murder or a Class A, B or C crime if the juvenile involved were an adult are open to public inspection. Orders of adjudication for all other juvenile crimes are confidential and not open to public inspection. When an order of adjudication reflects adjudications for both a juvenile crime that would constitute murder or a Class A, B or C crime if the juvenile involved were an adult and another juvenile crime or crimes not constituting murder or a Class A, B or C crime if the juvenile involved were an adult, the juvenile crime that would constitute the highest class of crime if the juvenile were an adult determines whether the order of adjudication is open to public inspection.

4. Dissemination of information contained in juvenile case records. The following provisions apply to the dissemination of information contained in juvenile case records.

A. For purposes of this subsection, unless the context otherwise indicates, the following terms have the following meanings.

(1) "Administration of criminal justice" has the same meaning as in Title 16, section 703, subsection 1.

(2) "Criminal justice agency" has the same meaning as in Title 16, section 703, subsection 4.

(3) "Juvenile intelligence and investigative record information" has the same meaning as in section 3308-A, subsection 1, paragraph E.

B. Nothing in this section precludes sharing of any information contained in juvenile case records by one criminal justice agency with another criminal justice agency for the purpose of administration of criminal justice, administration of juvenile justice or criminal justice agency employment.

C. Nothing in this section precludes dissemination of any information contained in juvenile case records if:

(1) The juvenile has been adjudicated as having committed a juvenile crime;

(2) The information is disseminated by and to persons who directly supervise or report on the health, behavior or progress of the juvenile, the superintendent of the juvenile's school and the superintendent's designees, criminal justice agencies or agencies that are or might become responsible for the health or welfare of the juvenile as a result of a court order or by agreement with the Department of Corrections or the Department of Health and Human Services; and

(3) The information is relevant to and disseminated only for the purpose of creating or maintaining an individualized plan for the juvenile's rehabilitation, including reintegration into a school.

Any information received under this paragraph is confidential and may not be further disclosed or disseminated, except as otherwise provided by law.

D. Nothing in this section precludes dissemination of any information in the juvenile case records in the possession of the Department of Corrections if the person concerning whom the juvenile case records are sought, the juvenile, the person's legal guardian, if any, and, if the person is a minor, the person's parent or parents, guardian or legal custodian have given informed written consent to the dissemination of the juvenile case records.

E. Except as expressly authorized by this section, juvenile intelligence and investigative record information, juvenile community corrections officers' records and all other reports of social and clinical studies contained in juvenile case records may not be open to inspection and may not be disclosed or disseminated except with the consent of the Juvenile Court. The names and identifying information regarding any alleged victims and minors contained in the juvenile case records must be redacted prior to disclosure, dissemination or inspection.

The Juvenile Court may not order the disclosure, dissemination or inspection of juvenile case records unless the juvenile, the juvenile's parent or parents, guardian or legal custodian and either the juvenile's attorney or, if the juvenile does not have an attorney, the juvenile's attorney of record and the prosecuting attorney are given notice of the request and an opportunity to be heard regarding the request. In deciding whether to allow the disclosure, dissemination or inspection of any portion of juvenile case records under this paragraph, the Juvenile Court shall consider the purposes of this Part and the reasons for which the request is being made and may restrict the disclosure, dissemination or inspection of the juvenile case records in any manner the court determines necessary or appropriate.

F. When a juvenile who is adjudicated as having committed a juvenile crime that if committed by an adult would be gross sexual assault under Title 17-A, section 253, subsection 1 is committed to a Department of Corrections juvenile correctional facility or placed on probation, the Department of Corrections shall provide, while the juvenile is committed or on probation, a copy of the juvenile's judgment and commitment to the Department of Health and Human Services, to all law enforcement agencies that have jurisdiction in those areas where the juvenile resides, works or attends school and to the superintendent of any school in which the juvenile attends school during the period of commitment or probation. The Department of Corrections shall provide a copy of the juvenile's judgment and commitment to all licensed day care facility operators located in the municipality where the juvenile resides, works or attends school during the period of commitment or probation. Upon request, the Department of Corrections shall also provide a copy of the juvenile's judgment and commitment to other entities that are involved in the care of children and are located in the municipality where the juvenile resides, works or attends school during the period of commitment or probation. The Department of Corrections may provide a copy of the juvenile's judgment and commitment to any other agency or person that the Department of Corrections determines is appropriate to ensure public safety. Neither the failure of the Department of Corrections to perform the requirements of this paragraph nor compliance with this paragraph subjects the Department of Corrections or its employees to liability in a civil action.

G. Juvenile case records must be open to inspection by and, upon request, be disseminated to the juvenile, the juvenile's parent or parents, guardian or legal custodian, the juvenile's attorney, the prosecuting attorney and any agency to which legal custody of the juvenile was transferred as a result of an adjudication. Juvenile case records must also be open to inspection by and, upon request, be disseminated to the Department of Health and Human Services prior to adjudication if commitment to the Department of Health and Human Services is a proposed disposition.

5. Victim access to juvenile case records. Notwithstanding confidentiality provisions of this section, the juvenile petition and order of adjudication may be inspected by:

A. The victim;

B. If the victim is a minor, the parent or parents, guardian or legal custodian of the victim; or

C. If the victim cannot act on the victim's own behalf due to death, age, physical or mental disease or disorder or intellectual disability or autism or other

reason, an immediate family member, guardian, legal custodian or attorney representing the victim.

Notwithstanding any provision of this section to the contrary, juvenile case records must be open to inspection by or may be disseminated to the Victims' Compensation Board established in Title 5, section 12004-J, subsection 11 if a juvenile is alleged to have committed an offense upon which an application to the board is based.

6. Access to juvenile case records by other persons. With the consent of the Juvenile Court and subject to reasonable limitations to protect the identity, privacy and safety of 3rd parties, including, but not limited to, victims and other accused or adjudicated juveniles, and the interests of justice, juvenile case records, excluding the names of the juvenile and the juvenile's parent or parents, guardian or legal custodian, the juvenile's attorney or any other parties, may be inspected by or disseminated to persons having a legitimate interest in the proceedings or by persons conducting pertinent research studies.

7. Order following determination that juvenile case records are open to public inspection, disclosure or dissemination. Following a determination that a juvenile petition, order of adjudication or other juvenile case records are open to public inspection, disclosure or dissemination under this section, the Juvenile Court shall enter an order specifying which juvenile case records may be inspected, disclosed or disseminated and identifying the individual or agency granted access to those juvenile case records. The Juvenile Court may restrict the further disclosure, dissemination or inspection of the juvenile case records in any manner the court determines necessary or appropriate.

8. Records to Secretary of State. Whenever a juvenile has been adjudicated as having committed a juvenile crime involving the operation of a motor vehicle, or when the Juvenile Court has ordered a disposition pursuant to section 3314, subsection 3, 3-A, or 3-B that includes suspension of the juvenile's right to operate a motor vehicle, the court shall transmit to the Secretary of State an abstract, duly certified, setting forth the name of the juvenile, the offense, the date of the offense, the date of the adjudicatory hearing and any other pertinent facts. These juvenile case records are admissible in evidence in hearings conducted by the Secretary of State or any of the Secretary of State's deputies and are open to public inspection.

Nothing in this Part may be construed to limit the authority of the Secretary of State, pursuant to Title 29-A, to suspend a person's driver's license or permit to operate a motor vehicle, right to operate a motor vehicle or right to apply for or obtain a driver's license.

9. Transmission of information about a committed juvenile. Information regarding a juvenile committed to the custody of the Department of Corrections or

the custody of the Department of Health and Human Services must be provided as follows.

A. The Juvenile Court shall transmit with the commitment order a copy of the petition, the order of adjudication, copies of any social studies, any clinical or educational reports and information pertinent to the care and treatment of the juvenile.

B. The Department of Corrections or the Department of Health and Human Services shall provide the Juvenile Court with any information concerning the juvenile committed to either department's custody that the court at any time may request.

10. Juvenile case records sealed. This subsection governs the sealing of juvenile case records of a person adjudicated as having committed a juvenile crime.

A. A person adjudicated as having committed a juvenile crime that, if the juvenile were an adult, would constitute murder or a Class A, B or C crime or operating under the influence as defined in Title 29-A, section 2411 may petition the Juvenile Court to seal from public inspection all juvenile case records pertaining to the juvenile crime and its disposition and any prior juvenile case records and their dispositions if:

- (1) At least 3 years have passed since the person's discharge from the disposition ordered for that juvenile crime;
- (2) Since the date of disposition, the person has not been adjudicated as having committed a juvenile crime and has not been convicted of committing a crime; and
- (3) There are no current adjudicatory proceedings pending for a juvenile or other crime.

B. The Juvenile Court may grant the petition filed under paragraph A if the court finds that the requirements of paragraph A are satisfied, unless the court finds that the general public's right to information substantially outweighs the juvenile's interest in privacy. The juvenile has a right to appeal the court's denial of the juvenile's petition to seal as provided in chapter 509.

C. At the time a person adjudicated to have committed a juvenile crime other than a crime listed in paragraph A is finally discharged from the disposition imposed for that juvenile crime, the court, upon receipt of appropriate notice of the discharge, shall within 5 business days enter an order sealing from public inspection all records pertaining to the juvenile crime and its disposition. Appropriate notice that the juvenile is discharged from the disposition:

- (1) Must be provided to the court by the Department of Corrections if the juvenile's disposition involved either commitment to the

custody of a Department of Corrections juvenile correctional facility, a period of confinement not to exceed 30 days or any suspended disposition with a period of probation;

(2) Must be provided to the court by the office of the prosecuting attorney if disposition included restitution, community service or a restorative justice event and the court ordered that proof of completion of the obligation be provided to the office of the prosecuting attorney; or

(3) May be provided to the court by the juvenile or the juvenile's attorney. If the notice is provided by the juvenile or the juvenile's attorney, the juvenile or the juvenile's attorney shall serve a copy of the notice on the office of the prosecuting attorney before the court may enter the order sealing the juvenile case records. In all juvenile cases adjudicated subsequent to January 1, 2000, but prior to January 1, 2022, the Juvenile Court may grant the request of the juvenile or the juvenile's attorney for automatic sealing of all juvenile case records pertaining to the juvenile crime and its disposition when notice is provided to the court and the prosecuting attorney pursuant to this subparagraph.

When an order of adjudication includes multiple juvenile crimes, the juvenile crime that would constitute the highest class of crime if the juvenile were an adult determines whether a petition for sealing of juvenile records must be filed pursuant to paragraph A and a finding made pursuant to paragraph B before all juvenile case records pertaining to all of the juvenile crimes adjudicated may be ordered sealed.

When a juvenile petition alleges multiple juvenile crimes and the court holds separate hearings resulting in multiple orders of adjudication, the order of adjudication with the highest class of crime if the juvenile were an adult determines whether a petition for sealing of juvenile records must be filed pursuant to paragraph A and a finding made pursuant to paragraph B before all juvenile case records pertaining to all of the juvenile crimes adjudicated may be ordered sealed.

D. Notwithstanding subsections 2 and 3, subsection 4, paragraphs C, D and F and subsections 5 and 6, a court order sealing juvenile case records pursuant to this subsection permits only the following persons to have access to the sealed juvenile case records:

- (1) The courts and criminal justice agencies as provided by this section; and

(2) The person whose juvenile case records are sealed or that person's designee.

E. A copy of the court's written order certifying its granting of the juvenile's petition to seal juvenile case records pursuant to paragraph B or its order of automatic sealing pursuant to paragraph C must be provided to the Department of Public Safety, State Bureau of Identification if the adjudication is for a juvenile crime the criminal records of which are maintained by the State Bureau of Identification pursuant to Title 25, section 1541. The State Bureau of Identification or the appropriate agency upon receipt of the order shall promptly update its records relating to each of the juvenile adjudications included in the order.

F. A person whose juvenile case records are sealed pursuant to this subsection may respond to inquiries from other than the courts and criminal justice agencies about that person's juvenile crimes, the juvenile case records of which have been sealed, as if the juvenile crimes had never occurred, without being subject to any sanctions. The sealing of a person's juvenile case records does not remove or otherwise affect the prohibition against that person's possessing a firearm pursuant to section 393.

11. Unlawful dissemination of confidential juvenile case record information. Any person who intentionally disseminates information contained in confidential juvenile case records knowing it to be in violation of any provisions of this chapter commits a civil violation for which a fine of not more than \$1,000 may be adjudged. The District Court has jurisdiction over violations under this subsection.

Sec. 20. 15 MRSA §3308-D is enacted to read:
§3308-D. Confidentiality of Juvenile Court proceedings

1. Record. A verbatim record must be made of all Juvenile Court proceedings.

2. Certain hearings public. Unless proceedings on a juvenile petition are suspended under section 3318-A, subsection 5, the general public may not be excluded from any Juvenile Court hearing for which the petition is open to public inspection under section 3308-C, subsection 2 or from any Juvenile Court hearing on a State's motion for bind-over under section 3101, subsection 4.

3. Hearings on petitions alleging multiple juvenile crimes. When a juvenile petition open to public inspection under section 3308-C, subsection 2 alleges a juvenile crime that would constitute a Class D or Class E crime if the juvenile involved were an adult or a violation of section 3103, subsection 1, paragraph B or C arising from the same course of conduct, the Juvenile Court may order that charges alleging conduct that would be a Class D or Class E crime if the juvenile

involved were an adult or a violation of section 3103, subsection 1, paragraph B or C be adjudicated in a separate hearing. When the Juvenile Court so orders, the general public must be excluded from the hearing on alleged conduct that would constitute a Class D or Class E crime if the juvenile were an adult or a violation of section 3103, subsection 1, paragraph B or C.

4. Victim presence at hearings. Regardless of whether a Juvenile Court proceeding is open to the general public, the following persons may be present in court:

A. The victim;

B. If the victim is a minor, the victim's parent or parents, guardian or legal custodian; or

C. If the victim cannot act on the victim's own behalf due to death, age, physical or mental disease or disorder or intellectual disability or autism or other reason, an immediate family member, guardian, legal custodian or attorney representing the victim.

Sec. 21. 15 MRSA §3318-A, sub-§5, as enacted by PL 2011, c. 282, §4, is amended to read:

5. Suspension of juvenile proceedings. Pending a competency examination, the Juvenile Court shall suspend the proceeding on the petition. All juvenile case records, including a petition that is otherwise open to public inspection under section 3308-C, subsection 2, are confidential and are not subject to inspection, dissemination or release by the court. The suspension remains in effect pending the outcome of a competency determination hearing pursuant to subsection 7. Suspension of the proceeding does not affect the Juvenile Court's ability to detain or release the juvenile pursuant to section 3203-A, subsection 5.

Sec. 22. 15 MRSA §3318-A, sub-§7, as enacted by PL 2011, c. 282, §4, is amended to read:

7. Post-examination report and hearing. Following receipt of the competency examination report from the State Forensic Service examiner, the Juvenile Court shall provide copies of the report to the parties and hold a competency determination hearing. All hearings conducted pursuant to this subsection are confidential and not open to the general public or persons listed in section 3308-D, subsection 4. If the Juvenile Court finds that the juvenile is competent to proceed based upon the burden and standard of proof pursuant to subsection 8, the Juvenile Court shall set a time for the resumption of the proceedings. If the Juvenile Court is not satisfied that the juvenile is competent to proceed, the Juvenile Court shall determine how to proceed pursuant to section 3318-B.

The court may consider the report of the State Forensic Service examiner, together with all other evidence relevant to the issue of competency, in its determination whether the juvenile is competent to proceed. No single

criterion set forth in subsection 6 may be binding on the court's determination.

Sec. 23. 15 MRSA §3318-C is enacted to read:
§3318-C. Competency orders

1. Contents of competency order. Competency orders issued by the court may include only the following information.

A. The order must include a finding of whether the juvenile is competent to proceed based on whether the juvenile has a rational, as well as factual, understanding of the proceedings and a sufficient present ability to consult with legal counsel with a reasonable degree of rational understanding.

B. If the court finds that the juvenile is competent to proceed, the order must specify the day on which the proceedings on the juvenile petition will resume.

C. If the court finds that the juvenile is not competent but there is a substantial probability that the juvenile may be competent in the foreseeable future, the order must direct compliance with section 3318-B, subsection 1, paragraph A.

D. If the court finds that the juvenile is not competent to proceed and there is no substantial probability that the juvenile will be competent in the foreseeable future, the order must set a date for a further hearing pursuant to section 3318-B, subsection 2.

All findings of fact made by the court in association with the issuance of a competency order are confidential and may not be included in the order.

2. Access to competency orders. Competency orders may be inspected by the following persons:

A. The victim of the juvenile crime or, if the victim is a minor, the victim's parent or parents, guardian or legal custodian;

B. If the victim cannot act on the victim's own behalf due to death, age, physical or mental disease or disorder or intellectual disability or autism or other reason, an immediate family member, guardian, legal custodian or attorney representing the victim; and

C. The public, but only if the juvenile proceeding to which the order relates is publicly accessible pursuant to section 3308-C, subsection 2.

7. Public proceeding; exception. ~~Notwithstanding section 3307, subsection 2, paragraph B, the court shall~~ may not exclude the public unless the minor or the minor's parent or parents, guardian or legal custodian, requests that the public be excluded and the minor or the minor's parent or parents, guardian or legal

custodian, does not object. If the public is excluded, only the parties, their attorneys, court officers and witnesses may be present.

An Act To Improve Consistency in Terminology and within the Maine Human Rights Act

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 5 MRSA §4552, as amended by PL 2005, c. 10, §1, is further amended to read:

§4552. Policy

Except as provided in paragraph C-1, a prisoner may not be transferred to supervised community confinement unless the prisoner has no more than ~~18 months~~ 2 years remaining on the term of imprisonment or, in the case of a split sentence, on the unsuspended portion, after consideration of any deductions that the prisoner has received and retained under Title 17-A, section 2302, subsection 1; section 2305; section 2307; section 2308; section 2309; section 2310; or section 2311.

C-1. If the commissioner determines that the average statewide probation case load is no more than 90 probationers to one probation officer, then a prisoner may be transferred to supervised community confinement if that prisoner has no more than ~~2 years~~ 30 months remaining on the term of imprisonment or, in the case of a split sentence, on the unsuspended portion, after consideration of any deductions that the prisoner has received and retained under Title 17-A, section 2302, subsection 1; section 2305; section 2307; section 2308; section 2309; section 2310; or section 2311.

D. A prisoner may not be transferred to supervised community confinement if the prisoner has a ~~security~~ custody classification level higher than minimum.

Sec. 3. 34-A MRSA §3036-A, sub-§2-A is enacted to read:

2-A. Criteria and process. The commissioner shall establish criteria and a process for determining whether a prisoner eligible for transfer to supervised community confinement as provided in subsection 2 is approved for transfer. The primary determining factor for approval must be the prisoner's likelihood of completion of supervised community confinement if transferred.

A. The criteria must be evidence-based and designed to evaluate the likelihood of a prisoner's completion of supervised community confinement if transferred. The criteria must be specific and include, but may not be limited to, fulfillment of

expectations as to conduct, fulfillment of expectations as to work, education and rehabilitation programs assigned in the case plan, other rehabilitative efforts and accomplishments, arrangements for suitable housing in the community, taking into consideration the proximity of this housing to the victim, and the existence of support systems and resources in the community.

B. The process must reflect best practices for evaluating the likelihood of a prisoner’s completion of supervised community confinement if transferred and must provide guidance to department staff as to how to apply the established criteria when conducting the evaluation. The process must require, when information is obtained by the department from persons in the community for the purpose of determining whether to approve a prisoner for transfer to supervised community confinement, that those persons be informed of the prisoner’s fulfillment of expectations as to conduct, fulfillment of expectations as to work, education, and rehabilitation programs assigned in the case plan and other rehabilitative efforts and accomplishments. The process must also include the right of a prisoner who is eligible for transfer to supervised community confinement as provided in subsection 2 but who has not been approved for transfer to appeal that determination to the commissioner.

Sec. 4. 34-A MRSA §3036-A, sub-§7, ¶C, as enacted by PL 1991, c. 845, §4, is amended to read:

C. Criminal, court and ~~police~~ law enforcement agency investigations; and

Sec. 5. 34-A MRSA §3036-A, sub-§10, as amended by PL 2009, c. 391, §16, is further amended to read:

10. Terminally ill or incapacitated prisoner. With the consent of the prisoner, the commissioner may ~~permit transfer~~ a prisoner committed to the department ~~to be transferred~~ from a correctional facility to supervised community confinement without meeting the eligibility requirements of subsection 2, paragraphs B and C and without meeting the criteria or fulfilling the process provided for under subsection 2-A if the department’s director of medical care has determined that the prisoner has a terminal or severely incapacitating medical condition and that care outside a correctional facility is medically appropriate. Except as set out in this subsection, the prisoner ~~shall~~ must live in a hospital or other appropriate care facility, such as a nursing facility, residential care facility or a facility that is a licensed hospice program pursuant to Title 22, section 8622, approved by the commissioner. As approved by the commissioner, the prisoner may receive hospice services from an entity licensed pursuant to Title 22, chapter 1681, subchapter 1 or other care services provided by an entity approved by the commissioner and, subject to approval by the commissioner, may live at

home while receiving these services. The commissioner may exempt a prisoner transferred to supervised community confinement pursuant to this subsection from any mandatory condition under subsection 3 that the commissioner determines to be inapplicable. The prisoner shall provide any information pertaining to the prisoner’s medical condition or care that is requested by the commissioner at any time while the prisoner is on supervised community confinement. If the commissioner determines that the prisoner has failed to fully comply with a request or if at any time the department’s director of medical care determines that the prisoner does not have a terminal or severely incapacitating medical condition or that care outside a correctional facility is not medically appropriate, the commissioner shall revoke the transfer to supervised community confinement.

Sec. 6. 34-A MRSA §3036-A, sub-§12 is enacted to read:

12. Information for prisoners. The department shall make available to all prisoners written information about supervised community confinement, including eligibility requirements, the application process and the criteria and process for determining whether a prisoner eligible for transfer to supervised community confinement may be approved for transfer.

Sec. 7. 34-A MRSA §3036-A, sub-§13 is enacted to read:

13. Data tracking. The department shall track data for all prisoners who apply for supervised community confinement and approval, denial and, if approved, completion of the program. Such data must include, but is not limited to, demographic data regarding race and ethnicity, gender, age and convictions leading to the prisoner’s current incarceration.

S.P. 563 - L.D. 1710**

An Act To Require Prompt and Effective Use of the Renewable Energy Resources of Northern Maine

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA §3210-H is enacted to read:

§3210-H. Northern Maine Renewable Energy Development Program

1. Program established. The Northern Maine Renewable Energy Development Program, referred to in this section as "the program," is established to remove obstacles to the use of and to promote development of the substantial renewable energy resources in northern Maine. As used in this section, "northern Maine" means Aroostook County and any other area of the State in which the retail market is administered by the independent system administrator for northern Maine.

The commission shall administer the program in accordance with this section and shall ensure that such administration accounts for and is designed to advance the renewable energy and climate policies and goals of the State and to:

A. Encourage the rapid development of renewable resources in northern Maine to achieve greenhouse gas emissions reductions in the State and realize direct and near-term economic benefits in northern Maine;

B. Develop the transmission infrastructure necessary for the State to expeditiously meet its renewable energy and climate goals using, to the extent practicable, renewable energy resources located in the State;

C. Transition the State's mandated renewable energy purchasing through contracting approved and ordered by the commission in accordance with this section for the purchase of capacity, renewable energy and renewable energy credits, or any combination thereof, in a manner designed to most effectively account for the changing seasonal, time of day and other electricity usage characteristics associated with beneficial electrification as defined

in section 10102, subsection 3-A over the duration of such contracts;

D. Promote energy equity with particular consideration given to the economic circumstances and opportunities in the State's socially vulnerable counties and communities. For the purposes of this paragraph, "socially vulnerable counties and communities" means those counties and communities in the State containing populations that are disproportionately burdened by existing social inequities or lack the capacity to withstand new or worsening burdens; and

E. Recognize that, in advancing the renewable energy and climate policies and goals of the State, the near-term development of the transmission and other infrastructure necessary to reduce greenhouse gas emissions is in the public interest.

2. Request for proposals; generation connection line. The commission shall issue a request for proposals for the development and construction of a 345-kilovolt double circuit generation connection line, or, in the commission's discretion, a transmission line or lines of greater capacity, to connect renewable energy resources located in northern Maine and developed pursuant to subsection 3 with the electric grid operated by the New England independent system operator, referred to in this section as "the ISO-New England system." The commission may issue preliminary requests for information from utilities and private developers or release draft requests for proposals to gather information to inform the program.

A. The proposals must be required to cover a contract term of 30 years, except that the commission may, in its discretion, approve a contract term of a different duration, and must include provisions for the construction, development and subsequent commercial operation of the line or lines described in this subsection.

B. The commission shall evaluate the proposals received based, at a minimum, on the following factors: cost, economic benefit to northern Maine, the qualifications of the bidder or bidders, the long-term viability of each proposal and the anticipated contribution of each proposal toward the achievement by the State of its renewable energy goals under section 3210. The commission shall disqualify any proposal that, in the commission's determination, fails to demonstrate the bidder's technical and financial capacity to successfully construct, develop and operate the line or lines described in this subsection and to pursue, negotiate and contract for its interconnection with the ISO-New England system.

C. The commission shall give preference to proposals that:

(1) In the commission's determination, in the aggregate with proposals received under subsection 3, demonstrate the most cost-effective and efficient transmission access to renewable energy resources in northern Maine in a manner that best supports the achievement of the State's renewable energy goals under section 3210 and that maximize benefits to the State;

(2) Favor use, where practicable, of existing utility and other rights-of-way and other existing transmission corridors in the construction of the line or lines described in this subsection; and

(3) In the commission's determination, are likely to provide a reduction in transmission costs and costs to ratepayers for electricity over time as more energy is transmitted using the line or lines described in this subsection.

D. The commission may consider and, in accordance with the applicable provisions of this subsection and subsection 3, select a proposal or proposals that include both the development and construction of the line or lines described in this subsection and the development and construction of one or more qualified renewable energy generation projects described in subsection 3.

E. No later than November 1, 2022, the commission shall approve a contract or contracts between one or more transmission and distribution utilities and the bidder of any proposal selected by the commission in accordance with this subsection, except that, if at the close of the competitive bidding process the commission determines that no proposal meets the requirements of this subsection or that approval of a contract or contracts that otherwise meet the requirements of this subsection is not in the public interest, the commission may reject all proposals and may open a new competitive bidding process under this subsection.

3. Request for proposals; renewable energy generation projects. The commission shall issue a request for proposals for the development and construction of qualified renewable energy generation projects in northern Maine designed to connect to and transmit generated power using the line or lines to be constructed pursuant to subsection 2. The commission shall make every effort to ensure that the competitive bidding process directed by this subsection results in the approval of contracts pursuant to paragraph E no later than November 1, 2022. As part of the request for proposals under this subsection, the commission shall make available to potential bidders any relevant information submitted to the commission by the bidder or bidders whose proposal or proposals were approved for contracting under subsection 2. Except as provided in paragraph B, subparagraph (2), renewable energy generation projects on which construction commenced prior to

September 30, 2022 are not qualified for the purposes of this subsection.

A. The proposals must be required to cover a contract term of 20 years, except that the commission may, in its discretion, approve a contract term of a different duration, and must include provisions for the construction, development and subsequent commercial operation of one or more qualified renewable energy generation projects in northern Maine that will be designed to connect to and transmit generated power using the line or lines to be constructed pursuant to subsection 2. The commission may consider only proposals for the construction of Class I and Class IA resources, as defined in section 3210, subsection 2, and energy storage systems, except that the commission may not consider proposals for the construction of biomass generators fueled by landfill gas or by anaerobic digestion of agricultural products, by-products or waste, or waste-to-energy generation facilities fueled by municipal solid waste. For the purposes of this section, "energy storage system" means a commercially available technology that uses mechanical, chemical or thermal processes for absorbing energy and storing it for a period of time for use at a later time.

B. The commission may, in its discretion, consider and select in accordance with the applicable requirements of this subsection:

(1) One or more contracts for capacity, renewable energy or renewable energy credits, or any combination thereof, from a qualified renewable energy generation project described in this subsection; or

(2) One or more contracts for renewable energy generation projects on which construction commenced prior to September 30, 2022, if the commission determines that:

(a) Such a project otherwise meets the requirements of this subsection;

(b) Additional line capacity remains available on the line or lines to be constructed pursuant to subsection 2; and

(c) There are no commercially viable proposals remaining for consideration for qualified renewable energy generation projects on which construction commenced or will commence on or after September 30, 2022.

C. The commission shall evaluate the proposals received based, at a minimum, on the following factors: cost, economic benefit to northern Maine, the qualifications of the bidder or bidders and, as determined by the commission, the short-term,

medium-term and long-term viability of the proposals.

D. The commission shall give greatest preference to proposals that, in the commission's determination, in the aggregate with proposals received under subsection 2, demonstrate the most cost-effective and efficient development of renewable energy resources in northern Maine in a manner that best supports the achievement of the State's renewable energy goals under section 3210 and maximize benefits to the State.

E. The commission shall approve a contract or contracts between one or more investor-owned transmission and distribution utilities and the bidder of any proposal selected by the commission in accordance with this subsection. If at the close of the competitive bidding process the commission determines that no proposal meets the requirements of this subsection, that additional line capacity remains available or that approval of a contract or contracts that otherwise meet the requirements of this subsection is not in the public interest, the commission may reject all proposals and may open a new competitive bidding process under this subsection.

F. In selecting contracts pursuant to this subsection, the commission shall make every effort to ensure that at least one such contract supports the construction and development in northern Maine of a biomass generator fueled by wood or wood waste. In considering any proposal under this subsection for a qualified renewable energy generation project that is a biomass generator fueled by wood or wood waste, the commission shall consider the waste reduction benefits to the State's forest products industry associated with the operation of the biomass generator, including, but not limited to, the avoidance of methane emissions.

Notwithstanding any provision of law to the contrary, the commission may in its discretion approve and order a contract or contracts under this subsection for the purchase, beginning on or after January 1, 2024, of capacity, renewable energy or renewable energy credits, or any combination thereof, in an amount that is at least 18% of the retail electric load in the State for the period from January 1, 2019 to December 31, 2019. To the extent practicable, the commission shall approve and order such contract or contracts on a staggered basis consistent with its expectations for the development during the years of 2024 to 2045 of beneficial electrification as defined in section 10102, subsection 3-A and climate mitigation activities in the State and shall ensure the purchase of capacity, renewable energy or renewable energy credits necessary to achieve beneficial electrification from facilities and technology that are located in the State.

4. Regional electric grid integration and development. In implementing and administering the program under this section, the commission shall:

A. Make every effort to facilitate the construction and development of the line or lines described in subsection 2, including, but not limited to, participating in any regional or federal proceeding relating to the line or lines;

B. Participate in proceedings involving the inclusion or integration of the line or lines described in subsection 2 and any associated upgrades by the New England power pool as defined in section 4103, or its successor as approved by the Federal Energy Regulatory Commission, and the ISO-New England system into the ISO-New England system's transmission plan, bulk power system and pool transmission facilities, as that term is defined in the ISO-New England system's open access transmission tariff; and

C. At its discretion, consistent with this section, use or direct one or more transmission and distribution utilities as contracting parties under this section to participate in a regional or multistate competitive market or solicitation.

Where authorized and as practicable, the Office of the Public Advocate may engage in the activities and proceedings described in paragraph A, B or C.

The commission, the Office of the Public Advocate and the Office of the Attorney General may, separately or in combination, obtain any technical or legal assistance necessary to ensure regional and federal interconnection and grid reliability standards are not employed directly or indirectly to discourage the development of the renewable energy resources in northern Maine under the program.

CHAPTER 387

H.P. 908 - L.D. 1242

An Act To Amend the Maine Medical Use of Marijuana Act

Emergency preamble. **Whereas,** acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Department of Administration and Financial Services' office of marijuana policy is currently proposing rules that may go into effect before the expiration of the 90-day period; and

Whereas, the proposed rules would significantly damage the well-being and health of tens of thousands of citizens of the State by restricting their access to medical marijuana; and

Whereas, the proposed rules would do irreparable economic harm to thousands of citizens of the State through a dramatic increase in the cost of medical marijuana; and

Whereas, the proposed rules would do irreparable economic harm to thousands of medical marijuana caregivers and to their thousands of employees; and

Whereas, the proposed rules would do irreparable harm to the economy of the State by destroying businesses owned and domiciled in the State to the benefit of companies that are not based in the State and will not reinvest in this State; and

Whereas, the proposed rules would impact the most vulnerable communities in this State the hardest, including rural municipalities with aging populations; and

Whereas, the proposed rules make major changes that warrant legislative involvement and oversight; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 22 MRSA §2422-A, sub-§2, as enacted by PL 2017, c. 409, Pt. E, §3, is amended to read:

The department, after consultation with the Department of Health and Human Services, may adopt rules as necessary to administer and enforce this chapter or amend rules previously adopted pursuant to this chapter. Before adopting rules pursuant to this subsection, the department shall consult with caregivers, registered caregivers, patients and medical providers with significant knowledge and experience certifying patients under this chapter. The department shall develop a process to use when hiring consultants to advise on rule changes related to this chapter and shall report any subsequent changes to that process to the joint standing committee of the Legislature having jurisdiction over medical use of marijuana matters.

Sec. 2. 22 MRSA §2423-A, sub-§10, ¶D, as repealed and replaced by PL 2019, c. 331, §13 and c. 354, §3, is repealed and the following enacted in its place:

D. The department shall adopt routine technical rules as defined in Title 5, chapter 375, subchapter 2-A, except that, beginning July 1, 2021, rules adopted pursuant to this paragraph are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A, governing marijuana testing facilities, including but not limited to:

- (1) Marijuana testing facility officer or director qualification requirements;
- (2) Required security for marijuana testing facilities; and

(3) Requirements for the registration, certification or other approval of marijuana testing facilities.

The failure of the department to adopt rules under this paragraph does not prevent a marijuana testing facility from engaging in activities in compliance with this chapter.

Sec. 3. 22 MRSA §2423-A, sub-§10, ¶D-1, as enacted by PL 2019, c. 354, §4, is amended to read:

D-1. Upon the adoption of rules pursuant to paragraph D and this paragraph, a marijuana testing facility must be certified by the certification program established pursuant to section 569 as meeting all operational and technical requirements in accordance with rules adopted by the department after consultation with the Maine Center for Disease Control and Prevention. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A, except that, beginning July 1, 2021, rules adopted pursuant to this paragraph are major substantive rules as defined in Title 5, chapter 375, subchapter 2-A. A marijuana testing facility operating in compliance with this chapter on the date of the adoption of rules pursuant to this paragraph and paragraph D may continue to operate pending completion of certification under this paragraph. The failure of the department to adopt rules under this paragraph does not prevent a marijuana testing facility from engaging in activities in compliance with this chapter.

- C. Manufacturing facility officer or director qualification requirements;
- D. Required security for manufacturing facilities;
- E. Requirements of a disposal plan for harvested marijuana used in the manufacturing process; and
- F. Minimum record-keeping requirements, including an annual audit requirement.

The failure of the department to adopt rules under this subsection does not prevent a person authorized pursuant to subsection 3, paragraph A from engaging in conduct authorized under this section.

Sec. 6. 22 MRSA §2424, sub-§1-A, as enacted by PL 2017, c. 452, §10, is amended to read:

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA §3209-A, sub-§7 is enacted to read:

7. Applicability. A distributed generation resource with a nameplate capacity of at least 2 megawatts and not more than 5 megawatts may be used for net energy billing under this section only if the requirements of paragraph A, B or C are met and all the requirements of paragraphs D and E are met.

A. In order for a distributed generation resource to be used for net energy billing, one of the following must have been met on or before December 31, 2020:

(1) There is a signed interconnection agreement between the entity proposing the development of the distributed generation resource

and a transmission and distribution utility governing the connection of the resource to the utility's system and the ongoing operation of the resource after it is connected to the system; or

(2) There is a net energy billing agreement between the entity proposing the development of the distributed generation resource and the transmission and distribution utility.

An amendment, revision or reissuance of an agreement under this paragraph that occurs after December 31, 2020 may not be interpreted to affect the date on which the initial agreement was signed.

B. In order for a distributed generation resource to be used for net energy billing, one of the following must have been met on or before April 30, 2021:

(1) A complete application for a customer net energy billing agreement has been submitted for the distributed generation resource and a customer has or customers have financial interest in 90% or more of the capacity of that distributed generation resource; or

(2) There is a fully executed net energy billing agreement between a customer or sponsor of the distributed generation resource and the transmission and distribution utility for the distributed generation resource and a customer has or customers have financial interest in 90% or more of the capacity of that distributed generation resource.

C. In order for a distributed generation resource to be used for net energy billing, the following must have been met on or before June 1, 2021:

(1) The interconnection study process has commenced for a distributed generation resource located in those portions of the service territory of an investor-owned transmission and distribution utility that are not connected to the ISO-NE region as defined in section 1902, subsection 3.

D. In order for a distributed generation resource to be used for net energy billing, all of the following must be met on or before December 31, 2021:

(1) There is a fully executed interconnection agreement between the entity proposing the development of the distributed generation resource and the transmission and distribution utility;

(2) The entity proposing the development of the distributed generation resource certifies to the commission that the entity has submitted all applicable permit applications to the Department of Environmental Protection and the

department has accepted those applications for processing; and

(3) The entity proposing the development of the distributed generation resource certifies to the commission that the entity has received all necessary local, nonministerial permits. For purposes of this subparagraph, "nonministerial permit" means a permit for which one or more officials consider various factors and exercise discretion in deciding whether to issue or deny the permit.

An amendment, revision or reissuance of an agreement under this paragraph that occurs after December 31, 2021 may not be interpreted to affect the date on which the agreement was initially executed.

E. In order for a distributed generation resource to be used for net energy billing, the following must be met on or before December 31, 2024:

(1) The proposed distributed generation resource must reach commercial operation by the date specified in the net energy billing agreement or by the date specified with an allowable modification to that agreement.

An entity proposing the development of a distributed generation resource that does not meet one or more of the requirements of this subsection may petition the commission for a good-cause exemption due to external delays outside of the entity's control, which the commission may grant if it finds that, without the external delays, the entity could reasonably have been expected to meet the requirements.

The goal for development of commercially operational distributed generation resources under this subsection and section 3209-B, subsection 7 is 750 total megawatts.

Sec. 2. 35-A MRSA §3209-B, sub-§7 is enacted to read:

7. Applicability. The applicability of this section is limited by the requirements of section 3209-A, subsection 7.

1. Procurements. The commission ~~shall~~ **may not** procure distributed generation resources in the shared distributed generation and commercial or institutional distributed generation market segments using the targets and procurement methods described in this chapter.

Sec. 4. Stakeholder group; distributed generation project programs. In coordination with the Public Utilities Commission, the Governor's Energy Office shall convene a stakeholder group to consider various distributed generation project programs to be implemented between 2024 and 2028 and the need for improved grid planning. The stakeholder group shall

assist in the development and production of the interim and final reports required under subsections 2 and 3. For the purposes of this section, "distributed generation project" means a renewable energy project with a nameplate capacity of no more than 5 megawatts that has identified residential, commercial and institutional customers and includes, but is not limited to, net energy billing arrangement projects.

By January 1, 2022, the Governor's Energy Office shall submit an interim report to the Joint Standing Committee on Energy, Utilities and Technology that identifies issues that need further consideration or require additional resources including funding to complete and that includes recommendations and any proposed legislation to implement those recommendations that are supported by a majority of stakeholders regarding:

- A. How the State should undertake the adoption and implementation of a forward-looking, holistic grid planning process that allows for input from stakeholders and provides key actors with the ability to more strategically make system operations, planning and investment decisions;
- B. The optimum total amount of distributed generation for the program period calculated using 7% of total load based on operational capacity;
- C. How to cost-effectively incentivize net energy billing arrangement project diversity by:
 - (1) Identifying the percentage of the optimum total amount of distributed generation that

should be allocated to net energy billing arrangement projects;

- (2) Developing a mechanism to adjust the calculated optimum total amount of distributed generation described in paragraph B by subtracting the total amount of megawatts of commercially operational distributed generation resources developed in excess of the goal established in the Maine Revised Statutes, Title 35-A, section 3209-A, subsection 7;
- (3) Considering all types of distributed generation, including, but not limited to, net energy billing arrangements paired with energy storage;
- (4) Determining the appropriate duration for long-term contracts;
- (5) Identifying mechanisms that prioritize distributed generation that are sited to:
 - (a) Limit impacts by being located on previously developed or impacted land, including areas covered by impervious surfaces, reclaimed gravel pits, capped landfills or brownfield sites as defined by the Department of Environmental Protection;
 - (b) Serve load within a low-income to moderate-income community;
 - (c) Directly serve customer load; or
 - (d) Optimize grid performance or serve a nonwires alternative function; and
- (6) Including recommendations regarding how information from a holistic grid planning process can be included to improve a distributed generation project program until its conclusion; and

D. How to support the successful development of distributed generation by small companies based in the State.

The committee may report out a bill to the Second Regular Session of the 130th Legislature based on the information and recommendations included in the interim report.

3. By January 1, 2023, the Governor's Energy Office shall submit a final report to the joint standing committee of the Legislature having jurisdiction over energy and utility matters that includes, subject to available resources, the following:

- A. Identification of the recommended optimum total amount of distributed generation for the program period represented as a percentage of total load;

B. An estimation of the net ratepayer impacts, including all on-bill benefits and costs, expected as a result of the development of distributed generation resources under the Maine Revised Statutes, Title 35-A, section 3209-A, subsection 7 and Title 35-A, section 3209-B, subsection 7, accounting for projects that have reached or are expected to reach full maturity and load growth trends;

C. Identification of a method or methods that can be used to balance the impact of the development of distributed generation resources under the Maine Revised Statutes, Title 35-A, sections 3209-A and 3209-B with load growth to mitigate potential electricity rate increases as a result of this development of distributed generation resources;

D. Updates to the finance enabling policies in the "Maine Distributed Solar Valuation Study" prepared for the Public Utilities Commission by Clean Power Research, including the costs and benefits of on-bill and off-bill financing;

E. Consideration of the feasibility of implementing innovations to increase the net ratepayer value of distributed generation, including, but not limited to, time-differentiated rates and 2-way energy flows;

F. Consideration of the use of declining net energy billing arrangement bill credit rates, including the use of reduced bill credit rates for distributed generation that is not located on one of the prioritized sites identified in the interim report pursuant to subsection 2, paragraph C, subparagraph (5); and

G. Consideration of the feasibility of standardizing the classification of distributed generation as load reducers, regardless of whether the bill credit is in the form of kilowatt-hour credits or monetary credits.

The committee may report out a bill to the First Regular Session of the 131st Legislature based on the information and recommendations included in the final report.

Sec. 5. Rules. Notwithstanding the Maine Revised Statutes, Title 35-A, section 3209-A, rules initially adopted pursuant to section 3209-A, subsection 7 are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.
