PREFACE

The 2021 edition of Laws of the State of Maine is the official publication of the session laws of the State of Maine enacted by the 130th Legislature and is compiled and published under the authority of the Maine Revised Statutes, Title 3, section 163-A. Laws of the State of Maine has been in continuous publication since 1820, when the acts and resolves adopted by the First Legislature were published by the Secretary of State under the authority of Resolve 1820, chapter 25.

Volume 1 contains the public laws, private and special laws, resolves and constitutional resolutions enacted at the First Regular Session and the First Special Session of the 130th Legislature and includes the 2019 Revisor's Report, chapter 2 and a selection of significant addresses, joint resolutions and memorials.

Additional volumes of the 2021 Laws of the State of Maine will contain those measures adopted in the Second Regular Session and any other special session of the 130th Legislature.

The following conventions are used throughout the series.

1. At the top of each page is a heading that classifies each law by session of passage, year, type and chapter number.
2. A table of contents that locates major divisions and contents by page number is located at the beginning of each volume.
3. Subject indexes of the documents contained in these volumes, arranged alphabetically by subject heading with corresponding chapter numbers, are provided.
4. Session cross-reference tables are also provided showing how unallocated public laws and titles and sections of the Maine Revised Statutes of 1964 have been affected by the laws included in this publication.
5. Words and phrases deleted from the statutes are shown struck through. When an entire unit is repealed, the text that is repealed is not shown struck through, but its repeal is indicated by express language.
6. When new words or sections are added to the statutes, they are underlined.
7. A chaptered law's Legislative Document number is printed beneath its chapter number heading, indicating the source of the chapter.
8. The effective date for Maine laws is provided for in the Constitution of Maine, Article IV, Part Third, Section 16, which specifies that, except for certain emergency legislation, an act or resolve enacted into law takes effect 90 days after the adjournment of the session in which it passed. The general effective date of nonemergency laws passed at the First Regular Session of the 130th Legislature is June 29, 2021 and the general effective date of nonemergency laws passed at the First Special Session of the 130th Legislature is October 18, 2021. The effective dates of emergency legislation vary and are provided at the ends of the chapters that were enacted as emergencies.

Copies of a specific chaptered law may be obtained by contacting the Engrossing Division of this office. Laws of the State of Maine is also available online through the website of the Office of the Revisor of Statutes at <http://legislature.maine.gov/ros/LOM/LOMpdfDirectory.htm>.

This edition of Laws of the State of Maine and its predecessors have been prepared for the convenience of the people of the State of Maine, and any comments or suggestions for improvements in subsequent editions would be appreciated.

S.P. 94 - L.D. 205

An Act To Extend the Ability of Restaurants and Bars To Serve Alcohol To Go

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the spread of the novel coronavirus disease referred to as COVID-19 has created a public health emergency; and

Whereas, in response to this public health emergency, the Governor issued an executive order on March 18, 2020 requiring all restaurants and bars, including tasting rooms, to close their dine-in facilities but permitting restaurants and bars to offer carry-out, delivery and drive-through food and beverage services, including carry-out, delivery and drive-through liquor sales; and

Whereas, although restaurants across the State were permitted to reopen June 17, 2020, restaurants are required to limit indoor seating capacity to prevent spread of the virus while the reopening of bars and tasting rooms has been postponed until further notice; and

Whereas, it is impossible to ascertain when the current public health emergency will abate, rendering the economic survival of restaurants, bars and tasting rooms dependent on their continued ability to provide carry-out, delivery and drive-through food and beverage services, including carry-out, delivery and drive-through liquor sales; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 28-A MRSA §1056 is enacted to read:

§1056. Authorized take-out and delivery sales of liquor; repeal

- (3) Is sealed in an approved container.

B. "Approved container" means a tamper-evident container that:

(2) Is sealed in a manner that makes opening the container or tampering with the contents of the container easily detectable; and

(3) Has an affixed label that identifies the name and license number of the qualified on-premises retailer or qualified distillery that prepared and sold the approved cocktail, the date on which the approved cocktail was prepared and sealed in the approved container and the ingredients of the approved cocktail.

C. "Food order" means an order of a full course meal as defined in section 2, subsection 15, paragraph R-1 or an order of a cold or hot meal including but not limited to a sandwich, salad, hamburger, cheeseburger, hot dog, pizza or other food item that customarily appears on a restaurant menu. "Food order" does not include an order consisting solely of a prepackaged snack food or foods such as popcorn, chips or pretzels.

E. "Qualified distillery" means a distillery or a small distillery licensed under section 1355-A that:

- (1) Serves samples of its products to the public for on-premises consumption under section 1355-A, subsection 2, paragraph A, B, E or F or sells its products to the public for off-premises consumption under section 1355-A, subsection 2, paragraph C, D or G; and

for off-premises consumption only under the following conditions.

A. Prior to engaging in sales of liquor for off-premises consumption, a qualified on-premises retailer or qualified distillery shall notify the bureau of its intention to sell approved cocktails, wine or malt liquor for off-premises consumption on a form prepared and approved by the bureau.

B. Liquor sold by a qualified on-premises retailer for off-premises consumption must be accompanied by a food order.

C. A qualified on-premises retailer may sell for off-premises consumption only the type or types of liquor that it is authorized to sell for on-premises consumption pursuant to its license issued under this chapter.

(1) If the qualified on-premises retailer is licensed under this chapter to sell wine for on-premises consumption, it may sell wine for off-premises consumption only in an original container or as an ingredient in an approved cocktail. D. Except as provided in section 1355-A, a qualified distillery may sell spirits for off-premises consumption only as an ingredient of an approved cocktail. An approved cocktail sold by a qualified distillery under this paragraph may not contain wine or spirits not manufactured by the qualified distillery unless the qualified distillery purchased the wine or spirits from an agency liquor store licensed as a reselling agent.

E. Liquor sold for off-premises consumption must be accompanied by a sales receipt with a time stamp that indicates the time of purchase.

F. Liquor sold for off-premises consumption may be delivered by the qualified on-premises retailer or the qualified distillery or by an employee of the qualified on-premises retailer or the qualified distillery to a customer at the licensed premises or at a remote location only in accordance with this paragraph.

(1) Liquor may not be delivered to a customer at a remote location unless the individual making the delivery is at least 21 years of age.

(2) Liquor may not be delivered to a visibly intoxicated person.

(3) Liquor may not be delivered unless the individual making the delivery verifies, by means of reliable photographic identification containing the person's name and date of birth, that the person to whom the delivery is made is not a minor.

H.P. 159 - L.D. 224

An Act To Modify Requirements for Multiple-party Accounts, Limited Purpose Financial Institutions and Mergers

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, financial institutions in this State are committed to preventing elder financial abuse; and

Whereas, the enactment of a new probate code in July 2019 made a change in the procedures for opening a multiple-party account; and

Whereas, the following legislation clarifies a provision in the Maine Revised Statutes, Title 9-B requiring financial institutions to affirm when a multiple-party account is established or a single account is converted whether the party establishing or converting the account intends for any sum remaining in the account upon death to belong to the surviving party; and

Whereas, this change must be enacted before the expiration of the 90-day period to allow financial institutions to establish procedures for opening multiple-party accounts to immediately help combat elder financial abuse; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of

the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Yes or No." The question required by this subsection must be answered in writing on the form by each party to the account prior to opening the account. The answer provided on the form required by this subsection does not have any effect on any legal presumption or inference available in any civil or criminal matter.~~

Whereas, a regulatory change in certification requirements for educational technicians has made some educational technicians for the first time mandatory members of the State Employee and Teacher Retirement Program; and

Whereas, the affected positions had been covered by the United States Social Security Act or other retirement programs; and

Whereas, it was not the intent of the Legislature or the State Board of Education to change retirement benefit coverage for the affected positions; and

Whereas, correcting this unintended consequence immediately is necessary to prevent harm to employees

2. How providers are notified about the different quality initiatives in subsection 1;

3. How providers communicate their decisions to the board to authorize a state-designated statewide health information exchange as described in Title 22, section 1711-C to provide health care information or records to the board;

4. For providers who authorize a state-designated statewide health information exchange to provide health care information or records to the board, the manner in which a provider may revoke that authorization; and

5. How health care information or records remitted from a state-designated statewide health information exchange to the board and data remitted from the board to any 3rd parties are tracked and reported to providers when data requests are made to the state-designated statewide health information exchange.

The rules must include a requirement that any executed agreements must be made available to providers if any 3rd parties are provided health care information or records under those agreements.

CHAPTER 16

S.P. 13 - L.D. 6

**An Act To Revise Certain
Financial Regulatory
Provisions of the Maine
Insurance Code**

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, this legislation is immediately necessary to recognize bilateral agreements entered into by the United States with the European Union and the United Kingdom; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRSA §221, sub-§3, as amended by PL 1991, c. 828, §2, is repealed.

Sec. 2. 24-A MRSA §221, sub-§3-A, as enacted by PL 1993, c. 313, §3, is amended to read:

3-A. ~~On or after January 1, 1994 the~~ The superintendent may accept a full examination report by the insurance regulatory authority of the insurance company's state of domicile or port-of-entry state for any foreign or alien insurer licensed in this State in lieu of an examination by the superintendent if, at the time of the examination, that regulatory authority was accredited under the National Association of Insurance Commissioners' Financial Regulation Standards and Accreditation Program or if the examination was performed under the supervision of an accredited insurance regulatory authority or with the participation of one or more examiners who are employed by an accredited insurance regulatory authority and who, after a review of the examination workpapers and report, state under oath that the examination was performed in a manner consistent with the standards and procedures required by the regulatory authority.

Sec. 3. 24-A MRSA §222, sub-§7, ¶A, as amended by PL 2013, c. 238, Pt. A, §14 and affected by §34, is further amended to read:

A. The superintendent shall hold a hearing in accordance with the procedures set forth in ~~the Maine Administrative Procedure Act, section 231 and~~ Title 5, chapter 375, subchapter 4, within 30 days after the application required by subsection 4-C has been filed with the superintendent. The superintendent shall make a determination within 30 days after the conclusion of that hearing. The superintendent shall approve any purchase, exchange, merger or other change of control referred to in subsection 4-C unless the superintendent finds that:

- (1) After the change of control, the domestic insurer could not satisfy the requirements for the issuance of a certificate of authority according to requirements in force at the time of the issuance or last renewal or continuation of its certificate of authority to do the insurance business that it intends to transact in this State;
- (2) The effect of the purchases, exchanges, merger of a controlling person of the insurer or other changes of control may be substantially to lessen competition in insurance in this State or tend to create a monopoly in this State or would violate the laws of this State or of the United States relating to monopolies or restraints of trade;
- (3) The financial condition of an acquiring person would jeopardize the financial stability of the insurer or prejudice the interest of its policyholders;

(4) The plans or proposals that the acquiring or divesting person has to liquidate the insurer, to sell its assets or to merge it with any person, or to make any other major change in its business or corporate structure or management, are unfair or prejudicial to policyholders;

(5) The competence, experience and integrity of those persons who would control the operation of the insurer indicate that it would not be in the interest of policyholders or the public to permit them to do so;

(6) Any merger of a domestic insurer does not comply with section 3474; or

(7) The change of control would tend to affect adversely the contractual obligations of the domestic insurer or its ability and tendency to render service in the future to its policyholders and the public.

Sec. 4. 24-A MRSA §222, sub-§7-A, ¶D, as enacted by PL 2013, c. 238, Pt. A, §15 and affected by §34, is amended by amending subparagraph (3) to read:

(3) The proceeding is public to the same extent as a proceeding conducted under subsection 7, except that deliberations of a decision-making panel are not public proceedings and communications in the course of those deliberations among panel members and their advisers, other than the decision itself, are not public records.

Sec. 5. 24-A MRSA §222, sub-§8, ¶B-3, as enacted by PL 2013, c. 238, Pt. A, §18 and affected by §34, is amended to read:

B-3. A domestic insurer that is subject to registration, and has annual premium of \$500,000,000 or more or is a member of an insurance holding company system with annual premium of \$1,000,000,000 or more, shall conduct an own risk and solvency assessment in accordance with the requirements of this paragraph and the ORSA guidance manual at least annually, and also at any time when there are significant changes to the risk profile of the insurer or its insurance holding company system, except as otherwise provided in subparagraph (1). For purposes of this paragraph, "premium" means direct written and unaffiliated assumed premium, including international direct and assumed premium but excluding premiums reinsured with the Federal Crop Insurance Corporation within the United States Department of Agriculture, Risk Management Agency and with the National Flood Insurance Program within the United States Department of Homeland Security, Federal Emergency Management Agency.

- (1) This paragraph does not apply if:

- (a) The insurer is an agency, authority or instrumentality of the United States, its possessions and territories, the Commonwealth of Puerto Rico, the District of Columbia or a state or political subdivision of a state;
- (b) The insurer and its insurance holding company system did not meet either of the minimum premium criteria of this paragraph in the financial statements immediately preceding their most recent financial statements and the superintendent has not required compliance with this paragraph under subparagraph (2); or
- (c) The superintendent has granted a waiver from the requirements of this paragraph based upon unique circumstances. In deciding whether to grant a waiver, the superintendent may consider the type and volume of business written by the insurer, the ownership and organizational structure of the insurer and its insurance holding company system and any other factor the superintendent considers relevant to the insurer or the insurer's insurance holding company system. If the insurer's insurance holding company system includes insurers domiciled in more than one state, the superintendent shall coordinate with the lead regulator and with other domiciliary regulators in considering whether to grant the insurer's request for a waiver.
- (2) The superintendent may require an insurer that does not meet either of the minimum premium criteria of this paragraph to comply with the requirements of this paragraph if:
- (a) The superintendent determines that the insurer should be subject to this paragraph due to unique circumstances, including, but not limited to, the type and volume of business written by the insurer, the ownership and organizational structure of the insurer and its insurance holding company system, federal agency requests and international supervisor requests;
- (b) The insurer is subject to a corrective order or required to adopt a risk-based capital plan under sections 6453 to 6456;
- (c) The superintendent has determined in accordance with rules adopted by the superintendent that the insurer is in hazardous financial condition; or
- (d) The superintendent has determined that the insurer otherwise exhibits qualities of a troubled insurer.
- (3) If an insurer's insurance holding company system has annual premium of \$1,000,000,000 or more, the assessment and reporting required by this paragraph must be conducted for each insurer within the insurance holding company system, either on a systemwide basis or separately for insurers or combinations of insurers within the insurance holding company system.
- (4) An insurer subject to this paragraph shall maintain a risk management framework to assist the insurer with identifying, assessing, monitoring, managing and reporting on its material and relevant risks. An insurer may satisfy this requirement by participating in an applicable risk management framework maintained by the insurance holding company system of which the insurer is a member.
- (5) An insurer subject to this paragraph shall prepare and submit regular ORSA summary reports that satisfy the requirements of this subparagraph and shall provide additional information to the superintendent upon request.
- (a) Beginning no later than 2015, the ORSA summary report must be prepared at least annually, on a timetable consistent with the insurer's internal strategic planning processes, and submitted to the lead regulator of the insurer's insurance holding company system, as determined by the procedures within a financial analysis handbook adopted by the National Association of Insurance Commissioners. If the superintendent is not the lead regulator, the insurer shall submit the insurer's or insurance holding company system's most recent ORSA summary report to the superintendent on request.
- (b) The ORSA summary report must be prepared consistent with the ORSA guidance manual. Documentation and supporting information must be maintained and made available upon examination by or upon request of the superintendent.
- (c) The insurer's or insurance holding company system's chief risk officer, or other executive having responsibility for the oversight of the insurer's enterprise risk management process, shall sign the ORSA summary report attesting to the best of the signer's belief and knowledge that the insurer applies the enterprise risk management process described in the ORSA summary report and that a copy of the report has been provided to the insurer's board of directors or the appropriate committee of the board.

(d) An insurer may comply with this paragraph by providing the most recent ORSA summary report and a report or reports that are substantially similar to the ORSA summary report that are provided by the insurer or another member of its insurance holding company system to the insurance commissioner of another state or to an insurance supervisor or regulator of a foreign jurisdiction if that report provides information that is comparable to the information described in the ORSA guidance manual. Any report in a language other than English must be accompanied by an English translation.

(6) The superintendent's review of the ORSA summary report, and any additional requests for information, must be consistent with accepted regulatory procedures for the analysis and examination of multistate or global insurers and insurance groups.

Sec. 6. 24-A MRSA §731-B, sub-§1, as amended by PL 2007, c. 169, Pt. C, §1, is further amended to read:

1. ~~Credit~~ Except to the extent that the liabilities ceded are secured in accordance with subsection 3, credit for reinsurance is allowed a domestic ceding insurer as either an asset or a deduction from liability on account of reinsurance ceded only when the reinsurance is ceded to a solvent assuming insurer that:

A. Is licensed to transact insurance or reinsurance in this State, provided the assuming insurer maintains surplus as regards policyholders in an amount not less than the sum of paid-in capital stock, if any, and surplus as otherwise required for a certificate of authority for the kinds and amount of insurance and assumed reinsurance the insurer has in force net of any applicable ceded reinsurance. If the assuming insurer is licensed as a special purpose reinsurance vehicle pursuant to section 782 and maintains capital and surplus in accordance with the requirements of section 787, credit for reinsurance under a special purpose reinsurance vehicle contract, as defined in section 781, subsection 15, is allowed only to the extent that:

- (1) The fair value of the assets held by or for the benefit of the ceding insurer equals or exceeds the obligations due and payable to the ceding insurer by the special purpose reinsurance vehicle under the special purpose reinsurance vehicle contract;
- (2) The assets are held in accordance with the requirements in subchapter 6;
- (3) The assets are administered in the manner and pursuant to arrangements under subchapter 6;

- (4) The assets are held or invested in one or more of the forms allowed in section 795; and
- (5) The contract complies with all other relevant requirements of subchapter 6;

B. Is domiciled and licensed in a state that employs standards regarding credit for reinsurance substantially similar to those applicable under this section, if the insurer:

- (1) Submits to the authority of this State to examine its books and records; and
- (2) Except where reinsurance is ceded and assumed pursuant to pooling arrangements among insurers in the same holding company system, maintains a surplus regarding policyholders in an amount not less than \$20,000,000;

B-1. Is accredited as a reinsurer in this State, in accordance with the following standards.

(1) To apply for accreditation, a reinsurer shall file with the superintendent a written application on a form prescribed by the superintendent, accompanied by the fee prescribed in section 601, subsection 26 and an agreement to submit to the jurisdiction of the courts of this State and to the authority of the superintendent to examine the reinsurer's books and records.

(2) An accredited reinsurer must be licensed to transact insurance or reinsurance in at least one state, or in the case of a United States branch of an alien reinsurer, that reinsurer must be entered through and licensed to transact insurance or reinsurance in at least one state.

(3) An accredited reinsurer shall file with the superintendent, as part of its application and annually thereafter, a copy of its annual statement filed with the insurance department of its state of domicile or United States port of entry and a copy of its most recent audited financial statement.

(4) A reinsurer applying for accreditation that maintains a surplus as regards to policyholders in an amount not less than \$20,000,000 is deemed to be accredited if the reinsurer's application is not denied by the superintendent within 90 days after submission of the application. The superintendent has the discretion to grant accreditation to an applicant with a surplus less than \$20,000,000 subject to such terms and conditions as the superintendent determines to be necessary and appropriate for the protection of domestic ceding insurers and their policyholders.;

B-2. Is certified as a reinsurer in this State and secures its obligations in accordance with this paragraph.

(1) To be eligible for certification, the assuming insurer must meet the following requirements:

(a) The assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a jurisdiction determined by the superintendent to be a qualified jurisdiction pursuant to subparagraph (3);

(b) The assuming insurer must maintain minimum capital and surplus, or its equivalent, in an amount to be determined by the superintendent pursuant to rules adopted under subsection 7;

(c) The assuming insurer must maintain financial strength ratings from 2 or more rating agencies determined by the superintendent to be acceptable pursuant to rules adopted under subsection 7;

(d) The assuming insurer must agree to submit to the jurisdiction of this State and to appoint an agent for service of process in the same manner as provided for authorized insurers under section 421 and agree to provide security for 100% of the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers if the assuming insurer resists enforcement of a final United States judgment;

(e) The assuming insurer must agree to meet applicable information filing requirements as determined by the superintendent, both with respect to an initial application for certification and on an ongoing basis. Documents filed with the superintendent by the assuming insurer are not public records if the documents are confidential under the laws of the assuming insurer's domiciliary jurisdiction;

(f) The assuming insurer must pay the application fee prescribed in section 601, subsection 26-A and, to the extent provided in rules adopted under subsection 7, must agree to pay reasonable costs of review; and

(g) The assuming insurer must satisfy any other requirements for certification established by the superintendent.

(2) An association including incorporated and individual unincorporated underwriters may be a certified reinsurer. In order to be eligible

for certification, in addition to satisfying the requirements of subparagraph (1):

(a) The association may satisfy its minimum capital and surplus requirements through the capital and surplus equivalents, net of liabilities, of the association and its members, which must include a joint central fund that may be applied to any unsatisfied obligation of the association or any of its members, in an amount determined by the superintendent to provide adequate protection;

(b) The incorporated members of the association may not be engaged in any business other than underwriting as a member of the association and must be subject to the same level of regulation and solvency control by the association's domiciliary regulator as are the unincorporated members; and

(c) Within 90 days after its financial statements are due to be filed with the association's domiciliary regulator, the association shall provide to the superintendent an annual certification by the association's domiciliary regulator of the solvency of each underwriter member of the association or, if a certification is unavailable, financial statements, prepared by independent public accountants, of each underwriter member of the association.

(3) The superintendent shall create and publish a list of jurisdictions that are qualified to serve as the domiciliary regulators of certified reinsurers.

(a) In order to determine whether the domiciliary jurisdiction of an alien assuming insurer is eligible to be recognized as a qualified jurisdiction, the superintendent shall evaluate the appropriateness and effectiveness of the reinsurance supervisory system of the jurisdiction, both initially and on an ongoing basis, and consider the rights, benefits and the extent of reciprocal recognition afforded by the jurisdiction to reinsurers licensed and domiciled in the United States. To be recognized as qualified, a jurisdiction must agree to share information and cooperate with the superintendent with respect to all certified reinsurers domiciled within that jurisdiction. A jurisdiction may not be recognized as a qualified jurisdiction if the superintendent has determined that the jurisdiction does not adequately and promptly enforce final United States judgments and

arbitration awards. The superintendent may consider additional factors.

(b) If the National Association of Insurance Commissioners has published a list of recommended qualified jurisdictions, the superintendent shall consider that list in determining qualified jurisdictions. If the superintendent recognizes a jurisdiction as qualified that does not appear on the list published by the National Association of Insurance Commissioners, the superintendent shall make detailed findings of fact supporting the recognition in accordance with criteria to be developed in rules adopted under subsection 7.

(c) United States jurisdictions that are accredited by the National Association of Insurance Commissioners must be recognized as qualified jurisdictions.

(d) If a certified reinsurer's domiciliary jurisdiction ceases to be a qualified jurisdiction, the superintendent may suspend the reinsurer's certification indefinitely, in lieu of revocation.

(4) The superintendent shall assign a rating to each certified reinsurer, giving due consideration to the financial strength ratings that have been assigned by rating agencies determined to be acceptable pursuant to rules adopted under subsection 7. The superintendent shall publish a list of all certified reinsurers and their ratings.

(5) A certified reinsurer shall secure all obligations assumed from United States ceding insurers under this subsection, and under comparable laws of other states, at a level consistent with its rating and in a form acceptable to the superintendent, in compliance with rules adopted under subsection 7.

(a) If the security is insufficient, the superintendent shall reduce the allowable credit by an amount proportionate to the deficiency and may impose further reductions in allowable credit upon finding that there is a material risk that the certified reinsurer's obligations will not be paid in full when due.

(b) The reinsurer may secure its obligations as a certified reinsurer through a multibeneficiary trust that meets the requirements of paragraph C and subsection 2-A, with the following modifications.

(i) The maximum credit allowable may exceed the value of the qualifying security to the extent provided in this subparagraph.

(ii) The minimum trustee surplus is \$10,000,000, rather than the amount specified in paragraph C.

(iii) If the certified reinsurer also maintains a multibeneficiary trust for obligations required to be fully secured under paragraph C or comparable laws of other states, the certified reinsurer shall maintain separate trust accounts for its obligations incurred or renewed with reduced security as permitted by this paragraph or comparable laws of other United States jurisdictions and for its obligations that are required to be fully secured. The trust accounts may not be approved as qualifying security unless the reinsurer has bound itself, by the language of the trust and by agreement with the insurance regulator with principal oversight of each such trust account, to apply, upon termination of any such trust account, the remaining surplus of that trust to the extent necessary to fund any deficiency of any other such trust account.

(c) If a certified reinsurer does not secure its obligations through a qualifying multibeneficiary trust, it must secure its obligations to the ceding insurer consistent with the requirements of subsection 3, except that the maximum credit allowable may exceed the value of the qualifying security to the extent provided in this subparagraph.

(d) For purposes of this subparagraph, a certified reinsurer whose certification has been terminated for any reason must be treated as a certified reinsurer required to secure 100% of its obligations, unless the superintendent has continued to assign a higher rating, as permitted by other provisions of this section, to a certified reinsurer in inactive status or to a reinsurer whose certification has been suspended.

(6) If an applicant for certification has been certified as a reinsurer in a jurisdiction accredited by the National Association of Insurance Commissioners, the superintendent may defer to that jurisdiction's certification to grant certification in this State and may defer to the rating assigned by that jurisdiction.

(7) A certified reinsurer that ceases to assume new business in this State may request to maintain its certification in inactive status in order to continue to qualify for a reduction in security for its in-force business. An inactive certified reinsurer shall continue to comply with all applicable requirements of this subsection, and the superintendent shall assign a rating that takes into account, if relevant, the reasons why the reinsurer is not assuming new business;

B-3. Meets each of the conditions established in subparagraphs (2) to (8).

(1) For purposes of this paragraph, the following terms have the following meanings.

(a) "Covered agreement" means an agreement, entered into pursuant to the federal Dodd-Frank Wall Street Reform and Consumer Protection Act, 31 United States Code, Sections 313 and 314, that is in effect or in a period of provisional application and addresses the elimination, under specified conditions, of collateral requirements as a condition for entering into any reinsurance agreement with a ceding insurer domiciled in this State or for allowing the ceding insurer to recognize credit for reinsurance.

(b) "Reciprocal jurisdiction" means a jurisdiction that is:

(i) A non-United States jurisdiction that is subject to an in-force covered agreement with the United States, as long as each agreeing jurisdiction is within its legal authority to enter the agreement, or, in the case of a covered agreement between the United States and the European Union, a member state of the European Union;

(ii) A United States jurisdiction that meets the requirements for accreditation under the financial regulation standards and accreditation program of the National Association of Insurance Commissioners; or

(iii) A qualified jurisdiction, as determined by the superintendent pursuant to paragraph B-2, subparagraph (3), that meets certain additional requirements, consistent with the terms and conditions of covered agreements, as specified by the superintendent by rule.

(2) The assuming insurer must have its domicile or head office in, and be licensed in, a reciprocal jurisdiction.

(3) The assuming insurer must have and maintain on an ongoing basis minimum capital and surplus, or its equivalent, calculated according to the methodology applicable in its domiciliary jurisdiction, in an amount established by rule. If the assuming insurer is an association that includes incorporated and individual unincorporated underwriters, it must have and maintain on an ongoing basis minimum capital and surplus equivalents, net of liabilities, calculated according to the methodology applicable in its domiciliary jurisdiction, and a central fund containing a balance in amounts established by rule.

(4) The assuming insurer must have and maintain on an ongoing basis a minimum solvency or capital ratio, as applicable, as established by rule. If the assuming insurer is an association that includes incorporated and individual unincorporated underwriters, it must have and maintain on an ongoing basis a minimum solvency or capital ratio, as applicable, in the jurisdiction where the assuming insurer has its head office or is domiciled, as applicable.

(5) The assuming insurer must agree, and provide adequate assurance to the superintendent in a form specified by the superintendent by rule, as follows:

(a) The assuming insurer must provide prompt written notice and explanation to the superintendent if it fails to meet the minimum requirements set forth in subparagraph (3) or (4) or if any regulatory action is taken against it for serious non-compliance with applicable law;

(b) The assuming insurer must consent in writing to the jurisdiction of the courts of this State and to the appointment of the superintendent as agent for service of process. The superintendent may require the assuming insurer to include such consent in each reinsurance agreement for which credit is taken under this paragraph. This division does not limit or in any way alter the capacity of parties to a reinsurance agreement to agree to alternative dispute resolution mechanisms, except to the extent that such agreements are unenforceable under applicable insolvency or delinquency laws;

(c) The assuming insurer must consent in writing to pay all final judgments, wher-

ever enforcement is sought, that are obtained by a ceding insurer or its legal successor and that have been declared enforceable in the jurisdiction where the judgment was obtained;

(d) Each reinsurance agreement for which credit is taken under this paragraph must include a provision requiring the assuming insurer to provide security for the full amount of the assuming insurer's liabilities attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists enforcement of a final judgment that is enforceable under the law of the jurisdiction where the final judgment was obtained or resists enforcement of a properly enforceable arbitration award, whether the judgment or award is obtained by the ceding insurer or by its legal successor on behalf of its resolution estate. As used in this division, "resolution estate" means the estate of an insurer or reinsurer that has been placed into a receivership or comparable legal status; and

(e) The assuming insurer must confirm that it is not participating in any solvent scheme of arrangement that involves this State's ceding insurers and must agree to notify the ceding insurer and the superintendent and to provide security for the full amount of the assuming insurer's liabilities to the ceding insurer should the assuming insurer enter into such a solvent scheme of arrangement. Such security must be in a form consistent with the provisions of paragraph B-2 and subsection 3 and as specified by the superintendent by rule.

(6) The assuming insurer or its legal successor must provide, on behalf of itself and any legal predecessors, certain documentation to the superintendent as specified by the superintendent by rule, if requested by the superintendent.

(7) The assuming insurer must maintain a practice of prompt payment of claims under reinsurance agreements, pursuant to criteria established by rule.

(8) The supervisory authority for insurance for the jurisdiction of the assuming insurer must confirm to the superintendent on an annual basis that, as of the preceding December 31st or the annual date specified in statute for reporting to that supervisory authority in the assuming insurer's jurisdiction, the assuming insurer complies with the requirements of subparagraphs (3) and (4).

(9) The assuming insurer may provide additional information on a voluntary basis.

(10) The superintendent shall promptly create, publish and administer a list of reciprocal jurisdictions as described in this subparagraph.

(a) The superintendent shall include all reciprocal jurisdictions identified in subparagraph (1), division (b), subdivisions (i) and (ii) in the list maintained pursuant to this subparagraph.

(b) If the National Association of Insurance Commissioners has published a list of recommended reciprocal jurisdictions, the superintendent shall consider that list and may defer to that list in determining whether a jurisdiction qualifies as a reciprocal jurisdiction pursuant to subparagraph (1), division (b), subdivision (iii). The superintendent may determine that a jurisdiction that does not appear on the recommended list is a reciprocal jurisdiction in accordance with criteria established in rules adopted by the superintendent.

(c) If a jurisdiction has been determined to be a reciprocal jurisdiction pursuant to subparagraph (1), division (b), subdivision (iii), the superintendent, in accordance with a process established by rule by the superintendent, may determine that the jurisdiction is no longer a reciprocal jurisdiction and remove it from the list of reciprocal jurisdictions upon a determination that the jurisdiction no longer meets the conditions of this paragraph. Upon removal of a reciprocal jurisdiction from the list, credit for reinsurance ceded to an assuming insurer that has its head office or is domiciled in that jurisdiction is allowed only as otherwise allowed pursuant to this section.

(11) The superintendent shall promptly create, publish and administer a list of assuming insurers that have satisfied the conditions set forth in subparagraphs (2) to (8) for recognition for credit for reinsurance. The superintendent may add an assuming insurer to the list if it has been listed under a substantially similar law by a jurisdiction accredited by the National Association of Insurance Commissioners or if, upon a request for recognition of eligibility, the assuming insurer submits the information to the superintendent as required under subparagraph (5) and complies with any additional requirements that the superintendent may impose by rule, except to the extent

that those requirements conflict with an applicable covered agreement.

(12) If the superintendent determines that an assuming insurer no longer meets one or more of the conditions of this paragraph, the superintendent may suspend or revoke the recognition of the assuming insurer for credit for reinsurance under this paragraph in accordance with procedures established by rule.

(a) While an assuming insurer's recognition for credit is suspended, a reinsurance agreement issued, amended or renewed after the effective date of the suspension does not qualify for credit under this paragraph. Credit may be granted only to the extent that the assuming insurer's obligations under the contract are secured in accordance with other provisions of this subsection or with subsection 3.

(b) If an assuming insurer's recognition for credit is revoked, credit for reinsurance may not be granted after the effective date of the revocation with respect to any reinsurance agreements entered into by the assuming insurer, including reinsurance agreements entered into before the date of revocation, except to the extent that the assuming insurer's obligations under the contract are secured in a form acceptable to the superintendent and consistent with other provisions of this subsection or with subsection 3.

(13) If a ceding insurer that has been granted credit under this paragraph is subject to a legal process of rehabilitation, liquidation or conservation, the ceding insurer or its representative may seek and, if determined appropriate by the court in which the proceedings are pending, may obtain an order requiring the assuming insurer to post security for all outstanding ceded liabilities.

(14) This paragraph does not limit or in any way alter the capacity of parties to a reinsurance agreement to agree on requirements for security or other terms in that reinsurance agreement, except as expressly prohibited by this section or other applicable law or rule.

(15) Credit under this paragraph may be taken only for reinsurance pursuant to reinsurance agreements entered into, renewed or amended on or after the effective date of this paragraph and only with respect to losses incurred or reserves reported on or after the date on which the assuming insurer has met all eligibility requirements pursuant to subparagraphs (2) to (8) or the effective date of the new reinsurance

agreement, amendment or renewal, whichever is later.

This subparagraph does not alter or impair a ceding insurer's right to take credit for reinsurance, to the extent that credit is not available under this paragraph, as long as the reinsurance qualifies for credit under any other applicable provision of this section.

(16) Nothing in this paragraph:

(a) Authorizes an assuming insurer to withdraw or reduce the security provided under any reinsurance agreement except as permitted by the terms of the agreement; or

(b) Limits, or in any way alters, the capacity of parties to any reinsurance agreement to renegotiate the agreement;

C. Maintains a trust fund in a qualified United States financial institution for the payment of the valid claims of its United States ceding insurers, their assigns and successors in interest.

(1) The assuming insurer shall report annually to the superintendent information substantially the same as that required to be reported on the National Association of Insurance Commissioners Annual Statement form by licensed insurers to enable the superintendent to determine the sufficiency of the trust fund.

(2) In the case of a single assuming insurer, the trust must consist of a trustee account representing the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers and, in addition, unless the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least 3 full years, must include a trustee surplus of at least \$20,000,000. The trust must provide that after the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least 3 full years, the insurance regulator with principal oversight of the trust may authorize a reduction in the required trustee surplus, but only after a finding, based on an assessment of the risk, that the new required surplus level is adequate for the protection of United States ceding insurers, policyholders and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and must consider all material risk factors, including when applicable the lines of business involved, the stability of the incurred loss estimates and the effect of the surplus requirements on the assuming insurer's liquidity or

solvency. The minimum required trusteed surplus may not be reduced to an amount less than 30% of the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers covered by the trust.

(3-A) A group including incorporated and individual unincorporated underwriters may secure its obligations with funds held in trust in compliance with the following standards.

(a) For reinsurance ceded under reinsurance agreements with an inception, amendment or renewal date on or after January 1, 1993, the trust must consist of a trusteed account in an amount at least equal to the respective underwriters' several liabilities attributable to reinsurance ceded by United States domiciled ceding insurers to any underwriter that is a member of the group.

(b) Notwithstanding the other provisions of this section, for reinsurance ceded under reinsurance agreements with an inception date on or before December 31, 1992 and not amended or renewed after that date, the trust must consist of a trusteed account in an amount not less than the respective underwriters' several insurance and reinsurance liabilities attributable to business written in the United States.

(c) In addition, the group shall maintain a trusteed surplus of at least \$100,000,000 held jointly for the benefit of the United States domiciled ceding insurers of any member of the group for all years of account.

CHAPTER 24-B

MAINE INSURANCE DATA SECURITY ACT

§2261. Short title

This chapter may be known and cited as "the Maine Insurance Data Security Act."

§2262. Construction

This chapter establishes standards for data security and exclusive standards for the investigation of and notification to the superintendent regarding a cybersecurity event applicable to licensees. This chapter may not be construed to create or imply a private cause of action for violation of its provisions or to curtail a private cause of action that would otherwise exist in the absence of this chapter.

§2263. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Authorized individual. "Authorized individual" means an individual whose access to the nonpublic information held by a licensee and its information systems is authorized and determined by the licensee to be necessary and appropriate.

2. Consumer. "Consumer" means an individual, including but not limited to an applicant for insurance, policyholder, insured, beneficiary, claimant or certificate holder, who is a resident of this State and whose nonpublic information is in a licensee's possession, custody or control.

3. Cybersecurity event. "Cybersecurity event" means an event resulting in unauthorized access to, disruption of or misuse of an information system or information stored on an information system.

"Cybersecurity event" does not include the unauthorized acquisition of encrypted nonpublic information if the encryption process or key is not also acquired, released or used without authorization.

"Cybersecurity event" does not include an event with regard to which the licensee has determined that the nonpublic information accessed by an unauthorized person has not been used or released and has been returned or destroyed.

4. Encrypted. "Encrypted," with respect to data, means that the data has been transformed into a form that results in a low probability of assigning meaning without the use of a protective process or key.

5. Information security program. "Information security program" means the administrative, technical and physical safeguards that a licensee uses to access, collect, distribute, process, protect, store, use, transmit, dispose of or otherwise handle nonpublic information.

6. Information system. "Information system" means a discrete set of electronic information resources organized for the collection, processing, maintenance, use, sharing, dissemination or disposition of electronic information, as well as any specialized system such as an industrial or process control system, a telephone switching and private branch exchange system or an environmental control system.

7. Insurance carrier. "Insurance carrier" has the same meaning as in section 2204, subsection 15.

8. Licensee. "Licensee" means a person licensed, authorized to operate or registered or required to be licensed, authorized or registered pursuant to the insurance laws of this State. "Licensee" does not include a purchasing group or a risk retention group chartered and licensed in a state other than this State or a licensee that is acting as an assuming insurer and is domiciled in another state or jurisdiction.

9. Multifactor authentication. "Multifactor authentication" means authentication through verification of at least 2 of the following types of authentication factors:

- A. Knowledge factors, such as a password;
- B. Possession factors, such as a token or text message on a mobile telephone; and
- C. Inherence factors, such as a biometric characteristic.

10. Nonpublic information. "Nonpublic information" means information that is not publicly available information and is:

A. Business-related information of a licensee the tampering with or unauthorized disclosure of, access to or use of which would materially and adversely affect the business, operations or security of the licensee;

B. Information that, because of name, number, personal mark or other identifier, can be used in combination with any one or more of the following data elements to identify a consumer:

- (1) Social security number;
- (2) Driver's license number or nondriver identification card number;
- (3) Financial account number or credit or debit card number;
- (4) Any security code, access code or password that would permit access to a consumer's financial account; or
- (5) Biometric records; or

C. Information or data, except age or gender, in any form or medium created by or derived from a health care provider or a consumer and that relates to:

- (1) The past, present or future physical, mental or behavioral health or condition of a consumer or a member of the consumer's family;
- (2) The provision of health care to a consumer; or
- (3) Payment for the provision of health care to a consumer.

"Nonpublic information" does not include a consumer's personally identifiable information that has been anonymized using a method no less secure than the so-called safe harbor method under the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191.

- A. Federal, state or local government records;
- B. Widely distributed media; or
- C. Disclosures to the general public that are required to be made by federal, state or local law.

For the purposes of this definition, a licensee has a reasonable basis to believe that information is lawfully made available to the general public if the licensee has taken steps to determine that the information is of a type that is available to the general public and if a consumer can direct that the information not be made available to the general public and, if so, that the consumer has not done so.

12. Risk assessment. "Risk assessment" means the risk assessment that a licensee is required to conduct under section 2264, subsection 3.

13. Third-party service provider. "Third-party service provider" means a person that is not a licensee and that contracts with a licensee to maintain, process or store or otherwise is permitted access to nonpublic information through its provision of services to the licensee.

To the extent that an insurance carrier has identified areas, systems or processes that require material improvement, updating or redesign, the insurance carrier shall document the identification and the remedial efforts planned and underway to address such areas, systems or processes. The documentation required pursuant to this subsection must be available for inspection by the superintendent.

§2265. Investigation of cybersecurity event

1. Investigation. If a licensee learns that a cybersecurity event has or may have occurred, the licensee or an outside vendor or service provider designated to act on behalf of the licensee shall conduct a prompt investigation. **An Act To Establish the
COVID-19 Patient Bill of
Rights and To Amend the
Governor's Emergency Powers**

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the spread of the novel coronavirus disease referred to as COVID-19 has created a public health emergency; and

Whereas, in response to COVID-19, the World Health Organization has declared a pandemic, the President of the United States has declared a national emergency and the Governor of Maine has declared a civil state of emergency; and

Whereas, in response to COVID-19, the Governor of Maine has also proclaimed an insurance emergency pursuant to the Maine Revised Statutes, Title 24-A, section 471 and, pursuant to that proclamation, the Superintendent of Insurance has issued orders relating to health insurance coverage for COVID-19 screening, testing and immunization during the civil state of emergency; and

Whereas, it is important to maintain these important consumer protections related to health insurance coverage once the civil state of emergency expires; and

Whereas, the purpose of this legislation is to ensure that those consumer protections are codified in state law; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

PART A

Sec. A-1. 22 MRSA §1718-D, sub-§2, as amended by PL 2019, c. 668, §1, is further amended to read:

2. Prohibition on balance billing. An out-of-network provider reimbursed for a surprise bill or a bill for covered emergency services under Title 24-A, section 4303-C or, if there is a dispute, under Title 24-A, section 4303-E or a bill for COVID-19 screening and testing under Title 24-A, section 4320-P may not bill an enrollee for health care services beyond the applicable coinsurance, copayment, deductible or other out-of-pocket cost expense that would be imposed for the health care services if the services were rendered by a network provider under the enrollee's health plan. For an enrollee subject to coinsurance, the out-of-network provider shall calculate the coinsurance amount based on the median network rate for that health care service under the enrollee's health plan. An out-of-network provider is also subject to the following with respect to any overpayment made by an enrollee.

A. If an out-of-network provider provides health care services covered under an enrollee's health plan and the out-of-network provider receives payment from the enrollee for health care services for which the enrollee is not responsible pursuant to this subsection, the out-of-network provider shall reimburse the enrollee within 30 calendar days after the earlier of the date that the provider received notice of the overpayment and the date the provider became aware of the overpayment.

B. An out-of-network provider that fails to reimburse an enrollee for an overpayment as required by paragraph A shall pay interest on the overpayment at the rate of 10% per annum beginning on the earlier of the date the provider received notice of the overpayment and the date the provider became aware of the overpayment. An enrollee is not required to request the accrued interest from the out-of-network provider in order to receive interest with the reimbursement amount.

Sec. A-2. 22 MRSA §1718-G is enacted to read:

§1718-G. Requirements for notice to patients of costs for COVID-19 screening and testing

and prohibited charges for COVID-19 vaccination for uninsured patients

2. Notice of costs for COVID-19 screening and testing. A provider, as defined in Title 24-A, section 4301-A, subsection 16, shall, at the time a patient schedules or registers for screening or testing services and before providing screening or testing services for COVID-19:

A. Provide notice of any payment or upfront charge and the amount of that payment or charge that will be due from the patient for the services, including payments or charges for which the provider will submit a claim on the patient's behalf or for which the patient will need to submit a claim for reimbursement to the patient's health insurance carrier or to the department;

B. To the extent applicable, provide the form for requesting coverage from the department through emergency MaineCare coverage; and

C. To the extent applicable, inform any patient who will be required to make a payment or upfront charge that there are locations where COVID-19 screening and testing services are provided without such payments and that those locations are identified on the State's publicly accessible website.

3. Charges to uninsured patients for COVID-19 vaccination prohibited. A provider, as defined in Title 24-A, section 4301-A, subsection 16, may not charge an uninsured patient any amount for administering a COVID-19 vaccine or any associated costs of administration.

4. Rules. The department may adopt rules to implement and administer this section to align with any applicable federal regulations. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

4. Rules. The superintendent may adopt rules to implement and administer this section to align with any applicable federal requirements. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

For the purposes of this subsection, "COVID-19" has the same meaning as in Title 24-A, section 4320-P, subsection 1, paragraph A.

Sec. B-3. Exemption from mandate review. Notwithstanding the Maine Revised Statutes, Title 24-A, section 2752, section 1 of this Part is enacted without review and evaluation by the Department of Professional and Financial Regulation, Bureau of Insurance.

PART C

Sec. C-1. 37-B MRSA §742, sub-§1, ¶E is enacted to read:

E. In dealing with a declared state of emergency under this subsection, the Governor shall ensure that:

(1) Medical privacy and confidentiality requirements, including but not limited to requirements under the federal Health Insurance Portability and Accountability Act of 1996, are followed; and

(2) Health care services and surgeries are not considered to be nonessential services.

PART D

Sec. D-1. Permitted delegation of COVID-19 vaccine administration at point-of-dispensing vaccine sites for immunizations against COVID-19. This section governs the permitted delegation of COVID-19 vaccine administration at point-of-dispensing vaccine sites for immunizations against COVID-19. For the purposes of this section, "COVID-19" means the coronavirus disease 2019 resulting from SARS-CoV-2, severe acute respiratory syndrome coronavirus 2, and any virus mutating from that virus.

1. Applicability. This section applies only to point-of-dispensing vaccine sites that have a written memorandum of understanding with the Department of Health and Human Services, Maine Center for Disease Control and Prevention to administer vaccines against COVID-19. This section is effective only during the state of emergency declared by the Governor due to COVID-19 as of March 15, 2020 and any renewals of that declaration in accordance with the Maine Revised Statutes, Title 37-B, section 742 and Title 22, section 801, subsection 4-A and section 802, subsection 2-A.

2. Permitted delegation of COVID-19 vaccine administration. Any on-site clinician in charge of a point-of-dispensing vaccine site with a memorandum of understanding that complies with the requirements of subsection 4 may delegate the administration of COVID-19 vaccines within the State to employees, staff, agents or volunteers as long as the on-site clinician in charge is currently licensed by the State as a physician, advanced practice registered nurse or physician assistant and any employee, staff member, agent or volunteer to whom such authority is delegated under this section is subject to the supervision and control of the point-of-dispensing vaccine site and any on-site clinician in charge and has completed the training and observation required in subsection 3. Any individual to whom vaccine administration is delegated under this section is authorized to administer any COVID-19 vaccine identified as a "covered countermeasure" in the 4th amendment to the declaration by the Secretary of the United States Department of Health and Human Ser-

vices under the federal Public Readiness and Emergency Preparedness Act, referred to in this section as "the PREP Act," or in any subsequent declaration under that Act, and that meets the 42 United States Code, Section 247d-6d(i)(1) definition of "covered countermeasure."

3. Training and observation. Prior to undertaking any vaccine administration, anyone to whom vaccine administration is delegated under subsection 2 must complete the United States Department of Health and Human Services, Centers for Disease Control and Prevention COVID-19 vaccine training modules; any applicable training required by the PREP Act or any declaration issued pursuant to that Act for medical countermeasures against COVID-19 or guidance from an authority having jurisdiction under such declaration; and any applicable observation period by a currently practicing health care professional adequately experienced in vaccination who confirms competency in preparation and administration of the particular COVID-19 vaccine or vaccines to be administered by the individual, if required by the PREP Act or in any declaration or guidance under that Act. The individual must provide documentation of any training and observation required by this section to the point-of-dispensing vaccine site and the on-site clinician in charge prior to any administration of a COVID-19 vaccine as authorized by this section.

4. Requirements for the memorandum of understanding and other record keeping. Any on-site clinician in charge of a point-of-dispensing vaccine site may make a delegation under subsection 2 only if the point-of-dispensing vaccine site's memorandum of understanding or addendum to that memorandum of understanding identifies the clinician in charge by name. The point-of-dispensing vaccine site and the Department of Health and Human Services, Maine Center for Disease Control and Prevention shall each retain a copy of the memorandum of understanding for a period of 3 years. The point-of-dispensing vaccine site and on-site clinician in charge are each responsible for retaining for a period of 3 years a record of the name of each individual to whom vaccine administration is delegated under subsection 2 and evidence of each individual's completion of the required training and observation.

5. Delegation authority under other state law. The authority to delegate the administration of COVID-19 vaccines granted in this section is in addition to any delegation authority that may otherwise exist under state law. Clinicians in charge who exercise delegation authority pursuant to other state law are not required to comply with the requirements of this section.

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

A. "Green power supply" means electricity or renewable energy credits for electricity generated from renewable capacity resources as defined in section 3210, subsection 2, paragraph B-3, includ-

ing electricity generated by community-based renewable energy projects as defined in section 3602, subsection 1.

B. "Renewable energy credit" has the same meaning as in section 3210, subsection 2, paragraph B-2.

Except as provided in this subsection, the commission shall ensure that the green power offer is available to all residential and small commercial electricity customers, as defined by the commission by rule, and shall administer a competitive bid process to select a green power offer provider or providers for the service territory of a transmission and distribution utility.

A. The green power offer must be in addition to existing standard-offer service under section 3212.

B. The commission shall, to the maximum extent possible:

(1) Incorporate green power supply from community-based renewable energy projects, as defined in section 3602, subsection 1, into the green power offer; and

C. The green power offer may include incidental amounts of electricity supply that do not meet the definition of green power supply, if the commission determines that including such electricity supply is necessary to ensure that a green power offer provider can meet its retail load obligation.

D. The commission shall, in accordance with section 3210, subsection 7, inform residential and small commercial consumers of electricity in this State of the opportunity to purchase the green power offer.

E. F. The commission is not required to arrange for a green power offer for the territory of a consumer-owned transmission and distribution utility. If the commission arranges standard-offer service for a consumer-owned transmission and distribution

utility, the consumer-owned transmission and distribution utility may elect to have the commission arrange a green power offer in accordance with this subsection. A consumer-owned transmission and distribution utility may establish a green power offer through a competitive bidding process conducted in accordance with the commission's rules governing the selection of a green power offer provider under this subsection.

The commission shall adopt rules to implement this subsection. Rules adopted under this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

The commission may define the criteria for certification of green power supply products and renewable energy credit products by order or by rule, and the commission may limit the criteria for certification for consumer protection and eligibility verification purposes. Sec. 1. Evaluation of existing accommodations available to persons who are visually impaired to access prescription information. Resolved: That the Maine Board of Pharmacy shall survey all pharmacies in the State to determine the existing accommodations available to persons who are visually impaired to access prescription information, including labeling information and ways to distinguish between prescription medication containers of eye drops or other medications. Whereas, amendment of the Maine Revised Statutes, Title 22, section 8110 is required in order to conform to the federal Family First Prevention Services Act in 2021;

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 22 MRSA §8110, as enacted by PL 2019, c. 399, §1, is amended by amending the section headnote to read:

The department shall obtain, in print or electronic format, criminal history record information containing a record of public criminal history record information as defined in Title 16, section 703, subsection 8, from the Maine Criminal Justice Information System, established pursuant to Title 16, section 631, and the Federal Bureau of Investigation, for any staff member of a children's residential care facility, an emergency children's shelter, a shelter for homeless children or any group home that provides care for children in order to comply with the federal ~~family first prevention services legislation~~ Family First Prevention Services Act. For purposes of this section,

"staff member" means an individual who is employed by, or has applied for and may be offered employment at, a children's residential care facility, an emergency children's shelter, a shelter for homeless children or any group home that provides care for children, including a contract employee or self-employed individual, whether or not the individual has direct contact with children. **CHAPTER 43
H.P. 300 - L.D. 416**

**An Act Regarding the
Production and Sale of Birch
Syrup and Birch Syrup
Products**

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, it is imperative that this legislation take effect for the upcoming birch syrup season; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 7 MRSA c. 103, sub-c. 8-C is enacted to read:

**SUBCHAPTER 8-C
BIRCH SYRUP PRODUCTS**

§901. Exposed for sale

For purposes of this subchapter, any birch syrup products governed by this subchapter that are packed in any type or kind of container and found in any place in the State, whether a warehouse, packing house or place where birch syrup products are stored, are deemed to be exposed for sale.

§902. Labeling of birch syrup

All containers of birch syrup sold or offered for sale for human consumption must be labeled with the volume, name and address of the producer or packer, together with the producer's or packer's seal in a manner approved by the commissioner on the cap of the container, which must be affixed so that the container cannot be opened until the seal is broken. Any marking that indicates pure Maine birch syrup must be used exclusively for pure birch syrup produced in this State that has not been bleached or lightened in color by artificial means.

The words "Maine Birch" may not be used alone or in combination with other words on a label or container to designate the flavor of the contents unless all of the birch flavoring of the contents is a pure birch produced in this State.

§903. Labeling containers

A person may not sell or offer for sale in any place or serve in any hotel, restaurant or other public eating place any birch sugar, birch confection or candy or birch

syrup or any product labeled or represented as such that is in any way combined, interfused or diluted with cane or other sugars or other substance without distinctly marking, stamping or labeling the article or the package containing cane or other sugars or other substance or the advertisement of or menu statement with an accurate and descriptive name of the article and, in the case of birch sugar and birch syrup, the percentage in which birch sugar or birch syrup enters into its composition. In the case of birch confection or candy, the ingredients must be listed in the order of the volume of each ingredient with the ingredient of greatest volume listed first. The words "birch," "birched" and "birching" and words of similar import, except as printed in the percentage statement, may not appear in any manner on the article in which a product of birch syrup is combined, interfused or diluted, unless the word "blend" appears immediately before, after, above or below and in equal prominence with the word "birch" or words of similar import, or unless the term "birch flavored" appears in similar fashion on the label.

§904. Enforcement; jurisdiction

The commissioner shall enforce this subchapter. The commissioner or the commissioner's designee must have free access to any place or building, store, gift shop or any other building where birch syrup or birch syrup products are packed, stored, transported, sold or offered or exposed for sale or for transportation. The commissioner or the commissioner's designee may open any container and may upon tendering the market price take samples. The commissioner may recover fines imposed for a violation under this subchapter in a civil action and if the commissioner prevails in that action may recover full costs.

All fines for violations under this subchapter must be paid to the Treasurer of State and appropriated for enforcing this subchapter.

The commissioner shall adopt rules to implement this subchapter. Rules adopted pursuant to this paragraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

§905. Violations

A person who violates any of the provisions of this subchapter commits a civil violation for which the following fines may be adjudged:

1. First violation. For the first violation, a fine not to exceed \$100; and

2. Subsequent violations. For each subsequent violation, a fine not to exceed \$200.

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective May 5, 2021.

**CHAPTER 44
H.P. 451 - L.D. 615**

**An Act To Remove the
Advanced Cardiac Life
Support Certification
Requirement for Dental
Therapists**

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, current law requires a dental hygienist who is a dental therapist to provide verification of a current advanced cardiac life support certification; and

Whereas, this certification, which is not required for a dentist, is a barrier to licensing dental therapists seeking to work in the State and should be eliminated as soon as possible; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 32 MRSA §18345, sub-§2, ¶C, as amended by PL 2019, c. 388, §7, is further amended in subparagraph (4) by amending the first blocked paragraph to read:

For purposes of meeting the clinical requirements of this subparagraph, an applicant's hours of supervised clinical experience completed under the supervision of a dentist licensed in another state or a Canadian province may be included, as long as the applicant was operating lawfully under the laws and rules of that state or province; and

Sec. 2. 32 MRSA §18345, sub-§2, ¶C, as amended by PL 2019, c. 388, §7, is further amended by amending subparagraph (5) to read:

(5) A copy of the written practice agreement and standing orders required by section 18377, subsection 3; ~~and~~

Sec. 3. 32 MRSA §18345, sub-§2, ¶C, as amended by PL 2019, c. 388, §7, is further amended by repealing subparagraph (6).

Sec. 4. 32 MRSA §18345, sub-§2, ¶F, as amended by PL 2019, c. 388, §7, is further amended by amending subparagraph (1) to read:

(1) Verification of meeting the requirements of paragraph C, subparagraphs (2); and (3) ~~and~~ (6); and

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective May 5, 2021.

**CHAPTER 45
S.P. 484 - L.D. 1507**

**An Act To Establish a Local
Fiscal Recovery Funds
Program and Allocation**

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the federal American Rescue Plan Act of 2021, Public Law 117-2, provides, through the Coronavirus Local Fiscal Recovery Fund, funding for 3 categories: metropolitan cities, counties and nonentitlement units of local government; and

Whereas, amounts identified for nonentitlement units of local government will be provided to the State for distribution; and

Whereas, while it is expected that metropolitan and county funds will be provided directly to those entities by the Federal Government, it may be possible these funds will also be provided to the State for distribution; and

Whereas, according to the American Rescue Plan Act of 2021, the funds must be distributed to the local governments after receipt by the State within 30 days; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. Legislative intent regarding allocations to the Department of Administrative and Financial Services, American Rescue Plan Act of 2021 - Local Fiscal Recovery Funds program. It is the intent of the Legislature that the total combined allocation in section 2 of \$493,973,030 for fiscal years 2020-21 and 2021-22 represents the estimated maximum total amount to be distributed to the 3 categories of local government, which are county, metropolitan and other units of local government, scheduled for re-

cept of local fiscal recovery funds in the federal American Rescue Plan Act of 2021. While the Legislature expects that county and metropolitan funds will be provided directly to those entities by the Federal Government, the Legislature understands that federal regulations may require distribution of the local fiscal recovery fund portion of the funds from the federal American Rescue Plan Act of 2021 through the State to those entities and has allocated the combined total to provide for that possibility. The allocation in fiscal year 2022-23 allows for the expenditure of any remaining funds that may carry into that fiscal year. The Department of Administrative and Financial Services may adjust allotments by financial order to conform to guidance put forth by the Federal Government regarding the local fiscal recovery funds.

Sec. 2. Appropriations and allocations. The following appropriations and allocations are made.

ADMINISTRATIVE AND FINANCIAL SERVICES, DEPARTMENT OF

American Rescue Plan Act of 2021 - Local Fiscal Recovery Funds N359

Initiative: Provides one-time allocations necessary to distribute the local fiscal recovery funds authorized in the federal American Rescue Plan Act of 2021.

To this fund are charged expenses of the bureau incurred to mitigate and remediate damages or potential damages to waters of the State created by violations of this subchapter, including but not limited to costs of cleanup of discharges of pollutants to waters of the State and the restoration of water supplies.

1. Disbursements from and use of fund. Money in the fund may be used by the department and disbursed only to pay the costs, including without limitation payments to contractors undertaking physical mitigation and remediation activities and equipment expenses, involved in the control of sediment and water flow, the abatement of pollution and the implementation of remediation activities, including restoration of water supplies, related to the discharge of sediment and other pollutants discharged or at risk of discharging to waters of the State by timber harvesting activities.

The lien is effective when the certificate is recorded with the registry of deeds for the county in which the real estate is located. The certificate of lien must include a description of the real estate, the amount of the lien and the name of the owner as grantor.

When the amount for which a lien has been recorded under this subsection has been paid or reduced, the director, upon request by any person of record holding interest in the real estate that is the subject of the lien, shall issue a certificate discharging or partially discharging the lien. The department shall notify the person or persons that submitted the plan in writing of the department's determination and, if the plan is approved with conditions or rejected, include in the notification the basis for the department's determination.

A. A manufacturer or stewardship organization whose plan is rejected shall submit a revised plan to the department within 60 days after receiving a notice of rejection. The department shall review plan amendments in accordance with paragraphs A and B.

D. At any time, the department may require an operator to implement amendments to its approved plan or to submit to an independent financial audit of its stewardship program.

D. Costs associated with the stewardship program assessments required under this section.

When 2 or more manufacturers participate in a stewardship program, or if multiple stewardship programs exist, the costs of implementing, administering and operating the program or programs must be fairly and reasonably allocated between each participating manufacturer so that the share of the costs that is allocated to each manufacturer is reasonably related to the revenue-based market share of covered drugs that the manufacturer sells in the State.

6. Implementation of plan. A manufacturer or stewardship organization that submitted a plan under subsection 3 that was approved by the department under subsection 4 shall implement that plan no later than 180 days after the date the plan was approved.

A mandatory pharmacy collector that is a pharmacy not located in the State that provides covered drugs to residents in the State by mail shall provide for the safe collection of covered drugs that are household pharmaceutical waste through the use of mail-back envelopes and shall ensure that consumers in the State purchasing covered drugs from the pharmacy are provided with information regarding the availability of such envelopes upon request and instructions regarding how the customer can request an envelope.

B. An operator shall notify all authorized collectors that are not mandatory pharmacy collectors of the opportunity to serve on a voluntary basis as a collection location under the stewardship program and shall ensure that any such authorized collector that requests to participate in the program is added to the program within 90 days of the operator's receipt of the request. A participating authorized collector that is not a mandatory pharmacy collector may use any of the collection methods described under paragraph A.

C. The operator shall ensure that all collection receptacles located at a collection location under the stewardship program are emptied and serviced as

often as necessary to avoid the receptacles reaching storage capacity and to ensure proper operation.

D. A mandatory pharmacy collector participating in a stewardship program shall provide information on covered drug collection and safe drug disposal options to a consumer upon dispensing a covered drug, including the availability of mail-back envelopes upon request. An authorized collector that is located in the State that is providing for the collection of covered drugs that are household pharmaceutical waste through the use of mail-back envelopes shall ensure that information regarding the availability of such envelopes upon request is prominently posted, displayed or otherwise provided to consumers purchasing covered drugs.

10. Cease and desist orders. The commission may issue a cease and desist order:

- A. Following an adjudicatory hearing held in conformance with Title 5, chapter 375, subchapter ~~4~~ 4, if the commission finds that ~~any~~ a competitive electricity provider or transmission and distribution

15. Standard billing. The commission shall consider requiring standard billing information on bills for electric power service. If standard billing information is required, the commission shall investigate the possibility of adopting standards consistent with other New England states. The commission may not preclude the inclusion of other information on bills for electric power service.

16. Access to load data. Upon request from a competitive electricity provider, the commission shall provide load data on a class basis that is in the possession of a transmission and distribution utility, subject to reasonable protective orders to protect confidentiality, if considered necessary by the commission.

However, the licensee is required to pay the department a sum not to exceed \$100 to ~~support the costs of mailing and handling~~ cover the costs of standardizing inspection practices; administrative licensing and maintaining a centralized database; ongoing training, investigation, compliance and technical assistance; and legal interpretation and advice.

Sec. 16. 22 MRSA §2503 is enacted to read:
§2503. Articles detained, embargoed and condemned

Whenever a duly designated officer or employee of the department finds or has reason to believe that an establishment licensed under this chapter prepares or sells any food that is adulterated pursuant to section 2156 or misbranded pursuant to section 2157, an order detaining or embargoing that food may be issued to any person or persons with possession or control thereof and the officer or employee may affix or require the person to whom the order is directed to affix to such article a tag or other appropriate marking giving notice that such article is or is suspected of being adulterated or misbranded and has been detained or embargoed and warning all persons not to remove or dispose of such article by sale or otherwise until permission for removal or disposal is given by such officer or employee or the court. It is unlawful for any person to remove or dispose of such detained or embargoed article by sale or otherwise without such permission. Orders relating to detention and embargo issued pursuant to this chapter may not be considered licensing or an adjudicatory proceeding, as those terms are defined under Title 5, chapter 375.

When any such officer or employee finds an article detained or embargoed under this section to be adulterated or misbranded, the officer or employee may petition the District Court or Superior Court in whose jurisdiction the article is detained or embargoed for a libel for condemnation of such article if the licensee is unwilling to dispose of the article. When such officer or employee has found that an article so detained or embargoed is not adulterated or misbranded, the officer or employee shall remove the tag or other marking.

If the court finds that a detained or embargoed article is adulterated or misbranded, such article must, after entry of the decree, be destroyed at the expense of the claimant thereof, under the supervision of such officer or employee, and all court costs and fees and storage and other proper expenses must be taxed against the claimant of such article or the claimant's agent. When the adulteration or misbranding can be corrected by proper labeling or processing of the article, the court, after entry of the decree and after such costs, fees and expenses have been paid and a good and sufficient bond, conditioned that such article will be so labeled or processed, has been executed, may by order direct that such article be delivered to the claimant thereof for such labeling or processing under the supervision of an officer or employee of the department. The expense of such supervision must be paid by the claimant. Such bond must be returned to the claimant of the article on representation to the court by the commissioner that the article is no longer in violation of this chapter and that the expenses of such supervision have been paid. For purposes of this paragraph, proper labeling may include displaying required information by law, on a menu board, on a sign or in an open manner at the location where the article is for sale and served.

Whenever the commissioner or an officer or employee of the department finds in any room, building, vehicle of transportation or other structure of an establishment licensed under this chapter any meat, seafood, poultry, vegetable, fruit or other perishable articles that are unsound or contain any filthy, decomposed or putrid substance or that may be poisonous or deleterious to health or otherwise unsafe, the same being declared to be a nuisance, the commissioner or the officer or employee shall forthwith destroy the same or in any other manner render the same unsalable as human food.

CHAPTER 134
S.P. 34 - L.D. 26

An Act To Allow a Dentist To Administer Botulinum Toxin and Dermal Fillers

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the sole purpose of the Board of Dental Practice is to protect the public health and welfare by ensuring that the public is served by competent and honest practitioners and by establishing minimum standards of proficiency; and

Whereas, former board rule Chapter 9: Complaints/Investigations/Unprofessional Conduct, Section II, paragraph U, which was repealed effective April 5, 2020, contained language restricting a dentist's scope of practice to administer botulinum toxins and dermal fillers to dental procedures; and

Whereas, substantive policy decisions such as expanding or restricting scopes of practice are appropriate for the legislative process, not an administrative rule-making process; and

Whereas, immediate enactment of this legislation is necessary to continue protecting the public by ensuring that authorization for a dentist to administer botulinum toxin and dermal fillers to a patient as part of a dental treatment plan is continued as part of a dentist's scope of practice; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 32 MRSA §18325, sub-§1, ¶O, as amended by PL 2015, c. 488, §33, is further amended to read:

O. A violation of this chapter or a rule adopted by the board; ~~and~~

Sec. 2. 32 MRSA §18325, sub-§1, ¶P, as enacted by PL 2015, c. 488, §34, is amended to read:

Sec. 3. 32 MRSA §18325, sub-§1, ¶Q is enacted to read:

This paragraph does not apply to a dentist who has successfully completed postgraduate training and certification in oral and maxillofacial surgery from a program accredited by the American Dental Association Commission on Dental Accreditation or its successor organization.

Sec. 4. 32 MRSA §18371, sub-§1, ¶M, as enacted by PL 2015, c. 429, §21, is amended to read:

M. Prescribe drugs or medicine and administer local anesthesia, analgesia including nitrous oxide and oxygen inhalation and, with the appropriate permit issued by the board, administer sedation and general anesthesia necessary for proper dental treatment; ~~and~~

Sec. 5. 32 MRSA §18371, sub-§1, ¶N, as enacted by PL 2015, c. 429, §21, is amended to read:

N. Take case histories and perform physical examinations to the extent the activities are necessary in the exercise of due care in conjunction with the provision of dental treatment or the administration of anesthesia. A dentist is not permitted to perform physical examinations within a hospital licensed by the Department of Health and Human Services unless this activity is permitted by the hospital.; and

Sec. 6. 32 MRSA §18371, sub-§1, ¶O is enacted to read:

O. Administer botulinum toxins or dermal fillers to a patient with a diagnosed dental condition or when that administration is identified as part of a patient's dental treatment plan. **CHAPTER 135
H.P. 413 - L.D. 568**

An Act To Establish a Working Farmland Access and Protection Program within the Department of Agriculture, Conservation and Forestry and a Working Farmland Access and Protection Fund within the Land for Maine's Future Program

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, agriculture is critically important to the State's economy and food supply, and, because the State's working farms positively contribute to their communities as well as the State's overall quality of life, it is in the public interest to strengthen the agricultural sector by preserving productive agricultural soils, working farmland and open space land; and

Whereas, the United States Department of Agriculture, Natural Resources Conservation Service has defined, mapped and classified the State's most productive agricultural soil types as prime farmland, unique farmland, farmland of statewide importance and farmland of local importance throughout the State; and

Whereas, the preservation and conservation of farmland and open space land, agricultural and natural resources based businesses, productive agricultural soils and maintenance of open space land are important to the people of the State, as evidenced by the Constitution of Maine, Article IX, Section 8 and the farm and open space tax law in the Maine Revised Statutes, Title 36, chapter 105, subchapter 10, which confers current use property tax assessment to prevent the conversion of farmland and open space land to nonagricultural uses; and

Whereas, the protection of farmland is identified as a conservation priority by the Land for Maine's Future program; and

Whereas, the Land for Maine's Future Board has, since 1987, awarded partial funding to 42 farms in 9 counties to protect 9,882 acres of working farmland; and

Whereas, farmland protection projects funded by the Land for Maine's Future Board leverage matching funds from a variety of partners, including the United States Department of Agriculture, Natural Resources Conservation Service, land trusts, municipalities, water districts and nongovernmental organizations; and

Whereas, for these reasons it is critically important that this legislation take effect before the expiration of the 90-day period; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 5 MRSA §6201, sub-§3, as amended by PL 1993, c. 728, §3, is further amended to read:

Contributions of land or interest in land must be valued, for purposes of this section, in the amount of their appraised value.

4-A. Working farmland or working farmland property. "Working farmland" or "working farmland property" means land managed as a farm and available for commercial production of agricultural products, as defined in Title 7, section 152, subsection 2.

Sec. 3. 5 MRSA §6203, sub-§3, as amended by PL 2021, c. 33, §1, is further amended to read:

3. Fund proceeds. The proceeds of the Land for Maine's Future Fund may be applied and expended to:

- A. Acquire property or an interest in property that is determined by the board to be of state significance under the guidelines of this chapter;
- B. When interest in land is acquired with proceeds from the Land for Maine's Future Fund, fund minor capital improvements on such lands and on adjoining lands in the same ownership or under the same management to improve accessibility, as long as these improvements do not exceed 5% of the appraised value of the acquired property; and
- ~~C. When interest in farmland is acquired with proceeds from the Land for Maine's Future Fund, fund the development of a business plan and capital improvements to provide for the land's continuing use~~

~~as a working farm, as long as these improvements do not exceed 5% of the appraised value of the acquired property. Capital improvements under this paragraph may also be made on adjoining farmland in the same ownership or under the same management; and~~

D. When land or interest in land is acquired with proceeds from the Land for Maine's Future Fund, fund minor capital investments in the stewardship and management of that land. Stewardship and management investments under this paragraph must be held in a dedicated stewardship endowment and identified for use on the funded property. Stewardship and management investments may not exceed 5% of the appraised value of the acquired property.

Sec. 4. 5 MRSA §6203-C is enacted to read:

§6203-C. Maine Working Farmland Access and Protection Fund

1. Fund established. The Maine Working Farmland Access and Protection Fund, referred to in this section as "the fund," is established and is administered by the board in cooperation with the Commissioner of Agriculture, Conservation and Forestry under the provisions of this chapter and Title 7, section 164. The fund consists of the proceeds from the sale of bonds authorized for the purposes set forth in subsection 3 and funds received as contributions from private and public sources for those purposes. Funds for stewardship investments must be held in a dedicated stewardship endowment and identified for use on the funded property. CHAPTER 137

S.P. 527 - L.D. 1642

An Act Regarding Local Option Elections

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, current law requires that a municipality hold a referendum to approve the sale of liquor in that municipality; and

Whereas, based upon the affirmative referendum, the Department of Administrative and Financial Services, Bureau of Alcoholic Beverages and Lottery Operations is authorized to issue a liquor license to a qualified establishment in that municipality; and

Whereas, it recently became clear that a large number of municipalities would have to conduct new local option elections due to changes in terminology that occurred in 1976 relating to types of establishments requiring liquor licenses; and

Whereas, Public Law 2019, chapter 672, enacted by the Legislature and approved by the Governor on March 18, 2020, authorized the bureau to continue to issue, renew or transfer licenses to sell liquor in an authorized municipality until July 1, 2022, by which date municipalities would be required to provide evidence of the results of a local option election authorizing such sales; and

Whereas, conducting local option elections to affirm that the pre-1977 local option vote should be extended to all establishment types constitutes a significant financial and administrative burden for many municipalities; and

Whereas, it is imperative that this legislation take effect as soon as possible to avoid irreparable harm to businesses that have complied with all requirements but could lose their licenses to sell liquor for reasons beyond their control; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 28-A MRSA §125, sub-§1, as enacted by PL 2019, c. 672, §4, is amended to read:

1. Prohibition on licensing. ~~The~~ Except as provided in subsection 4, the bureau may not issue a license for the retail sale of spirits, wine or malt liquor unless the premises to be licensed are located in a municipality or unincorporated place that has voted in favor of the issuance of the type of license sought.

Sec. 2. 28-A MRSA §125, sub-§4, as enacted by PL 2019, c. 672, §4, is amended to read:

4. Final determination of authorized retail liquor establishments in each municipality. On July 1, 2022, the bureau shall make a final determination of whether licenses for each type of licensed establishment or for agency liquor stores may be issued for the sale of liquor on Sundays and on days other than Sunday in each municipality. ~~In making this final determination, the bureau shall consider evidence submitted by the relevant municipality under subsection 3 and the results of any local option election conducted in that municipality in compliance with this chapter subsequent to the preliminary determination made by the bureau under subsection 2.~~ The bureau shall post a copy of the final determination for each municipality on its publicly accessible website.

In making its final determination under this subsection, the bureau shall consider:

A. The results of any local option election conducted in the relevant municipality in compliance with this chapter subsequent to the preliminary determination made by the bureau under subsection 2;

B. Evidence submitted by the relevant municipality under subsection 3; and

C. The bureau's records of local option elections in the municipality.

For purposes of paragraphs B and C, the results of any local option election conducted prior to January 1, 1977 in favor of a local option question pursuant to former Title 28, section 101 approving the issuance of licenses for the sale of liquor for on-premises consumption at any type of licensed establishment on Sundays or on days other than Sundays are deemed to be evidence that the municipality approved the issuance of licenses for the sale of liquor for on-premises consumption by all types of licensed establishments on those days unless the bureau's records demonstrate that the municipality

voted to prohibit the issuance of licenses for the sale of liquor for on-premises consumption on those days in a subsequent local option election conducted under this chapter or under former Title 28, section 101.

Emergency clause. In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective June 10, 2021.

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 22 MRSA §3737, sub-§3, as corrected by RR 2015, c. 1, §21, is amended to read:

3. Quality differential. To the extent permitted by federal law, the department shall pay a differential rate for child care services that meet or that make substantial progress toward meeting nationally recognized quality standards, such as those standards required by the Head Start program or required for accreditation by the National Association for the Education of Young Children, and shall do so from the Child Care Development Fund 25% Quality Set-aside funds or by other acceptable federal practices. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A. 7. Energy savings improvement. "Energy savings improvement" means an improvement or series of improvements to qualifying property that, as determined by the trust, are new and permanently affixed to qualifying property and that:

A. Will result in increased energy efficiency or substantially reduced energy use and:

(1) Meet or exceed applicable United States Environmental Protection Agency and United States Department of Energy Energy Star program or similar energy efficiency standards established or approved by the trust; or

(2) Involve weatherization of commercial or industrial property in a manner approved by the trust; or

B. Involve a renewable energy installation, an energy storage system as defined in section 3481, subsection 6, an electric thermal storage system, electric vehicle supply equipment or heating equipment that meets or exceeds standards established or approved by the trust. Heating equipment that is not a renewable energy installation must be heating equipment that produces the lowest carbon emissions of any heating equipment reasonably available to the property owner, as determined by the trust, and must meet the requirements of section 10204, subsection 1, paragraph B.

8. Qualifying property. "Qualifying property" means real commercial property that:

A. Does not have a residential mortgage;

10. Trust. "Trust" means the Efficiency Maine Trust established in section 10103.

§10203. Commercial PACE programs

1. Establishment; administration. The trust, a 3rd party contracted by the trust or a municipality that has adopted a commercial PACE ordinance may establish a commercial PACE program. Notwithstanding any provision of law to the contrary, the trust may use funds from its administrative fund, program funds or fees on commercial PACE assessments to pay reasonable administrative expenses of the trust or to pay a 3rd party contracted by the trust for costs incurred to carry out the purposes of this chapter.

2. Energy savings improvement financing. Financing for energy savings improvements may be provided by any funds available for those improvements, except for proceeds from the regional greenhouse gas initiative as defined in Title 38, section 580-A, subsection 19. If funds are provided by a nongovernmental lender, including, but not limited to, banks and investment firms, the nongovernmental lender has the contractual right to receive commercial PACE assessment payments. Commercial PACE financing may cover up to 100% of an energy savings improvement's costs, including audits, energy savings improvement development and application fees.

3. Program administration; municipal participation and liability. A commercial PACE program must be administered as follows.

A. A municipality that has adopted a commercial PACE ordinance may:

(1) Administer the functions of a commercial PACE program, including, but not limited to, entering into commercial PACE agreements with commercial property owners and collecting commercial PACE assessments; or

(2) Enter into a contract with the trust to administer some or all functions of the commercial PACE program for the municipality, including billing and collection of commercial PACE assessments, except that the trust may

not administer the collection of commercial PACE assessments in default pursuant to section 10205, subsection 5.

B. The trust may enter into a contract with a municipality that has adopted a commercial PACE ordinance to administer commercial PACE program functions in the municipality.

C. The trust may enter into a contract with a 3rd-party administrator to administer part or all of a commercial PACE program for a municipality.

D. Notwithstanding any provision of law to the contrary, staff or trustees of the trust, municipal officers and municipal officials, including, without limitation, tax assessors and tax collectors, are not personally liable to the trust or to any other person for claims, of whatever kind or nature, under or related to a commercial PACE program established under subsection 1, including, without limitation, claims for or related to uncollected commercial PACE assessments.

E. Other than the fulfillment of its obligations specified in a commercial PACE agreement, neither the trust nor a municipality has any liability to a commercial property owner for or related to energy savings improvements financed under a commercial PACE program.

F. The trust may collect fees necessary to administer commercial PACE programs.

4. Quality assurance system. Subject to the availability of funds, the trust shall, within one year of the establishment of a commercial PACE program under subsection 1, adopt by rule a quality assurance system for the commercial PACE program. In developing a quality assurance system under this subsection, the trust shall consult with industry stakeholders, including, but not limited to, representatives of clean energy and energy efficiency programs, contractors and environmental, energy efficiency and labor organizations.

5. Terms and conditions. The trust may, by rule, establish terms and conditions under which municipalities and commercial property owners may participate in a commercial PACE program established under subsection 1, which may include, but are not limited to, terms and conditions related to program design, implementation and administration, cost sharing, collection of commercial PACE assessments and recording of liens. The trust may vary the terms and conditions established under this subsection applicable to a participating municipality from those of other participating municipalities by mutual agreement with that municipality. Any terms or conditions established by the trust may not conflict with other provisions of this chapter.

A commercial PACE assessment may be used to secure financing for the construction of a new building or fa-

ility. Financing secured by a commercial PACE assessment for the construction of a new building or facility must be used for energy savings improvements on the property that significantly exceed the energy standards of the Maine Uniform Building and Energy Code, adopted pursuant to Title 10, section 9722, subsection 6, paragraph B, or the applicable energy code in the municipality where the project is located, as determined by the trust. A lender under this chapter may disburse funds for new construction projects before project completion.

6. Model documents; educational materials.

The trust shall develop and provide to municipalities model commercial PACE ordinances, model commercial PACE agreements, other model forms and documents and educational materials for use by municipalities in the implementation of commercial PACE programs.

§10204. Underwriting

1. Underwriting. A commercial PACE agreement entered into pursuant to a commercial PACE program must comply with underwriting requirements established by rule by the trust. Underwriting requirements established by the trust must, at a minimum:

A. Provide that the term of the commercial PACE agreement not exceed the estimated useful life of the financed energy savings improvements;

B. Require that the estimated cost savings from the energy savings improvements over the useful life of such improvements achieve for the property owner a savings-to-investment ratio of not less than 1.0;

C. Require that the qualifying property have a debt service coverage ratio of not less than 1.0 at the time the commercial PACE agreement is entered into;

D. Require that the qualifying property have a loan-to-value ratio of not more than 1.0 at the time the commercial PACE agreement is entered into, calculated by dividing the total amount of debt secured by the property by the property value;

E. Require that the qualifying property's commercial PACE assessment-to-value ratio be no greater than 0.35;

F. Require proof of ownership of the qualifying property;

G. Require that the qualifying property:

(1) Be current on real estate taxes, personal property taxes and municipal sewer, sanitary and water district charges;

(2) Have no outstanding and unsatisfied tax or municipal sewer, sanitary or water district liens; and

(3) Not be subject to a mortgage or other lien on which there is a recorded notice of default, foreclosure or delinquency that has not been cured;

H. Require that the owner or owners of the qualifying property certify that there are no overdue payments on mortgages secured by the property; and

I. Require escrows for commercial PACE assessment payments when appropriate.

§10205. Commercial PACE assessments; collection; priority

1. Collection of assessments. A commercial PACE assessment constitutes a lien on the qualifying property until it is paid in full and must be assessed and collected by the trust, a 3rd-party administrator contracted by the trust, a municipality or an agent designated by the trust or a municipality in any manner allowed under the commercial PACE program, consistent with applicable laws. If the trust or a 3rd-party administrator contracted by the trust collects commercial PACE assessments on behalf of a municipality, the trust shall periodically report to the municipality on the status of the commercial PACE assessments in the municipality and shall notify the municipality immediately of any delinquent commercial PACE assessments. Upon receiving notification from the trust of a delinquent commercial PACE assessment, a municipality shall notify the holder of any mortgage on the property of the delinquent assessment.

2. Notice; filing. A notice of a commercial PACE agreement must be filed in the appropriate registry of deeds. The filing of this notice creates a commercial PACE lien against the property subject to the commercial PACE assessment until the amounts due under the terms of the commercial PACE agreement are paid in full. A notice filed under this subsection must, at a minimum, include:

A. The amount of funds disbursed or to be disbursed pursuant to the commercial PACE agreement;

B. The names and addresses of the current owners of the qualifying property subject to the commercial PACE assessment;

C. A description of the qualifying property subject to the commercial PACE assessment, including its tax map and lot number;

D. The duration of the commercial PACE agreement;

E. The name and address of the entity filing the notice; and

F. Written verification of mortgage lender consent, if there is a mortgage on the property.

3. Priority. A commercial PACE lien secures payment for any unpaid commercial PACE assessment and, together with all associated interest and penalties for default and associated attorney's fees and collection costs, takes precedence over all other liens or encumbrances except a lien for real property taxes of the municipality and liens of municipal sewer, sanitary and water districts. From the date of recording, a commercial PACE lien is a priority lien against a property, subject only to liens set out in section 6111-A, Title 36, section 552 and Title 38, sections 1050 and 1208, except that the priority of such a commercial PACE lien over any lien, except a lien for real property taxes of the municipality or a lien of a municipal sewer, sanitary or water district, that existed prior to the commercial PACE lien is subject to the written consent of such existing lienholder.

4. Mortgage lender notice and consent. Any financial institution holding a lien, mortgage or security interest in or other collateral encumbrance on the property for which a commercial PACE assessment is sought must be provided written notice of the commercial property owner's intention to participate in the commercial PACE program and must acknowledge in writing to the commercial property owner and municipality that the financial institution has received such notice. A commercial PACE assessment may not be approved until the financial institution holding the lien, mortgage or security interest in or other collateral encumbrance on the property has provided written consent to the commercial property owner and municipality that the borrower may participate and enroll the collateral property in the commercial PACE program. This written consent must be filed in the registry of deeds and must include a written acknowledgement and understanding by the financial institution holding the lien, mortgage or security interest in or other collateral encumbrance on the property:

A. Of the priority status provided to commercial PACE liens pursuant to subsection 3;

B. Of the foreclosure process applicable to properties subject to commercial PACE liens under subsection 5; and

C. That the financial institution is not required to but has voluntarily elected to consent to the enrollment of the property in the commercial PACE program.

5. Collection, default and foreclosure. A commercial PACE assessment for which notice is properly recorded under this section creates a lien on the property. The portion of the assessment that has not yet become due is not eliminated by foreclosure, and the lien may not be accelerated or extinguished until fully repaid.

A commercial PACE assessment and any interest, fees, penalties and attorney's fees incurred in its collection

must be collected in the same manner as the real property taxes of the municipality in which the property is located. If a commercial PACE assessment is delinquent or in default and the borrower or property owner is delinquent in any tax debt due to the municipality in which the property is located, collection may occur only by the recording of liens and by foreclosure under Title 36, sections 942 and 943. Liens must be recorded and released in the same manner as liens for real property taxes.

If only a commercial PACE assessment is delinquent but the borrower or property owner is current on payment of all municipal taxes due to the participating municipality, then a commercial PACE lienholder shall accept an assignment of the commercial PACE lien, as provided in the written agreement between the participating municipality and the commercial PACE lender. The assignee shall have and possess all the same powers and rights at law as the participating municipality and its tax collector with regards to the priority of the commercial PACE lien, the accrual of interest and fees and the costs of collection. The assignee shall have the same rights to enforce the commercial PACE lien as any private party or lender holding a lien on real property, including, but not limited to, the right of foreclosure consistent with Title 14, sections 6203-A and 6321 and any other action in contract or lawsuit for the enforcement of the commercial PACE lien. The assignee shall recover costs and reasonable attorney's fees incurred as a result of any foreclosure action or other legal proceeding brought pursuant to this subsection, which may be collected by the assignee at any time after the assignee has made demand for payment.

6. Judicial or nonjudicial sale or foreclosure. In the event of a judicial or nonjudicial sale or foreclosure of a property subject to a commercial PACE lien by a lienholder that is not a commercial PACE lienholder, the commercial PACE lien must survive the foreclosure or sale to the extent of any unpaid installment, interest, penalties or fees secured by the lien that were not paid from the proceeds of the sale. All parties with mortgages or liens on that property, including without limitation commercial PACE lienholders, must receive on account of such mortgages or liens sale proceeds in accordance with the priority established in this chapter and by applicable law. A commercial PACE assessment is not eliminated by foreclosure and cannot be accelerated. Only the portion of a commercial PACE assessment that is in arrears at the time of foreclosure takes precedence over other mortgages or liens; the remainder transfers with the property at resale.

Unless otherwise agreed upon by the commercial PACE lender, all payments on a commercial PACE assessment that become due after the date of transfer by judicial or nonjudicial sale or foreclosure must continue to be secured by a lien on the property and are the responsibility of the transferee.

7. Release of lien. A municipality shall discharge a commercial PACE lien created under subsection 2 upon full payment of the amount specified in the commercial PACE agreement. A discharge under this subsection must be filed in the appropriate registry of deeds and must include reference to the notice required under subsection 2.

§10206. Commercial property owners

1. Purchase of goods and services. CHAPTER 145

S.P. 234 - L.D. 596

An Act To Improve the Law Regarding Abandoned Roads

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 23 MRSA §3028, as amended by PL 2015, c. 464, §7, is repealed.

Sec. 2. 23 MRSA §3028-A is enacted to read:

§3028-A. Abandonment of town ways

Beginning October 1, 2021, a town way, or portion thereof, may not be declared discontinued by abandonment unless the municipality or county where the proposed abandoned town way is situated complies with the requirements of this section. A municipality or its officials or a county or its officials are not liable for nonperformance of a legal duty with respect to a town way declared discontinued by abandonment in accordance with this section.

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Affected property" means real property that abuts the town way to be declared discontinued by abandonment and real property for which the town way is the only access route.

B. "Best practicable notice" means, at minimum, the mailing of notice by the United States Postal Service, postage prepaid, first class, to affected property owners whose addresses appear in the assessment records of the municipality or county.

2. Declaration of abandonment. Municipal officers or county commissioners may vote to declare a town way discontinued by abandonment if:

A. For a period of 30 or more consecutive years, the town way was not kept passable for the use of motor vehicles at the expense of the municipality or county. Isolated acts of maintenance by the municipality or county without other evidence that shows a clear intent by the municipality or county to consider or use the town way as if it were a public way as defined in section 1903, subsection 11 does not negate evidence that the town way was not kept passable for the use of motor vehicles; and

B. The municipal officers or county commissioners vote to declare the town way discontinued by abandonment at a regularly scheduled meeting of the municipal officers or county commissioners. If the municipal officers or county commissioners vote to declare a town way discontinued by abandonment, they must also vote on whether a public easement is retained.

A municipality or county may not declare a town way discontinued by abandonment if evidence is presented to the municipal officers or county commissioners at a meeting held pursuant to paragraph B or a public hearing held pursuant to subsection 4 that the municipality or county received funds for any portion of the town way that is the subject of the discontinuance by abandonment for more than 84 months of the period of 30 or more consecutive years specified in paragraph A.

3. Notification of discontinuation by abandonment. The municipal officers or county commissioners shall give best practicable notice to all affected property owners of the town way to be declared discontinued by abandonment at least 30 days prior to the meeting required in subsection 2, paragraph B.

A. The notice must include information regarding the potential retention of a public easement, and:

- (1) The affected property owners' maintenance obligations for and right of access to the town way, if any;
- (2) The right of access to the town way by the public if a public easement is retained; and
- (3) Information regarding the rights of affected property owners to enter into agreements regarding maintenance of and access to that town way, including the right of affected property owners to create private easements.

B. If the town way to be declared discontinued by abandonment is the only means of access to property in an adjacent municipality or county, the municipal officers or county commissioners shall cause a written notice of the meeting required in subsection 2, paragraph B to be given to the municipal officers or county commissioners of the adjacent municipality or county at least 30 days prior to that meeting.

4. Public hearing. The municipal officers or county commissioners shall hold a public hearing prior to voting to declare a town way discontinued by abandonment under subsection 2 upon receipt of written request signed by at least 25% of affected property owners. The written request for a public hearing must be received by the municipal clerk or county clerk no more than 10 days after the notification issued pursuant to subsection 3.

5. Status of town way discontinued by abandonment. If the municipal officers or county commissioners vote to declare a town way discontinued by abandonment, the interests of the municipality or county in the abandoned town way pass as follows.

A. If the municipal officers or county commissioners vote to not retain a public easement in the abandoned town way, all interests of the municipality or county in the town way, if any, pass to the abutting property owners to the center of the town way.

B. If the municipal officers or county commissioners vote to retain a public easement in the abandoned town way, all other interests of the municipality or county in the town way, if any, pass to the abutting property owners to the center of the town way and the public easement retained is limited to rights of access by foot or motor vehicle as defined in Title 29-A, section 101, subsection 42.

An easement for public utility facilities necessary to provide or maintain service remains in a town way declared to be discontinued by abandonment regardless of whether a public easement is retained by the municipality or county.

6. Filing in registry of deeds. If the municipal officers or county commissioners vote to declare a town way discontinued by abandonment, the municipal clerk or county clerk shall record an attested certificate of the discontinuance by abandonment in the registry of deeds in the county where the abandoned town way is situated.

A. The certificate of discontinuance by abandonment may not be filed before the appeal period in subsection 7 has passed or, if an appeal is filed, before the appeal process has ended.

B. The certificate of discontinuance by abandonment must list the date of the vote by the municipal officers or county commissioners, describe the town way and include whether a public easement was retained.

C. The register of deeds shall record the certificate of discontinuance by abandonment under the name of the town way, the name of the municipality or county and the names of the affected property owners. The municipal clerk or county clerk shall provide a photocopy of the certificate to the Department of Transportation, Bureau of Maintenance and Operations.

7. Appeal. Notwithstanding section 3029, a person affected by a vote to declare a town way discontinued by abandonment may appeal the decision by filing a written appeal request within 10 days of the vote as follows:

A. With the municipal clerk for an appeal of a vote by the municipal officers in a municipality with a board of appeals authorized to hear the appeal;

B. With the county clerk for an appeal of a vote by the municipal officers in a municipality that does not have a board of appeals authorized to hear the appeal; or

C. With the county clerk for an appeal of a vote by the county commissioners.

Within 15 days after receiving a written appeal request filed pursuant to this subsection, the municipal clerk or county clerk shall schedule a public hearing on the appeal before the municipal board of appeals or county commissioners and provide written notice of the hearing date to the municipal officers or county commissioners and the person filing the appeal request. The public hearing must occur no more than 30 days after the appeal request is received.

A person aggrieved by the decision of the municipal board of appeals or county commissioners pursuant to this subsection may appeal the decision to the Superior Court in the county where the town way is situated, pursuant to the Maine Rules of Civil Procedure, Rule 80B.

8. Quasi-judicial act. The determination of the municipal officers regarding the status of a town way pursuant to this section is a quasi-judicial act under Title 14, section 8104-B, subsection 2.

9. Previously abandoned town ways. This section does not alter the status of a town way abandoned by a municipality or county under the terms of former section 3028.

10. Common law abandonment. This section does not alter the ability of a town way to be abandoned under the common law presumption of abandonment.

11. Removal of obstructions. If the municipal officers or county commissioners have declared a town way discontinued by abandonment and have retained a public easement in the abandoned town way under this section, the municipality, county commissioners or an abutter on the way, acting with the written permission of the municipal officers or county commissioners, may remove any gates, bars or other obstructions in the town way.

Sec. 3. Effective date. This Act takes effect October 1, 2021.

Decommissioning of Solar
Energy Developments**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 35-A MRSA c. 34-D is enacted to read:

CHAPTER 34-D

SOLAR ENERGY DEVELOPMENT DECOMMISSIONING

§3491. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Decommissioning. "Decommissioning" means the physical removal of all components of a solar energy development, including but not limited to solar panels and associated anchoring systems and foundations to a depth of at least 24 inches or to the depth of bedrock, whichever is less, and other structures, buildings, roads, fences, cables, electrical components or associated facilities and foundations to a depth of at least 24 inches or to the depth of bedrock, whichever is less, to the extent the components of the development are not otherwise in or proposed to be placed in productive use or otherwise authorized to remain in place by the environmental permitting entity.

For any portion of a solar energy development located on land classified as farmland any time within 5 years preceding the start of construction of the development, "decommissioning" means the physical removal of all such components of the development to a depth of at least 48 inches or to the depth of bedrock, whichever is less, to the extent such components are not otherwise in

or proposed to be placed in productive use or otherwise authorized to remain in place by the environmental permitting entity.

"Decommissioning" includes the grading to postconstruction grade and revegetation of all earth disturbed during construction and decommissioning, except for areas already restored.

2. Environmental permitting entity. "Environmental permitting entity" means:

A. The Department of Environmental Protection in the case of a solar energy development:

- (1) Located wholly or partly outside of the unorganized and deorganized areas; or
- (2) Subject to the department's jurisdiction pursuant to Title 38, chapter 3, subchapter 1, article 6; or

B. The Maine Land Use Planning Commission in the case of a solar energy development located wholly in the unorganized and deorganized areas and not subject to the jurisdiction of the Department of Environmental Protection pursuant to Title 38, chapter 3, subchapter 1, article 6.

3. Farmland. "Farmland" has the same meaning as in Title 36, section 1102, subsection 4.

4. Transfer of ownership. "Transfer of ownership" means a change in the legal entity that owns or operates a solar energy development. A sale or exchange of stock or membership interests or a merger is not a transfer of ownership as long as the legal entity that owns or operates the solar energy development remains the same.

5. Unorganized and deorganized areas. "Unorganized and deorganized areas" has the same meaning as in Title 12, section 682, subsection 1.

§3492. Prohibition

A person may not construct, cause to be constructed or operate a solar energy development with ground-mounted solar panels occupying 3 or more acres without first obtaining approval of a decommissioning plan from the environmental permitting entity under section 3495.

§3493. Transfer of ownership

Upon a transfer of ownership of a solar energy development subject to a decommissioning plan approved under section 3495, a person that transfers ownership of the development remains jointly and severally liable for implementation of the plan until the environmental permitting entity approves transfer of the decommissioning plan to the new owner or operator.

§3494. Decommissioning plan

A decommissioning plan must:

1. Decommissioning. Provide for the decommissioning of a solar energy development. For any portion of the development located on land classified as farmland any time within 5 years preceding the start of construction of the development, the plan must provide for the restoration of that farmland upon decommissioning sufficient to support resumption of farming or agricultural activities;

2. Grading and revegetation of earth. Provide for the grading and revegetation of all earth disturbed during construction and decommissioning, except for areas already restored; and

3. Financial capacity. Include demonstration of current and future financial capacity, which must be unaffected by the owner's or operator's future financial condition, to fully fund decommissioning in accordance with an approved decommissioning plan under this chapter.

§3495. Standards

An environmental permitting entity shall approve a decommissioning plan whenever it finds the following:

1. Successful decommissioning. The plan, if implemented, will result in successful decommissioning of the solar energy development, including the restoration of farmland sufficient to support resumption of farming or agricultural activities;

2. Financial assurance. - (2) Between the hours of 7 p.m. and 7 a.m. in such a manner as to exceed a noise level of 75 decibels on the "A" scale as measured by the SAE standards J-1970, referred to in this paragraph as "the shoreline test," except to the extent necessary to achieve headway speed when

leaving a boat launch or to move the airboat from a stationary position on a tidal flat; or

(3) After 7 a.m. and before 7 p.m. in such a manner as to exceed a noise level of 90 decibels as measured by the shoreline test, except to the extent necessary to achieve headway speed when leaving a boat launch or to move the airboat from a stationary position on a tidal flat.

2. Duties. The stakeholder group:

A. Shall examine and determine airboat mechanical systems and adjustments that result in the lowest practically achievable airboat decibel levels;

B. Shall examine and determine available federal or other funding to assist airboat owners in addressing any identified deficiencies in their airboat mechanical systems to achieve the results determined under paragraph A; and

C. May examine any related issues that the stakeholder group determines appropriate, including but not limited to establishing and restoring shellfish harvester access to coastal tidal areas, airboat operational techniques to allow for lower decibel levels and appropriate training and equipment for state and municipal law enforcement officers.

3. Staff; information. The commissioners shall provide necessary staffing services to the stakeholder group. Within existing resources, the commissioners shall arrange for input from experts in airboat noise. The commissioners shall also ensure that local sound data related to airboat use on inland and coastal waters using SAE standards J-1970, SAE standards J-34 and SAE standards J-2005 testing procedures is gathered and provided to the stakeholder group. A. An audited partnership or a partnership that has filed an administrative adjustment request shall file a completed federal adjustments report, including the distributive share of the adjustment paid by partners under subsection 1 and other information required by the assessor, and, if subject to tax under this subsection, pay the tax due no later than 180 days after the final determination date.

B. The tax due or a refund allowed pursuant to this subsection is determined as follows:

(2) Exclude from final federal adjustments the distributive share of adjustments reported to direct exempt partners not subject to tax on unrelated business taxable income;

(3) For the total distributive shares of the remaining final federal adjustments, remove the portion of such adjustments this State is prohibited from taxing under the Constitution of Maine or the United States Constitution, net of any expenses incurred in production of that income, that are not otherwise excluded pursuant to this paragraph;

(4) For the total distributive shares of the remaining final federal adjustments reported to direct corporate partners subject to tax under chapter 817, and to direct exempt partners subject to tax on unrelated business taxable income, apportion and allocate such adjustments as provided under chapter 821 and multiply the resulting amount by the highest tax rate under section 5200;

(5) For the total distributive shares of the remaining final federal adjustments reported to direct partners that are nonresident partners subject to tax under section 5111 or 5160, determine the amount of such adjustments that is Maine-source income under sections 5142 and 5192 and multiply the resulting amount by the highest tax rate under section 5111 for the applicable tax year;

(6) For the total distributive shares of the remaining final federal adjustments reported to tiered partners:

(a) Determine the amount of such adjustments that is of a type that would be subject to sourcing under section 5142, ~~excluding section 5142, subsection 3,~~ and calculate the portion of this amount sourced to this State;

(b) Determine the amount of such positive adjustments that is income of a type that would not be subject to sourcing by a nonresident partner under section 5142, ~~subsection 3;~~ and

(c) Determine the portion of ~~the amount~~ positive adjustments determined in division (b) that can be established to the sat-

(d) Determine the amount of such negative adjustments that is of a type that would not be subject to sourcing by a non-resident partner under section 5142; and

(e) Determine the portion of negative adjustments determined in division (d) that can be established to the satisfaction of the assessor to be properly allocable to indirect partners that are resident partners or other partners subject to tax on the adjustments;

(7) Multiply the total of the amounts determined in subparagraph (6), divisions (a) and (b), reduced by the amount determined in subparagraph (6), ~~division divisions (c) and (e)~~, by the highest tax rate under section 5111;

(8) For the total distributive shares of the remaining final federal adjustments reported to resident direct partners subject to tax under section 5111 or 5160, multiply that amount by the highest tax rate under section 5111 for the applicable tax year; ~~and~~

(9) Add the amounts determined in subparagraphs (4), (5), (7) and (8), ~~along with interest and penalties as provided in sections 186 and 187-B, respectively;~~

(10) If the result in subparagraph (9) is a positive amount, compute interest and penalties pursuant to sections 186 and 187-B, respectively, and add these amounts to the amount computed in subparagraph (9); and

(11) A negative amount computed pursuant to subparagraph (9) must be treated as an overpayment of tax by the partnership for which a claim for refund may be made by the partnership.

C. Notwithstanding section 5219-H, a partnership may not claim any of the credits in chapter 822 against the tax imposed by this subsection. However, a partnership may claim a credit for income taxes imposed on and paid by the partnership to another state of the United States, a political subdivision of any such state, the District of Columbia or any political subdivision of a foreign country that is analogous to a state of the United States with respect to the distributive shares of the final federal adjustments reported to resident direct partners included in the calculation pursuant to paragraph B, subparagraph (8) and paid by the partnership to this State. The credit under this paragraph is calculated

in the same manner as the credit allowed by section 5217-A.

5. Effect of partnership reporting and payment of amounts due. Except for adjustments required to be reported and the tax paid under subsection 1 and adjustments required under federal law or regulations to be taken into account by the partnership in the partnership return for the adjustment year or other year, the proper reporting of final federal adjustments and payment of amounts due by a partnership under subsections 3 and 4 relieves the partners of the partnership of any tax liability resulting from their distributive shares of the adjustments so reported. The direct partners or indirect partners may not take any deduction or credit for this amount or claim a refund of the amount in this State. The direct partners or indirect partners may not take a deduction, credit or refund with respect to any negative adjustment accounted for in subsection 3, paragraph B, subparagraphs (2) to (11).

Sec. A-11. 36 MRSA §5196, sub-§6, as enacted by PL 2019, c. 380, §2, is amended to read:

6. A fuel gas detector may be battery-operated, plugged into an electrical outlet or hardwired.

2. Fuel gas detector required. The building owner shall install, or cause to be installed, in accordance with the manufacturer's requirements at least one approved fuel gas detector in every room containing an appliance fueled by propane, natural gas or any liquified petroleum gas in:

- A. Each unit in any building of multifamily occupancy;
- B. A fraternity house, sorority house or dormitory that is affiliated with an educational facility;

- A. At the time of each occupancy, the landlord shall provide fuel gas detectors in accordance with

subsection 2 if fuel gas detectors are not already present. Each fuel gas detector must be in working condition. After notification, in writing, by the tenant of any deficiencies in a fuel gas detector, the landlord shall repair or replace the fuel gas detector. If the landlord did not know and had not been notified of the need to repair or replace a fuel gas detector, the landlord's failure to repair or replace the fuel gas detector may not be considered evidence of negligence in a subsequent civil action arising from death, property loss or personal injury; and

B. The tenant shall keep the fuel gas detectors in working condition by keeping the fuel gas detectors connected to the electrical service in the building or keeping charged batteries in battery operated fuel gas detectors, by testing the fuel gas detectors periodically and by refraining from disabling the fuel gas detectors.

4. Transfer of building. A person who, after January 1, 2022, acquires by sale or exchange a building listed in subsection 2, paragraph A shall install fuel gas detectors in accordance with subsection 2 in the acquired building within 30 days of acquisition or occupancy of the building, whichever is later, if fuel gas detectors in accordance with subsection 2 are not already present, and shall certify at the closing of the transaction that fuel gas detectors will be installed. Violation of this subsection does not create a defect in title.

5. Penalties. A person who violates this section commits a civil violation for which a fine of not more than \$500 for each violation may be adjudged. The court may waive any penalty or cost against a violator upon satisfactory proof that the violation was corrected within 10 days of the issuance of a complaint.

6. Liability. Nothing in this section gives rise to any action against an owner required to comply with subsection 2 or 3 if the owner has conducted an inspection of the required fuel gas detectors immediately after installation and has reinspected the fuel gas detectors prior to occupancy by each new tenant, unless the owner has been given at least 24 hours' actual notice of a defect or failure of the fuel gas detector to operate properly and has failed to take action to correct the defect or failure.

7. Noninterference. A person may not knowingly interfere with or make inoperative any fuel gas detector

required by this section, except that the owner or the agent of an owner of a building may temporarily disconnect a fuel gas detector in a dwelling unit or common area only for construction or rehabilitation activities when such activities are likely to activate the fuel gas detector or make it inactive. The fuel gas detector must be immediately reconnected at the cessation of construction or rehabilitation activities each day, regardless of the intent to return to construction or rehabilitation activities on succeeding days.

Sec. 2. Application. Notwithstanding the Maine Revised Statutes, Title 25, section 2469, subsection 2, paragraphs F, G and H, a business occupancy, a mercantile occupancy or an assembly occupancy in existence on January 1, 2022 shall comply with Title 25, section 2469, subsection 2 by January 1, 2026.

2. Duty of good faith. A mortgage servicer shall act in good faith toward an obligor in the servicing of an obligation secured by a mortgage and in any foreclosure action relating to such an obligation.

3. Effect of violation during foreclosure. If during a foreclosure action a mortgage servicer controlling or managing the action on its own behalf or on behalf of the owner of the obligation subject to foreclosure is shown to have committed a violation of its duty of good

faith under subsection 2, the court may dismiss the action, stay the action on appropriate terms and conditions or impose other appropriate sanctions until the violation is cured.

4. Remedies for violation. The following are remedies for a violation of the duty of good faith under subsection 2.

A. A homeowner or obligor injured by a violation of the duty of good faith may bring an action against the mortgage servicer for all actual damages sustained by the homeowner or obligor.

B. In addition to the damages recoverable under this subsection, the court may award a homeowner or obligor statutory damages not exceeding \$15,000 for a pattern or practice of the mortgage servicer's violating the duty of good faith. In determining whether to award statutory damages and the amount of statutory damages, the court shall consider all relevant factors, including:

- (1) The frequency and persistence of violations by the mortgage servicer;
- (2) The nature of the violations;
- (3) The extent to which the violations were intentional; and
- (4) The extent to which the actions that constitute violations are prohibited by state or federal laws, rules or regulations, and the extent to which such actions constitute violations by the mortgage servicer of any consent judgments to which it is a party.

C. If the court determines during a foreclosure action or an independent action for damages that there has been a violation of the duty of good faith:

- (1) The mortgage servicer may not charge the loan owner for, or add to the amount of the obligation, any attorney's fees or costs incurred as a result of the violation or any other attorney's fees or costs incurred before the mortgage servicer cures the violation; and
- (2) The court shall order the mortgage servicer to pay to the obligor the obligor's costs incurred in the action and reasonable attorney's fees as determined by the court.

5. Exclusion. The ~~terms term~~ "mortgage servicer" and "servicer" defined in subsection 1 ~~do~~ **does** not include a supervised financial organization as defined in Title 9-A, section 1-301, subsection 38-A; a financial institution holding company as defined in Title 9-B, section 1011, subsection 1; a mutual holding company as defined in Title 9-B, section 1052, subsection 2; a credit union service organization as defined in 12 Code of Federal Regulations, Section 712.1; a subsidiary of a supervised financial organization, financial institution holding company, mutual holding company or credit

A mortgage servicer as defined in section 6113, subsection 1, paragraph ~~B~~ B-1 participating in the mediation process submits to the jurisdiction of the court with respect to the power of the court to sanction parties who fail to participate in the mediation process in good faith as required by section 6113, subsection 2.

Sec. 3. 14 MRSA §6321-A, sub-§12, as amended by PL 2019, c. 363, §3, is further amended to read:

12. Good faith effort. Each party and each party's attorney, if any, must be present at mediation as required by this section and shall make a good faith effort to mediate all issues. If any party or attorney fails to attend or to make a good faith effort to mediate, the court may impose appropriate sanctions. A mortgage servicer as defined in section 6113, subsection 1, paragraph ~~B~~ B-1 participating in the mediation process shall participate in good faith as required by section 6113, subsection 2. In determining the nature and extent of appropriate sanctions, the court shall consider the need for deterrence of similar future conduct by the entity being sanctioned and by others and may take into account prior orders imposing sanctions upon the sanctioned party, whether in the same case or in other previous cases. The imposition of any sanction does not bar any independent action by a defendant to seek recovery with respect to the actions giving rise to the order of sanctions.

Sec. 4. 14 MRSA §6321-A, sub-§13, as amended by PL 2019, c. 363, §4, is further amended to read:

As part of the report, the mediator may notify the court if, in the mediator's opinion, either party failed to negotiate in good faith. The mediator's report must also include a statement of all agreements reached at mediation, with sufficient specificity to put all parties on notice of their obligations under agreements reached at mediation, including but not limited to a description of all documents that must be completed and provided pursuant to the agreements reached at mediation and the time frame during

**An Act To Ensure That
Victims of Assault, Battery and
False Imprisonment, Including
Victims of Domestic Violence,
Have Parity under Tort Law**

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the statute of limitations for most tort causes of action is 6 years; and

Whereas, the statute of limitations for assault and battery and false imprisonment is only 2 years, effectively depriving victims of domestic violence, among others, the same opportunity that most other victims of torts have to seek redress for their damages; and

Whereas, changing the statute of limitations for assault and battery and false imprisonment as soon as possible will allow those whose claims would otherwise be foreclosed while waiting for this Act to be effective an opportunity to seek redress;

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 14 MRSA §753, as amended by PL 1985, c. 804, §§1 and 22, is further amended to read:

§753. Two years

Actions for assault and battery, and for false imprisonment, slander and libel shall ~~shall~~ **must** be commenced within 2 years after the cause of action accrues.

**An Act To Amend the Laws
Banning Polystyrene Foam
Regarding Packaging for Meat,
Poultry, Fish, Seafood and
Eggs**

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, due to the pandemic related to the novel coronavirus disease, the Department of Environmental Protection has delayed until July 1, 2021 the enforcement of the law prohibiting the processing, preparation, sale or provision of food or beverages by certain establishments in or on a polystyrene foam disposable food service container, which was set to take effect on January 1, 2021; and

Whereas, that law exempts from its prohibition the retail sale of food or beverages that certain establishments purchase prepackaged at wholesale in or on a polystyrene foam disposable food service container; and

Whereas, that exemption has been interpreted to allow meat, poultry, fish, seafood and eggs from out-of-state producers, but not Maine-based producers, to be sold at retail in Maine when purchased prepackaged at wholesale in or on a polystyrene foam disposable food service container; and

Whereas, to ensure fairness in the treatment of both out-of-state and Maine-based meat, poultry, fish, seafood and egg producers under that law prior to its anticipated enforcement beginning July 1, 2021, immediate enactment of this legislation is necessary; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 38 MRSA §1571, sub-§3, as enacted by PL 2019, c. 62, §1, is amended to read:

3. Disposable food service container. "Disposable food service container" means service ware designed for one-time use.

2. Segregated campaign account. A committee registered under section 1052-A shall establish a separate account in a bank or other financial institution, referred to in this section as a "campaign account." The committee shall deposit all funds contributed to or received by the committee for the purpose of initiating or influencing a campaign in the campaign account and shall finance all of the committee's expenditures to initiate or influence the campaign through the campaign account. If a business or corporate entity has established the committee, the campaign account must be segregated from the general treasury funds of the entity that established the committee. If the committee is established by one or more individuals, the campaign account must be segregated from and not commingled with the personal funds of those individuals.

3. Exceptions. The commission may adopt procedures by rule for waiving the requirement under subsection 2 to maintain a segregated campaign account upon a showing by a committee that a separate account would be administratively burdensome, including but not limited to committees organized outside this State or an individual who registers as a ballot question committee. If the committee was formed by another organization, that other organization may pay its employees for their campaign-related activities on behalf of the committee through its own treasury, rather than the campaign account. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.

Sec. 7. 21-A MRSA §1054-A, as amended by PL 2019, c. 563, §8, is further amended to read:

§1054-A. Duties and liabilities of the treasurer, principal officer and primary decision maker of ~~political action~~ committees

The treasurer of the ~~political action~~ committee shall ensure that the ~~political action~~ committee files and amends the ~~political action~~ committee's registration, files complete and accurate financial reports with the commission and maintains the ~~political action~~ committee's records as required by this chapter and the commission's rules. The treasurer and the principal officer are jointly responsible for the ~~political action~~ committee's compliance with the requirements of this chapter and the commission's rules. The treasurer and principal officer are responsible for accepting and responding to notices and correspondence from the commission on behalf of the ~~political action~~ committee.

3. Participation in spending decisions. An individual who is the treasurer, principal officer or primary

decision maker of the ~~political action~~ committee and who has signed the acknowledgment statement required by section 1052-A, subsection 4 is deemed to have participated in the pending decisions of the ~~political action~~ committee until the commission receives the individual's resignation statement or a notice of the individual's involuntary removal from the ~~political action~~ committee.

4. Financial liability. The commission may hold the treasurer and principal officer jointly and severally liable with the ~~political action~~ committee for any fines assessed against the ~~political action~~ committee for violations of this chapter and chapter 14. In addition, the commission may assess all or part of a fine against any other agent of the ~~political action~~ committee who is directly responsible for a violation, including individuals who have resigned or have been removed involuntarily from the ~~political action~~ committee. In deciding whether to assess a penalty against a treasurer, principal officer or any other individual, the commission may consider, among other things, whether the individual had actual knowledge of the action that constituted the violation or had authorized that action and whether the violation was intentional or caused by an error by a vendor or someone outside the control of the ~~political action~~ committee.

Sec. 8. 21-A MRSA §1056-B, as amended by PL 2019, c. 323, §23 and c. 563, §11, is repealed.

4. Account statements. The treasurer of a ~~political action~~ committee shall keep account statements relating to the deposit of funds of the ~~political action~~ committee required by section 1054.

5. Simplified record-keeping requirements. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.

§7502. Licensure of self-storage providers

1. License required. A self-storage provider must obtain a limited lines license under this chapter prior to selling or offering coverage under a policy of self-storage insurance.

2. Authority provided by license. A limited lines license issued under this chapter authorizes any employee or authorized representative of a self-storage provider to sell or offer coverage under a policy of self-storage insurance to a customer at each location at which the self-storage provider engages with a customer or prospective customer.

3. List of locations. In connection with a self-storage provider's application for a license under section 7506 and upon request by the superintendent, the self-storage provider shall provide a list to the superintendent of all locations in this State at which the self-storage provider offers coverage.

4. Activities authorized by license. Notwithstanding any provision of law to the contrary, a license issued pursuant to this chapter authorizes the licensee and its employees or authorized representatives to engage only in those activities that are expressly permitted in this chapter.

§7503. Requirements for the sale of self-storage insurance

1. Brochures. At each location where a self-storage provider sells or offers self-storage insurance to customers, the self-storage provider shall make available to a prospective customer brochures or other written materials that:

B. State that the enrollment by the customer in a self-storage insurance policy is not required in order to rent or lease storage space within a self-storage facility;

§7504. Authority of self-storage providers

1. Requirements for employees and authorized representatives of self-storage providers. An employee or authorized representative of a self-storage provider may sell or offer self-storage insurance to a customer and is not subject to licensure as an insurance producer under this chapter if:

C. The employee or authorized representative of the self-storage provider does not advertise, represent or otherwise hold that employee or authorized representative out as other than a limited lines licensed insurance producer.

2. Charges. The charges for self-storage insurance coverage may be billed and collected by the self-storage provider. Any charge to the customer for coverage that is not included in the cost associated with the rental or lease of self-storage or related services must be separately itemized on the customer's bill. If the self-storage insurance coverage is included with the rental or lease of self-storage or related services, the self-storage provider shall clearly and conspicuously disclose to the customer that the self-storage insurance coverage is included with the rented or leased storage space. A self-storage provider billing and collecting charges for coverage is not required to maintain those funds in a segregated account as long as the self-storage provider is authorized by the insurer to hold such funds in an alternative manner and remits the funds to the supervising entity within 60 days of receipt. All funds received by a self-storage provider from a customer for the sale of self-storage insurance are considered funds held in trust by the self-storage provider in a fiduciary capacity for the benefit of the insurer. A self-storage provider may receive compensation for billing and collection services.

§7505. Violations

1. Penalties. If a self-storage provider or its employee or authorized representative violates any provision of this chapter, the superintendent may enforce this chapter in accordance with section 12-A except the superintendent may not impose a fine exceeding \$15,000 for aggregate conduct in violation of this chapter.

§17704-B. Back contributions for certain days off without pay

1. Election. If the retirement system determines at the time a member retires that the member's benefit would be increased as a result of the inclusion of com-

ensation that would have been paid for days off without pay or for days worked for which the level of pay is reduced as the result of the freezing of merit pay and longevity pay in fiscal year 2002-03, 2009-10, 2010-11, 2011-12 or 2012-13, or a combination thereof, or the loss of compensation from employment in an extracurricular or cocurricular position that was eliminated or otherwise unavailable during the period from January 1, 2020 to July 1, 2021 due to circumstances related to the novel coronavirus disease referred to as COVID-19, as provided in section 17001, subsection 4, paragraph A, the retirement system shall advise the member of that result and shall allow the member to elect to have that compensation included in the calculation of the member's benefit and to make payments set forth in subsection 2.

2. Payment. The amount that a member who makes the election permitted in subsection 1 must pay is the amount equal to the employee contribution that member would have made on compensation that would have been paid to that member on the days off without pay or for days worked for which the level of pay is reduced as the result of the freezing of merit pay and longevity pay during fiscal year 2002-03, 2009-10, 2010-11, 2011-12 or 2012-13, or a combination thereof, as provided in section 17001, subsection 4, paragraph A, plus interest at a rate, to be set by the board, not to exceed regular interest by 5 or more percentage points. Interest must be computed beginning at the end of the year when those contributions or pick-up contributions would have been made to the date of payment. For the loss of compensation from employment in an extracurricular or cocurricular position that was eliminated or otherwise unavailable during the period from January 1, 2020 to July 1, 2021 due to circumstances related to the novel coronavirus disease referred to as COVID-19, the member must pay an amount equal to the computed actuarial value. If the member elects to make the payment, the retirement system shall withhold the required amount from the member's first retirement benefit check.

3. Benefit calculation. If the member fails to make the election within 31 days of the notification provided under subsection 1, the retirement system shall calculate the member's retirement benefit without inclusion of the days off without pay and without inclusion of the compensation that otherwise would have been paid if the freezing of merit pay and longevity pay had not occurred during fiscal year 2002-03, 2009-10, 2010-11, 2011-12 or 2012-13, or a combination thereof, or the loss of compensation from employment in an extracurricular or cocurricular position that was eliminated or otherwise unavailable during the period from January 1, 2020 to July 1, 2021 due to circumstances related to the novel coronavirus disease referred to as COVID-19, as provided in section 17001, subsection 4, paragraph A.

Sec. 3. 5 MRSA §17768 is enacted to read:

§17768. Service credit for teachers

A member who is a teacher and who experiences a reduction in income from an extracurricular or cocurricular position due to circumstances related to coronavirus disease 2019, referred to in this section as "COVID-19," may purchase service credit for the period during which the extracurricular or cocurricular position was eliminated or otherwise unavailable under the following conditions.

A. During the 12 months preceding the start of the period of the service credit, the teacher received income from employment in an extracurricular or cocurricular position that was eliminated or otherwise unavailable during the period from January 1, 2020 to July 1, 2021 due to circumstances related to COVID-19; and

Payments must be made as provided in section 17701, subsection 4.

If any retirement benefit becomes effective before the completion of the payment under this subsection, the member is entitled to the additional creditable service that the total amount of payments actually made, plus regular interest on those payments to the date the retirement benefit becomes effective, bears to the actuarial equivalent of the total portion of the retirement benefit based on the additional creditable service.

4. Limitation on use of purchased service credit. Notwithstanding any provision of law to the contrary, service credit purchased under this section may be used only for the purpose of increasing the amount of a member's service retirement benefit by inclusion of the purchased service credit and may not be used to establish a member's qualification for a service retirement benefit.

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Noncontingent right" means a right that is not subject to the exercise of discretion or the occurrence of a specified event that is not certain to occur. "Noncontingent right" does not include a right held by a beneficiary if any person has discretion to distribute property subject to the right to any person other than the beneficiary or the beneficiary's estate.

B. "Presumptive remainder beneficiary" means a qualified beneficiary other than a current beneficiary.

C. "Successor beneficiary" means a beneficiary that is not a qualified beneficiary on the date the beneficiary's qualification is determined. "Successor beneficiary" does not include a person that is a

beneficiary only because the person holds a nongeneral power of appointment.

D. "Vested interest" means:

(1) A right to a mandatory distribution that is a noncontingent right as of the date of the exercise of the decanting power;

(2) A current and noncontingent right, annually or more frequently, to a mandatory distribution of income, a specified dollar amount or a percentage of value of some or all of the trust property;

(3) A current and noncontingent right, annually or more frequently, to withdraw income, a specified dollar amount or a percentage of value of some or all of the trust property;

(4) A general power of appointment that is a presently exercisable general power of appointment; or

(5) A right, which is not subject to the exercise of discretion or to the occurrence of a specified event that is not certain to occur, to receive an ascertainable part of the trust property on the trust's termination.

2. Expanded distributive discretion over principal. Subject to subsection 3 and section 1213, an authorized fiduciary that has expanded distributive discretion over the principal of a first trust for the benefit of one or more current beneficiaries may exercise the decanting power over the principal of the first trust.

3. Restrictions on 2nd trust. Subject to section 1212, in an exercise of the decanting power under this section, a 2nd trust may not:

A. Include as a current beneficiary a person that is not a current beneficiary of the first trust, except as otherwise provided in subsection 4;

B. Include as a presumptive remainder beneficiary or successor beneficiary a person that is not a current beneficiary, presumptive remainder beneficiary or successor beneficiary of the first trust, except as otherwise provided in subsection 4; or

C. Reduce or eliminate a vested interest.

4. Permitted 2nd trust. Subject to subsection 3, paragraph C and section 1213, in an exercise of the decanting power under this section, a 2nd trust may be a trust created or administered under the law of any jurisdiction and may:

A. Retain a power of appointment granted in the first trust;

B. Omit a power of appointment granted in the first trust, other than a general power of appointment that is a presently exercisable power of appointment;

C. Create or modify a power of appointment if the powerholder is a current beneficiary of the first trust and the authorized fiduciary has expanded distributive discretion to distribute principal to the beneficiary; and

D. Create or modify a power of appointment if the powerholder is a presumptive remainder beneficiary or successor beneficiary of the first trust, but the exercise of the power of appointment may take effect only after the powerholder becomes, or would have become if then living, a current beneficiary.

5. Power of appointment; permissible appointees. A power of appointment described in subsection 4, paragraphs A to D may be general or nongeneral. The class of permissible appointees in favor of which the power may be exercised may be broader than or different from the class of beneficiaries of the first trust.

6. Expanded distributive discretion over part of principal. If an authorized fiduciary has expanded distributive discretion over part but not all of the principal of a first trust, the fiduciary may exercise the decanting power under this section over that part of the principal over which the authorized fiduciary has expanded distributive discretion.

§1211. Decanting power under limited distributive discretion

1. Limited distributive discretion defined. For purposes of this section, "limited distributive discretion" means a discretionary power of distribution that is limited to an ascertainable standard or a reasonably definite standard.

2. Limited distributive discretion over principal. An authorized fiduciary that has limited distributive discretion over the principal of the first trust for the benefit of one or more current beneficiaries may exercise the decanting power over the principal of the first trust.

3. Creation of 2nd trust; similar beneficial interests. Under this section and subject to section 1213, a 2nd trust may be created or administered under the law of any jurisdiction. Under this section, the 2nd trusts, in the aggregate, must grant each beneficiary of the first trust beneficial interests that are substantially similar to the beneficial interests of the beneficiary in the first trust.

4. Distribution for benefit of beneficiary. A power to make a distribution under a 2nd trust created pursuant to this section for the benefit of a beneficiary who is an individual is substantially similar to a power under the first trust to make a distribution directly to the beneficiary. A distribution is deemed to be for the benefit of a beneficiary if:

A. The distribution is applied for the benefit of the beneficiary;

B. The beneficiary is under a legal disability or the trustee reasonably believes the beneficiary is incapacitated and if the distribution is made as permitted under this Part; or

C. The distribution is made as permitted under the terms of the first-trust instrument and the 2nd-trust instrument for the benefit of the beneficiary.

5. Limited distributive discretion over part of principal. If an authorized fiduciary has limited distributive discretion over part but not all of the principal of a first trust, the fiduciary may exercise the decanting power under this section over that part of the principal over which the authorized fiduciary has limited distributive discretion.

§1212. Trust for beneficiary with disability

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Beneficiary with a disability" means a beneficiary of a first trust who the special-needs fiduciary believes may qualify for governmental benefits based on disability, whether or not the beneficiary currently receives those benefits or is an individual who is subject to a guardianship, a conservatorship or a protective arrangement.

B. "Governmental benefits" means financial aid or services from a state, federal or other public agency.

C. "Special-needs fiduciary" means, with respect to a trust that has a beneficiary with a disability:

(1) A trustee or other fiduciary, other than a settlor, that has discretion to distribute part or all of the principal of a first trust to one or more current beneficiaries;

(2) If no trustee or fiduciary has discretion under subparagraph (1), a trustee or other fiduciary, other than a settlor, that has discretion to distribute part or all of the income of the first trust to one or more current beneficiaries; or

(3) If no trustee or fiduciary has discretion under subparagraphs (1) and (2), a trustee or other fiduciary, other than a settlor, that is required to distribute part or all of the income or principal of the first trust to one or more current beneficiaries.

D. "Special-needs trust" means a trust the trustee believes would not be considered a resource for purposes of determining whether a beneficiary with a disability is eligible for governmental benefits.

2. Special-needs decanting. A special-needs fiduciary may exercise the decanting power under section 1210 over the principal of a first trust as if the fidu-

ciary had authority to distribute principal to a beneficiary with a disability subject to expanded distributive discretion if:

A. A 2nd trust is a special-needs trust that benefits the beneficiary with a disability; and

B. The special-needs fiduciary determines that exercise of the decanting power will further the purposes of the first trust.

3. Beneficiary with a disability. In an exercise of the decanting power under this section, the following apply:

A. Notwithstanding section 1210, subsection 3, paragraph B, the interest in the 2nd trust of a beneficiary with a disability may:

(1) Be a pooled trust as defined under the federal Medicaid program for the benefit of the beneficiary with a disability under 42 United States Code, Section 1396p(d)(4)(C); or

(2) Contain payback provisions complying with reimbursement requirements under the federal Medicaid program under 42 United States Code, Section 1396p(d)(4)(A);

B. Section 1210, subsection 3, paragraph C does not apply to the interests of a beneficiary with a disability; and

C. Except as affected by any change to the interests of a beneficiary with a disability, the 2nd trust or, if there are 2 or more 2nd trusts, the 2nd trusts in the aggregate must grant each other beneficiary of the first trust beneficial interests in the 2nd trusts that are substantially similar to the beneficiary's beneficial interests in the first trust.

§1213. Protection of charitable interest

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Determinable charitable interest" means a charitable interest that is a right to a mandatory distribution currently, periodically, on the occurrence of a specified event or after the passage of a specified time period and that is unconditional or will be held solely for charitable purposes.

B. "Unconditional" means not subject to the occurrence of a specified event that is not certain to occur, other than a requirement in a trust instrument that a charitable organization be in existence or qualify under a particular provision of the United States Internal Revenue Code of 1986 on the date of the distribution, if the charitable organization meets the requirement on the date of determination.

2. Determinable charitable interest; Attorney General may represent and bind. If a first trust contains a determinable charitable interest, for purposes of

this section, the Attorney General has the rights of a qualified beneficiary and may represent and bind the determinable charitable interest.

3. Limitation on 2nd trusts. If a first trust contains a determinable charitable interest, the 2nd trust or trusts may not:

- A. Diminish the determinable charitable interest;
- B. Diminish the interest of an identified charitable organization that holds the determinable charitable interest;
- C. Alter any charitable purpose stated in the first-trust instrument; or
- D. Alter any condition or restriction related to the determinable charitable interest.

4. Treatment of 2 or more 2nd trusts. If there are 2 or more 2nd trusts, the 2nd trusts must be treated as one trust for purposes of determining whether the exercise of the decanting power diminishes the determinable charitable interest or diminishes the interest of an identified charitable organization for purposes of subsection 3.

5. State law applicable; exceptions. If a first trust contains a determinable charitable interest, a 2nd trust or trusts that include a determinable charitable interest pursuant to subsection 3 must be administered under the law of this State unless:

- A. The Attorney General, after receiving notice under section 1207, does not object in a signed record delivered to the authorized fiduciary within the notice period;
- B. The Attorney General consents in a signed record to the 2nd trust or trusts being administered under the law of another jurisdiction; or
- C. The court approves the exercise of the decanting power.

6. Attorney General's powers and duties not limited. This Act does not limit the powers and duties of the Attorney General under a law of this State other than this Act.

§1214. Trust limitation on decanting

1. Decanting power prohibited. An authorized fiduciary may not exercise the decanting power to the extent the first-trust instrument expressly prohibits exercise of:

- A. The decanting power; or
- B. A power granted by state law to the authorized fiduciary to distribute part or all of the principal of the trust to another trust or to modify the trust.

2. Decanting power restricted. Exercise of the decanting power is subject to any restriction in the first-trust instrument that expressly applies to exercise of:

- A. The decanting power; or
- B. A power granted by state law to an authorized fiduciary to distribute part or all of the principal of the trust to another trust or to modify the trust.

3. Decanting power not precluded. A general prohibition on amendment or revocation of a first trust, a spendthrift provision or a clause restraining the voluntary or involuntary transfer of a beneficiary's interest does not preclude exercise of the decanting power.

4. First trust permits modification or distribution. Subject to subsections 1 and 2, an authorized fiduciary may exercise the decanting power pursuant to this Act even if the first-trust instrument permits the authorized fiduciary or another person to modify the first-trust instrument or to distribute part or all of the principal of the first trust to another trust.

5. Express prohibition or restriction included in 2nd trust. If a first-trust instrument contains an express prohibition described in subsection 1 or an express restriction described in subsection 2, the provision must be included in the 2nd-trust instrument.

§1215. Change in compensation

1. Compensation specified. If a first-trust instrument specifies an authorized fiduciary's compensation, the authorized fiduciary may not exercise the decanting power to increase the authorized fiduciary's compensation above the specified compensation unless:

- A. All qualified beneficiaries of the 2nd trust consent to the increase in a signed record; or
- B. The increase is approved by the court.

2. Compensation not specified. If a first-trust instrument does not specify an authorized fiduciary's compensation, the authorized fiduciary may not exercise the decanting power to increase the authorized fiduciary's compensation above the compensation permitted by this Part unless:

- A. All qualified beneficiaries of the 2nd trust consent to the increase in a signed record; or
- B. The increase is approved by the court.

3. Change in compensation incidental. A change in an authorized fiduciary's compensation that is incidental to other changes made by the exercise of the decanting power is not an increase in the authorized fiduciary's compensation for purposes of subsections 1 and 2.

§1216. Relief from liability and indemnification

1. Liability for breach of trust. Except as otherwise provided in this section, a 2nd-trust instrument may not relieve an authorized fiduciary from liability for breach of trust to a greater extent than the first-trust instrument does.

2. Indemnification for claim otherwise payable. A 2nd-trust instrument may provide for indemnification of an authorized fiduciary of the first trust or another person acting in a fiduciary capacity under the first trust for any liability or claim that would have been payable from the first trust if the decanting power had not been exercised.

3. No reduction in liability in aggregate. A 2nd-trust instrument may not reduce fiduciary liability in the aggregate.

4. Division and reallocation of fiduciary powers; relief from fiduciary liability. Subject to subsection 3, a 2nd-trust instrument may divide and reallocate fiduciary powers among fiduciaries, including one or more trustees, distribution advisors, investment advisors, trust protectors or other persons, and relieve a fiduciary from liability for an act or failure to act of another fiduciary as permitted by a law of this State other than this Act.

§1217. Removal or replacement of authorized fiduciary

An authorized fiduciary may not exercise the decanting power to modify a provision in a first-trust instrument granting another person power to remove or replace the authorized fiduciary unless:

1. Person holding power consents. The person holding the power to remove or replace the authorized fiduciary consents to the modification in a signed record and the modification applies only to the person;

2. Person holding power and qualified beneficiaries consent. The person holding the power to remove or replace the authorized fiduciary and the qualified beneficiaries of the 2nd trust consent to the modification in a signed record and the modification grants a substantially similar power to another person; or

3. Court approves. The court approves the modification and the modification grants a substantially similar power to remove or replace the authorized fiduciary to another person.

§1218. Tax-related limitations

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Grantor trust" means a trust as to which a settlor of a first trust is considered the owner under 26 United States Code, Sections 671 to 677 or 26 United States Code, Section 679.

B. "Internal Revenue Code" means the United States Internal Revenue Code of 1986.

C. "Nongrantor trust" means a trust that is not a grantor trust.

D. "Qualified benefits property" means property subject to the minimum distribution requirements

of 26 United States Code, Section 401(a)(9), and any applicable regulations, or to any similar requirements that refer to 26 United States Code, Section 401(a)(9) or an applicable regulation.

2. Limitations on decanting power. An exercise of the decanting power is subject to the following limitations:

A. If a first trust contains property that qualified, or would have qualified but for provisions of this Act other than this section, for a marital deduction for purposes of the gift or estate tax under the Internal Revenue Code or a state gift, estate or inheritance tax, the 2nd-trust instrument must not include or omit any term that, if included in or omitted from the trust instrument for the trust to which the property was transferred, would have prevented the transfer from qualifying for the deduction, or would have reduced the amount of the deduction, under the same provisions of the Internal Revenue Code or state law under which the transfer qualified.

B. If the first trust contains property that qualified, or would have qualified but for provisions of this Act other than this section, for a charitable deduction for purposes of the income, gift or estate tax under the Internal Revenue Code or a state income, gift, estate or inheritance tax, the 2nd-trust instrument may not include or omit any term that, if included in or omitted from the trust instrument for the trust to which the property was transferred, would have prevented the transfer from qualifying for the deduction, or would have reduced the amount of the deduction, under the same provisions of the Internal Revenue Code or state law under which the transfer qualified.

C. If the first trust contains property that qualified, or would have qualified but for provisions of this Act other than this section, for the exclusion from the gift tax described in 26 United States Code, Section 2503(b), the 2nd-trust instrument may not include or omit a term that, if included in or omitted from the trust instrument for the trust to which the property was transferred, would have prevented the transfer from qualifying under 26 United States Code, Section 2503(b). If the first trust contains property that qualified, or would have qualified but for provisions of this Act other than this section, for the exclusion from the gift tax described in 26 United States Code, Section 2503(b) by application of 26 United States Code, Section 2503(c), the 2nd-trust instrument may not include or omit a term that, if included or omitted from the trust instrument for the trust to which the property was transferred, would have prevented the transfer from qualifying under 26 United States Code, Section 2503(c).

D. If the property of the first trust includes shares of stock in an S corporation, as defined in 26 United States Code, Section 1361 and the first trust is, or but for provisions of this Act other than this section would be, a permitted shareholder under any provision of 26 United States Code, Section 1361, an authorized fiduciary may exercise the power with respect to part or all of the S corporation stock only if any 2nd trust receiving the stock is a permitted shareholder under 26 United States Code, Section 1361(c)(2). If the property of the first trust includes shares of stock in an S corporation and the first trust is, or but for provisions of this Act other than this section would be, a qualified subchapter S trust within the meaning of 26 United States Code, Section 1361(d), the 2nd-trust instrument may not include or omit a term that, if included or omitted, would have the effect of preventing the 2nd trust from qualifying as a qualified subchapter S trust.

E. If the first trust contains property that qualified, or would have qualified but for provisions of this Act other than this section, for an inclusion ratio of zero for purposes of the generation-skipping transfer tax under 26 United States Code, Section 2642(c), the 2nd-trust instrument may not include or omit a term that, if included in or omitted from the first-trust instrument, would have prevented the transfer to the first trust from qualifying for an inclusion ratio of zero under 26 United States Code, Section 2642(c).

F. If the first trust is directly or indirectly the beneficiary of qualified benefits property, the 2nd-trust instrument may not include or omit any term that, if included in or omitted from the first-trust instrument, would have increased the minimum distributions required with respect to the qualified benefits property under 26 United States Code, Section 401(a)(9) and any applicable regulations, or any similar requirements that refer to 26 United States Code, Section 401(a)(9) or an applicable regulation. If an attempted exercise of the decanting power violates the preceding sentence, the trustee is deemed to have held the qualified benefits property and any reinvested distributions of the property as a separate share from the date of the exercise of the power, and section 1221 applies to the separate share.

G. If the first trust qualifies as a grantor trust because of the application of 26 United States Code, Section 672(f)(2)(A), the 2nd trust may not include or omit a term that, if included in or omitted from the first-trust instrument, would have prevented the first trust from qualifying under 26 United States Code, Section 672(f)(2)(A).

H. Subject to paragraph I, a 2nd-trust instrument may not include or omit a term that, if included in

or omitted from the first-trust instrument, would have prevented qualification for a tax benefit if:

(1) The first-trust instrument expressly indicates an intent to qualify for the tax benefit or the first-trust instrument clearly is designed to enable the first trust to qualify for the tax benefit; and

(2) The transfer of property held by the first trust, or the first trust, qualified, or but for provisions of this Act other than this section would have qualified, for the tax benefit.

For the purposes of this paragraph, "tax benefit" means a federal or state tax deduction, exemption, exclusion or other benefit not otherwise listed in this section, except for a benefit arising from being a grantor trust.

I. Subject to paragraph D:

(1) Except as otherwise provided in paragraph H, the 2nd trust may be a nongrantor trust, even if the first trust is a grantor trust; and

(2) Except as otherwise provided in paragraph J, the 2nd trust may be a grantor trust, even if the first trust is a nongrantor trust.

J. An authorized fiduciary may not exercise the decanting power if a settlor objects in a signed record delivered to the authorized fiduciary within the notice period under section 1207 and:

(1) The first trust and a 2nd trust are both grantor trusts, in whole or in part, the first trust grants the settlor or another person the power to cause the first trust to cease to be a grantor trust and the 2nd trust does not grant an equivalent power to the settlor or other person; or

(2) The first trust is a nongrantor trust and a 2nd trust is a grantor trust, in whole or in part, with respect to the settlor, unless:

(a) The settlor has the power at all times to cause the 2nd trust to cease to be a grantor trust; or

(b) The first-trust instrument contains a provision granting the settlor or another person a power that would cause the first trust to cease to be a grantor trust and the 2nd-trust instrument contains the same provision.

§1219. Duration of 2nd trust

1. Duration. Subject to subsection 2, a 2nd trust may have a duration that is the same as or different from the duration of the first trust.

2. Rules applicable to property. To the extent that property of a 2nd trust is attributable to property of the first trust, the property of the 2nd trust is subject to

any rules governing maximum perpetuity, accumulation or suspension of the power of alienation that apply to property of the first trust.

§1220. Need to distribute not required

An authorized fiduciary may exercise the decanting power whether or not, under the first trust's discretionary distribution standard, the authorized fiduciary would have made or could have been compelled to make a discretionary distribution of principal at the time of the exercise.

§1221. Savings provision

1. Second-trust instrument in part not in compliance. If exercise of the decanting power would be effective under this Act except for the 2nd-trust instrument's partial noncompliance with this Act, the exercise of the decanting power is effective and the following applies with respect to the principal of the 2nd trust attributable to the exercise of the decanting power:

A. A provision in the 2nd-trust instrument that is not permitted under this Act is void to the extent necessary to comply with this Act; and

B. A provision required by this Act to be in the 2nd-trust instrument that is not contained in the instrument is deemed to be included in the instrument to the extent necessary to comply with this Act.

2. Fiduciary action. If a trustee or other fiduciary of a 2nd trust determines that subsection 1 applies to a prior exercise of the decanting power, the fiduciary shall take corrective action consistent with the fiduciary's duties.

§1222. Trust for care of animal

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Animal trust" means a trust or an interest in a trust created to provide for the care of one or more animals.

B. "Protector" means a person appointed in an animal trust to enforce the trust on behalf of the animal or, if no such person is appointed in the trust, a person appointed by the court for that purpose.

2. Consent of protector. The decanting power may be exercised over an animal trust that has a protector to the extent the trust could be decanted under this Act if each animal that benefits from the trust were an individual, if the protector consents in a signed record to the exercise of the power.

3. Rights of qualified beneficiary. A protector for an animal has the rights under this Act of a qualified beneficiary.

4. Time period first trust benefited animal. Notwithstanding any provision of this Act to the contrary,

if a first trust is an animal trust, in an exercise of the decanting power, the 2nd trust must provide that trust property may be applied only for its intended purpose for the time period the first trust benefited the animal.

§1223. Terms of 2nd trust

A reference in this Title to a trust instrument or terms of the trust includes a 2nd-trust instrument and the terms of the 2nd trust.

§1224. Settlor

1. Settlor of first trust is settlor of 2nd trust. For purposes of the law of this State other than this Act and subject to subsection 2, a settlor of a first trust is deemed to be the settlor of the 2nd trust with respect to the portion of the principal of the first trust subject to the exercise of the decanting power.

2. Consideration of intent. In determining settlor intent with respect to a 2nd trust, the intent of a settlor of the first trust, a settlor of the 2nd trust and the authorized fiduciary may be considered.

§1225. Later-discovered property

1. Distribution of all principal of first trust. Except as otherwise provided in subsection 3, if exercise of the decanting power was intended to distribute all the principal of the first trust to one or more 2nd trusts, later-discovered property belonging to the first trust and property paid to or acquired by the first trust after the exercise of the decanting power is part of the trust estate of the 2nd trust or trusts.

2. Distribution of less than all principal of first trust. Except as otherwise provided in subsection 3, if exercise of the decanting power was intended to distribute less than all the principal of the first trust to one or more 2nd trusts, later-discovered property belonging to the first trust or property paid to or acquired by the first trust after exercise of the decanting power remains part of the trust estate of the first trust.
