That the State Controller increase allotment in account 025-10A-0140-01, Office of Aging and Disability Services Central Office, by \$1,921,157 in the All Other line category for the purpose of addressing the social and health challenges of Maine's aging and disabled population as it relates to COVID-19; and,

Be it further ordered,
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2022," for which this shall be our sufficient warrant.

Funding will also be provided to the Elder Abuse Institute of Maine to support statewide Support Navigator Services, a Direct Purchased Services Pilot program, and data analysis and reporting to find improvement opportunities for the Adult Protective Services programs. Funding is provided by multiple grants authorized by the American Rescue Plan Act (ARPA).

**BY GOVERNOR
ORDERED,**

That the State Controller increase allotment in account 025-10A-0143-19, Federal Project Grants, by \$8,434,212 in the All Other line category and \$170,392 in the Personal Services line category for the purpose of providing funding to address ongoing vaccination efforts in Maine during the COVID-19 pandemic for high risk and underserved populations; and,

Be it further ordered,
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2022," for which this shall be our sufficient warrant.

Statement of Fact

This financial order provides funding to address public health disparities by ensuring greater equity and access to COVID-19 vaccine for those disproportionately affected by COVID-19 in Maine. This funding will be used to target populations that are considered high-risk and underserved, including racial and ethnic minority groups, people living in communities with a high social vulnerability index and people in rural areas. The adult vaccination program will be expanded to provide outreach and information to persons with disabilities, especially members of the deaf and hard of hearing community, provide outreach and education to direct care staff in Maine long term care facilities around the state, to ensure homebound individuals can receive vaccinations in their homes, and to offer education and vaccine support for COVID-19 boosters and flu vaccines. Funds will also be used to provide stipends to Intellectual and Developmental Disability clinics, to provide transportation to COVID-19 vaccination sites, and to allow staff who are working on COVID-19 activities to charge their time and position related costs to this grant. Funding is authorized by the American Rescue Plan Act.
