PREFACE

The 2021 edition of Laws of the State of Maine is the official publication of the session laws of the State of Maine enacted by the 130th Legislature and is compiled and published under the authority of the Maine Revised Statutes, Title 3, section 163-A. Laws of the State of Maine has been in continuous publication since 1820, when the acts and resolves adopted by the First Legislature were published by the Secretary of State under the authority of Resolve 1820, chapter 25.

Volume 2 contains the public laws, private and special laws and resolves enacted at the Second Special Session and the Second Regular Session of the 130th Legislature, followed by the 2021 Revisor's Report, chapter 1, Initiated Bill 2021, chapter 1 and a selection of significant addresses, joint resolutions and memorials.

Volume 1 was published at the conclusion of the First Special Session of the 130th Legislature and contains legislation enacted during that session.

The following conventions are used throughout the series.

1. At the top of each page is a heading that classifies each law by session of passage, year, type and chapter number.
2. A table of contents that locates major divisions and contents by page number is located at the beginning of each volume.
3. An individual subject index of the documents contained in these volumes, arranged alphabetically by subject heading with corresponding chapter numbers, is located at the end of each volume.
4. Session cross-reference tables are also provided at the end of this volume showing how unallocated public laws and titles and sections of the Maine Revised Statutes of 1964 have been affected by the laws included in this publication.
5. Words and phrases deleted from the statutes are shown struck through. When an entire unit is repealed, the text that is repealed is not shown struck through, but its repeal is indicated by express language.
6. When new words or sections are added to the statutes, they are underlined.
7. A chaptered law's Legislative Document number is printed beneath its chapter number heading, indicating the source of the chapter.
8. The effective date for Maine laws is provided for in the Constitution of Maine, Article IV, Part Third, Section 16, which specifies that, except for certain emergency legislation, an act or resolve enacted into law takes effect 90 days after the adjournment of the session in which it passed. The general effective date of the nonemergency laws passed at the Second Special Session of the 130th Legislature is December 29, 2021 and of the nonemergency laws passed at the Second Regular Session of the 130th Legislature is August 8, 2022. The effective dates of emergency legislation vary and are provided at the ends of the chapters that were enacted as emergencies.

Copies of a specific chaptered law are available online at <https://legislature.maine.gov/ros/lawsomaine/>. Laws of the State of Maine is also available online through the website of the Office of the Revisor of Statutes at <https://legislature.maine.gov/ros/LOM/LOMpdfDirectory.htm>.

This edition of Laws of the State of Maine and its predecessors have been prepared for the convenience of the people of the State of Maine, and any comments or suggestions for improvements in subsequent editions would be appreciated.

See title page for effective date.

**APPENDIX A
PART IV**

Apportionment Plan for the Maine Senate

The Maine Constitution indicates that the Maine Senate may be composed of an odd number of districts between 31 and 35. The Commission recommends no change in the present 35 number of Senate districts. The Commission plan for the 35 districts divides only 4 municipalities. (Technical corrections have been made to pp. 154, 156, 157, & 158.)

In apportioning Maine's 35 Senate Districts the Commission utilized the 2020 U.S. Census population figure of 1,362,359 for the State of Maine. The median or ideal district was determined to have a population of 38,925. A district population 5% above the median would be 40,871; a district 5% below the median would be 36,979. The districts recommended by the Commission range in population size from a low of 37,121 to a high of 40,798. The largest deviation above the median for the Senate plan is 4.81%, and the largest deviation below the median is -4.63%.

The following chart depicts the population and deviation from the median population for each of the 35 Senate Districts.

APPENDIX A

Apportionment Plan for the Maine House of Representatives

In apportioning Maine's 151 House Districts, the Commission utilized the 2020 U.S. Census population figure of 1,362,359 for the State of Maine. The median or ideal district was determined to have a population of 9,022. A district population 5% above the median would be 9,473; a district 5% below the median would be 8,571. The districts recommended by the Commission range in population size from a low of 8,578 to a high of 9,465. The largest deviation from the median for the House plan is -4.93%, and the average deviation from the median for the House plan is 2.74%. The absolute deviation of the House plan is 9.84%.

Note that the House District numbers used here are for presentation purposes only and may not reflect the final numbers assigned to the districts by the Legislature.

1. Collaborative established; purpose. The Maine Lobster Marketing Collaborative, established in Title 5, section 12004-H, subsection 14-A and referred to in this subchapter as “the collaborative,” is created to promote and market actively Maine lobsters in state, regional, national and international markets. The collaborative shall draw upon the expertise of the Maine lobster industry and established private marketing firms to identify market areas that will provide the greatest return on the investments made by lobster license holders and undertake those media or promotional efforts that

represent the most cost-effective use of a limited promotional budget. The collaborative shall remain responsive to the Maine lobster industry, conduct its business in a public manner and undertake marketing efforts that promote the quality and full utilization of the product and the unique character of the coastal Maine lobster fishery.

2. Collaborative is a public instrumentality. The collaborative is established as a public instrumentality serving a public purpose. Accordingly:

**An Act To Provide Insurance
Coverage for a Beneficiary on
a Transfer on Death Deed**

Emergency preamble. **Whereas**, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, after a homeowner's death it can take time to reinstate an insurance policy on real property; and

Whereas, continuity of homeowner's insurance coverage after the homeowner's death is critical to protecting the assets of an estate and the interests of the beneficiaries; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRSA §3049-A is enacted to read:

§3049-A. Transfer on death deed; provision and cancellation of property insurance

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Designated beneficiary" has the same meaning as in Title 18-C, section 6-402, subsection 2.

B. "Insurable interest" has the same meaning as in section 2406, subsection 2.

C. "Policy" means an insurance contract subject to this subchapter.

D. "Transfer on death deed" has the same meaning as in Title 18-C, section 6-402, subsection 6.

E. "Transferor" has the same meaning as in Title 18-C, section 6-402, subsection 7.

2. Policy to include designated beneficiary. Notwithstanding any provision of law to the contrary, when an insured property passes to a designated beneficiary under a transfer on death deed, any policy covering the insured property must extend to the designated beneficiary, except as provided in this section.

3. Cancellation. Upon receiving a notice of death affidavit under Title 18-C, section 6-414, the insurer may cancel a policy extended pursuant to this section as if the policy had been in effect for less than 90 days, as provided in section 3049. If the insurer does not receive a notice of death affidavit within 30 days after the transferor's death, the policy is deemed to have been cancelled as of the transferor's death without any further action by the insurer.

4. Coverage extended. The coverage extension under this section applies only with respect to the premises and property of the transferor.

5. Proof demanded; policy conditions. Before making any claim payments to a party claiming rights under this section as a designated beneficiary, the insurer may ask for proof that the party is a designated beneficiary under a properly recorded transfer on death deed and that the party has filed a notice of death affidavit under Title 18-C, section 6-414. The designated beneficiary shall comply with the conditions of the policy.

6. Insurable interest; multiple beneficiaries. A designated beneficiary is not entitled to recover under a policy extended as provided in this section in an amount that would exceed the designated beneficiary's insurable interest at the time of loss or damage. If the transfer on death deed has designated multiple beneficiaries, nothing in this section requires the insurer to pay an amount for loss or damage to the premises and property that exceeds the amount that would be owed to the transferor if the transferor were living at the time of loss or damage.

Whereas, it is necessary that this Act take effect before September 2022 in order to allow lobster license holders to take advantage of the autumn harvest and in order to allow them to fish efficiently and safely; and

Whereas, current law enacted in 1999 that established an exemption for certain discharges of storm water to Class AA and SA waters has been disapproved by the United States Environmental Protection Agency; and

Whereas, this disapproval creates regulatory uncertainty for the legality of certain existing discharges of storm water, and potential future discharges of storm water, to Class AA and SA waters; and

Whereas, this uncertainty may have significant economic impacts on certain dischargers of storm water to Class AA and SA waters; and

Whereas, in order to avoid these adverse consequences, modification of the exemption for certain discharges of storm water to Class AA and SA waters is appropriate and necessary; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

For the purposes of this division, a discharge is temporary and short term if the discharge occurs only during the time necessary to construct a facility to make it operational. Best management practices must be used during such construction; or

(c) The Class AA water is not designated as an outstanding national resource as described in section 464, subsection 4, paragraph F, subparagraph (2) and sections 467 and 468.

H.P. 541 - L.D. 736

An Act To Enhance the Ecological Reserve System

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 12 MRSA §1805, as enacted by PL 1999, c. 592, §3 and amended by PL 2011, c. 657, Pt. W, §7 and PL 2013, c. 405, Pt. A, §24, is further amended to read:

§1805. Designation of ecological reserve

The director may designate ecological reserves on parcels of land under the jurisdiction of the bureau ~~that were included in the inventory of potential ecological reserves published in the July 1998 report of the Maine Forest Biodiversity Project, "An Ecological Reserves System Inventory: Potential Ecological Reserves on Maine's Existing Public and Private Conservation Lands."~~ The director may designate additional ecological reserves or remove the designation of a parcel of land as an ecological reserve only in conjunction with the adoption of a management plan for a particular parcel of land, and the process for adoption of that management plan must provide for public review and comment on the plan. When a proposed management plan includes designation of an ecological reserve, the director shall notify the joint standing committee of the Legislature having jurisdiction over ~~matters pertaining to~~ public lands matters of the proposal. When a proposed management plan includes the removal of a parcel of land of 10 acres or more as an ecological reserve, the director shall submit a report to the joint standing committee of the Legislature having jurisdiction over public lands matters prior to the bureau's updating the accompanying management plan for the parcel of land. The report must include a description of the parcel of land, the reasons for the removal of the designation as an ecological reserve, the intended uses of the parcel of land and the benefits to the public as a result of the removal of the designation as an ecological reserve. The joint standing committee of the Legislature having jurisdiction over public lands matters may report out a bill relating to the subject matter of the report.

1. Allowed uses. ~~Allowed uses~~ The director may within an ecological reserve ~~must be~~ allow uses that are compatible with the purpose of the ecological reserve and ~~may do~~ not cause significant impact on natural community composition or ecosystem processes. ~~Allowed uses~~ Uses that the director may allow include

nonmanipulative scientific research, public education and nonmotorized recreation activities such as hiking, cross-country skiing, primitive camping, gathering of materials for cultural and traditional use by a member of a federally recognized Wabanaki Indian nation, tribe or band in this State, hunting, fishing and trapping. For the purposes of this subsection, "primitive camping" means camping in a location without facilities or where facilities are limited to a privy, fire ring, tent pad, 3-sided shelter and picnic table. The removal of trees and construction of facilities associated with these allowed uses are allowed. The director may allow other uses when their impact remains low and does not compromise the purpose of the ecological reserve. Recreational use of surface waters is under the jurisdiction of the Department of Inland Fisheries and Wildlife.

2. Trails and roads for motorized vehicle use.

The director shall allow the continuing use of an existing snowmobile trail, an all-terrain vehicle trail or a road if the director determines the trail or road is well designed and built and situated in a safe location and its use has minimal adverse impact on the ecological value of an ecological reserve and it cannot be reasonably relocated outside the ecological reserve.

A new snowmobile or all-terrain vehicle trail or a new road is allowed only if the director determines all of the following criteria are met:

- A. No safe, cost-effective alternative exists;
- B. The impact on protected natural resource values is minimal; and
- C. The trail or road will provide a crucial link in a significant trail or road system.

3. Incompatible uses. Uses that are incompatible with the purpose of an ecological reserve are not allowed. Incompatible uses include timber harvesting, salvage harvesting, commercial mining and commercial sand and gravel excavation. For the purposes of this subsection, "salvage harvesting" means the removal of dead or damaged trees to recover economic value that would otherwise be lost.

4. Resource protection measures. The director shall take action to control a wildfire occurring on an ecological reserve or spreading to bureau lands. The director may authorize a prescribed burn in an ecological reserve if necessary to replicate natural processes that maintain specific natural communities or rare species populations. The director may implement predetermined wildfire tactics to protect the integrity of the landscape and shall use minimal impact suppression tactics to the extent possible.

The director may use pesticides, including herbicides, and sanitation harvests to control insect and disease outbreaks only in response to:

- A. A specific threat to the functioning of a native ecosystem or managed wildlife habitat;

- B. A specific threat to human health or safety; or
- C. A condition that is likely to result in significant damage to adjacent lands if control is not exercised.

For the purposes of this subsection, "sanitation harvest" means the removal of trees that have been attacked or are in imminent danger of attack by insects or disease in order to prevent these insects or diseases from spreading to other trees.

5. Limits on ~~total land~~ acreage designated as ecological reserves. The total land acreage designated as ecological reserves may not exceed ~~15% of the total land acreage under the jurisdiction of the bureau or 100,000~~ 115,000 acres, ~~whichever is less.~~ No more than ~~6%~~ 8% of the operable timberland acres on public reserved lands and nonreserved public lands may be designated as ecological reserves. For the purposes of this subsection, "operable timberland" means land the bureau considers viable for commercial timber harvest operations and does not include inoperable lands, which are lands not suitable for timber production due to topography or hydrologic setting. Inoperable lands include ledges, steep slopes, nonforested barrens, mountaintops, nonforested wetlands and other nonproductive sites. Lands donated or acquired after the effective date of this section with the condition that the donated or acquired land be designated an ecological reserve are not included when calculating acreage limits under this subsection.

The designation of land as an ecological reserve may not result in a decline in the ~~volume of timber harvested on land under the jurisdiction of the bureau.~~ For the purposes of this subsection, "a decline in the volume of timber harvested" means ~~an annual harvest volume of less than the average annual harvest volume for the preceding 10 years~~ sustainable harvest level on land under the jurisdiction of the bureau to less than the average annual harvest for the preceding 10 years. For purposes of this subsection, "sustainable harvest level" means the amount of forest products that can be harvested over time without reducing timber inventory and is determined by the operable timberland acres of land and the forest growth rate.

6. Reporting requirements. The bureau shall report the status of ecological reserves under the reporting requirements of subchapters ~~III 3~~ and ~~IV 4~~.

See title page for effective date.

(12) An agreement by the person required to file the application to provide the annual enterprise risk report required by subsection 8, paragraph B-1, subparagraph (1) for as long as control by the person exists;

Sec. 11. 24-A MRSA §222, sub-§8, ¶B-1, as enacted by PL 2013, c. 238, Pt. A, §18 and affected by §34, is amended to read:

B-1. The controlling person with ultimate control of an insurer subject to registration shall also file an annual enterprise risk report. The report must be appropriate to the nature, scale and complexity of the operations of the insurance holding company system and must, to the best of the controlling person's knowledge and belief, identify the material risks within the insurance holding company system, if any, that could pose enterprise risk to the insurer in accordance with subparagraph (1) and, if applicable, shall file any additional reports required by this paragraph. The report reports must be filed with the lead state regulator of the insurance holding company system as determined by the procedures within the financial analysis handbook adopted by the National Association of Insurance Commissioners; NAIC Financial Analysis Handbook or successor publication.

(1) The enterprise risk report must be appropriate to the nature, scale and complexity of the operations of the insurance holding company system and must, to the best of the controlling person's knowledge and belief, identify the material risks within the insurance holding company system, if any, that could pose enterprise risk to the insurer.

(2) Except as otherwise provided in this subparagraph, the ultimate controlling person of an insurer subject to registration shall file an annual group capital calculation concurrently with the registration required by paragraph A. The report must be completed as directed by the lead state regulator in accordance with the group capital calculation instructions, which

may permit the lead state regulator to allow a controlling person that is not the ultimate controlling person to file the group capital calculation.

(a) An insurance holding company is exempt from filing the group capital calculation if it has only one insurer within its holding company structure and that insurer is not licensed outside this State to transact insurance, does not write business outside this State and does not assume reinsurance from any other insurer.

(b) An insurance holding company is exempt from filing the group capital calculation if it is required to perform a group capital calculation specified by the Board of Governors of the Federal Reserve System and the lead state regulator has obtained the current group capital calculation from the board of governors. If this State is the insurance holding company system's lead state, the superintendent shall request the calculation from the board of governors under the terms of information sharing agreements in effect.

(c) An insurance holding company is exempt from filing the group capital calculation if its groupwide supervisor is located within a non-United States jurisdiction that the superintendent has designated as a reciprocal jurisdiction pursuant to section 731-B, subsection 1, paragraph B-3, subparagraph (1), division (b) and that recognizes the United States system of group supervision and group capital regulation.

(d) An insurance holding company is exempt from filing the group capital calculation if its groupwide supervisor is located in a non-United States jurisdiction and:

(i) The lead state regulator meets the requirements for accreditation under the NAIC financial standards and accreditation program and the insurance holding company system provides information to the lead state regulator, either directly or indirectly through the groupwide supervisor, that the lead state regulator has determined to be satisfactory to allow the lead state to comply with the NAIC group supervision approach, as detailed in the NAIC Financial Analysis Handbook or successor publication; and

(ii) The groupwide supervisor recognizes and accepts the group capital calculation as the worldwide group capital assessment for United States insurance groups that operate in that non-United States jurisdiction, consistent with criteria specified by the superintendent by rule.

(e) Notwithstanding divisions (c) and (d), a non-United States-based insurance holding company system shall file a group capital calculation limited to its United States operations if its lead state regulator determines, after any necessary consultation with other supervisors or officials, that requiring a United States group capital calculation is appropriate for prudential oversight and solvency monitoring purposes or for ensuring the competitiveness of the insurance marketplace.

(f) If this State is an insurance holding company system's lead state, the superintendent may exempt the ultimate controlling person from filing an annual group capital calculation or may accept a limited group capital filing or report in accordance with criteria specified by the superintendent by rule. An exemption or modification granted under a substantially similar law of another jurisdiction that is the lead state of an insurance holding company system that includes a domestic insurer applies to a filing otherwise required by this subparagraph.

(g) If the lead state regulator determines that an insurance holding company system no longer meets one or more of the requirements for an exemption from filing the group capital calculation under this subparagraph, the insurance holding company system shall file the group capital calculation at the next annual filing date unless given an extension by the lead state regulator based on reasonable grounds shown.

(3) The ultimate controlling person of an insurer subject to registration shall file the results of a liquidity stress test for each data year for which the insurer's insurance holding company system is within the scope of that year's NAIC Liquidity Stress Test Framework, as determined by the lead state regulator.

(a) If this State is the lead state, the determination that an insurer is within scope or out of scope must be based on whether the insurer or its insurance holding company system meets at least one threshold in the

applicable scope criteria, unless the superintendent determines, in consultation with the NAIC Financial Stability Task Force or its successor organization, that there is good cause to exclude an insurer or insurance holding company system that meets one or more thresholds or to include an insurer or insurance holding company system that does not meet any of the thresholds. In making that determination, the superintendent shall consider the goal of providing a stable experience base and avoiding insurers moving in and out of scope frequently.

(b) A liquidity stress test under this subparagraph must be performed, and its results must be filed, in accordance with the NAIC Liquidity Stress Test Framework's instructions and reporting templates for that data year.

(c) For the purposes of this subparagraph, any change to the NAIC Liquidity Stress Test Framework, including the data to be used in applying the scope criteria, is effective on January 1st of the year following the calendar year when the change is adopted by the NAIC.

Sec. 12. 24-A MRSA §222, sub-§8, ¶B-3, as amended by PL 2021, c. 16, §5, is further amended by amending subparagraph (5), division (a) to read:

(a) Beginning no later than 2015, the ORSA summary report must be prepared at least annually, on a timetable consistent with the insurer's internal strategic planning processes, and submitted to the lead regulator of the insurer's insurance holding company system, as determined by the procedures within a financial analysis handbook adopted by the National Association of Insurance Commissioners the NAIC Financial Analysis Handbook or successor publication. If the superintendent is not the lead regulator, the insurer shall submit the insurer's or insurance holding company system's most recent ORSA summary report to the superintendent on request.

C. An insurer does not need to disclose on the registration statement filed pursuant to this subsection information that is not material to the purposes of this section. ~~Unless the superintendent by rule or order provides otherwise, sales, Sales, purchases,~~

exchanges, loans or extensions of credit or investments involving 1/2 of 1% or less of an insurer's admitted assets as of December 31st immediately preceding are not material for purposes of this section, except:

(2) When the instructions for a specific filing specify a different materiality threshold or specify that no materiality threshold applies; or

(3) As the superintendent otherwise provides by rule or order.

Sec. 14. 24-A MRSA §222, sub-§9, ¶D-1 is enacted to read:

D-1. If an insurer subject to this Title is determined by the superintendent to be in hazardous financial condition as defined by rule or a condition that would be grounds for a delinquency proceeding under chapter 57, the superintendent may require the insurer to secure and maintain either a deposit, held by the Treasurer of State on behalf of the superintendent, or a bond, as determined by the insurer at the insurer's discretion, for the protection of the insurer for the duration of a contract or agreement or the duration of the condition for which the superintendent required the deposit or the bond. In determining whether a deposit or a bond is required, the superintendent shall consider whether concerns exist with respect to the affiliated person's ability to fulfill all of its contracts or agreements if the insurer were to be put into liquidation. If the insurer is determined to be in hazardous financial condition or in a condition that would be grounds for a delinquency proceeding, and a deposit or bond is required, the superintendent has discretion to determine the amount of the deposit or bond, not to exceed the aggregate value in any one year of all contracts or agreements secured by the deposit or bond, and whether the deposit or bond should be required for a single contract, multiple contracts or a contract with a specific person.

Sec. 15. 24-A MRSA §222, sub-§9, ¶D-2 is enacted to read:

D-2. All records and data of the insurer held by an affiliate are and remain the property of the insurer, must be subject to control of the insurer, must be identifiable and must be segregated or readily capable of segregation, at no additional cost to the insurer, from all other persons' records and data. This includes all records and data that are otherwise the property of the insurer, in whatever form maintained, including, but not limited to, claims and claim files, policyholder lists, application files, lit-

igation files, premium records, rate books, underwriting manuals, personnel records, financial records and similar records within the possession, custody or control of the affiliate. At the request of the insurer or its receiver, the affiliate shall allow the insurer or receiver to obtain a complete set of all records of any type that pertain to the insurer's business and obtain access to the electronic operating systems on which the data is maintained or software that runs those systems either through assumption of licensing agreements or otherwise and shall restrict the use of the data by the affiliate if it is not operating the insurer's business. The affiliate shall provide a waiver of any landlord lien or other encumbrance to give the insurer access to all records and data in the event of the affiliate's default under a lease or other agreement.

Sec. 16. 24-A MRSA §222, sub-§9, ¶D-3 is enacted to read:

D-3. Premiums or other funds belonging to the insurer that are collected by or held by an affiliate are the exclusive property of the insurer and are subject to the control of the insurer. Any offset in the event that an insurer is placed into receivership is subject to section 4381.

ORSA-related information and has verified in writing the legal authority to maintain confidentiality; and

(b) Any preauthorization granted under the agreement for further sharing of information provided by the superintendent must be limited to only the domiciliary regulators of other insurers in the same insurance holding company system; and

(c) The National Association of Insurance Commissioners or a 3rd party consultant may not store ORSA related information shared pursuant to this subparagraph in a permanent database after the underlying analysis is completed.

Sec. 19. 24-A MRSA §222, sub-§13-A, ¶C, as enacted by PL 2013, c. 238, Pt. A, §26 and affected by §34, is amended by enacting a new subparagraph (5) to read:

**An Act To Require Dental Plan
Medical Loss Ratio Reporting
and Review**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRS §4319-B is enacted to read:

§4319-B. Medical loss ratio reporting for dental insurance plans

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Dental plan" means a plan providing dental care services to an enrollee who is insured by a carrier. "Dental plan" does not include:

(1) A health plan with embedded dental benefits offered by a carrier;

(2) A self-funded employer group health or dental plan, including the group health plan or dental plan provided pursuant to Title 5, section 285 if that health plan or dental plan is self-funded in any given year; or

(3) A plan providing dental care services determined by the superintendent to be a non-credible plan.

B. Notwithstanding section 4301-A, subsection 5, "enrollee" means an individual who is enrolled in an individual or group dental plan.

2. Dental loss ratio defined. For purposes of this section, the dental loss ratio is the ratio of the numerator to the denominator as described in paragraphs A and B, respectively. For purposes of this subsection:

A. The numerator is the sum of:

(1) The amount expended for clinical dental services provided to enrollees as defined in rule in accordance with subsection 3;

(2) The amount expended on activities that improve dental care quality as defined in rule in accordance with subsection 4; and

(3) The amount of claims payments identified through fraud reduction efforts; and

B. The denominator is the total amount of premium revenue, excluding federal and state taxes and licensing and regulatory fees paid and after accounting for any payments pursuant to federal law.

The numerator described in paragraph A may not include administrative cost expenditures as defined in rule in accordance with subsection 5.

3. Expenditures for clinical dental services. The superintendent shall define "clinical dental services" in rule to be consistent with similar expenditures for clinical services used for reporting of medical loss ratio by carriers offering health plans in the State.

4. Activities that improve dental care quality. The superintendent shall define "activities that improve dental care quality" in rule to be consistent with similar activities related to quality that are permitted for reporting of medical loss ratio by carriers offering health plans in this State such as case management; oral health assessments; identifying and addressing ethnic, cultural or racial disparities in effectiveness of best clinical practices and evidence-based medicine; quality reporting; and health information technology.

5. Administrative cost expenditures. The superintendent shall define "administrative cost expenditures" in rule to be consistent with similar cost expenditures used for reporting of medical loss ratio by carriers offering health plans in the State such as financial administrative expenses, marketing and sales expenses, commissions, distribution expenses, claims operations expenses, utilization review expenses, network operations expenses, charitable expenses, board, bureau or association fees and payroll expenses.

6. Dental loss ratio reporting. Beginning in 2023, on or before July 31st annually, a carrier offering a dental plan in effect during the preceding calendar year shall file a report with the bureau of the carrier's dental loss ratio for the preceding calendar year organized by market segment according to guidance issued by the superintendent.

A. Within 90 days of receiving any report required under this subsection, the superintendent shall post the report on the bureau's publicly accessible website.

B. If verification of information contained in a report filed under this subsection is necessary, the carrier has 30 days to submit any information required by the superintendent.

C. For the initial report filed by a carrier on or before July 31, 2023, the carrier shall include dental loss ratio information for calendar years 2020 and 2021 in addition to information for calendar year 2022.

7. Average dental loss ratio; identifying dental plans with dental loss ratio deviating from average. The superintendent shall aggregate the dental loss ratio reports filed by each carrier pursuant to subsection 6 by market segment. The superintendent shall calculate an average dental loss ratio for each market segment using aggregate data for a 3-year period, including data for the dental loss ratio reporting year that is being reported and the data for the 2 prior dental loss ratio reporting years, and identify as outliers dental plans that fall out-

side 2 standard deviations of the average dental loss ratio. If the average dental loss ratio in a market segment declines over time, the superintendent may identify as outliers dental plans that fall outside one standard deviation of the average dental loss ratio or establish by rule a minimum average dental loss ratio for use in calculating outliers.

8. Authority for review. For those dental plans identified as outliers in accordance with subsection 7, the superintendent shall conduct a review and require the carrier of a dental plan identified as an outlier to submit additional relevant financial information as requested by the superintendent. The superintendent may require the carrier to submit a remediation plan including but not limited to measures such as rate revisions or benefit modifications. Any action taken by the superintendent pursuant to this subsection is limited to the dental plans identified as outliers.

9. Rules. The superintendent may adopt rules to implement this section, including development of a common reporting form. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

Sec. 2. Application. The requirements of this Act apply to all individual and group dental plans, as defined in the Maine Revised Statutes, Title 24-A, section 4319-B, subsection 1, executed, delivered, issued, continued or renewed in this State on or after January 1, 2023, except for individual and group dental plans issued to a policyholder outside of this State. For purposes of this Act, all contracts are deemed to be renewed no later than the next yearly anniversary of the contract date.

 - (2) Obtaining professional representation, including representation by an attorney, for contracts or other legal matters relating to the use of the student athlete's name, image or likeness;

B. Disqualify a student athlete who is participating in an intercollegiate athletic program at a college or university from receiving a full scholarship based on athletics awarded by the college or university because the student athlete:

- (1) Earns compensation from the use of the student athlete's name, image or likeness when the student athlete is not engaged in official team activities; or

For the purposes of this subsection, a college or university determines what behavior constitutes official team activities at that college or university.

2. Construction. This section may not be construed to limit a college or university from adopting or enforcing a policy, requirement, standard or limitation that establishes conditions by which a student athlete may monetize the student athlete's name, image or likeness, including a policy, requirement, standard or limitation that prohibits a student athlete's use of a college or university trademark, logo or facility or prohibits a student athlete's use of the student athlete's name, image or likeness in a manner that is inconsistent with a college or university code of conduct or other college or university policy.

A member state shall fully implement a criminal background check requirement, within a time frame established by rule, by receiving the results of the Federal Bureau of Investigation record search and shall use the results in making licensure decisions. 5. Single-state license requirements. Nothing in this compact may affect the requirements established by a member state for the issuance of a single-state license.

6. License recognition. A license issued to a licensed professional counselor by a home state to a resident in that state must be recognized by each member state as authorizing a licensed professional counselor to practice professional counseling, under a privilege to practice, in each member state.

2. Validity. The privilege to practice is valid until the expiration date of the home state license. The licensee must comply with the requirements of subsection 1 to maintain the privilege to practice in the remote state.

3. Laws and regulations. A licensee providing professional counseling in a remote state under the privilege to practice shall adhere to the laws and regulations of the remote state.

4. Regulation. A licensee providing professional counseling services in a remote state is subject to that state's regulatory authority. A remote state may, in accordance with due process and that state's laws, remove a licensee's privilege to practice in the remote state for a specific period of time, impose fines or take any other necessary actions to protect the health and safety of its citizens. The licensee may be ineligible for a privilege to practice in any member state until the specific time for removal has passed and all fines are paid.

5. Encumbrance. If a home state license is encumbered, the licensee must lose the privilege to practice in any remote state until the following occur:

A. The home state license is no longer encumbered; and

B. The licensee has not had any encumbrance or restriction against any license or privilege to practice within the previous 2 years.

A. The licensed professional counselor shall file an application for obtaining a new home state license based on a privilege to practice, pay all applicable fees and notify the current and new home state in accordance with applicable rules adopted by the commission;

B. Upon receipt of an application for obtaining a new home state license by virtue of a privilege to practice, the new home state shall verify that the licensed professional counselor meets the pertinent criteria outlined in section 18555 via the data system, without need for primary source verification except for:

(1) A Federal Bureau of Investigation fingerprint-based criminal background check if not previously performed or updated pursuant to applicable rules adopted by the commission in accordance with Public Law 92-544;

(2) Any other criminal background check as required by the new home state; and

(3) Completion of any requisite jurisprudence requirements of the new home state;

C. The former home state shall convert the former home state license into a privilege to practice once the new home state has activated the new home state license in accordance with applicable rules adopted by the commission;

D. Notwithstanding any other provision of this compact, if the licensed professional counselor cannot meet the criteria in section 18555, the new home state may apply its requirements for issuing a new single-state license; and

E. The licensed professional counselor shall pay all applicable fees to the new home state in order to be issued a new home state license.

3. Change of residence; nonmember states. If a licensed professional counselor changes the primary state of residence by moving from a member state to a

nonmember state, or from a nonmember state to a member state, the state criteria applies for issuance of a single-state license in the new state.

4. Single-state licenses. Nothing in this compact interferes with a licensee's ability to hold a single-state license in multiple states; however, for the purposes of this compact, a licensee may have only one home state license.

5. Single-state license requirements. Nothing in this compact affects the requirements established by a member state for the issuance of a single-state license.

§18557. Active duty military personnel or their spouses

Active duty military personnel, or their spouses, must designate a home state where the individual has a current license in good standing. The individual may retain the home state designation during the period the service member is on active duty. Subsequent to designating a home state, the individual may only change the home state through application for licensure in the new state or through the process outlined in section 18556.

§18558. Compact privilege to practice telehealth

1. Telehealth practice. Member states shall recognize the right of a licensed professional counselor, licensed by a home state in accordance with section 18554 and under rules promulgated by the commission, to practice professional counseling in any member state via telehealth under a privilege to practice as provided in the compact and rules promulgated by the commission.

2. Laws and regulations. A licensee providing professional counseling services in a remote state under the privilege to practice shall adhere to the laws and regulations of the remote state.

§18559. Adverse actions

1. Adverse action authority. In addition to the other powers conferred by state law, a remote state has the authority, in accordance with existing state due process law, to:

A. Take adverse action against a licensed professional counselor's privilege to practice within that member state; and

B. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. Subpoenas issued by a licensing board in a member state for the attendance and testimony of witnesses or the production of evidence from another member state must be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by

the service statutes of the state in which the witnesses or evidence are located.

Only the home state has the power to take adverse action against a licensed professional counselor's license issued by the home state.

2. Conduct; appropriate action. For purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

3. Change of residence. The home state shall complete any pending investigations of a licensed professional counselor who changes the primary state of residence during the course of the investigations. The home state also has the authority to take appropriate action and shall promptly report the conclusions of the investigations to the administrator of the data system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any adverse actions.

4. Recovery. A member state, if otherwise permitted by state law, may recover from the affected licensed professional counselor the costs of investigations and dispositions of cases resulting from any adverse action taken against that licensed professional counselor.

5. Remote state findings. A member state may take adverse action based on the factual findings of the remote state as long as the member state follows its own procedures for taking the adverse action.

6. Joint investigations. In addition to the authority granted to a member state by its respective professional counseling practice act or other applicable state law, any member state may participate with other member states in joint investigations of licensees.

Member states shall share any investigative, litigation or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

7. Deactivation. If adverse action is taken by the home state against the license of a licensed professional counselor, the licensed professional counselor's privilege to practice in all other member states must be deactivated until all encumbrances have been removed from the state license. All home state disciplinary orders that impose adverse action against the license of a licensed professional counselor must include a statement that the licensed professional counselor's privilege to practice is deactivated in all member states during the pendency of the order.

8. Notification. If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall

promptly notify the home state of any adverse actions by remote states.

9. Alternative program. Nothing in this compact overrides a member state's decision that participation in an alternative program may be used in lieu of adverse action.

§18560. Establishment of counseling compact commission

1. Commission established. The compact member states hereby create and establish a joint public agency known as the counseling compact commission.

A. The commission is an instrumentality of the compact states.

B. Venue is proper and judicial proceedings by or against the commission must be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

C. Nothing in this compact may be construed to be a waiver of sovereign immunity.

Notwithstanding the foregoing, in the event the commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of the compact, or the powers granted hereunder, then such an action by the commission is invalid and has no force or effect.

2. Powers. The commission shall exercise its rule-making powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules and amendments become binding as of the date specified in each rule or amendment.

3. Rule rejection. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within 4 years of the date of adoption of the rule, then that rule has no further force and effect in any member state.

4. Rule adoption procedure. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

5. Notice. Prior to promulgation and adoption of a final rule or rules by the commission, and at least 30 days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

Public notice of any revisions must be posted on the website of the commission. The revision is subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

§18563. Oversight, dispute resolution and enforcement

1. Oversight. Oversight of the compact is governed by this subsection.

A. The provisions of this compact and the rules promulgated hereunder have standing as statutory law.

B. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities or actions of the commission.

C. The commission is entitled to receive service of process in any proceeding under paragraph B and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or order void as to the commission, this compact or promulgated rules.

2. Default and technical assistance. Default and technical assistance are governed by this subsection.

A. If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

- (1) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default and any other action to be taken by the commission; and
- (2) Provide remedial training and specific technical assistance regarding the default.

3. Termination from compact. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

4. Termination regulation. Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature and each of the member states.

5. Responsibilities after termination. A state that has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

6. Costs. The commission may not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

7. Appeal. The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the

federal district where the commission has its principal offices. The prevailing member must be awarded all costs of that litigation, including reasonable attorney's fees.

8. Dispute resolution. Dispute resolution is governed by this subsection.

A. Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

B. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

A. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

B. By majority vote, the commission may initiate legal action in the United States District Court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member must be awarded all costs of that litigation, including reasonable attorney's fees.

C. The remedies under this subsection are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

§18564. Date of implementation of counseling compact; commission and associated rules, withdrawal and amendment

1. Effective date. The compact takes effect on the date on which the compact statute is enacted into law in the 10th member state. The provisions of the compact that become effective at that time are limited to the powers granted to the commission relating to assembly and the promulgation of rules. After the effective date of the compact, the commission shall meet and exercise rule-making powers necessary to the implementation and administration of the compact.

2. Subsequent member states. Any state that joins the compact subsequent to the commission's initial adoption of the rules is subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission has the full force and effect of law on the day the compact becomes law in that state.

3. Withdrawal. Any member state may withdraw from this compact by enacting a statute repealing the same.

A. A member state's withdrawal does not take effect until 6 months after enactment of the repealing statute.

B. Withdrawal does not affect the continuing requirement of the withdrawing state's professional counseling licensing board to comply with the investigative and adverse action reporting requirements of this chapter prior to the effective date of withdrawal.

4. Other agreements or arrangements. Nothing contained in this compact may be construed to invalidate or prevent any professional counseling licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

5. Amendment. This compact may be amended by the member states. An amendment to this compact does not become effective and binding upon any member state until it is enacted into the laws of all member states.

§18565. Construction and severability

This compact may be liberally construed so as to effectuate the purposes thereof. The provisions of this compact must be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any member state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance is not affected thereby. If this compact is held contrary to the constitution of any member state, the compact remains in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

§18566. Binding effect of compact and other laws

1. Adherence. A licensee providing professional counseling services in a remote state under the privilege to practice shall adhere to the laws and regulations, including scope of practice, of the remote state.

2. Enforcement. Nothing in this chapter prevents the enforcement of any other law of a member state that is not inconsistent with the compact.

3. Conflict. Any laws in a member state in conflict with the compact are superseded to the extent of the conflict.

4. Binding actions. Any lawful actions of the commission, including all rules and bylaws properly promulgated by the commission, are binding upon the member states.

5. Binding agreements. All permissible agreements between the commission and the member states are binding in accordance with their terms.

6. Constitutional limits. In the event any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state, the provision is ineffective to the extent of the conflict with the constitutional provision in question in that member state.

§18567. Legislative intent

This compact is the Maine enactment of the Interstate Counseling Compact. The form, format and text of the compact have been changed minimally so as to conform to Maine statutory conventions. The changes are technical in nature and it is the intent of the Legislature that this compact be interpreted as substantively the same as the Interstate Counseling Compact that is enacted by other member states.

See title page for effective date.

B. The dissolved oxygen content of Class A waters may not be less than 7 parts per million or 75% of saturation, whichever is higher, except that for the period from October 1st to May 14th, in order to ensure spawning and egg incubation of indigenous fish species, the 7-day mean dissolved oxygen concentration may not be less than 9.5 parts per million and the one-day minimum dissolved oxygen concentration may not be less than 8.0 parts per million in identified fish spawning areas. The aquatic life and bacteria content of Class A waters must be as naturally occurs, except that the numbers of *Escherichia coli* bacteria in these waters may not exceed a geometric mean of 64 CFU or MPN per 100 milliliters over a 90-day interval or 236 CFU or MPN per 100 milliliters in more than 10% of the samples in any 90-day interval.

B. Class B waters must be of sufficient quality to support all aquatic species indigenous to those waters without detrimental changes in the resident biological community. The dissolved oxygen content of Class B waters may not be less than 7 parts per million or 75% of saturation, whichever is higher, except that for the period from October 1st to May 14th, in order to ensure spawning and egg incubation of indigenous fish species, the 7-day mean dissolved oxygen concentration may not be less than 9.5 parts per million and the one-day minimum dissolved oxygen concentration may not be less than 8.0 parts per million in identified fish spawning areas. Between April 15th and October 31st, the number of *Escherichia coli* bacteria in these waters may not exceed a geometric mean of 64 CFU or MPN per 100 milliliters over a 90-day interval or 236 CFU or MPN per 100 milliliters in more than 10% of the samples in any 90-day interval.

Sec. 12. 38 MRSA §465, sub-§4, ¶B, as amended by PL 2017, c. 319, §8, is further amended to read:

B. Class C waters must be of sufficient quality to support all species of fish indigenous to those waters and to maintain the structure and function of the resident biological community. The dissolved oxygen content of Class C water may not be less

than 5 parts per million or 60% of saturation, whichever is higher, except that in identified salmonid spawning areas where water quality is sufficient to ensure spawning, egg incubation and survival of early life stages, that water quality sufficient for these purposes must be maintained. In order to provide additional protection for the growth of indigenous fish, the following standards apply.

(1) The 30-day average dissolved oxygen criterion of a Class C water is 6.5 parts per million using a temperature of 22 degrees centigrade or the ambient temperature of the water body, whichever is less, if:

(a) A license or water quality certificate other than a general permit was issued prior to March 16, 2004 for the Class C water and was not based on a 6.5 parts per million 30-day average dissolved oxygen criterion; or

(b) A discharge or a hydropower project was in existence on March 16, 2005 and required but did not have a license or water quality certificate other than a general permit for the Class C water.

This criterion for the water body applies to licenses and water quality certificates issued on or after March 16, 2004.

(2) In Class C waters not governed by subparagraph (1), dissolved oxygen may not be less than 6.5 parts per million as a 30-day average based upon a temperature of 24 degrees centigrade or the ambient temperature of the water body, whichever is less. This criterion for the water body applies to licenses and water quality certificates issued on or after March 16, 2004.

The department may negotiate and enter into agreements with licensees and water quality certificate holders in order to provide further protection for the growth of indigenous fish. Agreements entered into under this paragraph are enforceable as department orders according to the provisions of sections 347-A to 349.

Between April 15th and October 31st, the number of *Escherichia coli* bacteria in Class C waters may not exceed a geometric mean of 100 CFU or MPN per 100 milliliters over a 90-day interval or 236 CFU or MPN per 100 milliliters in more than 10% of the samples in any 90-day interval. The board shall adopt rules governing the procedure for designation of spawning areas. Those rules must include provision for periodic review of designated spawning areas and consultation with affected persons prior to designation of a stretch of water as a spawning area.

Class GPA waters must have a stable or decreasing trophic state, subject only to natural fluctuations, and must be free of culturally induced algal blooms that impair their use and enjoyment. The number of Escherichia coli bacteria in these waters may not exceed a geometric mean of 29 CFU or MPN per 100 milliliters over a 90-day interval or 194 CFU or MPN per 100 milliliters in more than 10% of the samples in any 90-day interval.

CHAPTER 552

H.P. 1448 - L.D. 1936

An Act To Codify the Senate and House Legislative Districts, the Congressional Districts and the County Commissioner Districts as Enacted by the Legislature

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the Legislature, in Public Law 2021, chapters 487, 488, 489 and 490, reapportioned Maine's congressional districts, county commissioner districts and districts of the State Senate and State House of Representatives, respectively, by adopting the plans submitted by the apportionment commission and incorporating those plans by reference in the respective chaptered laws; and

Whereas, legislation is necessary to codify in the Maine Revised Statutes the plans incorporated by reference so that information is available publicly as soon as possible and in adequate time to allow for the planning and conduct of the primary and general elections to be held in 2022; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

An employee leaving employment must be paid in full no later than the employee's next established payday. Any overcompensation may be withheld if authorized under section 635 and any loan or advance against future earnings or wages may be deducted if evidenced by a statement in writing signed by the employee. Whenever the terms of employment or the employer's established practice includes provisions for paid vacations, vacation pay on cessation of employment has the same status as wages earned. All unused paid vacation accrued pursuant to the employer's vacation policy on and after January 1, 2023 must be paid to the employee on cessation of employment unless the employee is employed by an employer with 10 or fewer employees or by a public employer. If the employee's employment is governed by a collective bargaining agreement that includes provisions addressing payment of vacation pay

Sec. 2. 26 MRSA §626, 5th ¶, as amended by PL 1991, c. 162, is further amended to read:

An action for unpaid wages under this section may be brought by the affected employee or employees or by the Department of Labor on behalf of the employee or employees. Sec. 3. 26 MRSA §626, 6th ¶, as amended by PL 2017, c. 219, §12, is further amended to read:

Within 2 weeks after the sale of a business, the seller of the business shall pay employees of that business any wages earned while employed by the seller. If the terms of employment or the employer's established practice includes provisions for paid vacations, vacation pay on cessation of employment has the same status as wages earned. All unused paid vacation accrued pursuant to the employer's vacation policy on and after January 1, 2023 must be paid to the employees on cessation of employment unless the employer has 10 or fewer employees or is a public employer. If the employees' employment is governed by a collective bargaining agreement that includes provisions addressing payment of vacation pay upon cessation of employment, the collective bargaining agreement supersedes this paragraph. The seller of a business may comply with the provisions of this paragraph through a specific agreement with the buyer in which the buyer agrees to pay any wages earned by employees through employment with the seller and to honor any paid vacation earned under the seller's vacation policy.

Sec. 4. 26 MRSA §626, as amended by PL 2017, c. 219, §§11 and 12, is further amended by enacting at the end a new paragraph to read:

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRSA c. 44 is enacted to read:

CHAPTER 44

PET INSURANCE

§3151. Short title

This chapter may be known and cited as "the Pet Insurance Act."

§3152. Scope and applicability

This chapter establishes requirements for the sale, solicitation, negotiation or offer of pet insurance in this State.

1. Applicability. The requirements of this chapter apply to pet insurance policies that are sold, solicited, negotiated or offered in this State and that are issued to any resident of this State and to policies or certificates that are delivered or issued for delivery in this State.

2. General provisions of Title 24-A. All applicable provisions of this Title apply to pet insurance, except that the specific provisions of this chapter supersede any general provisions of this Title that would otherwise be applicable to pet insurance.

§3153. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Chronic condition. "Chronic condition" means a condition that can be treated or managed, but not cured.

2. Congenital anomaly or disorder. "Congenital anomaly or disorder" means a condition that is present from birth, whether inherited or caused by the environment, which may cause or contribute to illness or disease.

3. Hereditary disorder. "Hereditary disorder" means an abnormality that is genetically transmitted from parent to offspring and may cause illness or disease.

4. Orthopedic. "Orthopedic" refers to conditions affecting the bones, skeletal muscle, cartilage, tendons, ligaments and joints, including, but not limited to, elbow dysplasia, hip dysplasia, intervertebral disc degeneration, patellar luxation and cranial cruciate ligament ruptures but not including cancers or metabolic, hemopoietic or autoimmune diseases.

5. Pet insurance. "Pet insurance" means property insurance that provides coverage for accidents and illnesses of pets.

6. Preexisting condition. "Preexisting condition" means a condition for which any of the following are true prior to the effective date of a pet insurance policy or during a waiting period:

A. A veterinarian provided medical advice regarding the condition;

B. The pet received previous treatment for the condition; or

C. Based on information from verifiable sources, the pet had signs or symptoms directly related to the condition for which a claim is being made.

7. Renewal. "Renewal" means to issue and deliver at the end of an insurance policy period a policy that supersedes a policy previously issued and delivered by the same insurer or an affiliated insurer and that provides types and limits of coverage substantially similar to those contained in the policy being superseded.

8. Veterinarian. "Veterinarian" means an individual who holds a valid license to practice veterinary medicine from the appropriate licensing entity in the jurisdiction in which the individual practices.

9. Veterinary expenses. "Veterinary expenses" means the costs associated with medical advice, diagnosis, care or treatment provided by a veterinarian, including, but not limited to, the cost of drugs prescribed by a veterinarian.

10. Waiting period. "Waiting period" means the period of time specified in a pet insurance policy that is required to transpire before some or all of the coverage in the policy begins.

11. Wellness program. "Wellness program" means a subscription-based or reimbursement-based program that is separate from an insurance policy and that provides goods and services to promote the general health, safety or well-being of a pet.

§3154. Policy definitions and exclusions

1. Use of defined terms. If an insurer uses any of the terms that are defined in section 3153 in a pet insurance policy, the insurer shall use the definition of each of those terms as set forth in section 3153 and include the definition of those terms in the policy. The insurer shall also make the definition available through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website.

2. Exclusions. This chapter does not limit or prohibit the types of exclusions an insurer may use in a pet insurance policy or require an insurer to include any of the limitations or exclusions described in section 3155.

§3155. Required disclosures

1. Disclosures. An insurer transacting pet insurance shall disclose to consumers:

A. Whether the policy excludes coverage due to any of the following:

(1) A preexisting condition;

(2) A hereditary disorder;

(3) A congenital anomaly or disorder; or

(4) A chronic condition;

B. Whether the policy includes any other exclusions and, if so, add the following statement: "Other exclusions may apply. Please refer to the exclusions section of the policy for more information.";

C. Any policy provision that limits coverage through a waiting period or affiliation period, a deductible, coinsurance or an annual or lifetime policy limit;

D. Whether the insurer reduces coverage or increases premiums based on the insured's claim history, the age of the covered pet or a change in the geographic location of the insured; and

E. Whether the underwriting company differs from the brand name used to market and sell the product.

2. Right to examine and return a policy. Unless the insured has filed a claim under a pet insurance policy, an applicant for pet insurance has the right to examine and return a policy, certificate or rider to the insurer or the insurer's producer within 15 days of its receipt and to have the premium refunded if, after examination of the policy, certificate or rider, the applicant is not satisfied for any reason. A pet insurance policy, certificate or rider must have a notice prominently printed on or attached to the first page including specific instructions for returning a policy. The following statement or language substantially similar to the following statement must be included:

"You have 15 days from the day you receive this policy, certificate or rider to review it and return it to the company if you decide not to keep it. You do not have to tell the company why you are returning it. If you decide not to keep it, simply return it to the company at its administrative office or you may return it to the insurance producer that you bought it from as long as you have not filed a claim. You must return it within 15 days of the day you first received it. The company will refund the full amount of any premium paid within 30 days after it receives the returned policy, certificate or rider. The premium refund will be sent directly to the person who paid it. The policy, certificate or

rider will be void as if it had never been issued."

3. Basis for claims payments. An insurer shall clearly disclose a summary description of the basis on or formula by which the insurer determines claim payments under a pet insurance policy within the policy, prior to issuance of the policy and through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website.

4. Use of benefit schedule. An insurer that uses a benefit schedule to determine claim payments under a pet insurance policy shall:

A. Clearly disclose the applicable benefit schedule in the policy; and

B. Disclose all benefit schedules used by the insurer under its pet insurance policies through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website.

5. Fees. An insurer that determines claim payments under a pet insurance policy based on usual and customary fees, or any other reimbursement limitation based on prevailing veterinary expenses, shall:

A. Include a usual and customary fee limitation provision in the policy that clearly describes the insurer's basis for determining usual and customary fees and how that basis is applied in calculating claim payments; and

B. Disclose the insurer's basis for determining usual and customary fees through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website.

6. Medical examination. If a medical examination by a licensed veterinarian is required to effectuate coverage under a pet insurance policy, the insurer shall clearly and conspicuously disclose the required aspects of the examination prior to purchase and disclose that documentation of the examination may result in a preexisting condition exclusion.

7. Waiting period. A waiting period and any applicable requirements for that waiting period must be clearly and prominently disclosed to consumers prior to the pet insurance policy purchase.

8. Summary of policy provisions. An insurer shall include a summary of all policy provisions required in this section in a separate document titled "Insurer Disclosure of Important Policy Provisions." The insurer shall post the "Insurer Disclosure of Important Policy Provisions" document required in this subsection through a clear and conspicuous link on the main page of the insurer's or insurer's program administrator's publicly accessible website. In connection with the issuance

of a new pet insurance policy, the insurer shall provide the consumer with a copy of the "Insurer Disclosure of Important Policy Provisions" document required in this subsection in at least 12-point type upon delivery of the policy.

9. Written disclosure. At the time a pet insurance policy is issued or delivered to a policyholder, the insurer shall include a written disclosure with the following information, printed in 12-point boldface type:

A. The bureau's mailing address and toll-free telephone number and a link to the bureau's publicly accessible website;

B. The address and customer service telephone number of the insurer or the producer of record; and

C. If the policy was issued or delivered by a producer, a statement advising the policyholder how to contact the producer for assistance.

10. Additional disclosures. The disclosures required in this section are in addition to any other disclosure requirements required by law, rule or regulation.

§3156. Policy conditions

1. Exclusion. An insurer may issue a pet insurance policy that excludes coverage on the basis of one or more preexisting conditions with appropriate disclosure to the consumer. The insurer has the burden of proving that the preexisting condition exclusion applies to the condition for which a claim is being made.

2. Waiting periods. An insurer may issue a pet insurance policy that imposes a waiting period upon effectuation of the policy as long as that waiting period does not exceed 30 days for illnesses or orthopedic conditions not resulting from an accident. A waiting period for illnesses or orthopedic conditions resulting from an accident is prohibited. An insurer may not impose a waiting period on the renewal of existing coverage. An insurer imposing a waiting period as permitted by this subsection shall include a provision in the pet insurance policy contract that allows the waiting period to be waived upon completion of a medical examination. An insurer may require the examination to be conducted by a licensed veterinarian after the purchase of the policy. A medical examination conducted pursuant to this subsection must be paid for by the policyholder, unless the policy specifies that the insurer will pay for the examination. An insurer may specify elements to be included as part of the examination and require documentation of the elements, as long as the specifications do not unreasonably restrict a consumer's ability to waive the waiting period.

3. Renewal. An insurer may not require a veterinary examination of the covered pet for the insured to have the pet insurance policy renewed. A condition for

which coverage is afforded on a policy may not be considered a preexisting condition on any renewal of the policy.

4. Other benefits. If an insurer includes any prescription, wellness or noninsurance benefits in the pet insurance policy form, those benefits become part of the pet insurance policy contract and the provision of those benefits must follow all applicable laws in this Title and any rules adopted pursuant to those laws.

5. Participation in wellness program. An insurer may not condition a person's eligibility to purchase a pet insurance policy on participation, or lack of participation, in a separate wellness program.

§3157. Wellness programs

1. Marketing. An insurer or insurance producer may not:

- A. Market a wellness program as pet insurance; or
- B. Market a wellness program during the sale, solicitation or negotiation of pet insurance.

2. Sale of wellness program. If a wellness program is sold by an insurer or insurance producer, the following requirements apply:

- A. The purchase of a wellness program may not be a requirement of the purchase of pet insurance;
- B. The costs of a wellness program must be separate and identifiable from any pet insurance policy sold by an insurer or insurance producer;
- C. The terms and conditions for a wellness program must be separate from any pet insurance policy sold by an insurer or insurance producer;
- D. The products or coverages available through a wellness program may not duplicate products or coverages available through the pet insurance policy; and
- E. The advertising of a wellness program may not be misleading and must differentiate the wellness program from pet insurance.

3. Disclosure. An insurer or insurance producer shall clearly disclose the following to consumers of wellness program products, printed in 12-point bold-face type:

- A. That wellness programs are not insurance;
- B. The bureau's mailing address and toll-free telephone number and a link to the bureau's publicly accessible website; and
- C. The address and customer service telephone number of the insurer or the producer of record.

4. Wellness benefits. Any coverages included in a pet insurance policy contract described as "wellness benefits" are considered insurance. If a wellness program undertakes to indemnify another party, pays a

specified amount upon determinable contingencies or provides coverage for a fortuitous event, it is transacting the business of insurance and is subject to the requirements of this Title, except that a contract directly between a service provider and a pet owner that involves only those 2 parties is not transacting the business of insurance unless other indications of insurance also exist.

§3158. Insurance producer requirements

1. Training. An insurance producer may not sell, solicit or negotiate a pet insurance product until after the producer is appropriately licensed and has completed the required training identified in subsection 2.

2. Requirements. An insurer shall ensure that any producer holding an appointment has been appropriately trained on the features of any pet insurance product offered by the producer. The training required under this subsection must include information on the following topics:

- A. Preexisting conditions and waiting periods;
- B. The differences between pet insurance and non-insurance wellness programs;
- C. Hereditary disorders, congenital anomalies or disorders and chronic conditions and how pet insurance policies interact with those conditions or disorders; and
- D. Rating, underwriting, renewal and other related administrative topics.

§3159. Enforcement

The superintendent may assess a civil penalty or take any other action permitted under section 12-A against any person that violates any provision of this chapter.

§3160. Rules

The superintendent may adopt rules to implement this chapter. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

§3161. Effective date

This chapter takes effect January 1, 2023.

Be it enacted by the People of the State of Maine as follows:

PART A

Sec. A-1. 28-A MRSA §90, as enacted by PL 2013, c. 269, Pt. A, §4 and amended by c. 368, Pt. V, §61, is repealed and the following enacted in its place:

§90. Contract for wholesale spirits activities and marketing

1. Statement of purpose. The Legislature finds that it is in the public interest to continue to maximize growth in the State's wholesale spirits business while ensuring that growth in revenue from the business is achieved in a socially responsible manner. The contracting of the operations of the wholesale spirits business serves this purpose and provides the State's agency

liquor store partners with effective and efficient services in order to responsibly serve consumers of spirits in the State.

2. Contract for spirits administration and trade marketing. Upon the expiration or termination of all contracts for the operation of the State's wholesale spirits business in effect on January 1, 2022, the commissioner shall enter into a single 10-year contract for spirits administration and spirits trade marketing in accordance with the requirements in this section.

3. Competitive bid process. A contract described in subsection 2 must be awarded pursuant to a competitive bid process in a manner consistent with the process described in Title 5, chapter 155, subchapter 1-A.

4. Request for proposals. The commissioner shall develop a request for proposals for the competitive bid process required under subsection 3 designed to encourage vigorous bidding. The request for proposals must:

A. Inform potential bidders of the State's target gross revenue profit margin over the term of the contract;

B. Instruct potential bidders to propose the scope of spirits administration and spirits trade marketing services that will be provided and the fee for those services expressed as a percentage of revenue generated by the wholesale business;

C. Direct potential bidders to indicate whether subcontractors will be used for any portion of the services described in paragraph B and to identify those subcontractors;

D. Inform potential bidders that they may propose incentives intended to encourage responsible growth of revenue and enhanced efficiencies in services provided; and

E. Require each bidder to affirm that neither the bidder nor any of the principal officers of the bidder has a direct financial interest in a license or permit in this State or another state for the manufacture of spirits, other than a minor investment in not more than 1% of the securities of a business entity that holds such a license or permit.

5. Information provided by bidder. A bidder seeking consideration of the award of a contract pursuant to this section shall:

A. Demonstrate the bidder's knowledge of the wholesale liquor business, the alcoholic beverage industry or a related field as well as the bidder's experience or knowledge, if any, of the responsible marketing of liquor;

B. Propose the bidder's marketing strategies and the scope of the spirits administration services the bidder will provide as well as the fee for those strategies and services expressed as a percentage of revenue generated by the wholesale business;

C. Identify the strategies and services proposed in paragraph B for which the bidder may use a subcontractor and identify those subcontractors;

D. Demonstrate the bidder's financial capacity and access to capital to maintain the strategies and services proposed in paragraph B;

E. Demonstrate the bidder's capabilities for providing transportation and distribution of spirits to agency liquor stores, which must include:

(1) Delivery vehicles with the appropriate capacity to deliver spirits to the full range of agency liquor stores, including both large and small stores;

(2) Drivers with the requisite driver's license credentials to drive all sizes of delivery vehicles;

(3) The ability to make deliveries to agency liquor stores on at least 250 days per year; and

(4) The ability to provide the minimum number of deliveries established in the request for proposals per week to each store, which may not be less than 2;

F. Demonstrate the bidder's warehousing capacity and ability to expand its warehousing capacity over the term of the contract. The bidder shall propose bailment rates and related fees that the bidder proposes to charge spirits suppliers;

G. Describe the bidder's information technology capabilities, which must include methods for processing orders and invoices, inventory management and sales data analysis;

H. Describe the bidder's plan for enhancing services to spirits suppliers and agency liquor stores;

I. Describe the bidder's business plan to provide services in a manner that will assist the State in achieving a responsible growth rate for the wholesale spirits business;

J. Demonstrate the positive impact on the economy, employment and state revenues that the bidder's overall proposal will provide;

K. Demonstrate that the bidder, any principal officer of the bidder and any named subcontractor have not been found to have violated any state or federal law or rule governing the manufacture, distribution or sale of spirits; and

L. Affirm that neither the bidder nor any of the principal officers of the bidder has a direct financial interest in a license or permit in this State or another state for the manufacture of spirits, other than a minor investment in not more than 1% of the securities of a business entity that holds such a license or permit.

In addition to the requirements of paragraphs A to L, the commissioner, in order to ensure that the objective of maximizing growth in the State's wholesale spirits business is achieved, may require a bidder to provide additional information, including disclosure of the potential of a bidder's direct and substantial conflict of interest with the State's financial interest.

6. Award criteria and issuance of contract. The commissioner shall choose the best-value bidder in conformity with Title 5, section 1825-B, subsection 7 and shall consider as criteria for award the information required to be provided in subsection 5. The commissioner may not award the contract to a bidder that holds or has a direct financial interest in, or that has a principal officer that holds or has a direct financial interest in, a license or permit in this State or another state to manufacture spirits. A minor investment in not more than 1% of the securities of a business entity that holds a license or permit in this State or another state to manufacture spirits does not constitute a financial interest prohibited by this subsection.

The commissioner shall ensure that the following criteria are met before entering into a contract:

A. That revenue to the State from the sale of spirits is predictable over the term of the contract;

B. That revenue from the sale of spirits will be maximized by the issuance of the contract and achieved through efficiency of services;

C. That the bidder has demonstrated that services provided to agency liquor stores will be enhanced; and

D. That, upon execution of the contract, the disruption of services to agency liquor stores and spirits suppliers will be minimal or absent.

7. Mandatory contract provisions. A contract entered into with a successful bidder in accordance with this section must:

A. Require that the person awarded the contract submit to the bureau, in a manner determined by the bureau, an annual report audited by an independent 3rd party. The bureau, following receipt of the report, shall provide the report annually to the joint standing committees of the Legislature having jurisdiction over appropriations and financial affairs and alcoholic beverages matters;

B. Prohibit the person awarded the contract from engaging in activities reserved for agency liquor stores licensed as reselling agents to provide spirits to establishments licensed for on-premises consumption;

C. Include provisions that allow for ongoing performance standards review so that deficiencies in such standards may result in amendments to the contract or nullification. Performance standards

subject to contract amendments or nullification include:

(1) Working in partnership with the State to achieve the goal of a responsible growth rate for the wholesale spirits business as negotiated with the successful bidder at the time of award;

(2) Transparency in annual reporting and conformance to the reporting requirements established in consultation with the successful bidder throughout the term of the contract by the bureau; and

(3) Responsiveness to the service needs of agency liquor stores;

D. Include provisions establishing standards of efficiency and quality of operations; and

E. Require that the bureau approve all bailment rates and related fees.

8. Extension. The commissioner and a successful bidder awarded a contract under this section may agree to a single extension of the existing terms of the contract for a period of no more than 3 years following the end of the original 10-year contract term.

9. Price regulation. Notwithstanding any other provision of this section to the contrary, the State shall regulate the wholesale and retail prices of all spirits sold in the State.

Sec. A-2. No effect on existing contracts. Nothing in this Act is intended to affect the validity of or cause a premature termination of the spirits administration and spirits trade marketing contracts under the Maine Revised Statutes, Title 28-A, section 90 that were in effect on the day prior to the effective date of this Act.

PART B

Sec. B-1. 28-A MRSA §83-C, sub-§5, as enacted by PL 2013, c. 476, Pt. A, §9, is repealed.

Upon the expiration or termination of all contracts for the operation of the State's wholesale spirits business in effect on January 1, 2022, the bureau shall set the wholesale price of spirits, which is the price an agency liquor store pays to purchase spirits, at a minimum discount of 18% off of the retail price.

The bureau by rule may establish discount rates greater than the minimum discount rates established in this subsection, including:

A. Graduated discount rates, which must be structured in a way that does not adversely affect agency liquor stores that stock a low level of inventory; and

B. Increased discount rates to be awarded as part of a sales incentive program for agency liquor stores. In adopting a sales incentive program under this paragraph, the bureau shall consider the effect of the sales incentive program on state revenue and on any pending or existing contracts awarded under section 90.

Sec. B-3. Report on discount rate rulemaking. The stakeholder group must include, at a minimum, agency liquor stores; on-premises and off-premises retail licensees; certificate of approval holders under Title 28-A, sections 1361 and 1381; in-state manufacturers licensed under Title 28-A, section 1355-A, including small breweries and small distilleries; and wholesale licensees.

CHAPTER 36-A

WOOD-FIRED COMBINED HEAT AND POWER ACT

§3621. Short title

This chapter may be known and cited as "the Wood-fired Combined Heat and Power Act."

§3622. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Combined heat and power project. "Combined heat and power project" means a facility that uses wood fuel to generate electric heat and power that is used for industrial or space heating purposes.

2. Net generating capacity. "Net generating capacity" means the electric output of an electricity generating facility delivered to the transmission and distribution utility system. "Net generating capacity" does not include any energy consumed by the generator to operate the electricity generating facility or any energy consumed for facility lighting, power and auxiliary facilities.

3. Program participant. "Program participant" means a combined heat and power project that is participating in the combined heat and power program established in section 3623.

4. Wood fuel. "Wood fuel" means biomass derived from:

A. Forest products manufacturing residuals, including, but not limited to, mill chips, sawdust, bark, shavings and fines;

B. Harvest residues, including trees or portions of harvested trees that are too small or of too poor quality to be used for wood products; or

C. Downed trees from weather events and natural disasters, nonhazardous landscape or right-of-way trimmings and plant material removed for purposes of invasive species control.

§3623. Combined heat and power program

1. Program established. The combined heat and power program, referred to in this chapter as "the program," is established to encourage the development in the State of combined heat and power projects that will promote the climate action plan developed in accordance with Title 38, section 577, subsection 1. The program is administered by the commission.

2. Program scope; limits on net generating capacity. The commission shall limit participation in the program in accordance with this subsection.

A. The net generating capacity of a program participant may not be less than 3 megawatts or more than 10 megawatts.

B. The total net generating capacity of all program participants combined may not exceed 20 megawatts.

The commission may modify the amount of total net generating capacity stipulated under this paragraph based on program experience.

3. Program eligibility criteria. To be eligible to participate in the program, a combined heat and power project must:

A. Be connected to the electric grid of this State;

B. Have an in-service date after November 1, 2022;

C. Satisfy the limits on net generating capacity established in subsection 2, paragraph A;

D. Be highly efficient, as determined by the commission; and

E. Not be a participant in net energy billing under section 3209-A or 3209-B.

The commission shall prescribe an application form or procedure that must be used to apply to the program under this chapter, which must include any information that the commission determines necessary for the purpose of administering the program. The commission shall inform an applicant, within 30 days of receipt of

an application, if the application is complete. The commission shall determine whether the combined heat and power project qualifies for participation in the program as soon as practicable and respond in writing.

§3624. Long-term contracts for combined heat and power

1. Investor-owned transmission and distribution utilities; required participation. Notwithstanding section 3204, the commission may direct an investor-owned transmission and distribution utility to enter into long-term contracts with one or more program participants located within the service territory of the utility for energy, capacity resources or renewable energy credits. The commission may direct investor-owned transmission and distribution utilities to enter into contracts under this subsection only as agents for their customers and only in accordance with this section. An investor-owned transmission and distribution utility shall sell energy, capacity resources or renewable energy credits purchased pursuant to this subsection into the wholesale electricity market or take other action relative to such energy, capacity resources or renewable energy credits as directed by the commission.

2. Consumer-owned transmission and distribution utilities; voluntary participation. A consumer-owned transmission and distribution utility may, at the option of the utility, enter into long-term contracts with one or more program participants located within the service territory of the utility for energy, capacity resources or renewable energy credits. Consumer-owned transmission and distribution utilities may enter into contracts under this subsection only as agents for their customers and only in accordance with this section.

3. Sale of energy; contract procedures. Energy, capacity resources or renewable energy credits contracted through long-term contracts pursuant to this section may be sold into the wholesale electricity market separately or in conjunction with solicitations for standard-offer supply bids under section 3212 or solicitations for green power offer bids under section 3212-B. To the greatest extent possible, the commission shall develop procedures for long-term contracts for transmission and distribution utilities under this section having the same legal and financial effect as the procedures used for standard-offer service pursuant to section 3212 for transmission and distribution utilities.

4. Contract term. A contract entered into pursuant to this section may not be for more than 20 years.

5. Contract pricing; cost containment. The commission shall solicit contract bids under the program. In selecting contracts, the commission shall weigh the characteristics of a proposed combined heat and power project as follows:

A. A weight of 30% must be given to the combined efficiency of the electricity generation and heat utilization of the project;

B. A weight of 40% must be given to the total cost of the project; and

C. A weight of 30% must be given to the following factors:

(1) The design of the project to meet the State's waste reduction and diversion priorities established by Title 38, section 2101, including, but not limited to, the proximity of the project to wood fuel derived from forest products manufacturing residuals;

(2) The location of the project and whether electricity generated will meet a demand for electricity;

(3) The net greenhouse gas emissions from the project, as determined in consultation with the Department of Environmental Protection;

(4) The economic impact to the State from the project, including, but not limited to, jobs the project will create and maintain in wood fuel supply, at the electric generation plant and at the facility using the heat;

(5) Whether the generation of electricity most effectively accounts for the changing seasonal time of day and other electricity usage characteristics associated with beneficial electrification as defined in section 10102, subsection 3-A over the duration of the contract; and

(6) The effect on other Class I resources and Class IA resources, as defined in section 3210, subsection 2.

The commission may not direct an investor-owned transmission and distribution utility to enter into a long-term contract under this chapter in which the contract price for energy exceeds 10 cents per kilowatt-hour.

If at the close of the competitive bidding process under this subsection the commission determines that no proposal meets the requirements of the solicitation or that an approval is not in the public interest, the commission may reject all proposals and may open a new competitive bidding process.

6. Cost and benefit allocation. The commission shall ensure that all costs and benefits associated with contracts involving investor-owned transmission and distribution utilities entered into under this section are allocated to electricity consumers in accordance with section 3210-F.

7. Contract payments. Contracts for capacity and related energy entered into pursuant to this section must provide that payments will be made only after contracted amounts of energy have been provided.

8. Ratepayer protection. The commission shall ensure that mechanisms are established to provide protections for ratepayers over the term of contracts entered into pursuant to this section.

§3625. Rules

The commission may adopt rules to implement this chapter. Rules adopted pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

§3626. Tracking; biennial report

The commission shall develop and administer a system to register and track the development of combined heat and power projects under this chapter and by January 15, 2023, and biennially thereafter, shall report to the joint standing committee of the Legislature having jurisdiction over utilities and energy matters on the program and the development of combined heat and power projects. The report must include, but is not limited to:

2. Use of publicly owned land, water or facilities. Nothing in this chapter limits the authority of the State or a political subdivision of the State to use publicly owned land, water or facilities in the development and operation of a combined heat and power project or to lease publicly owned land, water or facilities to other qualifying owners for the development and operation of a combined heat and power project.

In making this determination, the Finance Authority of Maine shall consider the corporation's analysis of the proposed bond issue and the revenues to make payments on the bonds and may require such information, projections, studies and independent analyses as it considers necessary or desirable and may

charge the corporation reasonable fees and expenses. The issuance by the Finance Authority of Maine of a certificate of approval under this section does not constitute an endorsement of the bonds or the projects or purposes for which those bonds are issued, and the corporation or any other person or entity, including, without limitation, any holder of bonds of the corporation, has no cause of action against the Finance Authority of Maine with respect to any certificate of approval. The Finance Authority of Maine may require that it be indemnified, defended and held harmless by the corporation for any liability or cause of action arising with respect to the bonds.

L. Any other characteristics of the bonds.

4. Price sold. The bonds may be:

A. Exchanged for other bonds on the basis of par;

B. Sold to the Federal Government at private sale at not less than par. If less than all of the authorized principal amount of the bonds is sold to the Federal Government, the balance may be sold at private sale at not less than par at an interest cost to the corporation that does not exceed the interest cost to the corporation of the portion of the bonds sold to the Federal Government; or

C. Sold to a person on such terms as the corporation may negotiate.

5. Signatures of outgoing officers; negotiability. If an official of the corporation whose signature appears

on a bond or coupon issued under this chapter ceases to be an official before the bond is delivered, the signature is nevertheless valid for all purposes as if the official had remained in office until the delivery. Notwithstanding contrary provisions of law, bonds issued under this chapter are fully negotiable.

6. Bond recitation; conclusive presumptions. In actions or proceedings involving the validity or enforceability of a bond issued under this chapter or the security for that bond, a bond reciting in substance that it has been issued by the corporation in connection with an activity is conclusively deemed to have been issued for that purpose and the activity is conclusively deemed to have been planned, located and carried out in accordance with this chapter.

7. No personal liability; not debt of State. A member of the board of directors and the person executing the bonds are not liable personally on the bonds by reason of the issuance of the bonds. The bonds and other obligations of the corporation must have stated on their face that they are not a debt of the State and that the State is not liable on the bonds. The bonds or obligations may not be payable out of funds or properties other than those of the corporation acquired for the purposes of this chapter.

8. Bonds as legal investments. Public officers, municipal corporations, political subdivisions and public bodies; banks, trust companies, bankers, savings banks and institutions, building and loan associations, savings and loan associations, investment companies and other persons carrying on a banking business; insurance companies, insurance associations and other persons carrying on an insurance business; and executors, administrators, curators, trustees and other fiduciaries may legally invest sinking funds, money or other funds belonging to them or within their control in bonds or other obligations issued by the corporation under this chapter. These bonds or other obligations are authorized security for all public deposits. It is the purpose of this section to authorize persons, political subdivisions and officers, public or private, to use funds owned or controlled by them for the purchase of these bonds or other obligations. This section does not relieve a person of any duty or of exercising reasonable care in selecting securities.

9. Investment of funds; redemption of bonds. The corporation may:

A. Invest, in property or securities in which savings banks may legally invest funds subject to their control, funds held in reserves, sinking funds or funds not required for immediate disbursement; and

B. Cancel its bonds by redeeming them at the redemption price established in the bonds or by purchasing them at less than redemption price.

§13208. Interest of public officials, directors or employees

1. Present or past interest in property. If a public official, member of the board of directors or employee of the corporation presently owns or controls, or owned or controlled within the preceding 2 years, a direct or an indirect interest in property known to be included or planned to be included in a corporation activity, that public official, trustee or employee shall disclose this fact immediately in writing to the board of directors and the disclosure must be entered in the board's minutes.

2. Recusal. A public official, member of the board of directors or employee of the corporation with an interest in property under this section may not participate in an action by the corporation affecting that property.

3. Violation. A violation of this section is a Class E crime.

§13209. Exemption from execution

1. Property exempt from execution. The real and personal property, including funds, of the corporation is exempt from levy and sale by virtue of an execution. An execution or other judicial process may not be issued against the corporation's real and personal property, and a judgment against the corporation may not be a charge or lien upon its real and personal property.

2. Construction; limitation of application. This section does not:

A. Prohibit the corporation from making payments in lieu of taxes to a municipality; or

B. Apply to or limit the right of an obligee to foreclose or otherwise enforce a mortgage of the corporation or to pursue remedies for the enforcement of a pledge or lien given by the corporation on its rents, fees, grants, revenues or other sources pledged by the corporation to the payment of its bonds.

§13210. Termination of corporation

The corporation is not dissolved until:

1. Legislature provides for termination. It is terminated by the Legislature; and

2. Payment of bonds, premium and interest. The bonds, premium, if any, and interest have been paid or a sufficient amount for the payment of the bonds and interest to maturity or a prior redemption date have been irrevocably set aside in trust for the benefit of the bondholders.

§13211. Annual report

1. Annual financial report. The corporation shall submit annually to the Governor, the Executive Director of the Legislative Council and the joint standing committee of the Legislature having jurisdiction over

economic development matters, not later than 120 days after the close of the corporation's fiscal year, a complete report on the activities of the corporation. The report may also be provided to any other member of the Legislature and to any other person. The report must include all of the following for the previous fiscal year:

§3174-T. Cub Care program

1. Program established. The Cub Care program is established to provide health coverage for low-income children who are ineligible for benefits under the Medicaid program and who meet the requirements of subsection 2 or 2-A. The purpose of the Cub Care program is to provide health coverage to as many children as possible within the fiscal constraints of the program budget and without forfeiting any federal funding that is available to the State for the State Children's Health Insurance Program through the federal Balanced Budget Act of 1997, Public Law 105-33, 111 Stat. 251, referred to in this section as the Balanced Budget Act of 1997.

2. Eligibility; enrollment. Health coverage under the Cub Care program is available to children under 19 years of age whose family income is above the eligibility level for Medicaid under section 3174-G and below the maximum eligibility level established under paragraphs A and B; and who meet the requirements set forth in paragraph C ~~and for whom premiums are paid under subsection 5.~~

A. The maximum eligibility level, subject to adjustment by the commissioner under paragraph B, is ~~200%~~ 300% of the nonfarm income official poverty line.

B. If the commissioner has determined the fiscal status of the Cub Care program under subsection 8 and has determined that an adjustment in the maximum eligibility level is required under this paragraph, the commissioner shall adjust the maximum eligibility level in accordance with the requirements of this paragraph.

(1) The adjustment must accomplish the purposes of the Cub Care program set forth in subsection 1.

~~(2) If Cub Care program expenditures are reasonably anticipated to exceed the program budget, the commissioner shall lower the maximum eligibility level set in paragraph A to the extent necessary to bring the program within the program budget.~~

(3) If Cub Care program expenditures are reasonably anticipated to fall below the program budget, the commissioner shall raise the maximum eligibility level set in paragraph A to the extent necessary to provide coverage to as many children as possible within the fiscal constraints of the program budget. If Cub Care program expenditures are reasonably anticipated to exceed the program budget after raising the maximum eligibility level pursuant to

this subparagraph, the commissioner may lower the maximum eligibility level to the level established in paragraph A.

(4) The commissioner shall give at least 30 days' notice of the proposed change in maximum eligibility level to the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs and the joint standing committee of the Legislature having jurisdiction over health and human services matters.

C. All children resident in the State are eligible except a child who:

(1) Is eligible for coverage under the Medicaid program;

(2) Is covered under a group health insurance plan or under health insurance, as defined in Section 2791 of the federal Public Health Service Act, 42 United States Code, Section 300gg(c) (Supp. 1997); or

(4) Is an inmate in a public institution or a patient in an institution for mental diseases; ~~or~~

~~(5) Within the 3 months prior to application for coverage under the Cub Care program, was insured or otherwise provided coverage under an employer-based health plan for which the employer paid 50% or more of the cost for the child's coverage, except that this subparagraph does not apply if:~~

~~(a) The cost to the employee of coverage for the family exceeds 10% of the family's income;~~

~~(b) The parent lost coverage for the child because of a change in employment, termination of coverage under the Consolidated Omnibus Budget Reconciliation Act of 1985, COBRA, of the Employee Retirement Income Security Act of 1974, as amended, 29 United States Code, Sections 1161 to 1168 (Supp. 1997) or termination for a reason not in the control of the employee; or~~

~~(c) The department has determined that grounds exist for a good cause exception.~~

D. Notwithstanding changes in the maximum eligibility level determined under paragraph B, the following requirements apply to enrollment and eligibility:

(1) Children must be enrolled for 12-month enrollment periods. Prior to the end of each 12-month enrollment period the department shall redetermine eligibility for continuing coverage; and

(2) Children of higher family income may not be covered unless children of lower family income are also covered. This subparagraph may not be applied to disqualify a child during the 12-month enrollment period. Children of higher income may be disqualified at the end of the 12-month enrollment period if the commissioner has lowered the maximum eligibility level under paragraph B.

E. Coverage under the Cub Care program may be purchased for children described in subparagraphs (1) and (2) for a period of up to 18 months as provided in this paragraph at a premium level that is revenue neutral and that covers the cost of the benefit and a contribution toward administrative costs no greater than the maximum level allowable under COBRA. The department shall adopt rules to implement this paragraph. The following children are eligible to enroll under this paragraph:

- (1) A child who is enrolled under paragraph A or B and whose family income at the end of the child's 12-month enrollment term exceeds the maximum allowable income set in that paragraph; and
- (2) A child who is enrolled in the Medicaid program and whose family income exceeds the limits of that program. The department shall terminate Medicaid coverage for a child who enrolls in the Cub Care program under this subparagraph.

F. The department may not apply an asset test to a child or child's family when the child is otherwise eligible for the Cub Care program under this section.

2-A. Persons 19 and 20 years of age. Health coverage under the Cub Care program is available to a person 19 or 20 years of age whose family income is above the eligibility level for Medicaid under section 3174-G and below the maximum eligibility level established under subsection 2, paragraphs A and B and who meets the requirements set forth in subsection 2, paragraph C. All the requirements of eligibility, program administration, benefit delivery and outreach established in this section apply to persons 19 and 20 years of age.

3. Program administration; benefit design.

With the exception of premium payments under subsection 5 and any other requirements imposed under this section, the Cub Care program must be integrated with the Medicaid program and administered with it in one administrative structure within the department, with the same enrollment and eligibility processes, benefit package and outreach and in compliance with the same laws and policies as the Medicaid program, except when those laws and policies are inconsistent with this section and the Balanced Budget Act of 1997. The department

shall adopt and promote a simplified eligibility form and eligibility process.

4. Benefit delivery. The Cub Care program must use, but is not limited to, the same benefit delivery system as the Medicaid program, providing benefits through the same health plans, contracting process and providers. Copayments and deductibles may not be charged for benefits provided under the program.

~~**5. Premium payments.** Premiums must be paid in accordance with this subsection.~~

~~A. Premiums must be paid at the beginning of each month for coverage for that month according to the following scale:~~

- ~~(1) Families with incomes between 150% and 160% of the federal nonfarm income official poverty line pay premiums of 5% of the benefit cost per child, but not more than 5% of the cost for 2 children;~~
- ~~(2) Families with incomes between 160% and 170% of the federal nonfarm income official poverty line pay premiums of 10% of the benefit cost per child, but not more than 10% of the cost for 2 children;~~
- ~~(3) Families with incomes between 170% and 185% of the federal nonfarm income official poverty line must pay premiums of 15% of the benefit cost per child, but not more than 15% of the cost for 2 children; and~~
- ~~(4) Families with incomes between 185% and 200% of the federal nonfarm income official poverty line must pay premiums of 20% of the benefit cost per child, but not more than 20% of the cost for 2 children.~~

~~B. When a premium is not paid at the beginning of a month, the department shall give notice of nonpayment at that time and again at the beginning of the 6th month of the 6 month enrollment period if the premium is still unpaid, and the department shall provide an opportunity for a hearing and a grace period in which the premium may be paid and no penalty will apply for the late payment. If a premium is not paid by the end of the grace period, coverage must be terminated unless the department has determined that waiver of premium is appropriate under paragraph D. The grace period is determined according to this paragraph.~~

- ~~(1) If nonpayment is for the first, 2nd, 3rd, 4th or 5th month of the 6 month enrollment period, the grace period is equal to the remainder of the 6 month enrollment period.~~
- ~~(2) If nonpayment is for the 6th month of the 6 month enrollment period, the grace period is equal to 6 weeks.~~

~~C. A child whose coverage under the Cub Care program has been terminated for nonpayment of premium and who has received coverage for a month or longer without premium payment may not reenroll until after a waiting period that equals the number of months of coverage under the Cub Care program without premium payment, not to exceed 3 months.~~

~~D. The department shall adopt rules allowing waiver of premiums for good cause.~~

6. Incentives. In the contracting process for the Cub Care program and the Medicaid program, the department shall create incentives to reward health plans that contract with school-based clinics, community health centers and other community-based programs.

7. Administrative costs. The department shall budget 2% of the costs of the Cub Care program for outreach activities. After the first 6 months of the program and to the extent that the program budget allows, the department may expend up to 3% of the program budget on activities to increase access to health care. ~~Administrative costs must include the cost of staff with experience in health policy administration equal to one full-time equivalent position. In addition, the department shall apply for additional federal funds available for Medicaid outreach activities. The goal of outreach activities under this subsection is to enroll 100% of children eligible for the Cub Care program or the MaineCare program.~~

8. Quarterly determination of fiscal status; reports. On a quarterly basis, the commissioner shall determine the fiscal status of the Cub Care program, determine whether an adjustment in maximum eligibility level is required under subsection 2, paragraph B and report to the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs and the joint standing committee of the Legislature having jurisdiction over health and human services matters on the following matters:

A. Enrollment approvals, denials, terminations, reenrollments, levels and projections. With regard to denials, the department shall gather data from a statistically significant sample and provide information on the income levels of children who are denied eligibility due to family income level;

B. Cub Care program expenditures, expenditure projections and fiscal status;

C. Proposals for increasing or decreasing enrollment consistent with subsection 2, paragraph B;

D. Proposals for enhancing the Cub Care program;

E. Any information the department has from the Cub Care program or from the Bureau of Insurance or the Department of Labor on employer health coverage and insurance coverage for low-income children;

F. The use of and experience with the purchase option under subsection 2, paragraph ~~D~~ E; and

9. Provisions applicable to federally recognized Indian tribes. After consultation with federally recognized Indian nations, tribes or bands of Indians in the State, the commissioner shall adopt rules regarding eligibility and participation of children who are members of a nation, tribe or band, consistent with Title 30, section 6211, in order to best achieve the goal of providing access to health care for all qualifying children within program requirements, while using all available federal funds.

10. Rulemaking. The department shall adopt rules in accordance with Title 5, chapter 375 as required to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter ~~H-A~~ 2-A.

11. Cub Care drug rebate program. Effective October 1, 1999, the department shall enter into a drug rebate agreement with each manufacturer of prescription drugs that results in a rebate equal to that which would be achieved under the federal Social Security Act, Section 1927.

~~**12. Premium rate review; adjustment.** Effective July 1, 2004, the department shall periodically evaluate the amount of premiums charged under this section to ensure that the premiums charged reflect the most current benefit cost per child. The commissioner shall adjust the premiums by rule. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.~~

Sec. CCC-4. Federal Medicaid waivers or state plan amendments; funding. The Department of Health and Human Services shall establish coverage under the Maine Revised Statutes, Title 22, section 3174-T, subsection 2-A as of the effective date of this Part using state funds. The department may seek to acquire matching federal funds under the Medicaid program by submitting to the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services any waivers or state plan amendments determined necessary.

Sec. CCC-7. Contingent repeal. The repeal of the Maine Revised Statutes, Title 22, section 3174-T, subsection 2, paragraph C, subparagraph (5) and section 3174-T, subsections 5 and 12 takes effect only if the Department of Health and Human Services receives approval from the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services to remove premium and waiting period requirements for health coverage for low-income children under the Cub Care program established in Title 22, section 3174-T, subsection 1. **CHAPTER 636
S.P. 711 - L.D. 1980**

An Act To Allow Internet Payment for Tickets and Chances for Raffles Held by Nonprofit Organizations and Other Eligible Organizations and To Require the Gambling Control Unit To Adopt Certain Rules

Emergency preamble. Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, eligible nonprofit organizations in the State rely on fund-raising to meet their charitable goals; and

Whereas, the COVID-19 pandemic has severely restricted the ability of eligible nonprofit organizations to effectively raise funds, which has directly led to a reduction in charitable giving; and

Whereas, allowing eligible nonprofit organizations to modernize their fund-raising process is needed and will increase charitable giving across the State, especially during the summer tourist season; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 17 MRSA §1831, sub-§7-B, as enacted by PL 2021, c. 136, §2, is amended to read:

7-B. Internet raffle. "Internet raffle" means a raffle in which a person purchases a raffle chance or ticket through, and a winner or winning chances are determined by, a mobile application or other digital platform that involves, at least in part, the use of the Internet. A

raffle where a winner or winning chance is determined by drawing from a container is not an Internet raffle, even if some or all of the raffle chances or tickets are purchased through a digital platform.

Sec. 2. 17 MRSA §1837-A, sub-§7, as enacted by PL 2021, c. 136, §10, is amended to read:

7. Internet raffles; restrictions. An eligible organization described in section 1832, subsection 2 may conduct a raffle described in subsection 2-A or subsection 4 as an Internet raffle if the eligible organization registers with the Gambling Control Unit and the Internet raffle is operated in accordance with the requirements of this chapter by an Internet raffle operator identified on the registration form. Notwithstanding subsection 6, an eligible organization may not conduct more than one Internet raffle at the same time. The eligible organization and Internet raffle operator may not permit a person under 18 years of age to purchase a chance or ticket for an Internet raffle and may not advertise or market the Internet raffle in a manner that has a high likelihood of reaching persons under 18 years of age or that is specifically designed to appeal particularly to persons under 18 years of age.

Sec. 3. 17 MRSA §1837-C is enacted to read:
§1837-C. Raffle entry by payment management system

1. Definitions. As used in this section, unless the context indicates otherwise, the following terms have the following meanings.

B. "Payment management system" means a mobile application or other digital platform and the accompanying computer software used to accept payment for a raffle chance or ticket through the Internet.

2. Use of payment management system. When conducting a raffle under section 1837-A that is not an Internet raffle, an eligible organization may accept payment for a raffle chance or ticket from a payment management system if:

B. The raffle chance or ticket is purchased by a person who is at least 18 years of age; and

C. The raffle chance or ticket is purchased by a person who is physically located in the State or another state where the purchase of that raffle chance or ticket would be legal under the laws of that state.

If the eligible organization determines that the purchase of a raffle chance or ticket is made in violation of paragraph B or C, the organization shall immediately refund the payment and void the raffle chance or ticket associated with the purchase.

If the eligible organization conducts a raffle in which a winner receives a firearm, the transfer of that firearm to the winner must be processed through a holder of a federal license for a dealer in firearms who is not a dealer in destructive devices under 18 United States Code, Section 923(a)(3)(B).

An eligible organization that fails to comply with this subsection commits a civil violation punishable by a fine of not less than \$500 and not more than \$5,000.

3. Approval of payment management system.

Upon request from an eligible organization, the director may approve a payment management system for use by the organization in conducting a raffle that is not an Internet raffle only if the director determines that the payment management system:

A. Does not permit the extension of credit from the eligible organization to a person who purchases a raffle chance or ticket;

B. Does not permit a person to initiate a transaction to purchase a raffle chance or ticket and finalize the transaction by providing payment by mail;

C. Includes adequate measures to ensure that a person who purchases a raffle chance or ticket is at least 18 years of age;

D. E. Provides for the immediate refund of any payment to purchase a raffle chance or ticket made by a person who the organization discovers is under 18 years of age at the time of purchase or was physically located in a state where the raffle being conducted is not legally permitted at the time of purchase;

F. Includes adequate measures to protect the privacy and security of payment information submitted by persons who purchase raffle chances or tickets during the purchase process; and

G. Enables the eligible organization to satisfy the record-keeping and reporting requirements in subsection 6 as well as any other requirements established by the Gambling Control Unit by rule.

4. Payment. A payment management system approved by the director under this section may permit the use of a debit card or other payment method that the eligible organization uses to accept membership dues from out-of-state members and may allow a member of the eligible organization to request that payment for a raffle chance or ticket be made using the member's funds already within the possession of the eligible organization.

5. Guidance for raffle operators. Upon receipt of a request to approve a payment management system under subsection 3, the director shall provide the eligible organization with a guidance document including any information the director determines necessary to assist the eligible organization in complying with the requirements of this section.

6. Record-keeping and reporting requirements.

In addition to the record-keeping requirements under section 1839, an eligible organization that uses a payment management system to conduct a raffle shall:

A. Retain for a period of 3 years an electronic copy of each receipt for the sale of a raffle chance or ticket sold using the payment management system;

**An Act To Improve Access to
Behavioral Health Services by
Limiting Cost Sharing by
Insurers**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 24-A MRSA §4320-A, sub-§3, as enacted by PL 2019, c. 653, Pt. C, §1, is amended to read:

3. Primary health services. An individual or small group health plan with an effective date ~~on or after~~ from January 1, 2021 ~~to December 31, 2022~~ must provide coverage without cost sharing for the first primary care office visit and first behavioral health office visit in each plan year and may not apply a deductible or coinsurance to the 2nd or 3rd primary care and 2nd or 3rd behavioral health office visits in a plan year. Any ~~copays~~ copayments for the 2nd or 3rd primary care and 2nd or 3rd behavioral health office visits in a plan year count toward the deductible. This subsection does not apply to a plan offered for use with a health savings account unless the federal Internal Revenue Service determines that the benefits required by this section are permissible benefits in a high deductible health plan as defined in the federal Internal Revenue Code, Section 223(c)(2). The superintendent shall conduct a study analyzing the effects of this subsection on premiums based on experience in plan years 2020 and 2021. The superintendent may adopt rules as necessary to address the coordination of the requirements of this subsection

for coverage without cost sharing for the first primary care visit and the requirements of this section with respect to coverage of an annual well visit. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

Sec. 2. 24-A MRSA §4320-A, sub-§3-A is enacted to read:

3-A. Parity in cost sharing for primary care and behavioral health office visits; individual or small group health plan. An individual or small group health plan with an effective date on or after January 1, 2023 must provide coverage without cost sharing for the first primary care office visit and first behavioral health office visit in each plan year and may not apply a deductible or coinsurance to the 2nd or 3rd primary care and 2nd or 3rd behavioral health office visits in a plan year. Any copayments for primary care office visits and behavioral health office visits in a plan year count toward the deductible. After the first behavioral health office visit, a health plan may not apply a copayment amount to a behavioral health office visit that is greater than the copayment for a primary care office visit. For the purposes of this subsection, “behavioral health office visit” means an office visit to address mental health and substance use conditions. This subsection does not apply to a plan offered for use with a health savings account unless the federal Internal Revenue Service determines that the benefits required by this section are permissible benefits in a high deductible health plan as defined in the federal Internal Revenue Code, Section 223(c)(2). The superintendent may adopt rules as necessary to address the coordination of the requirements of this subsection for coverage without cost sharing for the first primary care visit and the requirements of this section with respect to coverage of an annual well visit. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

Sec. 3. 24-A MRSA §4320-A, sub-§3-B is enacted to read:

3-B. Parity in cost sharing for primary care and behavioral health office visits; group health plan. A group health plan, other than a small group health plan subject to subsection 3-A, with an effective date on or after January 1, 2023 must provide coverage without cost sharing for the first primary care office visit and first behavioral health office visit in each plan year. After the first behavioral health office visit, a health plan may not apply a copayment amount to a behavioral health office visit that is greater than the copayment for a primary care office visit. For the purposes of this subsection, “behavioral health office visit” means an office visit to address mental health and substance use conditions. This subsection does not apply to a plan offered for use with a health savings account unless the federal Internal Revenue Service determines that the benefits required by this section are permissible benefits in a

high deductible health plan as defined in the federal Internal Revenue Code, Section 223(c)(2). The superintendent may adopt rules as necessary to address the coordination of the requirements of this subsection for coverage without cost sharing for the first primary care visit and the requirements of this section with respect to coverage of an annual well visit. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

Sec. 4. 24-A MRSA §4320-R is enacted to read:

§4320-R. Implementation of federal mental health parity laws

1. Nonquantitative treatment limitation; definition. For the purposes of this section, “nonquantitative treatment limitation” means a limitation that is not expressed numerically but otherwise limits the scope or duration of benefits for treatment.

2. Compliance with federal mental health parity laws. A carrier offering a health plan in this State providing health coverage for mental health and substance use disorder services pursuant to sections 2749-C, 2842, 2843, 4234-A and 4320-D and Title 24, sections 2325-A and 2329 must meet the requirements of the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 and any amendments to, and any federal guidance or regulations relevant to, that Act, including 45 Code of Federal Regulations, Sections 146.136, 147.136, 147.160 and 156.115(a)(3).

3. Implementation of federal mental health parity laws. The superintendent shall implement and enforce applicable provisions of the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008, and any amendments to and federal guidance or regulations relevant to that Act, including 45 Code of Federal Regulations, Sections 146.136, 147.136, 147.160 and 156.115(a)(3), by:

A. Proactively ensuring compliance by insurers, health maintenance organizations and nonprofit hospital or medical service organizations that execute, deliver, issue for delivery, continue or renew individual policies or individual and group health care contracts;

B. Evaluating all consumer or provider complaints regarding mental health and substance use disorder coverage for possible parity violations;

C. Performing parity compliance market conduct examinations of carriers that execute, deliver, issue for delivery, continue or renew individual policies or individual and group health care contracts, particularly market conduct examinations that focus on nonquantitative treatment limitations, including, but not limited to, prior authorization, concur-

rent review, retrospective review, step therapy, network admission standards, reimbursement rates and geographic restrictions; and

D. Requesting that carriers submit comparative analyses during the form review process demonstrating how they design and apply nonquantitative treatment limitation, both as written and in operation, for mental health and substance use disorder benefits as compared to how they design and apply nonquantitative treatment limitation, as written and in operation, for medical and surgical benefits.

The superintendent may adopt rules, as authorized under section 212, as may be necessary to effectuate any provisions of the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 that relate to the business of insurance. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

4. Reports to superintendent. As part of the report submitted to the superintendent, and subsequently reported by the superintendent to the Legislature, pursuant to section 2749-C, subsection 4, section 2843, subsection 7, section 4234-A, subsection 10 and Title 24, section 2325-A, subsection 8, a carrier shall submit the following information to the superintendent:

A. A description of the process used to develop or select the medically necessary health care criteria for mental health and substance use disorder benefits and the process used to develop or select the medically necessary health care criteria for medical and surgical benefits;

B. Identification of all nonquantitative treatment limitations that are applied to mental health and substance use disorder benefits and medical and surgical benefits within each classification of benefits. The report must include information demonstrating that each nonquantitative treatment limitation that applies to mental health and substance use disorder benefits also applies to medical and surgical benefits within any classification of benefits; and

C. The results of an analysis that demonstrate that for the medically necessary health care criteria described in paragraph A and for each nonquantitative treatment limitation identified in paragraph B, as written and in operation, the processes, strategies, evidentiary standards or other factors used in applying the medically necessary health care criteria and each nonquantitative treatment limitation to mental health and substance use disorder benefits within each classification of benefits are comparable to, and are applied no more stringently than, the processes, strategies, evidentiary standards or other factors used in applying the medically necessary health care criteria and each nonquantitative treatment limitation to medical and surgical benefits

within the corresponding classification of benefits. At a minimum, the results of the analysis must:

(1) Identify the factors used to determine that a nonquantitative treatment limitation applies to a benefit, including factors that were considered but rejected;

(2) Identify and define the specific evidentiary standards used to define the factors and any other evidence relied upon in designing each nonquantitative treatment limitation;

(3) Identify and describe the comparative analyses, including the results of the analyses, used to determine that the processes and strategies used to design each nonquantitative treatment limitation, as written, for mental health and substance use disorder benefits are comparable to, and are applied no more stringently than, the processes and strategies used to design each nonquantitative treatment limitation, as written, for medical and surgical benefits;

(4) Identify and describe the comparative analyses, including the results of the analyses, used to determine that the processes and strategies used to apply each nonquantitative treatment limitation, in operation, for mental health and substance use disorder benefits are comparable to, and applied no more stringently than, the processes and strategies used to apply each nonquantitative treatment limitation, in operation, for medical and surgical benefits; and

(5) Disclose the specific findings and conclusions reached by the insurer that the results of the analyses in this paragraph indicate that the carrier is in compliance with this section and the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 and its implementing and related regulations, including 45 Code of Federal Regulations, Sections 146.136, 147.136, 147.160 and 156.115(a)(3).

Information submitted by a carrier to the superintendent pursuant to this subsection is public information in accordance with section 216, except for information that a carrier requests be designated as confidential and the superintendent has determined is proprietary information. For the purposes of this subsection, "proprietary information" means information that is a trade secret or business or financial information the disclosure of which would impair the competitive position of a carrier or that would result in significant detriment to a carrier if the information were made available to the public.

5. Repeal. This section is repealed April 30, 2028.

CHAPTER 639

H.P. 1377 - L.D. 1867

**An Act To Codify MaineCare
Rate System Reform**

Be it enacted by the People of the State of Maine as follows:

Sec. 1. 5 MRSA §12004-I, sub-§36-F is enacted to read:

36-F.

Human Services	MaineCare Rate Reform Expert Technical Advisory Panel	Not Authorized	22 MRSA §3173-J, sub-§5
----------------	---	----------------	-------------------------

Sec. 2. 22 MRSA §3173-J is enacted to read:

§3173-J. Rate-setting system for development and maintenance of sustainable, efficient and value-oriented MaineCare payment models and rates

This section establishes a rate-setting system for the development and maintenance of MaineCare payment models and rates that comply with the requirement in 42 United States Code, Section 1396a that rates be consistent with efficiency, economy and quality of care; that are adequate to support MaineCare member access to services; and that are equitable and data-driven.

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Alternative payment model" means a health care payment model that uses financial incentives to promote or leverage greater value for patients, purchasers, payers or providers and that connects at least a portion of reimbursement to performance on defined quality measures.

B. "MaineCare section of policy" means a set of MaineCare-covered services, as categorized by the department through the adoption of rules that specify the parameters for coverage.

C. "Rate determination" means a process conducted by the department to establish the reimbursement rate methodology, base rate amount or payment model for a MaineCare section of policy or for a specific covered service, whether through adoption or adaptation of a benchmark rate from another payer or development through a rate study.

D. "Rate study" means an analysis conducted by the department or its contracted vendor to develop a recommended rate methodology and resulting base rate amount and payment model based on the service model and cost components for the service.

2. Rate-setting system principles and processes.

The department shall establish MaineCare provider reimbursement rates, including those paid through fee-for-service and alternative payment models. The rates must be established in accordance with the following principles and processes and adopted through rulemaking as described in subsection 3. The department shall:

A. Develop annually a schedule of rate determination by MaineCare section of policy in consultation with the MaineCare Rate Reform Expert Technical Advisory Panel established under subsection 5 as follows:

(1) Post the rate determination schedule on its publicly accessible website;

(2) Provide an opportunity for the public to review and comment on the rate determination schedule and make available a summary of these comments on its publicly accessible website; and

(3) Conduct off-schedule rate determinations as the department finds appropriate;

B. Conduct or contract for, every 4 years, a comprehensive benchmarking report to compare MaineCare rates for all services to those paid by Medicare, at least 5 comparison Medicaid states and any appropriate Maine commercial payers. The department shall provide public notice of the initiation of the comprehensive benchmarking process, provide an opportunity for the public to review and comment on the draft report and make available a summary of these comments alongside the final report;

C. Conduct a rate determination process for any contemplated change in reimbursement amount or model for a MaineCare section of policy or for a specific covered service, in accordance with the following procedures:

(1) Provide public notice of initiation of the rate determination for a MaineCare section of policy or for a specific covered service;

(2) Consider and, when appropriate, adopt alternative payment models that use financial incentives to promote or leverage greater value for the MaineCare program. This consideration must include a review of research on any available national models or best practices regarding payment models for the service;

(3) Determine whether a Medicare rate is available for the service and whether the Medicare rate represents the most appropriate benchmark and payment model;

(4) In the absence of a Medicare rate, determine whether a rate from a non-Medicare payer source, including, but not limited to, commercial health care rates in the State or other states' Medicaid rates, is available for the service and whether this alternate payer rate represents the most appropriate benchmark and payment model. The department shall determine an appropriate percentage of the benchmark rate for the service, taking into consideration the findings of the benchmarking report conducted in accordance with paragraph B;

(5) Conduct a rate study for every service for which a benchmark rate or payment model in accordance with subparagraph (3) or (4) either is unavailable or is inconsistent with the goals of efficiency, economy and quality of care to support member access. Each rate study must include the following:

(a) A review of data, which must include:

(i) An assessment as to whether the delivery of service and associated requirements have changed since the previous rate study, if available, to determine if the rate methodology needs to be revised;

(ii) The collection of data on provider costs and cost-related aspects of the delivery of service and associated requirements through existing cost reports, provider surveys and other available data sources; and

(iii) Research on any available national models or best practices regarding cost-related aspects of the

delivery of service and associated requirements; and

(b) Developing or updating rates by considering the following:

(i) The appropriateness of adoption of a change in payment model consistent with the purposes of this section;

(ii) The current rate assumptions and their appropriateness given current provider costs, best practices or changes in the delivery of service and associated requirements;

(iii) The findings for related services of any comprehensive benchmarking report under paragraph B; and

(iv) The degree to which services are dependent on MaineCare reimbursement, including, but not limited to, cost factors, such as average wage, that may be reflective of restraints of MaineCare reimbursement versus costs of the broader marketplace; and

(6) Upon completion of the rate determination process, present the department's rationale and recommendations for rate methodology, resulting base rate amount and payment model for public comment prior to the rule-making process; convene a meeting of interested providers and other interested members of the public to discuss the recommendations and hear comments; and respond in writing to comments with an explanation of whether and how feedback was incorporated into the final rate determination; and

D. Ensure that base rate amounts developed under paragraph C are updated to keep pace with changes in the costs of delivering the service by:

(1) For rates benchmarked to Medicare rates according to paragraph C, subparagraph (3), referencing Medicare rates for the most current year available, updated at least annually, and reviewing the current established percentage benchmark, as appropriate, taking into consideration the findings of the most recent benchmarking report conducted in accordance with paragraph B;

(2) For rates benchmarked to an alternate payer source in accordance with paragraph C, subparagraph (4), updating rates to the most current year of data for that payer source at least once every 2 years and reviewing the current established percentage benchmark, as ap-

appropriate, taking into consideration the findings of the benchmarking report conducted in accordance with paragraph B; and

(3) For base rates determined through a rate study in accordance with paragraph C, subparagraph (5), providing an annual cost-of-living adjustment effective on a consistent date to be established by the department for each service that has not received a rate adjustment within the 12 months prior to the effective date of the cost-of-living adjustment and for which the department determines benchmarking in accordance with paragraph C, subparagraph (3) or (4) is not appropriate or advisable. In establishing cost-of-living adjustments, the department shall:

(a) Use inflation indices determined through rulemaking to reflect a reasonable cost of providing services for different categories of services; and

(b) Maximize use of a single, consistent and general cost-of-living adjustment index, consistent with the cost-of-living adjustment applied to minimum wage laws, in order to ensure that the cost-of-living adjustment reflects increases to provider costs for delivering the service rather than other factors, such as private sector price increases or cost-shifting from different payers.

3. Rulemaking for establishment of rate methodology. In addition to the requirements of Title 5, chapter 375, rulemaking for MaineCare provider reimbursement rate methodologies must comply with the following.

A. Establishment of a rate methodology for a new MaineCare section of policy or specific new service or changes to an existing rate methodology must be adopted through rulemaking in accordance with the Maine Administrative Procedure Act. Rulemaking is not required for the addition of new billing codes or to specify rates for specific billing codes if there is no change in the overall methodology and rates are posted in accordance with this section.

B. For services the department benchmarks to Medicare or other available payer rates for reimbursement, the department shall adopt a rule specifying the percentage, frequency of benchmark updates for alternate payer sources and other aspects of the benchmark methodology. Additional rulemaking is not required for rate changes tied to the adopted benchmark methodology, or for the addition of new billing codes, unless the department changes the benchmarking percentage or methodology.

C. No later than July 1, 2023, the department shall adopt a rule specifying the appropriate cost-of-living adjustment methodology for different types of services in accordance with subsection 2, paragraph D, subparagraph (3). Additional rulemaking is not required for rate increases tied to annual cost-of-living adjustment increases unless the department changes the cost-of-living adjustment methodology.

Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A unless rules to adopt MaineCare reimbursement rates are designated as major substantive rules in another section of law.

4. Funding. The department may use funds from the MaineCare Stabilization Fund established in section 3174-KK in order to fund the rate adjustments made in accordance with this section when funding may be needed in addition to appropriations associated with separate initiatives.

5. MaineCare Rate Reform Expert Technical Advisory Panel. The MaineCare Rate Reform Expert Technical Advisory Panel, referred to in this subsection as "the panel," is established for the purpose of advising the commissioner by providing technical, nonpartisan, 3rd-party expertise to inform the department's planned schedule and actions on rate assumptions, payment models and other related technical matters. The panel may not propose rates or methodologies. The commissioner or the commissioner's designee shall serve as chair.

A. The panel includes the following members:

(1) A representative from the Maine Health Data Organization;

(2) A representative from the Department of Professional and Financial Regulation, Bureau of Insurance;

(3) A representative from the Department of Professional and Financial Regulation;

(5) A representative from the Office of Affordable Health Care;

(6) A representative from the Department of Labor; and

(7) A representative from the Department of Administrative and Financial Services.

B. The panel shall:

(1) Review annual schedules of MaineCare sections of policy scheduled for rate determinations under subsection 2, paragraph A;

(2) Review assumptions and recommendations from rate determinations under subsection 2, paragraph C;

(3) Review findings from benchmarking reports to inform the appropriateness of MaineCare rate levels across services; and

(4) Advise on other related technical matters, as appropriate.

C. The panel shall meet at least twice per year and as otherwise convened by the commissioner. Meetings of the panel are public, and the panel shall provide public notice of each meeting and an opportunity for public comment.

6. **MaineCare Advisory Committee.** The MaineCare Advisory Committee, required by 42 Code of Federal Regulations, Section 431.12 and further described in department rules, and referred to in this subsection as "the committee," shall participate in the department's rate-setting system in accordance with this subsection.

A. The committee must include a permanent rate system subcommittee that allows broad participation by the full spectrum of types of MaineCare providers. Participation in the rate system subcommittee may not be limited by number or type of stakeholder in order to allow for participation by any stakeholder affected by MaineCare reimbursement policy and interested in participating in the work of the subcommittee.

B. At each meeting of the committee or rate system subcommittee, if requested by the chair of the committee or rate system subcommittee, the department shall provide updates on the department's planned and completed activities under this section for discussion and advisement, including, but not limited to, the following:

(1) Schedule and status of rate determination, planned and in progress, by MaineCare section of policy;

(2) Status of and plans for comprehensive benchmarking studies; and

(3) Contemplated rulemaking to establish rate methodology resulting from rate determination processes.

C. The rate system subcommittee may formulate and present recommendations to the committee pertaining to the department's activities under this section.

7. **Index of MaineCare rates by service code; publicly accessible website.** The department shall maintain and annually update a centralized master index of rates by service code and post this index on its publicly accessible website. The index must contain the following:

A. The service code, including any modifiers that affect reimbursement;

B. The current year rate;

C. The source for the rate, including, but not limited to, Medicare or alternate payer benchmark, rate study or other source, and the year and the author of the review, study or report that justified the rate;

D. The year the base rate was last updated prior to the application of any subsequent cost-of-living adjustments;

E. Whether the rate is subject to cost-of-living adjustments and, if so, the identity of the benchmark index;

F. The section of MaineCare policy pursuant to which the rate was adopted; and

G. The target date for the next rate review.

In addition to the index, the department shall post on its publicly accessible website all rate studies, benchmark reports and other materials used by the department to develop the rates and payment models.

8. **Notice prior to implementation.** For planned rate changes that do not require rulemaking as described in subsection 3, the department shall provide notice prior to implementation, of no less than 30 calendar days for cost-of-living adjustments and no less than 7 calendar days for Medicare fee schedule changes or the addition of new service codes, to stakeholders who request to receive such notice.

See title page for effective date.
