SENATE PAPERS

The following Joint Resolution: (S.P. 514)

JOINT RESOLUTION RECOGNIZING THE MAINE FOREST SERVICE FOR ITS 2024 OUT-OF-STATE MOBILIZATIONS

WHEREAS, regionally and nationally, the Maine Forest Service, as part of the Department of Agriculture, Conservation and Forestry, works within mutual aid agreements to assist state and federal partners, including during the recent 2024 mobilization season; and

WHEREAS, through the Northeast Forest Fire Protection Compact and National Stafford Act Master Agreement, the Maine Forest Service had 30 mobilizations in 2024, sending resources to other parts of the country to respond to 25 incidents, including Hurricane Helene in the Town of Black Mountain in North Carolina; and

WHEREAS, in 2024 the Maine Forest Service also sent personnel and equipment to California, New Mexico, Washington, Nevada, Oregon, Georgia, Alabama, Connecticut and Massachusetts; and

WHEREAS, forty-one rangers, one forester and one entomologist from the Maine Forest Service participated in the 2024 mobilization season, as did staff from the Maine Land Use Planning Commission and other state agencies and 24 call-when-needed firefighters; and

WHEREAS, the Maine Forest Service sent these personnel and resources to other states to respond to wildfires and natural disasters, but because of our mutual aid agreements, Maine can rely on help from other states when natural disasters occur here; and

WHEREAS, while Maine forest rangers and Maine Forest Service staff, other state staff and the call-when-needed firefighters are highly trained, by mobilizing across the country, they gained invaluable additional training and experience that they can apply to the protection of Maine's natural resources; and

WHEREAS, wildfire suppression and emergency response missions are inherently dangerous, but through training, having reliable equipment, using proper personal protective equipment, conducting medical screenings and relying on peer support systems, the Maine Forest Service was successful operationally and in protecting all personnel both here and away in 2024; now, therefore, be it

RESOLVED: That We, the Members of the One Hundred Thirty-second Legislature now assembled in the First Special Session, take this opportunity to recognize the Maine Forest Service for its 2024 mobilization season and express our appreciation for and pride in the personnel of the Maine Forest Service and all who answered the call.

ORDERS

On motion of Representative GRAMLICH of Old Orchard Beach, the following Joint Resolution: (H.P. 1206) (Cosponsored by Senator DUSON of Cumberland and Representatives: BRENNAN of Portland, GERE of Kennebunkport, MILLIKEN of Blue Hill, RIELLY of Westbrook, ROBERTS of South Berwick, STOVER of Boothbay, SUPICA of Bangor, Senator: MOORE of Washington)

JOINT RESOLUTION RECOGNIZING APRIL 2025 AS SEXUAL ASSAULT AWARENESS MONTH

WHEREAS, sexual assault affects all communities in Maine and people of all races, genders and economic backgrounds, and over 14,000 people in Maine are sexually assaulted each year and one in 5 Maine citizens will experience sexual violence in their lifetimes; and

WHEREAS, the effects of sexual violence have wide-ranging public health ramifications and societal costs, and survivors and their loved ones can experience consequences including mental health crises, substance use disorder, homelessness, lost wages and health care costs, among others; and

WHEREAS, sexual violence affects certain groups more often, and that disproportionate impact is related to historical experiences of marginalization and oppression, providing evidence that sexual assault is a tool of control and power; and

WHEREAS, systems of support for survivors of sexual assault often have inadequate resources, do not provide adequate options for justice and healing and retraumatize survivors; and

WHEREAS, widespread stigma and misconceptions around sexual violence result in low rates of reporting of crimes, increased isolation and shame for victims and the continuation of cultures of violence; and

WHEREAS, raising awareness in our communities about the causes of and solutions to sexual violence can lead to long-term positive cultural and systemic changes, and building a future free from sexual violence requires us to commit to making those changes; now, therefore, be it

RESOLVED: That We, the Members of the One Hundred and Thirty-second Legislature now assembled in the First Special Session, on behalf of the people we represent, take this opportunity to recognize April 2025 as Sexual Assault Awareness Month and to express our support for and encouragement of all those affected by sexual violence; and be it further

RESOLVED: That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Maine Coalition Against Sexual Assault as a token of our respect and support.

READ.

The **SPEAKER**: The Chair Recognizes the Representative from Old Orchard Beach, Representative Gramlich.

Representative **GRAMLICH**: Thank you, Mr. Speaker. Mr. Speaker, I rise today in strong support of this "Joint Resolution Recognizing April 2025 as Sexual Assault Awareness Month" in the State of Maine.

Sexual violence is a pervasive and deeply harmful issue that affects every community across our State. Every year, more than 14,000 Mainers are sexually assaulted. That staggering figure is more than a statistic. It represents our neighbors, friends, coworkers and family members. One in five people in our State will experience sexual violence in their lifetimes. The impact of that trauma is long-lasting and profound. This Resolution not only acknowledges those facts, it also confronts the consequences that survivors face every single day. It also confronts ongoing shame and at times guilt, as well as mental health challenges, substance use, housing instability and the financial burden of lost wages and medical care, which are all a part of the ripple effect caused by sexual violence. And too often, the very systems meant to support survivors fail to do so. Survivors are met with inadequate resources, re-traumatization and a justice system that often does not meet their needs.

We also know that sexual violence is not experienced equally. Marginalized communities, including Black and Indigenous people, LGBTQ+ individuals and those living in poverty are disproportionately affected, revealing a larger truth: sexual violence is often a tool of power and control rooted in historical inequities. And of course, Mr. Speaker, children who are victims of sexual abuse live with this trauma well into their older adult years. That's why raising awareness is not a symbolic gesture; it is a critical step toward cultural and systemic change. Naming this month and recognizing its significance is about affirming that survivors matter, that our voices are heard and that our work to end sexual violence must be ongoing and urgent. It is also a reminder, Mr. Speaker, that survivors are not defined by their abuse and that we are seen, heard and believed.

This Resolution is also a statement of support. We honor and stand with the survivors of sexual assault and with the advocates, service providers and organizations like the Maine Coalition Against Sexual Assault, who work tirelessly to support healing and drive prevention efforts across our State. This Resolution, Mr. Speaker, recognizing Sexual Assault Awareness Month, illustrates our commitment to creating a future where safety, dignity and justice are a reality for all Mainers. Thank you.

Subsequently, the Joint Resolution was **ADOPTED** and sent for concurrence.

The **SPEAKER**: The Chair recognizes the Representative from Boothbay, Representative Stover, who wishes to address the House on the record.

Representative **STOVER**: Thank you, Mr. Speaker, and Ladies and Gentlemen of the House. I'd like to recognize the Boothbay Region High School Drama Club. I'm Seahawk Nation proud today to have them here. The drama club won the gold for Class C competition and also brought home the silver for the State drama competition. And so often, we recognize our basketball and football and other athletes, and I'm just really proud of these kids for what they did; bringing home the awards; and I'm glad to have them here today. Thank you.

Representative SACHS of Freeport moved that the House **ACCEPT** the Majority **Ought to Pass as Amended** Report.

The same Representative **REQUESTED** a roll call on her motion to **ACCEPT** the Majority **Ought to Pass as Amended** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Freeport, Representative Sachs.

Representative **SACHS**: Thank you, Mr. Speaker. In Maine, on average, the low-income ratepayers pay approximately eight percent of their household income just for electricity, which is double the four percent maximum recommended by consumer experts. I want to emphasize that the EUT Committee is working in a very bipartisan way with our partners to lower the overall cost of energy. However, the majority felt it also important to support those programs, those relief programs, that we have in place. This is a one-time appropriation in order to support the Low-Income Assistance Program. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Winter Harbor, Representative Faulkingham.

Representative **FAULKINGHAM**: Thank you, Mr. Speaker. I certainly have a lot of disagreements with the Representative from Freeport, but on this case, I agree. I stand in support of the Majority Report and urge the Members to vote Yea on the pending motion.

The SPEAKER: The Chair recognizes the Representative from Dexter, Representative Foster.

Representative **FOSTER**: Thank you, Mr. Speaker. I, too, stand in support of the pending motion.

Those of us on the Committee are working to try to reduce the rates for Maine ratepayers; however, that's, as they say, like shoveling against the tide sometimes. I will say that this particular bill; I'm hoping Appropriations can find the funding for it; will alleviate some of the expense of other ratepayers who have to pick up these funds for the LIAP program that assist those low-income ratepayers who are in need.

This is a growing issue, and it's grown; last Legislature, we placed a bill that raised the income threshold for those who would qualify for LIAP. And at the time, we recognized, because of the increase in electric rates that we are seeing over the last few years, and will continue to see for the next few, anyway, we saw that the numbers of people that would be in need of these funds was increasing as well. And as was mentioned by my good friend from Freeport, we find that more and more of the budget of our not only low-income ratepayers, but medium-income ratepayers, more and more of their budget is going to electricity as each year goes by. So, I hope you'll follow my light and support the pending motion.

The SPEAKER: The Chair recognizes the Representative from Presque Isle, Representative Underwood.

Representative **UNDERWOOD**: Thank you, Mr. Speaker. I'd like to correct one statement that's being made in relation to this bill for the cost of the low income; for the cost to the low-income people. And net energy billing is the primary reason, the reason most of these low-income; most of your household income is going up is in relation to this program called net energy billing. Billing. So, if; keep that in mind when you make your vote today. Thank you.

The SPEAKER: The Chair recognizes the Representative from Rockland, Representative Geiger.

Representative **GEIGER**: Thank you, Mr. Speaker. I just had to rise and correct a misapprehension, having served on the EUT Committee for two terms now. NEB is responsible for six percent of the rise in costs over the last several years; six percent. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Monticello, Representative Ardell.

Representative **ARDELL**: Thank you, Mr. Speaker. This bill is a Band-Aid. Maine's energy policy is a failure and is eroding Maine's economic underpinning through net energy

billing; essentially a solar tax. This bill is essentially subsidizing the subsidy. But for the sake of Mainers, as a result of Maine's failure of an energy policy, in this case, a Band-Aid is necessary, and I would like to invite the Members of this Body to vote with me on this bill. Thank you.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of the Majority Ought to Pass as Amended Report. All those in favor will vote yes, those opposed will vote no.

Representative DOUDERA of Camden moved that the House **ACCEPT** the Majority **Ought Not to Pass** Report.

The same Representative **REQUESTED** a roll call on her motion to **ACCEPT** the Majority **Ought Not to Pass** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Camden, Representative Doudera.

Representative **DOUDERA**: Thank you, Mr. Speaker. Mr. Speaker, this bill is about geoeengineering, which is defined in the bill as the "deliberate, large-scale intervention in the Earth's natural systems for the purpose of counteracting climate change."

Our Committee heard no credible evidence that cloud seeding, weather modification, excessive radio waves, microwave radiation; none of this is of current threat to Maine people, wildlife or our environment. So, this is an unnecessary and premature proposal at this time and, you know, banning geoeengineering outright without any scientific or technical evidence that a particular technology is being used, it could have, you know, it could potentially limit technologies in the future that might be able to help us address climate change through carbon sequestration, for example. So, right now, currently, NOAA; the National Oceanic and Atmospheric Association; they are required by law to track weather modification activities by others, including cloud seeding, and these reports are publicly filed on the NOAA's central library website. So, again, this is not a threat to Maine people at this time, and I ask folks to follow my light. Thank you.

The SPEAKER: The Chair recognizes the Representative from Hodgdon, Representative Quint.

Representative **QUINT**: Thank you, Mr. Speaker, Ladies and Gentlemen. This was brought to me by some constituents. This isn't my bill; I was going to put in a bill for geoeengineering that would've been a little bit different, but due to the number of bills that we had, I just piggybacked on another Member's bill. But I did want to bring up some information.

First of all, whether or not it's happening, at the hearing itself, there was testimony from a Connecticut company that, if you go back and watch, he did a pretty good job bragging about how well his company does, in fact, do with geoengineering. But I would like to read some information that I read at the hearing, just because I learned a lot just gathering the information about this bill that I did not have before.

So, many of my constituents have reached out to me with concerns over geoengineering. "Geoengineering is a truly fascinating science. I am amazed at the number of people who believe this to be in the realm of 'conspiracy theories' or things that are not true. Our government and governments around the world have used and are using this technology within the United States, Russia, China, India and the United Arab Emirates, just to name a few. Individual states and companies have also joined in. Cloud seeding or the use of 'chemtrails' entails spraying particulates or chemicals, such as silver iodide, into clouds to affect their development. Geoengineering has been used in storm prevention/alteration, hurricane modification and weather warfare. Yes, warfare, by our own government. Operation Popeye is an example of military cloud-seeding in Southeast Asia during the Vietnam War. The United Nations addressed the issue of 'hostile weather warfare' in 1977 at the United Nations Environmental Modification Convention. While our country uses this technology to remain a dominant force in air and space, there can be disastrous consequences. Western Saudi Arabia was damaged by floods in 2009 that reportedly killed more than 100 people due to ineffective drainage systems' ability to handle the excess precipitation from their weather modification project. China has spent millions of dollars to alter weather before major gatherings, such as the Beijing Olympics and promotes artificial rainfall and hail suppression. The United Arab Emirates has been cloud seeding with potassium chloride, sodium chloride and magnesium among other materials to increase rainfall by 15-30% each year. These artificial rain storms can cause hail, gales and thunderstorms. This can cause issues in patterns of rainfall for the surrounding areas as well. Canada and the United States have had an agreement," and have had one; "since 1975 to share information on weather modification activity within our countries. Within our borders, Idaho Power has utilized cloud seeding to supplement its hydroelectric power generation for nearly two decades by increasing the annual snowpack. The National Oceanic and Atmospheric Administration (NOAA) has been tasked by the Secretary of Commerce to record weather modification projects since 1971. Were you aware of any of this?" I was not.

"Many people have been questioning the effects of the fallout of these particulates coming down on us in our precipitation; mainly fog, rain, and snow. Do these metallics and chemicals pose a health concern for us, animals or crops? Recently, the American public has become more vocal in questioning the safety of weather manipulation. In 2024, Tennessee banned 'the intentional injection, release or dispersion of chemicals with the express purpose of affecting temperature, the weather or the intensity of sunlight within Tennessee.'" Think about that for a moment. They're using it to block sunlight, while we're plastering our State with solar panels. "Florida has a bill that 'prohibits certain acts intended to affect the temperature, the weather or the intensity of the sunlight within the atmosphere of its state.' Iowa has in a bill to ban the emission of air contaminants into the atmosphere to intentionally alter the weather. There are many questions, but one that we should really be asking is does the State of Maine even know what is in our aerosolized skies, and do we want to allow others

dominion over our skies without our consent." Thank you, Mr. Speaker.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of the Majority Ought Not to Pass Report. All those in favor will vote yes, those opposed will vote no.

READ.

Representative SALISBURY of Westbrook moved that the House **ACCEPT** the Minority **Ought Not to Pass** Report.

The SPEAKER: The Chair recognizes the Representative from Wales, Representative Greenwood.

Representative **GREENWOOD**: Thank you, Mr. Speaker. Mr. Speaker, I rise in opposition to the pending motion. And frequently, we have Divided Reports in this Chamber, but when we have a Divided Report that has bipartisan support, I'm disappointed that we're moving the Minority Report on the floor. For that reason, I request a Roll Call.

Representative GREENWOOD of Wales **REQUESTED** a roll call on the motion to **ACCEPT** the Minority **Ought Not to Pass** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from East Machias, Representative Tuell.

Representative **TUELL**: Thank you, Mr. Speaker. I rise in opposition to the pending motion, and I do so for several reasons.

First, the Report before us fails to address and acknowledge a growing concern. Maine's quote-unquote 'senior' United States Senator, Susan Collins, is 72; our quote-unquote 'junior' United States Senator, Angus King, is 81. At the risk of being accused of referencing a piece of legislation not before the Body, they aren't exactly spring chickens. And because of that, we need to candidly consider what would happen if they were not able to fulfill the duties of their office, just as I, my brother and sister have to come to grips with the fact that our 70-year-old parents are also in their later years and will not always be there. That's not an easy thing to talk about, and for many in this Body, it hits closer to home than others. But the last thing a 70- to 80-year-old man or woman should have to think about is who is going to fill his or her shoes in public office should tragedy strike.

If we pass the motion before us and the office is vacated, the Chief Executive will have the authority to appoint on an interim basis anyone he or she wishes to, to one of Maine's two U.S. Senate seats. Anyone, Mr. Speaker, and not someone of the same political party. The current Chief Executive would be under immense pressure to replace a vacated Senator Collins seat with a Democrat. The previous Chief Executive would have jumped at the chance to replace Angus King with a Republican. That may be tough for some people to admit, but it's plain and simple political reality that would rightfully have either party up in arms if they were on the other side of the fence and if they lost one of their own, and Independents like the Representative from Belgrade or the Representative from Warren would never have any hope of having an unaffiliated Mainer in one of those two U.S. Senate seats.

My first objection to the pending motion boils down to fairness. If the seat is vacated by a Democrat, it should be filled by one; on an interim basis. If the seat is vacated by an unaffiliated Senator; again, on an interim basis; it should be filled by one. And the same goes for a Republican. The report before us fails the fairness test.

Second, it also fails the consistency test. Recently, down in Washington County, County Commissioner John Crowley tendered his resignation for health reasons. After 26 years in office, Commissioner Crowley notified the Chief Executive, who in turn was bound by law to select a replacement Commissioner from the same political party. She solicited nominations from our County Republican Committee of folks in that district, a slate of candidates was presented to her and she appointed; or is soon to appoint; one of those names on that list to serve until the next election. If the law had permitted it, there would have been nothing to stop her from appointing someone from the opposite party or an unaffiliated resident of the Commissioner's district, or to have stopped her from accepting recommendations from either the Democratic party or Independents at large. I'm not going to speculate what she would have done, but I'm going to say that for consistency's sake, we should reject the motion before us and adopt the same principle for our two United States Senate seats, and we should do it out of respect for the office our two Senators hold.

Third and finally, Mr. Speaker, we should reject the pending motion because the Chief Executive should not have the power to influence the next U.S. Senate election by giving a political ally a leg up on the competition. The motion before us of Ought Not to Pass does just that. If we reject it and pursue another course of action, Mr. Speaker, the Chief Executive won't be able to tip the scales, candidates for office will have to compete on an even playing field and Maine people will be the ultimate decision makers.

I oppose the pending motion and request that the Clerk read the Committee Report. Thank you, Mr. Speaker.

Representative TUELL of East Machias **REQUESTED** that the Clerk **READ** the Committee Report.

The Clerk **READ** the Committee Report in its entirety.

The **SPEAKER**: The Chair recognizes the Representative from Fairfield, Representative Rudnicki.

Representative **RUDNICKI**: Thank you, Mr. Speaker. I just have a question through the Chair, if I may?

The **SPEAKER**: The Representative may proceed.

Representative **RUDNICKI**: Why are we bothering to go to Committee if the Majority party is going to run what they want for a Report anyway, and not actually do the, you know, for the Committee's work?

The **SPEAKER**: The Representative from Fairfield, Representative Rudnicki, has posed a question through the Chair to any Member who wishes to answer.

The **SPEAKER**: A roll call has been ordered. The pending question before the House is Acceptance of the Minority Ought Not to Pass Report. All those in favor will vote yes, those opposed will vote no.

Representative **UNDERWOOD**: Thank you, Mr. Speaker. I appreciate it. I was born and brought up in Presque Isle, along with; yes, I called him Barry, not Detective or Sheriff. I always knew him as the redheaded kid from Elm Street. We grew up together in the same neighborhood, along with a third person that graduated in the class of '67 in Presque Isle. His name was Brian Niles, and he's a truck driver and he's from Connecticut. So, anyway, the three of us were born and brought up in the same neighborhood, and we played on the same, basically, the teams, and his father's name was Harry DeLong, and he was a mechanic for Etscovetz Garage and also his mother was a homemaker, Lola DeLong, that was his mother's name and there was a friend of my mother's. Again, we grew up in the same neighborhood, and he went his way, I went my way and Mr. Niles went his way.

With that, I'd like to say he was a great guy, he was a tough County kid of County legislators, they're all tough kids and he represented very well what a tough County kid is all about. With that, I'd like to say rest in peace, Barry, and may God keep his two kids in his arms. Carrie-Jo was his daughter and Flint is his son, and both of them, and I wish them all well and may God help him rest in peace, and thank you.

Subsequently, the Bill was **PASSED TO BE ENACTED**, signed by the Speaker and sent to the Senate.

By unanimous consent, all matters having been acted upon were **ORDERED SENT FORTHWITH**.
