SUMMARY

This bill amends the laws governing the Maine Health Data Processing Center to remove the phrase "Maine Health Information Center" and replace it with "Onpoint Health Data," the new name of the organization. It modifies the composition of the Board of Directors of the Maine Health Data Processing Center.

It restructures the laws governing reports produced by the Maine Health Data Organization and removes the requirement that the organization publish a notice of the availability of these reports at least once per year in the 3 daily newspapers of the greatest general circulation published in the State.

It also clarifies what constitutes an undisputed health care claim submitted by a health care provider or health care facility to a carrier and specifies fields in the claim that must be filled. The language also stipulates that if the claim does not conform to the requirements and does not contain any one of the required fields, the provider or facility may not request payment directly from the insured and must resubmit the claim to the carrier.
