Funds related to administration may be expended only in accordance with allocations approved by the Legislature for administrative expenses directly related to the office's and the department's programs, including actions by the department necessary to abate threats to public health, safety and welfare posed by the disposal of solid waste. Funds related to fees imposed on the disposal of construction and demolition debris and residue from the processing of construction and demolition debris may be expended only for the state cost share to municipalities under the closure and remediation cost-sharing program for solid waste landfills established in section 1310-F. Funds related to operations may be expended only in accordance with allocations approved by the Legislature and solely for the development and operation of publicly owned facilities owned or approved by the office and for the repayment of any obligations of the office incurred under article 3. These allocations must be based on estimates of the actual costs necessary for the office and the department to administer their programs, to provide financial assistance to regional associations and to provide other financial assistance necessary to accomplish the purposes of this chapter. SUMMARY

This amendment, which replaces the bill, is the majority report of the committee. The amendment establishes fees on the disposal of construction and demolition debris and residue from the processing of construction and demolition debris. Beginning January 1, 2013, the fee imposed will be \$1 per

ton, and beginning January 1, 2014, the fee imposed will be \$2 per ton. It exempts construction and demolition debris and residue from the processing of construction and demolition debris disposed of at small municipal and regional association landfills from the fees. It provides that funding from the fees may be expended only for the State's obligations to municipalities under the closure and remediation cost-sharing program for solid waste landfills. It provides that the statutory waste handling fees are imposed for solid waste that is disposed of at state-owned landfills.
