## SUMMARY

This amendment, which is the minority report, strikes from the bill the following:

1. The change to legislative findings under the Maine traveler information services law;
2. The definitions of "outdoor area" and "principal structure" for purposes of determining distance for placement of on-premises signs;
3. The increase of the distance that a sign may be erected from a principal structure of a business or point of interest from 1,000 feet to 1,500 feet;
4. The provision allowing on-premises signs to be placed within 20 feet of the edge of the paved portion of certain public ways with more than 2 travel lanes only if the signs are erected using approved breakaway mounting devices;

5. The provision repealing the authority of the Commissioner of Transportation to waive the prohibition on the placement of certain on-premises signs within 20 feet of the edge of the paved portion of certain public ways;

6. The increase of the number of approach signs, from 2 to 3, a business or point of interest may have on its lot of record if that business or point of interest is not visible from the nearest public way or is located more than 1,000 feet from a public way intersection and the expansion of the limit of the total surface area to 100 square feet per side;

7. The provision allowing changeable signs to be erected adjacent to and for viewing from the interstate highway system; and

8. The increase of the maximum height of on-premises signs statewide from 25 feet to 35 feet above grade.

The amendment allows changeable signs to change once every 5 minutes, instead of once per minute as proposed by the bill; current law limits the change to once every 20 minutes.

The amendment also adds signs of a public facility, as defined by the Maine Revised Statutes, Title 27, section 452, subsection 5, to the list of categorical signs that may be erected and maintained without license or permit.
