## SUMMARY

This amendment changes the description of the course work that must be completed by mental health clinicians from spousal or partner abuse screening and referral strategies to family or intimate partner violence screening and referral and intervention strategies and changes the licensure requirements and license renewal requirements for psychologists, clinical professional counselors and clinical social

workers by reducing the number of contact hours of course work that must be completed in family or intimate partner violence that address screening, referral and intervention strategies. It also adds a provision to allow an applicant for initial licensure that is unable to demonstrate completion of the family or intimate partner violence course work at the time the initial application is submitted to demonstrate to the board that this requirement has been fulfilled upon the candidate's first application for license renewal. It also clarifies that the course work requirements that must be demonstrated at the time of license renewal are to be completed only once.
