Amend the bill in section 1 in §3300-D by renumbering the subsections to read consecutively.

SUMMARY

This amendment retains most provisions of the bill and does the following.

1. It allows the Board of Licensure in Medicine to register a physician not licensed to practice in the State to provide consultative services through interstate telemedicine.

2. As in the bill, it requires that the physician to be registered must be fully licensed without restriction to practice medicine in the state from which the physician provides telemedicine services.

3. It specifies that the physician to be registered may provide only consultative services and that a physician, advanced practice registered nurse or physician assistant in this State must retain ultimate authority over the diagnosis, care and treatment of the patient.

4. It requires that the physician to be registered register with the board every 2 years, instead of annually as in the bill, and pay a registration fee not to exceed \$500.
5. It removes the provision in the bill exempting certain physicians from the registration requirement.
