### **SUMMARY**

This amendment replaces the bill. This amendment clarifies existing law that permits a person that is licensed to manufacture malt liquor, wine or spirits at a facility in the State to sell the product that person produces from the manufacturing facility for off-premises consumption without having to get a separate off-premises retail license. The amendment specifies that the location of the manufacturing facility where off-premises sales of the manufacturer's product occur is not required to be accessed by a separate entrance from the area of the facility that is licensed to serve alcoholic beverages for on-premises consumption.

The amendment clarifies that distilleries and small distilleries are subject to the existing law that requires spirits sold at retail to first be listed for sale and distributed by the State. Finally, the amendment adds a provision reflecting federal law that permits a manufacturer who manufactures at multiple licensed locations to transport the manufacturer's own product between those locations.
