Fiscal Detail and Notes

Increasing the cap on the dollar amount that may be assessed by the Workers' Compensation Board on insurance companies and self-insured employers from \$11.2 million to \$13.0 million beginning in fiscal year 2017-18 may increase the cost to all state government agencies for the workers' compensation portion of personal services expense. The fiscal impact on the State's self-insured program can not be determined at this time and will depend on the actual amount assessed.

Additional costs to the Workers' Compensation Board to conduct the required study and submit the required report can be absorbed within existing budgeted resources.
