An Act To Establish Universal Health Care for Maine

CONCEPT DRAFT SUMMARY

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to establish a single-payor, universal health care system in the State. Portions of the system will be based on the single-payor system in place in Vermont and the single-payor proposals submitted previously in Maine and Colorado. The single-payor system proposed in this bill will also be responsive to any changes made on the federal level to the federal Affordable Care Act.
