## SUMMARY

This amendment replaces the bill. The amendment provides that private schools, including private schools that do not enroll at least 60% publicly funded students, may operate as approved private schools without undergoing the Department of Education's basic school approval process or meeting the requirements of the system of learning results if they are accredited by a New England association of schools and colleges. The amendment also requires a private school that enrolls 60% or more publicly funded students to meet the requirements of the system of learning results before being approved for receipt of public funds for tuition purposes.
