An Act To Promote Small Diversified Farms and Small Food Producers

Fiscal Note for Senate Amendment " " to Original Bill

Sponsor: Sen. Davis, Sr. of Piscataquis

Fiscal Note Required: Yes

Fiscal Note

Minor revenue increase - General Fund

Fiscal Detail and Notes

This amendment removes meat, poultry, and fish from the definition of "farm food product". The removal of certain products from the definition of a "farm food product" would subject the producers of those products to the licensing and inspection requirements of the Department of Agriculture, Conservation and Forestry. Revenue from issuing these licenses will increase General Fund revenue by a minor amount.
