### Preliminary Fiscal Impact Statement

Current biennium cost increase - General Fund

Current biennium cost increase - Federal Expenditures Fund

#### Fiscal Detail and Notes

This bill directs the Department of Health and Human Services to provide for an enhanced crisis stabilization reimbursement rate under the MaineCare program for medically monitored crisis support and intervention provided to persons 18 years of age or older with mental health and co-occurring substance use disorders who voluntarily seek treatment. The department will need to update rules which will include a rate review to identify the rate or rates for this service, who will qualify for the services and which providers will be eligible to provide the service. As the rate for the service and how many individuals would voluntarily seek treatment are not known, no estimate of the cost of this change is made at this time.
