#### Fiscal Detail and Notes

Under current law, antlerless deer are harvested by issuing free any-deer permits, which allow hunters to take either an antlered or antlerless deer in designated wildlife management districts. This bill ends the use of the free any-deer permit and creates a \$12 antlerless deer permit. Revenue from the permits will be credited to the Deer Management Fund (DMF) in the Department of Inland Fisheries and Wildlife to be used to acquire and manage deer wintering habitat. Using an estimate of 67,587 permits, the new \$12 fee will generate \$811,044 annually beginning in fiscal year 2022-23. The bill includes a corresponding allocation to allow expenditure of the additional revenue.
