**Fiscal Detail and Notes**

This bill extends deadlines related to the reuse and recycling of construction and demolition debris, allowing oversized bulky waste to continue being accepted at the current tipping fee of \$2 per ton until July 1, 2027. The Department of Environmental Protection estimates that approximately 75,000 tons of eligible waste will be accepted under these provisions, generating an estimated \$150,000 in additional Other Special Revenue Funds revenue in fiscal years 2025–26 and 2026–27. The bill includes one-time allocations to authorize the expenditure of the additional revenue.
