Fiscal Detail and Notes

The bill includes a General Fund appropriation to the Department of Health and Human Services of \$2,249,459 in fiscal year 2026-27 to retroactively reimburse MaineCare members who received services from a federally prohibited under Section 71113 of Federal Law H.R. 1, provided after 7/1/2025. One Comprehensive Health Planner II position is also established to oversee and administer the annual public health funding grants.

This bill also includes language that \$5,000,000 in ongoing funding beginning in fiscal year 2027-28 will be provided to provide management and oversight of family planning services. The department has also suggested they would require a position to handle this additional grant funding. As the current legislature cannot appropriate funds in a future legislature, this funding, including the position, will not be part of the programs baseline and will need to be requested in a future budget.
