Fiscal Detail and Notes

The Department of Health and Human Services will require General Fund appropriations of \$57,490 in fiscal year 2025-26 and \$59,709 in fiscal year 2026-27 to establish one Health Services Consultant Position in the Office of MaineCare Services. Federal Expenditures Fund allocations will also be required for the FMAP match.

Allowing health care providers licensed in another state to provide telehealth services to a patient in the State under certain conditions may result in a loss of revenue to boards within and affiliated with the Department of Professional and Financial Regulation impacted by this legislation due to a reduction in licensing and other fees. The impact can not be estimated at this time.
